Questions?

### Online Merchant News

When your business accepts credit cards, compliance is a top priority and it's a requirement. Credit card fraud and electronic theft are very real threats that can lead to devastating losses for both businesses and consumers. We have payment processing solutions designed to meet your specific business needs, regardless of the industry your business serves.

### Online Biz News

We don't need to tell you, these days times are tough. With the recession still going strong, unemployment and the housing crisis, everyone is looking for a way to earn top income despite the problems of today. At Online Biz News we have perfected a unique and daring strategy for earning Executive Level Income right from the comfort of your own home!

Do you want the information that can put you on the path to financial freedom? Simply fill out the form above and you'll be on the way to recession-proofing your income.

# WHO WE ARE

Have you ever walked into an electronics store and just been overwhelmed with the choices, options and technical descriptions? If you have, you've certainly come to the right place.

Online Technology News is a small at-home blog designed to help you navigate the expansive world of electronics.

We want to educate and inform our readers with interesting anecdotes, reviews of a variety of products and hopefully share a little bit of what we've learned along the way.

We are not technical engineers, but instead we are consumers who want the best bang for our buck. Just like you.

We hope you'll see that we have a little bit of a different point of view. Instead of focusing on the technical jargon, we want our site to focus on what makes a particular product work for you.

Sincerely,  
Online Technology News

### ALL-NEW ECHO DOT

Echo Dot (2nd Generation) is a hands-free, voice-controlled device that uses Alexa to play music, control smart home devices, provide information, read the news, set alarms, and more. Always getting smarter and adding new features, plus thousands of skills like Uber, Domino's, and more.

## MADE FOR ANY ROOM IN THE HOUSE!

## OUR DEALS

typing and navigation. Display: 15.6 in HD LED Display (1366 x 768). Processor: Intel® Pentium® mobile processor N3700 Quad-Core processor 1.6 GHz.

### ALL-NEW FIRE HD 8

Enjoy your entertainment with a fast 1.3 GHz quad-core processor. Fire HD 8 now delivers faster performance thanks to a 50% increase in RAM over the previous model. Fire HD 8 features a widescreen 1280 x 800 high-definition display with over a million pixels (189 ppi) and a bright, vivid picture.

Enjoy movies and games in a crisp, clear HD resolution, with less glare and more brightness thanks to a stunning IPS (in-plane-switching) LCD display. Now with up to 12 hours of mixed-use battery life, Fire HD 8 gives you the flexibility to go where the day takes you.

## LAPTOP COMPUTERS

A laptop is a personal computer which is portable. It may also be known as a notebook. The typical laptop will range in weight from 1 to 3 kilograms, and will generally have an internal battery as well as a power adapter. While most laptops are portable, few can currently match the power of the most expensive desktops, though this will likely change as technology continues to advance. The word laptop was first introduced in 1983, and was used to refer to the Gavilan SC.
