ELSEVIER

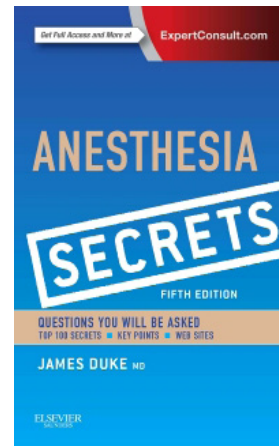

Anesthesia & Uncommon Diseases
Fleisher

This sixth edition brings you up to date with new information on less commonly seen diseases and conditions, including the latest evidence and management guidelines.

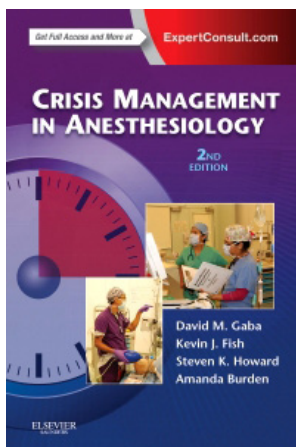

Stoelting's Anesthesia and Co-Existing Disease, 6e
Naish + Court

This unique medical reference book is essential for a complete understanding of today's best options and potential difficulties in anesthesia.

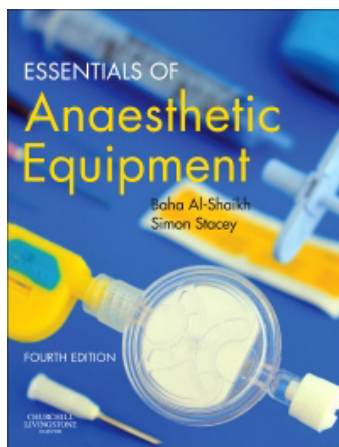

Anesthesia Secrets, 5e
Duke + Keech

This text provides rapid access to the practical, "in-the-trenches" know-how you need to succeed - both in practice and on board and recertification exams.

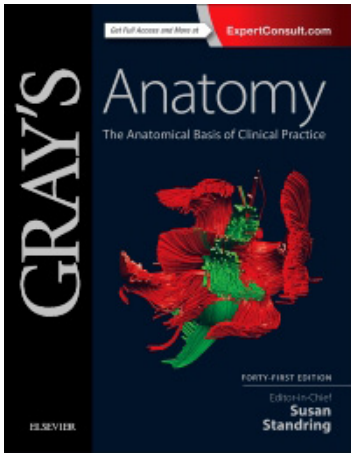

Crisis Management in Anesthesiology, 2e
Gaba, Fish, Howard & Burden

This title offers a comprehensive discussion of the latest theories, principles and practices for CRM in perioperative practice. It is an essential resource for anaesthetists of all grades and levels of experience.

Essentials of Anaesthetic Equipment, 4e
Al-Shaikh & Stacey

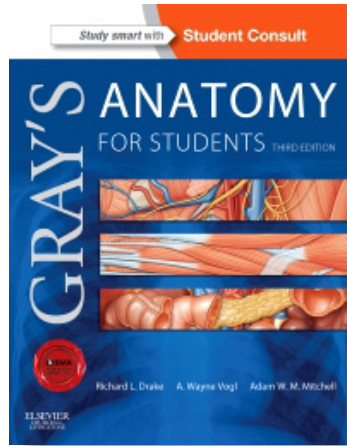

This highly practical, illustrated guide provides an up-to-date, essential introduction to anaesthetic equipment and its use in clinical practice.

Gray's Anatomy, 41e
Standing

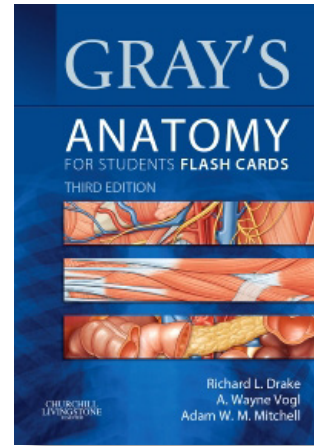

This 41st edition has been meticulously revised and updated throughout, reflecting the very latest understanding of clinical anatomy from field leaders around the world.

Watch Video Below!

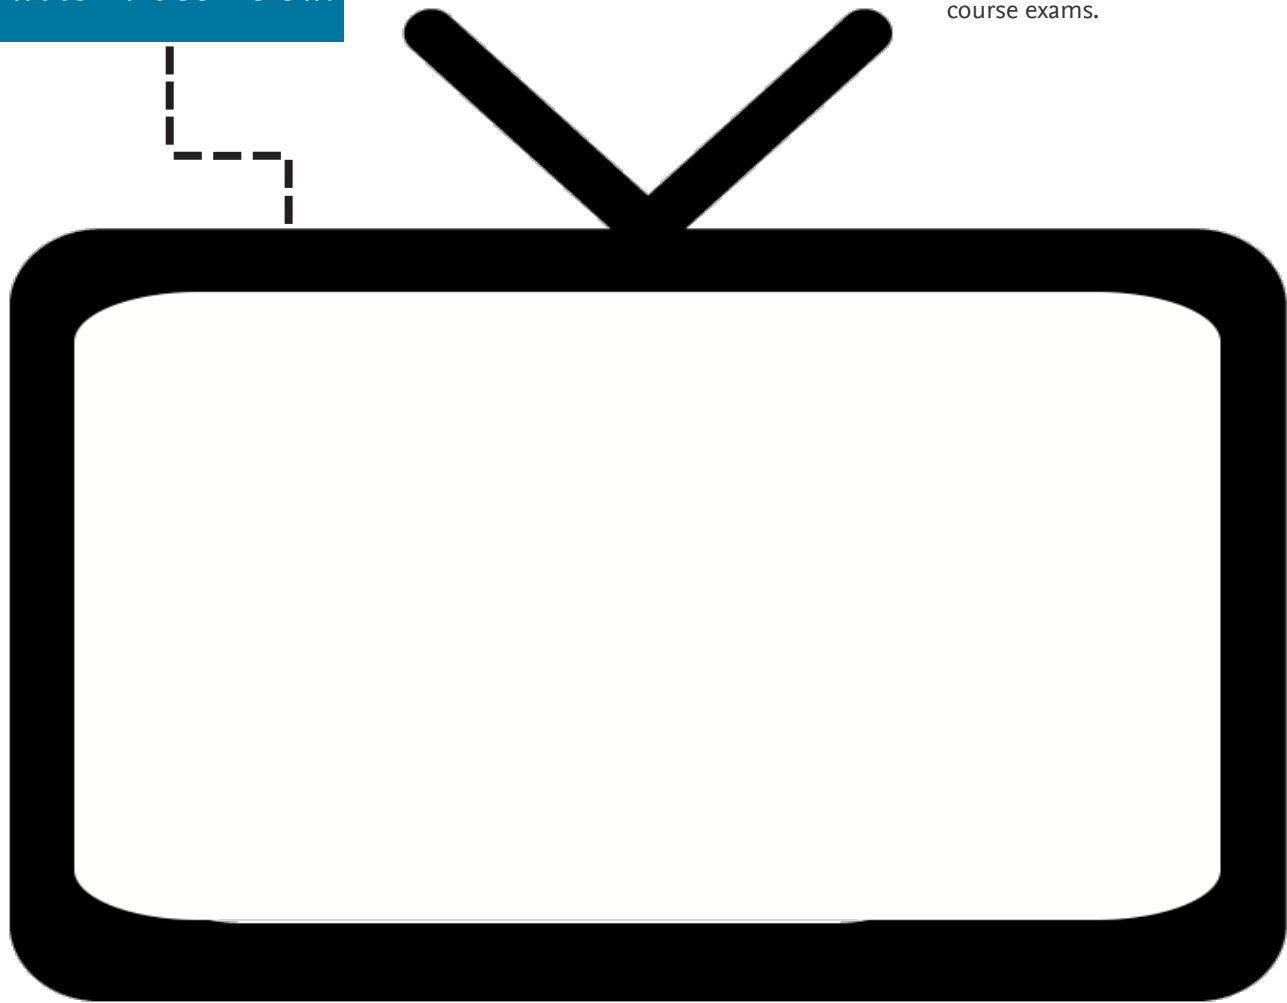

Gray's Anatomy for Students, 3e
Drake, Vogl & Mitchell

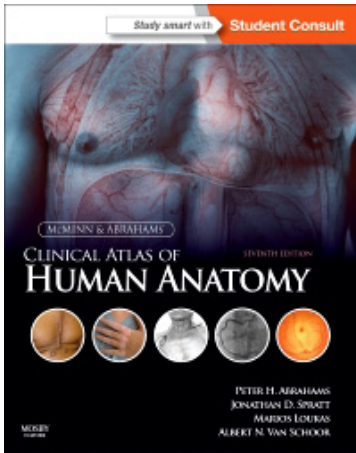

This completely revised medical textbook continues its focus on just the core information you need for your anatomy courses, presenting everything in an easy-to-read, visually appealing format that facilitates study.

Gray's Anatomy for Students Flash Cards, 3e
Drake, Vogl & Mitchell

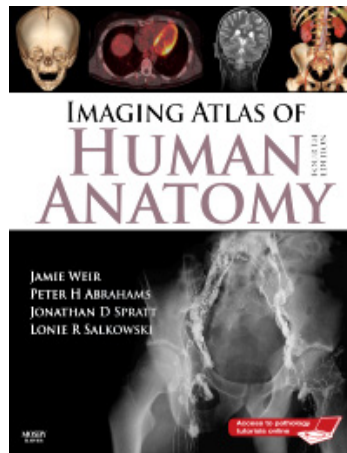

Based on the phenomenal artwork found in the 3rd edition of Gray's Anatomy for Students, this set of 350 flashcards is the perfect review companion to help you test your anatomical knowledge for course exams.

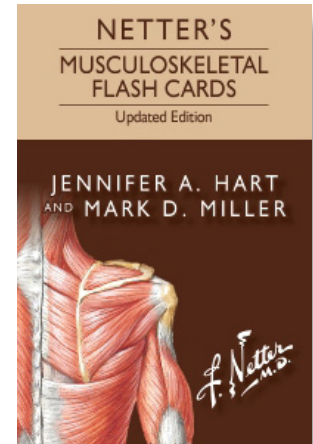

McMinn's Clinical Atlas of Human Anatomy, 6e
Abrahams, Spratt, Loukas, & Schoor

This title delivers the straightforward visual guidance you need to confidently perform all of the dissections required during your medical training.

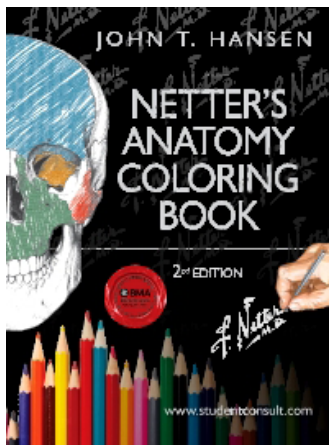

Imaging Atlas of Human Anatomy, 4e
Weir, Abrahams, Spratt & Salkowski

This text offers a complete 3-dimensional view of the structures and relationships within the body through a variety of imaging modalities.

Netter's Musculoskeletal Flash Cards
Hart & Miller

These cards use outstanding illustrations to help you test your knowledge of bones, muscles, ligaments, tendons, and joints.

Netter's Anatomy Coloring Book, 2e
Hansen

Learn and master anatomy with ease, while having fun, through the unique approach of *Netter's Anatomy Coloring Book*.

Netter
It's how you know!

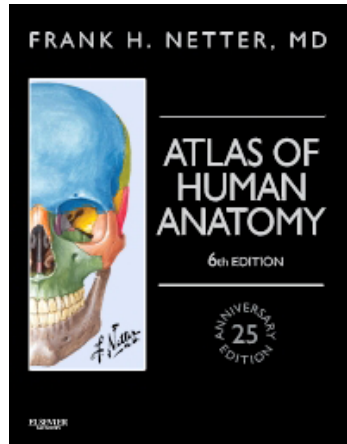

LEARN MORE >>>

Netter's Anatomy Flashcards, 4e
Hansen

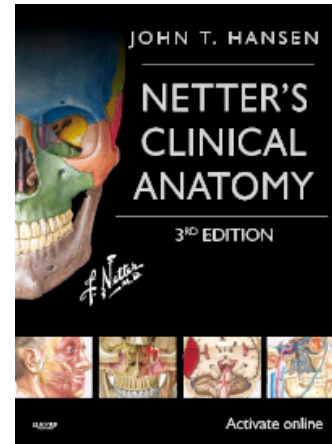

This resource contains full-colour illustrations from *Netter's Atlas of Human Anatomy, 6th Edition* paired with concise text identifying those structures and reviewing relevant anatomical information and clinical correlations.

Watch Video Below!

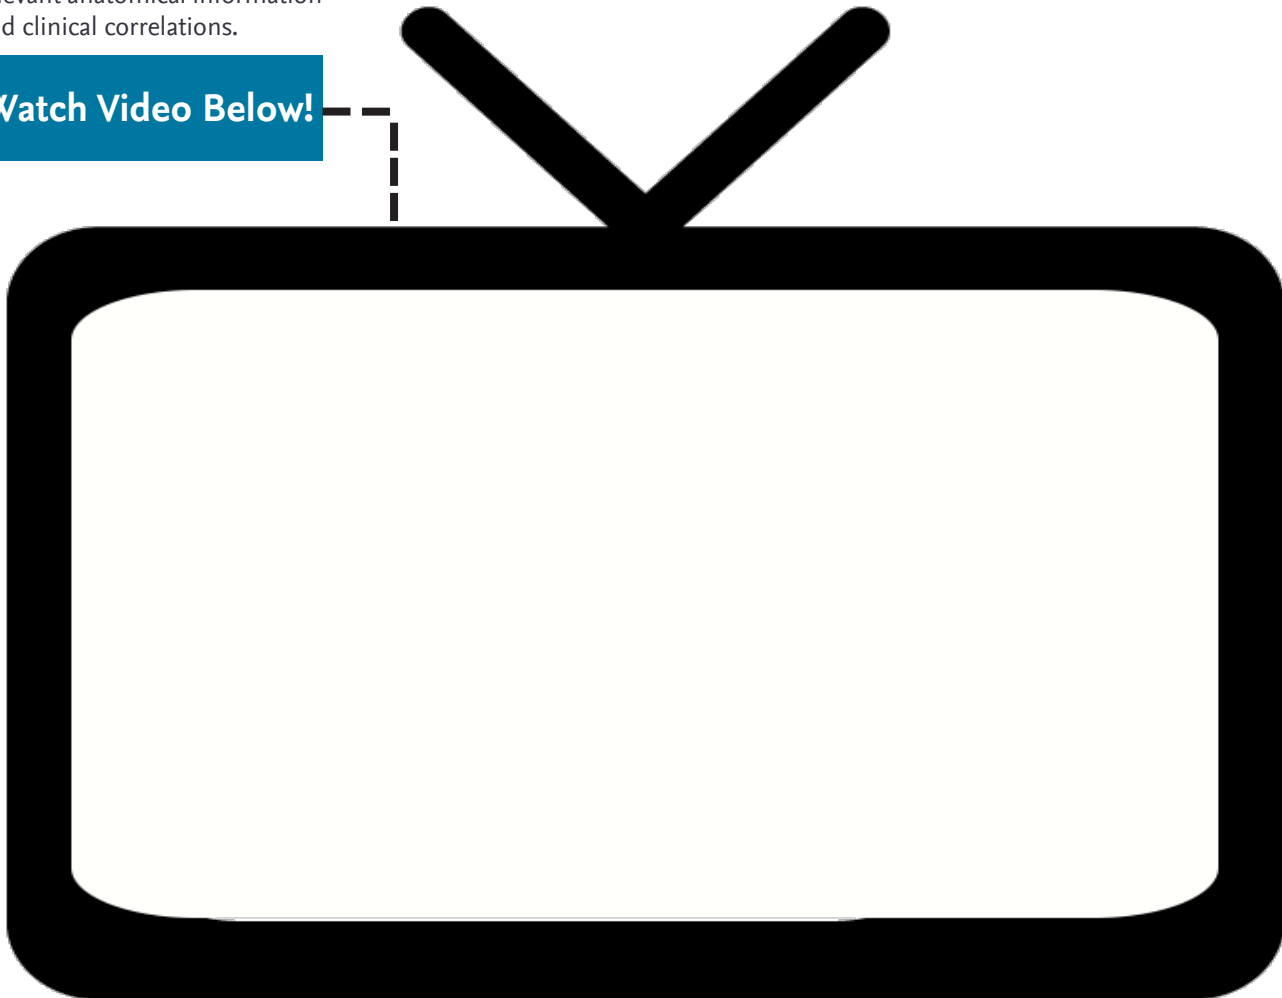

Netter's Atlas of Human Anatomy, 6e
Netter

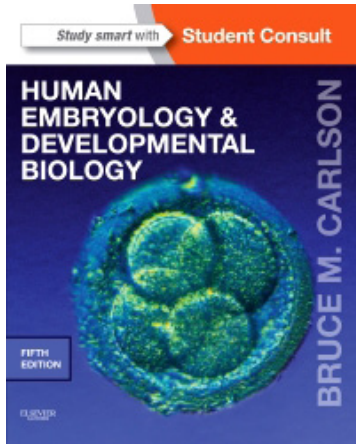

This essential title offers unsurpassed depictions of the human body in clear, brilliant detail - all from a clinician's perspective.

Netter's Clinical Anatomy, 3e
Hansen

This famous resource is a concise, focused and manageable medical reference textbook, perfectly suited for your busy life!

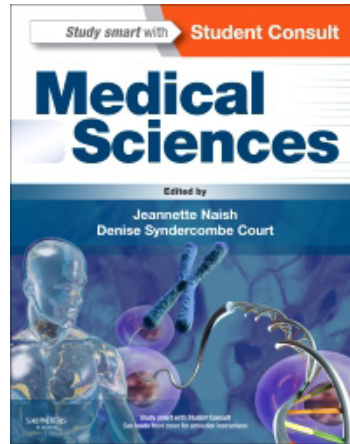

Human Embryology and Developmental Biology, 5e
Carlson

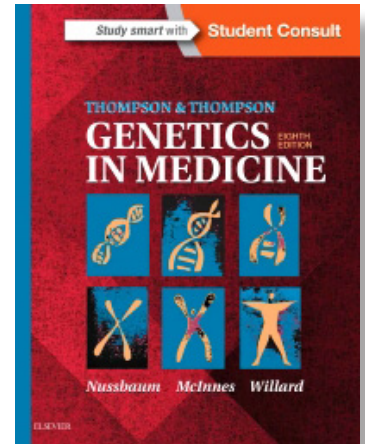

This text offers clear explanations which provide an easy-to-follow “road map” through the most up-to-date scientific knowledge, giving you a deeper understanding of the key information you need to know.

Watch Video Below!

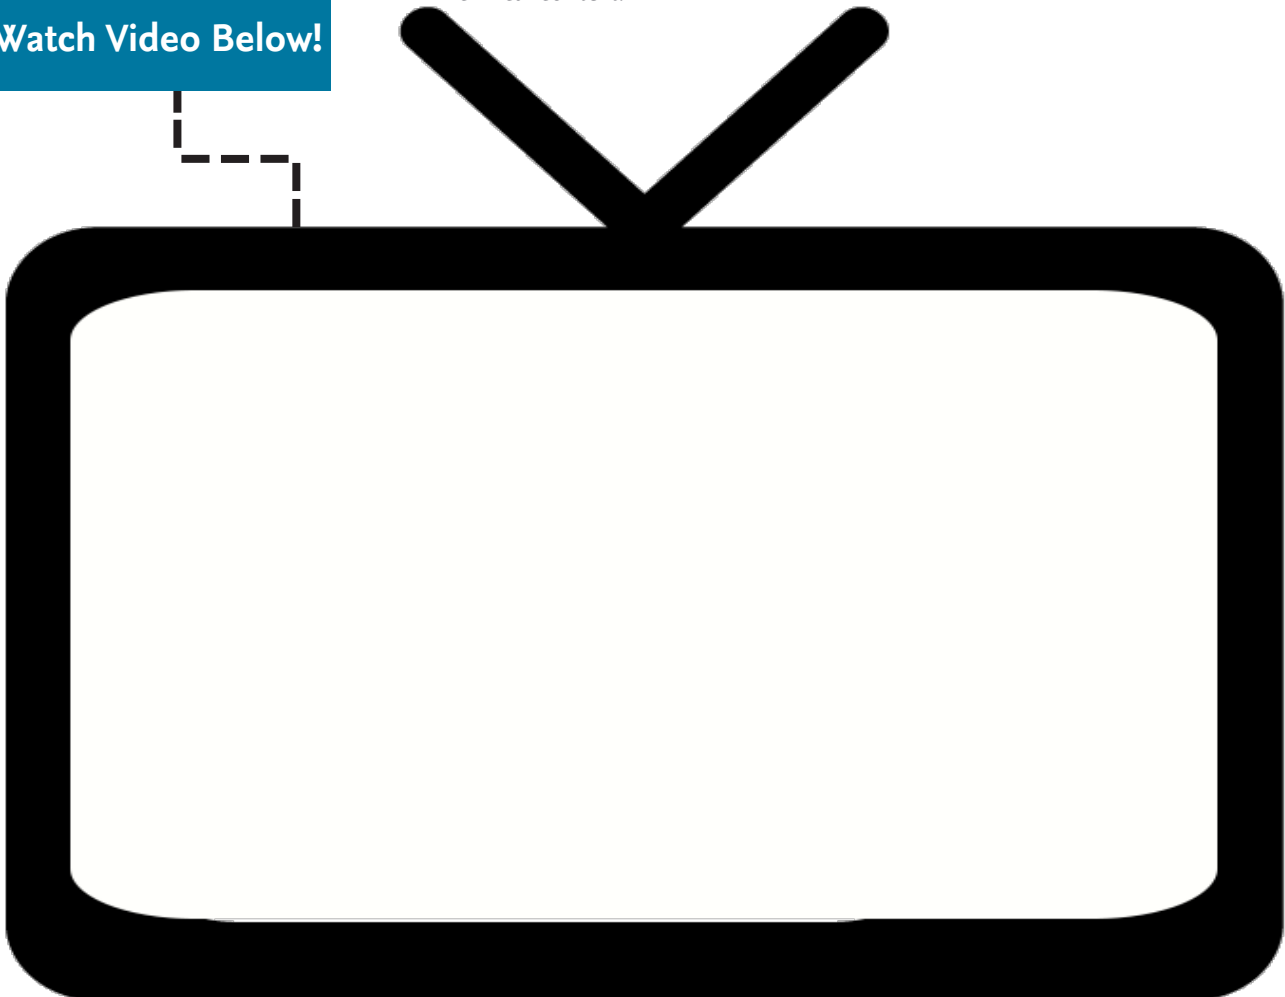

Medical Sciences, 5e
Court & Naish

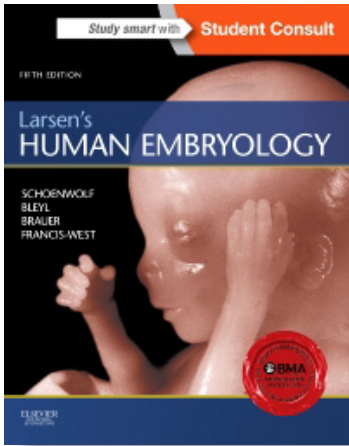

Medical Sciences is designed to do the integration for you. In just one book, the diverse branches of medical science are synthesised into the appropriate systems of the human body, making this an invaluable aid to approaching the basics of medicine within a clinical context.

Thompson & Thompson Genetics in Medicine, 8e
Nussbaum, McInnes & Willard

Updated to reflect the newest changes in genetics, this title returns as one of the most favoured texts in this fascinating and rapidly evolving field.

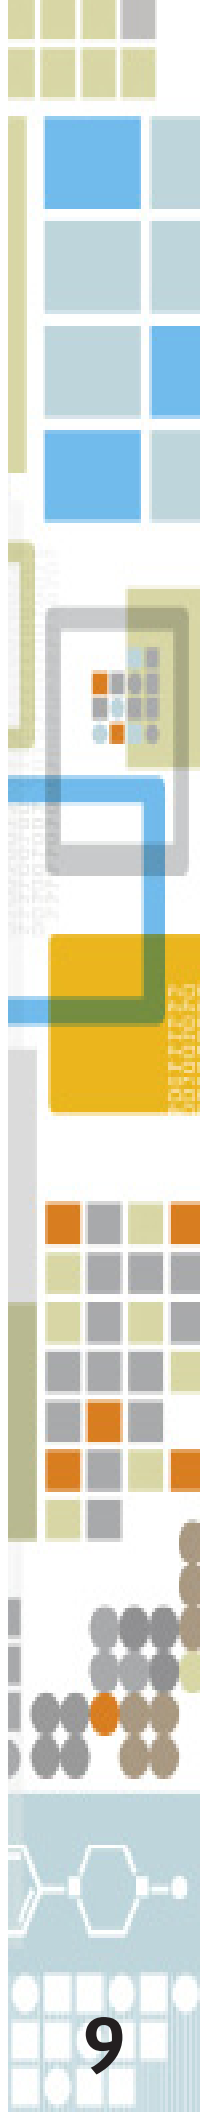

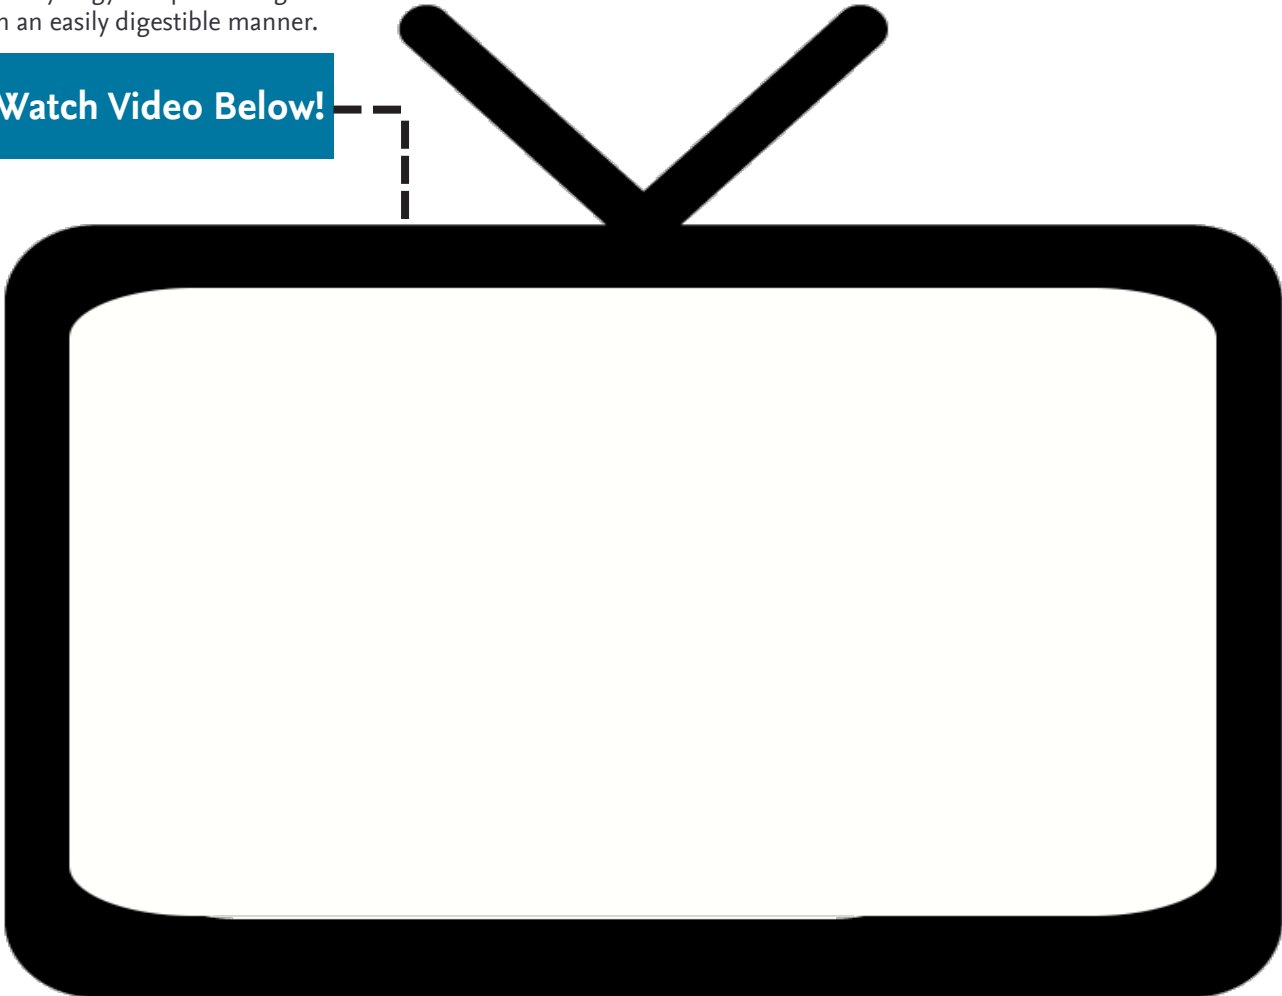

Larsen's Human Embryology 5e
Schoenwolf, Bleyl, Brauer & Francis-West

This text works as a well-organised, straightforward guide to this highly complex subject, placing an emphasis on the clinical application of embryology and presenting it in an easily digestible manner.

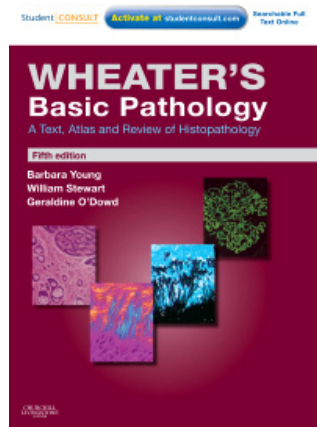

Watch Video Below!

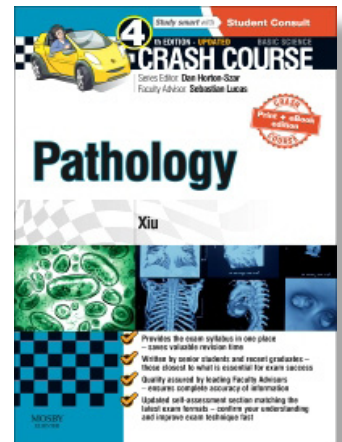

Wheater's Functional Histology, 5e
 Young, O'Dowd & Woodford

Offering concise text accompanied by hundreds of captions and images of histology slides, this best-selling textbook will equip you with all the must-know histology information you need to complete your courses and ace your exams.

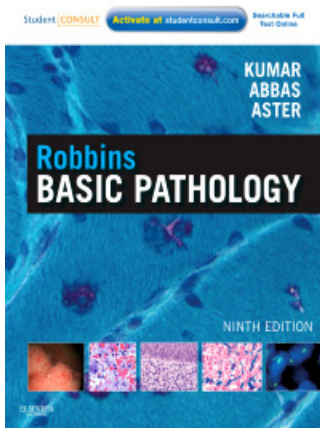

Wheater's Basic Pathology, 5e
 Young, Stewart & O'Dowd

This pathology resource offers a comprehensive introduction to the subject first by covering fundamental pathological processes and then addressing the common diseases encountered in systems pathology.

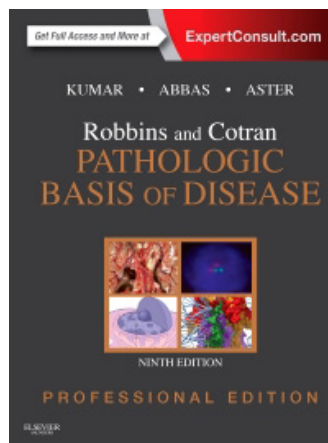

Crash Course Pathology, 4e
 Xiu

This handy every day study companion is the perfect antidote for exam stress. Save time and be assured you have all the information you need in one place to excel on your course and achieve exam success.

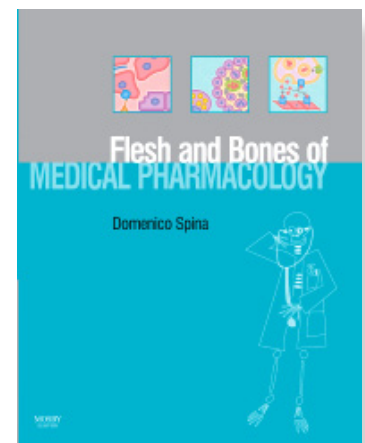

Robbin's Basic Pathology, 9e
 Kumar, Abbas & Aster

Robbins Basic Pathology delivers the pathology knowledge you need, the way you need it, from the name you can trust!

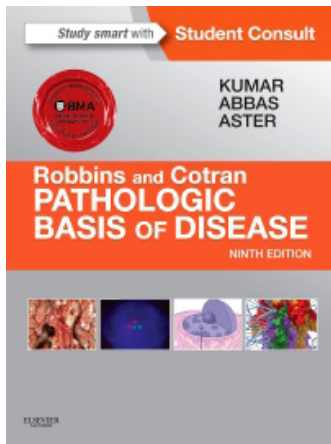

Robbins & Cotran Pathologic Basis of Disease, 9e
 Kumar, Abbas & Aster

Dependable, current, and complete, *Robbins and Cotran Pathologic Basis of Disease* is the perennially best-selling text that you'll use long after your medical student days are behind you.

The Flesh and Bones of Pharmacology
 Spina

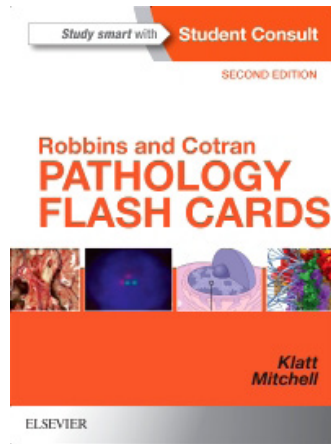

A concise, accessible account of pharmacology, this title covers all the key concepts medical students need with no gaps! Perfect as an introduction to a topic, or as a revision aid.

Robbins & Cotran Pathologic Basis of Disease, 9e

Kumar, Abbas & Aster

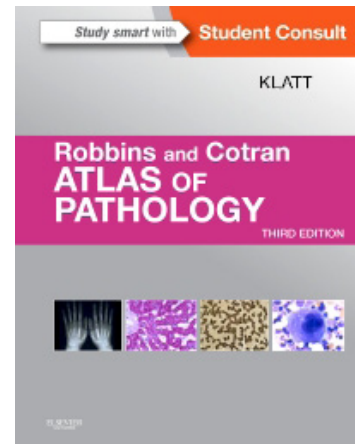

This text delivers the latest, most essential pathology knowledge in a readable, interesting manner, ensuring optimal understanding of the latest basic science and clinical content.

Robbins and Cotran Pathology Flash Cards, 2e

Klatt & Mitchell

These brilliantly illustrated flash cards present gross, photomicrographic, and radiologic images that allow you to test yourself on key pathologic information, facts, and functions.

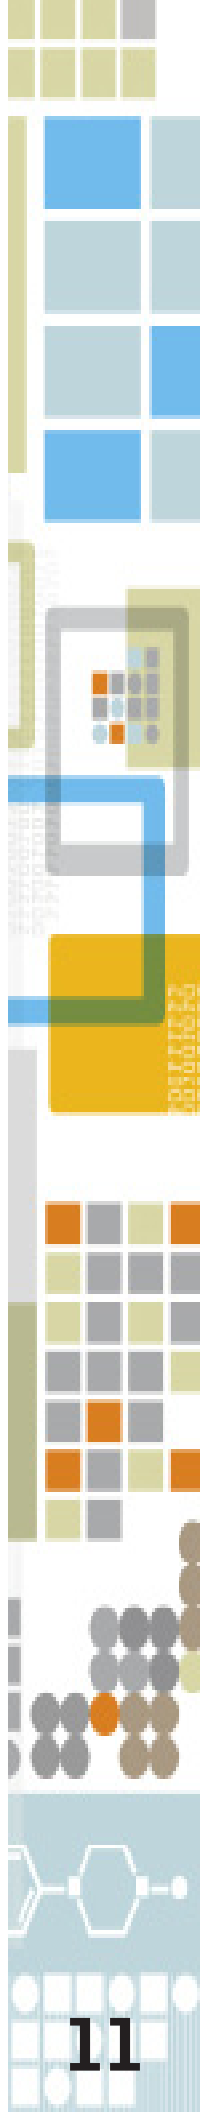

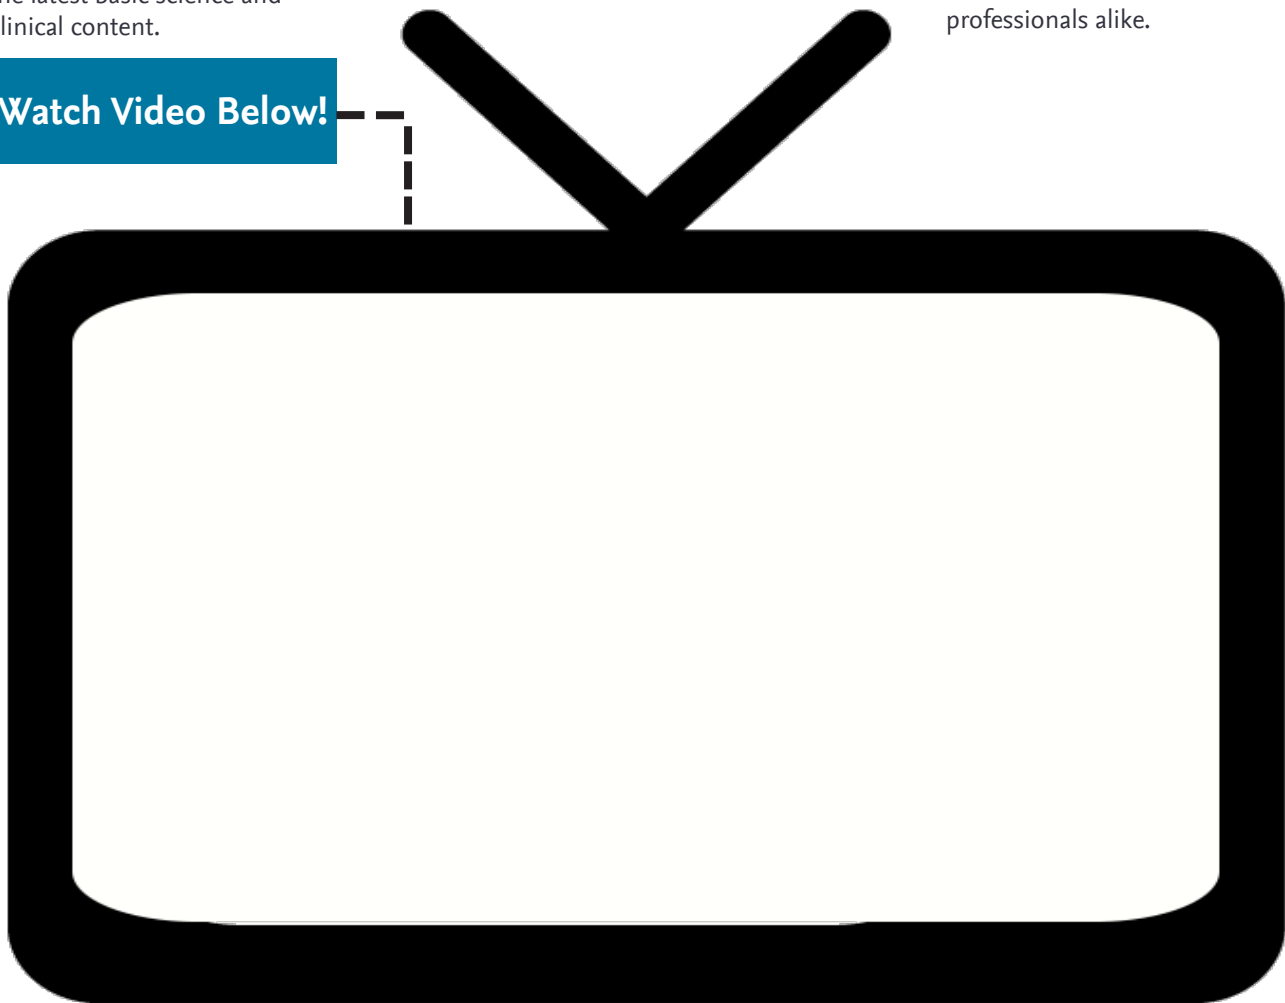

Robbins and Cotran Atlas of Pathology, 3e

Klatt

This title offers more than 1,500 outstanding illustrations that vividly depict the most common diseases covered in pathology courses and exams. It's a quick visual reference or review for students and professionals alike.

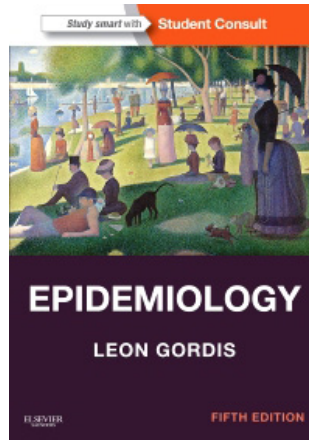

Watch Video Below!

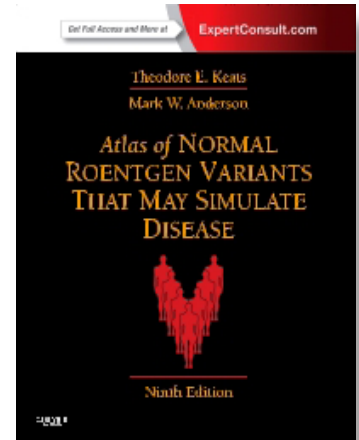

Drug Discovery and Development, 2e
Hill

This book provides an introduction to the way the industry goes about the discovery and development of new drugs.

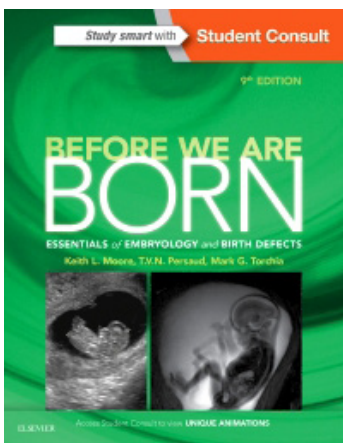

Epidemiology, 5e
Gordis

This text guides you from an explanation of the epidemiologic approach to disease and intervention, through the use of epidemiologic principles to identify the causes of disease.

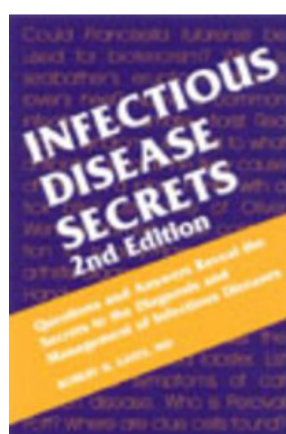

Atlas of Normal Roentgen Variants That May Simulate Disease, 9e
Keats & Anderson

This medical reference contains thousands of images that capture the roentgenographic presentation of a full range of normal variants and pseudo-lesions that may resemble pathologic conditions, helping you avoid false positives.

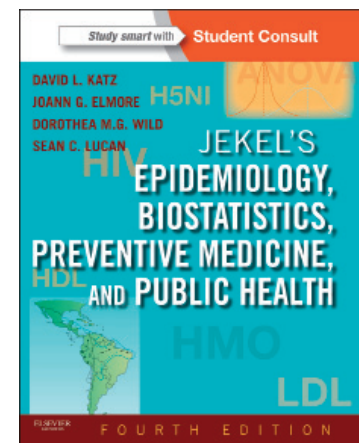

Before we are Born, 9e
Moore, Persaud & Torchia

Fully updated by the world's foremost embryologists, this medical reference book provides concise guidance on human embryology at every stage of development.

Infectious Disease Secrets, 2e
Gates

This second edition has been revised and updated to reflect current knowledge and understanding of infectious disease processes.

Epidemiology, Biostatistics, Preventive Medicine, and Public Health, 4e
Katz, Wild, Elmore & Lucan

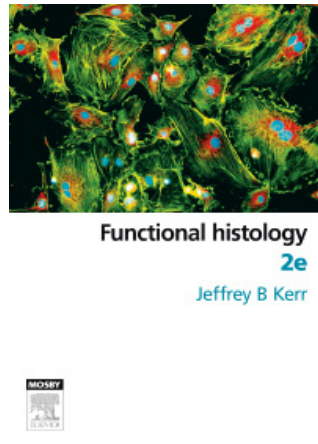

This is the only textbook that combines the disciplines of medical epidemiology, biostatistics, preventive medicine, and public health in one convenient resource.

**Rang & Dale's
Pharmacology, 8e**
*Rang, Ritter, Flower &
Henderson*

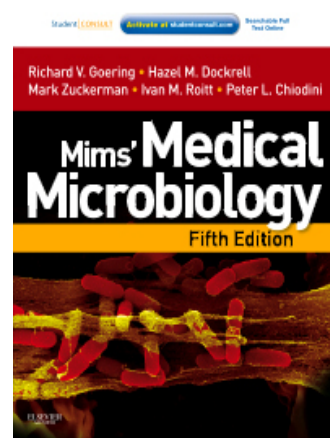

For this new edition, the authors have ensured that this easy-to-read, comprehensive text continues the tradition of excellence with new coverage of drugs affecting the skin and new components online at Student Consult.

Watch Video Below!

Functional Histology, 2e
Kerr

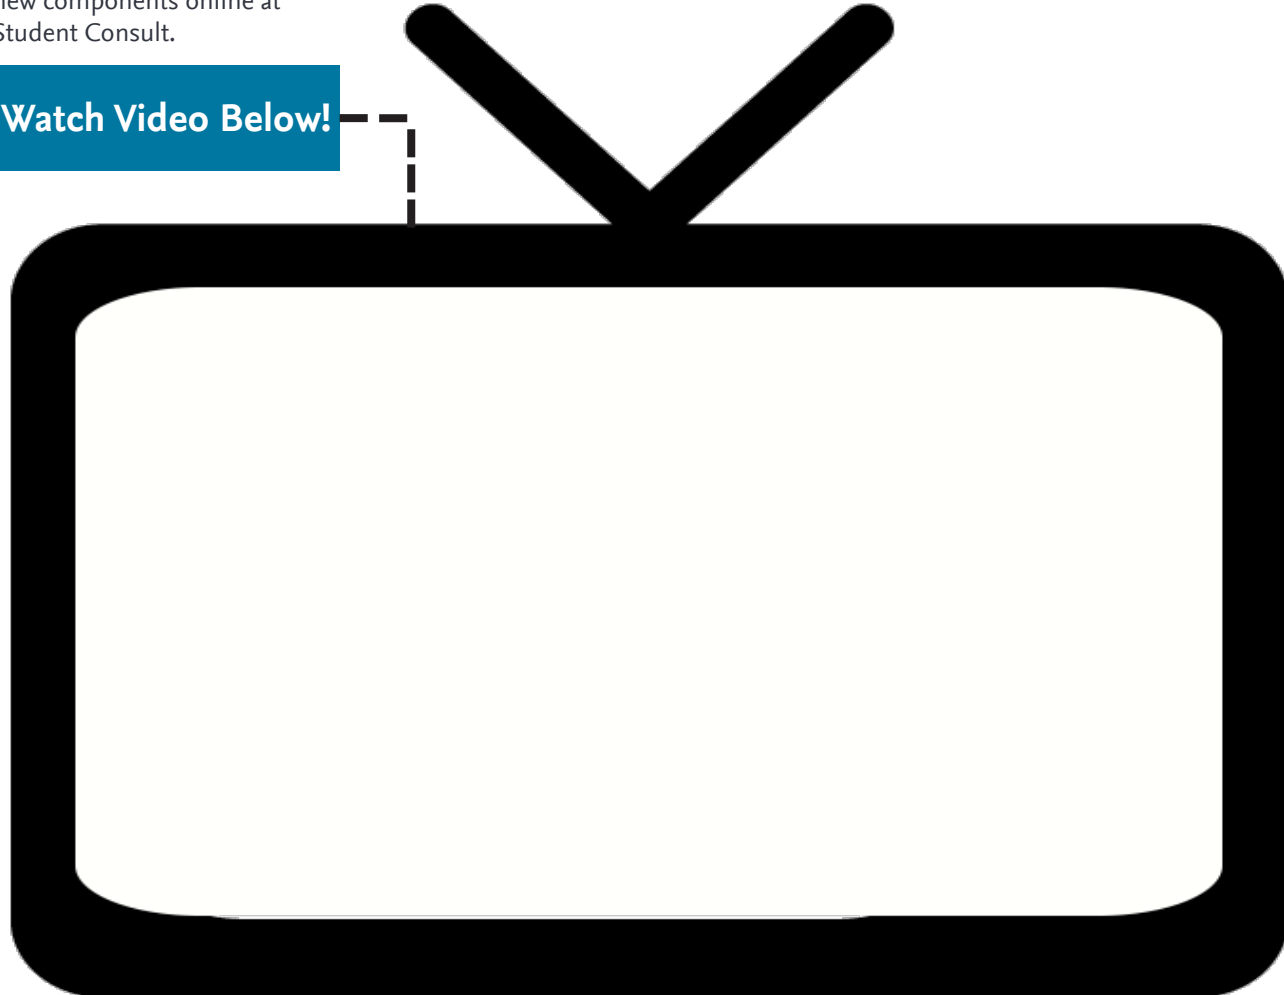

In this book, concise text relates the structures seen in the images to biological function, and integrates clinical relevance by describing how the histology of tissues is affected in abnormal conditions.

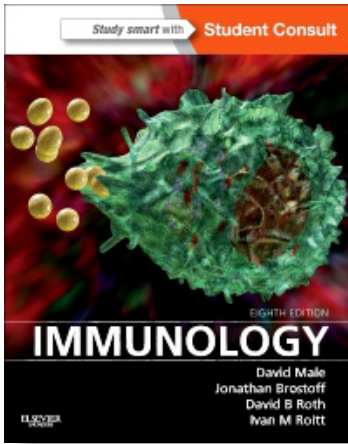

**Mim's Medical
Microbiology, 5e**

*Goering, Dockrell, Zuckerman, Roitt
& Chiodini*

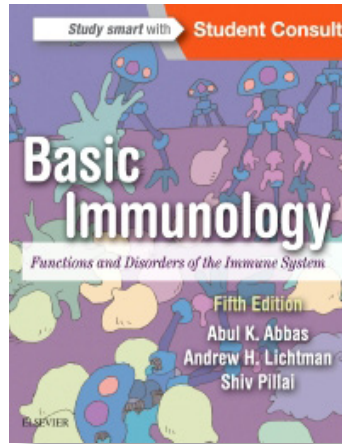

This resource makes it easy for you to learn the microbiology and basic immunology concepts you need to know for your courses and USMLE.

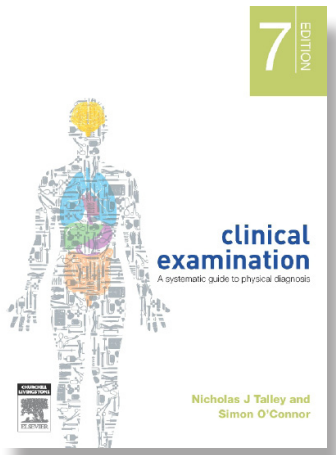

Immunology
Male, Roth & Roitt

This medical textbook's highly visual, carefully structured approach makes immunology simple to understand and remember.

Basic Immunology, 5e
Abbas, Lichtman & Pillai

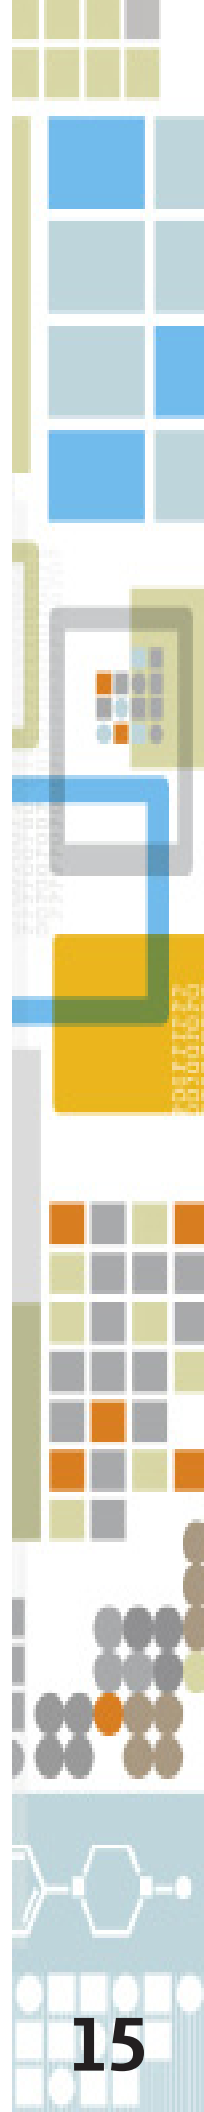

In this updated edition of *Basic Immunology*, the authors continue to deliver a clear, modern introduction to immunology, making this the obvious choice for today's busy students.

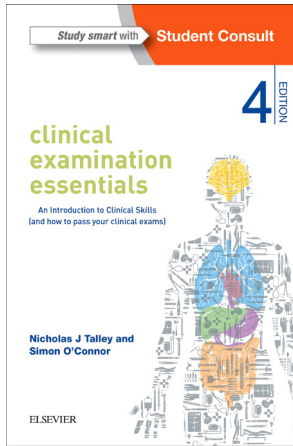

Clinical Examination, 7e
Talley & O'Connor

Fully updated with the latest clinical data, including specially commissioned research, this new edition of *Clinical Examination* addresses the core principles and clinical skills that underpin diagnosis for safe, effective medical practice.

Watch Video Below!

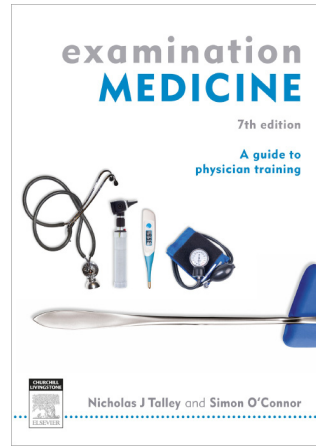

Clinical Examination Essentials, 4e

Talley & O'Connor

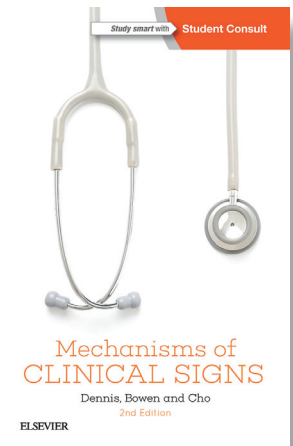

From the authors that brought you the bestselling *Clinical Examination*, this must-have guide provides an introduction to the essential skills required to successfully pass your clinical exams.

Examination Medicine, 7e

Talley & O'Connor

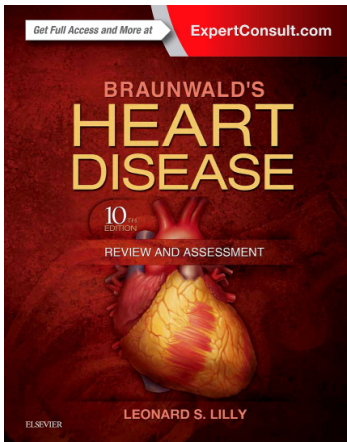

Instructive, informative and aligned with current practice, this new edition provides an overview of what to expect and what is expected of you.

Mechanisms of Clinical Signs, 2e

Talley & O'Connor

Organised by body system, *Mechanisms of Clinical Signs, 2nd Edition* explains the underlying mechanism and value of the clinical signs you are expected to know, and the conditions they indicate.

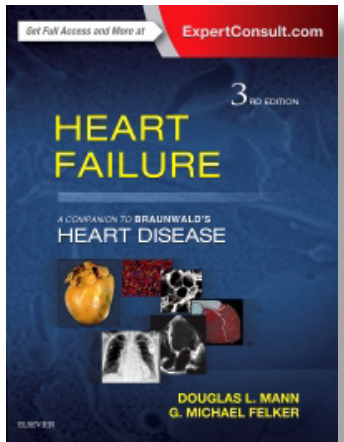

Braunwald's Heart Disease Review and Assessment, 10e

Braun & Cohen

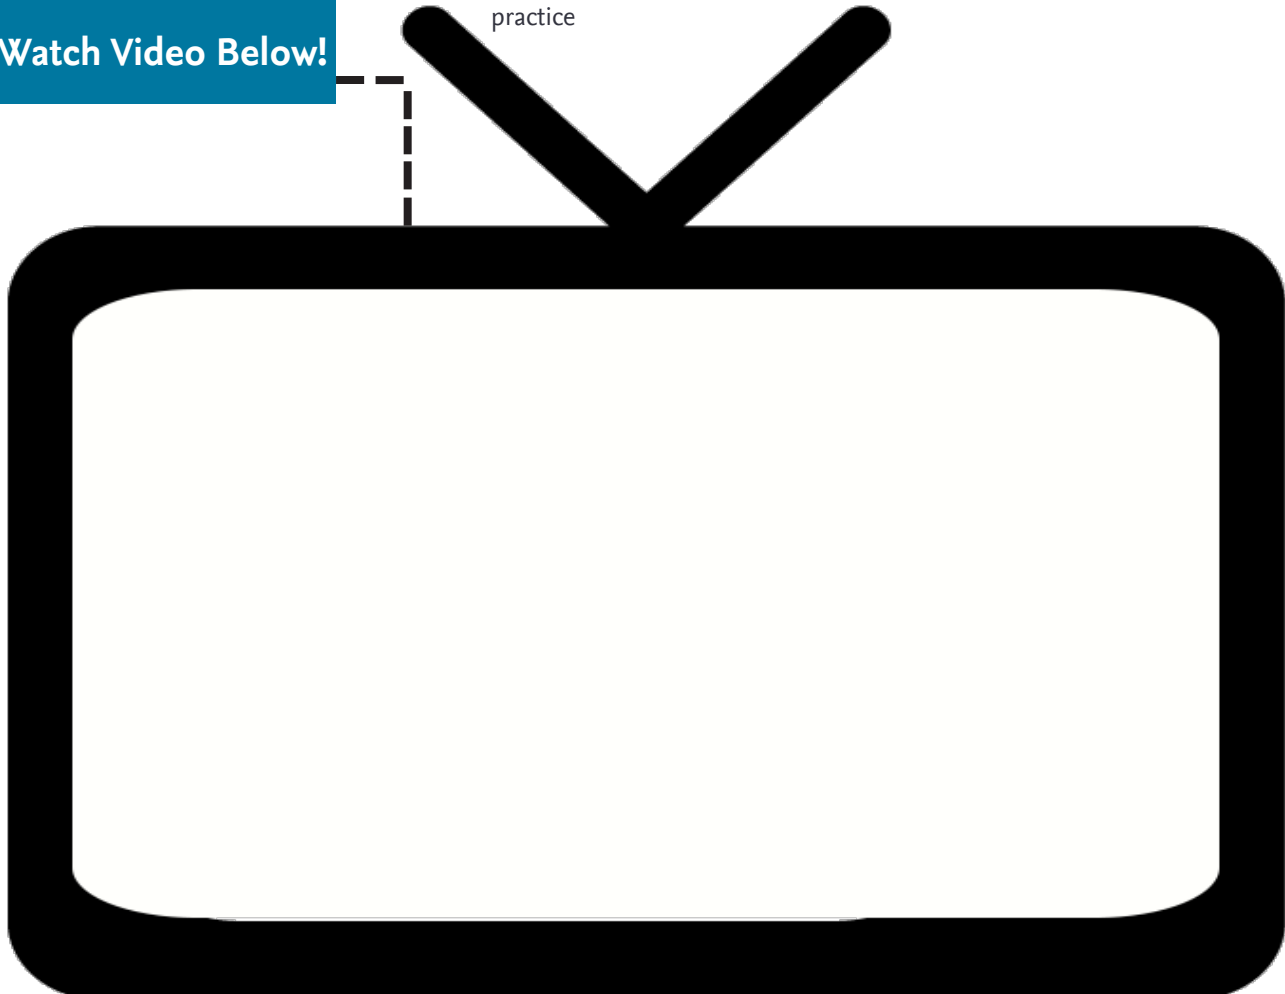

Offered in print and online, this 10th edition provides an updated, clear, and concise overview of essential aspects of cardiovascular medicine.

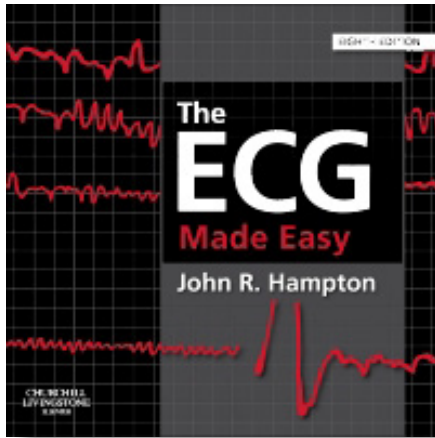

Watch Video Below!

Heart Failure, 3e
Mann & Felker

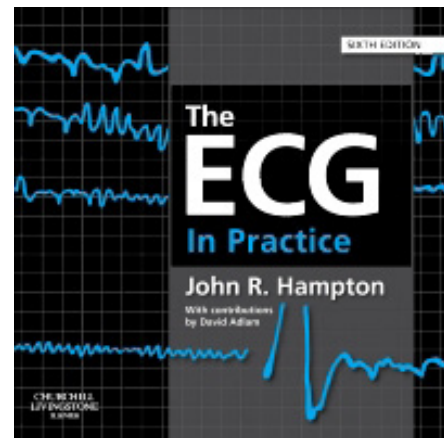

This title keeps you current with recent developments in the field, improved patient management strategies, as well as new drug therapies and implantable devices that will make a difference in your patients' lives and in your practice

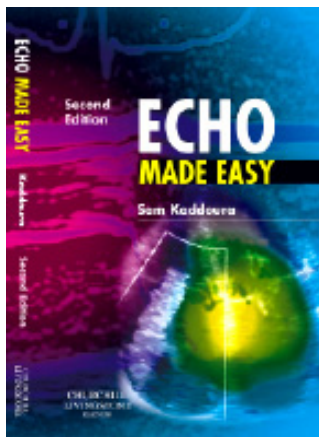

The ECG Made Easy, 8e
Hampton

Hailed by the *British Medical Journal* as a “medical classic”, this title has been a favourite of generations of medical students and nurses. It directs users of the electrocardiogram to straightforward and accurate identification of normal and abnormal ECG patterns.

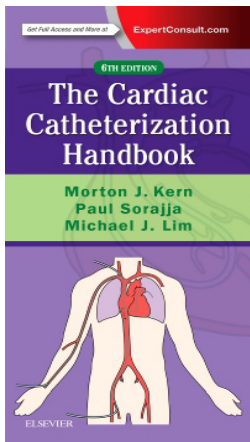

The ECG in Practice, 6e
Hampton

Clinically-orientated with a quick reference list of cardiovascular conditions, this title is a significant resource of information for medical students and junior medical staff, as well as for those wishing to refresh their knowledge.

Echo Made Easy, 2e
Kaddoura

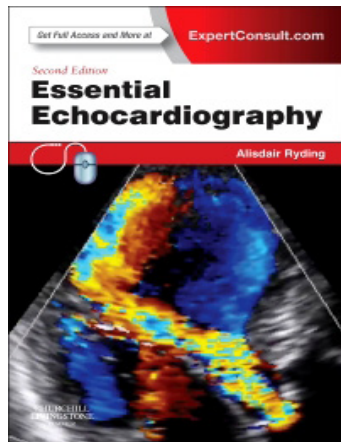

This best-selling and highly-praised book provides a practical and clinically useful introduction to echo.

Cardiac Catheterization Handbook, 6e

Kern, Sorajja & Lim

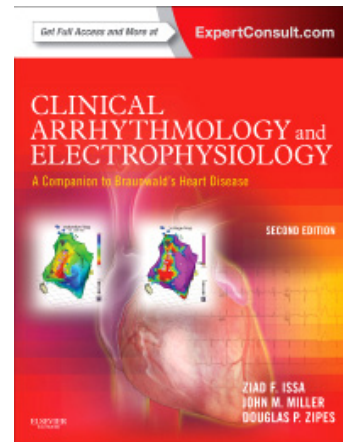

This unique, easy-to-access handbook returns with enhanced coverage and clear instructions on what to expect, what to avoid, and how to manage complications in the cath lab.

Essential Echocardiography, 2e

Ryding

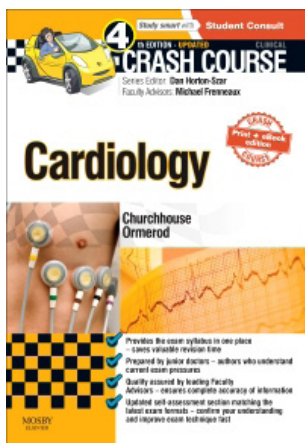

This book is a step-by-step manual for the complete echo-novice. It should be the only book needed to become a proficient echocardiographer.

Clinical Arrhythmology and Electrophysiology, 2e

Issa, Miller & Zipes

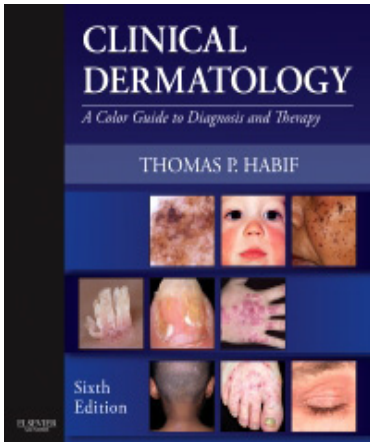

With its unique, singular focus on the clinical aspect of cardiac arrhythmias, this title makes it easy to apply today's most up-to-date guidelines for diagnosis and treatment.

Crash Course Cardiology, 4e

Churchhouse & Ormerod

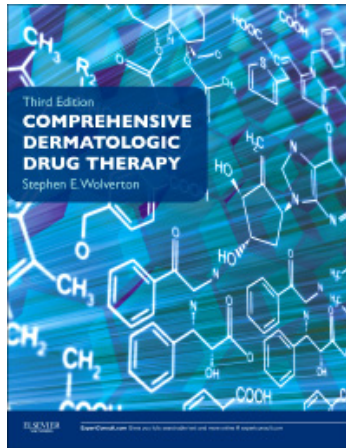

This title will ensure you save time and be assured you have all the core information you need in one place to excel in your course and achieve exam success.

Clinical Dermatology, 5e
Habif

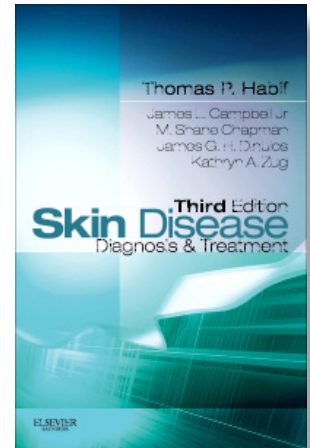

Clean formatting, easy indexing, and exceptional colour images make this an indispensable source for definitive, state-of-the-art answers on every aspect of dermatologic care.

Watch Video Below!

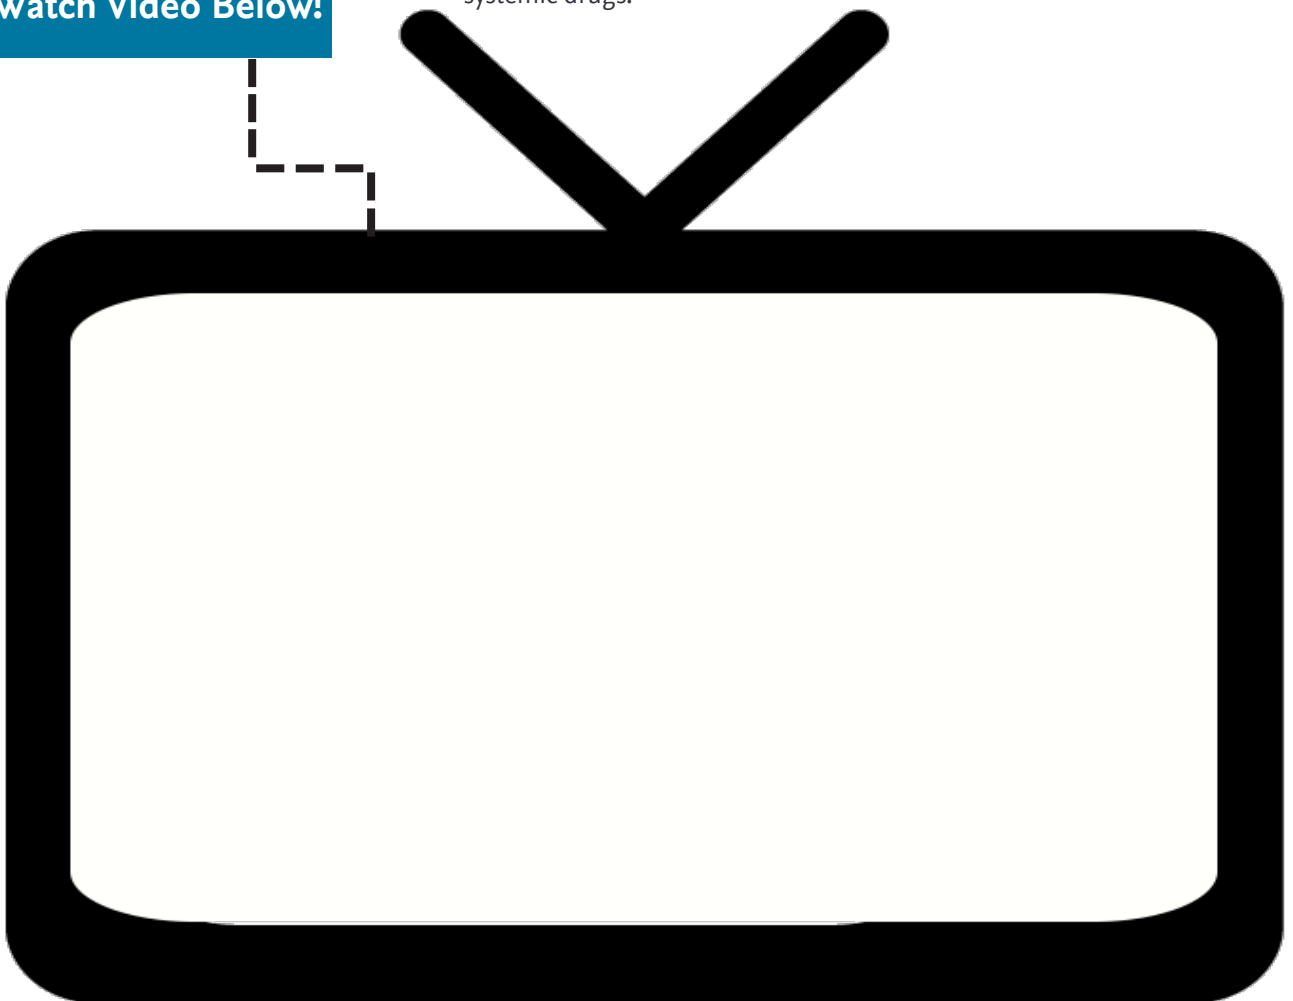

Comprehensive Dermatologic Drug Therapy, 3e
Wolverton

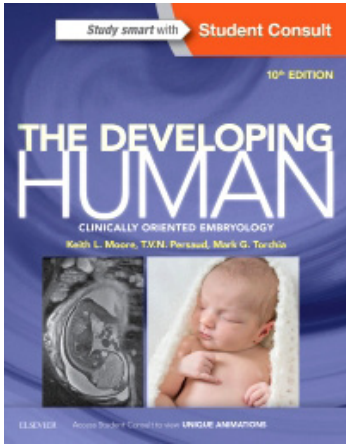

This trusted dermatology reference provides concise, complete, up-to-date guidance on today's full spectrum of topical, intralesional, and systemic drugs.

Skin Disease, 3e
Habif, Campbell, Chapman, Dinulos & Zug

This text is the quick and practical clinical reference you need to help you effectively diagnose and treat 250 common dermatologic diseases.

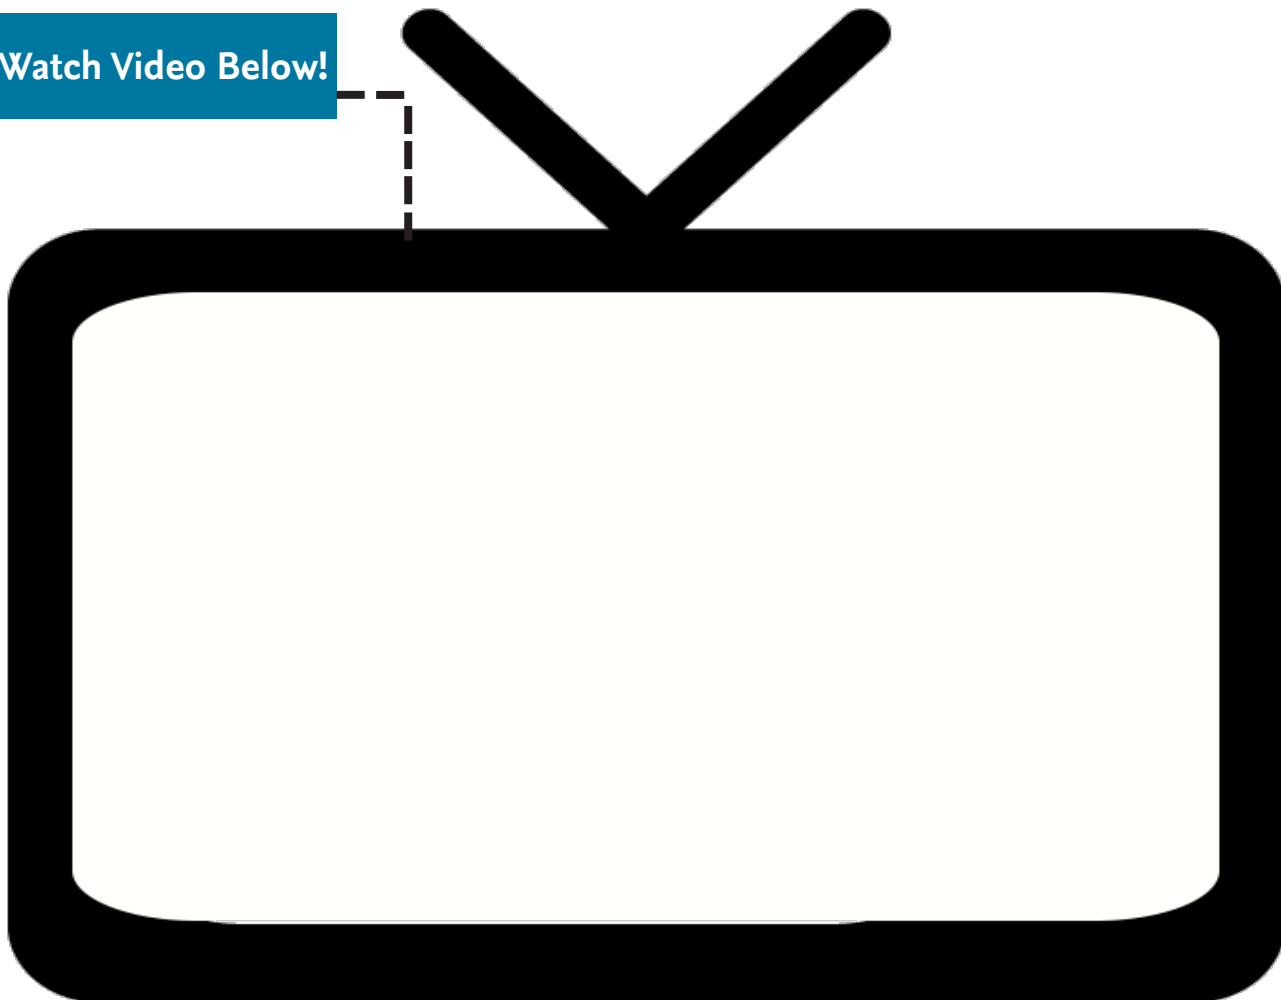

The Developing Human, *Moore, Persaud & Torchia,*

This text contains clearly written and well-structured descriptions alongside nearly 600 illustrations. It helps provide a clinically oriented guide to human development, utilising a week-by-week and stage-by-stage approach to describe fetal organ and system development.

Watch Video Below!

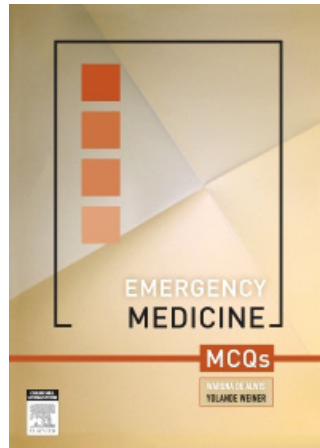

Rosen's Emergency Medicine, 2-Volume Set, 8e

Marx, Hockberger & Walls

Offering unparalleled comprehensiveness, clarity, and authority this text will help you put the latest and best knowledge to work for your patients in the ER.

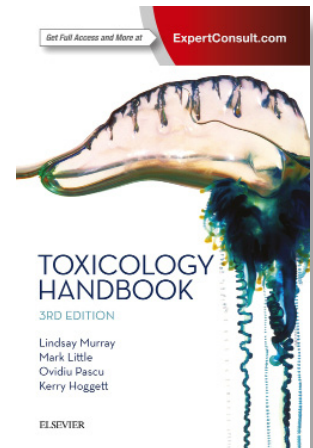

Watch Video Below!

Emergency Medicine MCQs

De Alwis & Weiner

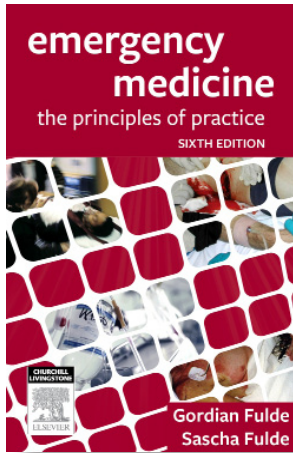

A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination.

Toxicology Handbook, 3e

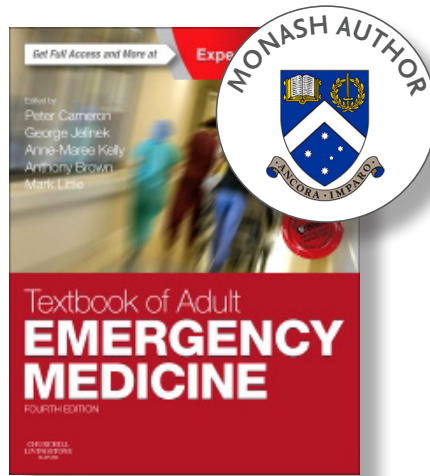

Murray, Little, Pascu & Hoggett

This concise text is informed by the latest clinical research and takes a rigorous and structured risk assessment-based approach to decision making in the context of clinical toxicology.

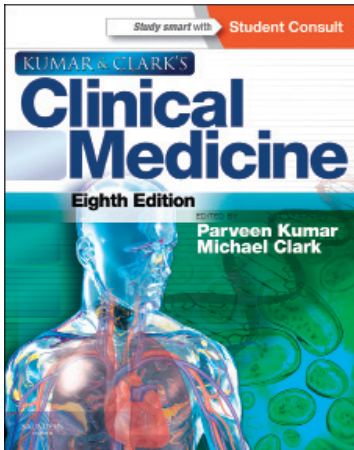

Emergency Medicine, 6e
Fulde & Fulde

This text is the quick and practical clinical reference you need to help you effectively diagnose and treat 250 common dermatologic diseases.

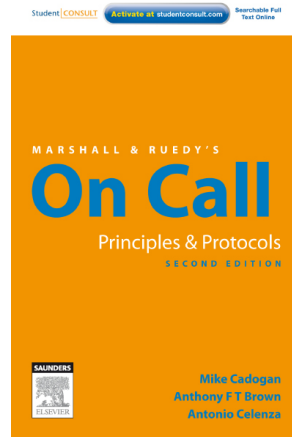

**Textbook of Adult
Emergency Medicine, 6e**
*Cameron, Jelinek, Kelly, Brown &
Little*

Now fully revised and updated, *Textbook of Adult Emergency Medicine* provides clear and consistent coverage of this rapidly evolving specialty.

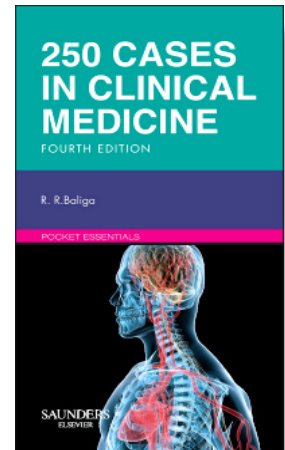

Kumar and Clark's Clinical Medicine, 8e
Kumar & Clark,

This book is comprehensive, student friendly and covers a vast breadth of knowledge. After eight editions, it remains the primary 'must-have' text book of any budding or qualified doctor.

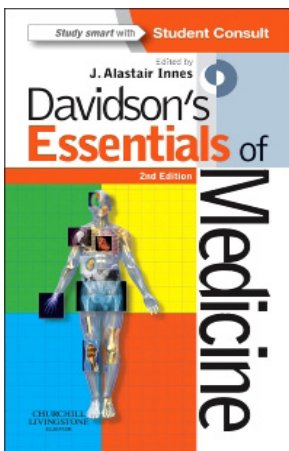

Marshall & Ruedy's On Call: Principles & Protocols, 2e
Cadogan, Brown & Celenza

This book provides a structured approach to the initial assessment, resuscitation, differential diagnosis and short-term management of common on-call problems.

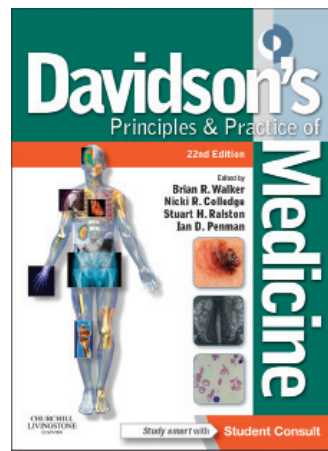

250 Cases in Clinical Medicine, 4e
Baliga

This new, fully updated edition of Baliga's very popular collection of short cases arranged by clinical area, emphasises the key diagnostic features of clinical conditions.

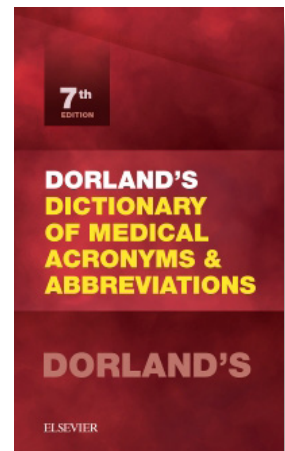

Davidson's Essentials of Medicine, 2e
Innes

This text has informed and educated students, doctors and other health professionals all over the world, providing a comprehensive account of the practice of medicine.

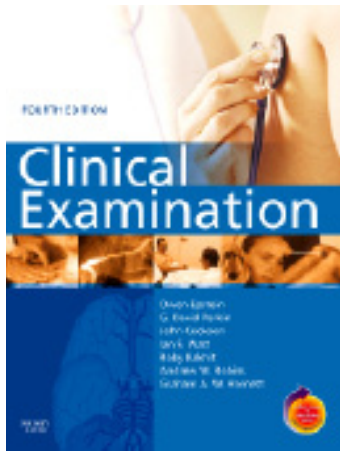

Davidson's Principles and Practice of Medicine, 22e
Walker, Colledge, Ralston & Penman

This title provides the factual knowledge required to practise medicine, explaining it in the context of underlying principles, basic science and research evidence, while showing readers how to apply this knowledge successfully.

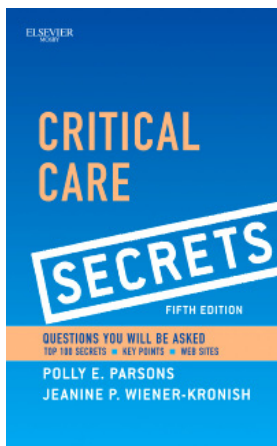

Dorland's Dictionary of Medical Acronyms and Abbreviations, 7e
Dorland

This reference features thousands of terms from various medical specialties. Its alphabetical arrangement makes for quick reference, and expanded coverage.

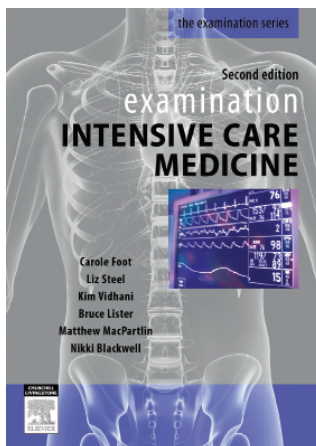

Clinical Examination, 4e
*Epstein, Perkin, Cookson, Watt,
Rakhit, Robins & Hornett*

This fourth edition of *Clinical Examination* provides a clear, practical and above all, superbly illustrated guide to all aspects of history taking and patient examination.

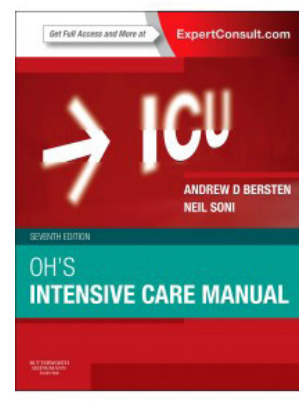

Critical Care Secrets, 5e
Parsons & Wiener-Kronish

This easy-to-read book uses the popular and trusted Secrets Series® question-and-answer format to cover all areas of critical care medicine, focusing on the practical, “in-the-trenches” know-how you need to succeed both in practice, and on board and recertification exams.

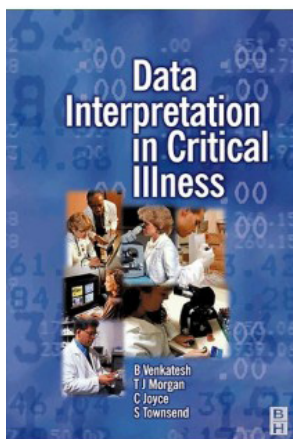

Examination Intensive Care Medicine, 2e
Foot, Steel, Vidhani, Lister, MacPartlin & Blackwell

This book covers the key components of the exam syllabuses for FCICM, EDIC and DICM, and builds on the ICM component of the previous edition.

OH's Intensive Care Manual, 7e
Bersten & Soni

This highly esteemed, bestselling medical reference book presents comprehensive detail on each topic, while maintaining a succinct, accessible style so this information can be seamlessly incorporated into your daily practice.

Data Interpretation in Critical Care Medicine, 5e
Venkatesh, Morgan, Joyce & Townsend

With over 100 data sets composed of a brief history, relevant clinical findings, investigation and monitoring results, Venkatesh provides a source of real clinical data, with questions and answers, enabling you to test and develop your interpretation skills.

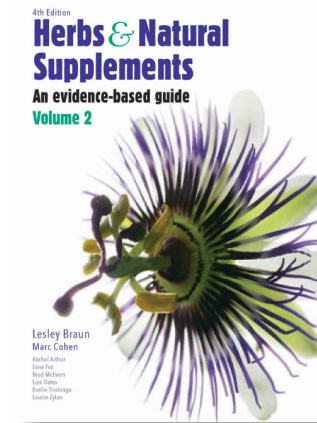

Herbs and Natural Supplements, 2-Volume set, 4e
 Braun & Cohen

Herbs and Natural Supplements, 4th Edition: An evidence-based guide is an authoritative, evidence-based reference. This two volume resource is essential to the safe and effective use of herbal, nutritional and food supplements.

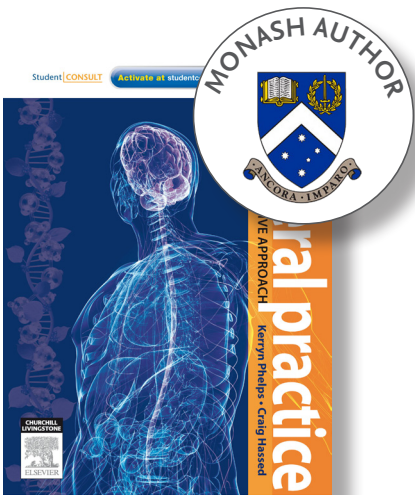

Herbs and Natural Supplements, Volume 1, 4e
 Braun & Cohen

This first volume emphasises safe practice with strategies to prevent adverse drug reactions, guidelines in assessing benefit, risk and harm and the evaluation of research.

Herbs and Natural Supplements, Volume 2, 4e
 Braun & Cohen

This second volume provides current, evidence-based monographs on the 132 most popular herbs, nutrients and food supplements.

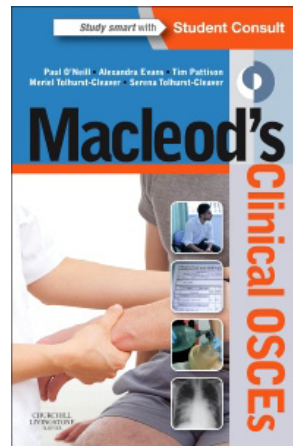

General Practice
 Phelps & Hassed

Ideal for General Practitioners and medical students alike, this medical textbook takes an integrative approach to the diagnosis, investigation and management of health issues in the general practice environment.

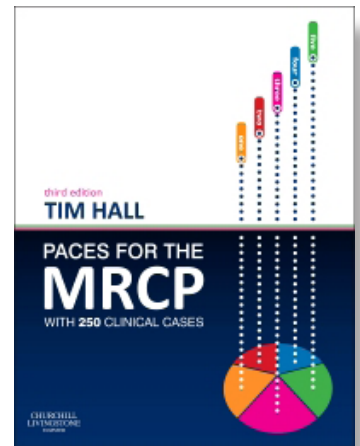

Internal Medicine, 3e
Talley, Frankum & Currow

Building on established diagnostic techniques, *Essentials of Internal Medicine, 3e* presents a modern approach to internal medicine, equipping the reader with the skills to become an effective internist.

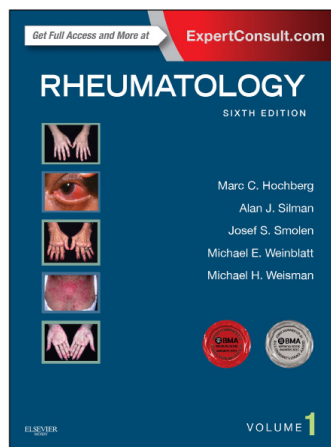

Macleod's Clinical OSCE
O'Neill, Evans, Pattison, Tolhurst-Cleaver & Tolhurst-Cleaver

This handy book for medical students contains over 60 of the most commonly encountered OSCE stations in medicine and surgery.

PACES for the MRCP, 3e
Hall

This 3rd edition of *PACES for the MRCP* continues to provide fully revised, up-to-date, evidence-based coverage of investigations and treatments in order to prepare candidates for success in the Practical Assessment of Clinical Examination Skills and a future specialty career.

Rheumatology, 2-Volume Set, 6e
Hochberg, Smolen, Weinblatt & Weisman

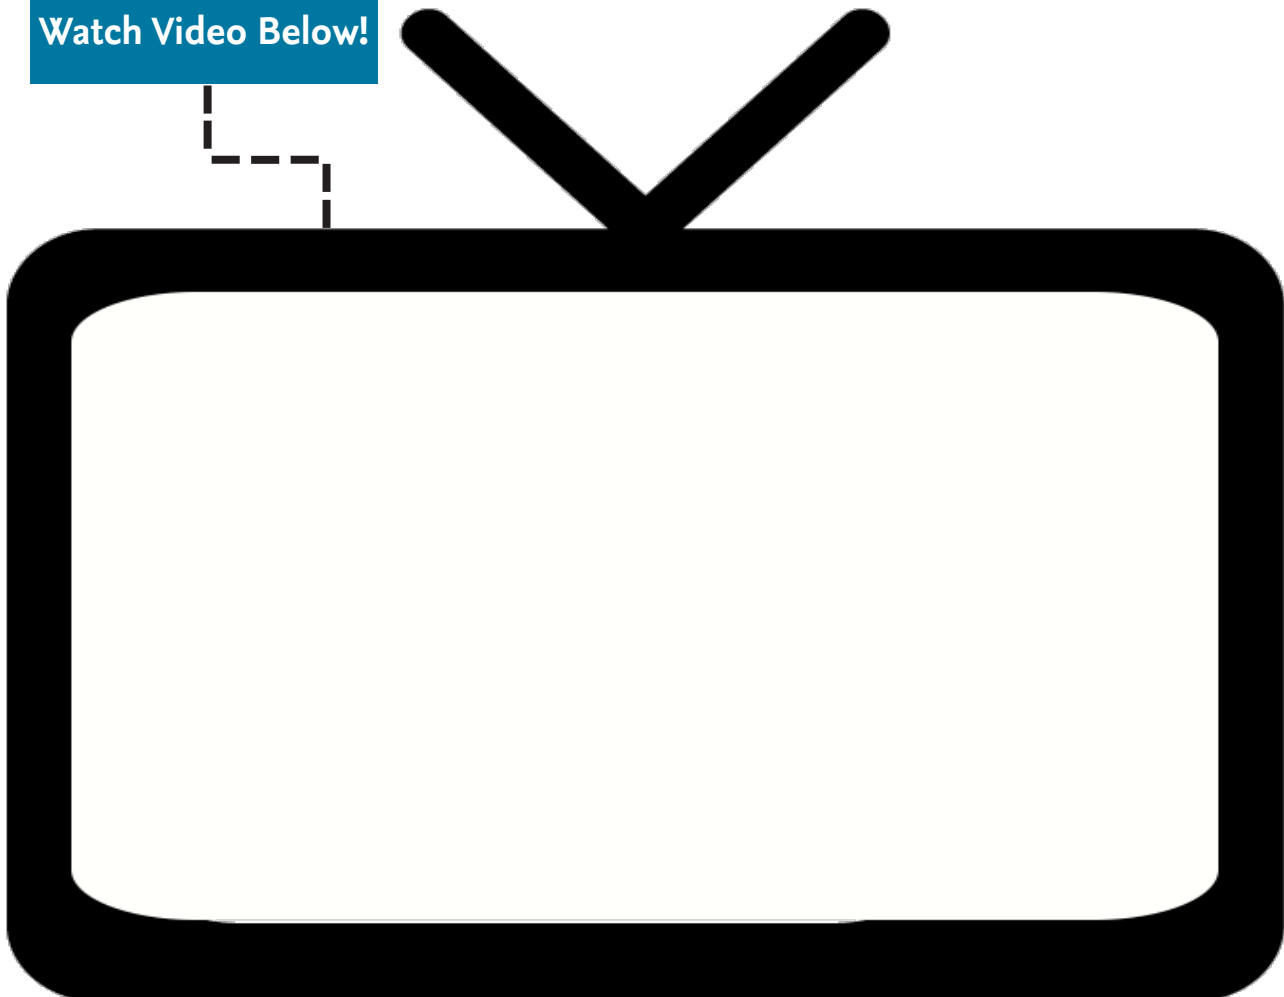

Designed to meet the needs of the practicing clinician, this medical reference book provides extensive, authoritative coverage of rheumatic diseases from basic scientific principles to practical points of clinical management.

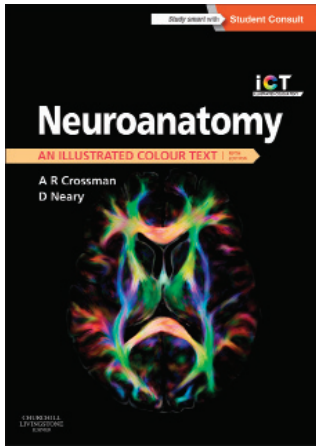

**Goldman-Cecil Medicine,
2-Volume Set, 25e**
Goldman & Schafer

This text offers definitive, unbiased guidance on the evaluation and management of every medical condition, presented by a veritable “Who’s Who” of modern medicine.

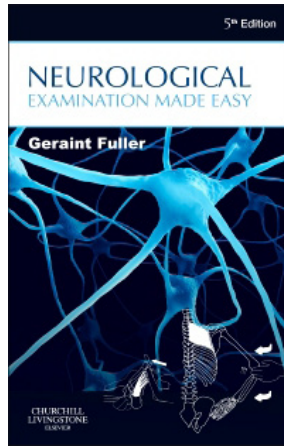

Watch Video Below!

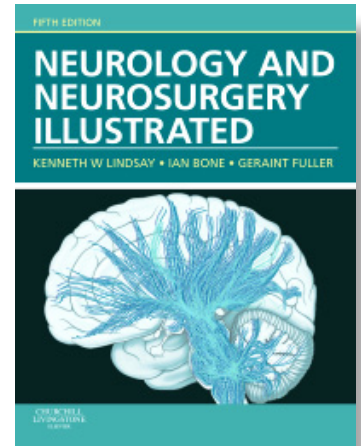

Neuroanatomy: an Illustrated Colour Text, 5e
Crossman & Neary

Now fully revised and updated, this leading ICT series volume offers concise, superbly illustrated coverage of neuroanatomy that throughout makes clear the relevance of the anatomy to the practice of modern clinical neurology.

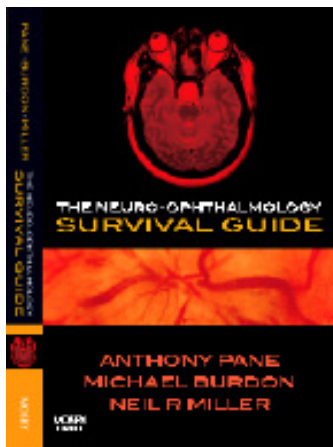

Neurological Examination Made Easy, 5e
Fuller

This book clearly guides you through the essentials of neurological examination - providing the relevant background and telling you what to do, what you can find and what it means.

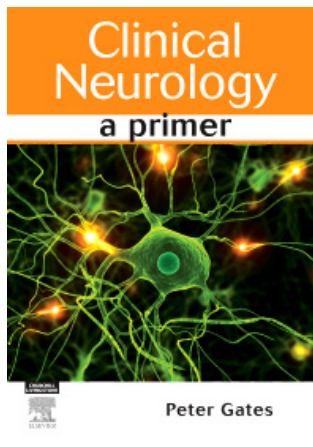

Neurology and Neurosurgery Illustrated, 5e
Lindsay & Fuller

Updated and revised in all areas, this text includes current guidelines, particularly recommendations from National Institute for Health and Clinical Excellence.

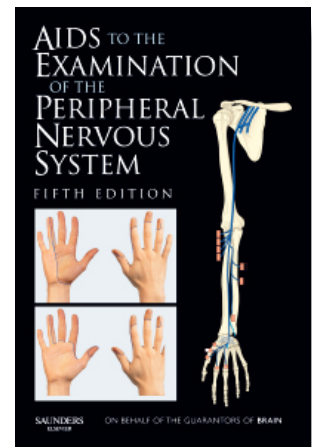

The Neuro-ophthalmology Survival Guide
Pane, Burdon & Miller

The Neuro-ophthalmology Survival Guide is a practical, symptom-orientated handbook of neuro-ophthalmology, perfect for all trainee and practising ophthalmologists.

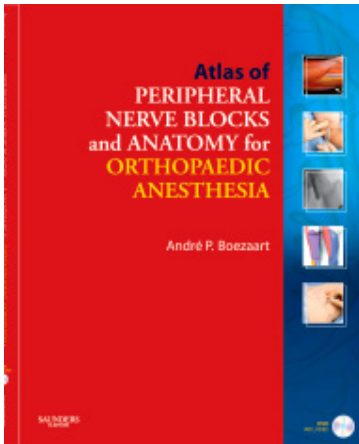

Clinical Neurology
Gates

The book covers neuroanatomy, history taking and examination as well as discussing the clinical features of common problems and selected, less common neurological disorders, in a way that will demystify a part of medicine that many find complex and difficult to understand.

Aids to the Examination of the Peripheral Nervous System, 5e
O'Brien

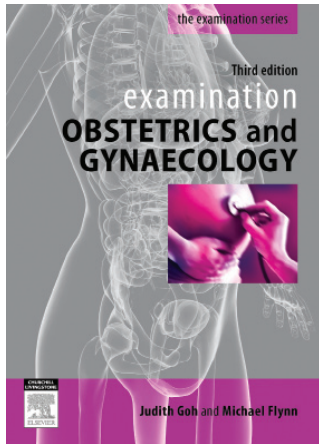

Now in its fifth edition, this title is the standard photographic guide to the examination of patients with lesions of the peripheral nerves and nerve roots.

Atlas of Peripheral Nerve Blocks and Anatomy for Orthopaedic Anesthesia with DVD

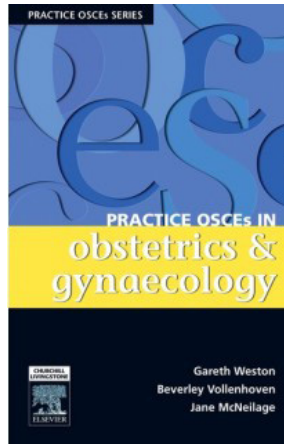

Boezaart

This text and its companion DVD thoroughly review the anatomy points needed to effectively execute and demonstrate all 16 essential nerve blocks as performed by specialists in orthopaedic anesthesiology.

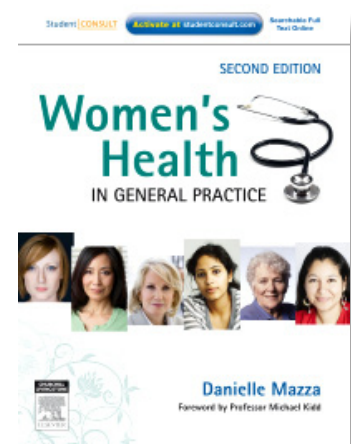

Examination Obstetrics & Gynaecology, 3e
Goh & Flynn

Examination Obstetrics & Gynaecology, 3rd Edition is a rapid reference appropriate for daily use in a busy hospital ward, clinic or medical surgery.

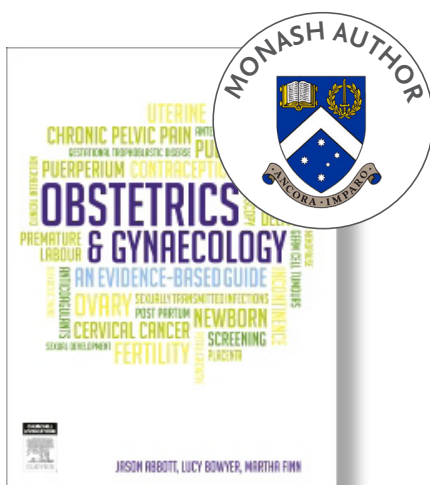

Practice OSCEs in Obstetrics & Gynaecology
Weston, Vollenhoven & McNeilage

This book covers an approach to passing the OSCE as well as 60 practice questions. Each case includes a sample marking scheme.

Women's Health in General Practice, 2e
Mazza

This comprehensive women's health textbook will assist health practitioners working in rural and remote areas, as well as nurse practitioners working in primary care settings.

Obstetrics and Gynaecology, 2e
Abbott, Bowyer & Finn

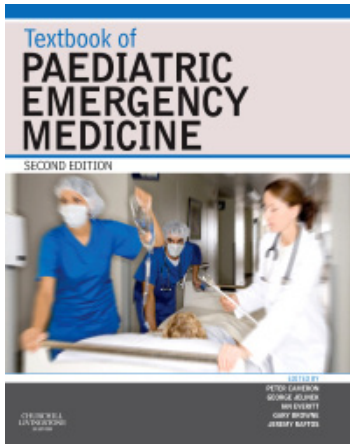

Expertly written and packed with the most relevant, up-to-date evidence; this obstetrics and gynaecology textbook covers all aspects of women's health from conception to puberty and from pregnancy to old age.

Ophthalmology, 3e
Batterbury, Bowling & Murphy

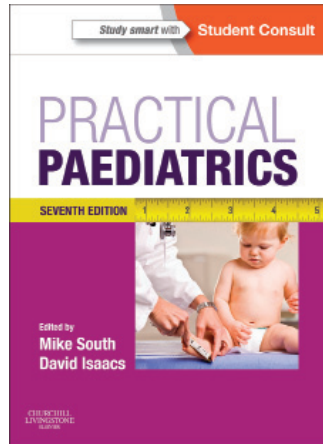

This text clearly relates structure to function in accordance with the approach that most of today's courses take while tackling the common difficulties of diagnosis and management.

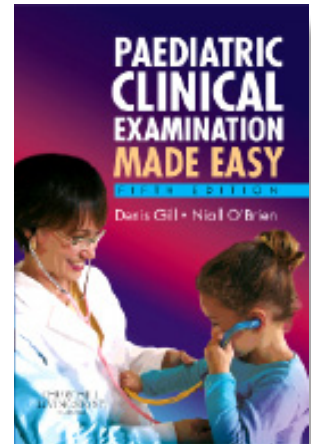

Textbook of Paediatric Emergency Medicine, 2e
 Cameron, Jelinek, Everitt, Browne & Raftos

The latest edition of the acclaimed, comprehensive postgraduate textbook in paediatric emergency medicine, gives clear and concise coverage of all the major topics that present in this field.

Practical Paediatrics, 7e
 South & Isaacs

This seventh edition of the highly regarded, major textbook of paediatrics comes with free online access to the whole book through www.studentconsult.com.

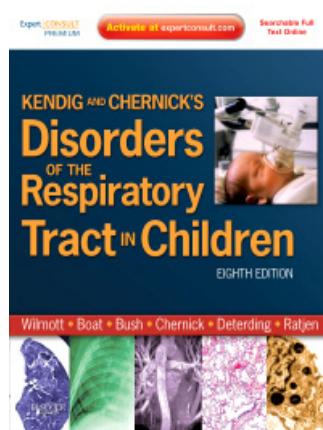

Paediatric Clinical Examination Made Easy, 5e
 Gill & O'Brien

This book provides a concise, and carefully written guide to paediatric clinical skills, including the skill of history taking from the child at various ages and from the parents, plus examination of the body systems.

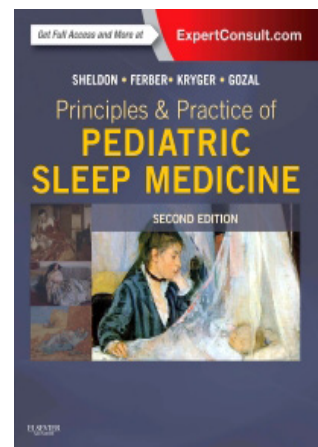

Pediatric Clinical Skills, 4e
 Goldbloom

Written in a clear, informal tone, this book explains the nuances of the child and family interview as well as history, pediatric physical exam, crucial interpersonal skills, and important issues such as cultural sensitivity, chronic conditions, and athletic participation.

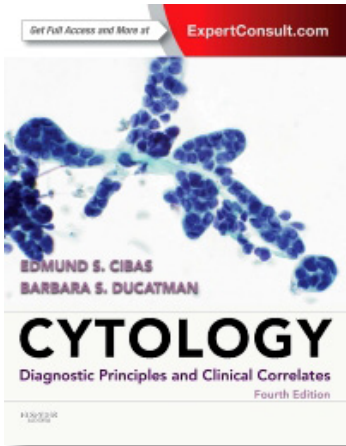

Disorders of the Respiratory Tract in Children, 8e
 Wilmott, Bush, Boat, Detering, Ratjen & Chernick

Disorders of the Respiratory Tract in Children is the definitive medical reference book to help you confront critical challenges using the latest knowledge and techniques.

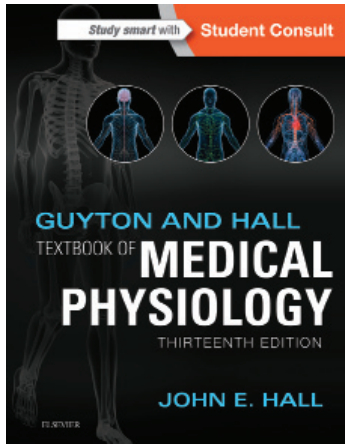

Principles and Practice of Pediatric Sleep Medicine, 2e
 Sheldon, Kryger, Ferber & Gozal

This best-selling title is the most comprehensive source for diagnosing and managing sleep disorders in children.

Cytology, 4e
Cibas & Ducatman

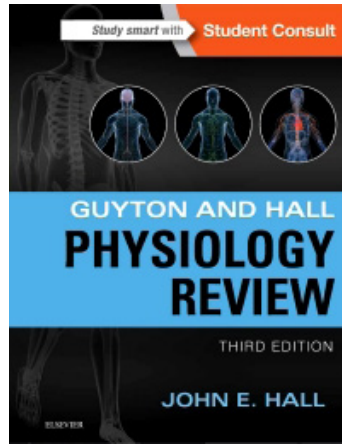

This medical reference book offers you quick access to the newest methods and adjunct tests, all in a brief, highly readable format that makes quick work of reviewing the key information available on this powerful yet minimally invasive method.

Guyton and Hall Textbook of Medical Physiology, 13e

Hall

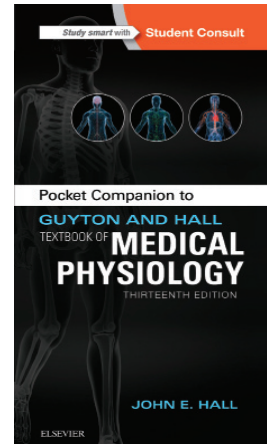

This detailed but lucid text is complemented by didactic illustrations that summarise key concepts in physiology and pathophysiology.

Guyton & Hall Physiology Review, 3e

Hall

Containing more than 1,000 board-style questions and answers, this text allows you to test your knowledge of the most essential, need-to-know concepts in physiology.

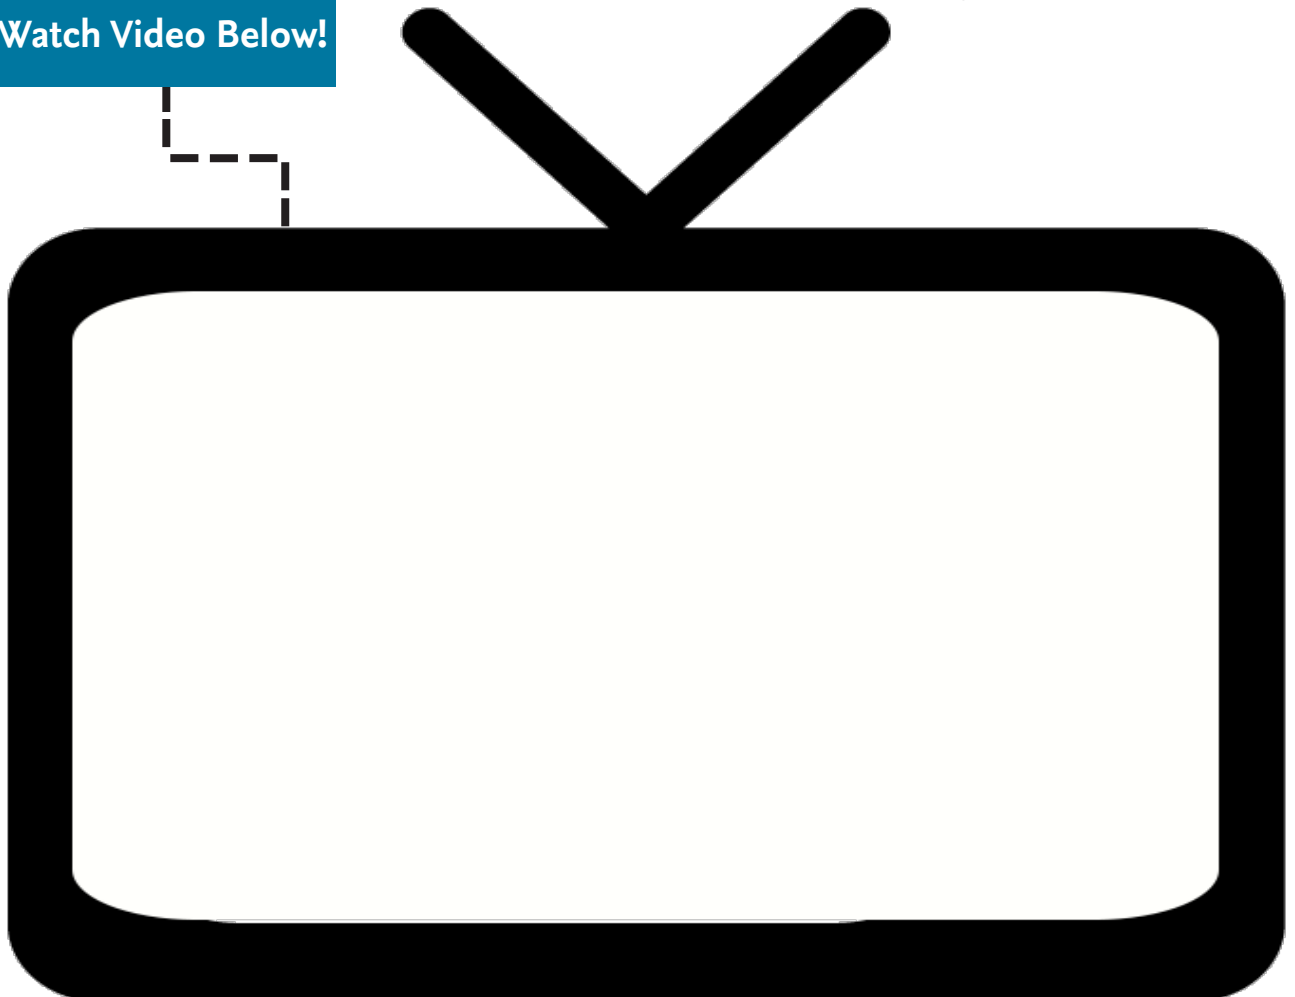

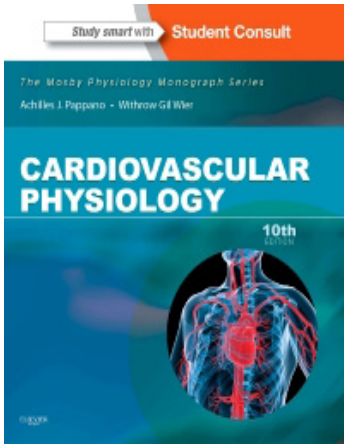

Pocket Companion to Guyton and Hall Textbook of Medical Physiology, 13e

Hall

This famous guide gives you all of the essential information you need from the world's foremost medical physiology textbook - right in your pocket!

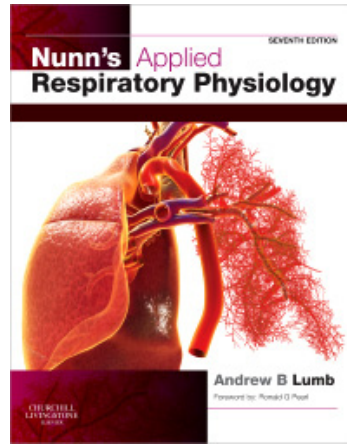

Watch Video Below!

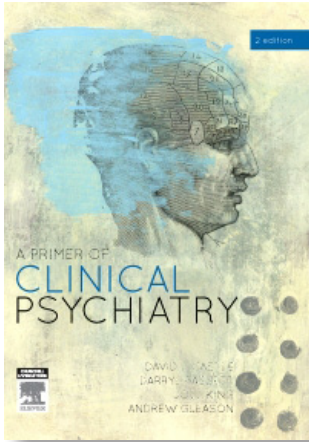

**Cardiovascular
Physiology, 10e**
Pappano & Wier

Ideal for your systems-based curriculum, this title from the *Mosby Physiology Monograph Series* explains how the latest concepts apply to real-life clinical situations.

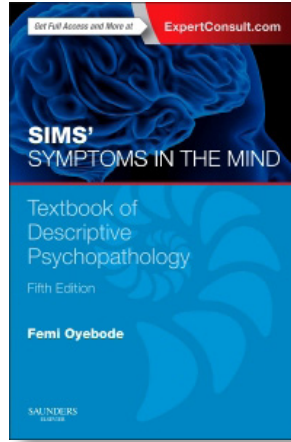

**Nunn's Applied
Respiratory Physiology, 7e**
Lumb

Nunn's Applied Respiratory Physiology, Seventh Edition covers all aspects of respiratory physiology in health, disease, and altered conditions and environments, from basic science to clinical applications.

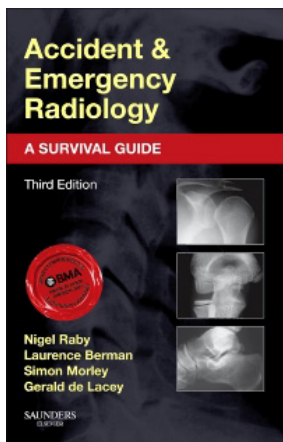

A Primer of Clinical Psychiatry, 2e
Castle, Bassett, King & Gleason

This text offers a broad overview of the major topics in psychiatry while providing the clinical skills necessary for competent clinical practice.

Sims' Symptoms in the Mind, 5e
Oyeode

This title is well established as the leading introductory textbook on clinical psychopathology, defining, clarifying and describing the main symptoms and syndromes of mental illness seen in clinical practice.

Accident and Emergency Radiology: A Survival Guide, 3e

Raby, Berman, Morley & Lacey

This popular survival guide has become the classic in-my-pocket-reference and an indispensable aid to all those who work in the Emergency Department.

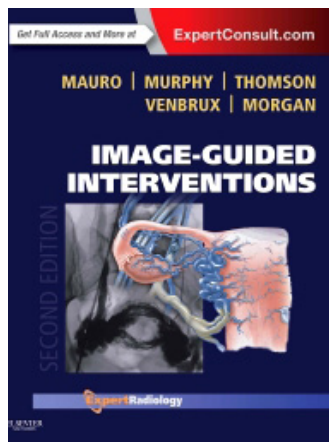

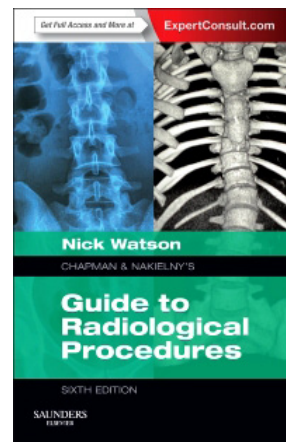

Image-Guided Interventions, 2e

Mauro, Murphy, Thomson, Venbrux & Morgan

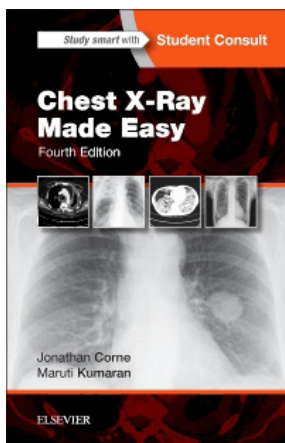

This single-volume medical reference book offers the up-to-the-minute therapeutic methods necessary to help you formulate the best treatment strategies for your patients.

Chapman & Nakielny's Guide to Radiological Procedures, 6e

Watson

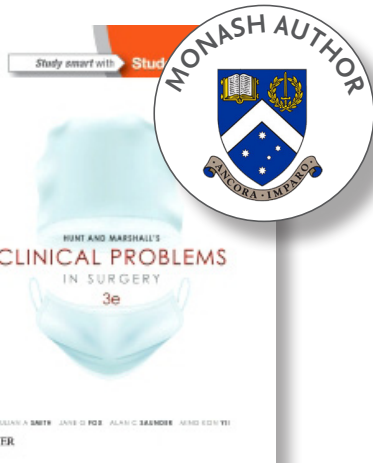

This title will prove invaluable to the wider clinical team that now delivers modern imaging services, including radiographers and radiology nurses, as well as a handy refresher for radiologists at all levels.

Chest X-Ray Made Easy, 4e

Corne & Kumaran

This popular guide to the examination and interpretation of chest radiographs is an invaluable aid for medical students, junior doctors, nurses, physiotherapists and radiographers.

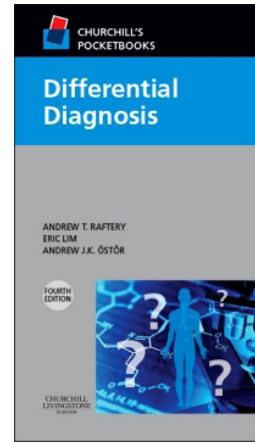

Hunt & Marshall's Clinical Problems in Surgery, 3e
 Smith, Fox, Saunderson & Yui

Clinical Problems in Surgery, 3rd Edition supports medical students in applying clinical reasoning to problems they encounter in a clinical setup.

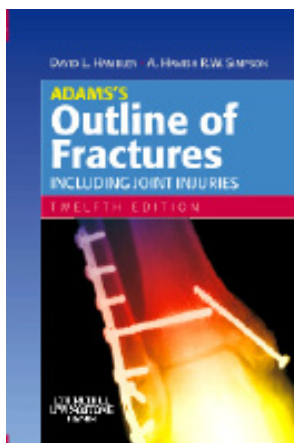

Plastic Surgery Secrets Plus, 2e
 Weinzweig

This title offers an easy-to-read, information-at-your-fingertips approach to plastic and reconstructive surgery as well as hand surgery.

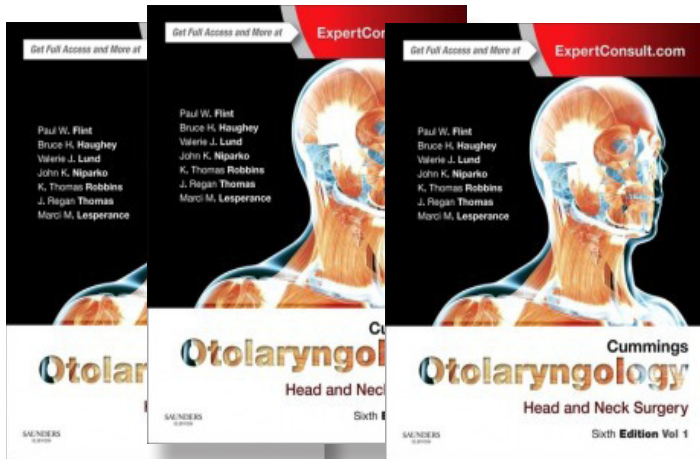

Churchill's Pocketbook of Differential Diagnosis, 4e
 Raftery, Lim & Östör,

The Fourth Edition of this best-selling book is packed full of information to help the reader move from a presenting problem to an accurate diagnosis.

Adams's Outline of Fractures, 12e
 Hamblen & Simpson

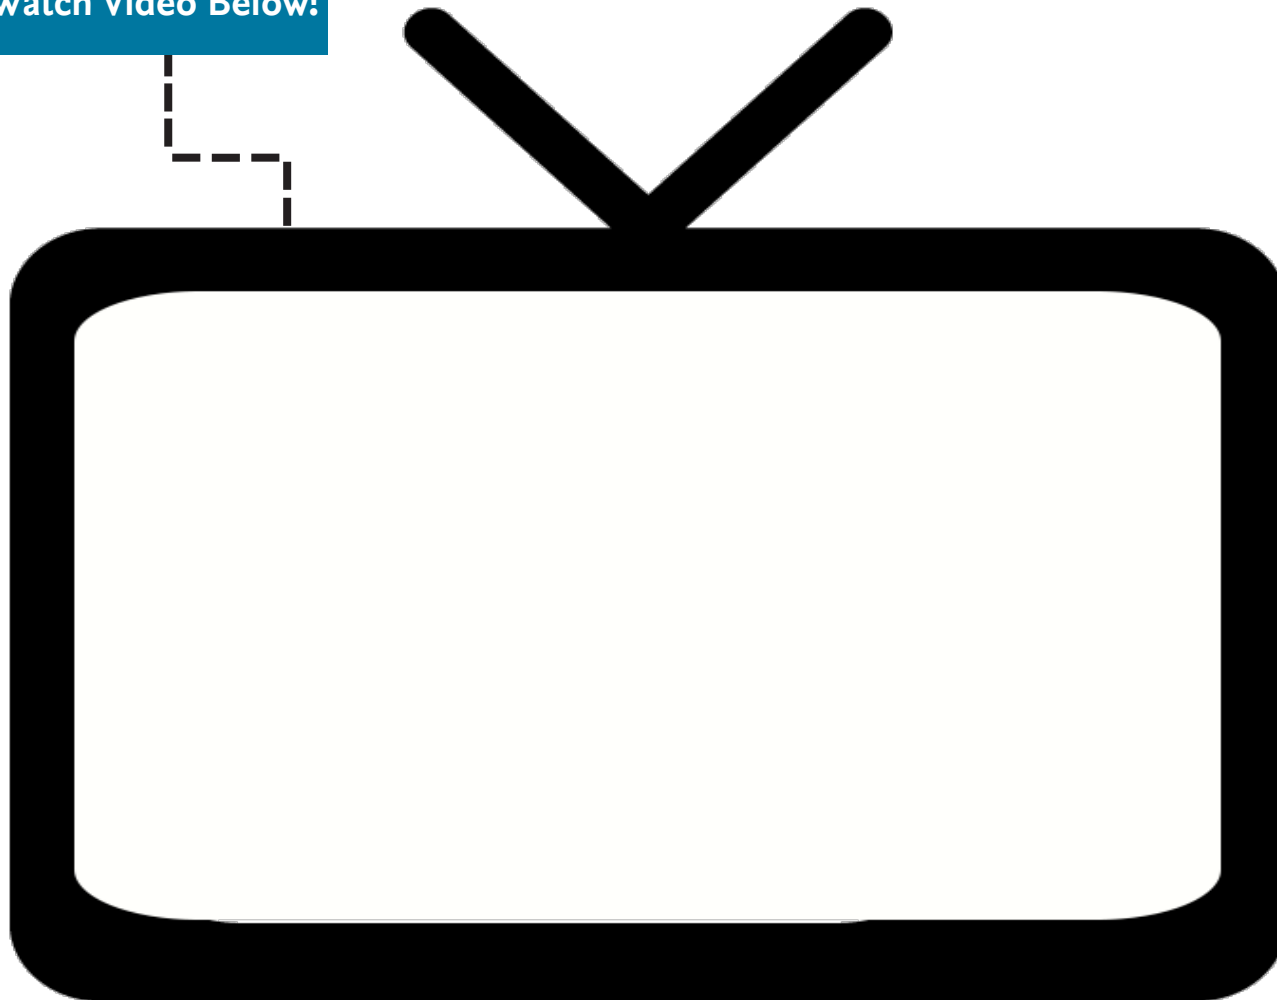

Suitable for medical undergraduates and trainee surgeons, as well as nurses and physiotherapists working in trauma services, this classic text continues to offer a sound basis for the safe and effective management of musculoskeletal injuries.

**Cummings Otolaryngology,
3 Volume Set, 6e**
*Flint, Haughey, Lund, Niparko, Robbins,
Thomas & Lesperance*

Cummings Otolaryngology remains the world's most detailed and trusted source for superb guidance on all facets of head and neck surgery.
