

Early Years 2018

Literacy resources
for Kindergarten
(WA, QLD, SA, TAS)
and Preschool
(ACT, NT, NSW, VIC)

PLD is dedicated to **Promoting Literacy Development through our resources which deliver outcomes across 3 core areas; Literacy, Oral Language and Movement & Motor.**

This specialised approach, derived from the disciplines of education, speech pathology and occupational therapy, helps teachers develop the whole child so students 3 - 11 years of age reach their academic potential.

PLD's Three Key Areas

...to maximise primary school literacy achievement

Literacy

'Word Attack' or spelling and decoding skills are derived from:

- Phonemic (and phonological) awareness
- Alphabet and phonic sound knowledge
- Sight word knowledge

The hallmark of literacy proficiency is comprehension and written expression ability and these areas are influenced by oral language and motor skills.

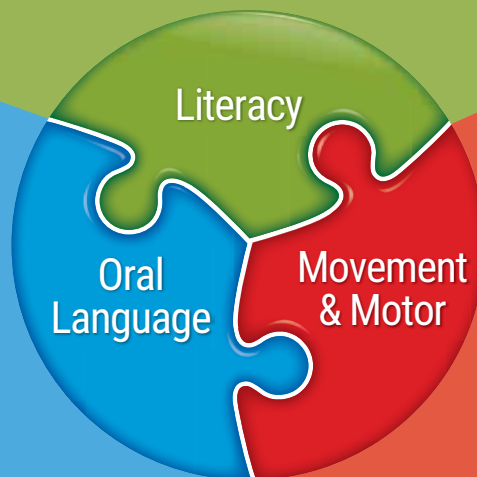

PLD's structured synthetic phonics range has been identified by AUSPELD as an evidence based 'wave 1' (whole class) and wave 2 (small group) program.

Oral Language

Oral language refers to the act of speaking and listening. The main components include:

- Word knowledge - vocabulary
- Sentence structure - grammar
- Language understanding - semantic and comprehension ability
- Structured thinking - the ability to elaborate, organise and sequence thoughts

Students need to be able to process information heard (or read) and explain this information orally (or in writing) in order to be successful within the curriculum.

Movement & Motor

The way a student organises and uses their body is a significant part of literacy-based learning. In schools, students are constantly required to complete curriculum activities which involve physical movements.

Perceptual motor refers to the ability to hear something, interpret the meaning and form an appropriate motor response.

- Perceptual - input or receiving the message
- Motor - output or the response

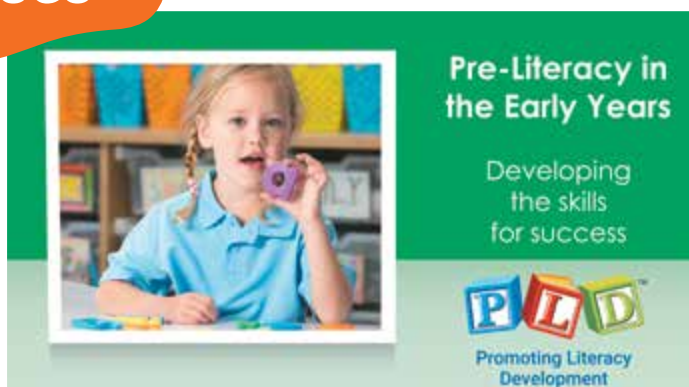

Professional Learning

for teaching staff and support staff

Online Courses

- ✓ Courses can be viewed by individuals or as a group.
- ✓ Courses include unlimited access to all content for 90 days.
- ✓ A certificate is awarded upon completion.
- ✓ Courses are short in nature: between 1 hour and 4 hours in length.
- ✓ Course information can be viewed at <https://courses.pld-literacy.org/>

- This course focuses upon preparing the 'essential' skills for later literacy learning. (i.e. oral language, phonological awareness and alphabet skills).
- Video 1 Outlines processes to establish within Term 1.
- Video 2 outlines the teaching, screening and small group work required within Term 2.
- Video 3 outlines Term 3 teaching, screening and small group work.
- Video 4 outlines how to finalise the school year and a handover process.

Seminars

PLD is a provider of training, delivering seminars across Australia designed for teachers and support staff. Each seminar targets a specific age range and incorporates explicit instruction of literacy, oral language and motor for that age range.

Professional learning is a great facilitator of more effective instruction within schools and these all-day seminars are perfect for experienced teachers and graduates alike.

Best Selling Resources

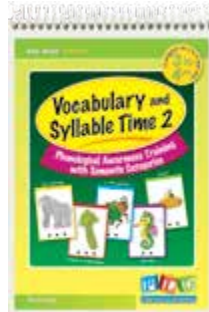

Phonological Awareness & Vocabulary

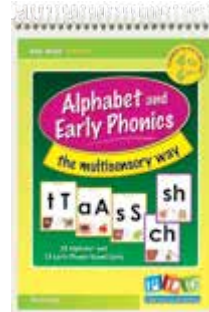

- These flip books develop the pre-literacy skill of syllable segmentation and blending, while extending children's vocabulary.
- Vocabulary is organised into semantic groups: clothing, transport, fruit, shapes, food, Australian animals, sea creatures, zoo animals, salad and vegetables and in the garden.

Website Order Code: VST1
Price: \$59 +GST

Website Order Code: VST2
Price: \$59 +GST

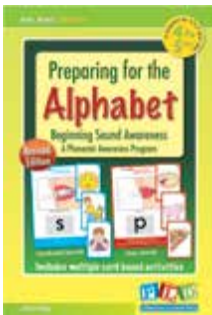

Alphabet

- This multisensory approach to teaching the alphabet typically produces rapid results.
- The alphabet is divided into 4 groups.
- Children see a mouth, feel their mouth, while engaging in a body movement and while hearing the alphabet sounds.
- The program also integrates some letter formation learning.

Website Order Code: CCAL (or CCALC for cursive version)
Price: \$59 +GST

Phonological Awareness

- Preparing for the alphabet facilitates a child's ability to verbalise the beginning sound in words. This program is designed to prepare children for alphabet learning.
- Blending is a vital pre-reading skill. The scripted tasks take only minutes to present. Quick and simple to present to the whole class or small groups.

Website Order Code: CCpfa
Price: \$75 +GST

Website Order Code: L2B1
Price: \$59 +GST

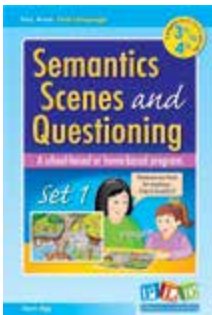

Prewriting Patterns

- Designed to prepare children for letter formation.
- Pre-writing patterns form the basis of alphabet letters.
- The manual includes big body movements, verbal cues, art activities and worksheets.
- Handy information on positive pencil grip, position of hand and paper.

Website Order Code: Mpw
Price: \$75 +GST

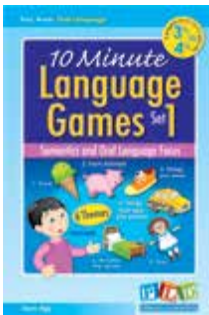

Small Group Oral Language

Website Order Code: Sem4
Price: \$75 +GST

Website Order Code: AR35
Price: \$75 +GST

Website Order Code: 10m4
Price: \$75 +GST

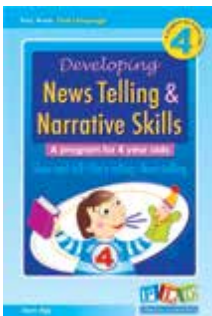

Letter Formation

- This manual outlines letter formation in an early childhood manner; big body movements, verbal cues, differentiated templates for each letter (A3 and students standing, A4 and students seated), before multiple smaller letters are presented.
- Assessment points at the base of the template.

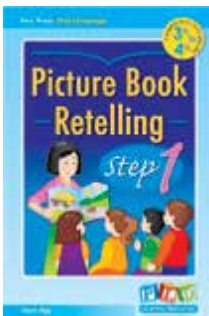

Website Order Code: Mlff (or Mlfc for cursive version)
Price: \$75 +GST

Whole Class Oral Language

Website Order Code: Mn4
Price: \$75 +GST

- The early years are critical in the development of oral language and narrative skills.
- These programs break down news and narrative skills into simple sequential steps.
- Simple activities and the visual cues form the basis of structured teaching of these crucial areas.

Website Order Code: PBr4
Price: \$75 +GST

Picture Book Comprehension Questions

Website Order Code: Mc3 and Mc4
Price: \$75 +GST

- This pack includes lists of recommended picture books with scripted question cards.
- An excellent resource for schools to set up a home program in which parents receive a picture book and a question card
- The program will support later reading comprehension ability.
- Two time efficient progress checks are also included.

To preview resources in full, view demonstration videos or to order, enter product codes at www.pld-literacy.org

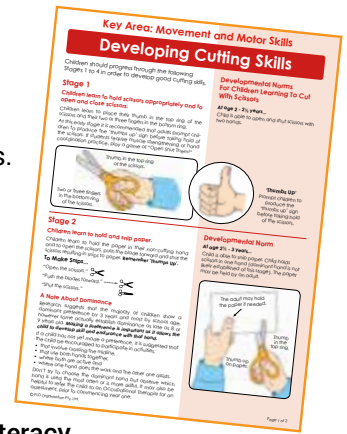

Parent Education

Children benefit when home and school work together.

PLD offers an extensive range of parent education resources. Our download sheets provide milestone information and the specific YouTube playlist provides a range of short educational video clips. This information can be disseminated to parents and the wider community through newsletters, websites and general communication.

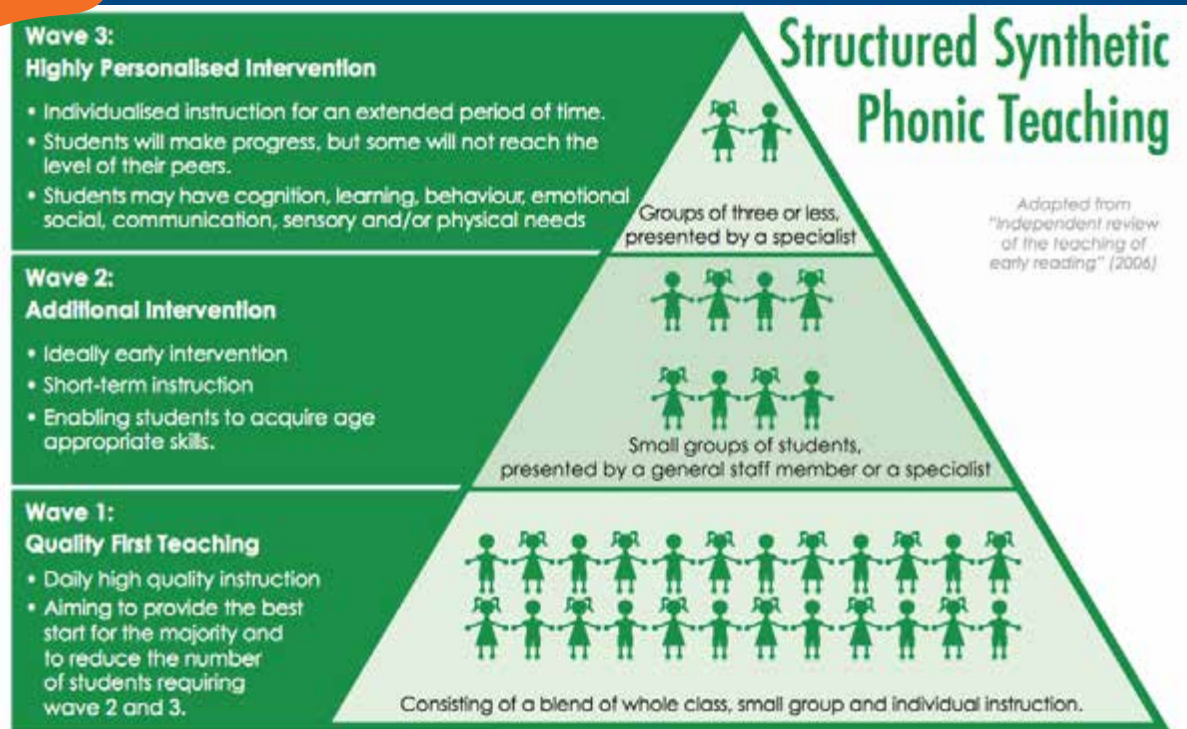

Option 1 Milestone sheets and downloads at www.pld-literacy.org

Option 2 Foundation parent education playlist at <https://youtube.com/pldliteracy>

Recommended SSP Program

PLD's structured synthetic phonics program is a recommended AUSPELD Wave 1 (whole class) and Wave 2 (small group) additional intervention program.

Independent Research

High performing primary schools: What do they have in common?

Professor William Loudon (2015)

Research commissioned by the Education Department of WA, explored the similarities and differences among high performing West Australian Government primary schools.

All of the schools used explicit teaching strategies for teaching phonological awareness and phonics. Common across all schools was a synthetic phonics approach. The following is a direct quote from the research paper.

"Synthetic phonics is a systematic approach to teaching reading by beginning with sounds (phonemes) and blending (synthesising) these sounds to make words. All of the case study schools have implemented synthetic phonics programs in the early years... PLD Literacy and Learning teach[es] phonemes (letter and digraph sounds), letter formation, blending of sounds together to form new words, segmenting sounds in read and write new words, and teaching 'tricky words' with irregular spelling." (Page 20-21)

Promoting Literacy Development

Best Selling Resources

Phonemic Awareness: Blending and segmentation

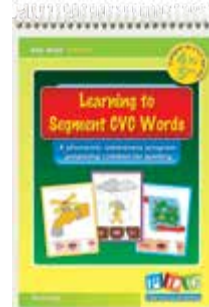

Website Order Code: L2B1
Price: \$59 +GST

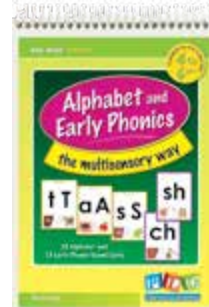

Website Order Code: L2B2
Price: \$59 +GST

- Blending is an important pre-reading skill.
- Segmenting is important before spelling & writing tasks can be completed independently.
- The scripted blending sets of tasks take no more than 3 minutes to present.
- Short assessments are included to review progress.

Website Order Code: L2S
Price: \$59 +GST

Alphabet and Early Phonics

Website Order Code: CCAl
(or CCAlc for cursive version)
Price: \$59 +GST

- Alphabet in 4 groups starting with s, a, t, p, i, n.
- Followed by stage 1 phonics sh, ch, th etc.

Phonic Sight Word Sequence

Website Order Code: Bpsw
Price: \$65 +GST

- A whole school scope and sequence.
- Word lists, stage 1-6 overviews, spelling rules, morphology, reading assessments and sight word lists.
- Pre-Literacy and Early Literacy screening designed for transitioning students into reading and spelling.

Early CVC Reading Material

Website Order Code: CCfrw
Price: \$75 +GST

- When students start to read, the reading material needs to be tightly designed.
- Single word reading tasks are initially based upon 6 sounds, then 12 sounds, then 18 sounds before incorporating the whole alphabet.
- The above progression is then applied to sentences.

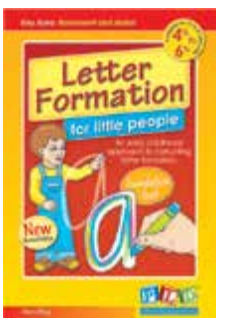

Reading and Spelling Games

Website Order Code: Bsw1
Price: \$65 +GST

- Designed for small groups of students or home programs and for students who require repeated skill rehearsal.
- The game based approach facilitates fun while engaging in repeated practice.
- Designed to accompany whole class programs.

Letter Formation

Website Order Code: Mlff (or Mlfc for cursive version)
Price: \$75 +GST

- This manual outlines explicit letter formation incorporating big body movements, verbal cues and differentiated templates for each letter.
- Handy information on positive pencil grip, position of hand and paper.

Early Spelling

Website Order Code: CCfsw and CCfsw2
Price: \$75 +GST

- Cards in set 1 target the introduction of spelling CVC words while set 2 targets stage 1 phonic concepts like sh, ch, th etc.
- The tasks are ideal to be integrated with Wikki Stix early in the year, as letter formation is still being developed.

Early Writing

Website Order Code: Mfwa
Price: \$75 +GST

- As writing incorporates so many individual literacy, language and motor skills, this program provides three differentiated levels for each task.
- A range of genres are presented e.g. reports, recounts, narrative, poetry, dictation.
- Marking rubrics at the base of each template.

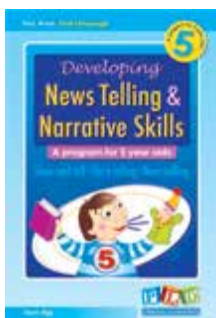

Comprehension Questions

Website Order Code: Mc5
Price: \$75 +GST

- An excellent resource for schools to set up a home program in which parents receive a picture book and a question card
- The program will support later reading comprehension ability.
- Two time efficient progress checks are also included.

Oral Language Programs

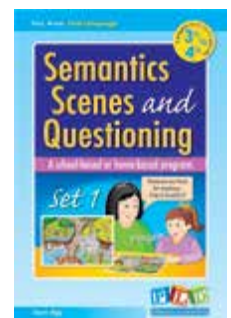

Website Order Code: Mn5
Price: \$75 +GST

Website Order Code: PBr5
Price: \$75 +GST

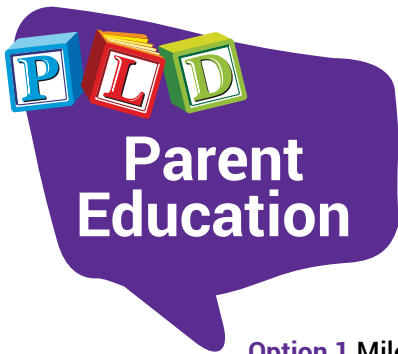

Website Order Code: 10m5
Price: \$75 +GST

Website Order Code: Sem4
Price: \$75 +GST

Best Selling Resources

Structured Synthetic Phonics

- By middle and upper primary, classes typically have a huge range in ability levels.
- On the basis of the placement test, levels are quickly established and class specific content can be devised.
- The 'Phonic and Sight Word Sequence' is a whole school scope and sequence.
- Word lists, phonic concepts, spelling rules, morphology, reading and spelling assessments and sight words are outlined.
- Termly reviews are provided for establishing the range in ability, for reviewing progress and for measurable data.

Website Order Code: Bpsw
Price: \$65 +GST

Spelling Activities

- Section 1 provides activities that require students to 'sound-out' as they spell. These tasks highlight the relationship of the sound structure and letters.
- Section 2 outlines activities that focus students on word meaning and morphology, so they understand the words they have learned to spell.
- Section 3 outlines tasks which require students to transfer their spelling tasks into writing.

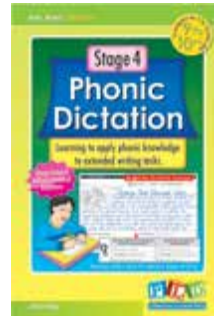

Website Order Code: SAmup
Price: \$65 +GST

Spelling transferring into Writing

- Phonic dictation facilitates the ability to transfer phonic spelling skills into writing.
- Regular 5 or 10 minute sessions typically produce significant gains.
- A time efficient addition to literacy blocks.
- A range of rubrics outline a simple way of marking the dictation passages.
- Two options outlined within the programs:
Option 1 - Reading, editing and writing practice.
Option 2 - Dictation only.
