EXCLUSIVE DEALS ONLY FROM WORKSHOP SOLUTIONS

Garage Equipment,
Training & Technology

One call for complete peace of mind - Workshop Solutions

Your business is your livelihood. We understand that and we care. At Workshop Solutions we provide you with all the equipment; service, repair and maintenance programmes; assistance with health & safety procedures and project planning skills you need all in one place. We are the equipment and service provider of choice to many motor manufacturer groups, independent garages and bodyshops nationwide. From a new compressor to an MOT bay, comprehensive building works to aftersales servicing and maintenance, Workshop Solutions manages the whole process, ensuring a smooth, hassle-free, one-stop service that is delivered on time and on budget.

The Latest Technology
from the Best Brands

We aim to provide you with the tools, equipment and service that match both your personal expectations and your business requirements.

Waste Management
- Keeping you fully compliant and stress free

Our panel of finance houses can spread the cost tax-efficiently

Health & Safety
- Safeguarding your people and your business

From preventative maintenance plans to emergency call-outs

Please contact our Equipment Service & Maintenance team on 01527 882 778 to arrange an initial free, no obligation consultation.

Buy or Lease with Confidence

All of us at Workshop Solutions aim to provide you with the tools, equipment and service that match both your personal expectations and your business requirements. We're also with you for the long haul, understanding that delivering true value comes from developing good long-term relationships.

Put simply, if we can ensure that every pound you spend on garage equipment has the potential to bring you the maximum returns then you might think of us next time you're in the market for equipment.

That's why we only use suppliers who can offer a comprehensive warranty service and update backup for the life of the equipment.

We will also arrange demonstrations wherever possible and offer advice on the best products and services to suit your business.

OUR PROMISE:

- We make sure the equipment you buy is right for you.
- We only put products in front of you that we know are fully supported in the UK by the manufacturer.
- We provide you with the best possible service now and in the future.

THE ADVANTAGES OF LEASING

1. PAYMENTS ARE TAX DEDUCTIBLE

Lease payments are classed as a rental or business expense and therefore can be offset against profits made over the financial year.

2. ABILITY TO HAVE THE BEST PRODUCT AVAILABLE

Choosing the cheaper option can prove to be a false economy as that equipment often needs replacing sooner than the best quality product available to you.

3. PAY AS YOU EARN

Most equipment either saves you money or makes you money, therefore the equipment pays for the lease as it works for you.

4. PAYMENTS ARE FIXED

Fixed payments make it easier for you to budget and plan your major purchases.

5. IMPROVES CASH FLOW AND PROTECTS OTHER CREDIT LINES

By leasing equipment you can protect your cash and other lines of credit.

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until December 31st 2015. Prices correct at time of going to press: August 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

AUTOLOGIC – NEW & EXCLUSIVE FOR WORKSHOP SOLUTIONS

Autologic Support Team at Oxfordshire Headquarters

NEW PRODUCT: MULTI-MAKE*, OEM-LEVEL DIAGNOSTICS WITH LIVE SUPPORT SERVICE

AUTOLOGIC ASSIST: FROM FAULT TO FIX - FAST

Introducing Assist, a unique set of fix and support capabilities designed to dramatically improve your ability to diagnose more cars, faster and more profitably.

THE SOFTWARE

Brands covered: BMW, Mercedes, VAG, Jaguar, Land Rover, Peugeot/Citroen/Renault/Dacia and Volvo

* 7 OEM-like diagnostic applications

ASK FOR AN ON-SITE DEMO

Every year cars get more complex and harder to service and repair. Identifying root causes can take hours; even days. In recent research, we discovered that up to 25% of cars may never be diagnosed correctly. This situation creates unhappy customers and dramatically impacts repair shop profitability.

Assist was developed in direct response to this increasing complexity. With two central offerings; Assist Support and AssistPlus, you can increase your workshop's profitability and customer satisfaction.

It's like having a dealer-trained Master Technician in your repair shop, right when you need them - and not on your payroll.

We estimate that with Assist, you can save an hour a day, which amounts to a saving of nearly £16,500 every year based on typical labour rates of £60 an hour. This means you have a full return on your investment within the year.

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until December 31st 2015. Prices correct at time of going to press: August 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

WHAT DO AUTOLOGIC ASSIST OWNERS SAY

"It's like having a team of factory-trained technicians standing next to you whilst you work on a car!"

"With the help of Autologic, we do not just hand back a customer's car that's had some work done on it; we time and again hand back a car that's been repaired to a standard that's way beyond the customer's expectations!"

"We don't do the head scratching anymore, we diagnose quickly and start to fix. If in doubt we just call in the specialist tech guys at Autologic"

"My guys now have the confidence to take on complex diagnosis work, we keep our technical advice gurus secret from our customers!"

"Seriously, we don't need to advertise anymore!"

ASK FOR AN ON-SITE DEMO

UNDER LIVE SUPPORT

Assist Support is staffed by dealer trained Master Technicians, who provide the help you need to fix cars faster and more profitably. Assist Support gives you access to:

TECHNICAL SUPPORT

- Symptom assessment
- Fault code interpretation
- Log file analysis
- Diagnostic and Fix pathways
- A detailed AssistReport so you can pass on the costs of Assist to your customers.

GUIDED PASS THROUGH

- Setup assistance
- Pass Through programming support
- Online wizard access
- Pre/Post Programming Health checks

TOOL SUPPORT

- Onboarding and device usage support
- Guidance on Manufacturer-specific procedures

REGULAR DIAGNOSTIC SOFTWARE UPGRADES

- Updates to Chassis Roadmap
- Updates to Variant Roadmap
- Updates to ECU Coverage Roadmap

THE HARDWARE

AssistPlus is the companion diagnostic platform for premium European-designed vehicles. Delivering OEM-like diagnostics, combined with third-party information sources and industry-standard Pass Through capabilities, AssistPlus gives you the best possible experience of Assist.

- 7 OEM-like diagnostic applications
- Live connections to Assist Support Technicians direct from the device
- Simple viewing and sharing of vehicle information
- Vehicle data
- Fault codes
- Live technical data
- Pictures and video
- Assist Online
- A self-service online job management system, to log and track your diagnostic issues directly on the device
- A Pass Through J2534 dongle
- Enabling you to connect to the OEM's own systems.

REDUCE THE COST OF YOUR TRAINING WITH WORKSHOP SOLUTIONS!

WITHIN THE AUTOMOTIVE INDUSTRY TRAINING IS A KEY ELEMENT THAT HELPS COMPANIES SURVIVE, DEVELOP AND PROSPER

Don't consider training as a cost. Training presents a prime opportunity to expand the knowledge base of all employees, training provides both the business as a whole and the individual employees with benefits that make the cost and time a worthwhile investment.

IMPROVE EMPLOYEE PERFORMANCE
– CONFIDENCE TO WORK FASTER

INCREASE SKILL SET – TAKE ON JOBS
YOU PREVIOUSLY MAY STRUGGLE WITH

SATISFACTION – GROW YOUR REPUTATION
AND CUSTOMER RETENTION

With the ever-increasing complexity of vehicles, components and a shortage of skilled individuals, there has never been

a greater need for garages to invest in training their technicians. It is essential that trainee automotive technicians keep up to date with new developments in technology and software packages. Workshop Solutions can now give you access to the full range of Bosch Diagnostic Technician and Master Technician Courses. Not just Diagnostics but AC, Braking, Transmission etc. Course dates are available throughout the year.

Completion of the training programme enables your technicians have the necessary skills to sit an **ATA Accreditation**.

More information about the ATA Light Vehicle Maintenance and Repair route can be found here:

<http://ata.theimi.org.uk/light-vehicle-maintenance-repair-route>

Call your Branch to discuss your training requirements.

BUILD YOUR BOSCH PACKAGE, CHOOSE ONE FROM EACH SECTION

SOFTWARE SUBSCRIPTION

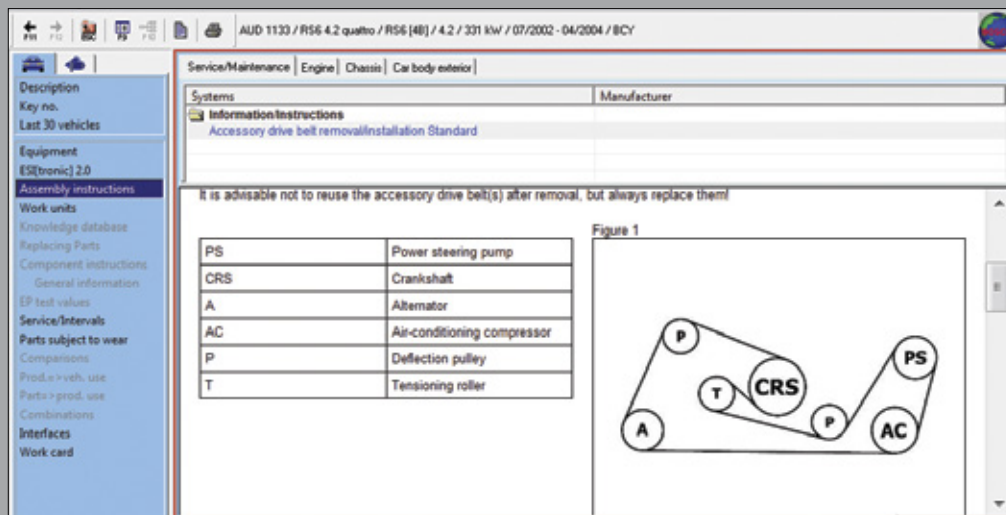

ESI[tronic] 2.0 is the all-makes diagnostic & repair software from Bosch.

Bosch employs over 350 engineers working on ESI[tronic] vehicle coverage worldwide and has been creating diagnostic software for over 25 years.

ESI[tronic] communicates to a vehicle using a Bosch KTS product and covers many areas of vehicle repair & maintenance.

Works on any Windows laptop running Windows Vista or newer.

THE MAIN ESI PACKAGES ARE:

SD DIAGNOSTICS

Enables users to:

- Read Fault codes
- Erase Fault codes
- Collect Actual Data Values
- Actuate Components
- Carry out Function Tests
- Carry out service functions such as service lights, dpf, handbrakes, batteries and windscreens
- Carry out some coding

SIS TROUBLE SHOOTING

Identifying a fault code is just the tip of the iceberg in a vehicle repair process. Trouble shooting is the solution to guide you to the root cause of the problem. It can guide the user from the fault code, real time data or symptoms through a number of tests to the root cause of the problem. It integrates the multimeter and scope (fitted to the KTS) to the guided diagnostics. SIS gives the user all of this in addition to the base SD package.

MP MASTER PACK

Trouble shooting takes users to the root cause, but users will need:

- Wiring diagrams for body electrics
- Technical bulletins
- Installation information
- Mechanical and service information
- Torque settings
- Locations and pin information on components

This will give the user a one stop shop for all diagnostic needs saving £ on other systems and products.

ECP NUMBER	PACKAGE	DESCRIPTION	PRICE	WEEKLY FROM

TABLET/LAPTOP

DCU 100
355 77 7580

DCU 100 tablet PC is designed to be used in automotive workshops. Based on many years' experience in the field it reflects the demands of our customers. This rugged tablet DCU 100 has been specifically designed to be used with ESI[tronic] 2.0 and comes with Windows POSReady 7 installed as operating system. Very easy for to use with a large 10" touch screen interface this great midrange platform.

TECHNICAL DATA:

CPU: Intel Atom N2600 1.6 GHz, Dual Core with Hyper Threading
Storage and Memory: RAM - 2 GB DDR3, 320 GB HDD, 2.5" SATA
SD slot: 1 slot for SD memory card
Display: 10" Resistive Touch screen TFT colour monitor, 1024 x 600 dpi
VGA: VGA connection for external monitor
USB: 2 x USB 2.0 High Speed with high output current
Connectivity: IEEE802.11 b/g/n WiFi, 10/100 Ethernet, Bluetooth Class 1
Dimensions: 361 x 222 x 49 mm
Weight: 2Kg

ONLY £1,695
WEEKLY FROM ONLY £8.54†

DCU 220
355 77 4690

Combined Tablet / Laptop diagnostic centre:

DCU 220 (Diagnostic Control Unit) combines the features of a notebook with those of a tablet PC for flexible and comfortable working, especially under workshop conditions. When used as a tablet PC, the touchscreen is fast and easy, when a keyboard is needed, the DCU 220 lends itself to being used as a notebook for any kind of usual computer work, such as the quick and easy entry of customer data. DCU 220 controls Bosch test and diagnostic systems, e.g. FSA 500 or the modules from the KTS series.

Carefully thought out details make operation easier

- Easy switch from tablet to notebook mode – continue to work as you change
- Sturdy housing with 11.6" touchscreen monitor – view more data in one go
- Integrated camera: Document and use to show customers or order parts photographed

Mobile work over extended periods

- Inclusion of two identical lithium-ion batteries
- If required, batteries can be replaced without interruption (hot swap function)

Modular concept with the Diagnostic Control Unit

For qualified diagnostics, professional repair and maintenance, Bosch offers the following modular system components: the DCU 220 convertible PC and the KTS 570, the KTS 540, KTS Truck or the FSA 500. These can be freely combined to form a suitable solution for every workshop as for more information.

ONLY £2,395

VCDS DIAGNOSTIC SOFTWARE + CABLE

355 77 1060

VCDS is a Windows-based piece of software that turns your PC into a sophisticated diagnostic tool, capable of diagnosing VW, Audi, Seat and Skoda vehicles.

VCDS is a world-renowned software package that enables you to carry out all the functions of dealer testers and more expensive aftermarket tools.

- Covers latest CANBUS vehicles
- Virtually OEM-level software
- Coding – adaptation features
- Easy to use
- Low-cost solution
- Service reset

ONLY £315.00

VAUXCOM DIAGNOSTIC SOFTWARE & COMMUNICATION CABLE

355 77 1050

PC / Laptop based software replicates almost all the functions of the dealer tool for a fraction of the cost.

Vaux-COM is a Windows based piece of software that turns your Laptop or PC into a sophisticated diagnostic tool, capable of diagnosing GM / Opel vehicles from 1994 to 2014, including Vectra C, Astra H and Insignia.

Covers almost all Vauxhall and Opel cars and light vans and allows you to diagnose almost all modules including the Engine Management, Airbag, ABS, Immobiliser, Instruments and many more.

VAUX-COM can diagnose almost all Vauxhall / Opel systems, and works on almost all models including the latest CAN-BUS and Global A Platform cars.

Models from 1997 to 2014 including Astra H, Corsa D, Vectra C, Captiva and Movano.

ONLY £695.00

SMOKE PRO® – TOTAL TECH®

355 77 0450

The Smoke Pro® Total Tech® is the essential tool for finding EVAP system leaks and many others including:

- EGR Valves
- Gaskets, fittings and hoses
- MAP/MAF sensors
- Worn throttle shafts
- Brake boosters
- Catalytic converters
- Central locking systems
- Diaphragms and seats
- Door and window seals
- Turbos and intercoolers
- Oil leaks
- Cracked or broken plastic components
- Head and tail lamp housings
- Cracked manifolds.

And many more!

MVP PRO KEY PROGRAMMING SYSTEM

355 77 1380

With this great offer, the MVP Pro is completely free to use for the first 6 months.

Great opportunity to expand into this niche and profitable area. With the Pay as You Go, you chose how you want to top your supply of tokens after the first 6 months unlimited has expired. Choose from individual tokens (£27.50 each), bundles of 20 equivalent to (£21.25 each) or unlimited for £195 per month.

- All makes coverage
- Reads immobiliser ECU ID's
- Reads mechanical key codes
- Clears key memories
- Programs new keys
- Programs remote controls
- ECU identification
- Reads fault codes
- Displays live data
- Component actuation
- Internet software updates
- Electronic tokens downloaded from the web
- Technical hotline

PACKAGE INCLUDES

- Base unit (worth £1,895),
- 6 months unlimited tokens (worth £1,995),
- 1 day training (worth £195)
- Total package price £4,085

"Anyone who wants to offer Key Programming now has a step in the door ... at a price any garage can afford"

NOW ONLY **£2,795.00** – WHILE STOCKS LAST!

BAT 490 VERSATILE HIGH-FREQUENCY CHARGER

355 77 2520

Two charging modes for 12V/24V lead-acid batteries i.e: standard program for simple and rapid charging, expert program with flexible charge parameters

- Variable charge current intensity in the expert mode (0-90 A)
- Shorter charging times due to optimized charging process
- Infinitely variable, regulated charging current
- Charging at vehicle electrical system
- Floating-mode operation and backup mode
- Trickle charging to safe guard the battery
- Protection against polarity inversion, overcharge and short circuits

ONLY **£749.00**

GYSFLASH 100:12HF

355 77 8370

Advanced Battery Support Unit / Battery Charger

- Provides instantaneous current up to 100A to support the vehicle during key/on engine off diagnostic work
- Adjustable voltage from 12-14.8V (can support BMW)
- Advanced Charger for AGM/ GEL/ Lead Acid Batteries
- Made in France

NOW ONLY **£599.00**

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until December 31st 2015. Prices correct at time of going to press: August 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

DOES YOUR BATTERY CHARGER MATCH UP TO THE GYS 1,2,3 TEST?

MINIMUM REQUIREMENTS OF A BATTERY CHARGER

- 1. Must be safe to charge the battery without removing it from the vehicle**
 - Protection for vehicle systems
- 2. Must be able to charge all the latest battery types**
 - AGM / EFB / Silver / Calcium / GEL / VRLA
- 3. Must be able to safely charge the battery without requiring the technician to identify the battery type**
 - This is a real world problem - it can be very difficult and time consuming to do this and due to the difficulty inevitable will result in potentially dangerous mistakes

THE 1, 2, 3 TEST

Consider whether battery equipment that cannot pass this test should be in use in your workshop?

NEW!

Designed for charging new generation EFB technology STOP-START batteries!

GYS DIAG STARTIUM 60:24

355 77 8440

Take a Startium and add a powerful 60A Battery Support Unit. Battery Support is now vital when carrying out extended key on engine off diagnostic work.

The Diag Startium will provide up to a massive 60A in support. Its advanced features allow adjustment of voltage 12-15V to enable use with BMW (14.8V).

- 60A Battery Support unit with adjustable voltage
- Peak power 430A
- Made in France

DESIGNED FOR EFB STOP/START BATTERIES

OFFER PRICE **£555.00**

GYS STARTIUM 680E - CHARGER STARTER

355 77 8430

1. Has comprehensive protection functions
2. Has charge capability for each battery type
3. Has 'Universal Mode' for when battery type is unknown

ADDITIONAL FEATURES

- Alternator test
- Automatic start
- Battery desulphation

SPECIFICATION

- Peak power 550A
- 12V/24V
- Made in France

DESIGNED FOR EFB STOP/START BATTERIES

OFFER PRICE **£445.00**

STARTIUM 480E - ADVANCED STARTER/ CHARGER

355 77 8420

- Only product on the market that offers protection for vehicle electronics AND
- Safe to charge modern battery types AND
- Universal mode for when battery type is unknown
- Starting current up to 390A, 12V and 24V

- Crossed-cylinder master – slave system provides an uniform lifting without the need of synchronization cables
- The load is secured at any working height without mechanical ratchet – no need to lift before lowering
- The all-hydraulic system requires no electrical and pneumatic components
- New unique construction – low maintenance and almost wear-free cylinders
- The height can be very precisely adjusted (+/- 1 mm)
- 1 year warranty

ROLLING WARRANTY AVAILABLE

ONLY £2,995.00
WEEKLY FROM ONLY £15.09⁺

CRYPTON C2L3000E

576 77 0240

Baseless 2-Post lift has a robust construction and fully developed technique for reliable and efficient lifting of cars, vans and light trucks up to 3t. 3 Year warranty.

- Two synchronised motors - ensure perfect balance of both lifting columns
- An overhead gantry is not necessary to enable synchronisation; the electric cables can be routed through the floor
- Low wear Nylatron nut and 5 year warranty on spindle and spindle-nut
- Adjustable assymetric lifting arms can swivel 180° to move the vehicle off-centre and allow optimal door clearance and working area
- With no base, the lift has a low lifting point to suit a wide range of vehicles
- 3 years warranty

3 YEARS WARRANTY

COMPRESSOR SIZE GUIDE

Questions to help select the correct size and output of compressor:

- *What is the air to be used for?*
- *What is the max pressure required?*
- *What electricity supply is available (single or three phase)?*
- *What size of compressor is currently in use?*
- *How well does the existing compressor cope?*
- *What are the future plans for additional staff and equipment?*

HOFMANN MEGAPLAN MEGAMOUNT 503XL RACING 583 77 0410

Fully Automatic and boasting a 'top end' specification, the megamount 503XL is capable in any environment. The patented, adjustable turntable enables alloy rims up to 26" in diameter to be clamped from the outside, and the tall column and wide bead breaker opening ensures suitability for extra-wide rims up to 15".

A bead breaker 'stroke limiter' for shallow-welled BMW rims and quick-release, interchangeable demount head system, with standard/run-flat, plastic and 'raised spoke' heads, completes the luxury specification.

- 10" to 28" Clamping (26" external)
- 15" Rim Width Capability
- Quick-Release Demount Head System for Standard/RFT, Plastic and 'Raised Spoke'
- Includes 'megafit 2XL' assist arm
- BMW/Run-Flat 'Stroke Limiter' as standard
- Double-acting bead breaker
- Fully-Automatic Operation

WEEKLY FROM ONLY **£20.13[†]**

EXCLUSIVE FOR WORKSHOP SOLUTIONS

HOFMANN MEGAPLAN MEGASPIN 200V 595 77 7190

The megaspin 200V has to offer one of the best price/performance ratios of any wheel balancer on today's market. Fully-automatic (3D) data input is achieved using the inner measuring/weight placement arm and Hofmann Megaplan's revolutionary IWA (Intelligent Width Assessment) software.

Values are displayed live on the full colour TFT display, and these easy to understand graphics guide the operator to the designated weight placement position, as well as delivering what is probably the simplest, fastest method of 'split weight' (hiding the weights behind the spokes) ever.

- 3D Fully-Automatic Data Input via IWA
- Colour TFT Display
- Can handle rims up to 30" diameter
- Simple, speedy operation
- 3 Year PCB Warranty

ONLY **£2,695.00**
WEEKLY FROM ONLY **£13.58[†]**

BEST PRICE
PROMISE

MEGASPIN 2000

The Megaspin 2000 is, quite simply, the ultimate in wheel balancing and rim/tyre diagnostic technology.

From the moment the wheel is loaded onto the 'Zero Gravity' lifter, which effortlessly allows the operator to raise and slide the wheel onto the shaft, essential data is retrieved in just seconds using sonar and lasers. Imbalance values, tyre conicity, rim and tyre eccentricity, and even tyre tread depth are just an example of the information that can be viewed on the touch-screen TFT display.

- 3D totally touchless input
- Cycle time of 4-5 seconds
- 10"-30" rim size capability
- 1.5" - 20" rim width
- Weight wizard- advanced weight placement
- Auto brake with weight positioning and next position

ONLY **£9,995.00**

CCP800 COMBINED EMISSIONS ANALYSER – FOR PETROL AND DIESEL ENGINES

The CCP800 is a completely integrated gas and smoke emissions analyser, combining state of the art technology, all housed in a high quality, mobile cabinet. DVSA approved for MOT testing on Classes III, IV, V, VII.

- Oil temperature probe, battery RPM measurement (petrol & diesel), modern and effective graphics on the dynamic 23" display screen to guide you through the MOT test, mouse, keyboard and A4 colour printer
- Automatic calibration on smokehead
- 3 & 5 year extended care packages available
- Choose between Cabled or Wireless

More emission analysers stop working over the winter months than at any other time. Trade in your old, tired emissions analyser for a brand new Crypton CCP800 Series.

Hiton Universal Heaters

3 YEARS WARRANTY

NO HASSLE WARRANTY

BEST PRICE PROMISE

WITH EXCLUSIVE 3 YEAR WARRANTY ONLY AVAILABLE FROM WORKSHOP SOLUTIONS

HITON UNIVERSAL OIL HEATERS

Hiton heaters are truly multi fuel and can burn fresh diesel oil only or they feature a switch to alternatively burn waste oil products ensuring they operate at optimum levels (they will also burn fresh bio or vegetable oil).

Suitable for heating large buildings without central heating Hiton multi fuel heaters are an affordable alternative to gas and electric options and usually pay for themselves within two seasons.

- Switchable Multi Fuel mode – Clean diesel oil (red) / waste fuels
- Works on Waste Engine Oil, Hydraulic Oil, Diesel/Red Diesel & Bio Fuel.
- Built in overflow protection of oil in the burner
- Adjustable output - two heat settings
- Up to 90% efficiency with Heat Booster for maximum heat.
- Easy to use - Flue kit supplied for easy installation.

HOFMANN MEGAPLAN ECOLINE 58/88 – FULLY COMPUTERISED WHEEL ALIGNMENT WITH A4 PRINTER

587 77 1340

Bridging the gap between laser alignment and fully computerised systems with printout, which traditionally made the jump too big for many workshops.

Ecoline 58 and 88 are supplied with a comprehensive vehicle database from recognised industry name, Autodata, and offers a before and after printout. The ecoline series is the logical choice for anybody wanting to move into advanced vehicle geometry without the cost traditionally associated with computerised systems.

ONLY ONE ALIGNMENT A WEEK TURNS THIS INVESTMENT INTO PROFIT!

ECOLINE 58/88 FEATURES

- Simple to use – faster readings, saves time increasing your profit
- Supplied with PC, 19" monitor – clear impressive graphics with onscreen instructions
- Onsite training – your machine, your premises Hofmann Megaplan's specialists
- Comprehensive Vehicle Database by Autodata – over 17,000 models from 80 manufacturers
- A4 Printer – Provides before and after readings for customers
- Traditional 4-Point Clamps (58 only) – handles up to 23" rims as standard
- Front Cameras and Rear Sensors – increases accuracy and repeatability
- Zigbee® wireless communication – offers stronger and more reliable signal over Bluetooth®

ECOLINE 88 ONLY FEATURES

- 3 Point 'Grab Clamps' – even faster mounting, saves more time
- Front & Rear Cameras – ideal for advanced geometry when speed is needed

ECOLINE 58 ONLY £3,995.00
WEEKLY FROM ONLY £20.13[†]

ECOLINE 88 ONLY £5,495.00

HOFMANN MEGAPLAN MEGALINE SSENCE 600 3D WHEEL ALIGNMENT SYSTEM

Utilising the proven 'camera and target' principle, the Ssence 600 is fast, simple, and ideal for those customers looking to invest in the latest wheel alignment technology.

The software has been designed to make life as easy for the operator as possible, minimising unnecessary manufacturer-specific procedures commonly found on other systems, and ensuring the whole alignment process is simple, quick and user-friendly.

A comprehensive vehicle database provided by industry-leading name in vehicle data, Autodata, ensures up-to-the-minute specifications, and fully-automatic operation of the up/down movement of the cameras synchronized with the lift put this aligner firmly in the 'premium' spec category.

To set the Ssence further apart, all orders up until 31st December 2015 will have the opportunity to purchase the 'megaTab' handheld, remote display, worth £995, half price – that's just £495! With the megaTab, the customer has the benefit of being able to view and operate the system anywhere around the vehicle or workshop, or show customers in reception exactly what is happening with their vehicle.

- Impressive, easily understood graphics and prompts via 32" monitor
- Fully-Automatic camera bar synchronised with the up/down movement of the lift
- Includes Autodata database
- Includes premium mechanical turnplates
- Comprehensive, on-site training
- Half-price 'megaTab' option all orders until end of 2015

AN INTRODUCTION TO RODCRAFT – MANUFACTURED BY CHICAGO PNEUMATICS

Rodcraft is the brand name that Chicago Pneumatics have successfully used in many countries across Europe and now Euro Car Parts are their chosen partner to distribute their range of Tools throughout the UK. The only difference between Chicago Pneumatics and Rodcraft is that Chicago Pneumatics is red and black and Rodcraft is blue and yellow. Both companies are part of the giant global group Desoutter Industrial Tools who have worldwide manufacturing plants.

Since 1974, the Rodcraft brand stands for high-quality products and services. Founded in Germany, Rodcraft has grown steadily to become one of the world's leading brands of pneumatic tools and workshop equipment dedicated to the vehicle service and industrial maintenance applications.

Through constant investment in research and development, the Rodcraft products feature many patented designs such as our composite sander series and latest impact wrenches. With a strong European-based distribution channel, and local sales offices around the world, Rodcraft covers over 80 countries on a daily basis.

To ensure and guarantee long-life performance, many strict testing and quality inspections are conducted through the tool and equipment design, production and assembly stages.

When buying a Rodcraft product, you can be sure you are choosing quality and performance and getting one of the best designs available on the market today.

1/2" ULTRA COMPACT IMPACT WRENCH – RC2202 571 77 0010

- 1/2" Ultra compact impact wrench
- 610 Nm maximum torque in reverse
- Steel front cover & aluminium body
- Length – 112mm as can size
- Jumbo hammer mechanism
- 3 setting positions in both directions

ONLY £119.99

1/2" HIGH POWER IMPACT GUN THE BEAST – RC2277 571 77 0020

- 1250 Nm maximum real torque in reverse
- Twin hammer mechanism
- Friction ring socket retainer
- Full teasing trigger
- NEW power setting system:
1 hand-operation,
1 position in reverse
& 3 positions in forward
- 360° swivel air inlet

ONLY £159.99

3/4" IMPACT WRENCH – RC2377 571 77 0030

- 3/4" square drive impact wrench
- Injected TPR grip
- 3 positions in forward, full power in reverse
- Great teasing for optimal control
- 1950 Nm max torque
- Composite housing, only 3,38 kg even at this high power level
- Forged DUOPACT mechanism
- Impact mechanism housing made of steel and aluminium
- Swivel air inlet
- Mini grease plug on the front housing

ONLY £239.99

115MM AIR ANGLE GRINDER M14 – RC7166 571 77 0090

Ideal tool when user changes to air tools from electrical tools due to M14x2 spindle that allows use of standard accessories that are usually used on electrical tools

- M14x2 spindle for 115x22 and 125x22 mm (4 1/2" and 5") discs with speed governor
- Side handle (detachable)
- Short construction
- Front exhaust cools angle gear

ONLY £149.99

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until December 31st 2015. Prices correct at time of going to press: August 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

3/8" HEAVY DUTY AIR RATCHET – RC3010

571 77 0060

- Long neck version
- Good power
- Lightweight
- Rear exhaust

ONLY £79.99

6MM AIR ANGLE DIE GRINDER – RC7100

571 77 0080

Compact and versatile tool fits confined areas due to low height of the head

- 6 mm collet
- Height of head only 78 mm
- Reduced noise
- Silencing exhaust hose system

ONLY £69.99

1/2" HEAVY DUTY AIR RATCHET 90NM – RC3600

571 77 0050

Powerful and quiet with exhaust hose and a motor housing with flattened sides allows a perfect grip to allow good control of the tool.

- Rear exhaust
- High speed assembly and disassembly
- Durable power with increased comfort
- Easy access for confined areas

ONLY £89.99

6MM AIR DIE GRINDER – RC7011

571 77 0070

- Comfortable, compact and versatile tool
- Equipped with 6 mm collet
- Rubber insulated handle
- Rear exhaust

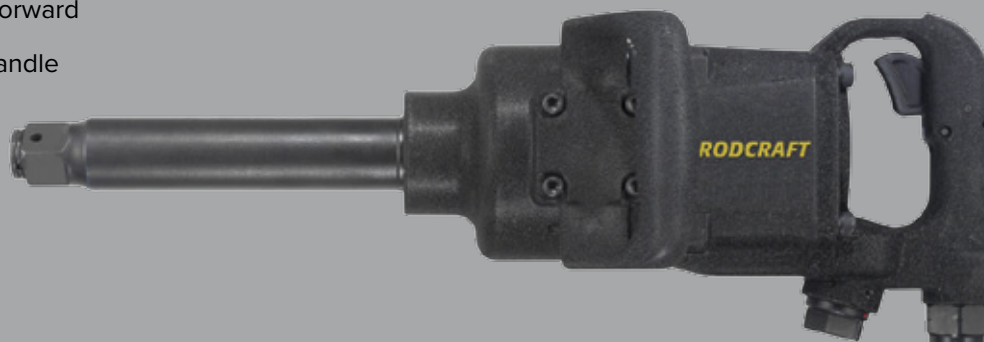

ONLY £59.99

1" IMPACT WRENCH EXTENSION ANVIL – RC2476

571 77 0040

- 1" square drive impact wrench
- Lightweight composite motor housing
- Fast SmartDUOPACT mechanism
- Robust F/R shift with 3 position regulator in forward
- Full power in reverse - 2800 Nm max,
- Ergonomic and insulating rubber areas on handle

ONLY £299.99

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until December 31st 2015. Prices correct at time of going to press: August 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

**BR 40/10 C
HEAVY-DUTY FLOOR SCRUBBER DRIER**
546 77 108D

**£150 WORTH OF CONSUMABLES WITH
EVERY SCRUBBER SOLD THIS AUTUMN!**

Kärcher's BR 40/10 heavy duty scrubber drier makes cleaning small to medium hard floors easy, delivering outstanding results and helping to keep your workshop safe and compliant with VOSA regulations. Featuring twin counter-rotating brushes and twin rubber squeegees, the BR 40/10 cleans and dries hard floors in a single pass. By turning the vacuum system off, the machine can be used for deep cleaning of heavily soiled areas.

Working width - 400mm
Fresh/dirty tank - 10Ltr
Power - 2170W (240V)
Area - 400m² p/h

ONLY £1299.99

**HDS 6/12 C
BEST-SELLING HOT WATER PRESSURE WASHER**
546 77 1740

The HDS 6/12 C is a powerful hot water high-pressure cleaner with steam function suitable for deep cleaning of vehicle exteriors and chassis. Featuring ecoefficiency mode for up to 20% fuel savings compared with previous models. Unlike other machines in its class the 6/12 delivers detergent at high pressure for a more powerful clean.

Motor - 3.0 kW (240V)
Water flow - 240 - 560Ltr/h
Pressure - 30-120 bar
Max temp - 155°C

ONLY £1499.00

**HD 6/13 C
HEAVY-DUTY COLD WATER PRESSURE WASHER**
546 77 8000

Kärcher's HD 6/13 C Plus is a compact and powerful high pressure cleaner designed for the demanding cleaning requirements of the automotive industry. High water flow and pressure ensure thorough cleaning results even when tackling the most stubborn dirt. With variable water pressure, triple nozzle and Dirtblaster nozzle as standard, this machine offers high performance cleaning producing fantastic results and offering quick turnarounds.

Motor - 2.9kW (240V)
Water flow - 590Ltr/h
Pressure - 190Bar
Hose reach - 10m

ONLY £449.95

PUZZI 8/1 C PRO UPHOLSTERY CLEANER
546 77 8010

The Puzzi 8/1 C is a powerful and compact spray extraction cleaner, ideal for vehicle valeting and spot cleaning of carpeted floors. Thanks to its lightweight construction, the unit can be easily transported and due to its excellent suction power, the Puzzi 8/1 C leaves carpets and upholstery virtually dry to touch in minutes.

Motor - 1200W (240V)
Air Flow - 61 l/s
Capacity - 8+7Ltr tank

ONLY £269.99

*Based on a five-year lease agreement. Subject to status. Full terms and conditions available on request. Other lease terms and finance options available on request. Offers valid until December 31st 2015. Prices correct at time of going to press: August 2015. Prices exclude VAT, VAT will be applied at current rate. Errors & omissions excluded.

SAMOA COMBINED WASTE OIL SUCTION AND GRAVITY DRAINER 100LTR

536 77 0370

Mobile waste oil suction unit, 100Ltr capacity.
Ideal use with all type of passenger cars, trucks, tractors, etc.

- 100Ltr (26 gallons) capacity, with side level gauge
- Large tray for tools, washers, filters, etc. on top of the tank, with special holders for suction connectors
- High performance and low noise vacuum pump
- One piece moulded spoiler for securing the discharge hose
- Two reinforced casters and two reinforced wheels
- Composite and steel telescopic collection bowl with 360° adjustable oversized extension for wider reach
- Anti-splash grid that can hold used filters for draining
- Complete suction canes and adapters kit with holder
- Holder can be removed for cleaning
- Steel tank with epoxy powder coating

ONLY £499.00

SAMOA MOBILE WASTE OIL RECEIVER 100 LTR, PUMP DISCHARGE

536 77 0410

The unit is discharged with a 1:1 pressure ratio pump, located at the back of the unit, through a 1.5 m discharge hose with a dry break quick coupler

- 100Ltr (26 US gallon) capacity, with side level gauge
- Large tray for tools, washers, filters, etc. on top of the tank
- One piece moulded spoiler for securing the discharge hose in pressure discharge models
- Two reinforced casters and two reinforced wheels
- Composite and steel telescopic collection bowl, with 360° adjustable oversized extension for wider reach
- Anti-splash grid that can hold used filters for draining
- Steel tank and collection bowl with epoxy powder coating

ONLY £499.00

M12 CIW38-202C – M12 FUEL™ COMPACT 3/8" IMPACT WRENCH

MIL40578

- The Milwaukee® DRIVE CONTROL™ allows the user to shift into two different speed and torque settings to maximize application versatility
- Mode 1 for precision work
- Mode 2 delivers maximum performance for the toughest applications
- Individual battery cell monitoring optimises tool run time and ensures long term pack durability
- On board fuel gauge and LED light
- Flexible battery system: works with all Milwaukee® M12™ batteries
- Supplied with 2 x batteries and a charger

ONLY £179.99

M12 BPS-421X – M12™ SUB COMPACT POLISHER/SANDER

- Variable two speed selection (0-2800 / 0-8300 RPM) for both polishing and sanding applications
- Large capacity of 76 mm polishing sponge and 50 mm sanding pad size for fast job completion
- Long run time allows frequent task completion with one battery charge
- Compact design with only 130 mm allows access to hard areas
- Spindle lock allows fast, tool free accessory change
- Detachable 2 position side handle
- Flexible battery system: works with all Milwaukee® M12™ batteries

ONLY £159.00 MIL447802
NAKED TOOL ONLY £99.99 MIL447791

M12 IR-201B – M12™ SUB COMPACT IMPACT RATCHET

MIL448110

- Best in class power and speed with 47 Nm of torque and a no load speed of 250 rpm
- Reinforced housing - provides high durability similar to steel ratchets
- Compact design - ideal for tight spaces and small engine bays
- Variable speed metal paddle switch trigger - provides greater user control during application
- Individual battery cell monitoring optimises tool run time and ensures long term pack durability
- On board fuel gauge and LED light - added user convenience and illumination in low lit working conditions
- Flexible battery system: works with all Milwaukee® M12™ batteries
- Supplied with 2 x batteries and a charger

ONLY £189.00

M12 HV-0 – M12 SUB COMPACT STICK VAC

MIL448390

- Excellent suction power (31.1 mbar) for wood, metal and common debris
- Clear viewing window gives the user the ability to see debris build up
- Compact design makes it easy to clean in tight spaces
- Secure canister lock guards against unwanted spillage
- 934Ltr/min air volume with 56 meter per hour airflow speed
- 0.6Ltr capacity of solid debris
- 22.5 mm hose diameter
- Supplied with utility nozzle, extension wand & crevice tool

NAKED TOOL ONLY £59.00

M12 BDDX KIT-202C – M12™ SUB COMPACT DRILL DRIVER WITH REMOVABLE CHUCK

MIL447773

- Milwaukee® high performance sub compact 4-in-1 drill driver system for extreme versatility
- Removable chuck system with 3 different heads for multiples of applications
- Standard 10 mm keyless chuck, full metal right angle 1/4" hex drive head and full metal off set 1/4" hex drive head
- 1/4" hex drive behind chuck fitting, reduces drill length to 153mm when required
- Full metal planetary gearbox transmission for extreme durability
- LED light for workspace illumination
- Supplied with 2 x batteries and a charger

ONLY £159.00

FIWP12 / FIWF12 / FIWF38 M18 FUEL™ WRENCHES 1/2" IMPACT WRENCH WITH PIN DETENT, 1/2" / 3/8" IMPACT WRENCH WITH FRICTION RING

- Milwaukee® designed and built brushless POWERSTATE™ motor
- The Milwaukee® DRIVE CONTROL™ allows the user to shift into four different speed and torque settings to maximize application versatility
- Mode 1 for precision work
- Mode 2 helps prevent damage to fasteners and material
- Mode 3 delivers maximum performance for the toughest applications
- Mode 4 intelligently detects when the tool has impacted on a fastener for one second automatically shutting the tool down, reducing overdriving and damaging materials
- Supplied with 2 x 5.0 Ah REDLITHIUM-ION™ battery pack, fast charger and Dynacase
