

FREEDOM

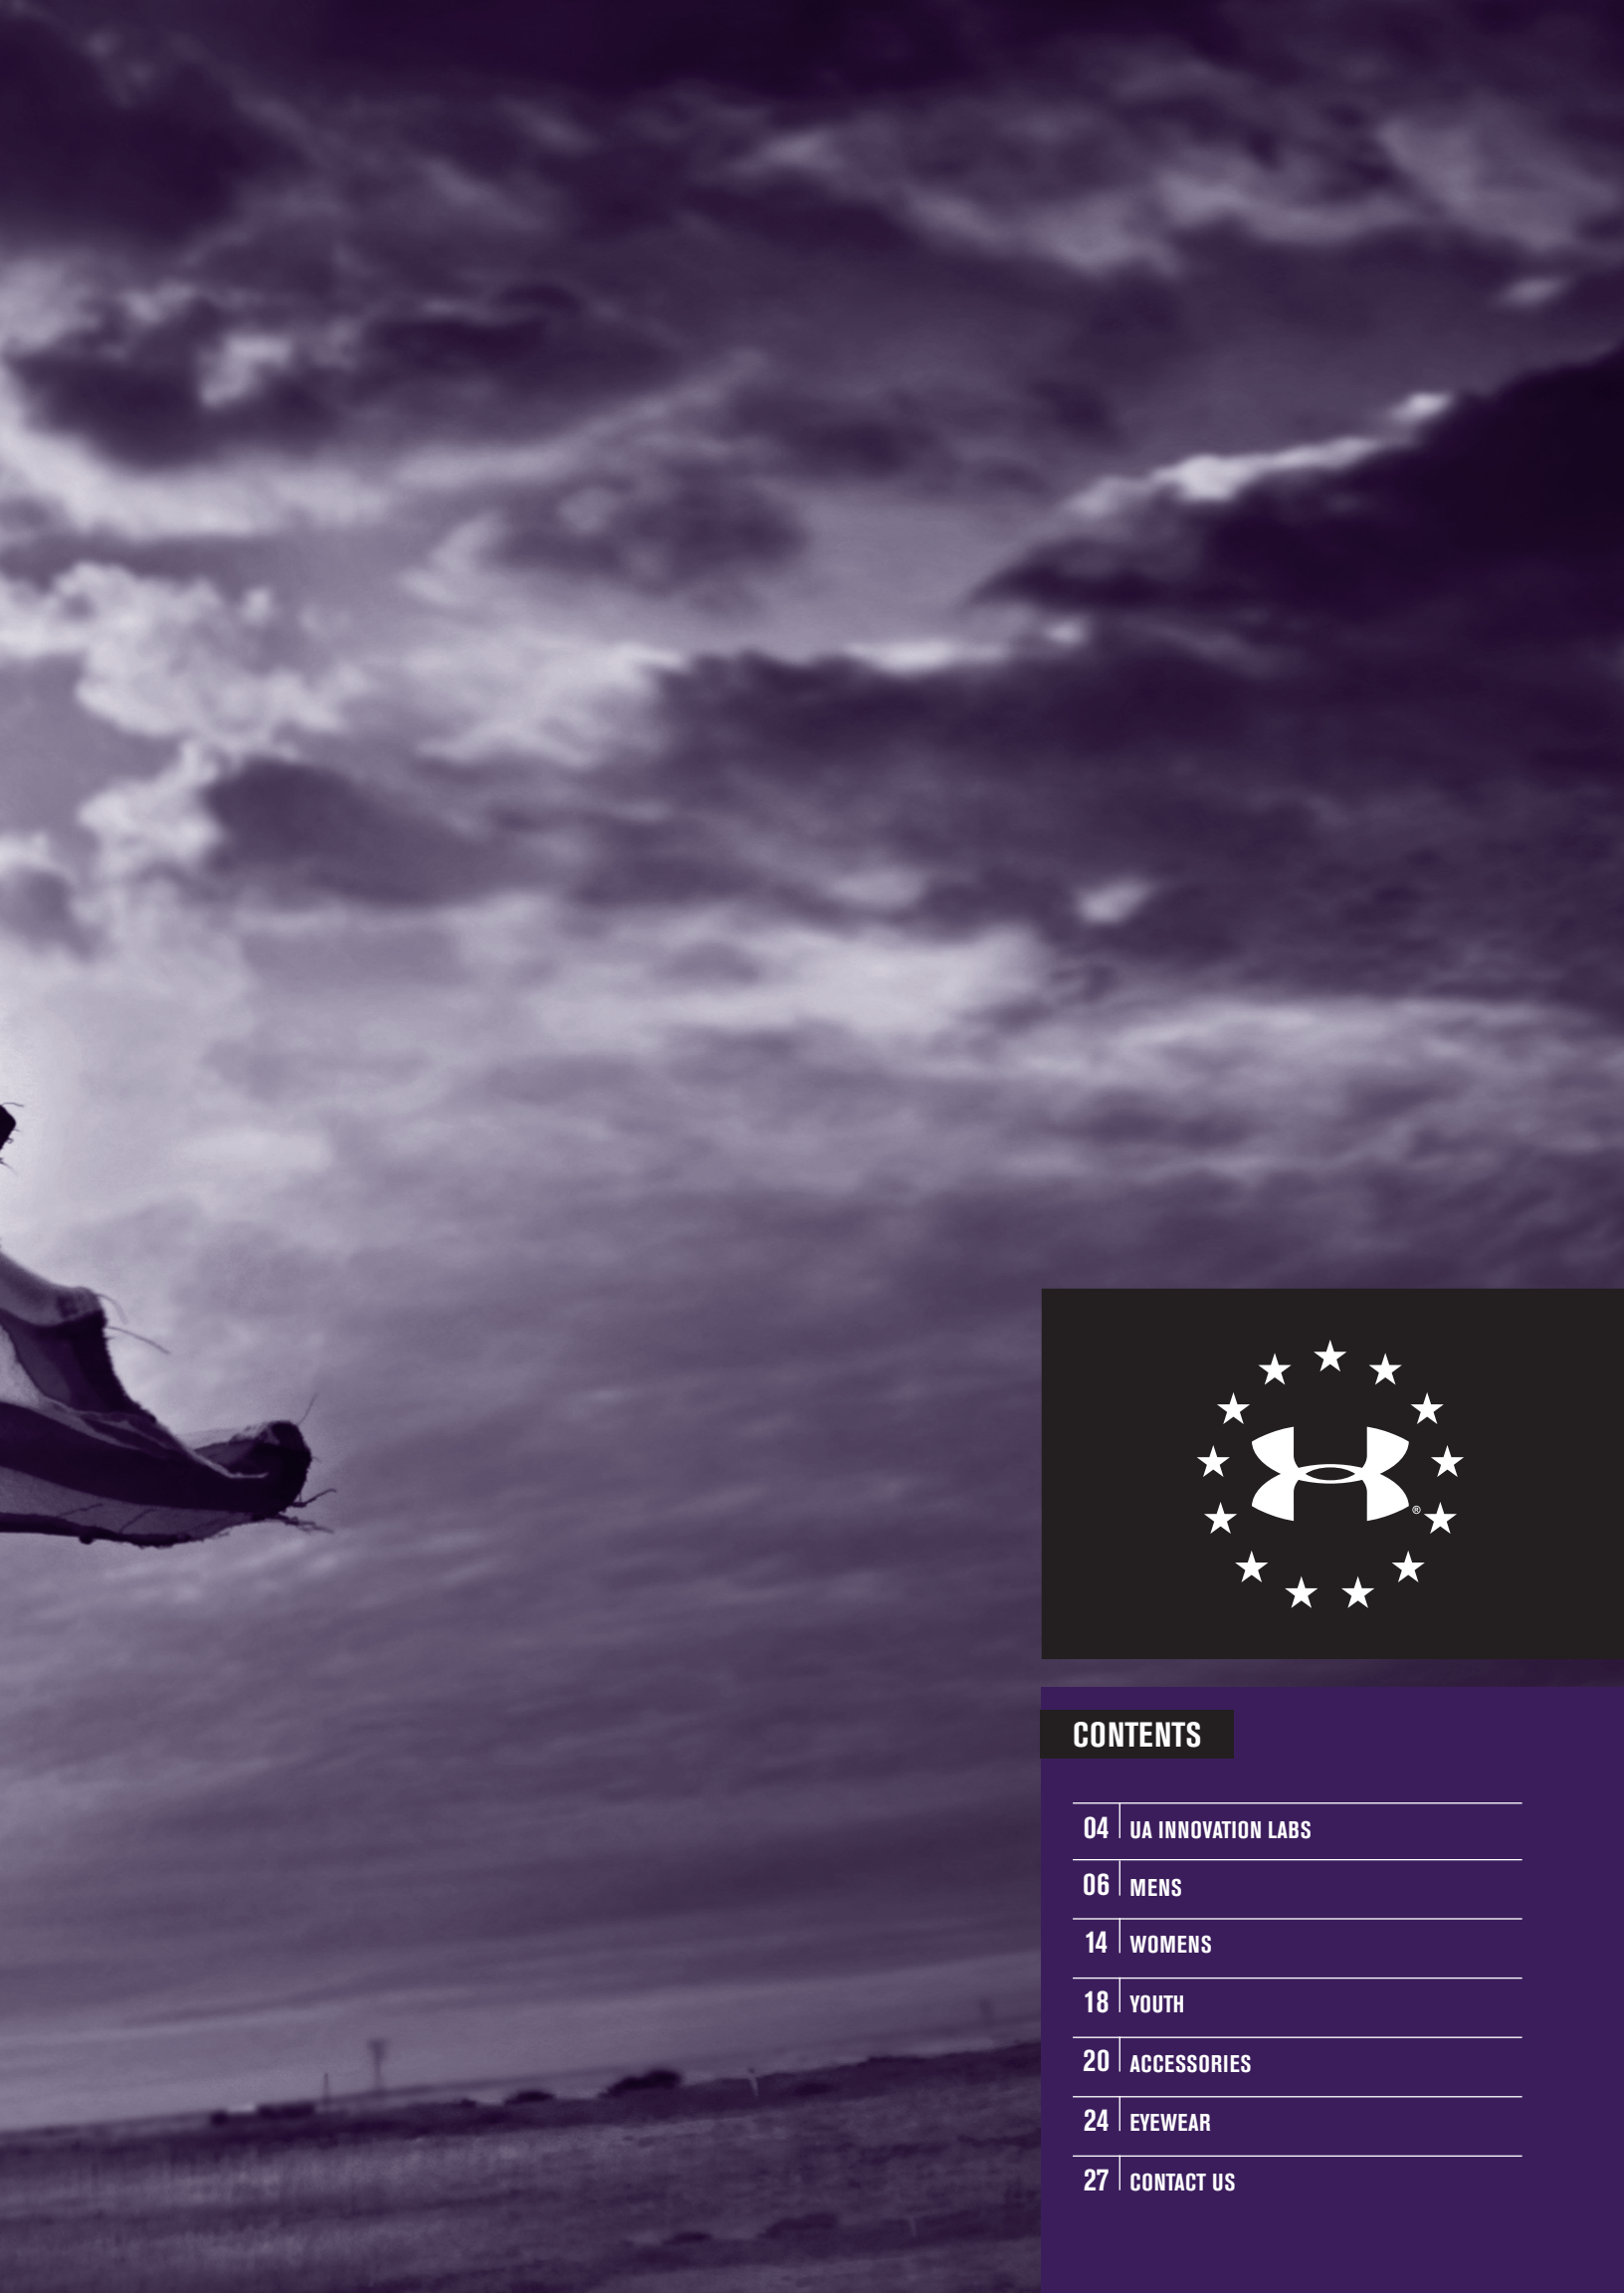

SPRING / SUMMER 2015

WHAT IS UA FREEDOM?

It's our way of saying THANKS to the bravest among us – the men and women who go to work each day with one mission: keeping us safe. They have the will to say, “I’ll handle it,” when the stakes are higher than most people could even imagine.

Our Freedom Line is our way of making sure our heroes get the support they deserve. We are committed to a minimum donation of \$250,000 annually to support First Responders, Military Personnel, Law Enforcement Officers, and Veterans.

UA INNOVATION LABS

CORE TECHNOLOGIES

Under Armour® products augment your training and capabilities with the following roster of proprietary performance-enhancing technologies.

PERFORMANCE DNA

Every Under Armour® product is doing something for you: it's making you better. Following are the core pieces of DNA that deliver on this promise. The building blocks of performance.

FIRE RETARDANT

Incorporates fabrics that resist vertical flames, flashfires, and have non-melt properties for extreme conditions.

**UNDER ARMOUR
CHARGED
COTTON®**

CHARGED COTTON®

Fabric made from natural cotton for superior softness and comfort – with the added benefit of UA performance.

ARMOURBLOCK®

Fabric treated with antimicrobial agents.

**coldgear
INFRARED**

COLDGEAR® INFRARED

Ceramic coating on the inner layer of your garment absorbs and retains body heat, so you stay warmer longer.

UA STORM
WATER-RESISTANT

UA STORM

Wear it to be warmer, drier, and more comfortable than ever before.

ARMOURSTORM®

A fully taped garment that keeps out all of the elements, and allows for vapor to escape, keeping you comfortable and dry.

BENEFITS OF COMPRESSION

Whether it's training or gameday, your UA Compression base layer makes you better and unleashes the power of your muscles.

INCREASED POWER & STAMINA: *STAY STRONGER FOR LONGER*

Reduces muscle vibration to lessen fatigue and maintain power output. Keeps muscles aligned correctly to increase repetitive muscle power.

ENHANCED PROPRIOCEPTION: *KNOW YOUR BODY'S PLACE IN SPACE*

Enhances proprioception - the body's recognition of muscle patterns and spatial awareness - to increase muscle efficiency.

FASTER RECOVERY: *GET YOUR MUSCLES BACK TO FULL STRENGTH FASTER*

Creates a healing environment around muscles and circulatory systems. Post-workout, reduces swelling, decreases soreness time and promotes muscle repair.

SUPERIOR COMFORT: *STAY COOL, DRY, AND LIGHT*

Wicks moisture to keep you 53% lighter than cotton after 60 minutes of athletic performance. Speeds evaporation to regulate your core temperature.

GEARLINES

Blistering heat to bitter cold. Whatever the climate, whatever the conditions, Under Armour® Performance keeps athletes comfortable, dry, and light with gearlines engineered to perform.

allseasongear®

AllSeasonGear® fabric flex with changing conditions to deliver core temperature regulation and maximum breathability.

heatgear®

HeatGear® fabric, the original 'second skin' layer, sparked the revolution of performance apparel and made cotton T-shirts obsolete.

coldgear®

ColdGear® fabric wicks moisture from the skin and circulates body heat, keeping athletes warm, without weighing them down.

SIZE AND FIT

Under Armour® Performance has already compensated in the design of its apparel to be consistent with normal (XS -XXXL) sizing. Please order the size you would wear in a non performance T-shirt or pant.

ULTRA-TIGHT, 'SECOND-SKIN' FIT

These products fit snugly to the body providing a close, lean, and supportive fit.

CONTOURED TO THE BODY

Designed to be very close to the body without the constriction of compression.

GENEROUS CUT, OVERSIZED FIT

Generous cut product, providing full range motion, and a full, loose fit.

SEMI-FITTED

Not too tight. Not too loose. Cut close without being too clingy.
