"Less-is-More!" In the smaller bath environment, style and function rarely go hand-in-hand. They do with the Parsons Collection from Sagehill Designs. Scaled and proportioned to fit into today's interiors, the Parsons Collection of vanity and mirrors allows for a wide variety of functional configurations.

The Parsons vanity features a decorative front fascia and can accommodate either standard basin or vessel sink options. This is accomplished by a unique dual-height leg feature. Storage is accomplished by the open slatted shelf below the vanity and additional storage can be had with the mirrored medicine cabinet or standard storage mirror with accessory shelf.

Constructed of select hardwood solids and veneers and fitted with adjustable levelers for ease of installation will allow these units to fit seamlessly into today's bath environments. The Parsons Vanity Collection from Sagehill Designs is styled to fit your bath environment and your modern lifestyle.
