

UNDER ARMOUR®

Under Armour® is a brand that lives at the very edge of performance. Fueled by innovation. Transcending the status quo. This relentless collaboration - between our athletes, designers and engineers - makes all athletes better. Indeed, the products contained in these pages don't simply measure up. They deliver you to the limit of human potential . . . and beyond.

ATHLETE INSPIRED.

ATHLETE TESTED.

MANIACALLY ENGINEERED.

Don't be afraid to ask the question, "How far can I go?"

UA INNOVATION LABS

PERFORMANCE

Every Under Armour® product is doing something for you: it's making you better. Following are the core pieces of DNA that deliver on this promise. The building blocks of performance.

We've developed a tiered system of water and wind protection to equip athletes facing any and every wet weather situation imaginable. From drizzle to steady rain to hurricane, we will keep you dry so you can perform better.

SIZE & FIT

Under Armour® Performance has already compensated in the design of its apparel to be consistent with normal (XS-XXXL) sizing. Please order the size you would wear in a non-performance T-shirt or pant.

CONTOURED TO THE BODY

Designed to be very close to the body without the constriction of compression.

GENEROUS CUT, OVERSIZED FIT

Generous cut product, providing full range of motion, and a full, loose fit.

STAY WARMER LONGER.

A soft thermo-conductive coating on the inner layer of your gear absorbs and retains your own body heat, so you stay warmer longer ... with no extra weight or bulk.

HyperDRY™

Fill Power

HyperDRY™ is the most effective water resistant down on the market. The nanotechnology treatments and procedures provide an invisible coating that does not compromise the texture or color of the fill.

RECCO® technology makes you searchable to professional rescuers in the event of an avalanche accident. It is not a substitute for a transceiver, but does increase the chance of being found in time.
