Ferrari California T

The Ferrari California T epitomises elegance, sportiness, versatility and exclusivity: characteristics that have distinguished every Ferrari California model since the 1950s.

The Ferrari California T boasts striking standards of innovation while retaining signature features such as the successful 2+ concept, a refined cabin and, of course, the retractable hard top (RHT) which transforms it from a chic coupé into a sleekly sophisticated spider in a mere 14 seconds.

The model brims with a host of new solutions, not least of which is its 8-cylinder turbo engine. Maranello's engineers have created an entirely new power unit which delivers absolutely superb levels of performance, blistering pick-up and the most exhilarating soundtrack any turbo has ever yielded.

Carrozzeria Scaglietti

Dealer Showroom Configurator

Carrozzeria Scaglietti is the Ferrari personalisation programme developed to enrich the configuration of each Ferrari model. The programme offers numerous aspects and features from which clients can choose, specifically, in four traditional areas of specification: Racing and Track, Exterior and Colours, Interior and Materials, Equipment and Travel. At Ferrari showrooms clients can view material samples along with the virtual configuration programme to help choose between the many alternatives. It is also possible for clients to request content and specifications outside of the catalogue to make their Ferrari even more unique and personal.

The Atelier

The Atelier in Maranello is the flagship for the One-to-One personalisation programme. The Atelier is a studio space located within the factory complex in which clients meet with product specialists to hone their customisation choices. Thanks to the Atelier, the personalisation options now available to owners are virtually endless. The only limitations being that the changes must not interfere with the car's safety, performance or homologation status. The main personalisation areas are: Exterior and Colours, Interiors and Materials and Travel Accessories.

Tailor Made

Ferrari Tailor Made is the exclusive new personalisation programme developed specifically for clients wishing to create a truly bespoke car that will be a clear expression of their own unique personalities and tastes.

The Tailor Made programme continues a longstanding Maranello tradition which began in the 1950s and 60s, a time when clients personalised their cars as a matter of course and enjoyed huge freedom when it came to materials, colours and finish. The result was genuinely unique cars tailored to suit the desires of each individual owner.

Owners are assisted and guided through the selection process by their own Personal Designer who is charged with guaranteeing that the resulting cars are both unique and consistent with the Ferrari brand and its tradition. Once the car's details have been defined, the client can then track all of the various processes involved in its creation, right up until they take delivery. Naturally, they are very welcome to come to Maranello to pick up their car in person if they so wish.

Creativity, research, original materials, superb craftsmanship and attention to detail are the cornerstones of the Tailor Made programme which offers three collections inspired directly by Ferrari's DNA: Scuderia, Classica and Inedita. Scuderia takes its inspiration from Ferrari's sporting history, offering a choice of racing-derived materials, finishes and liveries. The Classica collection, on the other hand, provides a modern twist on the styling cues and features of Maranello's iconic GTs. Lastly, Inedita lives up to its name by introducing an element of experimentation and innovation in terms of styling, colours and materials.

Ferrari

Ferrari Approved

Pre-owned Ferraris guaranteed by Ferrari

Technical Inspection

Before any Ferrari can be declared Approved, it must first pass a series of extremely rigorous technical checks and controls drawn up by the factory, including a 190-point technical inspection. This complete and detailed Ferrari Approved inspection is carried out by technicians trained at the factory and who specialise in evaluating Ferraris of all types.

Provenance and Preparation

Each Ferrari Approved vehicle is meticulously prepared and presented for sale to Ferrari's own extremely high exterior and interior standards. The exterior paintwork, interior trim and upholstery are carefully checked and if any repairs are required only the finest quality materials will be used.

Warranty and Assistance

To show our confidence in the quality of the Ferrari Approved Programme every Ferrari Approved vehicle has a 24 month unlimited mileage warranty to guarantee peace of mind.

Ferrari Genuine Accessories

The Ferrari Genuine programme offers a vast range of kits, components and accessories specifically designed and manufactured for Prancing Horse cars. This means that owners can now enhance their cars with parts created and produced to Ferrari's own high factory quality standards.

The Ferrari Genuine programme is divided into three different lines – style, technology and car care – created to give owners enormous freedom of choice when it comes to personalising their existing cars.

In keeping with tradition, all the products offered by the Ferrari Genuine programme respect the heritage of the vehicle and are specifically created in consideration of the technical, styling and aerodynamic characteristics of the model. There is a specialised team which develops and designs the comprehensive range of accessories and custom specification options, created specifically to cater for every possible personalisation necessity and preference.

Ferrari Genuine Maintenance

All new orders of Ferrari California T, FF, 458 Italia, 458 Spider, 458 Speciale or F12berlinetta via the authorised dealership network now benefit from an innovative new warranty package, Ferrari Genuine Maintenance, which covers all the scheduled maintenance for the first 7 years, regardless of vehicle mileage and at no additional cost to the client.

Genuine Maintenance is Ferrari's exclusive service that ensures that its cars are maintained to the highest level for maximum performance and safety. The programme is unique – this is the first time a car manufacturer has offered such cover worldwide and is evidence of the attention paid by Ferrari to its clients.

The Genuine Maintenance programme covers the individual vehicle, and thus extends to any eventual subsequent owner. The programme covers all scheduled maintenance along with the relative original spare parts, engine oil and brake fluid. The advantage to the owner is the assurance that the vehicle will be subject to regular annual inspection by Ferrari trained personnel using factory-approved dedicated diagnostic equipment.

Ferrari Activities

Pilota Ferrari Driving Courses

Ferrari has created a special programme of sports driving courses offered to clients and designed to hone their skills behind the wheel. Ferrari's professional driver-instructors provide tuition for learners from all different driving backgrounds that will help them enjoy the full potential of their cars on the track and develop safe on the road skills. There are four different levels of courses, from novice to instruction at a competitive racing level.

Ferrari Formula 1 Club

The only way to experience the atmosphere of a Grand Prix alongside the main players is to be part of the exclusive Ferrari Formula 1 Club. Guests spend the entire race weekend with the Scuderia Ferrari team, with the roar of the single-seaters providing an exhilarating soundtrack. Guests will enjoy a host of exclusive opportunities over the course of the weekend, such as access to the paddock, a guided tour of the Ferrari pits and pit-lane as well as the chance to meet the Ferrari drivers and key team personnel.

Ferrari Factory Tours

Visits to the Ferrari factory in Maranello are a special privilege open only to owners and close working partners of Ferrari. The Factory Tour gives the opportunity to observe the factory and employees as they go about their day-to-day business and takes in several departments, spanning the spectrum from GT Production to the Museo Ferrari and the GES Racing Department. Ferrari has also recently introduced the Ferrari Guest Programme, which includes the Factory Tour as well as overnight accommodation, dinner and lunch in hotels and restaurants with special links to Ferrari, transfers and cultural activities relating to the local Emilia-Romagna region.
