

Quick Start

This chapter describes how to quickly create a publication from a PDF file and upload it to FlippingBook Cloud.

Let's assume that you have already installed and run your copy of Publisher 2.

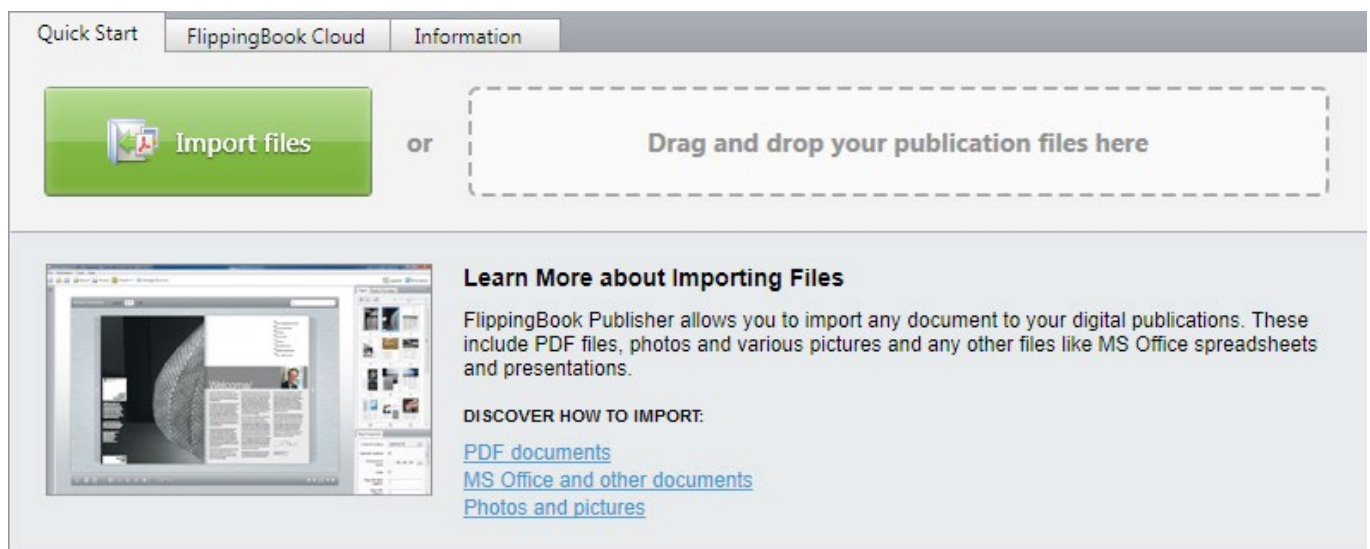

IMPORTING PDF FILES

FlippingBook Publisher offers users the greatest and most powerful options for the importing of PDF files in the whole world market of e-publishing. Users can import documents of any type including magazines, books, catalogues, brochures, presentations. FlippingBook Publisher provides users with the best means of conversion so that all materials easily become great digital publications.

Choosing the source file

The easiest way to import PDF files is to use the "Import Files" button on the FlippingBook Publisher start page or drag and drop a file from a folder directly to the marked field.

For user convenience, there are alternative ways of importing MS Office and other non-PDF documents.

The screenshot shows the top navigation bar with tabs for 'Quick Start', 'FlippingBook Cloud', and 'Information'. Below the navigation bar, there is a green button labeled 'Import files' with a document icon and a red arrow. To the right of the button is the word 'or' and a dashed rectangular box containing the text 'Drag and drop your publication files here'. Below this, there is a preview window showing a digital publication. To the right of the preview window, the text reads 'Learn More about Importing Files' followed by a paragraph: 'FlippingBook Publisher allows you to import any document to your digital publications. These include PDF files, photos and various pictures and any other files like MS Office spreadsheets and presentations.' Below this paragraph, it says 'DISCOVER HOW TO IMPORT:' followed by three blue hyperlinks: 'PDF documents', 'MS Office and other documents', and 'Photos and pictures'.
