MarbleX® | For those seeking greater durability and avoidance of rusting and corrosion, we offer alternatives. MarbleX® is our trade name for a non-metallic compound that includes ground marble particles. The finish on our MarbleX® products is premium grade and resists peeling, chipping and harmful UV rays. Being an injection molded material, MarbleX® is strong and lends itself to the production of fine design details. MarbleX® is the most durable material available for making outdoor lighting fixtures.

SOLID COPPER/SOLID BRASS | Our premiere line of solid copper and solid brass fixtures are perfect for the customer looking to make a statement with their lighting choices.

CAST ALUMINUM | A metallic material of reasonable durability. It is appropriate for use in most parts of North America.

DURABRITE | A non-metallic long-lasting material offered in various styles. It is an economical choice, ideal for areas where saltwater and intense sun are concerns.

WE RECOMMEND THAT OUR OUTDOOR LIGHTING FIXTURES BE MAINTAINED BY PERIODICALLY CLEANING AND APPLYING A COAT OF SPRAY SILICONE OR WAX. ANOTHER PRODUCT THAT WORKS WELL IS "FORMULA 6-56" AVAILABLE AT MARINE DEALERS.

All finishes may naturally deteriorate over time due to exposure to ultraviolet rays, humidity, salt air, and environmental pollutants.

ADA COMPLIANT fixtures are available.

We offer fixtures that can finish spaces inside and outside of your home.

Lamps 24W LED 3000K 1218lm
Integrated LED

Forget about climbing dangerous ladders to replace bulbs. These state of the art Cree® LED's have an extremely long 50,000 hours average life. They consume only about 13% as much power as comparable halogen floodlights. Ideal for lighting parking pads, walkways, and for safety and security purposes.

- Two models – with or without motion sensor
- 110 volts input – No remote power supply required
- 50,000 hours life
- Medium white 3,000K color temperature
- High quality Cree® LED's
- Tempered glass lens
- Durable polyester powder-coat finish
- 1218 lumens
- Includes photocell
- Three year warranty

A – CAST ALUMINUM ADJUSTABLE FLOODLIGHT

FL55ABZ, FL55WH

Lamps 2-100 Watt GY 6.35 JCD

- Lights automatically turn on when motion is detected
- Two 100 watt quartz halogen bulbs included
- Adjustable time and sensitivity settings
- Cast aluminum light fixture
- 180 degree detection range
- Stylish compact designs
- Available in White (WH) and Architectural Bronze (ABZ)

B

B – CAST ALUMINUM ADJUSTABLE FLOODLIGHT

MFL1ABZ, MFL1WH

Lamps 2-150 Watt PAR 38

- Lights automatically turn on when motion is detected
- 150 watt medium sockets (bulbs not included)
- Adjustable time and sensitivity settings
- Cast aluminum light fixture
- 180 degree detection range
- Available in White (WH) and Architectural Bronze (ABZ)

C – POLYCARBONATE ADJUSTABLE FLOODLIGHT

MFL2ABZ, MFL2WH

Lamps 2-150 Watt PAR 38

- Lights automatically turn on when motion is detected
- 150 watt medium sockets (bulbs not included)
- Adjustable time and sensitivity settings
- 180 degree detection range
- Durable polycarbonate material
- Available in White (WH) and Architectural Bronze (ABZ)

LED FLOODLIGHTS

CAST ALUMINUM ADJUSTABLE LED FLOODLIGHTS

LFL2ABZ, LFL2ABZM (motion sensor), **LFL2WH, LFL2WHM** (motion sensor)

Lamps 24W LED 3000K 1218lm
Integrated LED

Forget about climbing dangerous ladders to replace bulbs. These state of the art Cree® LED's have an extremely long 50,000 hours average life. They consume only about 13% as much power as comparable halogen floodlights. Ideal for lighting parking pads, walkways, and for safety and security purposes.

- Two models – with or without motion sensor
- 110 volts input – No remote power supply required
- 50,000 hours life
- Medium white 3,000K color temperature
- High quality Cree® LED's
- Tempered glass lens
- Durable polyester powder-coat finish
- 1218 lumens
- Includes photocell
- Three year warranty

LED Floodlights are available in the following:
