API SN/CF, ACEA C3, MB229.51, BMW LL-04, GM Dexos 2, VW 505 01

PETRONAS Syntium with °CoolTech™ For optimum engine performance even in extreme conditions.

With over 20 years of experience at the pinnacle of motorsports, our engineers know what it takes to develop a winning formula to fight excessive engine heat. Tested under the most extreme conditions, the same expertise has now been used to develop an engine oil to defend your car's engine against the stress of modern day driving conditions. PETRONAS Syntium with °CoolTech™ is engineered with strong oil chains to absorb and reduce excessive engine heat to give you optimum engine performance for a trouble-free drive: on the track and on the road.

EURO ACADEMY

**ANY
CUSTOMER**

**ANY
DIAGNOSTIC DEVICE**

**ANY
VEHICLE MANUFACTURER**

Ever had a problem you can't fix? The increasing complexity of new systems and engine options now including petrol, diesel, electric or hybrid, computers controlling almost every aspect of their operation- from suspension, braking, fuel and air flow, to emissions, traction and parking assistance.

How are the independent workshops going to be able to compete? With no information available to help the only option is to call in a specialist or turn the job away to a main dealer.

EURO ACADEMY MEMBERSHIP NOW OFFERS YOU ACCESS TO SUPERB TECHNICAL INFORMATION AND ASSISTANCE IN 3 DIFFERENT WAYS:

TECHNICAL HELPLINE

ONLINE FAULT LIBRARY

TRAINING FACILITY

Euro Academy Technical helpline is like having a master technician standing next to you. Unlike some of our competitors

- ▶ **NO LIMIT** to the amount of time you can spend on a call
- ▶ **NO LIMIT** to the number of times you can call us
- ▶ **EXPERIENCED** based fault diagnostics from 1000's of customers Our team of master technicians have years of practical experience along with access to the latest technical information on any vehicle, regardless of the manufacturer.

So whether you're looking for repair manuals, circuit diagrams, parts catalogues or component locations for any vehicle in your workshop, simply pick up the phone and let us help. One simple call to our technical helpline could save you hours of searching for an elusive component failure.

YOUR MEMBERSHIP

Becoming a Euro Academy member is an investment in your business, and one which will increase revenue and profits while saving time and money. Memberships are available by annual subscription paid monthly, and start from as little as £79.00 for level 1 subscribers.

FROM ONLY

£79.99

BIRMINGHAM

6-8 June 2017

NEC Birmingham

The UK's leading exhibition
for the automotive aftermarket
and supply chain

In association with

See over 750 quality exhibitors, including 250 companies who are new to the show, at an event which will be over 70% bigger than 2016.

OVER 750
EXHIBITORS

Invest a day away from your workshop to find great deals on garage and diagnostic equipment and tools, plus meet major parts manufacturers, all in one location.

Experience our new Workshop Training Zone, hosting technical talks from the likes of James Dillon, Frank Massey, Andy Crook and Peter Coombes. See live demonstrations covering new technologies in diagnostics and connectivity, battery technology, diesel engines, ADAS, tyres, hybrid and electric vehicles.

Choose from aftermarket seminars delivered by industry leaders from Frost & Sullivan, the IAAF, the IMI and the NTDA. Topics include industry trends, advanced IT & connectivity, business management, skills training and future drives.

Parts on tap...

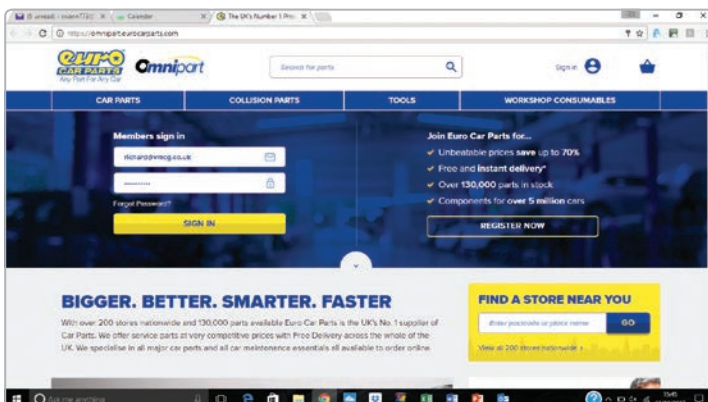

...the all-new parts website for garage professionals

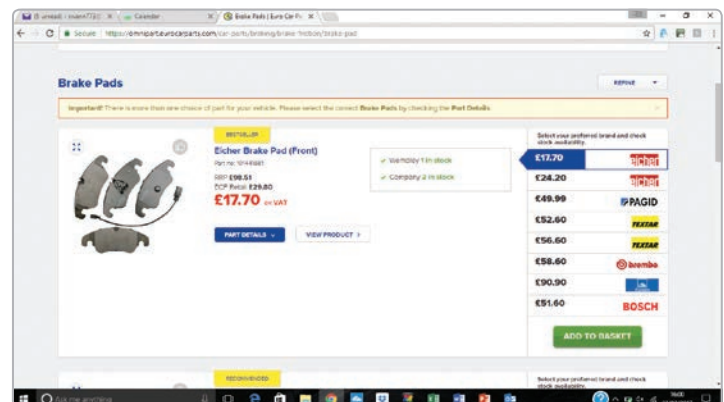

Introducing **Omnipart** the fastest way to get the vehicle parts you need. Saving you time, increasing efficiency, maximising your profit.

Omnipart is the all-new trade website for garage professionals, exclusively available to Euro Car Parts' customers. This new and exclusive market leading parts catalogue has been developed from scratch, with the entire

focus on your needs, so that parts selection and ordering is faster than ever and as simple as possible. Real time stock and price checks put you in control and the very latest 'Responsive design' technology ensures that, whatever device you view it on, you'll have full functionality at your fingertips. You can take **Omnipart** to the vehicle you're working on to be sure you order everything you need.

Bigger. Better. Smarter. Faster

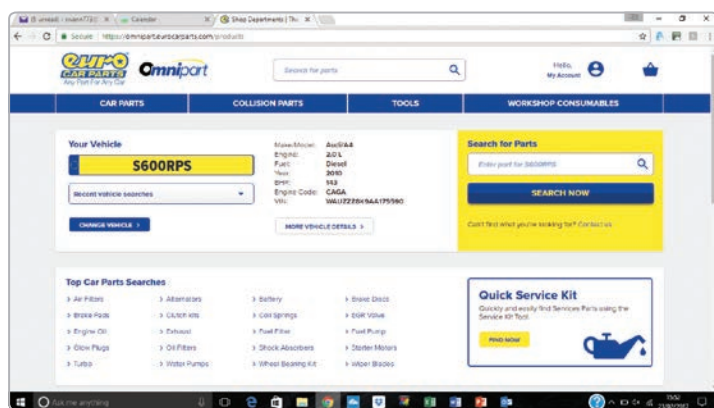

We've even grouped together all available brands

**ANY PART FOR ANY CAR
OVER 200 BRANCHES NATIONWIDE**

Save time and money

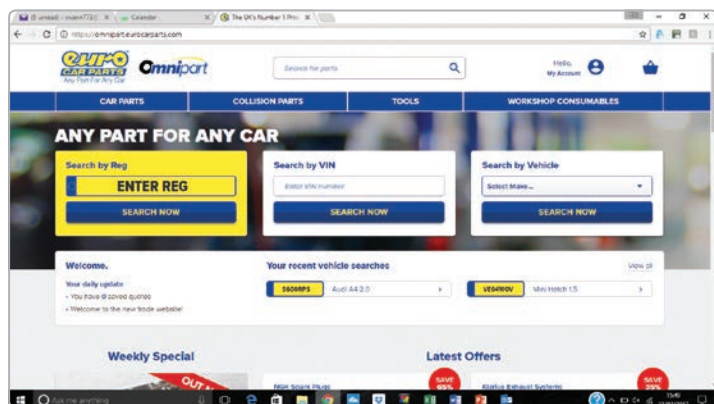

Reduce the cost of out-going calls, speed-up delivery and reduce returns.

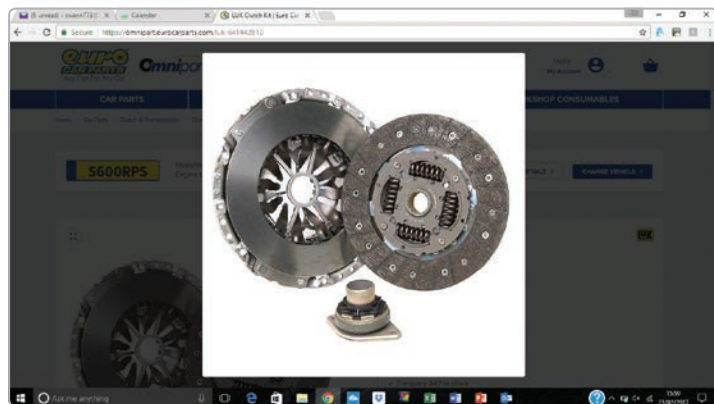

Quick Service Kit feature

Quick Service Kit feature

Just hit one button to see all the service parts for a vehicle, then add or remove items as you require.

Search by vehicle registration, by VIN or by Make and Model

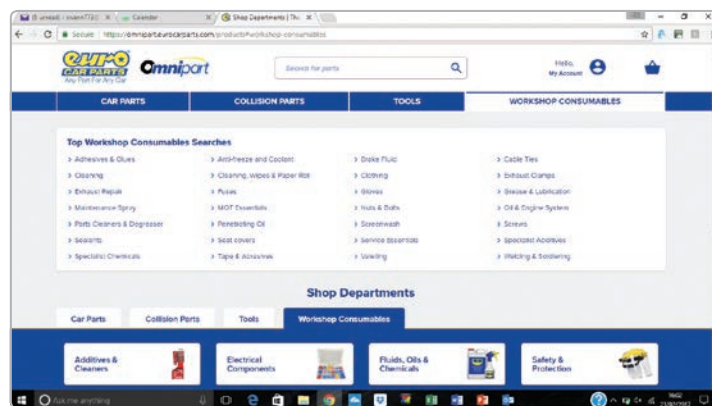

High resolution images

Identify parts with confidence

Search by vehicle registration, by VIN, or by Make and Model; access enhanced vehicle details, including engine number and engine code. High resolution images and dimensions help you identify the exact part you need. We've even grouped together all available brands, allowing you to make the appropriate choice for your customer.

24/7 Access

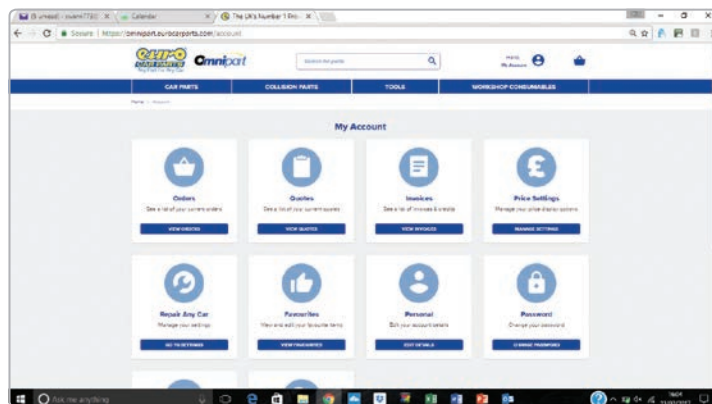

Look-up parts, price jobs and place your orders at any time and from anywhere; you'll see local branch stock and your agreed prices. Get ahead of the game and place your order before we open; it'll be picked, packed and delivered first, so you can get on with the job.

New Consumables Section

New Consumables Section

Gives you access to everything from adhesives and screws to gloves, blue roll and valeting materials.

My Account dashboard

My Account

Access current orders, saved quotes, invoices, credits, purchase history, previous searches and much, much more.

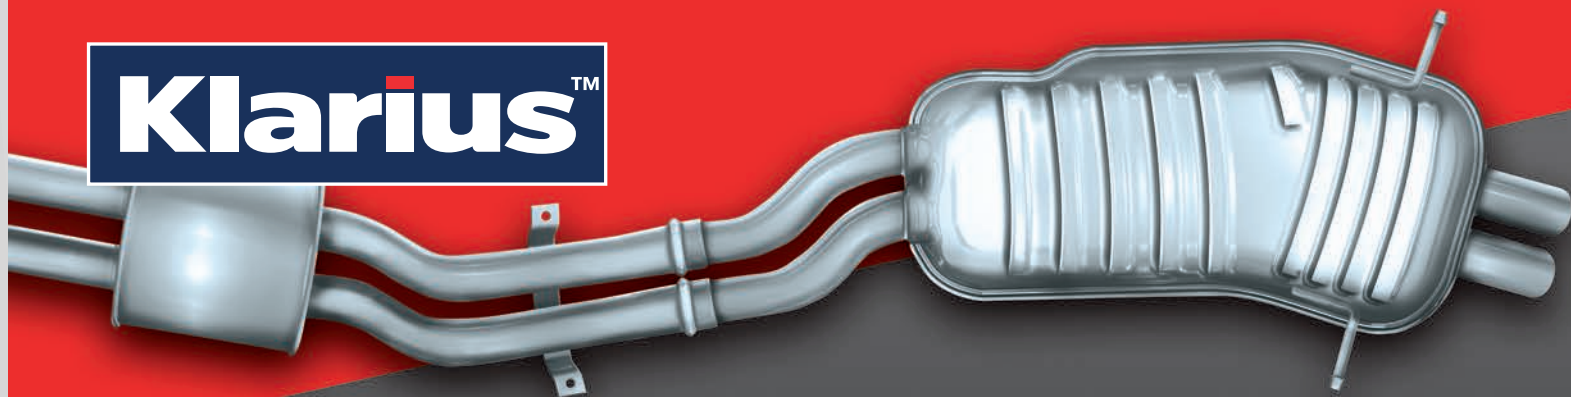

Account customers can register free at:

<https://omnipart.eurocarparts.com/>

or call your local branch for more details.

Klarius™

With over 11,000 parts available we're in Pole position when it comes to offering the highest quality products at competitive prices – a true OE matching emissions product.

Type Approved exhausts designed and manufactured to be comparable in terms of Fit, Noise and Back Pressure to the OE part

Euro Car Parts have the best 'off the Shelf' availability in the UK and if we haven't got it, we'll get it for you*

LEMFÖRDER is the largest supplier of Steering & Suspension Original Equipment parts for the European market, supplying approximately 40% of OE Steering & Suspension contracts worldwide. LEMFÖRDER supplies the same Original Equipment quality to both Original Equipment Manufacturers and Aftermarket.

Quality underpins each, and every component; Starline steering and suspension products are precision manufactured to high quality standards, using the latest CNC machines and the very best raw materials. A quality controlled metallurgy process ensures material quality is maintained and state-of-the-art anti-corrosion solutions protect and prolong the life of the products. Testing shows consistent performance up to 900 hours of continuous salt spray testing and the ability to withstand extreme temperatures of +120°C and -40°C. R & D processes are employed to thoroughly prove each product through both static and dynamic testing.

All this results in high quality products, supported with a massive 3-year warranty. They look great and perform even better!

The Starline Steering & Suspension range will build to a huge 3,335 part numbers and will include:

- Suspension Arms, or Control Arms, including Aluminium forged, Steel forged and pressed steel arms
- Ball Joints
- Bushes
- Stabiliser Links
- Inner and Outer Tie Rods
- Suspension Kits
- Gearbox and Engine Mounts

With a wide product range and fast introduction of new items Starline is a perfect fit for the UK.

COIL & SHOCKS

One in six cars has defective shock absorbers. The problem is, shock absorbers wear out gradually and, in most cases, drivers don't notice the increasingly sluggish steering and road-holding of their vehicle. Defective shock absorbers only become apparent in extreme situations, for example during a sudden evasive manoeuvre or emergency braking.

We recommend that shock absorbers are inspected by an expert after 50 000 miles.

Always fit springs and shock absorbers in pairs!

After many millions of cycles, even the best made springs become 'tired'. In time springs will shorten (sag) causing the vehicle ride height to drop.

EURO CAR PARTS THE FIRST DISTRIBUTOR OF THE FULL RANGE IN THE UK

REBORN

**HIGH QUALITY, FULLY GUARANTEED,
VERY COMPETITIVELY PRICED,
REMANUFACTURED CYLINDER HEADS,
ENGINES AND GEARBOXES
WITH FREE NEXT-DAY DELIVERY.**

When you need a high quality, fully warranted and competitively priced remanufactured engine, cylinder head or manual gearbox – look no further than your local Euro Car Parts branch. Our units are sourced from Europe’s premier engine and gearbox remanufacturers and we offer the UK’s widest range of quality replacement units. They’re all remanufactured to meet OE specifications and come with a full 12-month unlimited mileage parts and labour warranty. Every unit is completely stripped down to component parts, meticulously cleaned and inspected to the highest standards before being carefully rebuilt using a combination of re-engineered and inspected parts, together with a wide range of new OE quality parts.

CYLINDER-HEAD GASKETS

PRECISION PRODUCTS FOR REAL WORKHORSES

Elring supply gaskets of all types – metal layer, metal-elastomer and metal-soft material – individually matched to the requirements of each particular engine.

Cylinder-head gaskets have a crucial role to play in the advancement of engine technology, particularly with respect to high-performance diesel engines and petrol engines with direct injection. Around 45,000,000 cylinder-head gaskets are produced each year. Whatever the engine concept, elring can provide the right sealing system accompanied by an engineering service to speed up the development process from the original idea to production standard.

DAYCO

HIGH TENANCY (HT) TIMING BELTS

The latest engines, in particular diesel engines fitted with the last-generation Common-Rail system, are particularly critical. They subject the transmission components to high mechanical stress due to high operating temperatures, high specific powers and very high injection pressures (over 2000 bar), often combined with twin camshaft timing systems.

HT timing belts are Dayco's solution: they guarantee the efficient and constant coupling between the various components of the transmission, even in case of high mechanical stresses, making use of advanced materials and a special PTFE film that is coupled with the teeth covering fabric.

- ▶ Stubby wrench beam allows access into tight areas that a standard combination will not
- ▶ Lifetime warranty

HERITAGE + INNOVATION

PURE EXCELLENCE IN FILTRATION

Euro Car Parts' acquisition of the Crosland brand in 2013 heralded the return of one of the UK aftermarket's giants. First established in 1955 in Nottingham this is a premium British brand with OE heritage.

Crosland filters are manufactured in some of the best factories in world, meeting tough quality standards. Each facility needs to be ranked top three in their country of origin and have its own Research & Development Laboratory that constantly refines and develops the materials and process used in manufacturing. They must also have approved quality testing

processes and hold appropriate ISO or TS Certification. This focus on quality makes Crosland a great alternative to Original Equipment (OE) brands.

With over 94% coverage of the UK car and light commercial vehicle parc across oil, fuel, air and cabin filtration Crosland is one of the fastest growing brands in Europe. Comprehensive coverage of European and Asian applications with unrivalled off the shelf availability from over 200 branches nationwide will provide with independent garages a single, comprehensive premium brand at highly competitive prices.

TRANSMECH GOES GREEN

Transmech is the UK's number one aftermarket clutch brand, with an established reputation for quality, dependability and value for money, over half a million clutch kits have been fitted to date.

The exclusive Transmech package now includes a "Green" clutch kit range, quality reborn components giving the customer a real choice. At present the range concentrates on SAC clutch components and other hard to find products. This remains the only aftermarket SAC Clutch programme available in the UK, recycled and 100% ecologically responsible. Fully comparable with OE Specification and exclusive to Euro Car Parts, all units are remanufactured in the UK to SAE J1915 industry standards using quality materials and workmanship.

During recent years "Self Adjusting Clutches" have become the preferred clutch unit, however, because SAC clutches are protected by various patents they cannot always be offered as a replacement unit. The solution to this is the remanufacture of an old unit to the original specification. This allows the customer to make the choice between an OE or aftermarket unit, and enhances the Euro Car Parts value for money policy.

Recycling of automotive components is common practice in Europe and is undertaken by all the World's leading clutch manufacturers. This assists global manufacturers to achieve laid down targets for product end of life responsibility and is in turn saving both valuable resources and our environment.

Every Transmech unit, both in the new blue box (100% new units) and in the green box are supplied with the comprehensive 2 year 20,000 mile warranty – exactly the same as an OE unit.

TRANSMECH GREEN:

- Saving the worlds resources, saving energy and raw materials
- Conserving landfill and reducing pollution by re-cycling product
- Compares fully with oe specifications
- Re-manufactured to SAE J1915, industry set standards

M18 FUEL FRICTION RING IMPACT WRENCH 1/2"

HIGH FASTENING PERFORMANCE Milwaukee® designed mechanism optimised for high torque applications up to 950 Nm. Outperforms many other cordless, corded, and pneumatic impact tools, delivering up to 20% more torque. Milwaukee designed and built brushless POWERSTATE motor for longer motor life and up to 20% more power.

- ▶ REDLINK PLUS intelligence system delivers the most advanced digital overload protection for tool and battery and uniquely enhances the tool performance under load
- ▶ The Milwaukee DRIVE CONTROL allows the user to shift into two different speed and torque settings to maximize application versatility
- ▶ RED LITHIUM-ION battery pack delivers up to 2x more run time, up to 20% more power, up to 2x more battery life and operates better down to -20°C than other lithium-ion technologies
- ▶ Individual battery cell monitoring optimises tool run time and ensures long term pack durability
- ▶ On board fuel gauge and LED light
- ▶ All metal reversible belt clip – quickly and easily hang tool
