Discover why facilities are choosing

Crest's Excel Family of Pillow Speakers

Providing solutions for patient entertainment in your facility.

Crest offers three styles of Excel pillow speakers: Excel EntertainIR™, Excel Digital and Excel LT™. All models feature a range of standard functions, allowing you to choose the configuration that meets the needs of your patients and the requirements of your nurse call system.

All Excel pillow speakers offer large buttons that are easy for patients to operate. The nurse call button is well separated from other buttons to reduce accidental calls and has a distinctive red color with raised

The high-output, moisture-proof speaker is molded to a flexible gasket, enabling greater flexibility and enhanced sound quality. A sealed headphone jack can also be added, allowing patients to plug headphones directly into the pillow speaker for private listening.

All Excel pillow speakers feature an ergonomic design with bottom-entry cable. Strain relief provides extra durability. The cases are constructed of shockabsorbing ABS plastic for long-life, and come in a clean, frost-white color.

- Drop tested onto concrete to demonstrate durability
- Superior sound quality that lasts
- Bottom-entry cable with strain relief for fewer repairs
- Large button overlays available

Excel EntertainIR™

The only pillow speaker that combines complete TV, DVD, VCR and set top box control using patented IR technology.

See detailed information on pages 10-11

Excel Digital

Designed for use with digital TVs. Crest's patented AutoSense[™] technology automatically identifies the brand of digital healthcare TV connected and sends the correct digital signal.

See detailed information on pages 12-13

Excel LT™

Excel LT is built on the same durable platform as the Excel Digital, and is designed for use with non-digital TVs. Excel LT features a mechanical volume control.

See detailed information on pages 14-15

Features designed with the

Patient & Facility in mind

Infrared Functions

In addition to controlling entertainment devices, the Excel EntertainIR™ functions may also include lights, environmental controls and more. Call Crest for more information.

Compatibility ·

most updated device code library at the time of production. Some new devices may not be supported but can be added. Call Crest to inquire.

Your Excel EntertainIR™ contains the

Easy Access Case & Réplaceable Cable

Easy to Clean for **Inféction Control**

Smooth overlays make

cleaning quick and easy.

Plug-and-play connectors make repairs quick and simple.

Superior Sound Quality

Excel features a two-watt speaker molded to a flexible gasket that provides superior sound quality and impact protection.

Headphone Jack

A headphone jack is available for private listening. Call for details.

Exclusive Patented Capabilities:

Excel EntertainIR™ infrared pillow speakers have the ability to operate cable or satellite TV Set Top Boxes. This allows access to these devices, as well as video on demand features and menu navigation, without the need for a separate remote control.

Durability

The ABS plastic case is designed with supporting ribs and reinforced posts to absorb shocks and protect interior components. The molded-in strain relief on the cable provides extended service life.

CREST

Crest Excel EntertainIR™ Pillow Speakers

The Excel EntertainIR is the only pillow speaker that combines the functionality and ease of a universal remote with dependable nurse call, light and radio control. It eliminates the need for a remote control for DVD/VCR players or Satellite or Cable TV Set Top Boxes reducing the confusion and clutter of multiple devices for the patient to use and your staff to find. Digital TV functions are available to anyone with an IR-supported TV, regardless of your facility's wiring infrastructure. Infrared signal range up to 17 ft.

Simplify patient entertainment

Provides TV, DVD, VCR & Satellite or Cable Set Top Box control

Optional IR controls for environmental conditions

Superior sound quality

CREST

Excel Digital

Crest Excel Digital Pillow Speakers

Excel Digital is designed for use with digital, healthcare grade televisions. Available with eitherdirect channel access (10-key) or digital channel scroll up/down function. Excel Digital also allows you to choose either button-controlled digital volume, or potentiometer volume control.

Crest's patented AutoSense™ technology automatically identifies the brand of digital healthcare TV connected and sends the correct digital signal. Excel Digital pillow speakers with AutoSense can easily be moved from one room to another regardless of the healthcare grade television brand. AutoSense circuit technology compensates for variances in polarity reducing the need to modify wiring between the TV and the bedside station. Call Crest Technical Support for more information.

CREST

Crest Remote Call-IR™TV Control & Nurse Call

Now you can replace your call cord and remote control with one simple device. Remote Call-IR controls the TV using IR signals like a universal remote while still providing the safety of reliable wired nurse call. Remote controls are easily lost or broken, but Remote Call-IR plugs into your nurse call station to ensure it stays within the room and is durable enough to withstand drops and daily use. The 10-key overlay style is great for emergency rooms or private patient rooms, where the room is not wired for TV sound or the sound control of a pillow speaker is not needed. The large button overlay is perfect for kids, geriatric patients or residents with limited dexterity. Features simplify control of TV power, channel and volume with big, easy-to-see buttons. Both styles feature an on-board library of codes that can be used to program it to work with almost any TV. Uses two AA batteries (not included) that last as long as in typical TV remotes.

- · Robust design, easy to disinfect
- No batteries needed for nurse call operation
- · Distinctive nurse call button with Braille

Easy to Keep Clean!

The Original Sealed Membrane Button Call Cord

CREST

CleanCall™

Crest CleanCall™ Call Cords

Maintaining a clean environment can be difficult, but the CleanCall helps simplify the job. The completely sealed, membrane style button can be easily wiped down to help prevent the spread of germs making it a great option for infection control in any facility.

- · Smooth membrane is easier to sanitize than regular buttons
- · Easy-grasp winged design fits comfortably in the hand
- · High-contrast red button with nurse call symbol is highly visible

Cleanability

Infection control

Sealed membrane

Flush button reduces accidental calls

JumboCall[™]

Crest JumboCall™ Momentary **Call Cord**

The JumboCall call cord is ideal for patients who have difficulty using their hands.

- Large, easy-to-grasp pendant
- For use in most systems using 1/4" phone jacks

Part No.	Description	Price
5300G-10	JumboCall, grey, single, 10 ft	29.95
5300G-12	JumboCall, grey, single, 12 ft	31.95

Call Cord Extenders

Call Cord Extenders allow you to lengthen any 2-conductor, ¼" phone plug nurse call cord.

· Disconnection of cord triggers cord-out on stations with this feature

Part No. 108090	Description Cord Extender, white, for ¼" call cords, 8 ft	Price 13.50
108090-12	Cord Extender, white, for 1/4", call cords, 12 ft	15.50

Nurse Call Connector Cables

Connector cables are used to interface fall management monitors and other ancillary devices with your nurse call system.

- Multiple lengths to fit any application
- · Can be used with adapters to fit other systems

Part No.	Description	Price
101968	Adapter Cable ¼" plug to ¼" plug, grey, 7 ft	7.95
101968-10	Adapter Cable ¼" plug to ¼" plug, grey, 10 ft	14.95
101968-12	Adapter Cable ¼" plug to ¼" plug, grey, 12 ft	16.95

Replacement Momentary Pendant Kit & Pushbuttons

Plastic replacement pushbutton pendant with SPDT momentary red button and solder-on connection.

- Replace worn out pushbuttons
- Kit includes c-ring strain relief

Part No.	Description	Price
70	Pushbutton Pendant Kit, black	14.90
B-31037	Pushbutton only, red	4.95
B-31038	Pushbutton only, black	4.95

Bulk Call Cord Cable

Repair your damaged call cords anytime with cable you can keep on hand. Replacement call cord cable is available by the foot or in bulk rolls.

- · Easily fix worn out cords
- 1/4" diameter
- Available in 2 or 3-conductor styles
- 18 gauge stranded wire

Part No.	Description	Price
B-34025	Cable, 2-conductor, white, by-the-foot	0.65
93998	Cable, 2-conductor, white, 250 ft roll	119.95
B-32227	Cable, 3-conductor, white, by-the-foot	0.50

Replacement Momentary Pushbutton Pendant Kits & Parts

Replacement kit for momentary call cords works with most 2 and 3-conductor cords. The kit includes 2 slip terminals, C-ring strain relief and momentary pushbutton switch. Your choice of white, grey or beige shell.

Part No.	Description	Price
770B	Repair Kit with beige shell	5.47
770G	Repair Kit with grey shell	5.47
770W	Repair Kit with white shell	5.47
114548	C-Ring only, 1 pack (20/pk)	7.95
B-32861	Slip Terminal only (2 required, but sold separately)	0.45

2-conductor Cable Assemblies

Cable Assemblies are available for quick and easy call cord repairs. They feature a 1/4" 2-conductor phone plug with durable strain relief.

- · Select single or double
- · Can be cut to desired length

Part No.	Description	Price
7714W-12	Cable, 2-conductor, ¼" plug, single, white, 12 ft	6.00
7714G-12	Cable, 2-conductor, ¼" plug, grey, single, 12 ft	7.50
7714DW-12	Cable, 2-conductor, ¼" plug, white, double, 12 ft	17.75
7714DG-12	Cable, 2-conductor, ¼" plug, grey, double, 12 ft	19.75

Call Cord Holder

Helps keep call cords convenient for patient use. Can be mounted to bed or wall with screws.

- · Holds most brands of call cords
- · Made of flexible & durable plastic
- 114011 works best with DuraCall & EconoCall Call Cords

Part No.	Description	Price
114010	Call Cord Holder, 3/4" diameter	2.16
114011	Call Cord Holder, 7/8" diameter	2.16
114012	Call Cord Holder, 1" diameter	2.16

Cord Extensions & Station Saver

Cord Extensions provide an instant way to lengthen your call cord for greater flexibility. 8-pin DIN Station Saver creates a break-away point between cord and station to help prevent damage.

- Disconnection of cord triggers cord-out on stations with this feature
- Wired straight through for use with most 8-pin DIN or RJ45 8-pin systems

Part No.	Description	Price
114711-10	Cord Extension, 8-pin DIN right angle plug, white, 10 ft	19.95
107397-10	Cord Extension, 8-pin DIN plug, white, 10 ft	19.95

CREST

GeriCall™

Crest GeriCall™ Call Cords

The GeriCall Geriatric Call Cord is a round, flattened momentary call cord pad that works great for residents who have limited hand dexterity. This call cord utilizes a mechanical switch in the pad that can be activated by slight pressure from the hand, arm or body, or can even be positioned under the resident's chin.

- · Large pad for easy activation
- Includes security clip
- 3" diameter pad

BreathCall® Air Activated Call Cords

BreathCall is for patients with little to no motor skills and is activated by simply breathing into a disposable straw and filter assembly. It has a flexible gooseneck with universal mounting clamp. The Mini BreathCall offers the same features of the standard with a more streamlined design to fit smaller areas. All BreathCalls come with a 9 ft cord, clamp and filter and straw kit. Standard BreathCalls have 36" black tubing from clamp to mouthpiece, and Mini BreathCalls have 28" white tubing.

- · Flexible conduit bends to almost any position to suit the user
- · Sturdy clamp easily attaches to headboards
- · Locking or non-locking switch closure available
- Also available with dual controls for nurse/TV or radio (11201-09D)

Crest Nurse Call Adapters

Adapters accommodate multiple nurse call devices from a single wall receptacle or convert your existing station to an alternative plug style. Allows patient monitoring equipment to be used simultaneously with a standard call cord or pillow speaker.

- · A low cost solution to expand your system capabilities
- · A cord-out alarm is created if connection is unplugged
- 5 Adapter styles to choose from

The Type B Adapter converts your existing receptacle to the same receptacle and a 1/4" phone receptacle. All Type B Adapters (except 9477) include a 9" extension cord and plug.

Type Y2 Adapter The Type Y2 Adapter converts your existing receptacle to one female receptacle of the same style and one 1/4" phone receptacle.

Crest Adapters for use with Arial® systems are on page 38

Crest Adapters for Arial® Systems

These adapters allow you to use high-quality Crest call cords with your Arial nurse call system. Use our single 8-pin DIN adapter and 8-pin DIN DuraCall for a guick-disconnect option. Our ¼" adapter can be paired with ¼" specialty call cords, or use our Y-adapter to split your station into two receptacles to facilitate a call cord and another device.

- · Save money over OEM call cords
- Allows you to use any Crest Rauland 8-pin DIN or standard 1/4" phone plug (see pages 24-28)

Part No.	Description	Price
113638	Adapter Cable, RJ45 plug to (1) 8-pin DIN receptacle, for use with Arial system	12.95
113639	Y-Adapter, RJ45 plug to (2) 8-pin DIN receptacles	24.95
113640	Adapter Cable, RJ45 plug to (1) 1/4" phone jack	12.95

Universal Latching Pillow Speaker Station

Replace your 24 VAC, 5-contact locking receptacle stations with this universal adapter which allows you to use a pillow speaker or call cord in the 7-pin Executone receptacle or any momentary 1/4" phone plug device in the other, eliminating the need for locking call cords. Includes a single 7 ft EconoCall momentary call cord and 1/4" dummy plug.

- · Upgrade 1 room at a time or all at once
- Allows the use of pillow speakers, specialized nurse call
- · Reduces the cost of replacement call cords
- · Only a fraction of the cost compared to a new system

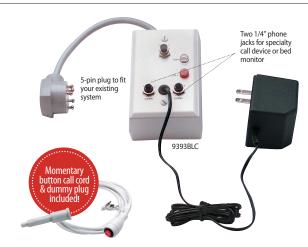

Part No.	Description	Price
115009	Pillow Speaker/Nurse Call Station, with latching circuitry, for locking cord systems (Original station must have "call placed lamp" feature)	124.95

Update your 24 VAC, 5-contact locking receptacle station to a 1/4" phone receptacle station for use with momentary call cords. Eliminates the need for locking call cords. Includes single 7 ft momentary call cord and dummy plug.

- Upgrade 1 room at a time or all at once
- · Allows the use of specialized nurse call devices & bed monitors
- · Reduces the cost of replacement call cords
- Only a fraction of the cost compared to a new system

Part No. 108086	Description Dual Patient Station (with latching circuitry) for locking button systems. (Original station must have "call placed lamp" feature)	Price 89.95
108087	Dual Patient Station includes plug-in power supply for use in place of original stations that do not have a "call placed lamp" feature	110.95

5-Contact to Momentary Latching Adapter

Converts your 5-contact locking station to a modern 2-conductor non-locking receptacle. Power supply assures that this adapter will work on all systems. Includes one 7 ft momentary button call cord and dummy plug.

- · Never buy expensive, locking button cords again
- Works with any 2-conductor 1/4" non-locking call devices

Crest CableSaver™ Bed Communication Cable System

The CableSaver System replaces standard bed communication cables with a pinless Centronix connector that separates when pulled, eliminating broken pins and station damage. The Adapter is easily attached to the front of your existing station using the included screws and features both a Centronix and standard 37-pin receptacle, allowing you to phase in CableSaver cables over time. This patented system is proven to outlast standard cables 20:1 saving you time and money.

- · Pinless connector withstands pulls from any direction
- · Foolproof insertion guide ensures staff will plug in cables correctly
- · Works with Hill-Rom® or Stryker® beds

Part No.	Description	Price

Solving the Problem of Broken **Bed Communication Cable Pins!** http://tinyurl.com/crestpapers

The Break-A-Way Solution!

PLUGS INTO BED & SECURES WITH THUMB SCREWS

BREAK-A-WAY CABLES UTILIZE A PINLESS 36-PIN CENTRONIX CONNECTOR THAT AUTOMATICALLY BREAKS AWAY AT THE CONNECTOR, TWO FEET FROM THE BED

CREST **Break-A-Way**

Bed Communication Cables

Crest Break-A-Way Bed Communication Cables

Crest Break-A-Way Bed Communication Cables utilize a pinless 36-pin Centronix connector two feet from the bed plug end. If the bed is moved without disconnecting, the cable automatically breaks away at the connector, saving the cable and wall station from damage. These sturdy cables are available for Hill-Rom or Stryker beds with in-line or right angle plugs.

- · Saves stations from damage
- · Economical & durable
- Break-A-Way located 2 ft from bed end
- 8 ft beige cord

Part No.	Description	Price
105951QD	Break-A-Way Cable, for Hill-Rom	40.95

A Durable & Affordable Solution

DuraCable™ Bed Communication Cables

The most affordable option with durability that lasts!

CREST DuraCable™

Bed Communication Cables

Crest DuraCable™ Bed Communication Cables

Crest DuraCables are an affordable and durable option over OEM cables for beds that have communication functions built into the side rail or a bed exit alarm feature. Hill-Rom® cables feature one male plug end and one female plug end which connect to 37-pin wall outlets. Stryker® cables feature 37-pin male plugs on both ends.

- · In-line or right angle plug options
- · Molded plug ends with strain relief
- · Available for Hill-Rom & Stryker beds

Control the Risk of Infection in Your Facility

Reduce Exposure to Infectious Hazards with CleanCord™

CREST

Crest CleanCord™ Plastic Pullcords

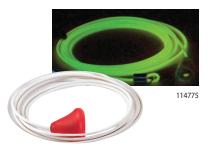

Help keep your patients and staff safe with CleanCord Plastic Pullcord. Unlike nylon cords, CleanCord won't soak up bodily fluids or other liquids that can transmit infections to others. Its durable PVC material is easy to wipe down and disinfect making it perfect for bathroom pullcord stations. CleanCord is tested strong to ensure reliable calls, and at 1/13" is small enough to fit many stations. For increased visibility in dark rooms, glow-in-the-dark plastic pullcord charges quickly when exposed to light and glows brightly. At 1/27" in diameter, it features stain-resistant, non-toxic plastic coating and is available in a pre-cut length or in bulk rolls.

- · High-quality cord relaxes to hang nicely from station
- · Weighted red pendant is easy to see & grasp
- · CleanCord available in white or red for more contrast against wall
- · Glowing cord available in white, blue or green

Part No.	Description	Price
114191	CleanCord, 6 ft white plastic cord with red pendant	6.95
114194	CleanCord, 6 ft red plastic cord with red pendant	6.95
114192	CleanCord, white plastic cord only, 100 ft roll	39.95

114773	Glow-in-the-Dark Pullcord, blue plastic cord only, 500 ft roll	264.95
114774	Glow-in-the-Dark Pullcord, green plastic cord only, 500 ft roll	264.95
114840	Metal Crimp Piece, ¾,", for CleanCord plastic pullcord, 1 pack (100/pk)	14.95
114841	Metal Crimp Piece, $\frac{1}{16}$ ", for glow-in-the-dark pullcord, 1 pack (100/pk)	14.95

Cord & Pendant

These nylon cords with plastic pendant are a replacement for worn pullcords and are available in two sizes. The thin size fits through most pullcord stations. The thicker size includes a size 10 connector to link with size 10 bead chain.

- · Multiple color options
- Strong 7 ft cord
- Thin cords are 3/64" in diameter
- Thick cords are 1/8" soft diameter

Part No.	Description	Price
80	White Cord with Pendant 7 ft, thin cord	1.99
80R	Red Cord with Pendant 7ft, thin cord	2.49
83	Bulk Cord, white, 250 ft, thin cord	16.95
83R	Bulk Cord, red, 250 ft, thin cord	17.95
93990PC	Black Cord with Pendant and Connector, thick cord	3.25
93990PC-W	White Cord with Pendant and Connector, thick cord	2.99
93990PC-R	Red Cord with Pendant and Connector, thick cord	3.25

Sanipull®

Sanipull ribbon pulls replace station and overbed light pull strings and are made of 12 mm wide vinyl that is easy to disinfect. Each cord provides anti-ligature benefits by creating a weak zone every 6" that is designed to tear apart if more than 27 ± 2 lbs of pull force is applied. Use the Direct Connect switch attachment option to also help prevent damage to overbed light switches. Sanipull is available in preassembled versions as well as bulk rolls and accessories.

- · Available in red or blue styles for high visibility
- Bulk styles can be cut to any desired length
- · Easy to attach to strings or chains for fast retrofits

Part No.	Description	Price
115379	Super Sanipull Nurse Call Pull with Clamshell Adapter and Super Sanipull Clip, 6 ft, red	14.95
115381	Sanipull Bathroom Nurse Call Pull with Super Sanipull open handle and cover, clamshell and 5 ft ribbon cord, red	13.95
115378	Super Sanipull Switch Saver for Overbed Light, with two Super Sanipull Clips, 6 ft, blue	15.95
114786	Sanipull Anti-Ligature Bulk Ribbon, 360 ft spool, blue	299.95
114787	Sanipull Anti-Ligature Bulk Ribbon, 1000 ft spool, blue	769.95
114788	Sanipull Anti-Ligature Bulk Ribbon, 360 ft spool, red	299.95
114789	Sanipull Anti-Ligature Bulk Ribbon, 1000 ft spool, red	769.95
114790	Super Sanipull Clip, attaches to pullchain, linen, or around bed rail, white, 1 bag (10/bg)	47.95
114791	Super Sanipull Clamshell Adapter, attaches to cords or beadchain, red, 1 bag (10/bg)	47.95
115380	Super Sanipull Handle and Cover, for bathroom pulls, red, 1 bag (10/bg)	52.95

Emergency pull cord system can be used in place of a call cord. Patients can pull the cord to remove the plug and place a call.

- Available with ¼" dummy plug end
- For systems with the "cord-out" feature

Part No.	Description	Price
93990ECC	Emergency Call Cord and Clip, white	3.26
93990ECCR	Emergency Call Cord and Clip, red	3.26
B-34295	Emergency Call Cord and Clip, heavy duty white cotton cord	4.95

Pushbutton Plug-In

Pushbutton plug-ins convert a call cord style receptacle station into a push-button station. Available in 2-conductor 1/4", RJ45 or 8-pin DIN plug styles.

- · White plastic housing with red pushbutton
- Great for areas where cords are not appropriate

Part No.	Description	Price
109493	Pushbutton Plug-In, 2-conductor	11.00
109528	Pushbutton Plug-In, RJ45 8-pin modular	14.32
107391	Pushbutton Plug-In, 8-pin DIN (Rauland style)	14.32

Pullcord Plug-in

Transform your momentary call cord type station to a pullcord style station. Plug-in switch plugs directly into 2-conductor phone jack receptacle stations.

- Includes 6 ft white nylon cord with plastic pendant
- · Eliminates the need for a call cord

Part No.	Description	Price
7716	Pullcord Plug-In	25.95

Attention-getting bell for in-room use or at service counters when not attended. Can also serve as back-up to electronic nurse call system during power outage.

- Durable steel handbell
- Produces loud, clear sound

Part No. Description Price 113889 Medium Hand Bell, 21/2" diameter steel base, wooden handle 5.50

Heavy-Duty Transformer

For use with nurse call and other signaling systems; 120 V primary, 24 VAC secondary, surface mounted transformer.

Part No.	Description	Price
88-50	Heavy-Duty Transformer, 50 W, 2 A, 5½"L x 4¾"W	69.95
88-100	Heavy-Duty Transformer, 100 W, 4 A, 515/16"L x 411/16"W	105.95
88-250	Heavy-Duty Transformer, 250 W, 10 A, $7\frac{3}{4}$ "L x $6\frac{5}{8}$ "W	259.95

DC Power Supply

General purpose power supply can be used with nurse call and other signaling systems.

- · Over voltage & short circuit protected
- · AC input range selected by switch
- 100 Watts

Part No. Description B-33960 DC Power Supply, 24 V, 41/2 A

Price 74.95

Plug-In Transformer

Transformer is 24 VAC. Plugs into standard electrical outlet. Features two screw terminals for low voltage connection.

Part No.	Description
B-33096	Plug-in Transformer, 20 W
4414	Plug-in Transformer, 40 W

Price 11.00 14.32

Vibrating Bell

Vibrating bell, surface mount.

- Small size
- · Low current drain

Part No.	Description	Price
B-31083	Vibrating Bell, 24 VAC,	43.95
	2½" diameter	

Sonalert

Emits piercing electronic sound. Mounting hole diameter is 11/4". Available in 6-120 VAC/DC.

Part No.	Description	Price
6003	6-28 VAC/DC, 68-80 dB	34.95
6004	30-120 VAC/DC, 68-80 dB	63.95

Buzzers

Small buzzers for signal systems. Optional voltages and choice of open or enclosed design. Enclosed designs feature chrome cover with zinc plated base.

Part No.	Description	Price
15-0G5	24 VAC enclosed, adjustable tone	40.95
6002	24 VAC open	25.38
15-OG1	24 VDC enclosed, adjustable tone	41.95

Smart® Economy Central Monitoring System

The Central Monitor is an economical method for providing up to 30 residents with wireless call for assistance paging ability. The Central Monitor allows caregivers to see which resident is calling for assistance. The Nurse Call Buttons can be mounted to a headboard, wall or worn as necklace (lanyard included). The 30-Channel system alarms audibly and the display indicates which resident originated the alarm. The Central Monitor uses four size "C" batteries (not included) or optional AC adapter (sold separately) and has a signal range radius of up to 300 ft. The wireless Nurse Call Buttons use A23 12 V batteries (included). All components sold separately.

- · Additional pendants can be added or deleted as needed
- · Great for wired nurse call system emergency backup
- Eliminates in-room alarm noise

Part No.	Description	Price
114568	Economy Central Monitor Unit	94.95
114569	Nurse Call Button, for 114568	18.95

B-34135	Replacement Plastic Neck Chain, for MCT-201WP Visonic Transmitter	3.50

Smart® Caregiver Paging System

Provides call for assistance for patients. System consists of a Personal Pager for the caregiver. Signal range is up to 150 ft radius. Personal pager uses two AA batteries (included) and pendant uses an A23 12 V battery (included). **NOTE:** This system does not work in conjunction with 114568.

Part No.	Description	Price
115335	Caregiver Paging System, with 2 wireless call buttons	50.95

Crest Wireless Call System

The Wireless Call System changes your existing nurse call station into a wireless station. Plug the wall unit into your current station, plug in the power supply, and give the transmitter to your resident or patient. The transmitter can be worn as either a necklace or a watchband for easy use. Our wireless nurse call system gives residents the freedom to move around the room without being restricted by cords. Great for residents who are very mobile, or for those who frequently have trouble finding or reaching their call button. Signal range is typically up to 300-500 ft.

- No more clipping call cords to the resident or bed
- Easy to install & use

Part No.	Description	Price
108712	Wireless Call System, for 1 station	214.95
108713	Extra Transmitter, (includes necklace and watchband)	80.95

5300 Series Roomstat™ System*

Ideal for clinics, hospitals, outpatient surgical centers or any operation where patients and staff are in frequent motion.

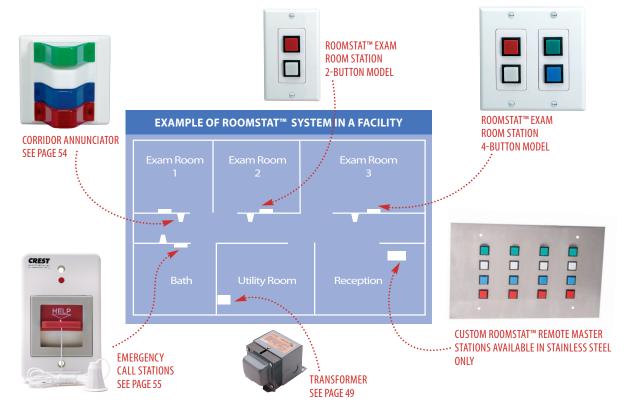

The Roomstat System is an electrically-operated signaling station consisting of switches mounted on a standard electrical box, trimmed with a wall plate. Buttons illuminate upon actuation, along with corresponding buttons on the Master Control Panel and lamps in corridor pilots. Master control panels have a flush mount design.

- Custom-designed to meet your exact requirements, many configurations possible
- · Versatile-use as a room status, staff locator, silent paging or emergency call system
- · Easy to install for immediate use
- Available with white faceplates
- Also available with DPDT momentary or maintained switching (call for information)
- Switch schematics and wiring diagram examples available. Call Crest Technical Support.

*Roomstat[™] Systems are custom ordered and are non-returnable items. Call Crest for ordering information.

B-31993

Tektone® ABS faceplates meet UL ratings for electrostatic discharge (ESD). If your facilitycurrently utilizes aluminum faceplates, you can retrofit your facility by replacing the current back box with a standard back box. Most stations use solid state circuits and have 2 '/2" speakers for clear 2-way communication.

- · Call-placed light
- · Available in single or dual station with selection of pullcord or receptacle style

Patient Stations - OEM

Part No.	Description	Price
IR-151B	Single Bed Station, one ¼" call cord jack, 1 call-placed and privacy indicators, cancel button, 3-gang	82.95
IR-152B	Dual Bed Station, two ¼" call cord jacks, 1 call-placed and privacy indicators, cancel button, 3-gang	98.95
IR-155B	Single Bed Station with Pullcord (instead of jack), plus call-placed light and in-use indicators	67.41
CL207	Bracket, housing converter	7.25

Patient Stations - OEM

The IR319B Single Patient Station and the IR320B Dual Patient Station from TekTone® have two-way communication between patient and nurse, and provides for programmable privacy, paging and patient priority from the master station. If a call cord or pillow speaker is accidentally removed from its receptacle, the nurse master station registers a "cord out" call. Dual Patient Station additionally features independently operating receptacle and a second callplaced indicator.

- Select 8-pin or RJ45 receptacles
- · LED light indicate call-placed & intercom in use

Part No.	Description	Price
IR319B	Single Patient Station, 8-pin DIN	158.95

RCA® 22", 32" & 42" Hospital Grade LED HDTVs

The healthcare series of TVs from RCA incorporates needed features for the demanding patient room environment. The membrane switch keypad makes cleaning the buttons easy. These sets feature a variety of commercial features to enhance the patient room, including direct tuning access to keep patients from accessing un-programmed channels, volume limiter, and ATSC Tuning Mode to select between physical or virtual channel numbers for more head end distribution flexibility. Sets also include an ATSC/NTSC/QAM/MPEG2 tuner, USB File Play, and energy saving features.

- Configurable 1/4" phone jack pillow speaker interface works with most pillow speakers
- USB cloning capabilities for quick duplication of TV configurations
- Bed 1/Bed 2/ Bed 3 compatibility
- · Matte black finish for finger print reduction
- · Remote controls sold separately

Clean Remote, Big Button Clean Remote & Universal Remote

The Clean Remote is a universal remote control which features a flat, non-porous, spill-proof surface that is easy to clean and is clinically proven to carry 99% less bacteria than regular remotes tested. It uses simple one-touch setup with no reprogramming ever needed. The attached battery door and hidden batteries help prevent loss or theft. The Standard Universal Remote comes preset to work with most healthcare TVs without entering any codes but can also be reprogrammed easily to work with other TVs if desired. Both remotes have the ability to work with over 250 TV brands.

- Clean Remote uses 2 AAA batteries (sold separately)
- · Standard Universal Remote uses 2 AA batteries (sold separately)
- · For TV use only (not for media players, combo units or on-demand systems)

SPECIFICATIONS Mount Pattern: VESA° 75 and 100 compatible Max Load: 25 lb

Peerless Pivot Wall Arm Mount For 22" - 40" LCD TVs

Arm extends up to 11.8" from wall or folds flat to 3" to save space. Offers +15/-5° of upward and downward tilt and ±5° of roll to level screen horizontally, and has two tensionable pivot points.

Part No.	Description	Price
*114692	Pivot Wall Arm Mount for 22" - 40" LCDs, black, Phillips screws	113.95
*ACC925	Security Screw Set for Peerless 114692 and 114694 mounts	14.95

Peerless Articulating Wall Arm Mount for 22" - 40" LCD TVs

Arm extends up to 20.2" from wall or folds flat to 3.3" to save space. Offers +15/-5° of upward and downward tilt and ±5° of roll to level screen horizontally, and has three tensionable pivot points.

Part No.	Description	Price
*114694	Articulating Wall Arm Mount for 22" - 40" LCDs, black, Phillips screws	126.95
*ACC925	Security Screw Set for Peerless 114692 and 114694 mounts	14.95

In-Line Audio Amplfier

The In-Line Audio Amplifier replaces your existing TV wall receptacle and amplifies the audio input signal from the TV to ensure sufficient volume to the pillow speaker. Mounted on a 1-gang stainless steel plate.

- · Allows you to take audio signal from the headphone jack or RCA port of any **standard TV** (check with your inspectors for regulations regarding non-hospital grade TV use)
- 12 VDC plug-in transformer included
- Uses a $\frac{1}{4}$ " phone plug to $\frac{1}{8}$ " headphone plug jumper cable (sold separately, on page 95)
- · Provides a 26 dB gain

Part No.	Description	Price
114782	In-Line Audio Amplifier	38.95

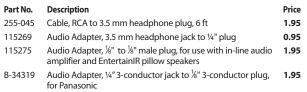

Adapters & Cable

Convert your RCA connection to a 3.5 mm headphone plug using the audio patch cable. Add the adapter as well to change again to a $\mbox{\em 1}4\mbox{\em "}$ phone plug. Use both together with Crest's In-Line Audio Amplifier (114782) to connect from your TV's RCA connection.

- Audio patch cable has black PVC jacket & is shielded
- · Mono adapter has nickel-plated contacts

1/4" Phone Jack

Combination antenna and wired-remote receptacle with a 1/4" three-conductor phone jack.

· Choose white plastic or stainless steel faceplate

• 1-gang

	/5035-00	
Part No.	Description	Price
7503W-00	CATV (F) Ext., home run, 0 dB isolation, plastic	12.95
7503S-00	CATV (F) Ext., home run, 0 dB isolation, stainless steel	13.95

5-pin DIN Type

Antenna and wired-remote receptacle. With one 5-pin DIN style receptacle and one "F" female connector.

White plastic faceplate

Jumper Cable Extension Kit

Standard 36" length is easy to upgrade to 72" with Jumper Extension Kit which includes a jumper box and 36" cable.

Part No.	Description	Price
3660	Jumper Cable Extension Kit	7.69

Economy Antenna Jumper Cables

Basic double-shielded coaxial cables are made with RG59 cable and have a standard "F" connector at each end. Available in either 36" or 72" lengths.

Part No.	Description	Price
105117	Coaxial Cable, 36"	3.26
115231	Coaxial Cable, 72"	4.95

113829

SpeedWrap®

Speedwrap cable ties and rolls are a great way to organize your cables and cords to keep them out of the way to prevent tripping and falls. Speedwrap is made of self-gripping, industrial grade, back-to-back hook and loop material that is easily adjusted and reusable, unlike traditional nylon cable ties.

- · Choose pre-cut strips or bulk rolls
- The super-strong yet soft material won't cut into your cords, making it a safer alternative

Part No.	Description	Price
113829	Speedwrap Cable Ties, black, 0.75" x 6", 1 pack (100/pk),	34.95
113831	Speedwrap Cable Ties, black, 1" x 8", 1 pack (100/pk)	39.95
113833	Speedwrap Roll, black, 0.75" x 15 ft	6.50
113834	Speedwrap Roll, black, 0.75" x 75 ft	26.95

"F" Connectors for **Non-Plenum Grade Coaxial Cable**

"F" connector with attached sleeve for use with hex type crimpers. Sized to fit non-plenum grade coaxial

Part No.	Description	Price
106479	"F" connector for RG6, 1 pack (10/pk)	6.58
F56-324T	"F" connector for RG6, 1 pack (100/pk)	46.40
106480	"F" connector for RG59, 1 pack (10/pk)	7.95
F59-290T	"F" connector for RG59, 1 pack (100/pk)	55.95

"F" Connectors for **Plenum Coaxial Cable**

"F" connector with attached sleeve for use with hex type crimpers. Sized to fit plenum grade coaxial cable.

Part No.	Description	Price
106481	"F" connector for RG6P, 1 pack (10/pk)	9.90
115377	"F" connector for RG6P, 1 pack (100/pk)	59.95
106482	"F" connector for RG59P, 1 pack (10/pk)	9.90
F59P	"F" connector for RG59P, 1 pack (100/pk)	80.68

Splices & Adapters

High quality splices and adapters for CATV, MATV and closed circuit use.

Part No.	Description	Price
BFA	BNC male to "F" female adapter (for closed circuit use)	5.47
F-90	"F" male to "F" female, 90°	5.47
F-71	"F" male to "F" male splice	3.26
F-81	"F" female to "F" female splice	2.16

Attenuators

Attenuation Pad Kit contains four attenuator pads (values 3, 8, 12, and 16 dB) used to reduce output from amplifiers or other signal sources. Nickel-plated solid brass body is 3/8" size. Female to male fitting.

Part No.	Description	Price
105110	Attenuation Pad Kit,	9.90
	1 pack (4/pk)	

In-Line Duplex Tapoff

Offers both convenience and an attractive appearance. UHF/VHF/FM tap for use in looping distribution systems. Clip resistors to get needed

- Flush mount
- Selectable 12, 15 or 20 dB isolation

Part No.	Description	Price
108092	In-Line Duplex Tapoff	13.95
	12/15/20 dB isolation	

Front Facing In-Line Tapoffs

In-Line Tapoff Couplers drop the TV signal from the hallway riser to the patient room. Quality couplers provide a full 5-600 MHz frequency range and maintain 75 ohm impedance on the trunk line with RF shielding which exceeds FCC specifications.

- 5 different isolation values
- · Designed for wall plate mounting

Part No.	Description	Price
113633	In-Line Tapoff 9 dB isolation	4.37
113634	In-Line Tapoff 12 dB isolation	4.37
113635	In-Line Tapoff 16 dB isolation	4.37
113636	In-Line Tapoff 20 dB isolation	4.37
113637	In-Line Tapoff 24 dB isolation	4.37

Side Facing In-Line Tapoffs

Economy Indoor/Outdoor In-Line Tapoffs feature high isolation of reflected signal to reduce unwanted images. Couplers are 5-600 MHz and maintain a constant 75 ohm impedance on trunks with tap variations (CATV quality). RF shielding exceeds FCC specifications.

- Zinc diecast with anti-corrosion chromate finish
- · 2-way system compatibility

Part No.	Description	Price
113625	In-Line Tapoff 6 dB isolation	4.37
113626	In-Line Tapoff 9 dB isolation	4.37
113627	In-Line Tapoff 12 dB isolation	4.37
113628	In-Line Tapoff 16 dB isolation	4.37
113629	In-Line Tapoff 20 dB isolation	4.37
113630	In-Line Tapoff 24 dB isolation	4.37
113632	In-Line Tapoff 30 dB isolation	4.37

In-Line Signal Splitters

In-Line Splitters are ideal for feeding multiple risers or distributing signal between floors. Will accommodate both CATV and MATV signals. Handles a band width of 5-900 MHz with an insertion loss of four (two-way) or 6.5" (four-way) dB max. Includes mounting screws.

- · Precision machined threads
- · Zinc diecast with anti-corrosion chromate finish

Part No.	Description	Price
105119	2-Way Signal Splitter	5.47
105111	4-Way Signal Splitter	6.58

"F" Connector Fitting Tools

The Cable Stripper Tool is a contractor-grade stripping tool with an adjustable blade and a builtin allen wrench. It is designed for easy, one-step cable stripping. The Hex Crimp Tool is a four-cavity tool for RG58, RG59, RG62, RG6 coaxial fittings.

Part No.	Description	Price
105108	Cable Stripper Tool	27.59
115574	Hex Crimp Tool for "F" Connector	44.95

B-33522F

1-Gang Stainless Steel **Face Plates**

1-gang stainless steel plate with one or two 0.375" holes for F81 connectors.

Part No.	Description	Price
B-31697P	Stainless Steel Plate, 1 hole	6.58
B-33522P	Stainless Steel Plate, 2 holes	7.69

Resistor Terminators

For terminating cable ends and unused outlets.

Part No.	Description	Price
F-59T	Resistor Terminator, 75 Ohm	1.80

Call our Technical Support team for help at 1-800-328-8908

Distribution Amplifier

The broadband distribution amplifiers amplify Off-Air VHF, FM, and UHF signals. High output and low noise amplification at a reasonable cost. Choices and options allow for a wide range of applications.

- · Switchable FM stop filter
- · Continuously adjustable gain control
- · Switchable combined U/V or separate U & V input

Part No.	Description	Price
113884	Distribution Amplifier, VHF/UHF/FM, 36 dB gain	116.95

SPECIFICATIONS

Size: 11"W x 5"L x 2"D Power: 117 VAC

Push-Pull Distribution Amplifier

The Tru Spec 550 MHz Push-Pull Distribution Amplifier is a high quality wall-mounted distribution amplifier producing signals with extremely low-noise and harmonic distortion. This amplifier is capable of 82 channel operation over the 54-550 MHz range, and makes an excellent distribution system amplifier in MDU, CATV, and SMATV systems. Because of its extremely low-noise figure and low distortion, it is ideally suited for use in larger networks where amplifier cascading is required. Available gain of 30 dB.

- 0.5 dB flatness across band provides low distortion & excellent frequency response
- Shielded enclosure provides over 95 dB RFI shielding performance reducing leakage and ingress
- Black anodized extruded aluminum heat-sink maximizes heat dissipation for improved reliability & corrosion resistance

Part No.	Description	Price
113886	Distribution Amplifier, push-pull, 550 MHz	159.95

SPECIFICATIONS

Size: 8"W x 4.5"H x 2.75"D Power: 115 VAC, 60 Hz, 4 watt

Weight: 2.3 lb

25 dB Sloped UHF-VHF-FM Distribution Amplifier

The cost-effective, wide-frequency bandwidth amplifier features a 68 off-air channel range (54-806 MHz), suitable for small to large MATV-SMATV systems. Heavy gauge rugged shielded case provides protection against damage. Convenient and compact design allows quick and easy installation.

- 7 dB sloped-output across band provides low harmonic distortion
- 20 dB FM trap switch (88-108 MHz) filters high level local FM radio stations reducing harmonic distortion
- Front Panel LED Power Indicator
- Flatness 7 dB ±1 dB
- Noise Figure: 5 dB / VHF, 7 dB / UHF

Part No. Description Price 113814-25 18-25 dB Distribution Amplifier, UL Listed 29.95

Total channels: 7 Max input: 22 dBmV Max output: 47 dBmV Total channels: 15 Max input: 19 dBmV Max output: 32 dBmV 117 VAC, 60 Hz. 4.4 watt Power: Weight: 1.2 lb

Alarm, Alarm-Free & Fall Safety Products

to Meet Your Fall Prevention & Protection Needs

Crest Healthcare Supply offers the latest solutions to help your staff prevent resident falls and their associated injuries. Quiet or alarming, on the floor or at the bedside, many new products are available in the following categories:

- String, pad, seat belt & infrared alarms alert caregivers of self-transfers
- Footwear & floor coverings help prevent falls
- Protective fall mats & anti-rollback devices help avoid injury
- A full variety of brands like Fall Fighter®, UMP®, Smart®, Posey®, Sensatec®, Safe+t mate® & TABS® fit your facility needs

Fall Fighter® Sensor Pad 100-101 **Monitoring Systems** Fall Fighter® Seat Belt 101 Fall Fighter® Floor Mat 101 Fall Fighter® **Infrared Monitor** 101

Help Reduce the Risk of Falls

with Crest Fall Fighter® Monitors & Sensor Pads

Connect to your nurse call system to reduce in-room noise

Crest Fall Fighter® Sensor Pad Monitors & Kits

Fall Fighter has the robust features you need for chair or bed applications at an affordable price. The alarm automatically resets when a patient returns to the pad or is quickly silenced with the reset button. A hinged battery cover with optional screw prevents tampering. The front LED flashes blue to indicate low battery and red to indicate active status and alarm. Durable steel mounting clip included. The Bed Monitor includes a nurse call interface jack, optional AC adapter input and remote-only volume option to silence alarm in room. Uses three AAA batteries (sold separately).

- · "Always on" monitoring
- Volume range from 85 105 dB
- Chime, warble & buzz alarm tones
- 0-2 second delay reduces false alarms
- · Optional monitor protector available to help prevent damage from accidental drops
- · AAA batteries have 4 times the current capacity of 9 V batteries for longer life

Crest Fall Fighter® Universal Sensor Pads

Fall Fighter Sensor Pads are built to last and have a 60-day or 1-year warranty. Chair pads are 8"W x 14"L with corner cord exit to easily direct it through chair back or side. Bed pads are 10"W x 30"L with side cord exit.

- · Over-molded plug end to protect against strain and clip breakage
- Heavy-duty bonding with reinforced anchor prevents separation of cord from pad
- · For use with most fall management monitors
- Universal for monitors with standard RJ22 pad ports

UMP® Personal Sentry™ Economy String Monitor

The Personal Sentry is an easy to use, compact monitor that mounts to the back of a wheelchair using the built-in spring clip. The tamperproof security clip attaches securely to clothing. Uses a 9 V battery (sold separately).

- Low battery indicator LED light
- · High (95 dB) & low (85 dB) volume switch
- · Optional monitor protector helps prevent damage

Description	Price
Economy String Monitor	17.95
Monitor Protector (for 109435)	9.95
Replacement String, Clip, and Magnet Assembly	6.95
Universal Replacement Tamperproof Security Clip, large	2.95
	Economy String Monitor Monitor Protector (for 109435) Replacement String, Clip, and Magnet Assembly

Safe•t mate® String Monitor

The Safe•t mate String Monitor is a compact personal alarm with thick polypropylene construction for durability. The surface mounted magnet easily activates from any angle. Includes 9 V battery.

- Adjustable string (18" 32") for chair or bed applications
- · Plastic clip mounts to chair frame or back, bed rail or headboard

Part No.	Description	Price
109447	String Monitor	22.50

Smart® Unbreakable String Monitor

This "unbreakable" monitor is enclosed in a soft, shock-proof protective boot to withstand repeated dropping and unusually harsh treatment. It includes a durable metal clip, top strap and 9 V battery.

- 110 dB max alarm volume
- · Unlimited warranty against breakage

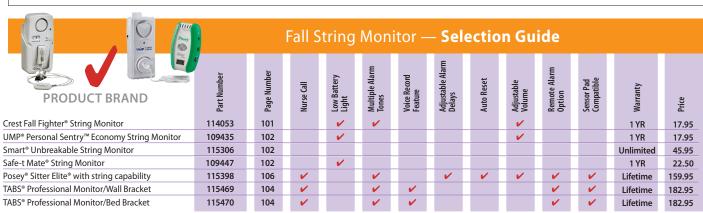

Part No.	Description	Price
115306	Unbreakable Pull String Monitor	45.95
115341	Magnet and Pullstring (for 115306)	6.50

Smart® Economy Monitor

This economy monitor for multiple applications comes with a protective bumper, built-in strain relief, and operates on three AA batteries (sold separately). Additional features include adjustable volume, three tone settings, on/off switch and nurse call port (for momentary systems).

- Includes a 10" nylon strap for mounting applications
- "Pad Lost" LED signals if a pad becomes disconnected
- Works with all standard Smart sensor pads & belt shown below
- Volume range is 80 90 dB

Part No.	Description	Price
114561	Economy Monitor	44.95
101968	Nurse Call Adapter Cable, ¼" to ¾" phone plug, 7 ft, grey	7.95
115307	AC Adapter	16.95

Smart® Change Pad Indicator ™ Monitor

This monitor's LED will tell you when it's time to change your sensor pad when used with Timed Pads. It comes with a protective bumper, no on/off switch for safety, a "Pad Lost" LED that signals when the pad is disconnected and operates on three AA batteries (sold separately). It features a reset button that can be disabled and a Caregiver Key™ for staff-only reset. Includes a 10" nylon strap for mounting applications.

- Works with all Standard Smart sensor pads or Timed Pads
- Low battery alerts and optional AC adapter
- · Adjustable tone, volume and delay

UMP® Bed Sentry™ Deluxe Monitor

Sentry Deluxe Monitors feature a dual button reset that deters tampering, no on/off switch for safety and a built-in cushion protector. Switches for high/low volume, four selectable tones and zero to two second delay are located inside the battery compartment. These monitors come with a sturdy, metal mounting clip, hinged battery cover, built-in strain relief and low battery indicator light. The Bed Sentry Deluxe also includes a nurse call interface, AC adapter input, and remote-only volume option to silence the alarm in room. Sentry Deluxe Monitors use one 9 V battery (sold separately).

- · Can be used with any UMP sensor pad, including Timed Pads
- · Cushioned edges protect against drops
- · AC power adapter sold separately

Part No.	Description	Price
114475	Bed Sentry Deluxe Monitor	56.95
114581	Seat Belt Only for UMP monitors	49.95

113965	Timed Bed Sensor Pad, 10"W x 30"L, 1-Year, 1 pack (6/pk)	240.95

UMP® Infrared Bedside Monitor

Infrared monitors can detect movement and alert caregivers before a person is out of bed. At the bedside, if a resident's feet move to the side of the bed it interrupts the fan-shape IR beam and alarms. Choose 85 dB chime, alarm, or remote volume option. The nurse call interface allows you to connect to your nurse call system. Uses one 9 V battery or AC adapter (both sold separately).

- · Can be mounted to a bed frame, head/foot board or above the head board
- · Use in a door frame for wandering detection
- Optional bed bracket available

Part No.	Description	Price
112149	Infrared Bedside Monitor	52.95
112150	Bed Bracket for Infrared Monitor	22.95
112174	AC Adapter	21.95
101968	Nurse Call Adapter Cable, 7 ft	7.95

Smart® CordLess® Fall Monitor

CordLess Monitor and sensor pads use wireless technology, eliminating the need for cords and allowing you to place the monitor wherever it's most convenient - even outside the resident room. The volume can be adjusted or silenced for quiet, remote monitoring. The monitor can support two sensor pads (bed to bed, bed to floor, floor to chair, floor to floor) at once for a single patient and features a nurse call port, no on/off switch, auto-reset, and front reset button or Caregiver Key-only reset options. The pad-lost feature operates with a four-minute delay. Monitor runs on three AA batteries (sold separately).

- LED alerts caregivers if sensor pad's signal is lost
- · Status light flashes every 4 seconds when in use
- · No cords to trip on or break
- Pad to monitor range is up to 30 ft, pad to central monitoring unit range is up to 100 ft
- · Alarm choices include 1 tone & 2 songs

Part No.	Description	Price
115336	CordLess Fall Monitor	72.95
115318	CordLess Chair Pad, 15"W x 10"L, 1-Year	52.95
115317	CordLess Bed Pad, 30"W x 20"L, 1-Year	54.95

115244	AC Adapter	16.95
115309	Mounting Bracket for 115336 monitors	16.95

NEW Smart® Wireless Fall Monitor

Defining features of this monitor are its ability to send a wireless signal to a Caregiver Pager (sold separately), and the monitor's ability to work with a variety of momentary call cord devices to function as a stand-alone call system. Also works as a standard fall monitor with multiple audible alarm tones, adjustable volume and low battery notification. Protective boot included.

- · Works with sensor pads, floor mats, seat belts & pager
- Powered by 9 V battery or optional AC adapter (sold separately)
- · Does not work with existing hard-wired nurse call systems

Part No.	Description	Price
115563	Wireless Monitor	91.95
115562	Caregiver Pager	49.95

The Sitter Elite monitor can be used to alert staff to attempted bed, chair or toilet seat exits. Features include voice recording capability, five alarm tones, adjustable volume, an adjustable cord 31" - 60" with locking clip and nurse call interface. Operates on four AA batteries (included).

- Over-molded impact absorbing case
- · Suspend feature allows extra time for administering care without
- · Hold feature allows resident to be away from alarm without turning it off

CREST

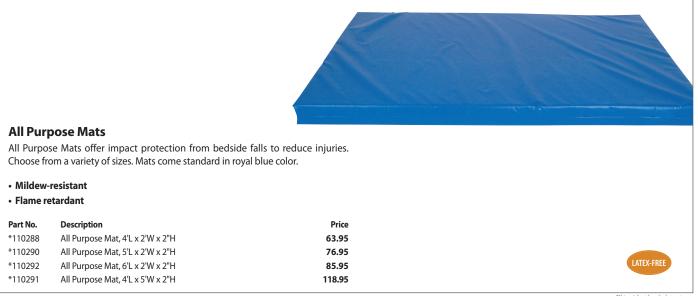

NOA® Bedside Fall Mat

Designed with patient safety in mind, the sturdy NOA Fall Mat features soft foam for maximum fall protection, beveled edges for safe entry and exit from bed and PVC coating for durability and fluid resistance. Ideal for positioning and leaving in place at the bedside.

• Easy to clean
• Accommodates caregiver traffic & movement of tables or lifts into position

Part No. Description Price
*115419 Fall Mat, polyurethane coated with PVC, 70"L x 23 ½"W x 1"H 144.95

TVs & Accessories

Mobility & Transfer

Safe•tmate® Under Seat Alarm

The Safe•t mate Under Seat Sensor mounts under the seat of a sling seat wheelchair to eliminate the need for sensor pads or strings. If the resident attempts to exit the chair, the sensor detects that weight is removed from the seat and the alarm sounds. Uses one 9 V battery (included).

- · Mounts directly to wheelchair frame & adjusts to chair width
- · Alarm box features tamper resistant switch, low battery/alarm LED & silicone protector
- Includes Velcro® mounting strap & upholstery clip

Part No.	Description	Price
114245	Under Seat Alarm	74.95

Safe•t mate® Alarmed Velcro® Seat Belts

This Velcro lap belt provides a reminder for residents to ask for standing assistance with the added ability to easily self-release with the bright red pull strap. The instant the belt is separated, an alarm sounds to alert staff and remind the resident to remain seated. Uses one 9 V battery (included).

- Tamper-resistant on/off switch on alarm box
- · Alarm includes a wheelchair mounting strap & silicone protector
- · Low battery & alarm indicator LED

Part No.	Description	Price
114243	Seat Belt with alarm, red Velcro pull strap, 36" – 46"	77.95
114244	Seat Belt with alarm, red Velcro pull strap, 46" – 58"	77.95

Safe•t mate® Wheelchair Anti-Rollback Device

This anti-rollback device features a pair of brake arms that instantly grip the tires and prevent the chair from rolling backward when a resident attempts to stand. When seated, the brake arms lift off of the tires and the wheelchair functions normally. Alarm models use one 9 V battery (included).

- · Installs discreetly behind the chair
- · Includes an install kit for standard & hemi wheelchairs

Part No.	Description	Price
SM2	Wheelchair Anti-Rollback Device for 16" – 20" wide chairs	145.95
SM2W	Wheelchair Anti-Rollback Device for 22" – 24" wide chairs	145.95
114246	Wheelchair Anti-Rollback Device with alarm for 16" – 20" wide chairs	227.95
*114247	Wheelchair Anti-Rollback Device with alarm for 22" – 24" wide chairs	227.95

Universal Mounting Strap

This universal strap allows caregivers to securely mount fall prevention monitors out of the reach of most residents and protects your wheelchair upholstery from mounting clips. Fits chairs 16" to 20" wide.

- · Prevents discomfort from clip assembly
- · Mounts to chair back using upholstery screws

Part No.	Description	Price
111540	Universal Mounting Strap	13.95

Fall Risk Alert Magnets

These magnets feature an attractive falling leaves design and can be applied to a metal doorjamb outside a resident or patient room to discreetly identify those at increased risk for falls.

- Each magnet measures 2" x 2"
- · A dignified way to alert staff & respect patient privacy

Part No.	Description	Price
115057	Fall Risk Alert Magnets, 1 pack (12/pk)	8.50

Headgear Helmets

The soft-top helmet protects the front, back and side of the head. The outer cowhide covering is filled with shock absorbent foam rubber. The adjustable Velcro° chin strap helps keep the helmet in place and provides a proper fit. For sizing, measure circumference of head around the temples.

- Washable construction
- · Perfect for residents at high risk for falls

Part No.	Description	Price
*113292	Helmet, small, fits up to 20"	39.95
113293	Helmet, medium, fits up to 22"	39.95
113294	Helmet, large, fits up to 23"	39.95
113295	Helmet, x-large, fits up to 24"	39.95

3M™ Safety-Walk™ Tread Tape

This fine-textured, slip-resistant vinyl material offers protection on slippery areas. Apply by cutting off the desired length of strips, peel off backing and place where needed. Some surface preparation may be required for optimum adhesion to the floor. One roll is 60' x 1". Available in clear or white to match any surface.

- · Gentle on bare feet
- Self-sticking
- Works well beside beds, around the toilet, showers & tubs

Part No.	Description	Price
113648	Safety Walk Tread Tape, 60' roll, clear	30.95
113649	Safety Walk Tread Tape, 60' roll, white	30.95

Single-Tread Slippers

Supple terrycloth on the inside absorbs perspiration and provides comfort and warmth. Slip-resistant tread on the bottom provides traction to help prevent patient falls.

- Easy to slip on & off
- Multiple sizes are color-coded for easy identification

Part No.	Description	Price
115134	Single-Tread Slipper, medium, green, 1 pair	1.50
115135	Single-Tread Slipper, medium, green, 1 case (48 pr/cs)	67.95
115136	Single-Tread Slipper, large, blue, 1 pair	1.50
115137	Single-Tread Slipper, large, blue, 1 case (48 pr/cs)	67.95

115146	Double-Tread Slipper, XL, beige, 1 pair	1.50
115147	Double-Tread Slipper, XL, beige, 1 case (48 pr/cs)	67.95
115148	Double-Tread Slipper, XXL, grey, 1 pair	1.50
115149	Double-Tread Slipper, XXL, grey, 1 case (48 pr/cs)	67.95

Posey Sure-Step Cushioned Bath Mat

The Posey Sure-Step Cushioned Bath Mat protects individuals by absorbing up to 93% of impact force from a fall. Durable yet soft PVC non-skid material is impervious to water, oil, grease, brines, acids, alkalis and bacterial growth. Connector blocks allow you to attach multiple pieces together.

- Cut to any size to fit bathtubs, showers or bathroom floor
- · Designed for slippery areas such as bathrooms & shower areas
- Meets UL940V0 flammability testing

Part No.	Description	Price
113248	Sure-Step Cushioned Bath Mat, 3'W x 5'L	136.95
113249	Sure-Step Cushioned Bath Mat, 3'W x 6'L	163.95

Non-Slip Bath Mat

This extra long bath mat provides a large, slip-proof surface in the tub for safety. The mat is held in place by multiple suction cups. It features a contour cut design to fit around drains.

- Soft rubber mats is easy to clean
- · Mat rolls up for compact storage when not in use

Part No.	Description	Price
*114127	Non-Slip Bath Mat, large, $15\frac{3}{2}$ W x $35\frac{1}{2}$ L, white	12.95

HipSaver® Standard

Standard hip protectors position a cushioning pad over the hip bone to prevent 80% of fractures by absorbing shock. HipSavers are perfect for residents with high fall risk factors or osteoporosis and are soft and thin enough to sleep in. The Standard style has ample leg openings for easy dressing and toileting and room to accommodate incontinence products.

- · Durable polycotton construction with soft pads permanently sewn in
- Guaranteed to be machine washable/dryable up to 250°F

Part No.	Description	Price
112375	HipSaver Standard, small, fits hip size 32" – 35"	35.95
112376	HipSaver Standard, medium, fits hip size 36"- 39"	35.95
112377	HipSaver Standard, large, fits hip size 40" – 44"	35.95
112378	HipSaver Standard, x-large, fits hip size 45" – 50"	35.95
112379	HipSaver Standard, xx-large, fits hip size 51" – 57"	35.95

HipSaver® Open Bottom

The Open Bottom HipSaver positions a cushioning pad over the hip bone to prevent 80% of fractures by absorbing shock. HipSavers are perfect for residents with high fall risk factors or osteoporosis and are soft and thin enough to sleep in. The Open Bottom style allows the wearer to use the toilet without removing it and is great for residents who may need to suddenly and quickly use the toilet.

- · Durable polycotton construction with soft pads permanently sewn in
- Guaranteed to be machine washable/dryable up to 250°F

Part No.	Description	Price
112396	HipSaver Open Bottom, small, fits hip size 32" – 35"	32.95

Invacare® Tracer EX2 Wheelchairs

The Invacare Tracer EX2 wheelchair sets the benchmark in manual wheelchairs. A true dual axle position allows for repositioning the 24" rear wheels and 8" front casters for standard or hemi seat-to-floor heights. The durable, low-maintenance, triple chrome-plated carbon steel frame with silver vein finish is long lasting, and 14-gauge crossbraces add additional strength and durability. The urethane rear tires are mounted on no-flex wheels for superior performance and a smooth ride. The Tracer EX2 also has many interchangeable components with the Invacare 9000 series chairs. Meets RESNA standards for manual wheelchairs in product performance. Wheelchair weight is 43 lbs.

- Dual embossed, flame-retardant upholstery resists mildew & bacteria as well as cold-crack & UV damage
- · Heavy-duty inner liners keep seat & back from stretching
- Low-maintenance, dual-sealed precision bearings
- Available in 16", 18" & 20" widths

Drive™ Silver Sport 2 Wheelchairs

The Silver Sport 2 wheelchair frame has a powder coated, silver vein finish that helps disguise marks from wear and tear. The standard dual axle frame and adjustable 3-position front casters provide easy transition of seat to hemi-level. It features a durable steel frame, urethane tires and composite wheels and hand rim. The Silver Sport 2 comes standard with embossed vinyl upholstery, padded arm rests and plastic foot plates in either swing-away footrest or elevating swing-away leg rest styles.

- Carry pocket on backrest provides additional storage & convenience
- Tool-free adjustable length front riggings
- Push to lock brakes

Safe•t mate® Universal Fit Rear **Anti-Tippers**

Innovative Rear Anti-Tippers provide a universal fit for most chairs, allowing you to keep only one product on hand for any situation. The unique sliding adjustment allows for easy transfer between makes and models of chairs and permits you to position them at any height.

- · Made from solid bar stock
- 2" diameter easy gliding wheels
- 10 full inches of infinite height adjustment

Part No.	Description	Price
SM-008	Universal Fit Rear Anti-Tippers, 1 pair	40.95

Universal Adjustable Rear Anti-Tippers

These anti-tippers allow you to streamline your inventory by providing a universal fit for most manual wheelchairs. They feature a new quick-release plunger design with notched adjustment grooves for easy setup and provide 10" of height adjustment. Fits both 7/8" and 1" wheelchair tubing.

- Durable 2" plastic wheels
- · Strong bar stock construction
- · Chrome finish

Part No.	Description	Price
115125	Universal Adjustable Rear	26.95
	Anti-Tippers, 1 pair	

Safe•t mate® Adjustable Front **Anti-Tippers**

Front Anti-Tippers have five height adjustments to accommodate variable height wheelchairs from full to hemi-level chairs. Clamp style anti-tippers are made from durable steel tubing and heavy-gauge chrome plated steel. Mounting hardware and easy to follow installation instructions included.

- 2" easy gliding wheels
- Fits both $\frac{7}{8}$ " & 1" tubing
- 5 height adjustments

Part No.	Description	Price
SM-011	Adjustable Front Anti-Tippers, 1 pair	57.95

Rear Anti-Tippers

Rear Anti-Tippers attach to the back of a wheelchair to prevent it from tipping backwards if tilted or rocked.

- · Clamp or slide-on styles
- · Perfect for residents who attempt to rock back while seated
- · Drilling and bolt required

Part No.	Description	Price
108726	Rear Anti-Tipper Assembly, diameter $\%$ ", slide on style, 1 pair	34.95
106522	Rear Anti-Tipper Assembly, diameter $\frac{7}{8}$ ", clamp on style, 1 pair	34.95

Front Anti-Tippers

Front mounted Anti-Tippers clamp on to chair frame to help prevent forward tipping of wheelchairs.

- · Prevents tipping when weight is applied to wheelchair footplate
- Chrome finish

Part No.	Description	Price
108140	Front Anti-Tipper Assembly, diameter $\frac{\pi}{8}$, clamp-on style, 1 pair	66.30
109573	Front Anti-Tipper Assembly, diameter 1", clamp-on style, 1 pair	66.30

Telescoping IV Rod

Telescoping IV Rod allows you to transport IV dependent patients by attaching IV bag to wheelchair mounted stand.

- Adjustable from 31" 49" in height
- Chrome-plated steel with 2 hooks
- Fits 7/8" or 1" tubing

Part No.	Description	Price
114003	Telescoping IV Rod for	29.95
	wheelchair mounting	

Wheelchair IV Rod with Oxygen Cylinder Bracket

Combination IV Rod and Oxygen Cylinder Bracket allows you to carry both IV fluid bags and an oxygen cylinder securely on the back of a wheelchair. Fits most non-hemi size wheelchairs.

- Height adjusts from 38½" 62½"
- · Chrome-plated steel with 2 hooks

Part No.	Description	Price
108725	IV Rod with Oxygen Holder for size E tanks, fits $\frac{7}{8}$ " and 1" tubing, chrome	99.48

Wheelchair Oxygen Cylinder Bracket

Wheelchair Oxygen Cylinder Bracket safely holds a cylinder to the rear of a wheelchair.

- For use with hemi wheelchairs
- Fits 7/8" or 1" tubing

Part No.	Description	Price
113816	Wheelchair Oxygen Bracket for size E oxygen cylinders,	33.95

Universal Oxygen Cylinder Carry Bag for Wheelchair

Adjustable bag is for use with size D and E cylinders. Top and bottom clasps easily attach for secure fit to wheelchair. Bag is made of durable, easy-to-clean nylon and can be used with most manufacturer's wheelchairs.

- Size: 261/2" x 71/2" x 43/4"
- 2 carry handles

Part No.	Description	Price
114108	Universal Oxygen Cylinder Carry Bag for wheelchair,	42.95
	size D/F	

Overhead Anti-Theft Bar

Overhead Anti-Theft Bar bolts to the top two upholstery bolts on the back of a wheelchair and loops above the chair to provide easy visual locating of the chair and increase overall size to deter theft.

- Measures 48" from top mounting hole to top of loop
- Works on most chairs with bolt-on upholstery
- Chrome finish
- Fits wheelchairs 16" 18"

Part No.	Description	Price
109575	Overhead Anti-Theft Bar	38.00

Anti-Fold Anti-Theft Bars

Anti-Fold Anti-Theft Bars help prevent theft by bracing across the wheelchair frame so the wheelchair cannot fold up for transport.

- Discreet protection for folding wheelchairs
- Chrome finish

Part No.	Description	Price
108213	Steel Anti-Fold Bar, adjustable 16" – 24" to fit %" diameter tubing	24.00
108214	Steel Anti-Fold Bar, adjustable 16" – 24" to fit 1" diameter tubing	25.00

Lap Huggers

Facilitates upper body posture and helps prevent forward leaning. Standard Lap Huggers attach by fitting the curved ends through the openings in wheelchair sides and remove with caregiver assistance. Self-Releasing Lap Huggers utilize hook and loop closures at each end to secure to wheelchair sides for a restraint-free alternative.

- Meets CA #117 flammability requirements
- 4" thick
- · Wipe-clean blue vinyl over durable foam

Part No.	Description	Price
112662	Standard Lap Hugger, for 16" – 20" wheelchairs	33.95
112663	Large Lap Hugger, for 22" – 24" wheelchairs	44.95
112661	Self-Releasing Lap Hugger, for 18" – 22" wheelchairs	35.95

Acrylic Wheelchair Tray

Tray features a half moon cutout for the user to sit comfortably behind, and attaches easily to wheelchair armrests with included hook and loop fastener straps that hold the tray securely in place. Clear ¼" thick acrylic material allows the chair user to see their feet and footrests which can help with wheelchair navigation and movement.

- · Universal design fits most standard wheelchairs
- · Hook & loop strap attachment

Part No.	Description	Price
114081	Acrylic Wheelchair Tray, 23"W x 19"L	49.95

Safe•t mate® Wheelchair Labeling **System**

Wheelchair Labeling System brackets attach easily to wheelchair upholstery connections and can discreetly display information behind chair, such as the user's name, room number, list of chair accessories and chair weight. Replacement labels allow you to change information on a chair without having to replace the bracket.

- · Identify chairs quickly & easily
- Replacement labels allow changes without bracket removal

Part No.	Description	Price
109445	Wheelchair ID System, 10 brackets and 50 labels	21.95
114026	Replacement labels for Wheelchair ID system, 1 roll (50 labels/roll)	8.25

Padded Belts

Constructed of a soft padded material that is comfortable for residents. Used for lower positioning and support. Attaches securely to back posts of wheelchair.

- · Universal sizing fits most residents
- For patients inclined to slide forward while
- Padded belt fits waist up to 60"

Part No. 112664	Description Padded Belt, Quick Release 2 pads, 13"L x 4"W	Price 18.95

Nylon Wheelchair Covers

Wheelchair covers help maintain seating comfort and positioning. The adjustable calf support provides support while allowing the feet to remain positioned on the footrests.

- · Covered in wipe-clean nylon
- · Helps protect fragile skin

Part No.	Description	Price
112289	Nylon Leg Protectors, 1 pair	23.95
112290	Nylon One Piece Calf Support	23.95
112300	Nylon Armrest Covers, desk length, 1 pair	27.95
112299	Nylon Armrest Covers, full length, 1 pair	27.95

Convo-Gel™ Cushions

Convo-Gel cushions are designed to relieve ischial pressure while providing patient comfort and stability. These quality cushions incorporate high density convoluted foam and a dual chamber gel bladder that prevents migration for optimum pressure relief. The Unitek™ nylon cover is low shear and waterproof.

- · Zippered cover has rear tie straps to keep cushion securely in place
- · Wipes down easily for cleaning
- Medicare reimbursable code HCPCS E2603

Part No.	Description	Price
114805	Convo-Gel Cushion, 16"W x 3"H x 16"D	37.95
114806	Convo-Gel Cushion, 18"W x 3"H x 16"D	37.95
114807	Convo-Gel Cushion, 20"W x 3"H x 16"D	37.95

Gel & Foam Wedges

The rounded bottom overcomes sagging wheelchair sling seats. The wedges measure 4" in the front and slope to 2" in the back. With the special fourchambered gel pad, the gel stays where you need it to provide necessary pressure relief. The high resiliency, medium density top layer of foam combined with the waterproof cover material results in long-term comfort. The belt and buckle fasten the cushions securely to the chair.

- · Proper lateral pelvic positioning
- · Multi-directional stretch cover to reduce shear

Part No.	Description	Price
112673	Wedge Gel/Foam Cushion, 16"W x 16"D, round bottom	80.95
112674	Wedge Gel/Foam Cushion, 18"W x 16"D, round bottom	85.95
112675	Wedge Gel/Foam Cushion, 20"W x 16"D, round bottom	116.95

Super Saver Cushions

Super Saver Cushions allow you to better maintain skin integrity for your residents, improve seating comfort and help control wound care expenses. Available in 2" and 3" heights. This medium density foam complies with California code CC117.

- · Cover made of durable, washable cloth material (not waterproof)
- · Includes ties to secure the cushion to the wheelchair

Part No.	Description	Price
113868	Super Saver Cushion, 18"W x 2"H x 16"D	21.95
113869	Super Saver Cushion, 18"W x 3"H x 16"D	23.95

Anti-Thrust Cushions

Designed to be a restraint-free solution for those who thrust forward in their wheelchairs. The rounded, dense bottom foam overcomes the wheelchair sling seat sag to achieve better seated positioning, and the softer top foam provides for added long-term seating comfort. Comes with a belt and buckle to secure the cushion to the wheelchair.

- · Multi-directional stretch cover to reduce shear
- · Non-slip heavy gauge bottom fabric

Part No.	Description	Price
112329	Anti-Thrust Cushion, 18"W x 16"D	78.95
112330	Anti-Thrust Cushion, 18"W x 16"D, with gel	91.95

Memory Foam Pressure-Reducing Wheelchair Backs

Provide an extra measure of comfort with Pressure Reducing Wheelchair Backs which have a 2" Memory Foam core. Waterproof, black stretchable cover can be easily wiped clean.

- 1 size fits 16" or 18" chairs
- · Attach to wheelchairs using sewn in ties

Part No.	Description	Price
112282	Memory Foam Back, 16" x 16"	56.95

Convoluted Foam Cushions

Ideal for those who require an economical decubitus cushion. The peaks and valleys allow for greater circulation of air flow under the patient while reducing pressure.

- · Fire-retardant polyurethane convoluted foam core
- For single patient use

Part No.	Description	Price
112717	Convoluted Foam Cushion, 18"W x 2"H x 16"D	7.18

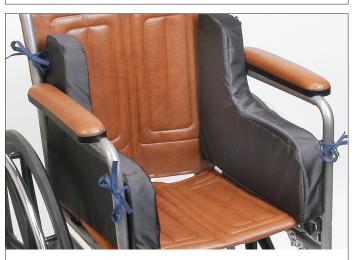

Armrest Bolsters

Armrest Bolsters improve posture by reducing lateral leaning. The unique, snug design reduces "bolster roll" on the armrests. The "wipe-clean" nylon cover fabric virtually eliminates the problem of heat and moisture build-up which could contribute to skin breakdown. The core is constructed of a medium density foam for comfort and long life.

- · Sold individually
- 5" diameter

Part No.	Description	Price
112302	Armrest Bolster, desk length, black	30.95
112301	Armrest Bolster, full length, black	31.95

Wheelchair Side Supports

Wheelchair Side Supports narrow the width of a wheelchair to provide better support for the smaller-framed individual. Side supports will help provide better upper body sitting support thereby improving seating posture. The core is constructed of a medium density foam for comfort and long life.

- · Fasten securely to wheelchair with ties
- · Wipe-clean nylon cover reduces heat & moisture buildup
- Fits 16", 18" & 20" wheelchairs

Part No.	Description	Price
112306	Nylon Wheelchair Side Supports, 2" width, 1 pair, black	46.95

Drive™ 3-Position Recliners

These affordable general use recliners offer three positions: upright, deep recline and elevated leg rest. A retractable lock bar secures the chair in the desired position. The large, blow-molded tray locks in five positions and can be stored on the side of the chair. Side panels can be removed for easy cleaning and maintenance and the seat features a moisture barrier. Available in standard or bariatric versions to accommodate most users.

- · Self-adjusting suspension in the seat prevents bottoming out
- Includes 5" casters (2 with locks, 2 without)
- · Foam & vinyl meet CA Flammability Standard & Boston Fire **Department specifications**
- Seat is 19" wide on standard version & 25" wide on bariatric styles
- Reclining angle is 70 150 degrees

Part No.	Description	Price
*114928	3-Position Recliner, with tray, blue ridge, 250 lb	373.95
*114929	3-Position Recliner, with tray, jade, 250 lb	373.95

*114932	3-Position Bariatric Recliner, with tray, jade, 500 lb	565.95
*114933	3-Position Bariatric Recliner, with tray, rosewood, 500 lb	565.95

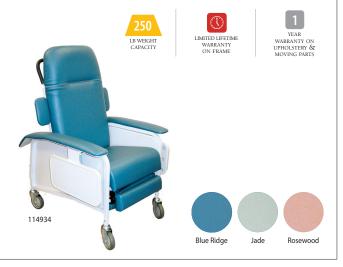

Drive™ Clinical Care Recliners

These comfortable recliners are ideal for many clinical applications and offer four positions: upright, TV, full recline and Trendelenburg. For safety, full recline and Trendelenburg position can only be attained by an attendant. They feature a gas cylinder release handle for guick back release which can be operated from either side of the recliner. The large, blow-molded side trays store at the sides when not in use and the side panels come off for easy cleaning and maintenance.

- · Gas cylinder control for smooth & easy movement
- Includes 5" casters (2 with locks, 2 without)
- · Foam & vinyl meet CA Flammability Standard & Boston Fire **Department specifications**
- Seat is 21½" wide to accommodate most users

Part No.	Description	Price
*114934	Clinical 4-Position Recliner, with tray, blue ridge	439.95
*114935	Clinical 4-Position Recliner, with tray, jade	439.95
*114936	Clinical 4-Position Recliner, with tray, rosewood	439.95

Large Base Quad Cane, four point

This rollator features a comfortable padded seat, removable hinged padded backrest that can be folded up or down, 6" black non-marring casters with soft grip tires for indoor and outdoor use, loop locks and brakes with serrated edges for a firm hold.

· Includes hanging bag for storage, privacy & security

· Folding hinge for portability

· Orthotic hand grips

Part No. Description *115473 Rollator, blue *115474 Rollator, red

Trigger Release Folding Walkers

Trigger release enables folding mechanism to be deployed without removing hands from the hand grip. Ideal for individuals with limited dexterity. Durable, composite palm release resists cracking and breaking.

Weight:

6 lb

- · Anodized 1" diameter aluminum tubing
- · Lightweight & sturdy

Part No.	Description	Price
111966	Trigger Walker, adult	52.95
111967	Trigger Walker, junior	50.82

Deluxe Folding Walkers

Easy 1-button release can be operated by one hand. High cross braces allow for full stride. Includes rear glide tips, allowing use on all surfaces. The height adjusts from 32" - 39" in 1" increments.

- · Available with or without front wheels
- Anodized 1" diameter aluminum tubing
- · Lightweight & sturdy

Part No.	Description	Price
109650	Deluxe Folding Walker	44.18
109649	Deluxe Folding Walker with 5" wheels	62.95

2-Button Folding Walker with Wheels

Easy to use 2-button release can be pressed by fingers or palm of hand. High cross braces allow for full stride. Includes rear glide tips and 5" wheels for use on all surfaces.

- · Anodized 1" diameter aluminum tubing
- · Lightweight & sturdy

Part No.	Description	Price
109652	2-Button Folding Walker with 5" wheels	63.95

Oversized Aluminum Folding Walker

Oversize walker has a wider and deeper frame design to accommodate individuals up to 500 lb. Easy 2-button release can be operated by fingers or palm. High cross braces allow full stride. Includes rear glide caps and glide covers for use on all surfaces. Height adjusts from 32" – 39" in 1"increments.

- · Precision design adds strength without weight
- · Vinyl contoured hand grip

Part No.	Description	Price
109654	Oversized Aluminum Folding Walker	86.95
*113691	5" Heavy-Duty Dual Walker Wheels, silver vein finish, 1 pair	39.95

Walker Wheels

Universal wheel attachments convert a folding walker into a wheeled walker. The 3" wheels allow for eight height adjustments and the 5" wheels allow for eleven. All in 1" increments. Both sizes include rear glide caps and glide covers for use on all surfaces.

- · Rubber wheels allow smooth, easy rolling
- Universal design fits all 1" tubing

Part No.	Description	Price
*114563	3" Walker Wheels, 1 pair	15.43
*114564	5" Walker Wheels, 1 pair	16.95

Swivel Walker Wheels with Lock & Rear Glides

Swivel walker wheel kits convert a standard walker into a wheeled walker. Rubber wheels allow the walker to roll easily and smoothly over irregular surfaces. The wheels can be locked for fixed wheel use or unlocked for swivel in any direction. Each set includes rear glide caps and covers allowing use on all surfaces.

- Choose from 5 height adjustments in 1" increments
- · Universal design fits all 1" tubing

Part No.	Description	Price

NEW TLC Positioning, Turning & Lifting Pad

This reusable pad with four handles is used for positioning, turning and lifting patients or residents as well as protecting bed linens or furniture against incontinence. Three layers of fabric absorb, wick and hold moisture. For use in a chair or bed.

- · Launders in temperatures not to exceed 180° F
- Strong side handles allow up to 4 caregivers to position, turn & lift patient or resident

Part No.	Description	Price
115556	Positioning, Turning and Lifting Pad, 48"L x 40"W	59.95

SafetySure® Transfer Pivot Discs

SafetySure Transfer Pivot Discs are designed for use by patients who are able to stand but cannot readily move their legs. For maximum support and safety for both the patient and the helper, the additional use of transfer belts is also recommended. Made of three high-quality polymer plates, one turning on top of the other.

- · Anti-glide tapes on both sides to prevent slipping
- · Light-weight with convenient grip handle
- Rotates 360° each direction

Part No.	Description	Price
113612	SafetySure Pivot Disc, 13"	66.95
113613	SafetySure Pivot Disc, 15"	75.95

SafetySure® Transfer Board

SafetySure Transfer Board is used primarily for seated transfers by bridging the gap between two transfer points. The board's anti-slip strips enable it to remain stationery during the transfer. The board is flexible and has a slick upper side to allow the patient to slide easily.

- · Made of comfortable, flexible plastic
- · Won't tip up as patient moves across

Part No. Description Price 113615 SafetySure Transfer Board, 30"W x 12½"D 50.95

Invacare® Reliant™ 450 Hydraulic Lift

Using this hydraulic lift for patient handling can help reduce staff injuries by making potentially challenging transfers smooth for the resident and the caregiver. The high lift range allows easy access to tubs, chairs, commodes, floors and beds with at least 41/2" under-bed clearance. The padded swivel bar with 360 degree rotation and six-point hook up allows the use of chain-free slings as well as older-style slings with chains or straps.

- Base legs adjust easily & lock securely into open position with the padded shifter handle
- · Total pinch-point protection covers all moving parts for added safety
- · Covered base provides protection against wear, dirt & moisture
- · Height range allows lifting from both floor & high surfaces
- · Slings sold separately

Invacare® Reliant™ 350 Stand-Up Lifts

Reliant stand-up lifts are comfortable, secure and offer ergonomic styling and easy maneuverability for everyday resident handling. They are ideal for use with weight-bearing residents as well as those needing rehabilitation support. Stand-up lifts include fast, simple sling attachment that protects against accidental disengagement, wide push handle for steering and good access for clothing removal. The adjustable pivoting leg support features a soft, contoured pad that secures legs in three positions for comfort at any height. Each lift features two 24 V batteries (one for lift, one for battery-charging station), charging station and antientrapment if lift meets any resistance while lowering. Each battery will provide approximately 150-300 lifts per full charge. An optional powered base opening style is also available to help reduce caregiver strain.

- · Audible low-battery alert
- · Wide, non-slip footplate provides stable base for transfer
- · Adjustable leg strap option secures leg against knee pad for optimum positioning on footplate
- Under-bed clearance of $4\%^{\text{\tiny{II}}}$ inches allows accessibility to most bed styles
- Slings sold separately

Drive™ Battery-Powered Lift

Battery Powered Patient Lift provides a safe and efficient means of transferring patients. Designed for the rigors of institution use, this lift utilizes heavy-duty steel construction without adding unneeded weight. The large 5" casters make the lift easily portable throughout the facility. The rear casters come equipped with easy to activate wheel locks to ensure added safety. Battery and charger are included. Additional batteries

- Fits under low beds
- · Easy to set up & disassemble
- · Recommended for use with 2 & 4 point slings
- Includes one 24 V battery pack & charger
- · Safety bypass to lower patient in the event of a power failure
- · Audible low battery alarm
- · Slings sold separately

Drive™ Bariatric Battery-Powered Lift

Safely transfer bariatric patients up to 600 lb with this Battery-Powered Lift. The unit's base legs adjust easily with the padded shift handle and lock securely into open position for added stability. Dual 3" heavy duty front casters allow smooth movement between transfer points. The extra wide coated swivel bar with six-point cradle offers 360° rotation for easy connection to slings. For safety, the jumbo actuator pump with emergency button can switch to manual mode to lower patients down slowly if necessary. The Bariatric Lift includes a removable, rechargeable battery, external charger and wall mounted bracket.

- · Extra-wide swivel bar & cradle
- · Manual lowering for emergencies
- · Slings sold separately
- · Includes battery & charger

Drive™ Stand Assist Lift

This Stand Assist Lift provides stable assistance in standing, transferring and toileting for patients who are weight bearing on their legs. It also supports safe patient handling and good body mechanics for your staff. The lift includes four sling attachment points to accommodate a variety of sling designs and has an extra-wide, non-skid foot plate for optimum foot positioning. The padded, adjustable leg support includes a strap to keep the patient's legs close and comfortable. The 24 VDC motor provides power and reliability and features an emergency stop button and manual lowering control to ensure safety under any circumstance. The fast-charging battery has visual and audible power status and low-battery indicators.

- FREE Stand Assist Patient Sling (114871) with each lift (nylon, size large, 44"W x 16"H)
- Includes removable rechargeable battery, charging station & wall mount bracket for charging
- · Easy roll maneuverability over a variety of surfaces
- Low 4½" under bed clearance for easy bedside use

Full Body Slings from Drive are constructed of durable solid or mesh material with reinforced stitching that resists deterioration from exposure to moisture and laundering. All slings are reinforced at all points for added safety, with edging that is soft yet durable. Slings are constructed with a high back section that provides additional support for the head and neck, and a padded under thigh section for comfort.

Crest HD2™ Bed Controls

The cost-effective and durable solution

Functionality

Large universal buttons with audible and tactile switches as well as a lightweight, ergonomic case design for easy function control.

Durability

HD2 is designed with long-life switches along with a durable molded strain relief cord.

Crest HD2™ Bed Controls

Cleanability · ·

CREST

HD)

The sealed overlay is easy to

sanitize and keep clean.

Replace your old, outdated bed controls with a quality Crest HD2 replacement bed control. Low-voltage HD2 bed controls were designed to be completely sealed with universal graphics that will never flake, pull or peel off. If a repair is needed, the "plug-n-play" solderless cable is simple to replace. HD2 Bed Controls are white and feature a white, 8 ft cord with durable strain relief.

- · Large buttons have an audible & tactile click
- · Long life mechanical switches
- · Moisture resistant

Crest bed controls are designed for use on low-voltage control circuits only.

4 Button Model: Controls head and foot functions. 6 Button Model: Controls head, bed and foot functions. 8 Button Model: Featuring auto-contour that controls the head and foot simultaneously.

Don't see your bed control listed? Call our Technical Support team at:

1-800-328-8908

NOTE: Prices will vary for models requiring special wiring. Contact Crest for part number and pricing information.

8 Button option featuring Auto-Contour that controls the Head and Foot simultaneously.

Bed Control Holders

Crest offers two different bed control holders that fit on bed rails for easy reach and storage. The plastic version is made of durable, yet flexible polypropylene which holds HD2 bed controls snugly and can be hooked on bed rails or headboards with out damage concerns. The metal bracket can be screwed to the back of bed controls to allow them to hook on rails and headboards.

Economy Half Rail

The Economy Half Rail is an excellent cost-effective means of providing safety and assistance for your residents. Clamp-on rail is 37" long with a maximum height of 15 $\frac{3}{4}$ " above bed support surface. All openings within the rail itself are $2\frac{1}{2}$ " wide or less.

- Chrome-plated steel construction
- One hand operation to raise/lower rail
- 36"L x 18"H
- · Easy assembly

Part No.	Description	Price
108209	Economy Half Rail, 1 pair	66.95
114490	Knob and hardware, 1 pair	15.95

Heavy Duty Universal Half Rails

Heavy Duty Universal Half Rails help you meet requirements for resident care. Maximum height is $14\frac{1}{2}$ " above the bed support surface. Rails are 30" long and cross-bars adjust from 34" - 37".

- Attach to spring bed frames with pull button release
- · Chrome-plated steel construction
- Rail gaps are 3 3/4" or less

Part No.	Description	Price
105183	Universal Half Rail, bed frame mount, 1 pair	115.95
*107552	Universal Half Rail, clamp on mount, 1 pair	115.95

Economy Universal Half Rail

The Economy Universal Half Rail provides protection by offering a convenient security hold for residents getting in and out of bed. Maximum height is 141/2" above bed support surface. Chrome plated steel rail is 30" long and cross-bars adjust from 34" - 37". All openings within the rail itself are $4\frac{1}{8}"$ wide or less.

- Bed frame mount
- Clamp attaches to most healthcare beds

Part No.	Description	Price
108701	Economy Universal Half Rail, 1 pair	54.95

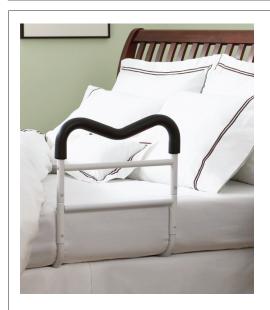

NOA® Safety Assist Bar

The Safety Assist Bar for NOA beds provides residents with stability and support when repositioning or exiting and entering the bed. The 24" tall bar features round, tubular construction for a comfortable grip. The interior bar locations eliminate gaps within the rail and offer multiple grip handles. Universal design mounts to left or right side.

- All NOA Beds are pre-drilled to accept the bolt-on attachment
- · Durable construction for long-lasting performance
- · Beige powder coated finish

Part No.	Description	Price
*114429	NOA Safety Assist Bar	85.95

M-Rail™ Bedside Handrail

The M-Rail fits snugly against the mattress and helps residents reposition, sit-up, balance, stand or transfer to a chair. It features a contoured, padded handrail and fits any size mattress, including those with pillow top surfaces. The M-Rail is suitable for home-style beds with a box spring.

- · Easy tool-free assembly for fast setup
- · Lightweight & compact design is less than 6 lbs

Part No.	Description	Price
113849	M-Rail Bedside Handrail	84.95

Assist Rails

114676

SuperPole™ & SuperPole with SuperBar™

The SuperPole is a restraint-free floor-to-ceiling grab bar support system to assist with standing, transferring or moving in bed. The $1\frac{1}{2}$ " diameter steel pole installs in minutes using a jackscrew at the base that expands the pole for a solid tension fit for 93" - 99" high ceilings. Rubber pads on the ceiling and floor plates hold pole secure and prevent marring. The SuperPole with SuperBar adds an additional horizontal 16" long, height adjustable, pivoting bar that locks every 45° for additional support. Both SuperPole and SuperBar feature a comfortable and washable foam hand grip.

- · Installs almost anywhere great for bedside, bath or toilet
- 5" Non-marking ribbed rubber base plate for better gripping
- · Clean design with powder coat gloss white enamel

Part No.	Description	Price
114675	SuperPole	159.95
114676	SuperPole with SuperBar	219.95
114677	Extender for SuperPole, for ceilings 8.1 ft – 10 ft	49.95

Mobility Transfer Handle

The Transfer Handle improves mobility into and out of bed and meets federal safety guidelines for entrapment. The handle easily removes in case of emergency. The spring bed model includes a bed board that sits on top of the bed springs. The pan style attaches directly to the metal bed frame.

- Easy tool-free installation
- Promotes independence & safe transfers
- Handle 3⁷/₈"W x 22³/₄"H

Invacare® Carroll CS5 Long-Term Care Beds

The CS5 offers mobility at any height at a more affordable price point. The floor lock system secures the bed to the floor at all height ranges but allows for mobility-on-demand, allowing caregivers to move the bed without having to raise it to its full height. An easy-to-read indicator alerts staff if the bed is off its casters and not locked properly. The bed features adjustable mattress stays that can accommodate 76" or 80" length mattresses. The optional Attendant Control Panel allows staff to easily operate all functions of the bed from the footboard. In addition, staff can restrict access by the resident by locking out any or all functions of the hand control directly from the panel.

- Rapid tool free assembly
- · High-low bed range
- · Exclusive arched slat deck design
- · Rugged, water-resistant, 6-function hand control with bright, universal symbols can be plugged into either side of the bed
- · Bed moves straight up & down to prevent wall damage
- · Side rails & bed ends sold separately

NOA® Elite Riser™ Beds

The Elite Riser swiftly raises and lowers straight up and down preventing wall scratches and gouges. The bed deck lowers to a safe sleeping surface height of just 8" and the included hand pendant can be connected to either side of the bed. The Elite Riser is lighter than most high/low beds and can be easily rolled or locked at any height. Each of the bed's corners has braking, swivel casters allowing it to be locked down or easily and quickly moved in any direction. The smooth, rib steel deck provides maximum support, easy cleaning and promotes long linen life and excellent mattress aeration. Comes standard with a baseboard bumper for added wall protection and a mattress retainer kit to keep mattresses in place. Designed in compliance with entrapment guidelines to ensure safety. Whisper-quiet motors and actuators provide smooth movement and less maintenance.

- Deck raises to 28" for easy transfers & back safety
- Includes 8-function hand control with auto-contour setting
- Thermo-set powder epoxy coating on metal surfaces for extreme durability
- Head/foot panels & side rails sold separately
- Footboard: 351/2"W x 13"H, Headboard: 351/2"W x 171/2"H

Multi-Ply 6500-Lite Mattresses

Multi-layered mattresses have a top layer of die-cut high density foam in the head and torso section for excellent pressure reduction. The heel section's top layer consists of independent cell technology for superior pressure reduction and a bottom layer of high density foam provides a firm foundation. A concealed zipper with Barrier Stop™ Over-Flap prevents liquids from contaminating

- Unitek[™] nylon cover is low shear, non-friction, antimicrobial & waterproof
- Complies with Federal Fire Code CFR 16 part 1633

Part No.	Description	Price
*113525	Multi-Ply 6500-Lite Mattress, 76"L x 36"W x 6"D	171.95
*113526	Multi-Ply 6500-Lite Mattress, 80"L x 36"W x 6"D	171.95
*113527	Multi-Ply 6500-Lite Mattress, 84"L x 36"W x 6"D	185.95

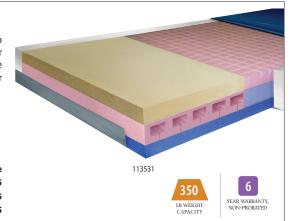

Multi-Ply 6500 Mattresses

These multi-layered mattresses have a top layer of die-cut high density foam in head and torso area, and special high resilient foam in heel area for comfort and reduced pressure. A middle layer of precision channel cut foam in the foot section provides additional heel pressure reduction and a high density foam bottom layer provides a firm foundation. A concealed zipper with Barrier Stop™ Over-Flap protects mattress core from liquids.

- · 4-Way stretch nylon cover reduces heat buildup
- Low-shear, non-friction surface is antimicrobial & waterproof
- Complies with Federal Fire Code CFR 16 part 1633

Multi-Ply 6500-Global Mattresses

Multi-layered pressure reducing mattresses have a top layer of Lura-Quilt™ foam which allows air to continuously pass through reducing heat build-up. The sloped heel section reduces pressure and increases blood circulation by redistributing the load to the less vulnerable calf and permits air circulation under the heel to keep skin cool and dry. The Lura-Tex™ bottom layer is channel cut to allow continuous gatching of the head and foot section without complications. A concealed zipper with Barrier Stop™ Over-Flap prevents liquids from contaminating mattress core.

- · 4-Way stretch nylon cover reduces heat buildup
- · Low-shear, antimicrobial & waterproof
- Complies with Federal Fire Code CFR 16 part 1633

YEAR WARRANTY ON MATTRESS COVER

ShearCare™ 300 Pressure Reducing Support Surface

This pressure reducing foam mattress is divided into three distinct zones, comprised of 66 channel cuts for reduced friction. Varied pressure reduction is achieved in the heel, torso and head sections with special attention to cell depths in the vulnerable heel section. The Barrier Stop™ flap over the zipper reduces the possibility of contamination of the inner core.

- Unitek[™] urethane coated nylon cover
- Cover is low-shear, fluid resistant, antimicrobial & fire retardant

Bed Wedges

Bed Wedges can be used to elevate the head, provide additional pillow support and assist with circulation. Wedges are great for upper or lower body positioning or preventing rollback when turning someone on their side.

- · Constructed of solid urethane foam
- · Zippered poly/cotton cloth cover

Part No.	Description	Price
*112721	Bed Wedge, 26"L x 24"W x 12"H, each	23.47

Bed Positioning Wedges

Using wedges provides optimum positioning to help prevent bed sores and can also help reduce sacral pressures and promote proper hip-spine alignment. "Grip 'n Grab" sleeves keep the Bed Positioning Wedges in place and reduce sliding and shifting.

- · More stable than pillows
- · High-quality, medium-density foam construction
- · Wipe-clean nylon cover

Part No.	Description	Price
112310	Nylon Bed Positioning Wedge, each, 17"L	26.95
112311	Nylon Bed Positioning Wedge, each, 33"L	44.95

Side Rail Pad

Side rail pads cover gaps within side rails to provide safety and comfort and are great for those with fragile skin or sensitive limbs. Pads attach easily to rails with Velcro® straps.

- · Black, wipe-clean nylon fabric cover with vapor barrier
- Soft 1" foam padding

Part No.	Description	Price
112973	Side Rail Pad, 36"L x 14"H, 1 pair	71.95

Gap Gone

Gap Gone is "stuffed" between the side rail and mattress to fill unsafe gaps and prevent injury. The ends attach to each other with Velcro® to create full bed protection.

- · Black, wipe-clean nylon fabric cover with vapor barrier
- · Resilient foam

Part No.	Description	Price
112971	Gap Gone, 36"L x 2"W x 6"H, pair	77.95
112972	Gap Gone, 36"L x 3"W x 6"H, pair	79.95

- · Synthetic sheepskin is non-allergenic & washable
- · Available in full or half rail size

Part No.	Description	Price
112312	Sheepskin Bed Rail Pads, Half Rail, 36"L x 18"H, 1 pair	73.95
112313	Sheepskin Bed Rail Pads, Full Rail, 60"L x 18"H, 1 pair	79.95

Bed Cradles

Bed Cradles hold the sheets and blankets off the patient's feet to prevent pressure and foot drop. The sturdy steel frame clamps securely to standard hospital bed mattresses to prevent movement and removes easily for bed making.

- · 4-piece cradle disassembles for storage
- · Machine washable cotton slipcover

Part No.	Description	Price
112667	Bed Cradle Frame, 36"L x 24"H	50.95
112668	Bed Cradle Cover Foot Support, 36"L x 24"H	26.95

Select Underpad

This affordable and reusable underpad is durable, and the comfortable twill facing resists staining. The vinyl knit barrier withstands the heavy demands of multiple washing and drying cycles while staying soft and leak-proof.

- · 6 oz/yd soaker for light absorbency
- Pad measures 32"L x 36"W

Part No.	Description	Price
115153	Select Underpad	6.49

Triumph® Underpad

Designed for moderate to heavy incontinence, these heavy soaker pads are a blend of rayon and polyester to absorb more fluid. Withstands multiple washings and provides superior protection against moisture damage to mattresses and bedding.

- 10 oz/yd soaker for heavy absorbency
- Pad measures 34"L x 36"W

Part No.	Description	Price
115154	Triumph Underpad	7.49

PerforMAX Laminated Underpad

The PerforMAX Underpad features a swift-dry top layer to wick fluid to the center core. Bonded construction helps keep the pad feeling thin, with a lamination process that enables the pad to lay flat without bunching or rolling.

- 8 oz/yd soaker for moderate absorbency
- Pad measures 34"L x 36"W

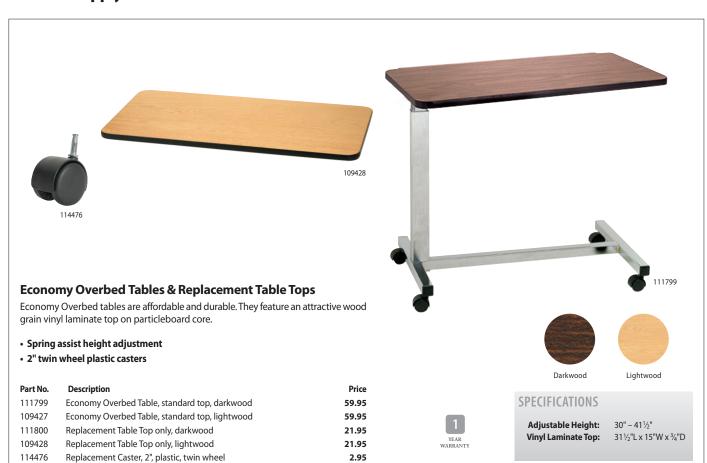

Part No.	Description	Price
115385	PerforMAX Underpad	8.95

Zippered Mattress Cover

Designed to keep mattresses clean and protected from dust, odors, accidents and stains, this cover is made of waterproof, non-allergenic vinyl.

Part No.	Description	Price
115278	Zippered Vinyl Mattress Protector, 80"L x 36"W, single	6.95
115277	Zippered Vinyl Mattress Protector, 80"L x 36"W, 1 case (36/cs)	227.95

Deluxe Automatic Overbed Tables

Tables feature a patented automatic spring-assisted lift mechanism for infinite adjustment. "Automatic" means the handle does not need to be engaged to move the table up, helping to prevent tipping if the bed is raised underneath it. Table tops are sturdy wood-grained melamine laminate on particle board core.

- Durable chrome finish base & column
- 1½" dual wheel casters
- Available in U or H base styles

Part No.	Description	Price
105176	"U" Base Automatic Overbed Table, walnut	108.95

Room Furniture

Invacare® Torrington Series Room Furniture

The Torrington series showcases traditional Georgian styling constructed in high-pressure laminate with wood edges on doors, drawers and tops. The drawers are vinyl wrapped for easy cleaning and have positive stop drawer guides. The ventilated, tempered back provides increased air circulation to reduce the buildup of moisture and prevent odors. Available in many styles and sizes to meet the functional and storage needs of your residents.

Oak furniture edges are available in Biltmore Cherry, Amber Cherry and Solar Oak finishes. Maple furniture edges are available in the Kensington Maple finish.

- · Scalloped toe kick provides a more traditional look
- · Comes standard with antique nickel door & drawer pulls

D6SP	Speaker Desk Phone, beige	46.40

Vanilla Chablis

Silhouette Shower Curtains

Silhouette Shower Curtains are fire-retardant vinyl and passes NFPA #701. Embossed vinyl with a traditional plisse pattern uses Safe-T-Top™ construction, featuring a double layer of vinyl plus an additional layer of tough nylon mesh to reinforce the top hem. Rust-proof aluminum grommets protect against rusting and tears reducing replacement costs. No bottom hem ensures proper water runoff and eliminates soap scum and residue collection that promote mildew growth. All curtains are specially treated for lifetime resistance to fungi, mold and mildew.

- 9-gauge vinyl
- Fire retardant

Cubicle Curtain Panels

Cubicle Curtain Panels give you top-of-the-line fabric, mesh and finishing features with the cost and time benefits of an off the shelf product. All sizes and colors shown are normally stocked and most orders leave our warehouse within one business day. Curtain Panels can be used to outfit any space by simply overlapping panels by one curtain hook, reducing your overall inventory investment. Each 72" wide panel includes 20" white mesh. Using Curtain Panels also saves time, money and trouble by allowing you to take down, launder or replace a single panel at a time.

- · Windham fabric integrates well into any decor & will sustain multiple washings
- Engineered to withstand the abuses of institutional use
- · Machine washable up to 160° F
- Choose from 84" or 96" high panels
- Meets NFPA 701 requirements

Note: Curtains that have been opened are non-returnable for infection control reasons. Panels feature a 72" cut width. The finished width will always be narrower. Your estimated finished width should be the length of your track plus 15%.

For accurate color matching please contact our Customer Relations team for fabric samples.

How To Replace Room Curtains with Cubicle Curtain Panels:

Select 84" or 96" height Step 1:

Measure the width of your space in inches add 15% and divide by 72 to determine how Step 2: many panels you need. (Round up to the nearest whole number to ensure coverage).

EXAMPLE

Current Curtain Size:	Cubicle Curtain Panels Needed:
100"W x 84"H	2
180"W x 96"H	3

Crest OptiBrite-Econo Overbed Light

The Crest OptiBrite-Econo is a low cost overbed light fixture that utilizes two 40 W or energy saving 34 W lamps, (Standard T-8, 4'), to provide soft direct room lighting. (Lamps not included.) Energy saving ballasts are installed to save you money. The lens is made from a non-yellowing acrylic that gives off a soft even glow and is easily replaced.

- · Includes night light & night light pull chain
- · Hard wire to a light switch (switch not included)

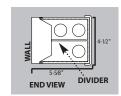

Part No.	Description	Price
*108351	OptiBrite-Econo Overbed Light, 4', white	102.95

Crest OptiBrite-Plus Overbed Light

The Optibrite-Plus overbed light provides direct and indirect light using three 40 W or energy saving 34 W lamps (standard T-8, not included). Two lamps provide soft glare-free indirect room lighting and one lamp provides direct lighting which is often used by residents in bed. A baffle separates the upper and lower lamps to give greater control over the lighting level. The fixture is made from heavy gauge steel for years of use. The energy saving ballasts save you money. The lens is made from a non-yellowing acrylic and is easy to replace.

- · Includes installed night light & night light pull chain
- Includes 4 position pullchain switch

Part No.	Description	Price
108353	OptiBrite-Plus Overbed Light, 4', white, pull chain right	135.95

Stilite Overbed or Task Lights

The Stilite is an affordable, stylish and adaptable fixture that can be used for overbed or task lighting applications. The entire housing is constructed of rigidly die-formed code gauge steel that is treated for optimum paint adhesion and rust resistance and then finished with white enamel for a smooth, clean look. Lights are hard wired and can be surface mounted either individually or in continuous rows. Wired with ballasts incorporating Class P thermal protection for 120 V, 60 cycle AC current. Lamps sold separately.

Also available in LED.

Call Tech Support for more information.

- Electronic T-8 ballasts for less energy consumption compared to T-12 usage
- · Acrylic white diffuser for soft & even glare-free illumination
- · Lens removes easily for lamp replacement

Part No.	Description	Price
*114701	Stilite Light, 2', 1 lamp (17 W)	58.95
*114702	Stilite Light, 2', 2 lamps (17 W each)	64.95
*114703	Stilite Light, 4', 1 lamp (32 W)	75.95
*114704	Stilite Light, 4', 2 lamps (32 W each)	77.95

NEW Seine Overbed Light

The Seine Overbed Light offers an attractive brushed nickel finish, stamped metal housing construction, clear acrylic diffuser and on/off pull chain. The unique 180-degree tilt capability provides directional lighting to meet the needs of patients and caregivers.

- 115416 uses two 21 watt F21T5 lamps (included)
- 115417 uses two 28 watt F28T5 lamps (included)
- Input voltage is 120 V AC @ 60 Hz

Low Voltage Light Controller

This Controller is a 120 V to 227 V two circuit solid-state device that ensures safe operation of high-voltage lighting. It is designed for applications inside light fixtures that use momentary, normally open switches that can be controlled sequentially or individually with single pole single throw (S.P.S.T.) switch/es. The unit operates at low 5 VDC with over-current protection of .4 A and can handle up to 6 A load at 120 VAC and 3 A load at 277 VAC. The size is $6\frac{3}{4}$ "L x $2\frac{1}{3}$ "W x $1\frac{1}{10}$ "H.

Universal Flexarm Lamps

Can be mounted on practically any surface, in any position to provide brilliant light where needed. Shade stays cool because of the air space between the inner reflector and the outer shade. Recessed toggle switch also stays cool and lasts longer because of the unique extruded heat sink that convects heat away from the socket. Lamp comes with coupler base and mounting hardware kit for use in beds having IV holes or beds with metal or wood panel headboards. Also available in smaller 40 W version for areas where a smaller, less-powerful lamp is required. All flexarm lamps come with a 6-foot grounded cord. (Bulbs not included.)

- · Heavy-duty 24" flexarm bends to any position & is vinyl-covered for easy cleaning
- Tough Lexan® shade withstands impact & abuse

Invacare® TheraPure™ Supine Tubs

TheraPure Supine Tubs are designed to maximize caregiver ergonomics for ease of use and safety. The additional space in the shoulder and hip areas makes resident turning easier while the narrower side walls allow the caregiver to be closer to the bather. The tubs include an auto-fill feature, adjustable temperature settings and have four whirlpool jets to provide relaxing hydromassage that is ideal for semi and non-ambulatory residents. The adjustable height model can also be raised to a comfortable working height for the caregiver with the push of a button. All TheraPure tubs are powered by exclusive SANIJET® Pipeless™ technology and meet the demanding disinfection requirements of NSF International's Protocol P182, allowing caregivers to remove up to 99.9% of bacteria after each bath. All components that contact water are easily accessible from within the tub and the jets are quickly removable by hand for thorough disinfection in less than five minutes. Without noisy pumps or blowers, Invacare tubs are quieter than air bubble or piped systems. TheraPure systems also retain water temperature longer, losing only 1.5°F in a 20-minute bathing cycle. You can also add essential oils or bath salts to the tub without the concern of residue build-up.

- · Shower wand features adjustable flow control & spray setting that is easily angled while filling tub
- Fast-fill mixing anti-scald valve dispenses 17 gallons per minute
- · Longer, wider & deeper to provide full immersion bathing
- · Adjustable stainless steel legs make leveling easy for simple installation

Invacare® Stretcher Lift

The Stretcher Lift is a battery-powered, height-adjustable bath lift that offers full-body support and is designed for use especially with TheraPure™ Supine Tubs. These lifts feature stretcher wings that can be raised or lowered from either end for maximum flexibility in transfer and bathing of residents. The mesh stretcher cover is fitted to a stainless steel frame and provides comfortable and contoured full-body support. Constructed of durable heavy-gauge steel and featuring heavy-duty casters, these lifts feature a full 30" of vertical range and sufficient weight capacity to accommodate a wide range of residents. An optional digital scale is also available for precise, easy weighing at bath time.

- · Hand-held control with 7 adjustments on lifting column
- · Mesh cover includes 2 safety straps & is easily removed for laundering
- · Heavy-gauge steel mobile base is powder coated for durability
- Comes with two 12 VDC sealed gel-cell batteries & wall charger
- · Support arms are stainless steel for easy maintenance

Invacare® TheraPure™ Free-Standing Side-Entry Tubs

The TheraPure Side-Entry Tub design facilitates easy, safe and dignified entry and exit and provides a relaxing, spa-quality bath experience. The tubs feature auto fill and adjustable temperature settings. Four whirlpool jets provide soothing hydromassage in these full-immersion tubs. A smooth contoured seat with a perineal cutout area promotes resident comfort and cleanliness. The seat is positioned at wheelchair height to make transfers easy. These tubs can be used with the height-adjustable Invacare Bathing Seat Lift. The XL model offers the same features plus an additional 2" of length and 4" of width. All TheraPure tubs are powered by exclusive SANIJET® Pipeless™ technology and meet the demanding disinfection requirements of NSF International's Protocol P182, allowing caregivers to remove up to 99.9% of bacteria after each bath. For simple cleaning, all components that contact water are easily accessible from within the tub and the jets are quickly removable by hand for thorough disinfection in less than five minutes. Invacare® Bathing Seat Lift

This bath lift helps you transfer residents in comfort, and is designed for use specifically with the TheraPure™ Free-Standing Side-Entry Tubs. Its soft seat is warm to the touch for enhanced resident comfort and engineered to work perfectly with the tub seat. The low seat height and resident support arms with a range of 120° make transfers easy and safe. The battery powered, height-adjustable seat can be raised or lowered to facilitate resident transfers from bed or wheelchair and into the tub. The unique "K" base frame easily rolls under the tub and around furnishing and provides impressive support and weight capacity.

- Ergonomically designed push handle for optimum maneuverability & minimal caregiver strain
- · Heavy-duty, smooth-rolling, lockable casters for easy movement on most surfaces

Clamp-On Tub Rail

The Clamp-On Tub Rail provides a secure hand position when entering or exiting a tub. The durable, white powder-coated steel construction is attractive and easy-to-clean while the stainless steel locking mechanism and non-wearing rubber pads provide scratch-proof security. Rail fits 3"-7" tub walls.

- · Tool-free installation
- · Not for use with fiberglass or claw foot tubs
- · Non-wearing rubber pads to prevent scratching

Part No.	Description	Price
*109648	Clamp-On Tub Rail	37.55

Easy Mount Grab Bars

Easy Mount Grab Bars provide support and flexible mounting options. Unlike three-hole flanges that limit screw placement, the nine-hole flange design offers greater mounting flexibility to structural studs allowing you to achieve desired angles and placement. Stainless steel construction ensures these grab bars will never rust. Choose from knurled stainless finish or smooth white powder coated finish for an attractive, lessinstitutional look. All styles are 11/4" in diameter and include screws for installation into wooden studs.

114731

- Included flange covers conceal the screws for a seamless look
- Multiple lengths to fit your needs (measured from the center of flange plates)
- \bullet Provides 1½" of distance between the rail & the wall
- · Strong & durable design

P.T. Rails™

The P.T. Rail is a white wall mounted support rail which promotes safe standing and transfers to and from a toilet. Smooth "fluid feel" hinge holds its position wherever you leave it - even halfway up. It will not inadvertently fall down causing impact injuries. The optional P.T. Rail Floor Mast is a floor mounted column that the P.T. Rail wall plate (both hinged and fixed models) can mount to. The Floor Mast option is available when mounting into the wall behind the toilet is not possible. Floor Mast height is 39" and the P.T. Rail height mounted on the floor mast can be set between 32" and 36" from floor.

- · Safe, out of the way storage on hinged models
- Unique offset rail design prevents wrist strain when using lower rail

Part No.	Description	Price
114229	Safety Armrest Toilet Rail	29.95

Advantage Rail™

The Advantage Rail is a floor-mounted support rail which promotes safe and independent standing and transfers. The horizontal rail pivots to move with you in safe, small steps providing moving support similar to a walker. Has heavy-duty all steel construction with durable enamel finish. Horizontal bar is 17" long with premium grey grip and has five height range settings between 30"- 38". There are eight locking positions at 45 degrees. Push down to lock the bar and lift ¼" to unlock. The floor plate has a six-hole screw pattern (6 x ¾" holes on 6 ¾" diameter) and two holes at 16" spacing.

- · Locking feature provides stability while pulling laterally for transfers
- Wide support zone for increased stability & multi-step transfers
- Adjustable height to accommodate specific needs

Sani-Bag™ Commode Liner Kit

Each Sani-Bag Commode Liner Kit contains a waste treatment powder that gels and treats up to 32 oz of waste. The odor neutralizer controls odors and allows for overnight or multiple uses. To use, simply open the liner into either the commode pail or bedpan, exposing the preloaded waste treatment powder. After use, simply roll the top of bag toward the bottom of the bag, close it with the adhesive seal, and dispose. Everything stays in the biodegradable bag.

- · Reduces risk of infection
- · Prevents backsplash & spillage
- · Dry, enclosed waste system limits commode cleaning

Crest Provides Monitoring Equipment

From the Manufacturers You Trust

Monitoring the health of patients or residents and delivering appropriate treatments is a process that requires accuracy and attention to detail. It's important to start with the right monitoring equipment in order to provide the proper treatments and achieve optimal patient outcomes. Let Crest help you find equipment to meet your patient and resident need in the following areas:

- Scales fit a wide range of users & applications
- Pulse oximeters, stethoscopes, sphygs & thermometers are clinical monitoring necessities
- Regulators, concentrators & other accessories provide oxygen therapy alternatives for any need

Mabis® Ultra Digital Blood Pressure Arm Monitor

This monitor features sensitive touchscreen buttons that light up for easy identification and has a two person memory bank that stores up to 60 readings per person. The screen displays systolic, diastolic and pulse readings simultaneously. Irregular Heartbeat Detection and WHO Indicator help identify abnormal readings. Includes batteries, AC adapter, storage bag, guidebook and two cuff sizes (adult and large adult).

- · 1-button operation
- · Soft, comfortable cuffs

Part No.	Description	Price
114535	Ultra Digital Blood Pressure Arm Monitor	89.95

HealthSmart™ Digital Blood Pressure Wrist Monitor

The Digital Blood Pressure Wrist Monitor has a large LCD display and offers a dual memory bank that can store up to 60 readings for up to two people. The screen displays the average of the last three systolic, diastolic and pulse readings. Irregular Heartbeat Detection and WHO Indicator help identify abnormal readings. Includes batteries, hard plastic storage case, detailed guidebook and quick-start guide. This unit is intended for home use to assist patients with reporting their health to their healthcare provider.

- Soft, comfortable cuff fits wrists 5.5" 7.625" circumference
- · Automatic shut-off

Stainless Steel Cart

Built to last, this heavy duty cart is multifunctional, durable and ideal for storage or transport. Reinforced and made with 22 gauge stainless steel, these shelves offer superior strength where it is needed. Bumpers on the legs and handles protect your furniture, walls and other equipment.

- · Legs made from electronically welded stainless steel
- Sound deadening panels under shelves restrict vibrations & noise
- · Comes with 3.5" swivel non-braking casters
- · Cleans & sanitizes easily

Part No.	Description	Price
*114698	Heavy Duty Utility Cart, stainless steel, 27.5 "L x 16.25 "W x 32.125 "H	199.95

Plastic Utility Cart

This all-purpose cart is durable, versatile and resists dents. Shelves are precision molded with high density polyethylene to resist stains and odors. Patented leg design allows for assembly without tools and attractive beige color blends in with any décor. The attached handle and 3.5" swivel casters provide control and maneuverability.

- · Lighter in weight than standard metal carts
- Flat shelves with beveled edge provide more usable space
- · Specifically engineered for quick & easy sanitization
- · Comes with non-braking swivel casters

Part No.	Description	Price
*114699	Plastic Utility Cart, light beige, 32.5"L x 17.125"W x 34.875"H	224.95

Universal Carts

PVC Universal Carts can be used in common areas for general storage, nursing, therapy or maintenance.

- · Handy rolling storage for easy transport
- · Choose from 3 or 6 slide out drawers

Single, Double & Triple Hampers

User-friendly mesh bags with zipper front opening eliminate lifting heavy loads over the top of hamper. Lid is constructed of durable high impact plastic (lid swings completely down and away from loads). Sonically welded bags have an elastic flip top that is supported by the wire frame inside the hamper. Material meets NFPA701 flame retardant standard and bag meets OSHA regulations. Rot and mildew resistant.

- Deluxe heavy-duty reinforced threaded stem casters (3" x 1.25")
- · Optional leakproof liners are washable & durable, improving infection control
- · Floor plate will support retainer bag
- · Ships knocked-down for lower shipping cost

Part No.	Description	Price

Crest Provides Reliable Maintenance Products

to Help Keep Your Facility Running Smoothly

A healthcare facility is a difficult environment to maintain. There are so many complex systems and pieces of equipment running under one roof and many different people making use of them every day. This type of 24-hour use (and sometimes abuse) can take a toll and cause things to break down. The Maintenance staff plays a critical role in the healthcare process by handling these issues promptly and accurately to make an environment suitable for patient care possible.

- Wall protection supplies & handrails prevent facility damage
- Signage provides way-finding & facility information
- Electrical components & equipment are key for facility maintenance
- Wandering systems ensure patient & resident safety

The DepartAlert Anti-Wandering Single or Double Door Alarm System functions with three easy-to-use components: a door monitor, a resident wristband, and a reset magnet. This is all that is needed to effectively monitor any exit doors or other crucial doorways in a facility. Activation is as simple as hanging the door monitor bar on the wall using the included double stick mounting adhesive and plugging it into an AC outlet. If a resident wearing a wristband attempts to depart through a monitored doorway, the door monitor will alarm visually and audibly. Silence the alarm with a magnetic key and system is reactivated. Other alarm reset options are available including reset buttons and wireless keypads. The system can also be expanded using the optional Central Monitor to get real time information on multiple doors all at a central location such as a nurses station.

- 3 easy steps for installation
- · Ideal for any size facility
- · Simple for all staff members to operate
- · Can be expanded to work with a Central Monitor

114706 (front)

Magnetic Door Lock

This delayed egress magnetic door lock can be used on perimeter exit doors and internal fire doors to block unauthorized exit and entry while providing a safe means of escape during a fire or other emergency. When someone attempts to exit through a protected door, an alarm will sound to alert staff before the door unlocks. The

"nuisance cycle" requires constant pressure on the door between 0-3 seconds to activate the "egress cycle." Once the "egress cycle" is activated, the door remains locked for 15-30 seconds, giving staff time to respond to the unauthorized exit or, if during a fire or other emergency, unlocks to allow life saving egress.

- NFPA Life Safety Code 101 Compliant
- · Deters unauthorized exit/entry
- · Door status indicator
- · Includes power supply
- · Can be used as a stand alone system or in conjunction with wandering detection systems

Part No.	Description	Price
114706	Magnetic Door Lock, 0-3 second nuisance, 15/30 second egress (field selectable), 12 or 24 VDC	750.95

P-027165	Glass Rod, 23/16"L x 5/32"D	1.82

Stopper® II

Stopper II helps prevent false alarm situations without restricting legitimate alarms. Tamper-proof, clear Lexan° shield and frame fit easily over manual-pull fire alarm stations. When shieldis lifted to gain access to fire alarm, it sounds a piercing warning horn. Larger sizes and surface-mounted pull stations can be accommodated with a spacer that adds 2" of depth. When installed with gasket, it provides weatherproofing for outside pull stations. Power source is 9 V battery (included). Remote powered unit available.

not included)

Part No.	Description	Price
STi1100	Stopper II with horn, flush mount, back plate inside measures: $5\frac{1}{2}$ "W x $6\frac{1}{3}$ "H with cover max depth of $3\frac{1}{3}$ "	89.53
STi1200	Stopper II without horn, flush mount, back plate inside measures: $6\frac{1}{2}$ "W x 7"H with cover max depth of $3\frac{1}{5}$ "	59.67
STi3002	Gasket to make unit weatherproof	9.90
STi3100	Spacer to surface mount large stations, adds 2 inches to overall depth	20.96

STi® Stopper Switches

These aesthetically appealing low/high voltage push button switches provide both a normally open and normally closed switch closure. These switches can be used in a variety of ways, including door bypass, and security override.

· Fits standard 1-gang electrical back box

Part No.	Description	Price
SS2400E	"Emergency Push Here" push button station with maintained switch closure and key reset (2 keys included)	61.95
2104X	"Exit, Push" push button station with momentary switch closure	55.95

SS2400E

2104X

Mini Stopper® II

Offers the same features as the Stopper II for smaller size pull stations.

The Flush Mount Mini Stopper II back plate inside measures: 41/8"W x 51/2"H with cover max depth of 23/10". The alarm is a 105 dB horn.

Part No.	Description	Price
STi6600	Mini Stopper II with horn, flush mount	72.94
STi6500	Mini Stopper II without horn, flush mount	34.95
STi6505	Mini Stopper II without horn, surface mount, included spacer adds 2 inches to overall depth	51.95
STi6531	Spacer, 2", for Mini Stopper II	23.17

STi6600 (Cover only, push button not included)

Fire Extinguisher Theft Stopper

This stopper uses a unique steel-cable-operated switch mechanism. It allows the extinguisher to be used for fighting fires at any time, but sounds a piercing alarm when the extinguisher is moved from its normal position. 9 V battery and all mounting hardware are included.

Part No.	Description	Price
STi6200	Fire Extinguisher Theft Stopper	33.95

Replacement Glass Rods

Glass Rods replace those used in most break-glass rod type fire alarms.

Part No.	Description	Price
440492	Glass Rod, 3 1/8"L x 1/8" diameter	1.95
107499	Glass Rod, 3 %"L x 1/8" diameter	1.82
107500	Glass Rod, 3"L x 1/8" diameter	1.82
107503	Glass Rod, 2 1/8"L x 3/16" diameter	1.82
107501	Glass Rod, 21/4"L x 3/16" diameter	1.82
107502	Glass Rod, 3 ¼"L x ¾6" diameter	1.82

244

Kidde Economy Smoke Detector

Battery powered ionization unit offers the maximum protection in a compact design. Twist-off mounting bracket for quick installation and battery replacement. Includes one 9 V battery, mounting screws, test button, low battery indicator chirp and flashing red light to indicate power.

- · Loud 85 dB horn for safety
- Ionization chamber responds fast to lowsmoke flaming fires

Part No.	Description	Price
114608	Economy Smoke Detector	12.95

NEW Self-Diagnostic Photoelectric **Smoke Detector**

This unit features a replaceable optical chamber, diagnostic LED, sounder, heat detector, built-in power supervision relay and a design to reduce nuisance alarms caused by dust, RF interference and ambient light. Mounts on single-gang box, 3" round or 4" octagonal boxes. 4-wire, 12 or 24 V.

Part No.	Description	Price
115430	Self-Diagnostic Photoelectric Smoke Detector	82.95

Heat Detector

Heat Detector connects easily to most commercial fire alarm systems. For use in areas where property protection is required such as boiler rooms, kitchens, medicine or linen storage areas. Rate-of-rise models respond to a temperature increase of 15° F/minute, sensing flash fires even before the 135° or 194° fixed temperature is reached.

- · Rate-of-rise feature is automatically self-restoring
- Not for use where life safety is a factor

Part No.	Description	Price
283B	Heat Detector, fixed temp, 135° F	12.95
284B	Heat Detector, fixed temp, 194° F	13.95

710CS Smoke Detector for the **Hearing-Impaired**

710CS is a smoke detector for the hearingimpaired. The Gentex 710CS is a 120 VAC photoelectric single station smoke detector designed to provide reliable early warning of smoke where both audible and visual alarms are required. Operates on the "light scatter" principle, utilizing a pulsing LED light source and a photodiode sensor in a fully screened sensing chamber. Smoke entering the chamber deflects the infrared beam and triggers the alarm. During the alarm period, the strobe will flash at a brightness of 120 candela, 60 times per minute. Complies with Title 19 of the California Administrative Code.

- 90 dB piezo signal
- 5 to 1 signal-to-noise ratio
- Nominal 2½% sensitivity
- · Convenient test switch
- · High-intensity strobe light with red "FIRE" lettering

Part No.	Description	Price
710CS-C	Smoke Detector for the hearing impaired	124.95

First Alert® Carbon Monoxide Alarm

The CO Alarm features a digital display that lights up for easy readings. Electrochemical CO sensing allows greater temperature and humidity variations for accurate detection. Peak Level Memory stores and displays the highest CO level detected. Detector will alarm at 70, 150 and 400 PPM, and can be tested using the front test button or remotely using most standard IR remote controls. The unit plugs directly into a standard non-switched outlet, or use the 7 ft line cord for multiple placement options. Two AA batteries (included) provide battery backup and can be changed without unplugging the monitor.

- · Low battery warning
- · Operates at 120 VAC, 60 Hz
- · Alarms at 85 dB from 10 ft

Part No.	Description	Price
114485	Carbon Monoxide Alarm with battery backup	54.95

Combined Smoke/Heat Detector

This photoelectric smoke detector with heat sensor is available in a 2-wire or 4-wire unit. Easy to install, with a plug-in design, the large wire entry port and in-line terminals provide ample room for neatly routing wiring inside the base. Base accommodates a variety of back box mounting methods as well as direct mounting with drywall anchors.

- Built-in remote maintenance signaling
- · Drift compensation & smoothing algorithms
- · Simplified sensitivity measurement
- · Wide-angle, dual-color LED indication
- · Loop testing via EZ Walk feature

Part No.	Description	Price
115257	Combined Smoke and Heat Detector, 2-wire	51.95
115258	Combined Smoke and Heat Detector, 4-wire	51.95

Receptacle Circuit Tester

Used for testing three wire 125 V circuits. Plug-sized tester has colored chart on top with three indicator lights to check correct wiring, open ground, reverse polarity, open hot, open neutral, hot and ground reversed, and hot on neutral with hot open.

- · Yellow color for safety
- · Constructed of impact-resistant plastic

Part No.	Description	Price
5200N	Receptacle Circuit Tester	16.95

Extech® Manual Ranging Digital Mini Multimeter

The Mini Multimeter functions include AC/DC voltage, DC current, diode test, resistance, continuity, temperature and battery test. Complete with 9V battery, general purpose type K bead wire temperature probe and test leads.

- · Large easy to read digital display
- 1.5 V & 9 V battery test function

Part No.	Description	Price
115259	Manual Ranging Digital Mini Multimeter	47.95

Ground Fault Indicator Circuit Tester

Used for fast, simple testing and fault identification in three wire, 125 V circuits without probes or meters. Plugs in to test U-ground receptacles. Tests for open ground, reverse polarity, open hot, open neutral, hot and ground reversed, and hot on neutral. Neon indicating lights and color-coded lenses provide visual indication of circuit condition or incorrect wiring.

- · Yellow color for safety
- · Constructed of impact-resistant plastic

Part No.	Description	Price
115218	Ground Fault Indicator Circuit Tester	15.50

Digital Circuit Breaker Finder

Quickly and accurately find the corresponding circuit breaker of any 120 V standard outlet without interruption of power. Compact two piece design quickly and easily allows one person operation and strong transmitter reaches distances up to 1000 ft. Includes one 9 V battery.

- · Bright green arrow & loud beep provide clear indication
- · Microprocessor controlled for more reliable identification
- 90-120 V operation

Part No.

114981

Description Price Circuit Breaker Finder 63.95

Receptacle Tension Tester

Provides a simple way to check the spring contact tension of a standard straight blade receptacle. Designed to test outlets with the following ratings: 15 A, 125 V, two pole, two wire; 15 A, 125 V, two pole, three wire; 20 A,125 V, two pole, three wire. Completely

insulated in an impact-resistant plastic housing and is safe to use on energized receptacles. Each blade has an independent spring to relieve stress and assure consistent readings over a long life. When tension falls below 10 oz, monitor the receptacle closely for further deterioration. Tension of 4 oz is the lowest point which a receptacle should be allowed to remain in service. NFPA Standard 99-1996.

- Easily test energized receptacles for deterioration
- · Carrying case

Part No.	Description	Price
107404	Receptacle Tension Tester with carrying case	78.95

Batteries

Long-lasting alkaline batteries provide reliable power for fall monitors and other various equipment.

- · All batteries sold individually
- 3 sizes available

Step 1: Select a sign style.

Choose from Contemporary, Marguis and Contour. All sign styles are manufactured exactly the same; the only difference is their unique shapes and accents. Each sign features a durable, scratch and chemical resistant sign face.

Step 2: Determine what sign type you need.

Our signage products are listed by sign type to help easily locate the type of sign needed.

Step 3: Select a sign color.

All signs ship with white lettering unless otherwise noted. For the sign background color, see the color chart below. Custom ordered signs are non-returnable and non-cancelable, please request sample color chips prior to placing your order.

Step 4: Phone, fax or mail your order.

See the back of the catalog for our order form. Please complete the listed information. For each sign ordered, remember to include product number, quantity, sign message and color.

Contemporary Style

See Page 252. Features a low profile; projects less than %" from the wall, with radius corners and a white accent

Marquis Style

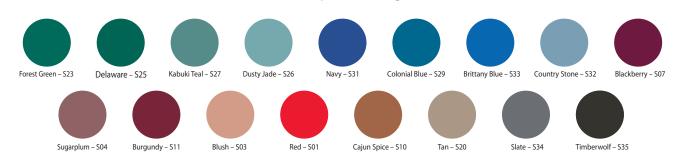

See page 253. Features a low profile; projects less than %" from the wall, with a brushed gold backplate in a designer

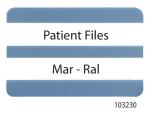

Contour Style

See page 254. Projects less than 3/4" from the wall with a %" thick beveled edge backplate in a designer shape.

Rapid Response Program for Select Wall Protection & Handrail Products

The Rapid Response program is designed to ensure our most popular products in the most popular colors are shipped out within four business days of when the order was placed, or the freight on the order is free. (Orders cannot exceed more than 50 pieces and must be for standard sizes. Rapid Response items must be a separate order from items that do not qualify as Rapid Response items, and you must state when ordering that you want it to be placed as a Rapid Response order). The "Wall Protection and Handrail Color Options" shown are all Rapid Response colors. Not all Wall Protection and Handrail products are eligible for the Rapid Response Program. Look for the Rapid Response icon to determine eligible items or contact Crest Customer Relations for assistance.

Wall Guards

Wall Guards offer impact protection from everyday abuse in high traffic areas. High-impact embossed rigid vinyl guards completely cover continuous aluminum retainers, and matching end caps and outside corners of injection-molded thermoplastic give a finished appearance.

3" Wall Guard is usually installed at wainscot height or at top of cove base height and protects wall from wheelchairs, carts and furniture. Install flush or extended from wall (see diagram below).

Wider 7¾" Wall Guard is ideal for protecting walls against equipment of varying height. Please specify color number from color chart below.

- · Fasteners & end caps sold separately
- · Costs less than wood or metal products
- · Fast easy installation with screws or adhesive
- · Prolongs life of expensive wall coverings & finishes
- · Maintenance-free, easy to clean, chemical & stain resistant

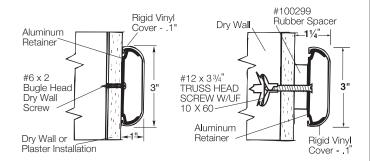

100311

Repairs Department

We provide expert and economical repairs for a broad range of healthcare related equipment. Your products will be cleaned, repaired and tested before being returned to you.

It's Easy to Use the Crest **Repair Service:**

1) Call our Customer Service Department on our toll-free number and request a repair authorization (RA) number.

Note: Failure to obtain an (RA) number may result in a delay of the processing of your repair request.

- 2) Include a card or sheet of paper with the equipment to be repaired listing the following information:
 - Name & phone number of contact person at your facility
 - Return address (street address, not PO box)
 - RA number received from Crest
 - · Special instructions, if any
- 3) Select method of shipping. Ground averages 4-5 days in each direction, or choose 1, 2 or 3 day shipping.
- 4) Write your assigned RA number on outside of shipping box.
- 5) Ship to Crest Healthcare Supply, 195 Third Street South, Dassel, MN 55325.
- 6) Call our toll-free number, 1-800-328-8908, if you have any questions.

NOTE: RA# is needed before sending your item in for repairs.

Crest is the authorized repair service provider for Legacy **Dukane® products.**

Call Ascom® at 1-800-385-2639 to submit your Legacy Dukane® repairs.

Flat Rate Repairs for:

Pillow Speakers All Crest pillow speakers (Slimline and Excel)	Price 50.00
All non-Crest non-digital pillow speakers	50.00
Remote Call-IR	35.00

Bed Controls All Bed Controls 35.00

This is just a sample of Crest's Repair Services.

Please call for more information.

*Non-Crest pillow speakers and bed controls will be repaired using Crest replacement components. If OEM components are required for repair, there will be an additional charge above and beyond the normal flat rate repair fee. Non-Crest bed controls requiring the replacement of cases and structural components are not repairable.

A \$15.00 minimum service charge will apply to any item with a list price of more than \$20 sent in for repair. This \$15 service charge also applies to estimate requests. The respective Flat Rate will apply in lieu of the service charge on any device found to be repairable.

If, due to age, condition, or cost of replacement parts, a device is found to be unrepairable, Crest may, at its discretion, decline to repair the device. Whenever possible. Crest will attempt to recommend a direct substitute and will waive the \$15.00 minimum service charge if replacements are purchased.

An evaluation fee may be applied on products not under warranty that need to be sent elsewhere for repair.

Crest may, at its discretion, waive the minimum service charge.

Crest Custom Privacy Curtain Order Form

Please fill out the attached form and fax to Crest Customer Relations at 1-800-369-9207 or email to customerservice@cresthealthcare.com. Crest will create a quote for your custom product and contact you back as quickly as possible.

PRIVACY CURTAIN ORDERING TIPS:

- You may wish to add 12 15% to your width measurement for fullness in the curtain.
- 2. Remember that track and carriers generally add 2" of height difference and most curtains should stop about 1 ft. above the floor to avoid dragging or tripping hazards. You can account for this by taking your ceiling height and subtracting 14" to find your desired curtain height.
- 3. Please note that custom curtains are not cancellable and non-returnable. Please ensure accuracy when placing your order.

Crest Healthcare Supply®

Proudly partners with the following organizations to offer you value-added pricing on quality healthcare products. Crest also partners with additional groups not listed. Call Crest for details.

Update Your Information

We want to be as efficient as possible and don't want to bother you with unnecessary mailings. Help us do that by letting us know if you are receiving duplicative catalogs or we are sending them to the wrong person. Also, if there is someone at your facility that should have a catalog but we missed them, let us know and we'll get a catalog in the mail.

Contact Crest Healthcare Supply in one of the following ways and we'll take care of it!

Phone: 1-800-328-8908 Fax: 1-800-369-9207 Email: customerservice@cresthealthcare.com

Mail: PO Box 727, Dassel, MN 55325

Every year we work to make the catalog as effective and efficient as possible for both our customers and the environment.
