FOREWORD

Although many Cocktail Books have already been published there has always been room for a Standard Work and I was indeed glad to hear that the United Kingdom Bartenders' Guild had decided to publish this book.

Not only do they give a large selection of Cocktails, but they publish the Index to their Reference Library. At first sight this may not appear to be anything out of the ordinary, but when one realises that at last our Bartenders, who mix the correct recipes, can definitely prove this to any doubting customer, and that the duplication of names can now be avoided by reference to the Index, we all ought to be grateful for the removal of two grievances—the doubt as to the correct recipe and the duplication of titles.

I wish the book every success and cordially recommend it to the boys behind the bar.

A handwritten signature in cursive script that reads "Giovanni Quaglino". The signature is written in dark ink and is positioned centrally below the main text of the foreword.

Chez Quaglino,
16 Bury Street, S.W.1

COGNAC.—Cognac is the name of the Brandy distilled from wine made in the Cognac district. This district is strictly limited and is responsible for the production of brandies which may rightly claim precedence over all other, both in point of antiquity and excellence. The vineyards of Cognac which produce the finest Cognac Brandies are those of the Grande Champagne, Petite Champagne and Borderies. The name Cognac has a strictly geographical meaning; it cannot be given to any other brandy than the brandy distilled from wine made from the vineyards of the district of Cognac. Furthermore, the names of Grande Champagne, Fine Champagne, Petite Champagne are also geographical expressions corresponding to the peculiar chalky soil formation of a small and very distinct area, within the Cognac district, where the best Cognac Brandies are made.
