LED Closet Storage Light

LED Closet Storage Light

The highly efficient Closet Light Fixture system is designed for use in residential / commercial closets and closet storage applications. At only 5 watts per foot, significant energy savings can be realized. These fixtures can be connected up to 20 feet in one run with end to end connectors. They can be angled for optimal area illumination. LEDs available in four color temperatures.

Standard Features

- Next generation solid state technology
- Instant on, no warm up time required
- 120° Beam Spread
- Lasts 5 times longer than fluorescent
- Environmentally friendly
- No IR, No UV
- Minimum Lumen Maintenance: L70 (70% @ 50,000 hours)
- 5 watts per foot
- Maximum 20' Run (with Class II power supply)
- Versatile mounting clips allow the light to be angled for optimal area illumination
- Motion Sensor with automatic on /off switching available in 30W and 75W

Nominal Length (inch)	Lens Type	Input Voltage (DC Volts)	Input Current (Amp)	Luminous Intensity (Lumens)				Power Cons. (Watts)
				COOL	WARM WHITE
