# TREND ALERT

## PARTICLE POLLUTION AND YOUR SKIN

### Why It's Time for a Deep Detox

Chances are you've heard and read about the rising concerns over global air pollution and its effect on human health and wellness. As the biggest single environmental health risk in the world, air particle pollution is now being linked to visible damage on skin as well.

Each and every day, we are exposed to toxins and allergens from smoke, fumes, dander, sweat and bacteria. These pollutants can build up on skin to not only clog pores, they can cause deeper skin cell damage and premature signs of aging from skin's natural inflammatory response to free radical attack. Acne, blemishes, sensitivity, fine lines, wrinkles, thinning or sagging skin are just some of the visible effects of chronically polluted skin.

Now, there is a way to break down the build up and boost skin's natural defenses.

New!

## Purifying Skincare

Doctor developed and clinically tested, the **Purifying** line is like a daily deep detox regimen for skin.

Specially designed for oily, active or urban skin types, Purifying formulas work naturally to draw out toxins, replenish vital nutrients and restore skin's own resistance to oxidative stress.

Plus, the line is fragrance-free, allergy tested and made with minimal ingredients, so it's safe for even sensitive skin.

## Purifying Power Blend

The Purifying line contains a unique combination of highly effective ingredients intended to boost skin's natural defenses against accelerated visible damage and aging caused by pollution, UV rays and lifestyle factors.

- **Kimarine® Wakame and Bladderwrack** marine algae help boost skin purity and resiliency
- **Activated Charcoal** draws out toxins from skin's surface down to the pores
- **Green Tea** delivers potent antioxidant defense
- **Aloe Leaf Juice** revives skin with fresh, healthy hydration

- 100% vegan
- cruelty-free
- paraben-free
- gluten-free

For hundreds of years bamboo leaves have been used in both Chinese and Ayurvedic medicinal teas. Not only is it a sustainable crop with many uses, it can be used as a tea that's good for you!

The Uncle Lee's Tea Company prides itself on bringing you the best eastern traditions in tea and blending it with a western sensibility to make it more accessible to everyone. In our 60 years of experience, our passion for tea in its many forms knows no limits.

### What is Bamboo Tea?

Bamboo tea is an herbal tea that is caffeine free, rich with vegetable silica and fiber. Organically grown bamboo is harvested and dried, then cut and blended and packaged into teabags for convenience. The natural flavor of bamboo tea is sweet, complex with mildly grassy notes.

### Why drink Organic Bamboo Tea?

Bamboo tea is great for maintaining hair and nail health. It's also a good source of micronutrients and antioxidants that help you maintain a healthy lifestyle.

Bamboo leaves have some of the highest concentrations of vegetable silica, the mineral that makes bamboo grass grow strong, tall and flexible. Bamboo leaf teas also contain about 1 gram of soluble fiber per 8oz cup.

# Stuffy Nose Strips™

A Natural Approach for Stuffy Noses.

*"Best product ever invented!"*

-Sunny

## What are Stuffy Nose Strips?

Stuffy Nose Strips are the Next Generation of Nasal Strips! Invented by a Doctor who treats Sleep Apnea, Stuffy Nose Strips are based on a Proven Medical Technique known as the Cottle Maneuver. This technique is used by ENT's and Plastic Surgeons to open the Nasal Valves/Nasal Passages.

Stuffy Nose Strips Go on the Cheeks, not over sore noses, and work by gently pulling the skin to the left and right of the nostrils (Nasal Labial Folds) to pull open the airways.

These innovative External Nasal Dilators provide a Natural Drug-free approach to increasing airflow and provide instant relief of Nasal Congestion to due to Allergies, Colds/Flus, Sinus Issues, Deviated Septums and Snoring.

## Why Stuffy Nose Strips?

- No Sticky Residue or Painful Removal
- Do not come off at Night
- Natural Drug-Free Approach for Nasal Congestion
- Addresses Deviated Septums in a more efficacious manner versus other brands that attempt to lift nostrils upwards vs pulling left or right in the opposite direction of the deviation.
- Unlike Breathe Right and other Nasal Strips our Strips Go on the Cheeks not Over Sore and Irritated Noses
- 80% of the Population in the US has a Deviated Septum \*American Academy of Otolaryngologist

## Testimonials

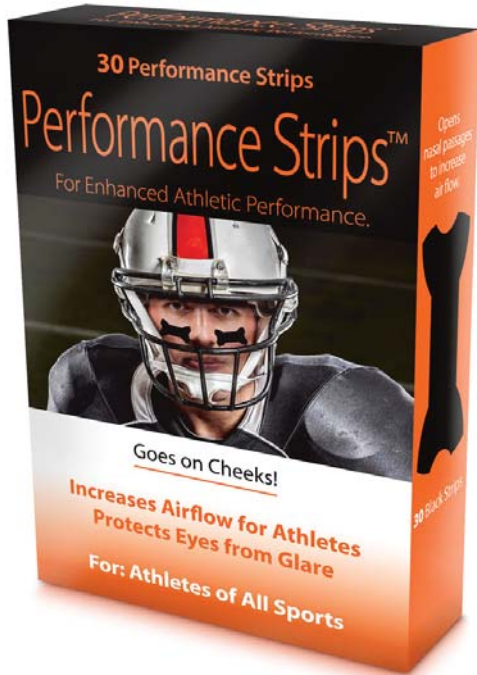

"This product is AMAZING! I wear these to bed and my breathing is instantly opened up. My husband said it helped with my snoring as well. I recommend these over Breathe Right. They stay on much better and way more effective. Thank you Stuffy Nose Strips finally a product that works the way it says it does!"  
- Amanda

"I bought a box of Stuffy Nose and after two sinus surgeries, allergies for ten years and so much trouble sleeping THANK YOU for this product. I'm able to get beter sleep than I've had in a few years. Much better for me than the strips that go over the nose. Thanks again I will be ordering more".  
- William

"These strips are Awesome! I have seasonal allergies and my nose gets stuffy all the time. Well I have tried the strips that go across your nose and they always end up stuck on my pillow or in my hair. When I saw these strips I realized they were different and I was pretty excited to give them a try. They are easy to put on and best part is they stay there! They don't pop off like the other brand that has a wire in them. They open your nasal passages in a different way by gently pulling from the left and right. It works and is really comfortable and find these strips to be VASTLY SUPERIOR to the other brands. I have used them for several nights now and they are really helping me breathe through my nose. I havent had to take any of my Claritin. I will be reordering them soon."

## What are Performance Strips?

## Testimonials

"I play baseball and football and I have been able to utilize Performance Strips for both. It not only helps open my nasal passages but provides sun glare protection. For football it's been great because I usually end up with a cold or allergies and this helps increase oxygen flow. The best part is they stay put through sweat and rain unlike Breathe Right and they pull off gently. Great multipurpose tool for the overall athlete. Much better than messy eyeblack while having the advantages of opening nasal passages."

- Matt

"Considerably better than Breathe Right!!! As a regular user of Breathe Right strips for years I enjoy playing all sports but have an extremely deviated septum. With having these on I can actually breathe like never before. I saw Performance Strips featured on HBO's Hard Knocks and figured we would give them a try. Wow, was I impressed. There was a noticeable difference between these and the breathe right strips. Not only do Performance Strips open up my airways a lot more and they stay put but they protect my eyes!! It has definitely enhanced my athletic performance! If you are an athlete, I would definitely recommend trying them."
