WIN THE BRAKEFAST OF CHAMPIONS AT THE BRITISH GRAND PRIX WITH PAGID'S NEW 'BIG BRAKEFAST' PROMOTION

Pagid, one of Europe's leading braking brands, has announced the launch of its fantastic new 'Big Brakefast' promotion, giving its customers the chance of winning one of thousands of prizes.

The promotion is open to any trade customer purchasing Pagid products from Euro Car Parts in early 2015*. Customers will receive a Big Brakefast scratchcard, which will give them the chance to win some fantastic prizes including 15 VIP trips to the British Grand Prix. In keeping with the 'Brakefast' theme, there are also breakfast and morning coffee vouchers for high street outlets available, as well as a large range of Pagid giveaways.

The fantastic top fifteen prizes for The Big Brakefast are VIP trips* to the British Grand Prix, Silverstone on 4th-5th July 2015. The prize package includes Grandstand tickets for the Saturday practice session and race-day itself, luxury hotel accommodation and a Champagne 'brakefast of champions'.

In Pagid's biggest ever prize sales promotion, customers will also have the chance to win thousands of other prizes, including Pagid products, merchandise and discount vouchers, as well as free breakfasts and coffee vouchers for leading high street food chains.

For more details on the great new 'Big Brakefast' promotion, customers can ask their Euro Car Parts sales advisor, or visit the dedicated Pagid 'Big Brakefast' microsite. Full prize details and terms & conditions are available on the microsite too:

www.pagidbigbrakefast.com

*Promotion runs from January 12th 2015 to February 28th 2015

Euro Car Parts is the only Motor Factor in the UK to stock the Norbar range. The products are made in the UK and come with certification of calibration.

- Accuracy of +/-3% of reading exceeds all international standards for torque wrenches.
- Every wrench is supplied with a calibration certificate to satisfy the requirements of ISO 9000.
- Soft feel handle provides excellent grip even in oily conditions.
- Handle materials and lens resist all chemicals in common automotive, industrial and aviation use.
- Locking mechanism prevents accidental adjustment of the wrench during operation.
- Retained square drive will not pull out of the head when the socket is removed

⚠ Always replace in pairs.
 Even the best made shocks and springs become 'tired' after millions of cycles and it is vitally important that all shock absorbers and springs are replaced in axle pairs. In a worst case scenario a spring will break or a shock absorber seal will blow, destroying all of its damping capability.

Top ride comfort and unsurpassed precision

Electrically Powered Steering racks, pump or EPS Columns are present in many vehicles throughout the world and are in a high volume of cars in the UK. The electric steering is targeted at the small to medium vehicle sector, and covers most manufacturers.

Most electric steering has variable assist, which allows for more assistance as the speed of the vehicle decreases and less assistance from the system during high speed situations.

Specifically Electrically Powered Steering benefits include:

- Reduced vehicle fuel consumption
- Reduction in harmful exhaust fumes
- Significant reduction in vehicle assembly time
- Elimination of hydraulic hoses, pumps, reservoirs and associated fluids
- No contaminated fluids as a result of the remanufacturing process

- Integrated A/C system diagnostics, print out of diagnostics and probable solutions
- Automatic leak test during vacuum phase
- Advanced database for quick gas selection and allowing user to add new vehicle models
- Automatic dye injection with collapsible oil cartridge, no more messy tubes
- Hybrid vehicle compatible
- Management system giving usage report and creating archive of all refrigerant usage
- Flushing capabilities to remove dirty oil & debris (Flushing kit not included)

Robinair 1234YF-8

**Fully Automatic AirCon Machine
with identifier for HFO1234YF**

£4,899.00

251 77 0750

The AC1234-8 is an automatic refrigerant management station with complete 'programme and walk-away' capability. It automatically controls the recovery, vacuum and recharging processes for oil, UV dye and refrigerant, as well as filtering the recovered refrigerant. The AC1234-8 has a built in refrigerant identifier, and an integral printer.

Robinair 1234YF-7

**Fully Automatic AirCon Machine
for HFO1234YF**

£2,999.99

251 77 0740

The AC1234-7 is an automatic refrigerant management station with complete 'programme and walk-away' capability. It automatically controls the recovery, vacuum and recharging processes for oil, UV dye and refrigerant, as well as filtering the recovered refrigerant. The AC1234-7 has an integral printer.

Robinair AC1234-3P

**Fully Automatic AirCon Machine
for HFO1234YF**

£2,299.00

251 77 0910

The AC1234-3 is a semi-automatic refrigerant management station. It automatically controls the recovery, vacuum and recharging processes for refrigerant, as well as filtering the recovered refrigerant. The AC1234-3 has an integral printer and built in vehicle database.

How Low Can We Go?
