2017 LINCOLN
MKX

THE FEELING
STAYS WITH YOU

THE EXHILARATING POWER IS YOURS

When elegance and intensity converge, remarkable ideas take shape. Lincoln MKX exemplifies this progressive way of thinking. From the moment you slip behind the wheel, a feeling of quiet confidence washes over you. With its effortlessly engaging drive, the 2017 Lincoln MKX influences you in ways that are truly empowering. Ways designed to inspire extraordinary drives and exceptional experiences.

2.7-LITER GTDI V6 IS WELL BALANCED.

Get impressive power – 340 net PS and 542 N•m of net torque – when you opt for the twin-turbocharged direct-injected 2.7-liter GTDI V6 engine.¹ Its 2 turbochargers pump air quickly into the combustion chambers to generate a virtually instantaneous surge of power on demand.

3.7-LITER Ti-VCT V6 SETS THE STANDARD.

With a substantial 308 net PS and 379 N•m of net torque, the standard 3.7-liter Ti-VCT V6 engine offers you smooth, responsive passing and merging. It also features twin independent variable camshaft timing that precisely controls when the intake and exhaust valves open and close to help optimize fuel combustion.

¹Available feature.

ENGAGE IN YOUR ENVIRONMENT

From the acoustic-laminate glass in its windshield and front doors to the tuning of its tires, the serenity is in the details. The artisans of Lincoln even utilized the vehicle's speakers in their quest for quiet. By sending precisely chosen sound waves through the speakers, Active Noise Control¹ cancels out unwanted noise and refines engine sounds. The result is a thoroughly calming ambience.

The finest Bridge of Weir Deepsoft™ leather¹ trims the cooled, 22-way multicontour front seats with Active Motion^{®1} massage functionality that can help reduce muscle fatigue in your upper legs and lower back. Even the rear outboard seats are designed to pamper rear-seat passengers, while the power panoramic Vista Roof^{®1} ushers in fresh air for all.

In order to provide this highly refined environment, the Lincoln Luxury Validation Center meticulously inspects the materials, craftsmanship, fit and finish, and function of each Lincoln MKX that leaves our facility. This process ensures that it meets Lincoln standards in every way, before it can meet yours.

¹Available feature.
Bridge of Weir is a trademark of Bridge of Weir Leather Company Limited.

OPEN UP YOUR POSSIBILITIES

No hands required. With the Hands-Free Liftgate, your key fob can stay tucked away while you simply kick your foot beneath the rear bumper. The liftgate effortlessly opens to reveal a flat load floor and abundant space, thanks to the flexibility of a 60/40 split rear seat. After loading the cargo, close the liftgate with the press of a button, or by gently kicking your foot under the rear bumper again. Hands-free.

BE ALERT.

Some vehicles may be out of your line of sight, but they can be detected by BLIS® (Blind Spot Information System) with cross-traffic alert.^{1,2} If the system's radar sensors detect a vehicle in either blind spot while you're driving forward, the system can alert you with a light in the corresponding sideview mirror. While backing up, it can also detect a vehicle approaching from either side, then notify you with a warning light and an audible tone.

STAY CENTERED.

If you start to drift out of your lane, the Lane-Keeping System^{1,2} is there to help. Using a forward-facing camera to detect road lane markings, it can apply steering wheel torque and even alert you with a steering wheel vibration to help direct you to return to your lane.⁴ If it detects that you've crossed the lane or repeatedly drifted, it can prompt the Driver Alert System^{1,2} to chime and display a coffee cup image to remind you that it's break time.

REDUCE CONFLICT.

Sometimes you can't see it coming. A sudden turn in front of you. Unexpected brake lights. Get help from our Pre-Collision Assist with Pedestrian Detection.^{1,2} Using camera and radar technology, it can monitor the front of your vehicle's proximity to other vehicles and pedestrians. If a potential collision is detected, it can alert you with visible and audible warnings and, if needed, precharge the brakes and increase brake sensitivity to help provide full responsiveness when you brake. If the system determines a collision is imminent, active braking may automatically apply full braking.³

PLAN AHEAD.

There's no need to hold down the brake pedal for a long stoplight or extended wait. Just activate the Auto Hold feature,¹ then come to a complete stop. Even on a hill, the system will hold your vehicle in place until you press the accelerator. When highway cruising, activate Adaptive Cruise Control^{1,2} and it can automatically adjust your vehicle's speed to maintain your choice of 4 preset gaps from the vehicle in front of you.

¹Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ²Available feature. ³Pre-Collision Assist with Pedestrian Detection can detect pedestrians, but not in all conditions and does not replace safe driving. See owner's manual for system limitations. ⁴Lane-Keeping System does not control steering.

SUPPORTIVE SURROUNDINGS

Take your place at the leather-wrapped steering wheel and allow this stunning environment to envelop you. With its convenient memory feature, Lincoln MKX recalls your preferred placement of the driver's seat, sideview mirrors and more! each time you return. Enjoy the harmony of its graceful interior lines accented by genuine wood¹ or aluminum¹ trim. Enhance the atmosphere with ambient lighting¹ in your choice of 7 hues.

The creation of the dramatic and flowing open area between the instrument panel and the center console was enabled by the placement of the easy-to-use push-button shift transmission controls. This design also provides plenty of space for your travel accessories – the essentials that personalize your experience.

¹Available feature.

Music has the power to calm, soothe and invigorate. Whatever your musical preference may be, our expertly engineered Revel® and Revel Ultima® audio systems¹ can deliver it with a level of precision and musical accuracy you won't just hear. You'll feel it, too. As if you're seated in the "Audience" or right up "On Stage" when you use the personalized listening modes. Enjoy outstanding, multidimensional sound in every seat courtesy of Revel Waveguides, QuantumLogic® Surround Sound technology and advanced cabin correction tuning. The 19-speaker Revel Ultima audio system uses patented Clari-Fi™ music reconstruction technology to enhance satellite radio, streaming services, MP3s and other digital sources – for clear, crisp, wide, dynamic sound.

QuantumLogic Surround Sound
Clari-Fi music reconstruction technology

Staying connected should be second nature. That's why our SYNC® 3 enhanced voice-activated technology² concisely presents your audio, phone, navigation¹ and other features on a responsive touchscreen. Steering wheel-mounted controls and simple voice commands let you place and answer calls, plus control music from your devices. SYNC AppLink®³ allows you to control select compatible mobile apps by voice, too. Voice-Activated Touchscreen Navigation System¹ maps feature pinch-to-zoom capability. Search for points of interest to help you locate restaurants, nearest ATMs and more.

When it's time to recharge, smart-charging USB ports provide convenient power to keep your portable devices and smartphones up and running.

¹Available feature. ²Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out when the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market. ³SYNC AppLink is compatible with select smartphone platforms and requires any compatible apps to be installed and running on a capable smartphone while connected to SYNC. Commands may vary by phone and AppLink software. Message and data rates may apply. Functionality varies by market.

Clari-Fi, QuantumLogic, Revel, Ultima and the Revel logo are trademarks of HARMAN International Industries, registered in the United States and other countries.

TAKE THE TURNS ON YOUR TERMS

Lincoln MKX adapts to you... and for you. Torque Vectoring Control¹ and Electric Power-Assisted Steering (EPAS) adjust to enhance agility in different driving situations. Adaptive HID headlamps² swivel as you steer. Adaptive Steering² helps your vehicle feel taut and stable at higher speeds, yet very agile and fluid at lower speeds.

Personalize your experience by switching between 3 drive modes – Comfort, Normal or Sport – with Lincoln Drive Control² featuring Continuously Controlled Damping (CCD). You can also allow the fully automatic Intelligent all-wheel drive (AWD)² to adjust torque as needed – typically before wheelslip can even occur – so your Lincoln MKX performs at its best in various conditions.

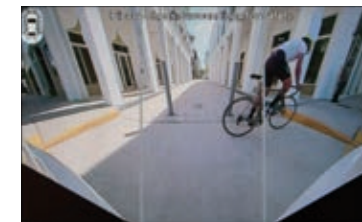

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²Available feature.

PARK WITH PRECISION.

When parallel parking or backing into a perpendicular spot, turn to the Enhanced Active Park Assist System.^{1,2} Using ultrasonic sensors, the system not only helps you locate an appropriate space, it steers Lincoln MKX into it. All you do is follow on-screen prompts and control the shifter, brake and accelerator pedals. It can steer while you pull out of a parallel spot, as well. And for additional guidance during parking maneuvers, the Forward² and Reverse Sensing Systems¹ will sound warning tones to alert you to objects near the front or rear of your vehicle.

MAKE INFORMED DECISIONS.

By merging the views from 4 cameras – 1 in the front, 1 on each sideview mirror and 1 in the back – the 360-Degree Camera^{1,2} creates an overhead view of your vehicle and its surroundings. Displayed on the 8" color screen, it includes a front washer and offers visual guides while the vehicle is in Reverse to help you gauge the distance to objects. You can also switch to a 180-degree view from either the front or the rear camera. The wide-angle view lets you see around corners and other vehicles to check for approaching cross traffic.

¹Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ²Available feature.

EACH GREETING IS LIKE
A WARM EMBRACE

When you're away, your Lincoln MKX patiently awaits your return, to welcome you, invite you in, and even illuminate your path in the darkness.

As you approach, it senses your key fob from up to 2.5 meters away and slowly raises its exterior LED lamps and signature lamps. Then, it graciously casts a luminous welcome mat with the Lincoln logo on the ground beneath each sideview mirror.

LED lights in the door handle pockets glow with an intensity that's fine-tuned to the exterior color. Inside, the cabin softly illuminates with ambient lighting.¹ Once you close the door and relax into your seat, Lincoln MKX deploys the autofold¹ sideview mirrors with memory according to your personalized settings. It's been expecting you.
