WHY DSI?

DSI has many competitive advantages which allows us to partner with our dealers on every level of the business. Our dealers are growing year over year and it's because DSI believes in a strategic partnership with our dealers. We're not just a company who "sells equipment."

SALES

- We have sales experience from people that have been on the front lines with previous dealer sales experience.
- We have creative sales/marketing programs to help our dealers win more business including lead generation programs, free TV offers and tradeshow/marketing support.

ENGINEERING

- We have free certification training, 24/7 technical support and an engineering staff that is willing to go above and beyond to help answer questions and win business.

OPERATIONS

- With our new 7,500 square foot lab in Dallas and 7 (soon to be 8) regional distribution centers across the country, we are able to support the needs of any business, large or small.
- With our DSI TechNetwork, you will have access to hundreds of technicians across the country from your computer.

EMERGING MARKETS

- DSI is on the forefront of integration with AT&T Data and Mobility. We are working to ensure your business is on the cutting edge of the latest technology and offers.
- With software support for integration with AT&T/DIRECTV systems, your dealership will always have the best and up-to-date reporting.

Give DSI a call today to discover ways that we can work with you to help your business grow!

DIRECTV
FOR BUSINESS

DSI SYSTEMS

MDU **Multi-Dwelling Unit**

Delivers residential programming
Programming delivered via one DIRECTV satellite antenna in each unit

APARTMENTS • CONDOMINIUMS • MARINAS • TOWN HOMES • CO-OPS • TRAILER PARKS

DSI has a solid reputation for service and dedication. The original distribution partner for DIRECTV and in business for 33 years. DSI sells and services its distribution equipment to many of the top companies in the communications and satellite industry. To service this extensive clientele, DSI carries a vast equipment inventory along with a technical support team with over 40 years experience. Whether it is for **MDU**, **Free To Guest** or **Business Viewing**, DSI offers the best solution for your business model.

At DSI, we can plan, construct and implement DIRECTV satellite programming at your location. We can help with:

- ✓ Design and construction of the distribution system
- ✓ Design and construction of the head-end system
- ✓ Provide all equipment needed
- ✓ Sales process
- ✓ Developing a channel line-up
- ✓ Activation of the DIRECTV programming
- ✓ Technical support

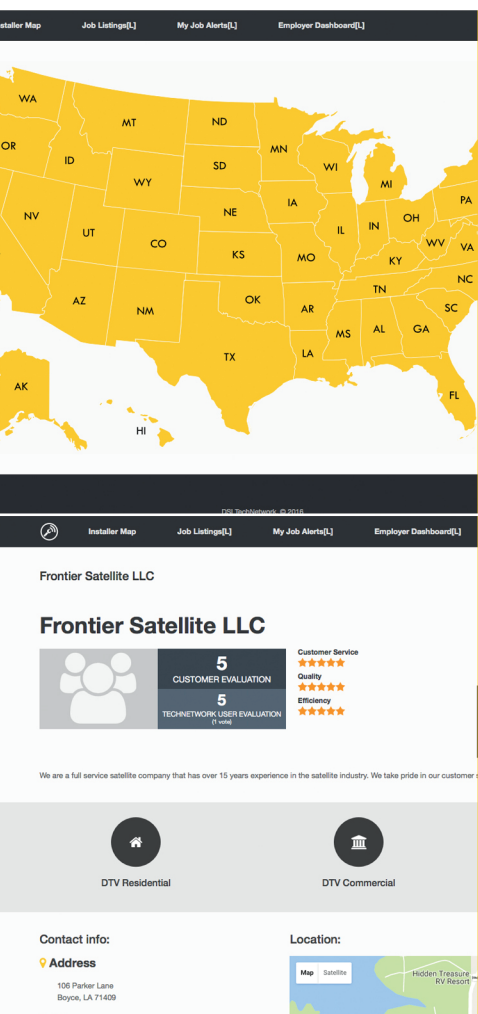

**CONTACT DSI TODAY TO SEE IF YOU QUALIFY
FOR THIS CHALLENGING AND REWARDING MDU BUSINESS**

800-728-3819

MDU

DSI TechNetwork

Sign up today to receive nationwide access to qualified technicians across the country or choose to put your technician business out there in our free market TechNetwork. As the business continues to expand into multiple channels, so too are our dealer's selling more and more nationally. As your valued distributor partner, DSI is pleased to bring you this service at **NO ADDITIONAL CHARGE**. Need a DRE certified tech? No problem. How about an installer that is D2 Advantage certified or a SBCA approved tech for any type of DIRECTV install? We have them. *Let's get started.* **NOW** is a good time to get your business set-up on the DSI TechNetwork.

DEALER BENEFITS

- ✓ Access to quality installation networks across the country
- ✓ Choose installers that fit your criteria:

DIRECTV Residential
 DIRECTV Commercial
 Exede
 L&I
 MDU

AV Home Theater
 Low Voltage
 Audio/Speaker Installation
 D2 Lite
 Custom Integrator

- ✓ Read real reviews from other dealers and their customers who have worked with the installer

INSTALLER BENEFITS

- ✓ Build your reputation as a quality installer
- ✓ Use for **FREE** to generate more business for your company
- ✓ Reviewed postings to ensure accuracy before being published

HOW TO SIGN UP

- ✓ Fill out the DSI TechNetwork application
- ✓ Once approved, DSI reviews and places you on the map
- ✓ As you begin installing, a customer will fill out reviews that will include testimonials and a rating that will appear on your profile

CONTACT YOUR TERRITORY MANAGER FOR MORE INFORMATION

DSI SYSTEMS

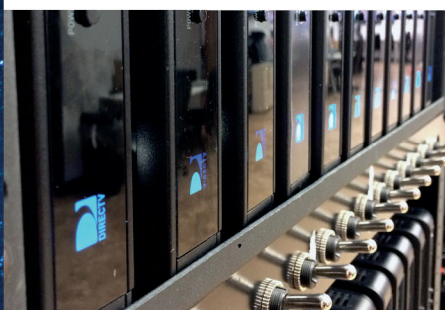

L&I

DALLAS ENGINEERING FACILITY

State-of-the-art engineering and design facility located in Dallas, TX.

Our experienced engineering team is trained and certified on all systems we sell and support. *Over 40 years of experience.*

INTEGRATION

With many vendors in our lab, we represent services and expertise, providing dealers a serviceable solution for architectures, and we maintain a lab environment to support new configurations.

PRE-BUILT SYSTEMS

Your installations will be less complicated when you purchase our pre-built systems from our experienced engineering team.

ASSEMBLY

Our pre-assembled systems provide better support for equipment, cables are properly secured and unencumbered, making our pre-assembled systems easier to maintain.

DESIGN

We provide a designed system based on the site survey provided by the dealer to us.

BURN-IN & TEST

DSI engineering verifies the equipment is functional so that on-site installations can be trouble-free.

CRATING & SHIPPING

Our engineering lab warehouse is set up to properly crate all pre-packed configurations to protect the equipment against transportation damage. DSI works with reputable freight companies to ensure that the equipment arrives with the least amount of stress.

ON-SITE FIELD SUPPORT

We have an available field support team who can work at customer sites to survey, install, cable and configure requested systems (additional fees will apply).

TRAINING

Operational, installation and troubleshooting training is available to ensure your team is prepared for all required certifications and technical installations.

TECH SUPPORT

We provide 24/7 tech support for all systems we sell.

(800) 888-8876

COM2000

- New COM360 chassis for both HD and SD channels
- Typically less than 225W power consumption fully loaded
- Integrated Gigabit Ethernet backplane with 2 Gigabit Ethernet external connections
- Can be daisy-chained for higher channel count installations
- Hot swappable receiver blades

DCI401 MCS now with DIRECTV IPG

- HDMI Output of Pro:Idiom™ protected content
- Analog RF output on channel 3 or 4 of SD or HD In-the-Clear programming
- Programmable IR commands to control TV power and volume
- RF Remote Control to allow for flexible mounting options
- Small-Form Factor (4.33" x 0.96" x 3.19")

COM2000 with MEDIATUNE

- Up to 70 unique video outputs with unlimited DIRECTV, ATSC, or external content inputs
- N x 70 Matrix Switch
- Original DIRECTV™ broadcast quality content delivered over QAM distribution
- Pro:Idiom™ protected
- Easy to install and manage, less than half the size and cost of a traditional switched matrix

NTSC-8

- Adds Analog output to COM2000
- Up to 8 channels in 1 rack unit
- Agile modulation
- No additional COM46 Receiver Card needed
- Per channel adjustable outputs (attenuation, sharpness and audio levels)

Samsung LYNK™ REACH

This convenient solution enables property managers to centrally control multiple Samsung Hospitality TVs and display customized content to provide guests with an in-room experience that makes them feel right at home.

Control Content From One Centralized Location

Samsung LYNK™ Remote Enhanced Active Control for Hospitality (REACH) is a hardware and software solution for better management and maintenance of room display content, compatible with all Samsung Hospitality TVs. On the hardware side, our REACH Server and the remote controller enables the updating and adjusting of Digital TVs (DTVs) over radio frequency (RF) signals to avoid the need for time-consuming manual updates. On the software side, it incorporates LYNK REACH, which is designed for ease of use.

CYHDS02AZA*

ZeeVee: We Move SD, HD, and 4K Video Across RF and IP Networks

If you are looking to distribute DIRECTV content to tens, hundreds or thousands of screens in a facility or on a campus, ZeeVee encoders and modulators are the number one choice among DIRECTV dealers. ZeeVee products are versatile, easy to use, and packed with features like DIRECTV receiver management, ZvShow, and ZvEAS.

Applications At ZeeVee, we believe that having the right video delivery system makes all the difference when it comes to DSI dealers winning business. From one channel of digital signage in a hotel, to a full lineup of HD programming in a senior living complex, ZeeVee encoder/modulators are delivering content to over one million TVs and displays worldwide. That is why we have created the industry's widest range of products, from the ZvPro for single and dual channel installations, to the highly flexible HDbridge3000 high density chassis system, to our wide range of video over IP products.

DSI SYSTEMS

ZEEVEE

HDbridge3000 provides a highly flexible, incredibly reliable and simple to use solution for delivering high channel count, HD and SD video simultaneously over RF and IP networks. Each chassis is capable of delivering up to 24 channels of HD or 72 channels of SD in a compact 3 RU form factor. Plus it offers the ability to future proof your installation with IP, and soon to be added 4K video distribution capability. It is the perfect choice for sports bars, hospitals and student and senior housing complexes. The HDbridge3000 is backed by an industry leading five year warranty and an incredible team of professionals, giving you the confidence to sell into almost any commercial or L&I environment.

HDbridge2000 Series encoder/modulators are designed for high channel count deployments starting from two channels of HD. Like the HDbridge3000, the 2000 series employs the industry's first DIRECTV specific wiring system allowing you to make just two connections per channel when using DIRECTV's H25 receiver. This means faster installation and fewer points of failure, resulting in a more reliable installation. The HDbridge2000 series comes in 4 and 2 channel HD models and a 12 channel SD model.

Part #	Total Channels	Cables	Video Input	Video Resolution	Audio Input	DIRECTV STB control	Fan Cooling	Rack Mounts
HDb2920i-NA	2	HD-SDI*	HD-SDI	Up to 1080 p/i	QAM RF & MPEG2 IP	Integrated On All Models Via Maestro Management	All Models	Integrated in the Frame
HDb2920-NA	2	HD-SDI*						
HDb2840-NA	4	HDMI Sold Separately	HDMI					
HDb2640-DT	4	DT Component or VGA	Component or VGA					
HDb2620-DT	2	DT Component or VGA						
HDb2540-DT	4	DT Component or VGA						
HDb2520-DT	2	DT Component or VGA		Up to 720p				
HDb2312-NA	12	3.5 mm Jack to RCA	Composite	Up to 480 p/i				

ZvPro models pack all the features of the HDbridge line into a compact space and are designed for deployments with just a few channels. With the flexibility to be rack, shelf or wall mounted, these one and two channel units are ideal for space-constrained environments. ZvPro units are available in RF out only or simultaneous RF and IP out versions.

Part #	Total Channels	Cables	Video Input	Video Resolution	Video Output	Closed Caption	Fan Cooling	Rack Mounts

EXEDE

HIGH SPEED INTERNET

AVAILABLE JUST ABOUT ANYWHERE

and Exede dealers can help provide it.

**We're the dealer's partner:
YOU WIN, WE WIN.**

We are behind you with the best service plans, co-op, commissions, marketing, support and customer care. Plus we have a great training and support program for you and your installation technicians.

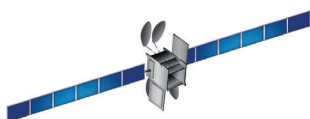

SELL EXEDE AND MAKE MONEY

EXEDE OFFERS THE BEST SATELLITE INTERNET service for the consumers you serve.

UP TO 25 MBPS SPEEDS The new Exede WiFi Modem has a built-in router and enables the fastest download speeds of any residential satellite internet service in some areas. Other areas feature download speeds up to 12 Mbps.

A GREAT SERVICE IS GETTING EVEN BETTER Our ViaSat-1 satellite earned a world record as the highest-capacity communications satellite, and in 2017 we launch ViaSat-2, with twice the capacity! Getting on board with Exede means you're with **THE INDUSTRY LEADER.**

GREAT NEW PLANS WITH EXEDE BUSINESS Whether it's a single coffee shop or a chain of gas stations, Exede Business offers high-data plans with no hard data caps and persistent IP addresses. Plus, redundancy plans protect against lost business from the failure of *any* ISP.

EASY CARE — PEACE OF MIND + PROFITS Our new, affordable protection plan means happier customers and more profits for dealers when a service call is needed.

WHY SELL VIVINT SMART HOME?

Our mission is to help our customers build a simple, affordable, home automation system, where every piece of technology works together intelligently, to protect families, increase efficiency, and simplify lives.

The Complete Package

Vivint Smart Home has built a comprehensive *Smart Home* experience.

"We found the Ultimate All in One Smart Home Service Provider."

-Coldwell Banker

"Vivint is one company that I think really gets it."

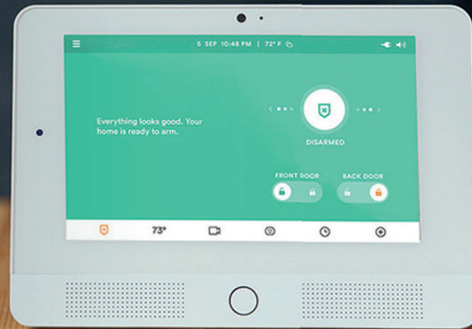

-Forbes

"Think of it like Nest's smart thermostat feature, except on steroids. It's unlike anything out right now."

- Entrepreneur

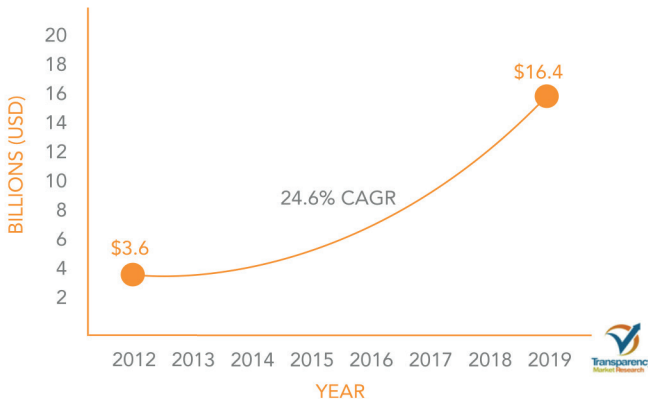

"Like good technology, the experience is magical."

-TechCrunch

Home Automation Market Poised for **HUGE** Growth

Vivint Smart Home is the largest home automation company in the U.S.

Growth powered by wireless monitored automation systems with safety and security features that address consumer preferences. North America retains position as the largest market for home automation with the revival of construction activities and remodeling.

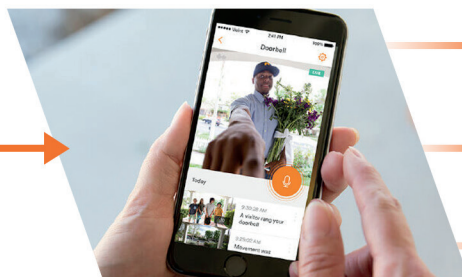

Vivint Smart Home changes all aspects of the home experience

Starting with the front door

Two-way speaker between the door and your phone

Detects visitors on motion and records clips for you to watch later

AUTOMATIC DOOR LOCK

Need to let someone in? Now you can control your locks from ANYWHERE.

OUTDOOR CAMERA

Want to know what's happening outside? Now you can, both day and night.

GARAGE DOOR CONTROLLER

Forgot to close your garage door? Now you can shut it from ANYWHERE.

ASK US HOW YOU CAN MAKE UP TO \$1,000⁰⁰ PER ACTIVATION!

The Ultimate Satellite TV Antennas

Unmatched Performance · Unlimited Viewing Capabilities
Maximum HD Programming

Works with
DIRECTV® Genie®

- **Multiple Satellite Viewing** – The **only** antenna capable of receiving maximum programming simultaneously allowing multiple TVs to provide unique programming with no compromises.
- **Strongest Performer** – Outperforms all other antennas since it's designed with the premier reflector used for home systems.
- **Great to Use with DVRs and Hoppers** – Watch and record from different satellites simultaneously.

Sleek, Low Profile Automatic Roof Mount TV Antennas

Watch **LIVE** Programming or Record with DVR
While Traveling Down the Road

- **In-motion Viewing** – The only way to watch live TV while parked or traveling down the road.
- **Quieter System with Improved Tracking** – New motors and updated tracking algorithms reduce noise and improve tracking for quicker recovery when obstructions cause signal loss.
- **Always Ready for Viewing** – No set up each time you park, just turn antenna on and watch TV.
- **Ultra Small Footprint** – Requires minimal roof space.

VHF/UHF Medium to Long Range DTV Antennas

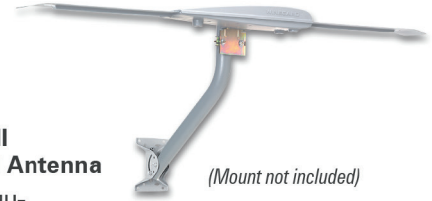

FreeVision® Indoor/Outdoor Antenna

- 174–698 MHz
- 0–30 Mile Range
- 13”h x 21.6”w x 6.2”d
- Ultra-compact high gain indoor/outdoor hi-VHF/UHF
- Includes 75 ohm matching transformer and heavy duty U-bolt mounting clamp for outdoor installation

FV30BB

Sensar® III Amplified Antenna

(Mount not included)

- 54–806 MHz
- 15–35 mile range
- Great performance in a compact design

GS2200

Platinum HD Series

The Best Built, Best Performing Long Range Antennas Available

HD769 Series Platinum HD

- Features exclusive retuning for UHF and hi-band VHF
- Platinum antenna construction reduces antenna size and wind load while increasing element strength and performance
- Employ a compact weather-proof cartridge housing to ensure the most efficient transfer of digital signal
- 75 ohm downlead connection included

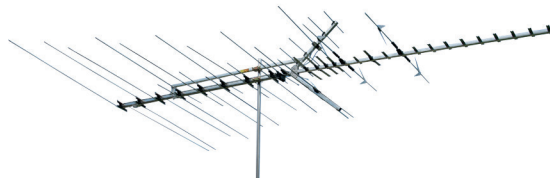

- 174–698 MHz
- 0-50 mile range
- 11 VHF elements
- 17 UHF elements
- 65” boom length, 35” max width

HD7694P

VHF/UHF/FM Platinum HD Series

Use in Place of HD769 Series when Lo-band VHF is Needed

- 54–698 MHz
- 0-65 mile range
- 34 VHF elements
- 35 UHF elements
- 168.3” boom length, 110” max width

AUDIO ACCESSORIES

TOSLINK CABLES

TOSLINK is a standardized optical fiber connection system. Also known generically as an optical audio cable, it's most common use is in consumer audio equipment (via a digital optical socket), where it carries a digital audio stream from components to an AV receiver that can decode the stream of audio and output it through a set of loudspeakers.

CO-OP SUBMISSION

To submit a Co-Op claim to the DSI Co-op department, dealers must provide all relevant dealer and advertising information required on the form. Incomplete forms will be returned to the dealer.

Co-Op claims may be submitted via mail or online process. Online process will provide an instant email confirmation of receipt and claim number.

Invoices and proof of performance are required with claim submission. Hard copy or digital versions are acceptable.

Dealer will receive an email confirmation with a valid claim number when the claim is received, and another email confirmation when the claim has been processed (approved, denied or need additional information).

Claims will be processed in the order they are received, but within 5 days of the receipt.

Approved claims are paid on the Friday following the approval date. Estimated payment date will be included in the confirmation email.

If you have any questions or concerns, send an email to **coop@dsisystemsinc.com** or contact your Territory Manager.

CE Co-op Guidelines Exede Marketing Guidelines

Co-op Claim Entry Form

Due to new requirements, only one advertisement can be entered per claim. **Thanks for your cooperation!**

CO-OP CLAIM TIME - 60 DAYS

DSI Co-Op will be paid for approved advertising within 60 days of accrual and must be claimed within 90 days of accrual. After 90 days, Co-Op funds will be considered expired and cannot be claimed.

CO-OP REIMBURSEMENT

DSI Exede Co-Op is paid up to a 90/10 Co-Op rate. DSI pays up to 90% of the valid claim value, up to the accrual amount available.

CO-OP ADVERTISING REQUIREMENTS

Advertising materials that are used directly from the ViaSat Dealer Portal will not need prior approval. However, PROOF OF PERFORMANCE is required for ALL CLAIMS. If an eligible dealer chooses to create the tactic outside of the tools provided on the Dealer Portal, PRIOR APPROVAL is required.

FREIGHT SAVER PROGRAM

Additional Services	Added Charge
Lift Gate	\$35
Lift Gate FedEx Freight	\$85
Residential Address	\$35
Residential FedEx Freight	\$50
Limited Access	\$50 (Govt., Construction Sites)
Dealer Preferred Carrier	\$50

Qualifying products ship FedEx Ground FREE on individual orders of \$500 or more. Qualifying Freight Saver products are indicated on the current DSI price sheet.

SHIPMENT GUIDE

DAMAGE & SHORTAGES

Customers are responsible for inspection at delivery. Damages or shortages must be noted on delivery receipt and acknowledged by the driver or the damaged product must be refused at delivery.

IF DAMAGE IS NOTED ON DELIVERY RECEIPT

Please contact DSI within 5 days of delivery for further instructions. DSI can arrange for pickup of damaged product and freight claim process at no cost to dealer.

IF DAMAGE IS NOT NOTED ON DELIVERY RECEIPT

DSI must be notified within 10 days of the delivery. Beyond 10 days the customer has full responsibility for any unnoted damage. Customer is responsible for freight cost for returns to DSI. Product must be returned within 15 days of DSI invoice.

RETURN GUIDE

NEW UNOPENED RETURNS & REFUSED SHIPMENTS

New unopened returns and refused shipments will be assessed a 15% restocking fee. **Opened goods will not be accepted for return.**

QUALIFIED RETURNS

All products returned to DSI must have a Return Merchandise Authorization (RMA) to be eligible for replacement or credit. Please contact DSI Customer Service department to obtain an RMA.

Items that are received at DSI that have not been issued an RMA or that do not qualify for a return will be held awaiting instructions from the customer for disposition and then disposed of after 90 days.

DIRECTV

Products are leased to the consumer and adherence to returns policy is critical to dealer commissions and consumer's account status.

RECEIVERS

DIRECTV receivers within **90 days from the consumer's initial activation date** qualify for return. Dealer should leave consumer's original access card with consumer's new unit and have DIRECTV link card to new unit. Genie clients do not include an access card. Defective units returned to DSI should have a clean (never activated) card to qualify for credit. Missing components not returned will be subject to charge. After 90 days, consumer contacts DIRECTV at **1-800-347-3288**.

DIRECTV DISHES, LNB'S AND ACCESSORIES

DIRECTV LNB's and reflectors qualify within 90 days of purchase. All other accessories qualify within **30 days from purchase**.
