

ALLEN LUND COMPANY

Transportation Brokers

www.allenlund.com

3rd Party Logistics
Every day, Every way

The Allen Lund Company

- ✓ Opened our doors in 1976 with one office in Los Angeles, CA
- ✓ Family owned business
- ✓ 500 million dollar company
- ✓ Nationwide offices
- ✓ Over 470 employees
- ✓ Arrange over 365,000 freight shipments annually

The company consistently earns a Four-X rating with the Blue Book and a Four-Star rating with the Red Book. These are the highest ratings that a company can receive for business ethics, financial strength and credit practices.

A further indication of our commitment to excellence is our adherence to a strict code of conduct established by TIA (Transportation Intermediaries Association).

FMSCA/DOT – CSA2010. Given the carrier/driver safety rating changes required by MSCA/DOT, the Allen Lund Company will conduct monthly investigations within the FMSCA site to confirm carrier/driver ratings, and take necessary steps to remove carriers not rated at a level in keeping with ALC standards. Additionally, our Carrier Resources compliance processes include the following:

Current ALC Carriers

- Current & sufficient Cargo and Auto Liability
- Active Motor Carrier Authority
- Carriers are reviewed via Carrier 411 and complaints or any reports are recorded in our system for broker reference

New Carriers

- Current & sufficient Cargo and Auto Liability
- Signed ALC carrier agreement
- Active Motor Carrier Authority
- Carriers are also reviewed via Carrier 411 and TIA websites, for complaints

We track carriers, for reporting purposes specific to the following:

- SmartWay Partners
- Minority Status
- TWIC compliance (Transportation Worker Identification Credentials)

Transportation Management System

- Software that is designed to fit the specific business needs of each company
- Built on the Oracle's state-of-the-art, enterprise class Application Express systems
- Customer-specific branding
- Backed by over 40 years of business & industry expertise
- ALC Logistics provides a direct point of contact & support from engineers with transportation industry knowledge and experience
- TMS integrates with a variety of business and financial systems, 3rd party monitoring systems, online databases and near-future interfaces to provide a collaboration and communication tool for the entire organization
- TMS assists with meeting industry regulatory requirements and the complex demands of transportation planning and execution
