TROUBLESHOOTING

What to do when you see 'License server operation failed'?
What to do when you see 'Authorization failed'?
How to install FlippingBook Publisher on another computer?
What to do when you see 'Premium subscription required'?
What does 'Subscription to FlippingBook Services expired' mean?
What to do when a publication is stuck on the preloader screen?

Introduction

FlippingBook Publisher is a Windows application, designed to create online publications with a realistic page-flipping effect from traditional documents. With the help of Publisher 2, you will be able to create online publications for websites, offline publications for CD, DVD and Flash-drives, as well as online publications for mobile devices (iPad, iPhone, and Android devices).

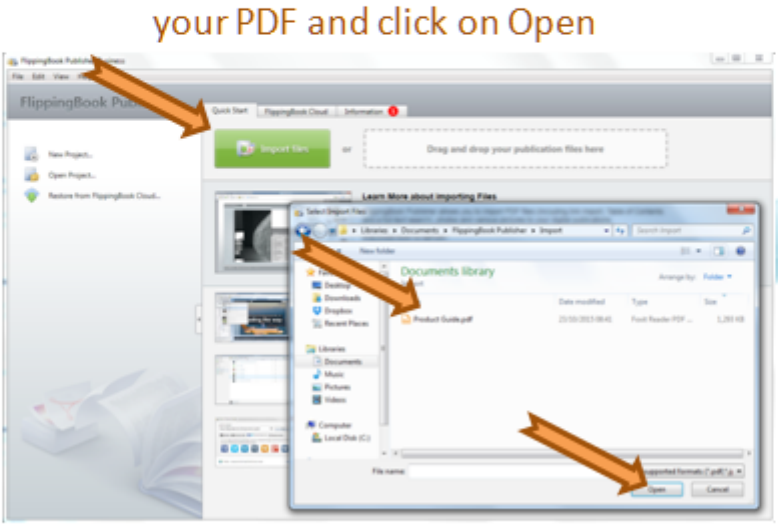
This user guide describes the most important features of FlippingBook Publisher. We have taken great care to describe the possibilities briefly and clearly. The starting point is the questions that you have asked our helpdesk. But we also tried to incorporate some lesser known features. We hope that you learn something from it!

This guide is separated in 6 different chapters. We have tried to add visual aids at the start of each chapter (if applicable) to help you quickly find the feature that you are looking for.

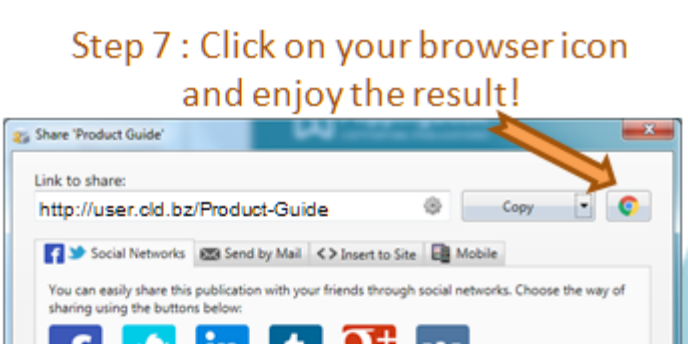
HOW TO CREATE YOUR FIRST PUBLICATION

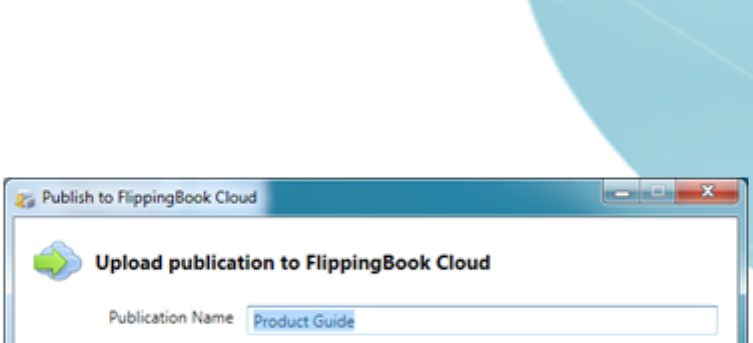
Quick start: Creating

Step 1: Click on Import Files, select your PDF and click on Open



Step 7 : Click on your browser icon and enjoy the result!





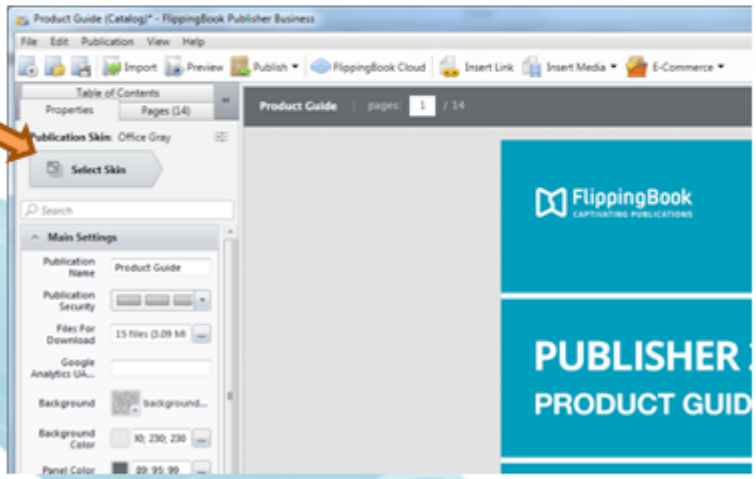
Step 6 : Click Start

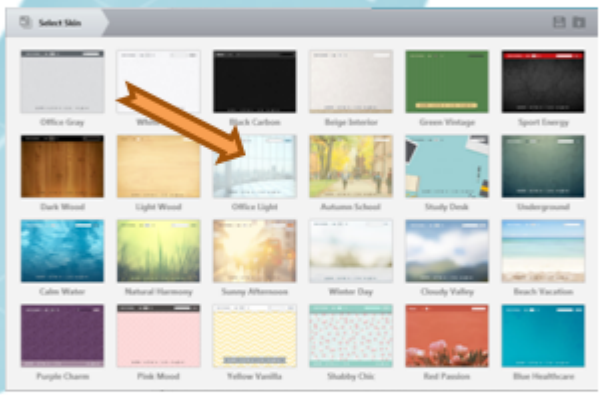
Step 5: Clic

g your first publication

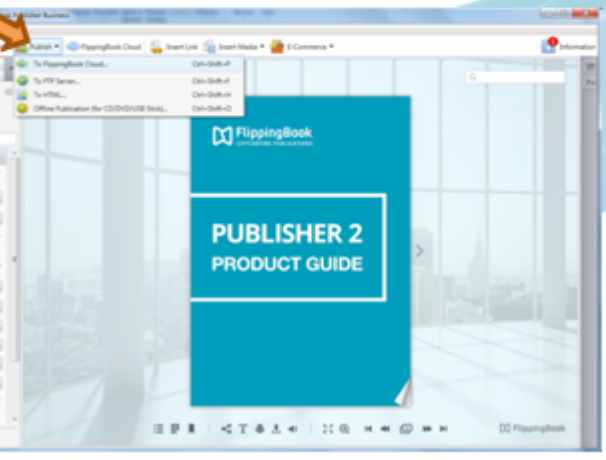
2: Click Start

Step 3: Click on Select Skin





Step 4: Choose a skin that matches your publication



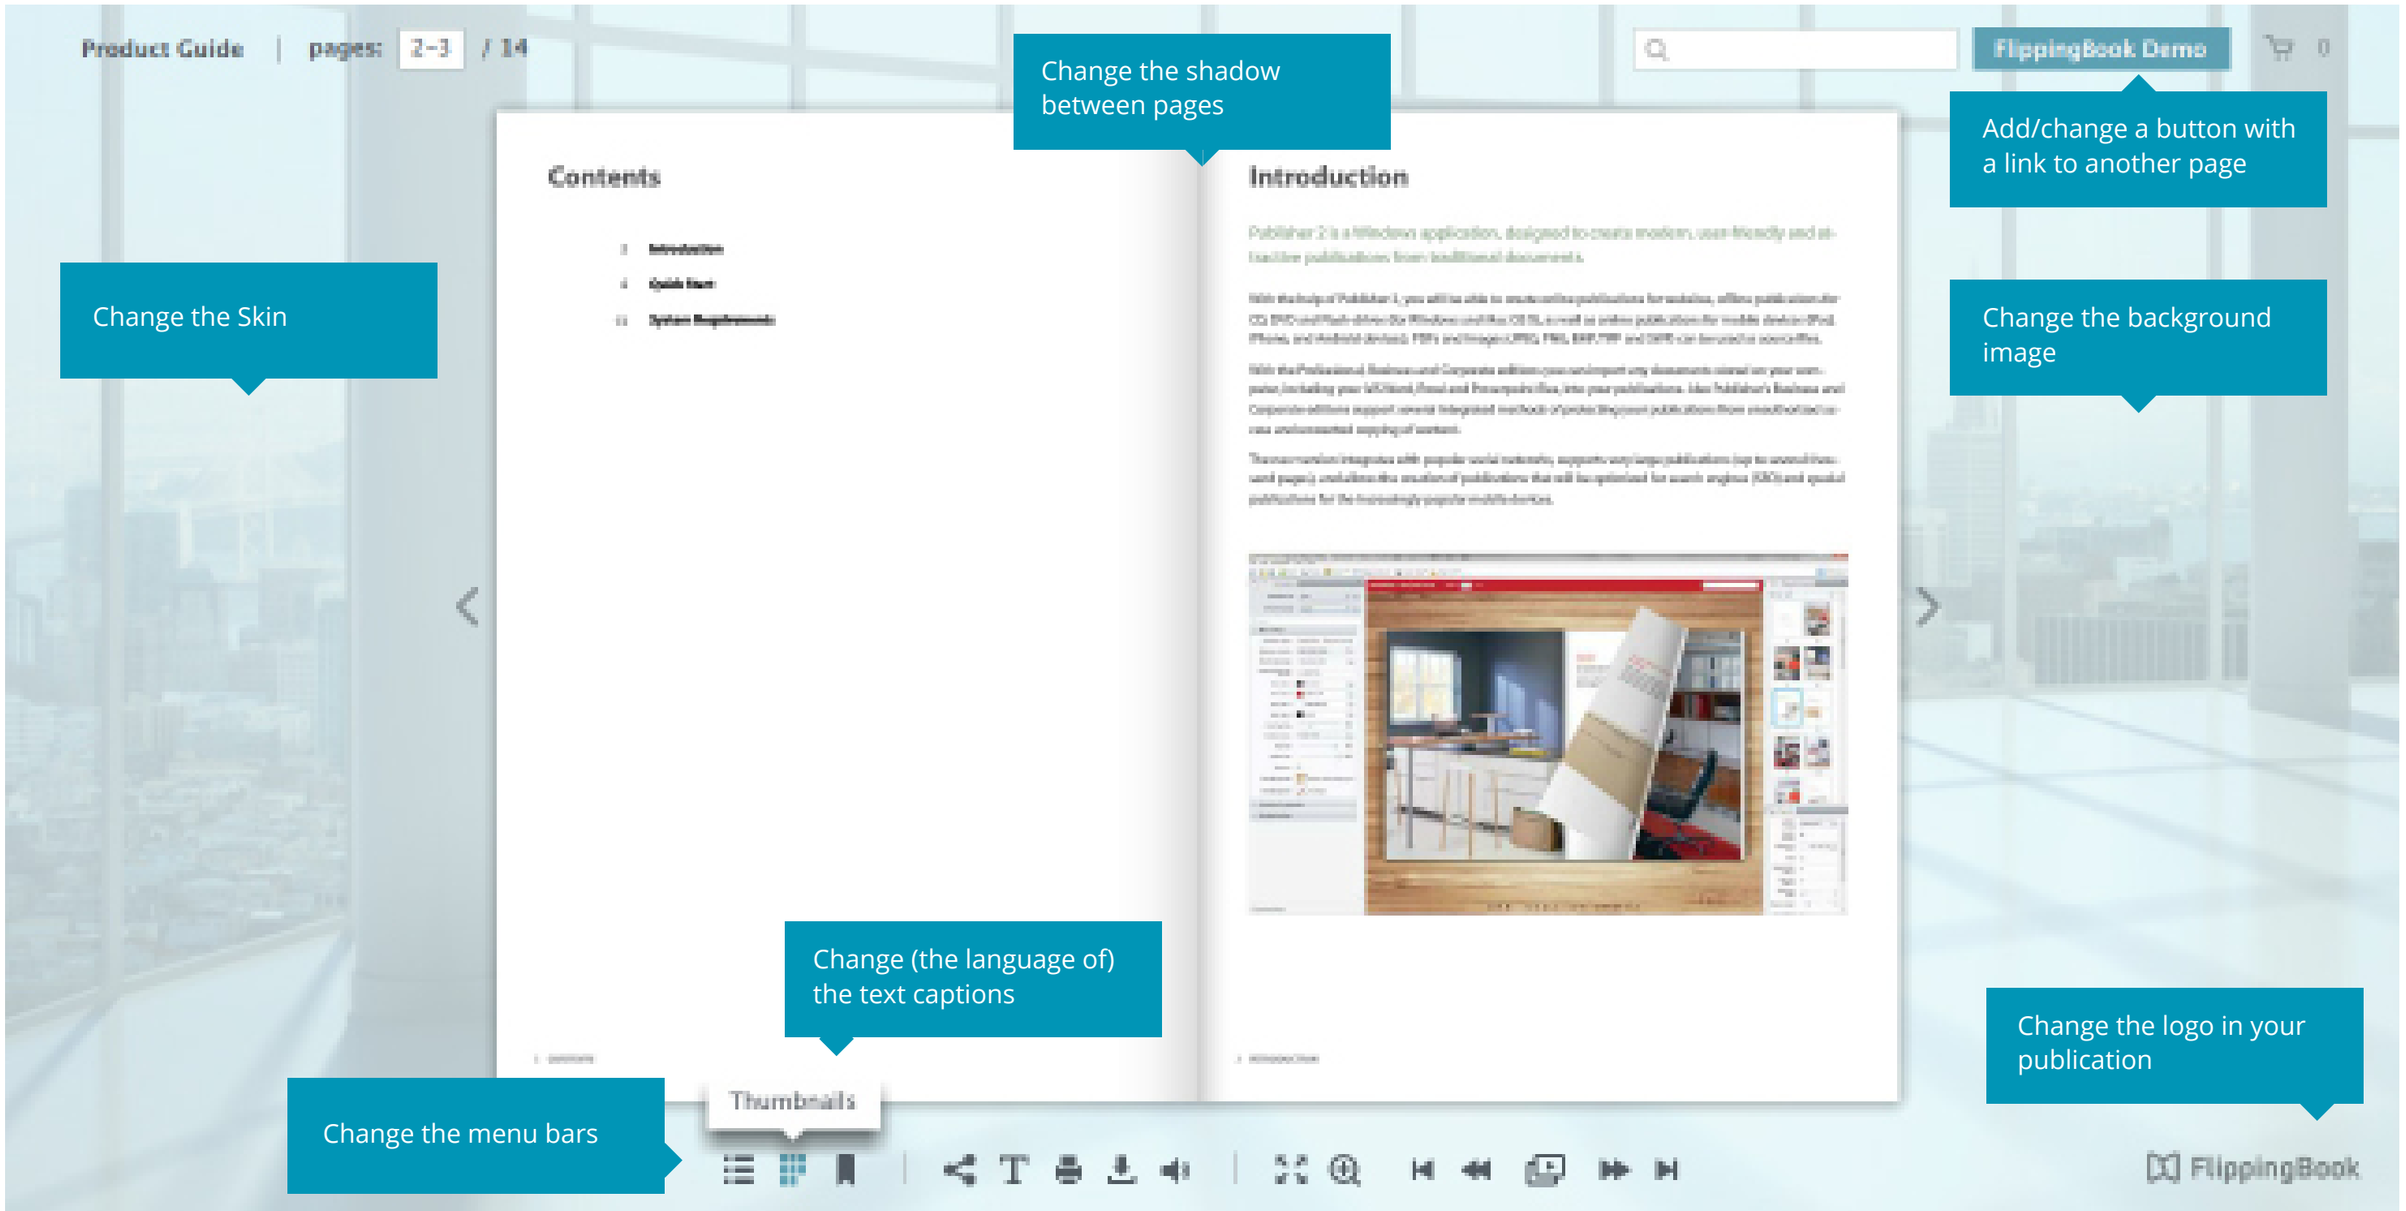
k Publish and select To FlippingBook Cloud

PUBLICATION APPEARANCE

Change your publication's appearance

In this chapter we will show you how you can change the appearance of your publications:

Click on the blue boxes to open the articles with detailed explanations.



How to change the skin of your publication?

The appearance of your publication is mostly determined by what we call the ‘Skin’. A skin is a collection of all the graphical elements (like colors, fonts, and background images) that together make up the User Interface for your publications.

FlippingBook Publisher comes with 24 professionally designed skins by default. These skins give a coherent look to all the elements in your publication: not only to those on the main screen, but also to other elements like the Table of Contents and pop-up windows that appear when you for example click on the 'Print' button.

Steps to change the skin

1. Go to the ‘Properties’ pane.
2. Click on the ‘Select Skin’ button.
3. Choose a Skin that goes well with your publication.

Note that if you like the color scheme of a certain skin, but not the background image, then it is easy to change the background image separately.
