Arts and crafts materials and other school supplies

Arts & Crafts 2015-2016 Catalogue

Create, discover, grow.

A child's imagination is boundless and should be stimulated. Our extensive range of Arts & Crafts materials allows children of all ages and ability to be creative, use their imagination, and explore their artistic potential. The high quality materials allow them to freely develop their skills, therefore safety and sustainability are important elements. All the products offered have been specially selected by Heutink International are of the highest quality, and will surely inspire creativity in children all over the world.

Discover

To create is a voyage of discovery. Children are constantly studying each other, their environment and the world around them. They are analytical and want to express their experiences playfully and independently. Creativity helps children develop their motor skills, social and emotional intelligence, spatial orientation, concentration, communication and problem solving skills.

Activity and development

Our products revolve around action and activating children. An activity, the result of 'getting your hands dirty', is key to our products. Children enjoy expressing themselves and we offer a range of tools which allow them to do so. Growing through learning, growing through creating and growing through exploration.

“Every child is an artist.
The problem is how to remain
an artist once he grows up.”

Finger paint

The total finger-painting concept! Until now, finger paint was always sold in buckets, which resulted in children ending up with their little hands in the buckets. This creates the problem of colours becoming mixed and, also, the amount of bacteria in the finger-paint increases, which is not good for hygiene. That is why Heutink has developed a complete set of finger paints with each colour provided by the litre in a handy squeeze bottle. There are 8 magnificent colours, the paint is non-toxic and in the right spreadable consistency.

Krimpie Dinkie foil

Method: draw a motive on the foil with textile marker or permanent marker. Moreover, making a photocopy on Krimpie Dinkie is possible! Next, cut the drawing and put it on aluminium foil in an oven. Also a cooking oven is suited for this. Heat it till ca. 150°C during one minute. Due to the heating the foil will shrink till $\approx 1/3$ of the original size and will get 9 times as thick. When the foil has shrunken, put a flat object on top and leave it for 20 seconds, so the foil cannot curl.

Size: 20 x 25 cm (w x l).

Makedo

Unlimited designing of own creations with cardboard, plastic, textile and Makedo! Simple parts: a connector, a hinge and a plastic tool. Besides this, you need all kinds of packaging materials (free materials like boxes, bottles of cardboard or plastic). The connector enables the connection of 2 pieces of cardboard. The hinge can be placed with the use of the connector and allows for an angle between 2 parts or moving parts. Using the tool you can prick holes or cut easy and safe through the cardboard. So let's do it! Once you are finished with your creation, you unplug everything and you can use Makedo again for a next project.

Fingergrip for pencils and ballpoints

The shape of the holder (STETRO) makes it virtually impossible to hold the pencil or ballpoint wrong. Prevents writer's cramp. Suited for both right and left handed people.

060.020 Fingergrip assorted colours, 25 pieces

Fingergrip triangular

This fingergrip is ideal for children with a wrong 'writing posture' or for the ones that have difficulties with properly holding writing tools, because of a motorial backlog. The material is not toxic and does not harm colourants. Suited for both right and left handed people. Fingergrip small is suited for pencils and narrow markers, fingergrip large is suited for fountain pens and fineliners.
