derma|e<sup>®</sup>  
natural skincare  
solutions that work

We got our start as street vendors in Harlem. Fresh out of college and without jobs, we set out to bring the healing traditions of African Black Soap and Shea Butter to the community we loved.

Nubian Heritage offers culturally authentic interpretations of ancient global healing remedies. Although our products are no longer made in bathtubs, little else has changed; we still make our own products, use fair trade organic ingredients and invest in community commerce.

For over two decades, we gathered traditional healing practices from around the world and remixed them into 21st century wellness solutions.

**This is our evolving wellness wisdom.**

We are dedicated to alleviating poverty in the communities that make up our supply chain. We invest in women's Shea Butter cooperatives in Africa, helping them become self-sustaining businesses through training and infrastructure development. **This is how we transform communities through commerce.**

We provide our customers with affordable premium products made of natural and organic ingredients without harsh or harmful chemicals and additives.

**This is how we advance individual wellness.**

Stop by our booth #3900 at Expo East to learn more about our journey and sample our products.

*Nubian Heritage

# ASU300 - Avocado Soy Unsaponifiables

## "Bone & Joint Support"

- Lubricates joints
- Eases pain
- Increases collagen synthesis
- Arthritis relief
- Repairs mechanisms in articular cartilage

Written up in  
*Prevention*  
Magazine

ASU- Avocado Soy Unsaponifiables has been written up in the book "The Arthritis Cure".

First introduced in January of 2006, ASU300 (Avocado soybean unsaponifiables) is extracted from a mixture of avocado and soybean in a 1:2 ratio. This mixture, rich in phytosterols (fats found in all plants, including fruits and vegetables), help reduce pain and inflammation, and can help promote other health benefits like lowering cholesterol by blocking cholesterol absorption in the small intestine, causing dietary cholesterol to pass out of the body.

Its new formulation includes SierraSil, a naturally occurring complex of minerals that supports joint mobility, cartilage integrity and flexibility, and reduces inflammation promoting substances.

# Zukes

We all know how the old saying goes, “A dog is a man’s best friend”. And we all want to consistently offer the best for our loyal, dedicated, and loving furry little friends, don’t we? Well, that’s exactly the mindset that Patrick Meireng, founder of natural pet treat brand Zukes, had when he set out on a mission to create a natural, healthy, and tasty treat for his own trusty companion, Zuke.

Zuke’s story is simple, but all great ideas start with a simple thought and evolve into something completely unique and captivating. Zuke’s story began on a hike that Patrick set out on with his chocolate lab, Zuke. While the two were taking a rest from their grueling workout, Patrick realized that while he had a healthy energy bar for himself, he did not have a treat to offer his little guy. So he broke off a piece of his bar and offered it to Zuke, who immediately showed signs of increased energy levels and physical endurance. It was right there and then that Patrick was overcome with inspiration to create a line of healthy pet treats that would make pets feel good, and that would taste good to them as well!

While we all strive to achieve optimal nutrition, and lead active lifestyles ourselves, we are aware that our bodies need the proper nutrition to keep us going on a daily basis. But our pets are just as physically active, if not more, than we are! They too need a nutritious, healthy snack that will provide them with key nutrients, vitamins, and minerals that their bodies need to lead long, happy, and active lifestyles. Zukes promises that “every Zuke’s treat is made with only the healthiest, most nutritious, natural ingredients”.

The brand carries a variety of delicious, high-quality flavors, from beef to duck to rabbit to salmon. Not only does Zukes strive to offer our animals flavor options, these treats were designed to be functional as well. Zukes has created treats that could also aid in your pet’s weight loss, bone joint recovery, or that could lead to improvement in their overall health.

What’s also great about Zukes is that the brand doesn’t discriminate, and it gladly created a line of products for all those cat lovers out there! So next time

you’re looking to offer your pet a healthy, all natural, flavorful treat, do them and yourselves a favor by offering them the best that money can buy....and there’s no doubt that the best is Zukes!

# RAISE YOUR BAR

## WITH SUPERFOOD RICH SANTA BARBARA BAR

It's time to raise the bar on snack, energy, and nutrition bars. Santa Barbara Bar is a certified gluten-free nutrition bar packed with flavorful, nutrient-rich superfoods such as chia, pumpkin, sunflower and sesame seeds, almonds, cranberries, coconut, and dark chocolate. This is what makes Santa Barbara Bar nutrient dense and gives consumers an energy boost and the feeling of a full, nutritious meal. The Coconut Almond Almond and Peanut Chocolate Cherry Santa Barbara Bars are soy free, and the Cranberry White Chocolate bars have no soy protein added. And with no refined sugar or sugar alcohols added, Santa Barbara Bar provides a naturally sweet low-glycemic choice without the sugar crash associated with highly-sweetened snacks.

Even without added sugar, Santa Barbara Bar tastes more like an indulgent delicacy than nutrition bar. The reason why is because it was originally developed to be a healthy dessert. Founder Peter Gaum, owner of the Santa Barbara Essential Foods and Debbie's Delights Bakery, was attempting to create a nutrition-rich dessert for Santa Barbara's Cottage Hospital when by a deliciously divine accident he created the first Santa Barbara Bar instead. Since he opened his

bakery in 1991, Gaum has focused exclusively on using natural, nutritious ingredients, but taste has always been king. So, one by one, each ingredient was selected for both flavor as well as functional health properties until he developed a bar that excelled in both areas.

The result is a bar that tastes so good it easily becomes a daily addition to any lifestyle. The ingredients in Santa Barbara Bar also provide key nutrients such as omega 3 essential fats, 8g protein and 4g fiber – all which help one feel full and have sustained energy. With only 8 to 9 grams of sugar, Santa Barbara Bar can be enjoyed as a meal replacement, pre- or post-workout boost, or anytime snack – without the guilt!

Unlike bars that are made to cater to one population such as women, dieters, rock-climbers or weightlifters – Santa Barbara Bar was created for anyone looking to live a healthy, vibrant life. *"This bar captures the essence of the 'good life' that Santa Barbara represents to people across America – sunshine, active lifestyles and healthy, great food,"* says Gaum. *"Now you can take a little of Santa Barbara with you everywhere you go."*

## NPA NATURAL CERTIFICATION PROGRAM

The first and only natural certification in the US

### Are your customers asking for certified products?

Just because a product claims to use natural or naturally-derived ingredients does NOT mean the product is truly natural.

Many manufactures cut costs by using lesser quality ingredients in their products.

Now, when a product is certified natural, you can be sure that it is.
