

2017 LINCOLN  
CONTINENTAL

©2016 Ford Motor Company | Published by Ford Motor Company | Printed in United Arab Emirates

“Go confidently in the direction of your dreams. Live the life you have imagined.” — HENRY DAVID THOREAU

You deserve this. Nestle into the serene cabin and surround yourself with the reassuring strength of its forms. Delight in the harmonious design and the luxurious level of comfort offered to all within this spacious sanctuary. From the intuitive ease of its 30-way front-seat<sup>1</sup> controls to its exceptional collection of amenities for those in back!<sup>1</sup> Continental invites everyone to experience the journey in an elegant new way.

# HARMONY

<sup>1</sup>Available feature.

A welcoming sense emanates from its distinctive grille, extending through the brilliant LED headlamps<sup>1</sup> and beyond. Continental embodies the refined elegance with which you approach everything in life.

The graceful lines of its exterior flow seamlessly over the E-latch door handles, which create a beautifully clean profile by blending into the beltline of the vehicle. And the power-cinch<sup>1</sup> doors gently close themselves.

<sup>1</sup>Available feature.

“It’s not what you look at that matters, it’s what you see.” — HENRY DAVID THOREAU

Welcome. As you approach, Continental recognizes your presence, warmly greeting you with a series of illuminating gestures. The LED signature lighting within each headlamp flows gracefully outward, while a luminous welcome mat appears beneath the doors on each side of the vehicle. Grasp the beautifully backlit door handle and your door opens with ease. Inside, ambient lighting puts on a show of its own. As you relax into your seat, the autofold sideview mirrors<sup>1</sup> deploy to your personalized settings.

<sup>1</sup>Available feature.

# ENVISION

Much like the ocean waves perfect each grain of sand, Lincoln artisans honed and refined every detail in the creation of the Continental interior. Its meticulously sculpted contours, thoughtfully engineered controls, and carefully selected materials combine to offer you a sanctuary unlike any other.

As you relax inside, breathe in the luxurious scent of Bridge of Weir Deepsoft™ leather<sup>1</sup> created exclusively for Lincoln by the historic Scottish tannery. Note the seamless finish of the center console's tambour door. It's trimmed in your choice of walnut or ash; laser-cut from a single piece of wood. Press a button to bring the engine quietly to life. Take a moment to customize your gauges, displaying the details you prefer. Then select your gear with push-button precision, and be on your way. All your travels will be elevated by these spectacular surroundings.

<sup>1</sup>Available feature.

Each body is unique – and every one deserves to be treated with the utmost kindness and respect. This is the philosophy behind our Perfect Position Seats. Inspired by private aircrafts, they feature a patented comfort-carrier design that flexes around you in a personalized embrace. Treat yourself to the remarkable support of the 30-way adjustable front seats! Their thigh cushions extend and adjust independently, because one leg remains at rest while the other engages the pedals. You can optimize your comfort with cooled settings, and use the Active Motion® massage functionality to help reduce muscle fatigue in your upper legs and lower back. Arrive feeling revitalized and refreshed in Continental.

# RE-INVIGORATE

Head restraint adjusts 4 ways

Reclining feature adjusts 2 ways

Back bolster adjusts 2 ways

Lumbar support adjusts 4 ways

Active Motion massage functionality

Thigh extension adjusts 4 ways

Thigh support manually adjusts 4 ways

Cushion bolster adjusts 2 ways

Track adjusts 6 ways

<sup>1</sup>Available feature.

Lincoln Continental believes in pampering every passenger it transports. With the Rear-Seat Package, you can give your companions the power to control their environment. They can select their preferred temperature, and adjust the power rear-window sunshade, and the cooled outboard seats with Active Motion<sup>®</sup>, power lumbar and recline, all to their liking. They can also enjoy beautiful views framed by the dual-panel moonroof, increased airflow from the extra rear registers, and the comfort of inflatable outboard safety belts. Sunshades extend over the rear-door windows to increase privacy and reduce glare. They can even move the front-passenger seat back forward if it's not in use – to give themselves more room to relax.

## | SYNC

Our next generation of voice-activated technology – SYNC® 3 – connects you to the world around you with its straightforward new design and features! Audio, phone, navigation<sup>2</sup> and other functions are concisely presented on the full-color LCD screen. Whether you command it using simple, everyday language, or swipe its capacitive touchscreen, SYNC 3 delivers high-speed performance. Plus, automatic updates over Wi-Fi<sup>®3</sup> help keep it running at its best, so you can keep your eyes on the road and hands on the wheel.

Place and answer calls, and control music from your USB device or smartphone, all with simple voice commands. The Navigation Radio System<sup>2</sup> lets you pinch-to-zoom maps and makes it easy to enter your destination, find a market, a particular shop or a new restaurant, and so much more.

Music has the power to calm and soothe... invigorate and liberate. Whatever your preference, our expertly engineered Revel<sup>®</sup> and Revel Ultima<sup>®</sup> audio systems<sup>2</sup> can deliver it with a level of precision and musical accuracy you won't just hear – you'll feel it, too – as if you're seated in the "Audience" or right up "On Stage" when you use the personalized listening modes. Enjoy outstanding, multi-dimensional sound in every seat courtesy of Revel Waveguides, QuantumLogic<sup>®</sup> Surround Sound technology and advanced cabin correction tuning. The 19-speaker Revel Ultima audio system<sup>2</sup> uses patented Clari-Fi<sup>™</sup> music reconstruction technology to enhance satellite radio, streaming services, MP3s and other digital sources – for clear, crisp, wide, dynamic sound.

**REVEL**  
HARMAN

<sup>1</sup>Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market. <sup>2</sup>Available feature. <sup>3</sup>Optional Navigation Radio System map updates cannot be received via Wi-Fi and require a separate update. Clari-Fi, QuantumLogic, Revel, Ultima and the Revel logo are trademarks of HARMAN International Industries, registered in the United States and other countries. Wi-Fi<sup>®</sup> is a registered trademark of the Wi-Fi Alliance<sup>®</sup>.

Imagine yourself gliding effortlessly along without any distractions. You are blissfully at peace – one with the road. Connecting you with this feeling is the driving force behind every aspect of Continental. Lincoln Drive Control with Continuously Controlled Damping helps isolate your vehicle from the road's imperfections, while adaptive steering delivers impressive steering responsiveness and performance. Continental also puts the control of a manual shift at your fingertips with its engaging SelectShift® automatic transmission. Just tap the steering wheel-mounted paddle shifters to change gears if you choose. Explore your options.

#### **3.0-LITER GTDI<sup>1</sup>**

Featuring twin-turbocharging and direct-injection technology, this engine is one of the most powerful Lincoln has ever produced – putting 373 net PS<sup>2</sup> and 575 N•m of net torque<sup>2</sup> at your discretion. It is paired with Dynamic Torque Vectoring for the consummate Continental driving experience.

#### **2.7-LITER GTDI<sup>1</sup>**

Select this direct-injected engine to attain an impressive balance of efficiency<sup>2</sup> and performance. Two turbochargers pump air quickly into the combustion chambers, generating a virtually instantaneous surge of on-demand power: 339 net PS<sup>2</sup> and 542 N•m of net torque<sup>2</sup>.

#### **INTELLIGENT AWD**

Intelligent all-wheel drive (AWD)<sup>1</sup> helps Continental perform at its best in all conditions. The fully automatic system is designed to enhance handling and maximize traction by transferring power between the front and rear wheels as needed, typically before wheelslip can even occur.

<sup>1</sup>Available feature. <sup>2</sup>Data as per GCC Standardization Organization certification.

**THE BEST DECISIONS ARE MADE WITH TRUSTWORTHY COUNSEL.**

Your wellness regimen. Your investments. You know where to look for guidance with these. When you need to parallel park or back into a perpendicular spot, turn to the Enhanced Active Park Assist System! Using ultrasonic sensors, the system not only helps you locate an appropriate space, it steers the vehicle into it. All you do is follow on-screen prompts and control the shifter, brake and accelerator pedals. It can steer while you pull out of a parallel spot, as well.

Learn more about this advanced technology in the Specifications.  
\*Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.

**SO MUCH CAN HAPPEN IN THE BLINK OF AN EYE.**

You can make an impression. Stir up emotions. Completely change your course. When split-second challenges arise on the road, the advanced driver-assist features<sup>1</sup> Continental offers can help you maintain a sense of calm.

Enabling the vehicle to monitor your surroundings so you can react accordingly, these features provide support in many ways. They can help detect the presence of others in your blind spots and prompt you to stay in your lane. They can manage the vehicle's speed for you in tedious stop-and-go traffic, as well as on the open highway. And if you should need to come to an unanticipated stop, there are technologies engineered to help with that, too! Glide through life's experiences with elegant confidence in the all-new Lincoln Continental.

Learn more about these advanced technologies in the Specifications. <sup>1</sup>Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.

# EMPOWERING

FEATURES INCLUDED ON EVERY CONTINENTAL

## LINCOLN DRIVE CONTROL

Road conditions change. Continental adapts. You remain comfortably in control. That's the beauty of Lincoln Drive Control featuring Continuously Controlled Damping (CCD). You don't know what to expect, but it does. Using sophisticated sensors, it reads the road – and your driving input – every 2 milliseconds. Then, it adjusts to help deliver a smooth ride and responsive handling. Depending on your mood, feel free to select between 3 drive modes – Comfort, Normal or Sport. With any of them, Electric Power-Assisted Steering (EPAS) automatically adjusts to provide the kind of steering response and feedback that make you feel confident behind the wheel.

## ADAPTIVE STEERING

Sometimes it really pays to go with the flow. Unlike the fixed ratio you get with a mechanical steering setup, adaptive steering is designed to keep pace with changes in your speed. It dynamically adjusts the ratio between your steering wheel and road wheels to deliver impressive steering performance and responsiveness. When you're traveling at lower speeds, the ratio is lowered, helping your vehicle feel very agile and fluid, and even making it easier to park. As your speed increases, the ratio increases, helping your vehicle feel taut and stable as it responds precisely to your inputs.

## AUTO HOLD

There's no need to hold down the brake pedal for a long stoplight or extended wait. Just activate the Auto Hold feature,<sup>1</sup> then come to a complete stop. Even on a hill, the system will hold your vehicle in place until you press the accelerator.

AVAILABLE EXCLUSIVELY ON RESERVE

## DYNAMIC TORQUE VECTORING

Paired with the 373-net-PS 3.0-liter GTDI V6 engine,<sup>2</sup> Dynamic Torque Vectoring teams up with Intelligent all-wheel drive (AWD) to send up to 100% of the available rear-axle torque to one outside rear wheel while cornering – the result is a smooth and seamless driving experience.

# CRAFTED

## 1:1 MODEL

A critical new step was introduced to the Lincoln development process with this all-new vehicle. Computer-generated data was used to create a life-size model of Continental early in the development process. This new approach allows the designers, engineers, program managers and other key members of the team to scrutinize and refine the way the data defines the final product, in order to hone the fit and finish of the vehicle's most minute details.

## LUXURY VALIDATION

The materials, craftsmanship, fit and finish, and function of each Continental that leaves our facility are meticulously inspected by the experts in our Lincoln Luxury Validation Center – ensuring that your new vehicle meets Lincoln standards in every way, before you see that it meets yours.

# ADVANCED

DRIVER-ASSIST TECHNOLOGIES

## ADAPTIVE CRUISE CONTROL WITH STOP-AND-GO

When highway cruising or in lower-speed traffic, Adaptive Cruise Control with Stop-and-Go<sup>1,2</sup> is designed to eliminate the need for constant adjustments. You simply set the speed, and the system can adjust to maintain your choice of 4 preset gaps from the vehicle in front of you, even following it to a complete stop.

## LANE-KEEPING SYSTEM AND DRIVER ALERT SYSTEM

If you start to drift out of your lane, the Lane-Keeping System<sup>1,2</sup> is there to help. Using a forward-facing camera to detect road lane markings, it can apply steering wheel torque and even alert you with steering wheel vibration to help direct you to return to your lane.<sup>3</sup> If it detects that you've crossed the line or repeatedly drifted, the Driver Alert System<sup>1</sup> can emit an audible tone and display a coffee cup image to let you know it's break time.

## PRE-COLLISION ASSIST WITH PEDESTRIAN DETECTION

Sometimes you can't see it coming. A sudden turn in front of you. Unexpected brake lights. Get help from our Pre-Collision Assist with Pedestrian Detection.<sup>1,2</sup> Using camera and radar technology, it can monitor your vehicle's proximity to other vehicles and pedestrians. If a potential collision is detected, it can alert you with visible and audible warnings and, if needed, precharge the brakes and increase brake sensitivity to help provide full responsiveness when you brake. If the system determines a collision is imminent, active braking may automatically apply full braking.<sup>4</sup>

## BLIS (BLIND SPOT INFORMATION SYSTEM) WITH CROSS-TRAFFIC ALERT

Some vehicles may be out of your line of sight, but they can be detected by BLIS<sup>®</sup> (Blind Spot Information System) with cross-traffic alert.<sup>1,2</sup> If the system's radar sensors detect a vehicle in either blind spot while you're driving forward, the system can alert you with a light in the corresponding sideview mirror. While backing up, it can also detect a vehicle approaching from either side, then notify you with a warning light and an audible tone.

## 360-DEGREE CAMERA

By merging the views from 4 cameras – 1 in the front, 1 on each sideview mirror and 1 in the back – the 360-Degree Camera<sup>1,2</sup> creates a bird's-eye view of your vehicle and its surroundings. Displayed on the 8" color screen, it offers visual guides to help you gauge the distance to objects and includes a front washer. You can also switch to a 180-degree view from either the front or the rear camera. The wide-angle view lets you see around corners and other vehicles to check for approaching cross traffic. It can help you make informed decisions when visibility is limited.

“Never look back unless you are planning to go that way.” — HENRY DAVID THOREAU

<sup>1</sup>Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>2</sup>Available feature. <sup>3</sup>Lane-Keeping System does not control steering.

<sup>4</sup>While Pre-Collision Assist with Pedestrian Detection may be especially helpful in unexpected situations, it does not replace the driver and has limitations, including nighttime, low and harsh lighting conditions, vehicles moving in a different direction, and certain weather conditions.
