GOLF BALLS

Bridgestone 2016 B330 Family

Bridgestone's 2016 B330 Family features Bridgestone's new TOUR Core that is 6% larger and utilizes a steeper gradient in softness from the inner part of the core to the outer region, to generate faster ball speed and less spin off the driver than ever before. In fact, Bridgestone's proprietary gradational compression technology in its core allows the company to accomplish in one layer what other ball makers accomplish in two or three layers, leading to a smoother energy transfer and more power.
