

Pneumatic benchtop dispenser for glues & pastes

Adhesives Glues Pastes Silicones Solvents Paints Grease Epoxies Primers

The TS350 is an advanced digital timed air powered dispenser. It's small footprint makes this the ideal bench top solution for all your gluing, solder paste application and most other fluids. A digital timer with teach mode, (10) memory saving, and shot counter.

By setting the timer, repeat deposits can be made from small dots to big shots. Press the steady mode and it will make continuous beads.

Features vacuum suck-back to stop drips of watery liquids. Supplied complete with a syringe barrel assortment, needle tip kit assortment, adapter assembly, foot switch, power cord and user guide. It is CE certified with a 110 to 220V universal power adapter.

Covered by a One year warranty. 0-100 PSI or 0-15 PSI versions for very watery fluids. Simple to use and operate - we offer full technical support for setting up and getting the best results.

The TS350 sits on the bench and uses an air input from any compressor or factory mains supply. Supplied with airline hose and fittings kit to make connection easy. Ready to use out of the box.

Technical

TS350 - 0-100PSI Version

TS355 - 0-15PSI Version

Timer: 0.008 - 60 seconds

Output Pressure: Up to 100 psi

Input Pressure: 70-100 psi

Cabinet Size: 152 x 165 x 178 mm

Weight: 1.2 kg (2.6lb)

Input Voltage: 110V AC - 220V AC

Cycle Rate: Up to 600 cycles/minute

Timing Repeatability: $\pm 0.001\%$

Meets or Exceeds: CE Approved

Warranty: 1 Year
