LuxaFlow Ultra - DMG America

Specifically designed for excellent compatibility with LuxaTemp Ultra and other bisacryl provisional materials, LuxaFlow Ultra allows you to create more lifelike additions and repairs. Like LuxaFlow Fluorescence, it's perfect for blocking out undercuts and as a solution for enamel defects. It is also effective in creating a seal in gingival margin interfaces. Delivered from a high precision syringe-tip dispensing system, it provides excellent flowability in a non-slumping formula.

Intro Kit

Contains: 1 -1.5gm syringe of each LuxaFlow A1, A2, A3.5, B1 and 20 syringe tips.
 210-224000 Kit..... **\$100.95**

Refills

AMALGAM WASTE MANAGEMENT

AMALGON® 1 Mail-in Amalgam Recycling - WCM

EPA, OSHA and USPS compliant recovery and disposal system for scrap amalgam, vacuum traps, filters and screens, and non-infectious teeth.

Contains: 1 container, 1 prepaid shipping container and a certificate of disposal.

370-AMALGON	1 gallon	\$178.45
370-AMALGON53	5 gallon	\$430.45

AMALGAMATORS

ProMix - Dentsply Caulk

Microprocessor controls to provide extreme accuracy for consistent mixing. Programmable, pre-set memories, touch pad controls and a sleek LED display. Spring-tensioned capsule holder adapts to fit virtually every capsule design.

778-672200 Each..... **\$1360.95**

MSDWig-L-Bug - Dentsply Caulk

Multi-Speed Digital. Compact size conveniently fits most operatories. 110v, 0.5 amps. Multi-Speeds: 3800, 4200, 4600 and 4800 rpms. Size: 4.75" W x 10.25" D x 8" H.

770-CRE0020200 Each..... **\$677.95**

OptiMix™ - Kerr Restoratives

Fully programmed microprocessor controls operation, continuously verifying cycles per minute. Preset for all Kerr amalgam capsules and offers keyboard programming for custom mixing and a message display in six languages. LED readout confirms capsule type, mixing times and speed.

770-910060 Each..... **\$1327.95**

LPDWig-L-Bug - Dentsply Caulk

Low Profile Digital Amalgamator. Fits conveniently into most operator drawers. 110v, 1.0 amps. Size: 11.5" W x 8" D x 4.5" H.

770-CREC020100 Each **\$683.25**

Silamat S6 - Ivoclar Vivadent

Features an aesthetic rounded shape and removable cover for easy cleanup. Silamat S6 uses time-tested Silamat technology with the figure-eight mixing pattern and above-average rotation speed of 4500 rpm that helps achieve reliable and homogenous mixing results.

770-602286 Each..... **\$701.45**

ultramart 2 High Speed Amalgamator - SDI

The multi-use ultramart 2 is suitable for all types of encapsulated dental materials. The one surface cover facilitates infection control cleaning and the non-porous plastic surface can be cleaned with any dental disinfectant. The micro-switch automatically halts trituration when the lid of the ultramart 2 is lifted.

770-5546004 Each..... **\$725.99**

HF-SYRCW Each..... **\$56.25**

Aspirating Syringe - Integra® Miltex®

Type A

701-7680 Each..... **\$38.75**

Type C-W

701-7670 Each..... **\$39.75**

Petite Aspirating Syringe

Specially designed to meet the needs of dental professionals who prefer a more comfortable, form-fitting syringe.

701-7770 Each..... **\$39.75**

N-Traig Syringe

Stainless steel. Delivers precisely 0.2cc of anesthetic, has a positive ratchet action and protects against breakage of anesthesia cartridges. 30° adapter handles even the most difficult to reach injections with ease.

700-7655SS Each..... **\$338.45**

Septodont Syringes - Septodont

Septodont Standard (Bronze) - Standard sized, lightweight, durable and has no removable parts. Equipped with a larger thumb ring and offers the standard length plunger for improved comfort.

Septodont Fusion (Titanium) - The perfect in-between size, not too large, not too small comfort sized.

Septodont Petite - Designed for dentists and hygienists with smaller hands. Its compact design provides a smaller thumb ring, finger grip and shorter plunger length. This provides better control and added comfort.

Accepts 1.7ml / 1.8ml standard dental cartridges.
 Standard Bronze 130-N2110
 Fusion Titanium..... 130-N2105
 Petite Blue..... 130-N2100
 Petite Pink..... 130-N2120
 Each **\$62.95**

ECO Aspirating Syringes - Septodont

Made of durable stainless steel and contain no removable parts.

Eco Wingless 130-N2200

Eco Winged..... 130-N2210

Each **\$40.25**

Paroject® Syringe - Septodont

The Paroject intraligamental syringe is offered for use in performing PDL injections. This penstyle syringe is compact, extremely durable and comfortable to use. Designed to handle any standard dental cartridge and uses standard disposable dental needles. Click activator dispenses a calibrated .06ml dose.

130-N2040 Each..... **\$288.25**

NEEDLES

BD PrecisionGlide™ Needles - Crosstex International

The large inner diameter of thin wall needles is designed to allow the use of a smaller gauge size with increased flow rates over regular walled needles. Thin wall needles are also designed to facilitate the injection of high-viscosity fluids.

BD Regular Bevel Needles

27ga. Long 130-305136
 30ga. Extra Short 130-305106
 30ga. Short 130-305128
 100/box **\$25.95**

Variety of gauge and lengths available upon request.

NEEDLES

**Monoject™ Needles - Covidien
Products by Medtronic**

Plastic and metal hub dental needles. Self-threading hubs fit all dental syringes - Standard or Convertible Tip.

100/box	\$11.95

Prehema Needles - Keystone Industries

The needle is a sharp tri-bevel point for maximum comfort. Universal screw-in system that works with an inch-type of metric-type syringes. Plastic hubs are pre-threaded for an easy, straight attachment to the syringe. Siliconized for smooth motion during injection. Sterile.

27ga. Short	130-2170027
27ga. Long	130-2179927
30ga. Extra Short	130-2179930
30ga. Short	130-2170030
100/box	\$9.45

**DEFEND Plastic Hub/Self-Threading
Dental Needles - Mydent International**

Disposable, sterile needles for use on standard 1.8ml dental syringes. Triple-beveled needles feature an arrow indicator to help orient the bevel position during injections. Siliconized to help ensure a gentle insertion of needle into tissue for minimal discomfort. Prethreaded plastic hub for simple, straight attachment to the syringe perfectly and securely every time. Color coding for easy needle diameter identification.

27L Yellow	130-DN2000

30S Blue	130-DN3000
30XS Blue	130-DN3100
100/box	\$11.25

Septoject® Needles - Septodont

Less trauma to the tissue. Achieved through a triple bevel needle, a polished and siliconized canula and an excellent flexibility of the needle. High grade surgical stainless tubing to reduce risk of breakage.

25ga. Long (Red)	130-1252
27ga. Short (Orange)	130-1271
27ga. Long (Yellow)	130-1272
30ga. X-Short (Purple)	130-1300
30ga. Short (Blue)	130-1301
100/box	\$15.25

**Septoject® Evolution Needles
- Septodont**

Scalpel-designed bevel cuts rather than tears tissue requiring less force for the needle insertion, causing less tissue to be displaced resulting in reduced discomfort for the patient. The centered position of the bevel results in less deflection and greater control for the dentist. High grade surgical stainless steel tubing to reduce risk of breakage, and 2 bevel marks on hub for optimal use. Sterile.

ANESTHESIA REVERSAL

OraVerse® - Septodont

Allows you to bring patients back to normal sensation twice as fast. In clinical trials, the median time to recovery of normal sensation in the upper lip was 50 minutes vs. 133 minutes for the control group, and in the lower lip was 70 minutes vs. 155 minutes for the control. In clinical trials, OraVerse patients were also more quickly able to smile, speak, drink normally, and minimize drooling. Use in pediatric patients less than 3 years of age or < 15kg (33lbs) has not been established.

Contains: 10 - 1.7ml glass cartridges blister pack.
130-99210 Each..... \$86.95

NITROUS OXIDE MASKS

ClearView™ Classic Masks - Accutron, Inc.

Mask-in-mask design draws excess gas into accuum, clear outer mask shows patient "breathing through nose" and soft inner mask creates desirable nasal/ facial seal and can be seen through outer mask. Low profile expands clinical field of view and keeps patients from adjusting. Latex-free. Available in six soothing scents.

Nitrous Scavenger - Porter Instrument

Double mask (mask within a mask) system. It features an outer mask and a flexible single use disposable, or autoclavable, easily removable inner liner. It is the soft inner liner that creates the tight, yet comfortable, seal around the patient's nose, thus assuring the unit's superior scavenging efficiency. Available in both adult and pedo sizes; the inner liners either unscented or citrus scented. The masks are autoclavable by either steam or chemical sterilizing.

Scavenger Breathing Circuits with In-Line Vacuum Control Kit
Adult 580-POR51551
Pedo 580-POR51552
Each \$694.95

Scavenger Breathing Circuits without Vacuum Control Block
Adult 580-POR51553
Each \$589.95

Scavenger Liner Kit
Adult 571-50541
Pedo 571-50542
3/pack \$54.95

NITROUS OXIDE MASKS

Silhouette Nasal Masks - Porter Instrument

Silhouette is a revolutionary new nitrous oxide nasal mask designed by a dentist for dentists. It eliminates the hassles many dentists associate with using nitrous oxide. The result is a compact and comfortable nasal mask that's nearly invisible and creates a safe and predictable experience for both the dentist and the patient.

Flowmeter Connection Kit

Contains: Cannula Adapter, Breathing Bag Cap, 6.5' fresh gas/vacuum tubing, 4 color coded sizer masks and clip.

580-PORSILCONNKIT Kit **\$54.95**

Variety Pack

Contains: 3 each of Pediatric, Adult Small, Medium and Large.

Our tungsten carbide burs exceed stringent ISO, FDA, BSI and CE European Standards. Tungsten carbide burs are designed, manufactured and finished for optimum strength, performance and durability. The burs are brazed in the neck as opposed to the base of the head, as found in many competitive products. Our 100% carbide neck delivers optimum concentricity and strength. Our tungsten carbide burs are engineered to cut more effectively, with a greater blade contact on the tooth surface, and reduced risk of chipping or breakage. The design ensures a fast, smooth, vibration free performance, reducing patient discomfort as well as operating time. The shank of each bur is made from stainless steel, allowing every bur to be autoclaved without risk of corrosion.

STRENGTH BY DESIGN

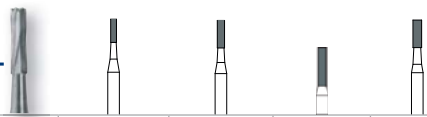

Other manufacturers weld at the base of the head increasing the risk of breakage. Health-Tec Carbides are brazed at the base of the neck to ensure maximum strength.

Aluminum Bur Blocks

The attractive 5 colors allow clinicians to organize their rotary instruments by procedure. Fully autoclavable aluminum blocks hold up to 15 FG burs. The use of bur blocks minimizes damage to instruments and reduces the likelihood of injury from sharp instruments, while creating ideal procedural organization.

Alpen® Carbides Endo Access
1 @ \$47.95

Midwest® Carbide Burs

The #1 Choice of Dentists

Convenient Packaging Options

OPERATIVE CARBIDE BURS

Exceptional cutting performance. Extensive selection of shapes and sizes in familiar configurations to meet your clinical needs.

ORAL SURGICAL CARBIDE BURS

Superior, precision ground cutting edges for efficient and consistent cutting performance. Ideal for cutting through bone and sectioning teeth.

TRIMMING & FINISHING CARBIDE BURS

Custom blended tungsten carbide, sintered and precision ground for superior cutting edges and striation-free surfaces.

ESTHETIC FINISHING CARBIDE BURS

Premium finishing burs, delivering the ultimate surface finish for great esthetic results.

MULTIPREP® PREMIUM CARBIDE BURS

Maximum density cross-cut burs for smooth and precise cutting of cavity preparations and all types of restorative materials.

Bur Shank Dimensions	Style	Length mm / inches	Diameter mm
	FGSS Friction Grip / Short Shank	16.5 / 0.65	1.60
	FG Friction Grip	19.0 / 0.75	1.60
	FGOS Friction Grip Oral Surgical	25.0 / 0.98	1.60
	LA Latch	22.0 / 0.87	2.35
	LAOS Latch Oral Surgical	26.0 / 1.02	2.35
	HP Handpiece (Straight)	44.5 / 1.75	2.35
	HPOS Handpiece Oral Surgical	65.0 / 2.54	2.35

Length includes cutting head of bur. Convert mm to inches x .039.
 "L" Series Burs offer longer head dimensions. Refer to product tables for specifications.

Endo-Access™ Bur

The tip matches round bur sizes for initial penetration while its diamond shaft flares the pulp chamber. The cutting surface is 10mm. The total length is 21mm.

2.....	188-668800
4.....	188-668801
6.....	188-668802
Assorted 2, 4, 6.....	188-668803
3/pkg.	\$31.75

Endo-Z™ Bur

The rounded, non-cutting, safe-ended tip prevents penetration of the pulp chamber floor or the root canal walls. The cutting surface is 9mm and the total length is 21mm.

188-671796	3/pkg.	\$28.95
------------	-------------	----------------

LN™ Bur

Unique 1/2-round bur on a long neck. Its design allows for deep drilling alongside posts or broken instruments. Total length of 28mm.

188-671795	3/pkg.	\$15.25
------------	-------------	----------------

Multi-Purpose™ Bur

Used for initial endodontic access, sectioning of impacted molars, cutting of teeth at root level, root separation and amputation of broken roots. Cutting surface of 11mm and a total length of 23mm.

188-671797	3/pkg.	\$28.95
------------	-------------	----------------

Transmetal™ Bur

Extra-fine crosscut shape is designed to remove an old amalgam filling or to cut through porcelain fused to metal crowns without shattering the porcelain or breaking the bur. The cutting surface is 5mm and the total length is 19mm.

188-671798	3/pkg.	\$21.95
------------	-------------	----------------

Integra® Miltex®

LABORATORY BURS

"GTN" Gold Titanium Nitride Coated Lab Burs

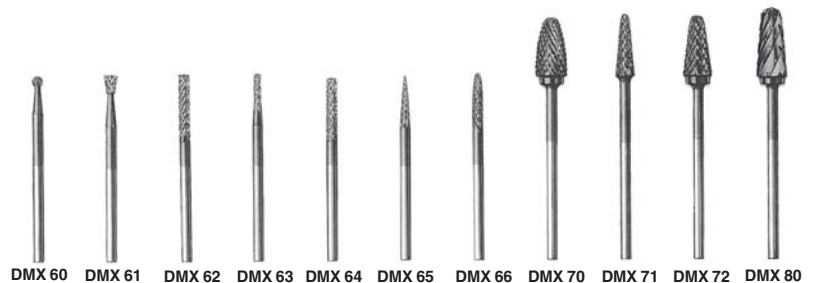

- Longer Tool Life - The GTN coating hardens the cutting edges making the bur last longer.
- Faster, Cooler Working - The GTN coating acts as a continuous lubricant resulting in less resistance.
- Smoother Finishing - The GTN coating resists chip build-up, resulting in an extremely smooth finish.

181-DMX1 - DMX17	\$22.95
181-DMX19 - DMX23	\$17.75

Diamond Cut Laboratory Carbide Burs

Precision, diamond-shaped fluting is designed specifically to ensure smooth, fast, clean cutting of all ceramic-type and conventional gold castings.

181-DMX60 - DMX66	\$16.45
181-DMX70 - DMX80	\$23.75
181-DMX31 - DMX39	\$43.75
181-DMX51 - DMX59	\$57.95

TRIMMING & FINISHING CARBIDES

Trimming & Finishing Carbides are designed to provide a smooth finish on composite, amalgam, or crown & bridge restorations. The new egg and needle shapes are an ideal fit in all interproximal, buccal, lingual, and occlusal areas.

Razor Prep CARBIDE

Crown and Bridge Carbides

The RAZOR™ Carbide technology is now available in familiar diamond shapes, for use in two of the most common crown and bridge prep designs, chamfer and shoulder. The unique cross-cut design efficiently removes tooth structure, amalgam and composite restorations while staying cool and sharp. Razor Prep ensures complete reduction and smooth margin definition with a single instrument.

- Unique cross-cut blade design for smooth and accurate margin definition
- Cooler cutting reduces chance of tissue damage
- Robust head and neck design for effective bulk reduction

Razor Operative CARBIDE

For Rapid Reduction

The RAZOR™ Carbide by Kerr Dental is an advanced technology bur ideal for rapid reduction of materials such as amalgam, porcelain, metal and tooth structure. Its super sharp transversing tip and blade design results in powerful cutting performance, perfect for crown removal and endodontic access. Available in 10-packs or 100-packs.

- Transversing tip and blade geometry for rapid end and plunge cutting
- Concentric construction helps to eliminate vibration
- Specialty shapes and sizes perfect for multiple procedures

Razor Sculpt CARBIDE

Trim and Finish in Just One Step!

Razor Sculpt Trimming and Finishing carbides create a cutting Path of Accuracy that responds to a feather touch and carves an exceptionally smooth surface. The optimized blade profile incorporates rake and relief angles provide aggressive cutting when desired, while clearing excess materials away quickly.

- One-step finishing system – reduces chair time
- Unique cutting “Path of Accuracy” – carves an exceptionally smooth surface
- Optimized blade profile – cuts quick, clean and chatter free

Reduce Breakage, Increase Efficiency

At SS White, we manufacture every carbide bur we sell. SS White carbide burs go through a series of nine quality control tests ensuring that the carbide burs we sell exceed industry standards for quality, strength and consistency.

100% Satisfaction Guaranteed*

*SS White's 100% satisfaction guarantee is on all of our products. If you are not completely satisfied with your purchase, we will issue a full refund of the purchase price through Burkhart.

TWO-GRIT DIAMONDS

The NTI® 2-Grit Diamond is a coarse round-end diamond with fine diamonds at the tip used to create and finish a chamfer margin while producing a facial reduction for both direct and indirect veneer preparations. The "dual-grit" eliminates the need for multiple diamonds when preparing full crowns or veneers. Packaged individually.

NTI® Turbo Diamonds incorporate diamond-free cooling zones that absorb normal heat generation, resulting in fast reduction while remaining cool. Available in Friction Grip and Friction Grip Short Shank only.

- More exposed diamond surfaces on tips and edges for superior cutting ability
- Diamond-free cooling zones eliminate clogging and promote fast cool cutting

BluWhite Diamonds cut faster and clean easier than other leading manufacturers due to the unique grit application process, which helps reduce clogging and improves cutting efficiency. BluWhite diamonds offer a wide selection of shapes and grits which feature unique extra coarse diamond particles (40% larger than competitors.) BluWhite diamonds are a great option for any operative or prosthodontic procedure time after time.

TSZTECH[™]

Uniquely designed for efficient cutting of Lithium Disilicate and Zirconia

197-2015895 Assorted 5/pack.....\$62.25

All-ceramic Crown Cutters!

	260.8Z	285.5Z	703.8KRZ	125Z	770.8Z
5-Pack Reorder	2015893	2015891	2015894	2015892	2015890

"L" - 1.5mm longer shank:

	L260.8Z	L125Z	L770.8Z
5-Pack Reorder	2015883	2015882	2015880

These Two Striper[®] FG diamonds feature a proprietary diamond grit designed to cut quickly and safely through Lithium Disilicate and Zirconia crowns.

TSZtech[™] diamonds provide faster and cooler cutting with less trauma and no sparking. Some shapes are available in a slightly longer shank for electric handpieces with larger heads. The round and football are ideal for endodontic access.

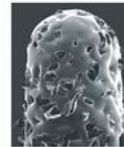

5/pack.....\$62.25

Two Striper®
An abrasive technology product

Faster, Cooler,
Longer Lasting

← P.B.S.-bonded Two Striper® diamonds are guaranteed not to pull out.

← Many other diamonds are electroplated and prone to premature particle dislodgment.

Revelation Diamonds Documented Faster Cutting and Longer Life.

Dense, uniform diamond distribution insures fast, consistent cutting.

Three layer matrix results in an excellent service life and feel.

100% Satisfaction Guaranteed*

*SS White's 100% satisfaction guarantee is on all of our products. If you are not completely satisfied with your purchase, we will issue a full refund of the purchase price through DHPI.

Decrease Preparation Time,
Increase Preparation Quality

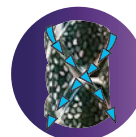

- Cut smoother and cooler due to the patented cross channel design.
- Allows for rapid gross reduction, reduces the need for final finishing.
- Tri-max matrix system increases durability maximizing service life.

Each	\$6.95

Aluminum Bur Blocks

The attractive 5 colors allow clinicians to organize their rotary instruments by procedure. Fully autoclavable aluminum blocks hold up to 15 FG burs. The use of bur blocks minimizes damage to instruments and reduces the likelihood of injury from sharp instruments, while creating ideal procedural organization.

Red	590-10001
Silver	590-10002
Blue	590-10003
Black	590-10004
Green	590-10005
Each	\$17.95

Bur Caddy - HealthSonics

Autoclavable to 325°F. Chemiclave or steam. Cover/handle swivels 360° with stops at each 45°. Staggered holes for easy viewing and access to burs/diamonds. No rinsing required when using HS Non-ionic Ultrasonic Solution.

12 FG

Beige	590-100038
Blue	590-100037
Coral	590-100040
Yellow	590-100039
Each	\$20.45

8 FG / 4 RA

Beige	590-100138
Blue	590-100137
Copper	590-50Z400U
Coral	590-100140
Yellow	590-100139
Each	\$20.45

Bur Blocks - Premier® Dental

Autoclavable, anodized aluminum. Patented design features center stabilizer plate. Secure snap-close lid.

Friction Grip - 18 Hole

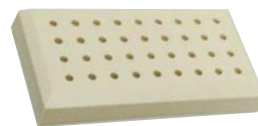

Green	590-9051021
Blue	590-9051022
Each	\$31.25

Right Angle/Friction Grip - 17 Hole

Green 8 RA / 9 FG	590-9051024
Blue 8 RA / 9 FG	590-9051025
Each	\$34.45

HP Bur Block - 14 Hole

Red	590-9051030
Each	\$35.25

Thermo-Block - SSWhite®

Sterilization bur block with 36 holes. Made of heat resistant plastic. White.

FG	182-16392
HP/RA	182-16407
Each	\$13.95

BUR DEBRIDERS & CLEANERS

Midwest® Bur & Diamond Brush - Dentsply Midwest

Sterilizable brass wire brush ideal for debriement of carbide burs and diamonds. Features all-metal housing and a telescopic sleeve that enables adjustment of the exposed wire length.

181-380092	Each	\$32.95
------------	------------	----------------

Bur Cleaning Brushes - Grobet USA

Stainless Steel. Unique brush designed for fast and easy cleaning. Wire is firmly bound in plastic tubing which serves as a handle and can be cut away to expose more wire.

Without Handle 3" Long

760-16339	Each	\$4.75
-----------	------------	---------------

With Wood Handle 5" Long

760-16340	Each	\$6.75
-----------	------------	---------------

Clean-A-Diamond Stones - Premier® Dental

Use chairside to unclog coarse and medium grit diamonds. Extends life and restores rapid cutting. Autoclavable.

197-2014001	Each	\$19.45
-------------	------------	----------------

Clean-A-Diamond® Mini Squares - Premier® Dental

Recommended for coarse and medium grit preparation burs.

197-2014015	12/box	\$27.25
-------------	--------------	----------------

BUR HOLDERS / ORGANIZERS

Magnetic Bur Holder - Integra® Miltex®
 Made of nickel-plated steel.
 596-33810 Each..... **\$18.95**

Mesh Bur and Diamond Holder - Integra® Miltex®
 Securely holds FG, RA, HP burs, diamonds and other small items. Stainless steel design for use in all types of autoclaves.
 Small..... 711-6529
 Each **\$14.45**
 Large 711-6528
 Each **\$14.75**

Mesh Bur Holder - Palmero Health Care
 Stainless Steel. Closes tightly, allowing you to safely secure, clean and sterilize burs or any small objects during ultrasonic cleaning or sterilization. Safe for steam or dry heat. 6" long from end of handle to end of mesh cups. Mesh cup diameter is 1.75".
 710-1861 Each..... **\$7.25**

Rotary Bur Block Organizer - Palmero Health Care
 Made of clear plastic with a dome shaped cover

for visibility. Turns 360° for easy access to burs. Non-autoclavable.

60 Hole FG
 590-40 Each..... **\$49.75**
62 Hole Combo (18 FG/44 Latch)
 590-40A Each..... **\$49.75**

Bur Tray - Pascal International, Inc.
 Specially designed for cold sterilization of carbide burs and diamonds. A small opening in the lid allows you to drop in rotary and endodontic instruments without removing the lid. Lift-out basket for easy rinsing. Constructed of high impact plastic which is compatible with all sterilant disinfectant solutions. Outside dimensions: 2-5/8" H x 3" diameter.
 180-35695 Each..... **\$16.95**

BURS

ZIRC BUR BLOCKS & GUARDS

Steri-Bur Guards

- Fits FG, RA, and HP Burs
- Adjustable height for multiple-length burs (Surgical Bur Guard not adjustable)
- Holds bur in position for maximum cleaning effectiveness
- Drain holes help prevent rusting of burs

\$14.95 - 12-Hole Bur Guard
 Accommodates burs from 12mm-30mm.
 Dimensions: 7.3cm x 1cm x 3.5cm
 590-50Z406_ Available in all colors

\$15.95 - 22-Hole Bur Guard
 Accommodates burs from 12mm-30mm.
 Dimensions: 12.2cm x 1cm x 3.7cm
 590-50Z410_ Available in all colors

Magnetic Bur Blocks

- Fits FG, RA, and HP Burs
- Magnetic base holds burs securely
- Non-slip feet for stability
- Drain holes help prevent rusting of burs

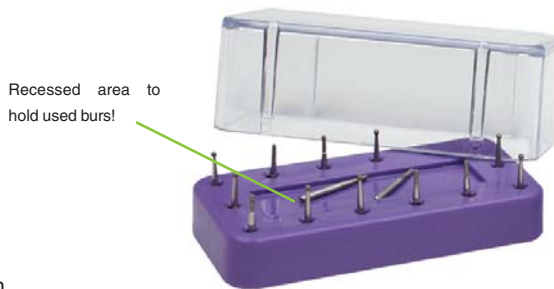

\$13.45 - 8-Hole Bur Block
 Covers sold separately.
 Dimensions: 3.81cm x 3.81cm x 1.27cm
 590-50Z400_ Available in all colors

Bur Block Covers

- Covers available to maintain cleanliness of burs during storage
- 1" covers for FG and RA burs; 2" cover (14-hole only) for lab and surgical burs

\$6.45 - 8-Hole Bur Block
 Covers 1" High - Standard
 Dimensions: 4.13cm x 4.13cm x 2.54cm
 590-50Z401 Clear

\$14.95 - 14-Hole Bur Block
 Covers sold separately.
 Dimensions: 7.46cm x 3.81cm x 1.27cm
 590-50Z403_ Available in all colors

\$6.45 - 14-Hole Bur Block
 Covers 1" High - Standard
 Dimensions: 7.94cm x 4.13cm x 2.54cm
 590-50Z404 Clear

\$6.45 - 14-Hole Bur Block
 Covers 2" High - For Surgical Burs
 Dimensions: 7.94cm x 4.13cm x 5.72cm
 590-50Z405 Clear

DENTIN SUBSTITUTE

Biodentine® - Septodont

Dentin substitute is used to treat damaged dentin in both the crown and the root with zero shrinkage. Treats permanent dentin restorations, deep cavities, pulp capping, pulpotomies, etc. in the crown and root perforations, pulpal floor perforations, internal/external resorptions in the root. In addition to treating damaged dentin, provides a number of clinical benefits including remineralization, preservation of pulp and prevention of clinical failures. 100% mineral material is close to human dentine, offering the same mechanical properties. Single dose containers.

200-01C0605 5/pack **\$91.45**
 210-C0600 15/pack **\$229.25**

CAVITY LINERS

Kerac™ Bond - 3M Oral Care

Biocompatible and radiopaque. Molecular bond to enamel and dentin for marginal integrity. High fluoride release.

Powder Refill - Yellow
 277-37330 10gm **\$100.95**

Liquid Refill
 277-37320 12ml **\$67.95**

Vitrebond™ - 3M Oral Care

A true light-cure glass ionomer that can be used as liner/base under a variety of restorations, including amalgam.

Intro Kit
 Contains: 9gm powder, 5.5ml liquid, spoon and 2 mixing pads.
 223-7510 Kit..... **\$305.95**

Refill Liquid
 223-7512L 5.5ml **\$180.95**

Refill Powder
 223-7512P 9gm **\$178.95**

Order by ☎ **800-626-2163**

Vitrebond™ Plus - 3M Oral Care

Light cure glass ionomer liner/base for use under both direct and indirect restorations.

Single Pack
 Contains: 10gm Clicker Dispenser, 1 large mixing pad and technique card.
 223-7571 Pack **\$224.95**

Double Pack
 Contains: 2 -10gm Clicker Dispensers, 1 large mixing pad and technique card.
 223-7572 Pack **\$370.95**

Dycal - Dentsply Caulk

Dycal radiopaque calcium hydroxide composition is a rigid, self-setting material useful in pulp-capping, and as a protective base/liner under dental filling materials.

Complete Package
 Contains: 13gm base, 11gm catalyst, 1 mixing pad, 1 mixing/placement instrument.
 Dentin Shade 208-623450
 Ivory Shade..... 208-623400
 Package **\$132.95**

Standard Package
 Contains: 13gm base, 11gm catalyst, 1 mixing pad.
 Dentin Shade 208-623802
 Ivory Shade..... 208-623801
 Package **\$91.25**

6 Pack
 Contains: 6 -13gm base, 6 -11gm catalyst, 4 mixing pads.
 Dentin Shade 208-623702
 Ivory Shade..... 208-623701
 Pack **\$445.95**

Placement Instrument
 208-623117 Each..... **\$43.95**

Prisma VLC Dycal - Dentsply Caulk

One component, light-cured calcium hydroxide base liner.

Standard Package
 Contains: 2 -4gm tubes and 1 transfer pad.
 208-654502 Package **\$182.45**

TimeLine - Dentsply Caulk

Visible light cure resin/liner with dentin primer. Fluoride releasing.

Refill Tube
 208-622155 4gm..... **\$192.45**

GC Fuji LINING™ LC - GC America

Offers a permanent, durable lining or base under all types of restorations with the convenience of light curing.

1:1 Package
 Contains: 10gm powder, 6.8ml liquid and accessories.
 272-434401 Package **\$259.45**

Powder
 272-000022 10gm **\$154.45**

Liquid Only
 272-434491 6.8ml **\$134.75**

GC Fuji LINING™ LC Paste Pak

Used as a liner or a base under composite resin or amalgam restorations.

Starter Kit available upon request.

Paste Pak Refill
 Contains: 7gm Paste Pak cartridge.
 272-001887 Each..... **\$185.45**

GC Paste Pak Dispenser
 272-001573 Each..... **\$96.25**

Life™ - Kerr Restoratives

A hard set calcium hydroxide base indicated for use as a direct and indirect pulp capping material and as a cement base under all restorative filling materials.

Contains: 12gm tube base, 12gm tube catalyst and 1 mixing pad.
 Regular Set..... 209-14500
 Each **\$83.75**

Fast Set available upon request.

CAVITY LINERS

**Cavitec™ - Kerr Restoratives**

Eugenol and zinc oxide liner. It can be used as a base under composite or amalgam fillings that can be completed immediately. Do not use Cavitec under self curing resin restorations. Also useful as a temporary stopping or filling agent and can be used for the temporary cementation of jacket crowns.

Standard Pack

Contains: 7gm tube accelerator, 19gm tube base and mixing pad.

209-00604 Pack **\$189.75**

**ACTIVA™ BioACTIVE BASE/LINER™ - Pulpdent Corporation**

The advantages of glass ionomers in a strong, resilient resin matrix that will not chip or crumble. Chemically bonds to teeth, seals against bacterial microleakage, releases more fluoride and is more bioactive than glass ionomers and is more durable and fracture resistant than composites. The first bioactive base/liner with an ionic resin matrix, a shock-absorbing resin component and bioactive fillers that mimic the physical and chemical properties of natural teeth. It releases and recharges with calcium, phosphate and fluoride ions delivering long-term benefits and better oral health care. No Bisphenol A, No Bis-GMA and no BPA derivatives.

Single Pack

Contains: 7gm syringe and 20 automix tips with bendable 20ga. metal cannula.

220-VB1 Pack **\$136.95**

Value Pack

Contains: 2 -7gm syringes and 40 automix tips with bendable 20ga. metal cannula.

220-VB2 Pack **\$244.95**

Automix Tips - 20ga.

230-A20N1 20/pack **\$28.45**

230-A50N1 50/pack **\$65.25**

**ACTIVA™ Kids - Pulpdent Corporation**

Esthetic, BioACTIVE resin restorative that stimulates apatite formation and the natural remineralization process with release and recharge of calcium, phosphate and fluoride. Opaque white shade ideally suited for pediatric dentistry.

Starter Kit

Contains: 8gm syringe Opaque White Shade, ACTIVA-SPENSER, 20 automix tips with bendable 20ga. metal cannula.

220-VKP Kit..... **\$185.25**

Single Refill

Contains: 8gm syringe Opaque White Shade and 20 automix tips with bendable 20ga. metal cannula.

220-VK1P Each..... **\$117.25**

Value Refill

Contains: 2 -8gm syringes Opaque White Shade and 40 automix tips with bendable 20ga. metal cannula.

220-VK2P Each..... **\$214.95**

ACTIVA-SPENSER

Dispenser for 8gm automix syringes.

230-DS05 Each..... **\$86.45**

**Lime-Lite™ - Pulpdent Corporation**

A light cure, fluoride releasing, cavity liner and base material specially formulated for use with adhesives, composites and conventional restorative materials.

Kit

Contains: 4 -1.2ml syringes and 8 applicator tips.

200-LIME Kit..... **\$52.45**

Syringe Refill

200-LIME3 3ml **\$28.95**

Prebent. 20ga. x 1/2". Pink.

230-LTL 100/pkg..... **\$22.45**

CAVITY VARNISH & SEALANT

**Bosworth Copaliner® - Keystone Industries**

Protects the dentin, penetrates, fills and seals the tubuli. Insulates against thermal and electrical shock and provides a strong bond between dentin and restoration. Prevents hyperaemia, death of pulp and discoloration, while providing an excellent marginal seal. Is scratch resistant, biologically mild and does not contain chloroform.

Varnish & Solvent Kit

Contains: 0.5oz. varnish and 0.5oz. solvent.

200-0921525 Kit..... **\$19.75**

Varnish

200-0921526 0.5oz **\$14.95**

Solvent

200-0921527 0.5oz **\$11.25**

**Copalite® Varnish - Temrex Corporation**

Cavity varnish with the deepest dentinal tubule penetration due to low viscosity and antimicrobial solvents. Hard resins protect pulp from irritating dental materials. Chemical cure.

Complete Set

Contains: 0.5oz. varnish and 0.5oz. solvent.

200-91120 Set **\$26.25**

Varnish

200-400001V 0.5oz **\$21.75**

Solvent/Thinner

200-400001S 0.5oz **\$16.95**

TEMPORARY FILLING MATERIALS

**Cavit™ - 3M Oral Care**

A self-curing, radiopaque temporary restorative with an extreme surface hardness for sealing endodontically treated preparations.

Contains: 10 -7gm tubes. Pink.

207-44351 Each..... **\$69.95**

Contains: 28gm jar. Pink.

207-44030 Each..... **\$30.25**

Cavit™ W

Reduced final hardness and increased adhesion for sealing endodontically treated preparations.

Contains: 10 -7gm tubes. White.

207-44350 Each..... **\$69.45**

Contains: 28gm jar. White.

207-44130 Each..... **\$30.25**

Cavit™ G

Quick and void-free curing in a moist environment. Slight expansion of the filling material ensures a well-seated margin.

Contains: 28gm jar.

200-44313 Each..... **\$30.25**

**Tempit - Centrix**

Premixed, ready-to-use temporary filling and sealing material in preloaded tubes. Hardens under saliva.

Contains: 30 -0.35gm prefilled tips.

200-310060 Each..... **\$66.95**

TEMPORARY FILLING MATERIALS

DuoTEMP™ - Coltene

A dual-cured, eugenol-free, temporary filling material including zinc oxide/zinc sulphate for optimal protection against infiltration of bacteria. A multi-purpose temporary filling material that can be cured by light and/or moisture. This allows the patient to immediately load the temporary filling.

Single Pack

204-C5831 5gm **\$25.75**

Eco Pack

Contains: 5 -5gm syringes.

204-C7090 Pack **\$105.25**

IRM® - Dentsply Caulk

ZOE intermediate restorative material. For intermediate restorations intended to remain in place for up to 1 year. Provides sedative-like qualities on hypersensitive tooth pulp.

IRM Package - Ivory

Contains: 38gm powder and 14ml liquid.

208-610007 Package **\$101.95**

Telio CS Inlay/Onlay - Ivoclar Vivadent

Light-cured single-component materials for the temporary restoration of Class I and Class II cavities - without having to additionally use a temporary cement. Onlay offers excellent handling properties with extended working time and fast curing time. Easy and quick removal. Combines antibacterial and cariostatic agents.

Inlay

Contains: 3 -2.5gm syringes.

210-635332..... Universal

210-635335..... Transparent

Each **\$68.45**

Onlay

Contains: 3 -2.5gm syringes.

210-635339..... Universal

210-635338..... Transparent

Each **\$68.45**

Cavifil delivery format available upon request.

Cimpat S - Septodont

Can be used for the temporary restoration of cavities, in the intervals between tooth preparation and the permanent cementation of completed inlays, and as a cementing medium for all forms of temporary crowns. It is nontoxic and nonirritating to hard and soft tissue and can be used in close proximity to pulpal and gingival tissues. It adheres to dentin, expands slightly during setting and hardens rapidly to ensure a tight hermetical seal.

Contains: 4 -7.5gm syringes per package.

200-37 Package **\$66.45**

Interval - Temrex Corporation

Ideal for sealing endodontic access preparations. Quickly restores fractured or lost amalgam or composite restorations.

Contains: Syringe with 3 -6.5gm bars of material.

200-7500 Kit..... **\$18.75**

CEMENT - IMPLANT

Telio® CS Cem Implant - Ivoclar Vivadent

Dual-curing resin cement suitable for the semi-permanent cementation of crowns and bridges, as well as long-term temporaries. Offers a careful balance between retention and removability because the restoration will remain secure until removal is desired. Due to its eugenol free formula, it does not interact with materials that are used in the further treatment process.

Transparent..... 200-637510AN

Opaque 200-637509AN

Each **\$67.25**

Retrieve Implant Cement - Parkell Inc.

Provides long-term cementation of restoration to implant abutment. Allows removal of the restoration if necessary. No bonding, priming or etching required. Fully cured cement exhibits slight elasticity to reduce the chance of cracks and leakage. Convenient gel stage after two minutes for easy clean-up around the margins.

200-S250 5ml **\$61.75**

Implant Cement™ - Premier® Dental

Resin cement formulated for cementing implants. Highly retentive but easy to remove. Two-stage cure features gel-phase for removing excess cement and rigid final set for marginal seal and firm retention.

Standard Pack

Contains: 5ml automix dual-barrel syringe, 10 mixing tips, 1 mixing pad.

207-3001450 Pack **\$64.95**

Value Pack

Contains: 3 -5ml automix syringes, 25 mixing tips.

Mixing Tips

207-3001451 Each..... **\$29.75**

PERMANENT CEMENT - COMPOMER

**PermaCem 2.0 - DMG America**

Universal, self-adhesive dual-cure composite luting cement for the permanent cementation of crowns, bridges, inlays, onlays, and root posts without the need for a separate enamel and dentin bonding agent, conditioner, or primer. Provides a strong reliable bond between enamel and dentine and all metal and ceramic substrates, particularly zirconium and aluminum oxide subs.

Contains: 9gm syringe, 15 short Smartmix tips and 5 (Endo M) Smartmix tips.

NX3 - Kerr Restoratives

Universally indicated for all indirect applications, a permanent resin cement with an innovative chemistry for unmatched esthetics, adhesion and great versatility. Delivery system choices include an automix syringe for dual-cure indications and a light-cure cement for multiple units where unlimited work time is needed. The automixing dual-cure cement can be used for all indirect applications, including veneers.

Intro Kit available upon request.

ACTIVA™ BioACTIVE-Cement - Pulpdent Corporation

An unparalleled combination of chemical and physical properties delivers bioactivity, toughness, resilience, durability and marginal integrity. Fracture resistant, absorbs shock. Insoluble. Releases and recharges calcium, phosphate and fluoride. No sensitivity. Safe for all your patients, its tissue compatible and contains no Bisphenol A, no Bis-GMA and no BPA derivatives.

Single Pack

Contains: 7gm syringe and 20 automix tips (15 straight black and 5 with bendable metal cannula).

Translucent 220-VC1T
 A2 Opaque 220-VC1A2
 Pack **\$117.25**

Embrace™ WetBond™ Resin Cement - Pulpdent Corporation

Dual cure, fluoride releasing, radiopaque. Unique technology bonds to the moist tooth. Margin-free, tooth integrating, eliminates microleakage. Low film thickness: 12 microns. Self-etching to dentin.

Self-adhesive: no primers, no silane, no bonding agents required. Color stable when cured.

Low Viscosity Kit available upon request.

Refill - Low Viscosity

Contains: 7gm cement and 20 automix tips.
 200-EMCAR Each **\$82.45**

Refill - Medium Viscosity

Contains: 7gm cement and 20 automix tips.
 200-EMCMR Each **\$82.45**

seT PP - SDI

Dual-cured all-in-one luting cement that etches, bonds, and fills with just one component. Does not require separate etching and washing which reduces post-operative sensitivity.

seT Capsules and Automix Syringe Assorted Kit available upon request.

Automix Syringe Refill

Contains: 2 -7gm automix syringe, 28 automix mixing tips.

PERMANENT CEMENT - COMPOSITE RESIN

**Adherence® SC - Septodont**

Permanent BIS-GMA self-curing resin cement used for many of your cementation needs. It can be used for the final cementation of crowns, including short or difficult crowns, bridges, inlays and onlays and Maryland bridges. A strong bond to metal, composite resin, enamel or dentin. Contains fluoride.

Syringe Kit

Contains: 2 -4.5gm automix syringes (1 base and 1 catalyst), 10 mixing tips, 1 mixing pad.
200-2003 Kit..... **\$113.95**

PERMANENT CEMENT - GLASS IONOMERS

**Ketac™ Cem Radiopaque - 3M Oral Care**

Radiopaque permanent glass ionomer luting cement. Fluoride releasing. Chemically bonds to enamel, dentin, gold and nonprecious metals. Excellent compressive strength 17,000 psi. Resists creep and minimizes microleakage.

Intro Kit

Contains: 33gm powder, 12ml liquid and mixing pad.

PERMANENT CEMENT - POLYCARBOXYLATE

**Durelon™ - 3M Oral Care**

With regular-set or fast-set powder, this fluoride-releasing, carboxylate luting cement attains a relatively neutral pH value that reduces post-cementation sensitivity. Low film thickness optimizes fit and marginal integrity of crowns and bridges. Adhesion to both enamel and dentin for reduced microleakage.

Intro Kit

Contains: 20gm powder, 4ml liquid, 1 measure scoop and mixing pad.

207-3801 Kit **\$125.95**

Triple Pack

Contains: 3 -20gm powder, 40ml liquid, 1 measuring scoop and 1 mixing pad.

60gm **\$100.95**

Liquid

207-38216 40gm **\$141.95**

**Durelon™ CD - 3M Oral Care**

Carboxylate Luting Cement provides strong molecular adhesion to both enamel and dentin for reduced microleakage. With regular-set or fast-set powder, this fluoride-releasing formula attains a relatively neutral pH value that reduces post-cementation sensitivity. Indications include cementing of crowns, bridges, inlays and onlays and procedures requiring cavity lining.

Intro Kit

Contains: 20gm bottle powder and 4 -14ml liquid calibrated dispensers.

207-38059 Kit **\$125.95**

Triple Pack CD

Contains: 60gm regular set powder and 4 -40ml dispensers of liquid CD and mixing pads.

207-38235 Pack **\$209.95**

Triple Pack Liquid CD

Contains: 40gm bottle of universal liquid, 12 dispensers and mixing pads.

207-3826 Pack **\$141.95**

**MASTER-DENT - Dentonics**

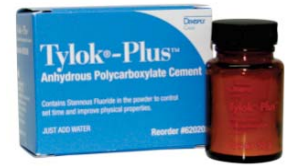

Permanent carboxylate type for cementation and cement base.

Kit

Contains: 60gm powder, 40gm liquid, mixing pad and scoop.

200-10300 Kit **\$33.25**

Powder and liquid available separately upon request.

**Tylok - Plus - Dentsply Caulk**

An anhydrous polycarboxylate cement designed to be mixed with distilled water to activate the polyacrylic acid and initiate the setting reaction. It is indicated for cementation of inlays, onlays, full crown and bridges, fixed orthodontic bands and stainless steel crowns. May also be used as a restorative base or temporary restorative when mixed to a higher powder/water ratio.

Contains: 50gm powder, water dispenser, mixing pad and scoop.

208-620200 Each **\$234.95**

Powder

208-620201 50gm **\$199.95**

**HY-Bond™ Polycarboxylate Cement - Shofu Dental Corporation**

Contains tannin fluoride, which helps seal dentinal tubules, reducing post-operative sensitivity. Chemically bonds to tooth structure and metal appliance. High adhesive strength and extremely low film thickness.

Kit

Contains: 60gm powder, 33ml liquid, dispensers and instructions.

270-1160 Kit **\$124.25**

Powder and liquid available separately upon request.

PERMANENT CEMENT - ZINC PHOSPHATES

**Alpha-Dent® Zinc Phosphate Cement - Dental Technologies**

Specially formulated for superior strength, resistance to dissolution, and oral retention. They are impervious to oral fluids, and thus permanent under oral conditions.

Complete Kit

Contains: 32gm powder, 16.5ml liquid, measuring scoop and instructions.

Light Yellow 200-601000

Snow White 200-603000

Kit **\$9.45**

Powder and liquid available separately upon request.

PERMANENT CEMENT - ZINC PHOSPHATES

Fleck's Zinc Phosphate Cement - Keystone Industries

Zinc phosphate type cement ideal for permanent cementation of crowns and bridges, also used as a base liner.

------------	---------------	----------------

TempoCem - DMG America

Zinc oxide/eugenol temporary cement designed for use with all types of provisionals. The presence of eugenol provides a "sedative" effect on the pulp. Used for cementing a provisional restoration during the period between the tooth preparation and seating of the final crown. It is also excellent for cementing in a final restoration during a "try in" period.

Automix Refill Kit

Contains: 63gm cartridge and 40 automix tips.		
200-110300	Kit	\$164.95

TempoCem Automix Soft Refill Kit available upon request.

TempoCemNE

Non-eugenol formula used for cases where the final restoration will be cemented with a resin or resin-reinforced glass ionomer, because eugenol may inhibit resin polymerization.

Automix Refill Kit

Contains: 60gm cartridge and 40 automix tips.		
200-110302	Kit	\$164.95

Smartmix Kit

Contains: 2 -11gm syringes and 10 smartmix tips.

TEMPORARY CEMENT

GC TEMP Advantage® - GC America

Eugenol free zinc oxide temporary cement, contains fluoride, potassium nitrate and chlorhexidine. Used to retain provisional restorations for approximately 30 days while providing an excellent seal and maintaining low sensitivity to the patient. Working time of two minutes and a two minute self-cure. Its smooth consistency, low film thickness and quality make seating the restoration and clean-up simple.

Starter Package

Contains: 7.5gm syringe and 15 mixing tips.
202-136505 Package **\$53.75**

Bulk Package

Contains: 4 -7.5gm syringes (no tips).
202-136507 Package **\$110.25**

Mix Tips

202-136506 15/pack **\$21.75**

NOGENOL™ - GC America

Indicated for temporary cementation of plastic crowns or other provisional restorations. Possesses adequate adhesive strength to resist dislocation and leakage, yet allows for easy removal of crowns with KY pliers. Non-eugenol. Contains: 2 -30gm tubes base and 65gm tube catalyst.

292-136402 Package **\$107.25**

Telio CS Link - Ivoclar Vivadent

Dual-curing luting composite for the esthetic temporary cementation of provisional crowns, bridges, inlays, onlays and veneers. It's particularly suitable for incorporating temporary restorations in the anterior region. Eugenol-free, it's also perfectly suitable for use in conjunction with all-ceramic restorations or lab-fabricated composite restorations that are to be permanently

Contains: 2 -6gm double-push syringes and 10 mixing tips.
Transparent 210-627914
A3 210-627912
Each **\$109.75**

Temp Bond™ - Kerr Restoratives

Temporary cement for trial cementing restorations or cementing temporary crowns and bridges. Withstands mastication, seals the restoration and prevents seepage, yet affords easy removal when desired.

Automix Syringes

Contains: 2 -11.8gm syringes and 20 mixing tips.
209-33215 Pack **\$105.75**

Ti-Core - Essential Dental Systems

Patented, titanium and lanthanide reinforced composite material that matches the strength of dentin. Resists the ditching and grooving during preparation common to composite, glass and resin ionomer core build-up materials.

Contains: 14gm base, 15gm catalyst, mixing pad and plastic spatulas.

- Fast Set Gray 380-80500
- Gray w/fluoride 380-80000
- A3 Natural w/fluoride 380-81000
- A3 Natural Fast Set w/fluoride 380-81500
- Each **\$156.25**

Ti-Core Auto E

Flowable dual cured composite material in Shade Vita A2.

Contains: 4.5gm automix syringe base, 4.5gm automix syringe catalyst, 20 mixing tips and 20 intraoral tips.

- 210-83000 Each..... **\$139.95**

Ti-Core Flow+

Fluoride releasing, dual cured, resin composite core build-up material and post cement all in one. Shade Vita A2.

Contains: 4.5gm automix syringe base, 4.5gm automix syringe catalyst, 20 mixing tips and 20 intraoral tips.

- 210-83200 Each..... **\$153.75**

Intraoral Tips

- 210-83020 20/pkg..... **\$42.25**

Miracle Mix® - GC America

A combination of glass ionomer and spherical amalgam alloy powder. Fluoride release, chemical bonding.

Powder - Liquid Kit

Contains: 15gm powder, 8ml liquid and 17gm alloy powder.

Universal Bond Refill

Light cure adhesive resin system designed to bond to enamel and dentin after acid etching.
220-HT60B 5ml**\$80.95**

Adper™ Easy Bond - 3M Oral Care

A one-step, one-coat self-etch adhesive that provides a fast and easy application, along with strong bonds. Reduces risk of post-operative sensitivity. High marginal integrity and low micro-leakage. Moisture tolerant - works well on wet or dry enamel and dentin.
223-41246 5ml **\$159.95**

Adper™ Scotchbond™ Multi-Purpose - 3M Oral Care

A light-cure system that is designed to handle difficult bonding situations, is fast and easy to apply and offers excellent bonds to a variety of surfaces.

Introductory Kit

Contains: 2 -3ml phosphoric etchant syringes, 8ml primer, 8ml adhesive, 3-well mixing well, brush tips with 3 color-coded handles.

Sil™ Silane - 3M Oral Care

Creates a silane layer on the silicate-coated surface of an indirect restoration to produce a chemical bond between an opaquer and a veneering material.

767-68300 8ml **\$82.45**

BONDING AGENTS

ParaBond - Coltene

Chemical curing, self-conditioning adhesive system for enamel and dentin. Ideal for post cementation, metal crowns, deep cavities or opaque ceramic.

Contains: 3ml Non-Rinse Conditioner, 3ml Adhesive A and 3ml Adhesive B.

384-C7486 Each..... **\$149.95**

A&B Refill

Contains: 3ml Adhesive A and 3ml Adhesive B.

384-C7493 Each..... **\$107.95**

Non-Rinse Conditioner

384-C7494 3ml **\$54.25**

Tenure® Multi-Purpose Bonding System - DenMat

Multi-purpose, self-cure adhesive bonds to enamel, dentin, porcelain, composite and metal.

System Kit

Contains: 6ml Tenure A, 6ml Tenure B, 6ml Tenure S Bond Enhancer, 3ml Tenure S Filled Enhancer, 3ml Etch'N'Seal, 6 - 18ga. syringe tips, 2 dappen dishes and brush-tip handle.

220-031146000 Kit..... **\$318.95**

Individual components available upon request.

Prime & Bond Elect - Dentsply Caulk

A universal dental adhesive system designed to bond resin based materials to enamel and dentin as well as to metals and ceramic. Utilize one of three techniques: selective phosphoric acid etching of enamel only, phosphoric acid etching of both enamel & dentin, or no phosphoric acid etching prior to application, ensuring outstanding bond strength and protection against microleakage.

Intro Kit

Contains: 5ml Bottle Prime&Bond Elect, 3ml Caulk 34% tooth conditioner gel, 25 blue applicator tips, 50 flocked applicator tips, 1 dispensing well.

228-634602 Kit..... **\$155.25**

Dual Cure Intro Kit available upon request.

Prime & Bond NT - Dentsply Caulk

Total-etch adhesive. Combines primer and adhesive in a single bottle. The reduction of components and treatment steps simplifies use, maintaining superior bond strengths and protection against microleakage.

Introductory Kit

Contains: 4.5ml bottle Prime & Bond NT, 40 brush tips, 1 brush handle, 1 dispensing well, laminated directions.

228-634350 Kit..... **\$184.25**

Refill Package

Contains: 2 -4.5ml bottles Prime & Bond NT.

228-634352 Package **\$329.75**

Economy Package

Contains: 3 -4.5ml bottles Prime & Bond NT, 120 brush tips, 1 brush handle, 2 syringes 34% tooth conditioning gel, 75 disposable blue applicator tips and 1 dispensing well.

228-634351 Package **\$474.45**

Dual Cure Intro Kit available upon request.

Unit Dose Kit

Contains: 80 unit dose applications, 4 holders, 100 flocked applicator tips.

228-634356 Kit..... **\$299.75**

Self Cure Activator Refill Kit

Contains: 4.5ml Self Cure Activator.

228-634354 Kit..... **\$185.25**

Amalgam Bonding Accessory Kit

Contains: 3ml amalgam bonding base and 3ml amalgam bonding catalyst.

228-634402 Kit..... **\$184.25**

Prime & Bond XP - Dentsply Caulk

A one bottle, one coat system indicated for all direct restorations and when combined with the Self Cure Activator, becomes a universal adhesive for all indications and techniques.

220-60667281 5ml **\$155.25**

Mini Kit and Economy Kit available upon request.

ProBOND - Dentsply Caulk

Two component, no mixing total-etch bonding agent. Strong bond strengths to dentin, metals, enamel, porcelain and amalgam.

Standard Package available upon request.

G-aenial Bond™ - GC America

Self-etch with dentin and etch-and-rinse with enamel. This selective-etch technique leads to increased bond strengths, while retaining the quick and easy application and exceptional handling professionals love.

Starter Kit available upon request.

Refill

222-004220 5ml **\$131.95**

BONDING AGENTS

G-Bond™ - GC America

Etch, desensitize, prime and bond all with one, 30 second application. Ideal for bonding light-cured composites, compomers and dual-cured cements and core build-up materials (light-cure mode) to tooth structure.

Starter Kit

Contains: 5ml bottle, 50 disposable applicators and 1 dispenser tray.
222-002277 Kit..... **\$185.75**

Unit Dose Kit

Contains: 50 -0.1ml unit doses and 50 disposable applicators.
222-002302 Kit..... **\$208.75**

GC Cavity Conditioner

Used to condition the bonding surface of the tooth prior to using glass ionomer restoratives, bases, liners or core build-up materials. 10 second application. 20% Polyacrylic Acid. Deep Blue tint.
272-430106 5.7ml **\$67.95**

G-Premio BOND™ - GC America

Light-cured adhesive. Use in all total-etch, self-etch and selective etch bonding techniques. Low pH provides effective and consistent bonding. Up to 5 minutes working time.

Syringe and Unitip Intro Kits available upon request.

Bottle Refill

220-009277 5ml **\$137.45**

Unit Dose

Contains: 50 -0.1ml unit doses and 50 fine disposable applicators.
220-009276 Each..... **\$161.45**

Gluma Comfort Bond + Desensitizer - Heraeus Kulzer

Bonding agent and Gluma Desensitizer combined to prevent hypersensitivity. The desensitizer is included in every bonded restoration without the need of the extra bottle or extra steps of applying separately. No mix application for all direct and indirect restorations. Contains 4-Meta, suitable for amalgam restorations.
220-25152 4ml **\$206.75**

Economy Pack

Contains: 3 -4ml bottles.
230-25154 Pack **\$562.75**

iBond® Self Etch - Heraeus Kulzer

All-in-one bonding agent, prime, bond and desensitize with just one application. Fast, efficient and reliable. Use for direct composite restorations and sealing of hypersensitive areas of the teeth.
220-66046242 4ml **\$171.75**

Value Pack

Contains: 3 -4ml bottles.
220-66046243 Pack **\$385.95**

Single Dose Assortment available upon request.

iBond® Total Etch - Heraeus Kulzer

An Etch & Rinse 2-step bonding system. Due to the innovative nano-filler technology, not only attains high bond strengths to both enamel and dentin, but also ensures optimal marginal adaptation— and is ideal for desensitizing hypersensitive areas.

Refill

Contains: 4ml bottle and 50 applicator tips.
220-66040094 Each **\$176.45**

Value Pack

Contains: 3 -4ml bottles.
220-66039867 Pack **\$415.75**

Single Dose Refill

Contains: 50 single doses and 50 applicator tips.
220-66040093 Each **\$221.25**

Single Dose Value Pack available upon request.

iBond® Universal - Heraeus Kulzer

A universal, light-curing adhesive for any bonding technique and all indications. Unique moisture control with easy and precise application.

220-66061411 4ml **\$126.45**

Primer

220-66061416 4ml **\$90.95**

229-25882 8ml **\$150.45**

Unidose Bulk Pack

Contains: 50 Unidose Packs (15.5gm total). Each pack contains 1 each: Unidose Prime (yellow), Unidose Adhesive (black), and applicator.

229-33352 Pack **\$364.75**

OptiBond™ Solo Plus™

Fluoride releasing bonding agent designed for bonding all direct and indirect restorative materials. 15% fluoride. Available in unidose delivery to prevent cross contamination.

Bottle Kit

Contains: 2 -5ml OptiBond Solo Plus adhesive, 3gm gel etchant syringe, 20 gel etchant syringe tips, 25 disposable mixing wells and 100 disposable applicator tips.

229-29670 Kit **\$376.45**

Bottle Refill

229-31513 5ml **\$181.45**

Unidose Kit

Contains: 100 -0.10ml unidose packets 3gm gel etchant syringe, 20 gel etchant syringe tips, and 100 disposable applicator tips.

229-29682 Kit **\$376.45**

Unidose Refill

Contains: 100 -0.10ml unidose packets (10ml total).

229-29669 Each **\$339.45**

BONDING AGENTS

OptiBond™ XTR - Kerr Restoratives

Self-etch, light-cure universal adhesive stands apart as the only bonding agent that embodies both the power and durability of a total-etch adhesive and the simplified protocol of a self-etch technique. The unique chemistry in this 2-bottle system brings outstanding bond strengths to uncut enamel and dentin.

Bottle Intro Kit

Contains: 5ml Bottle Self-Etching Primer, 5ml bottle universal adhesive, 100 applicators and 25 four-cavity mixing wells.

229-35106B Kit..... **\$204.75**

Unidose Intro Kit

Contains: 50 -0.18ml unidose self-etching primers, 50 -0.18ml unidose universal adhesives and 100 applicators.

229-35105B Kit..... **\$303.75**

Primer

229-35107 5ml..... **\$116.45**

Adhesive

229-35108 5ml..... **\$116.45**

Clearfil DC Bond - Kuraray America, Inc.

Self-etching, single step, dual-cure bonding agent. Durable bond strength for direct and indirect restorations. Low postoperative sensitivity.

Complete Kit

Contains: 4ml Bond A, 4ml Bond B, 50 disposable brush tips, 1 brush tip handle and mixing dish.

220-2510KA Kit..... **\$232.25**

Bond A

220-2512KA 4ml..... **\$119.95**

Bond B

220-2513KA 4ml..... **\$119.95**

Clearfil Liner Bond 2V

Light-cure bonding agent with dual-cure option available (Bond B). Indicated for direct or indirect restorations, composite and amalgam bonding, fractured porcelain repairs, desensitizing crown preps and cervical areas.

Complete Kit

Contains: 6ml Primer A, 6ml Primer B, 5ml Bond A, 3ml Bond B, 1 sponge pledget, 1 mixing dish, 1 light-blocking plate, 1 system tray, 1 white brush holder and 50 disposable brush tips.

220-213920 Kit..... **\$307.45**

Primer A

220-213943 6ml..... **\$65.25**

Primer B

220-213944 6ml..... **\$65.25**

Bond A

220-213930 5ml..... **\$167.45**

Bond B

220-213931 3ml..... **\$93.45**

Clearfil New Bond

Chemical-Cure Bonding Agent. Clearfil New Bond is a self-cure enamel and dentin bonding agent used with total-etch technique.

Catalyst

220-212053 6ml..... **\$100.95**

Universal

220-212054 6ml..... **\$100.95**

Clearfil Photo Bond

A dual-cure dentin, enamel, and porcelain* bonding agent developed for use with light, self or dual-cure restorative materials. *(When mixed with Clearfil Porcelain Bond activator).

Kit available upon request.

Catalyst

220-212073 6ml..... **\$93.45**

Universal

220-212074 6ml..... **\$93.45**

1:1 Set

Contains: 6ml catalyst and 6ml universal.
220-212075 Set..... **\$181.25**

Clearfil Porcelain Bond Activator

Silane coupling agent, which in combination with SE Bond Primer or Clearfil Liner Bond 2V Primer, Clearfil New Bond or Clearfil Photo Bond guarantees a strong adhesion to porcelain and composite restorations.

220-212061 4ml..... **\$95.75**

Alloy Primer

220-213064 5ml..... **\$84.45**

Clearfil® S³ Bond Plus

A light-cure, self-etching one-bottle bonding agent that provides significantly reduced postoperative sensitivity, high bond strength, along with being very easy and fast to use. Minimal technique sensitivity, and is indicated for light-cure composites, desensitizing indirect preparations, desensitizing dentin, PFM repairs, silanating porcelain, and is especially excellent for use in pedodontic restorative procedures where speed and comfort are very critical. Fluoride releasing.

Contains: 4ml Bond, 1 light blocking plate, 1 mixing dish and 50 fine applicators tips.

220-2890KA Each..... **\$147.75**

Single Dose Standard Pack

Contains: 50 -0.1ml unit dose applications.

220-2898KA Pack..... **\$173.95**

Value Pack

Contains: 3 -4ml bottles.

220-2893KA Pack..... **\$285.95**

Unit Dose Standard Pack

Contains: 50 -0.1ml unit dose applications.

220-2899KA Pack..... **\$325.95**

Clearfil SE Bond

Simple and easy, self etching, light-cured bonding agent. It soothes dentin immediately upon contact and virtually eliminates post-operative sensitivity.

Starter Kit

Contains: 6ml primer, 5ml bond, 2 brush holders, mixing dish, light-blocking plate, outer case and 100 disposable brush tips.

220-13970 Kit..... **\$222.95**

Value Kit

Contains: 3 -6ml primer, 3 -5ml bond, 2 brush holders, mixing dish, light-blocking plate, outer case and 300 disposable brush tips.

220-1972KA Kit..... **\$528.75**

Restorative Kit available upon request.

White, 4-hole.
230-902 Each..... **\$4.95**

BONDING AGENTS

Clearfil SE BOND 2 - Kuraray America, Inc.

Universal Adhesive for direct and indirect restorations. Can now be used with CLEARFIL DC Activator to create a dual-cure bonding agent for use with all indirect restorations and core build-up composites. Excellent bond strength to enamel and dentin; new catalyst chemistry for stronger bonds. Ideal for bulk-fill composites. Low film thickness for indirect restorations. Stable & durable surface treatments for all restorations (Zirconia, etchable ceramics & metal restorations). Simple, proven procedure -no hidden steps; no shaking or scrubbing required.

Intro Kit

Contains: 6ml Primer, 5ml Bond, dispensing dish, light blocking plate, outer case and 50 applicator brushes.

220-3270KA Kit..... **\$201.95**

Value Kit

Contains: 3 -6ml primer and 3 -5ml bond.
220-3272KA Kit..... **\$497.95**

Bond

220-3281KA 5ml..... **\$142.95**

Primer

220-3282KA 6ml..... **\$61.25**

Clearfil DC Activator

220-3250KA 4ml..... **\$84.45**

Brush Tips

220-968 50/pack..... **\$11.45**

Clearfil SE Protect

Contains the same proprietary self-etching, light-cure technology of Clearfil SE Bond, plus two additional proprietary technologies: long-term Fluoride-releasing and the MDPB monomer, which has a similar level of antibacterial cavity cleansing effect as existing cavity cleansers. Very easy and fast to use, has maximum marginal leakage protection, very high dentin bond strength, and almost zero post-operative sensitivity.

Starter Kit

Contains: 6ml primer, 5ml bond, 2 brush holders, mixing dish, light-blocking plate, outer case and 100 disposable brush tips.

220-2870KA Kit..... **\$233.25**

Value Kit

Contains: 3 -6ml primer, 3 -5ml bond, 2 brush holders, mixing dish, light-blocking plate, outer case and 300 disposable brush tips.

220-2872K Kit..... **\$574.25**

Primer

Bond

220-2881KA 5ml..... **\$150.25**

Clearfil Universal Bond

A single-component, light-curing bonding agent indicated for all direct or indirect restorations in combination with all etching techniques (Total-Etch, Self-Etch or Selective Etch). It is also indicated for the surface treatment of zirconia and silica-based glass ceramics (lithium disilicate).

Standard Kit - Bottle

Contains: 5ml bond, 3ml K-Etchant, mixing dish, light-blocking plate, 50 fine applicator brushes and 20 needle tips.

220-3290KA Kit..... **\$145.95**

Value Pack - Bottle

Contains: 3 -5ml.
220-3293KA Pack..... **\$254.45**

Bond

220-3292KA 5ml..... **\$121.45**

Unit Dose delivery format available upon request.

Amalgambond® PLUS - Parkell Inc.

Chemically bonds amalgam to dentin, enamel and old amalgam.

Complete Kit

Contains: Dentin/enamel activator, adhesive agent, Amalgambond base and catalyst, high performance additive powder and accessories.

220-S370 Kit..... **\$279.75**

“C” Universal TBB Catalyst

220-S378 0.7ml..... **\$201.95**

Amalgambond B Base

220-S372 5ml..... **\$62.95**

HPA Powder

220-S376 2gm..... **\$8.75**

Accessory Kit available upon request.

BluSep™ - Parkell Inc.

Anti-bonding agent. Brush onto surfaces that you don't want to bond to. Dries quickly. Forms a flexible plastic film, just 20 microns thick. Water soluble. Blue.

220-S385 5ml..... **\$52.75**

Brush & Bond® - Parkell Inc.

An easy-to-use, high-strength bonding agent that protects and desensitizes your crown preps too! Bonds direct and indirect composite restorations to all tooth surfaces. Permanently seals the tubules to prevent sensitivity. Protects the pulp against microleakage and bacterial invasion. Creates an acid- and wear-resistant shield for the tooth. Doubles the surface hardness of the preparation.

Contains: 3ml liquid, mixing well and 100 standard activator brushes.

220-S284 Pack..... **\$153.25**

Bonding Liquid

220-S285 3ml..... **\$92.95**

Initiator Brushes

Mini Endo Activator Brushes

220-S287 100/pkg..... **\$73.45**

Touch & Bond® - Parkell Inc.

Self-etching. Creates strong bonds to dentin and prepared enamel. Extraordinarily thin film -only 3 microns -ideal for direct composites and indirect restorations. No post-op sensitivity. Can be used with light-cure or self-cure composites. Requires a halogen curing light.

Contains: 5.5ml liquid, 175 activator pledgets, 50 mini-brushes and organizer.

200-S280 Kit..... **\$153.25**

BONDING AGENTS

Bond-1™ Primer/ Adhesive - Pentron Clinical

Single-bottle moist dentin total-etch bonding system, is easy to use, provides high bond strengths and helps eliminate sensitivity.

Proven to create an ideal sealed surface and interpenetrated network of the polymerized primers and unfilled resin, Bond-1 Primer/Adhesive yields high bond strengths with film thickness of only 8µm. Its ease of application, combined with its low film thickness, assures the ideal surface to bond to all types of restorative materials.

220-N011AA 4ml **\$74.75**
220-N011AB 6ml **\$102.95**

Dual Cure Activator

220-N011AC 3ml **\$33.75**

Bond-1™ SF

Solvent Free. Solvents such as acetone, alcohol, or water, are found in all bonding agents on the market. These solvents can be inadvertent contributors to weakened bond strengths and post-operative sensitivity. Bond-1 SF Solvent-Free SE Adhesive helps solve these common problems.

Contains: 2 -1ml syringes and flocked needle tips.

220-N03N Each..... **\$49.45**

Bond-IT® - Pentron Clinical

Provides a bond strength of 29.4 MPa and virtually eliminates post-operative sensitivity. The bonding system's familiar technique and chemistry assures the ideal surface to which any restorative material may be bonded to direct or indirect composite, porcelain, metal and amalgam alloy.

Bond-it System Kit available upon request.

Primer A

220-N01A 6ml **\$53.45**

Primer B

220-N01B 6ml **\$46.95**

Light-Cure Resin

220-N01D 6ml **\$40.45**

Dual-Cure Activator

220-N01E 3ml **\$27.75**

IntegraBond™ - Premier® Dental

5th generation, universal bonding agent for all bonding procedures to dentin and enamel. 10 micron film thickness for easy flow. Creates a strong chemical and mechanical bond to dentin to form and impenetrable seal between tooth and composite overlay. Can be used with Auto Cure Activator to provide anaerobic curing for post and prosthetic cementation.

Universal Bonding Agent

227-3001411 7ml **\$111.75**

Auto Cure Activator

227-3001412 7ml **\$111.75**

DenTASTIC™ UNO™ - Pulpdent Corporation

Combines the patented PMGDM adhesive primer with a hydrophilic resin and acetone solvent into a single component adhesive which bonds to tooth and restorative surfaces with exceptional strength. It is light-cured and is compatible with all restorative composites, filled and unfilled resins and resin cements.

Starter Kit

Contains: 2 -6ml bottles, 5ml Etch-Rite Gel, 20 applicator tips, 50 brush tips, brush handle.

220-UNO Kit..... **\$157.45**

Refill Bottle

220-UNOR 6ml **\$82.45**

Dry-Rite™ Drying Agent - Pulpdent Corporation

For complete chemical drying of enamel or restorative surfaces when residual moisture may affect bonding and cementation. Dispenses one drop at a time from a bottle or syringes.

Contains: 4 -1.2ml syringes, 8 dropper tips.

220-DRY Kit..... **\$16.45**

Refill

Contains: 1oz. bottle with dropper spout.

220-DRY1 Each..... **\$8.75**

Silane Bond Enhancer - Pulpdent Corporation

A single component material that increases bond strength of resin to porcelain. Apply silane to porcelain after etching with Porcelain Etch Gel and drying with Dry-Rite. Conveniently dispenses one drop at a time from the syringe.

Kit

Contains: 4 -1.2ml syringes and 8 dropper tips.
220-SIL Kit **\$44.25**

Refill

220-SIL3 3ml **\$25.95**

Silane Primer

229-23448 5ml **\$86.45**

BeautiBond - Shofu Dental Corporation

Featuring a stable, unit-dose delivery, BeautiBond is fast and easy to use. A single application of the dual adhesive monomers requires just 30 seconds for a durable, predictable bond.

Contains: 50 -0.1ml unit doses and 50 fine, pink microbrushes.

220-1782 Kit..... **\$150.45**

Bottle Refill

220-1781 6ml **\$150.45**

Copalite SnapBond® - Temrex Corporation

One-step dentin bonding agent that bonds, desensitizes and adheres to both dentin and tooth anatomy.

220-400047 6.25ml **\$79.75**

BONDING AGENTS

Bond Force - Tokuyama Dental America, Inc.

A seventh generation single component, self-etching, fluoride releasing bonding agent. With the patented SR monomer, creates a 3-D link to the tooth generating an extremely strong bond to enamel and dentin. Requires only one application, and is designed to be used on both cut/uncut enamel and dentin.

Kit
Contains: 5ml bottle, 50 disposable brushes and 1 mixing well.
220-14912 Kit..... **\$124.95**

Bottle Refill
220-14932 5ml **\$102.95**

Prelude Adhesive System - Zest Dental Solutions

Primer is water based with a methacryl phosphate and hydrophilic monomer to condition the tooth prior to restoration. The adhesive, used by itself, without the self-etching primer, serves as a superior total-etch adhesive when total etch technique is preferred.

Contains: 5ml primer and 5ml adhesive.
230-91024 Each..... **\$152.25**

ETCHANTS

Etch Gel

Viscous 40% phosphoric solution. For use on dentin and enamel. Material will stay and not flow onto surrounding tissue. Leaves no residue, rinses away clean with water.

4 -1.2gm Kit: 4 -1.2gm prefilled syringes and 20 -22 gauge blue pre-bent applicator tips.
220-10003 Kit..... **\$16.95**

12 -1.2gm Kit: 12 -1.2gm prefilled syringes and 60 -22 gauge blue pre-bent applicator tips.
220-10004 Kit..... **\$40.95**

1 -12gm Kit: 12gm prefilled syringes and 3 -22 gauge blue pre-bent applicator tips.
220-10005 Kit..... **\$12.45**

1 -60gm Kit: 60gm syringe etchant, 50 -22 gauge pre-bent applicator tips, 5 -3cc empty delivery syringes.
220-10006 Kit..... **\$38.95**

Scotchbond™ Etchant - 3M Oral Care

Used to etch enamel and/or dentin as indicated in the instructions provided with the various adhesive systems. Phosphoric acid.

CARIES INFILTRATION

Icon® Caries Infiltrant - DMG America

Fills the gap between prophylaxis and filling. In addition, this treatment optically blends in the lesion with the healthy enamel. This innovative method can therefore be used for esthetic treatments of front teeth, where appearance plays an important role.

Smooth Surface - Mini Kit

Micro-invasive treatment of enamel-restricted, non-cavitated caries on smooth surfaces.

Gentle method for counteracting cariogenic white spots – with an esthetic side effect. No unnecessary loss of healthy hard tissue. User-friendly and patient-friendly application.

Contains: 2 Patient Packs which include 0.3ml syringe Icon-Etch, 0.45ml syringe Icon-Dry, 0.45ml Icon-Infiltrant and 6 smooth surface tips.

230-220402 Kit..... **\$175.75**

Proximal - Mini Kit

Micro-invasive treatment of early, non-cavitated caries in the proximal area. Tooth friendly filling by infiltration – no drilling needed. Gentle therapy approach for difficult to reach proximal lesions in just a few steps.

Contains: 2 Patient Packs which include 0.3ml syringe Icon-Etch, 0.45ml syringe Icon-Dry, 0.45ml Icon-Infiltrant, 6 proximal tips and 4 Dental Wedges.

230-220400 Kit..... **\$175.75**

7 Patient Packs available upon request.

The Goal: to be as beautiful as nature

For 50 years, dental professionals around the world have used the VITA® classical (Lumin Vacuum) shade guide for their shade selection needs. The 16 shades in this revolutionary guide have earned a permanent home in the international lexicon of dental terminology; whenever a familiar shade from this invaluable guide is prescribed (such as A2 or C1), it is for the sole purpose of providing satisfaction to both dentist and patient.

The 3D-MASTER Shade System provides a systematic arrangement of virtually all existing natural tooth shades and integrates them into one easy-to-use shade guide.

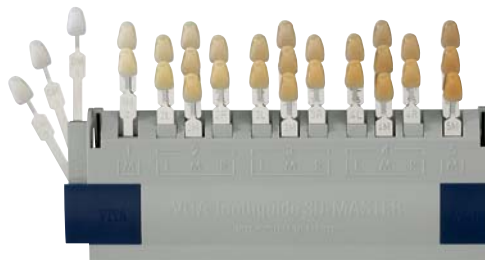

The VITA 3D-MASTER Shade System dramatically improves the communication between the dentist and dental technician. The VITA Bleachedguide 3D-MASTER offers dental professionals an intuitive shade guide specifically designed for planning and monitoring tooth whitening regimens. This guide offers 15 3D-MASTER shades, including 7 new intermediate shade tabs that simplify the whitening prognosis.

Filtek™ One Bulk Fill - 3M Oral Care

Designed for the posterior, its optical properties and increased opacity allow for the simplicity of one-step placement without compromising esthetics. Can be placed in a single increment up to 5mm with no need for layering or expensive dispensing devices.

- Contains: 20 -0.02gm capsules.
- A1 210-4867A1
 - A2 210-4867A2
 - A3 210-4867A3
 - B1 210-4867B1
 - C2 210-4867C2
 - Each **\$89.95**

Syringe delivery format available upon request.

Filtek Bulk Fill Flowable

Designed for use in posterior indications where time and steps can be saved by reducing the need to incrementally place layers of composite. It can be bulk placed and cured to a depth of 4mm. Offers low stress and shrinkage, great wear resistance and strength, and high radiopacity. The delivery comes in both syringe and capsule, which are colored with bright orange accents for easier identification.

Syringes

Contains: 2 -2gm syringes and 20 dispensing tips.

COMPOSITE - UNIVERSAL

NanoHybrid Composite

This light activated NanoHybrid Composite contains nano-sized particles, which combined with regular silica and barium glass composes a state-of-the-art nano-filler system. It is a high viscosity composite that will resist sticking to instruments, yet will have sufficient flow to adapt to the walls of the cavity preparation. It is radio-opaque and provides high compressive and flexural strengths along with a low water uptake. This NanoHybrid Composite can be used in all classes of direct dental restorations.

Filtek™ Supreme Ultra Flowable Restorative - 3M Oral Care

Offers enhanced esthetics, excellent physical properties and flow-on-demand handling. Esthetic features including polish retention and fluorescence have been improved over our current flowable. Dentists can be confident of its dependability because of its high wear resistance and very low shrinkage. It can be used for a wide range of indications and is now available in unit dose capsules, which addresses hygienic concerns and is trusted by dentists.

APPLICATOR TIPS & BRUSHES

Mini-Sponge Applicator - Dentonics
230-37000 200/box \$14.95

Micro Applicators - Hager Worldwide
A disposable micro-applicator, specially designed for rapid application of minute amounts of materials in limited access areas. Composed of tiny, non-linting fiber tips. The plastic neck of the applicator can be bent to a suitable angle for maximum accessibility.
Quick Tips - Regular White
230-605222 100/box \$16.75

Super Quick-Tips - Regular White
Flexible tapered ends maintain desired angle for application in difficult areas.
230-605227 100/pkg..... \$21.95

Econo Tips - Fine
Bendable polypropylene. Micro fine-point tip. Comes with an easy to use dispenser.

CURING LIGHTS

Bluephase® Style LED Curing Light - Ivoclar Vivadent

Curing light that uses Polywave LED technology for halogen-like wavelength output to polymerize all light-cure dental materials known to date. Light weight pen style design with cordless freedom, high-tech lithium polymer battery and inductive charging system with no contacts. "Click and Cure" provides corded backup to battery. 1,100 mW/cm² of continuous light output and 10 mm standard probe covers large tooth restorations in one use. 3-year warranty (1 year warranty on battery). 100-240v.

Contents: 1 handpiece, 1 -10mm probe, 1 power pack, 1 charging base, 1 power cord, 1 lithium polymer battery and anti-glare cones.

Polycarbonate Crowns

Made of a polycarbonate resin with microglass fibers for short or long term adult anterior and bicuspid use.

Complete Set of 180

Contains: 2 of each size and mold guide.
263-C180 Set \$495.95

Iso-Form Crowns

Made of Tin-Silver alloy. Short term, molar and bicuspid use. Pre-finished, belled and contoured.

Molar Crown Complete Set

Contains: 2 of each size and 1 stackable tray.
263-MC64 64/set \$351.95

Bicuspid Crown Complete Set

Contains: 2 of each size and 1 stackable tray.
263-BC64 64/set \$349.95

Stainless Steel Crowns

Prefabricated stainless steel crowns for short or long term use. Pre-trimmed, belled and crimped.

Primary Molar Crown Complete Set

Contains: 2 of each size and 1 stackable tray.
263-ND96 96/set \$672.95

Permanent Molar Crown Complete Set

Contains: 2 of each size and 1 stackable tray.
263-PO96 96/set \$672.95

How the best perform

Stainless Steel Pedo Crowns - Hu-Friedy

Pre-trimmed and crimped, for quick and simple placement. Accurate occlusal anatomy that mimics the natural tooth. Ideal occlusal thickness, offering superior resilience to abrasion and perforation. Soft, adaptable gingival margin and lateral areas for simpler and effortless trimming and crimping, if needed.

Introductory Kit

Contains: 48 Crowns (1 of each size).

DISPOSABLE SYRINGE TIPS

Air/Water Syringe Tips

Excellent alternative to typical metal auto-clavable tips. The disposable tips have an inner core water chamber that seats into the syringe, eliminating water contamination in the air chamber. The unique quad core design ensures instant dry air, prevents cross contamination, and delivers superior air/water spray.

Health-Tec syringes feature an O-ring groove that secures tip lock for patient safety and eliminates leakage.

- Clear.....540-HT250C
- Assorted Colors.....540-HT250A
- 250/bag **\$47.75**

- Special stainless steel alloy with uniform structure and flexibility for maximum resistance to fracture.
- Contoured, ribbed handle provides exceptional tactile control and reduces finger fatigue.
- Pre-applied, 1mm silicone stop.
- High separation resistance.
- Can be sterilized by autoclave or dry heat up to 390° F. Certification #3630.

HyFlex EDM

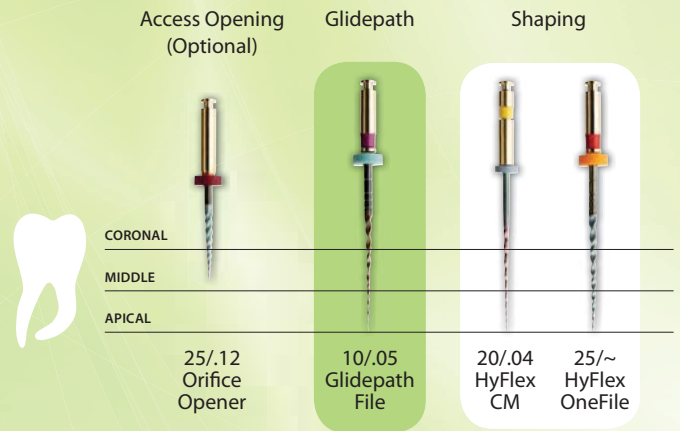

Fewer Files Required for Canal Preparation

HyFlex EDM for Straight Canals

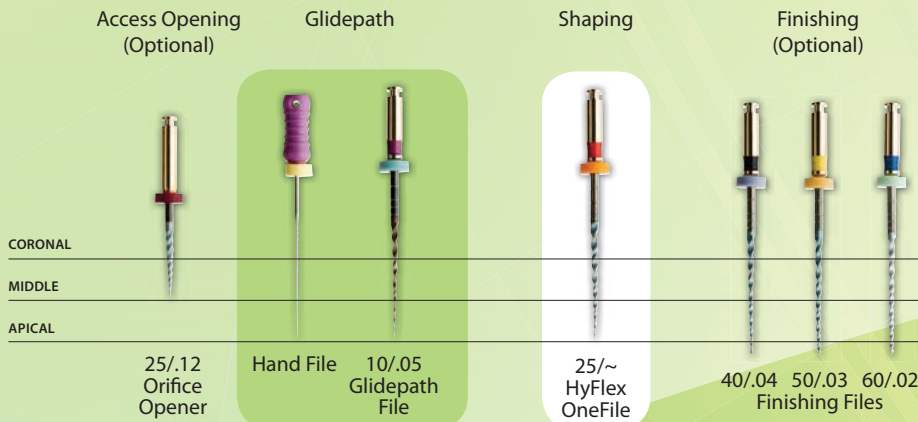

Depending on the clinical situation, use of HyFlex EDM files reduces the number of files required to 2 to 3 instruments, particularly in straight and larger canals.

HyFlex EDM + HyFlex CM for Curved Canals

A combination of HyFlex EDM and CM files is recommended for canals with medium curvature (500 rpm; 2.5 Ncm (25 mNm)).

HyFlex EDM System

All HyFlex EDM Files can be used at 500 rpm and at a torque of up to 2.5 Ncm (25 mNm) except the glidepath files, which can be used with 300 rpm and at a torque of up to 1.8 Ncm (18 mNm).

*OneFile (25/~) is constructed with a variable taper

HyFlex GPF

Glide Path Files

An established glide path can reduce torsional stress and increase the lifespan of the rotary instrument used for canal preparation, decrease chance for transportation and ledging that often occurs with hand instrumentation, lessen hand fatigue and save valuable chair time. HyFlex® GPF™ will permit the clinician to negotiate working length quickly and efficiently. The HyFlex® GPF™ Controlled Memory Files track well in the apical third and allow safer, more efficient preparations. They are available in 21, 25 and 31mm lengths.

READY•STEEL™ FLEXOFILE®

STAINLESS STEEL

Intermediate-size hand files used in combination with regular ISO files let you gradually move on to the next file size. Safeguarded non-cutting Batt® Tip reduces the chance of ledging. Made from a triangular blank for flexibility in curved canals. Pre-inserted silicone stops to save you time and money.

READY•STEEL™
C+ FILE
 ULTRA STIFF

STAINLESS STEEL

Delivers superior strength for accessing difficult or calcified canals. Due to its unique taper, the C+ File features an even higher degree of ultra-stiffness to negotiate your most challenging canals. Up to 300% gain in resistance to buckling. Unique taper for ultra-stiff design. Calibration rings for easy depth determination. Pyramid-shaped tip for easy penetration. Highly polished for debris removal and smooth insertion into the canal. Square section for resistance to distortion and increased safety.

TF® – Twisted Files

70% more flexible than other rotary NiTi files.*
The proven design of TF significantly reduces file breakage and allows you to work with greater efficiency and confidence. The TF sequence requires just 3 files for most cases. TF's helical angle design and improved surface finish ensure fast, ideal canal shaping every time. TF provides unsurpassed safety and ease of use.

TF Adaptive Files

TF Adaptive is an first of its kind innovation in the industry. Designed to work with our Elements™ Adaptive Motion technology to give you exceptional file control through the entire procedure by self adjusting to intra-canal torsional forces.

The intuitive color-coded system features a simple 3-file technique and gives you 70% greater flexibility than other NiTi files.

Obturator

A gutta percha based carrier obturation system for sealing root canals. Obturators are for use with hand files or rotary files.

- Twist-off handle and built-in post space
- Thinner core for greater flexibility to navigate curved canals
- More gutta percha, fills up to .10 taper

TF Obturators

6 per Pkg. – \$52.45

Apex ID™

Apex ID is an incredibly compact unit that continually calibrates to provide stable readings and clear audio-visual cues, which enable you to focus on what's really important — providing the best care for your patients.

- “Zero point” customizing based on your clinical judgement.
- Accurate readings in almost any canal condition.
- Continuous calibration for uninterrupted readings in real-time.

Apex ID 770-9720090 \$839.45

MiniEndo II Ultrasonic Unit

The MiniEndo II is a sleek, compact ultrasonic unit designed specifically for endodontic applications and to deliver just the right amount of power and amplitude at the tip to successfully complete endodontic procedures.

MiniEndo II Ultrasonic Unit Type S, 110v	779-9730236	\$1,775.25
Wrench for Ultrasonic Tips	770-9730096	\$14.75
MiniEndo Handpiece (M3x.6) Type S	779-9730201	\$671.45

Pulp Canal Sealer™

Pulp Canal Sealer is a zinc oxide eugenol sealer with a powder base and liquid catalyst. It is a non-toxic and non-irritating formulation that is very radiopaque. Pulp Canal Sealer EWT features a work time of greater than 6 hours on the pad.

Pulp Canal Sealer	209-24875	\$209.75
Pulp Canal Sealer- EWT	209-24746	\$214.45
Pulp Canal Sealer- Liquid Refill CS4	209-24873	\$27.95
Pulp Canal Sealer- Powder Refill CS4	209-24874	\$179.95
Pulp Canal Sealer- EWT Powder Refill CS4	209-24745	\$179.95

Xpress Sealers

Three of SybronEndo's classic sealers now boast a new delivery method to help simplify setup, delivery and cleanup. Sealapex®, Tubli-Seal™ and Tubli-Seal™ EWT are now available in automix syringes. These syringes offer easy mixing at your fingertips in a perfect 1:1 ratio without worry and without manual mixing.

Sealapex Xpress (2 – 10.5g syringes)	209-33639	\$98.45
Tubli-Seal Xpress (2 – 10.7g syringes)	209-33640	\$98.45
TubliSeal EWT Xpress (2 – 10.8g syringes)	209-33641	\$98.45
50 mixing tips	209-33680	\$50.25

SimpliSeal®

SimpleSeal™ is a paste–paste, dual component root canal sealer delivered in a convenient dual barrel syringe.

- Excellent handling characteristics
- Outstanding chemical and physical properties
- Biocompatibility

It can be used for all established and more recent root canal sealing techniques, and is suitable for the single-point method, thermoplastic methods and all condensation techniques.

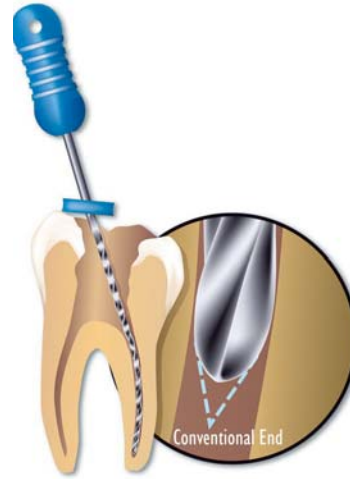

SimpliSeal	330-9720082	\$97.25

CANAL PASTES & SEALERS - TEMPORARY

Calasept® Calcium Hydroxide - Directa Dental Group

The high concentration of calcium hydroxide means long-lasting release of calcium ions. Air tight syringes eliminate the risk of incorporating air turning the material into calcium carbonate. Bactericidal effect on carious dentine. Direct, quick and easy application.

Large Kit

Contains: 4 - 1.5ml syringes, 20 luer lock needles.
334-6004U Kit..... \$65.95

Small Kit

Contains: 2 - 1.5ml syringes, 20 luer lock needles.
334-6002U Kit..... \$37.95

Luer Lock Needles

334-6003U 100/pack..... \$59.75

TempCanal™ Enhanced - Pulpdent Corporation

Enhanced with pH>12 and provides full benefits of calcium hydroxide in root canal therapy. Replaces hazardous formocresol. Flows through 27ga. x 25mm endodontic irrigation needles with 2 side-vents for controlled placement and uniform coating of canal walls and with a closed end to prevent overfills.

Kit

Contains: 3ml syringe, 12 endo irrigation needles (27ga. x 1" with 2-sided vent).

330-TEK Kit..... \$48.95

Refill

330-TE3 3ml \$35.95

Accessories available upon request.

CANAL PASTES & SEALERS - PERMANENT

MTA-FILLAPEX - Angelus Dental

Biocompatible root canal sealer with excellent radiograph visibility. Helps bone and tissues regrow. Easy handling and easy removal. Working time of 23 minutes and Setting time of 130 minutes, ideal to complete all steps of endodontic filling.

Tubes

Contains: 12gm base, 18gm catalyst and 1 mixing pad.

330-826 Each..... \$106.75

Automix

Contains: 4gm double barrel syringe, 10 automixing tips and 1 mixing pad.

330-827 Each..... \$19.45

Mixing Tips

330-158 10/pkg \$7.25

Hygenic® CRCS® Calciobiotic Root Canal Sealer - Coltene

Used along with gutta percha for permanent obturation of the root canal in accordance with ISO 6876 for Dental Root Canal Sealing Materials.

Contains: 14ml bottle of liquid with eye dropper, glass slide and 36 powder blisters.

335-03534 Each..... \$79.75

Powder

Contains: 24 powder blisters.

335-05694 Each..... \$60.25

AH 26® Root Canal Sealer - Dentsply Maillefer

This resin-based, non-acrylic, eugenol-free sealer is used with gutta-percha, Densfil obturators or silver points. It is radiopaque, has a work time of 4-6 hours, a set time of 9-15 hours and is suitable for cold and warm obturation techniques.

Complete Package

Contains: 8gm powder and 10gm liquid.
338-667000 Package **\$111.95**

Refill

Contains: 10gm tube.
338-667002 Each..... **\$49.25**

AH Plus® Root Canal Sealer - Dentsply Maillefer

Resin-based formula with excellent radiopacity, low shrinkage, low solubility and outstanding flow characteristics. It features a paste-to-paste mixing system with a 1:1 ratio for fast, easy preparation and less waste. Silver free.

Complete Package

Contains: 4ml Paste A, 4ml Paste B.
338-667003 Package **\$116.45**

AH Plus Jet®

A two component paste root canal sealer used for permanent sealing based on epoxide-amine resins. This dispenser ensures that the paste is mixed in an ideal ratio and means that the sealer can be applied directly and precisely into root canals.

Starter Kit

Contains: 4ml automix syringe, 7.5gm paste A, 7.5gm paste B and 20 intraoral tips.
338-667005 Kit..... **\$96.95**

Mixing Tips

338-667006 40/pack **\$36.45**

Syringes

Contains: 2 mixing syringes.
338-667007 Each..... **\$191.75**

Diapex® - DiaDent®

Silicone oil based calcium hydroxide and iodoform paste used for temporary or permanent root canal treatment. Pre-mixed and comes in a pre-filled syringe. Tips are pre-bent to ensure excellent canal accessibility.

Complete Kit

Contains: 2gm pre-mixed paste in a pre-filled syringe and 20 disposable tips.
200-1001301 Kit..... **\$47.95**

Intro Kit

Contains: 0.5gm pre-mixed paste and 4 disposable tips.
330-1001304 Kit..... **\$14.95**

Syringe

Contains: 2gm pre-mixed paste.
330-1001302 Each..... **\$43.95**

Irrigation Tips

330-1001316 20/pack **\$12.95**

EZ-Fill® Epoxy Root Canal Cement - Essential Dental Systems

Thoroughly coats the walls of the root canal and lateral canals without significant cement being forced apically. The reverse spirals on the apical end rotate in an unwinding direction out of the canal, helping to prevent binding. Radiopaque.

Contains: 7.5gm cement, 8gm powder and measuring scoop.
330-160800 Kit..... **\$111.75**

EZ-Fill Xpress

Same product formulation in an easy dual-barrel syringe delivery format.
Contains: 2 -9.5ml dual barrel syringes and 20 mixing tips.
330-162800 Kit..... **\$124.95**

NOGENOL™ Root Canal Sealer - GC America

This non-eugenol zinc oxide root canal sealer offers ample working time for multi-rooted teeth, yet sets quickly in the mouth. Excellent biocompatibility.

Standard Package

Contains: 3gm tube base, 6gm tube catalyst and mixing pad.
202-136301 Package..... **\$53.25**

Pulpdent Root Canal Sealer - Pulpdent Corporation

Tissue compatible, bacteriostatic and radiopaque. Resorbs with roots of deciduous teeth. Does not shrink upon setting.

Contains: 15cc powder, 7.5ml liquid, mixing pad and scoop.
200-RK Kit..... **\$47.95**

BioRoot™ RCS - Septodont

Bioactive and biocompatible permanent root canal sealer for use with cold single cone or cold lateral condensation obturation techniques. Creates a favorable alkaline environment to allow for high pH levels (>11). Pure mineral formulation will not stain teeth. Resin and eugenol-free.

Contains: 15gm bottle and 35 -0.20ml pipettes.
330-01E300 Each..... **\$153.75**

U/P Root Canal Sealer/Cement - Sultan Healthcare

Radiopaque, non-staining, non-irritating with excellent thermal insulation. Features an extended working time and excellent lubricating qualities.

Liquid

200-11435 3.5ml **\$75.25**
200-11437 15ml **\$137.75**

200-11430 15gm **\$69.45**
200-11431 60gm **\$130.95**

CANAL PREPARATION & MEDICAMENTS

Master-Dent Formo-Cresol - Dentonics
 Used primarily for the treatment of putrescent or necrotic pulps as well as temporary medicament during root canal therapy.
 330-12660 1oz **\$27.25**

Glyde File Prep® - Dentsply Maillefer Syringe Kit
 Root canal conditioner. 10% carbamide peroxide, 15% EDTA. Smooth, gel-like consistency clings to files, making precise placement in the canal easy. Effervescing action lifts dentinal shavings and debris for efficient removal.
 Contains: 5 -3ml syringes and 50 disposable tips.
 220-673021 Kit..... **\$36.25**

Disposable Tips
 230-673022 50pkg **\$21.45**

Calasept® CHX - Directa Dental Group
 2% solution. For irrigation during endodontic treatment. Bactericidal capacity. Stops the effect of sodium hypochlorite.
 330-N1270100V 100ml **\$15.95**

Calasept® EDTA
 17% solution. Specially formulated to aid in the negotiation of root canals by endodontic instruments. Forms a water soluble chelate complex that decalcifies substances and dissolves smear layers.
 200-N1260100V 100ml **\$21.75**

EDTA Plus - Essential Dental Systems
 17% ethylenediamine tetraacetic acid sodium salt. Includes a surfactant to reduce surface tension which improves penetration into the canal.
 200-77002 2oz **\$19.75**

SmearClear® - Kerr Endodontics
 Consistently removes the smear layer leaving the dentinal tubules clear of organic matter. The practitioner will recognize an increase in the efficacy of adhesives as well as an assist in the 3-dimensional obturation of the root canal system.
 200-9731002 110ml..... **\$46.95**

SlickGel™ ES - Kerr Endodontics
 Specially formulated canal lubrication used to aid in the negotiation of root canals by endodontic instruments. Contains EDTA that chelates calcifications in the root canal system. Composed of a water-soluble base containing urea peroxide and an aqueous solution of EDTA, which aids in chemically removing the smear layer. Provides a lubricating medium that helps with the negotiation of a stainless steel hand file into an endodontically treated tooth. This step is important in that it helps prevent blockage during the cleaning and shaping process.
 Contains: 12 -1ml MicroDose polytubes.
 309-9731015 Each..... **\$35.75**

RC-Prep® - Premier Dental®
 For chemo-mechanical preparation of root canals. Unique formulation of glycol, urea peroxide and EDTA in a special water-soluble base helps remove calcifications and lubricates the canal to permit more efficient instrumentation. Excellent for use with apex locators.

Syringe Kit
 Contains: 5 -3cc syringes and 50 tips.
 207-9007129 Kit..... **\$38.75**

Double Pack
 Contains: 2 -9gm filled syringes and 1 plastic tip.
 207-9007135 Pack..... **\$41.25**
 207-9007131 18gm jar **\$33.95**
 207-9007132 18gm pump **\$35.45**
 207-9007133 227gm jar **\$265.75**

RC-Prep MicroDose delivery format available upon request.

EDTA Solution, 17% - Pulpdent Corporation
 17% EDTA glycerol-based solution which has been buffered to a neutral pH is used in dentistry as a very effective calcium "binding" or "chelating" material to assist in the instrumentation of root canals.
 200-EDTA30 30ml bottle..... **\$11.45**
 200-EDTA60 60ml bottle..... **\$18.75**
 200-EDTA120 120ml bottle..... **\$23.25**
 200-EDTA480 480ml bottle..... **\$45.75**

 730-E02 2oz **\$16.75**
 730-E04 4oz **\$29.25**
 730-E16 16oz **\$101.25**

Multi-Cal™ - Pulpdent Corporation

A smooth, creamy calcium hydroxide medication which is recommended for all clinical applications where calcium hydroxide is indicated.

Kit
Contains: 4 -1.2ml syringes and 8 applicator tips..
220-MULTI Kit..... **\$49.25**

Syringe Refill
220-MULTI3 3ml..... **\$29.95**

Applicator Tips - Prebent 22ga x 1/2"
230-22D20 20/pkg. **\$5.95**

Pulpdent® Paste - Pulpdent Corporation

Non-setting, pre-mixed calcium hydroxide paste for root canal therapy and vital pulp therapy.

Kit
Contains: 3ml syringe and 24 needles (18ga blunt, sterile).
200-PSYK Kit..... **\$46.45**

Refill Syringe
200-PSY 3ml..... **\$30.75**

Endosolv E - Septodont

Root canal filling remover for zinc-oxide eugenol-based materials. High softening potency for a time saving and efficient procedure.

200-S0260 13ml **\$27.45**

Buckley's Formo Cresol - Sultan Healthcare

19% formaldehyde, 35% cresol, 17.5% glycerin. Contains: 2 -15ml bottles.

730-10203 Each..... **\$124.25**

Calcium Hydroxide Powder - Sultan Healthcare

Mixed into paste as a dressing for apexification procedures, direct and indirect pulp capping and as a sub-base under restorations.

730-10301 2oz. **\$21.95**

Chloroform® - Sultan Healthcare

730-20390 8oz. **\$79.75**

Dry Socket Paste - Sultan Healthcare

Used to treat Alveolitis. Gives instant pain relief. Contains gualacol, balsamperu, eugenol, 1.6% chlorobutanol.

730-10404 1oz. **\$155.25**

Eucalyptol® - Sultan Healthcare

730-10501 1oz. bottle..... **\$90.75**

Sodium Hypochlorite - Sultan Healthcare

Quality controlled formula used to flush debris from root canal. Excellent for disinfecting gutta percha.

730-11507 16oz **\$47.75**

Sodium Perborate - Sultan Healthcare

Oxygenating powder mixed with Superoxol to bleach non-vital teeth.

730-11508 100gm **\$80.45**

Superoxol - Sultan Healthcare

Used to bleach non-vital teeth. 35% hydrogen peroxide.

730-11513 1oz. **\$28.95**

Xylol (Xylene) - Sultan Healthcare

Used to soften gutta percha points prior to filling.

730-21401 1oz **\$31.75**

EDTA 17% Solution - Vista Dental

Products
Specifically engineered with lower pH for optimal performance.

200-317011 16oz **\$58.95**

Unit Dose

Contains: 20 -0.6ml individually packaged pre-filled syringes and 20 -27ga side-vent irrigating tips.

200-317002 Each..... **\$27.45**

OBTURATION DEVICES & SYSTEMS

CanalPro Apex Locator - Coltene

Characterized by its brilliant, colored 3D panel and its accuracy of measurement. The ergonomic design and the easy operation make it simple to use. The CanalPro Apex Locator with rechargeable battery includes a color display with animated root canal, lip clip, file clip, power supply and test probe. The Virtual Apex Function allows marking a predetermined position at the required distance from the apex and the device will notify the user when an endodontic file reaches the apical foramen of the root canal. Other features include audio feedback with volume control, built-in demo mode, built-in self-test for a fast function control, auto-off and 2 Year Warranty. The device enables the clinician to obtain correct results in canals with different conditions – wet or dry.

CanalPro Apex Locator EU Kit

Contains: 1 CanalPro Apex Locator, 1 charger, 1 measuring cable, 2 lip clips, 2 file clips, 1 touch probe. 770-60018737 Each..... **\$974.75**

ROEKO GuttaFlow 2 - Coltene

A novel filling system for root canals that combines two products in one: gutta-percha in powder form and sealer. Works with cold free-flow gutta-percha. Excellent radiopacity and allows for precise post preparation

Intro Kit

Contains: 20 GuttaFlow 2 Capsules, 20 Canal Tips + Stops, Adapter for RotoMix 3/pcs, 1 Dispenser, 100 Retention Points ISO 30-60 and 60 gutta percha points Greater Taper 0.04 20-45. 330-60013710 Kit..... **\$443.75**

Root ZX® II Apex Locator - J. Morita USA

Ability to work in wet canals - measurement is not affected by the presence or absence of blood, other discharges, or electrolytes. Features patented technology which offers an accuracy rate evaluated at 97.5%. User friendly, its display screen is large and easy to read. The action of the meter in the display corresponds exactly to the tactile sensation of using the file. Other features include: slim, lightweight file holder, no zero-adjustment, automatic calibration, battery power indication, and automatic power off function.

330-245336392 Each **\$1242.75**

Root ZX II with OTR Handpiece Module

The OTR Module enables the unit to function as a low speed handpiece, apex locator, or a combination of both. The module snaps easily onto the back of the unit and offers a unique 90° auto torque release and file advancement feature. OTR maintains excellent cutting efficiency with less stress on the file, reducing the possibility of breakage. It offers 3 speed settings of 100, 300 and 500 rpm and 3 programmable memory modes. 1 year warranty.

OBTURATION DEVICES & SYSTEMS

Elements Diagnostic Unit and Apex Locator - Kerr Endodontics

Apex locator and pulp tester featuring convenient portable satellite display with graphics. Provides accurate readings in the presence of EDTA, sodium hypochlorite, blood, saline, water and hydrogen peroxide. Adjustable volume and sound modes. Provides pain-free electric vitality testing. File clip and bifurcated probe are included.

330-9730300 Each..... **\$1720.95**

Elements Obturation Unit® - Kerr Endodontics

When you're obturating a root canal system, you want to ensure the fill is accomplished predictably, efficiently and accurately. The newly designed elements obturation unit incorporates advanced technologies involving software, metallurgy, electronics and industrial design with the best elements of system B and a patent-pending motorized extruder. From down-pack to backfill, from filling lateral canals to creating post spaces, the elements obturation unit puts the continuous wave of condensation technique in one simple-to-operate device. Consistent, reliable results made easy – all from a unit that takes up only 1/3 the space of two separate machines.

770-9730322 Each..... **\$3364.45**

ElementsFree System - Kerr Endodontics

For warm vertical obturation, the cordless ElementsFree system combines a breakthrough Downpack heat source with a world class Backfill extruder. System includes a Downpack and Backfill device, dual charging base, transformer, power cord and accessories.

Safe-Flo Saliva Ejectors - RJC Products LLC

Made up of a flexible aspirator tip and a one-way check valve. When the On/Off vacuum switch is opened, the vacuum system sucks air through the check valve and the aspirator tip. The check valve opens in the direction of air and fluid flow. Once the suction is stopped or blocked, the check valve closes and stops air and fluid from returning to the saliva ejector or the patient.

Safe-Flo SE Valves

One-way check valve.
540-M1010SUSE 100/bag **\$33.25**

Saliva Ejectors - TIDI Products, LLC

Contains copper-plated wire, molded in, allowing them to bend easily and then hold their shape. Smooth tips are securely fastened. 6" long.

White with White Tip

540-9306 100/bag **\$6.45**

Clear with Blue Tip

540-9307 100/bag **\$6.45**

Lingua-Fix® Saliva Ejectors - Zirc

A disposable saliva ejector device that isolates and protects the tongue and evacuates fluids, while maintaining a dry work area. Comfortable, no sharp edges or corners. Large suction surface avoids blockage and is more comfortable. Reduces sedimentation of drilling by-products in pipes and tubing. Made in USA.

540-50Z953S 10/pack **\$14.95**
540-50Z953 50/pack **\$53.95**

SALIVA EJECTORS

SE-Cushion - Zirc

Single use only. Used in conjunction with the saliva ejector to prevent tissue grabbing and tissue irritation. Also quiets the noise of suction.

540-50Z970 100/pack..... **\$24.45**

Mr. Thirsty One-Step - Zirc

A clear and unobstructed view creating the ideal working environment. Hands-free isolation. Hygienists will be performing in a less active workspace, significantly improving their motion of economy and are able to work without stopping repeatedly to use the saliva ejector. 100% disposable. Made in USA.

Trial Kit

Contains: 5 Pedo/Small Adult and 5 Medium/Large.

540-50Z987 Kit..... **\$34.25**

Comfort Kit

Lightweight tubing and flow-control valve makes this, or existing HVE, more comfortable for the patient by reducing the amount of weight near the mouth.

Contains: 1 rotary plastic HVE Valve and 6' lightweight tubing.

540-50Z992 Kit..... **\$64.95**

EVACUATION SYSTEM CLEANERS

Evacuation System Cleaner

Bacteria based cleaner works throughout the entire vacuum system – uses 6 natural bacteria. Residual bacterial action. Convenient meter dose bottle. Concentrated – 1 ounce makes 1 gallon working solution. Neutral pH so it is safe for use in amalgam separators. Virtually non-foaming. Pleasant scent. Environmentally safe.

550-00001 64oz..... **\$20.95**

Monarch™ CleanStream Evacuation System Cleaner - Air Techniques

Designed for daily cleaning, unique formulation penetrates and helps remove line buildup, increasing vacuum performance and suction. Non-foaming, highly effective, concentrated formula is environmentally friendly and completely biodegradable.

Starter Kit

Contains: 2 -120 ml (4oz.) and 1 dispenser.
Kit treats up to 12 operatories.
550-57660 Kit..... **\$77.95**

Refill

550-57850 2.5 liter bottle **\$74.95**

Dispenser System available upon request.

EZ 1-2-3™ Atomizer - Biotrol

Developed to deliver Vacusol Ultra or NeutraVAC solution by drawing a combination of air and liquid simultaneously, the way dental pumps were made to function. Simply attach the High Volume Evacuators (HVEs) onto the two HVE adapters and the saliva ejector into the remaining adapter, turn on the vacuum pump, and open the HVEs and saliva ejector valves.

550-ED592 Each..... **\$65.75**

NeutraVAC™ - Biotrol

A super-concentrated, pH balanced formula that dissolves and removes organic and inorganic debris in a dental evacuation system. Neutral formula is compatible with amalgam separators as well as your storage requirements and deodorizes with a clean mountain-fresh scent.

Starter Kit

Contains: 32oz. bottle, 1 EZ 1-2-3 Atomizer and accessories.
550-NV806 Kit..... **\$123.95**

Concentrate

550-NV800 32oz. **\$68.75**
550-NV803 96oz. **\$134.25**

Vacusol™ Ultra - Biotrol

A dental vacuum line cleaner and antimicrobial which helps prolong the life of your evacuation system. Mild, fresh scent.

Starter Kit

Contains: 32oz. solution and 1 EZ 1-2-3 Atomizer.
550-ED906 Kit..... **\$119.95**

Solution

550-ED900 32oz. bottle **\$68.95**
550-ED903 96oz. bottle **\$138.75**

SlugBuster™ - DentalEZ

Formula contains chelators, which help hold heavy metals, such as Mercury, in suspension, facilitating safer discharge to waste disposal.

Powder Pack Starter Kit

Contains: 2 -40oz. powder with scoop and one empty 2-gallon mixing jug.
550-900143 Kit..... **\$126.95**

Liquid Starter Pack available upon request.

Liquid Refill

550-900241 1 gallon..... **\$41.25**

Powder Refill

550-900146 40oz **\$41.25**

Fresh-Vac™ - Ecolab

Low foaming, enzymatic evacuation system cleaner. Loosens and helps eliminate organic material from evacuation lines keeping them free-flowing and fresh smelling. Effective in cold or warm water.

550-62410100 32oz **\$17.95**

Sani-Treet Green - Enzyme Industries, Inc.

Combines more concentrated cleaning power with new generation surfactants that biodegrade faster and more efficiently. Can be used in evacuation system cleaners, ultrasonic cleaners, for instrument pre-soak, and is compatible with amalgam separators.

550-7000 Gallon **\$73.45**

Unit Dose - Lemongrass Lavender Scent

Contains: 50 -1oz. packets.
550-7002 Each..... **\$66.45**

Sani-Treet Plus

Non-foaming, biodegradable, non-toxic, enzymatic concentrate designed for evacuation maintenance.

Mint Scent..... 550-15650
Country Meadow Scent..... 550-4200
Gallon **\$66.95**

SuperVac 40 Plus - EPR Industries LLC

Triple enzymatic, powerful, non-foaming, mint scent. Approved by Solmetex for use with their amalgam separator.

550-119536 64oz. **\$21.25**

SuperKleen 40 - EPR Industries LLC

Concentrated evacuation cleaner. Powerful, non-foaming, pleasant scent. Makes 32 gallons.
530-36 2lbs..... **\$25.45**

EVACUATION SYSTEM CLEANERS

VacuKleen E2™ Evacuation System Cleaner - Heraeus Kulzer

Protease enzyme with the convenience of a unit-dose effervescent powder. Lemon scented from real lemon extract.

Unit-Dose Pouches for Quarts

550-36100 60/box **\$79.45**
 550-36101 140/box **\$169.45**

Unit-Dose Pouches for Gallons

550-36102 25/box **\$75.75**

Turbo-Vac™ - Kerr TotalCare

Dispenser's unique design mixes air and Turbo-Vac solution to create a powerful, non-foaming, turbulent mist that dislodges debris from the walls of dental tubings, greatly improving vacuum performance.

Dispenser

550-5000 Each **\$48.25**

Line Flush

550-5050 Gallon **\$70.25**

E-VAC - L&R Ultrasonics

Premium quality, non-foaming, highly concentrated evacuation cleaner and sanitizer. Convenient premeasured pump dispensing bottle and handy E-VAC PAK is simple to use. 1oz. provides 1 quart of cleaning solution.

550-0107 Gallon **\$50.75**

Precision Cleanse Plus - Midmark Dental

Attacks and dissolves organic waste and other residue in the entire evacuation system to keep it thoroughly clean, naturally disinfected and deodorized.

550-77000570 64oz **\$63.25**

SURG Evacuation System Cleaner - Mydent International

Clinically proven to clean lines and discourage build-up. The formula is non-foaming, biodegradable, includes a germicide and has a neutral pH while maintaining the ability to dissolve organic matter and eliminate odors. Has a fresh winter-green fragrance. 128 treatments per gallon.

550-3500 Gallon **\$51.95**

Vacuum Shock - Palmero Health Care

The first stage in a 2-step tablet system. Keep vacuum lines clean and extend pump life. Only one time-released tablet every three months. Clinically proven to keep vacuum lines free of odor-causing bacteria.

550-3546 6/jar **\$38.75**

Vacuum Clean - Palmero Health Care

The second stage of a 2-step tablet system. Restores pressure, keeps vacuum lines clean, extends pump life. Use only one tablet each week. Neutral ph helps reduce dispersal of amalgam into sewer systems.

550-3547 45/jar **\$37.95**

Citrizyme® - Pascal International, Inc.

A dual enzyme solution for the cleaning of evacuation systems, instrument presoak and ultrasonic system solution. Completely dissolve organic material, getting rid of the "gray slime" that builds up in dental evacuation systems. Non-foaming. Will not damage evacuation system pumps.

Powder

Makes 35 gallons of solution.

530-15250 300gm **\$44.95**

Equals 420 treatments.

530-15270 900gm **\$96.75**

Unit-Dose Packets

Each packet makes 1/2 gallon of solution.

530-15260 50/box **\$50.25**

530-15275 250/box **\$193.45**

Vacu Blast™ - Premier® Dental

Anti-corrosive, non-foaming, phosphate and chlorine-free formula. Environmentally friendly with a neutral pH. Refreshing clean eucalyptus scent. Compatible with amalgam separators. Super concentrated formula yields 64 treatments per bottle.

550-9011107 32oz **\$54.95**

Vac Attak™ - Premier® Dental

Organic chlorine formula facilitates the immediate breakdown of protein chains found in bio-burden. Non-corrosive, non-foaming formula. Environmentally friendly. Fresh lemon scent. Provides approximately 100 uses per jar, scoop included. Made in the USA.

557-9011101 800gm **\$60.75**

EVACUATION SYSTEM CLEANERS

Bio-Pure - Sable Industries, Inc.

Restores and maintains evacuation system flow and function by actively breaking down and digesting organic waste. Non-foaming, non-corrosive neutral pH. Removes odor and sludge. Amalgam collector approved.

Restore Starter Kit available upon request.

EVACUATION TRAPS

Dispos-A-Trap™ - Kerr TotalCare

Totally disposable filter designed to replace the present trap filter in your evacuation unit. It reduces the possibility of infection and contamination. It improves the performance of your suction system and reduces infectious aerosol. It does all this while eliminating one of the most hazardous and unpleasant tasks in the dental office, cleaning the waste that is present in your filter.

Model 5500 1-1/4" diameter

- Fits Adec, Cascade and Performer models.
- 560-5500 144/box **\$74.45**

Model 5501 2-1/8" diameter

- Fits Adec models with plastic canisters.
- 560-5501 144/box **\$74.45**

Model 5502 2-1/4" diameter

- Fits Adec models with metal canisters.
- 560-5502 144/box **\$74.45**

Model 5503 1-7/8" diameter

- Fits models by Belmont, Biotec, DentalEZ, Chayes, Dentech, Pelton & Crane, Prisma and other manufacturers.
- 560-5503 144/box **\$74.45**

Model 5505 2-15/16" diameter

- Fits Pelton & Crane Spirit with white plastic canisters.
- 560-5505 144/box **\$76.45**

Model 5506 2-15/16" diameter

- Fits DentalEZ models with black plastic filters.
- 560-5506 144/box **\$73.25**

Model 5508-S Universal

- Fits all saliva ejectors.
- 560-5508S 72/box **\$33.75**

Model 5509 1-1/2" diameter

- Fits Eurodent Models.
- 560-5509 144/box **\$76.45**

Model 5512 2-3/4" diameter

- Fits A-dec 500.
- 560-5512 144/box..... **\$74.75**

Model 6100-C Universal

- Fits most cuspidor units.
- 560-6100C 144/box **\$77.75**

Model 6200-C Universal

- Fits European units, older style U.S. units with openings 1/2" and less.
- 560-6200C 144/box **\$77.75**

Model 6400-C 1-5/8"

- Fits A-DEC Cascade, Performer Cuspidors.
- 560-6400C 144/box **\$77.75**

EVACUATION TRAPS

Evac-U-Trap™ - Kerr TotalCare

Model 2200

Fits Air Techniques - VacStar models, DentalEZ-1 and 2 hp single models. Ohmeda-Matrix - all models. Turbine Industries - WhirlVac models, plus a number of other models.

560-2200 12/box **\$116.25**

Model 2300

Fits DentalEZ-Dual models made after 1978. Some Dentsply MVS models.

560-2300 8/box **\$116.25**

Model 2400

Fits Dentsply - MVS .75, 1.5, 2.0 and 4.0 models, DentalEZ Dual models made before 1978.

560-2400 8/box **\$116.25**

Defend Trap-EZ - Mydent International

Disposable filters designed to replace the trap presently in your evacuation unit or cuspidor. They reduce the possibility of infection and contamination, while improving the performance of your evacuation system.

Model DT5501

Fits Adec models with black plastic canisters, plus newer models by Ampco, Belmont, DCI, Forest, Marus, MDT. Diameter 2-1/8".

560-DT5501 144/box **\$20.75**

Model DT5502

Fits Adec models with metal canisters. Diameter 2-15/16".

560-DT5502 144/box **\$20.75**

Model DT5503

Fits Ampco, Belmont, Biotec, Chayes, Dabi-Alante, Dansereau, DCI, Dental-EZ, Dentech, Forest, Knight, Pelton & Crane, Proma and others. Diameter 1-7/8".

560-DT5503 144/box **\$20.75**

Model DT5508S

Fits all saliva ejectors. Diameter Universal.

560-DT5508S 144/box **\$16.75**

Model DT5509

Fits DCI / Belmont Reality models, System 6000 models. Diameter 1-1/2".

560-DT5509 144/box **\$26.95**

Model DT6100C

Fits most cuspidor bowls including Adec, Ampco, Belmont, Dabi-Alante, Dansereau, DCI, Dental-EZ, Forest, Knight, Marus, MDT, Proma, and Ritter. Diameter Universal.

560-DT6100C 144/box **\$26.95**

Saliva Ejector Screens - Palmero Health Care

Disposable and aseptic. Keeps debris from being aspirated and lodged in the lines.

560-1602 25/bag **\$6.45**

560-1602A 50/bag **\$6.25**

Sof-Lex Diamond Polishing System

Offers the convenience of a rubberized system while also adapting to all tooth surfaces.

The pre-polishing spiral prepares the restoration for final gloss, while the diamond-impregnated polishing spiral gives your restorations that gorgeous paste-like gloss, with no messy paste.

Unique, flexible shape adapts to all tooth surfaces. Multi-use, can be sterilized and reused.

Intro Kit

Contains: 5 beige pre-polishing spirals, 5 pink diamond polishing spirals and 1 RA mandrel.

Finishing & Polishing Discs - E.C. Moore Company

Snap on and off quickly and easily, with no screws to drop or lose. Can be used with the grit side in or out and won't come off with the reversal of the handpiece.

Coarse & X-Coarse: Gross reduction and shaping.

Medium: Less reduction, smoother finish.

Fine: Polishing, smoothing surfaces.

X-Fine: High polish, luster.

Cuttle: Gold, amalgams, proximal surfaces and wherever a satin finish polish is desired.

Garnet: Acrylic resins, general purpose.

Sand: Contouring, smoothing acrylics, gold.

Extra oral:

For adjusting and polishing porcelain restorations, zirconium & e.max. Eliminates the need for polishing paste or reglazing.

6-piece kit: 740-1103, 740-1105, 740-1123, 740-1125, 740-1143, 740-1145

740-1181
\$215.45

Chair-side:

Specially designed for removing scratches from porcelain, zirconium & e.max. and polishing to “hi-glaze”

9-piece kit: 740-1107, 740-1108, 740-1109, 740-1127, 740-1128, 740-1129, 740-1147, 740-1148, 740-1149

740-1183
\$117.75

“HI-GLOSS” COMPOSITE KIT

Chair-side:

2-step diamond-filled silicone polishing system formulated for “hi-gloss” finishing of cured composites without paste or water.

6-piece kit: 740-1162, 740-1163, 740-1164, 740-1172, 740-1173, 740-1174

740-1182
\$83.45

3-piece kit: 740-1101, 740-1121, 740-1141

740-1180
\$165.45

CeraGlaze® Ultimate Porcelain Polishing Set

This Logic Set is a three-step set for making minor adjustments and polishing porcelain/ceramic restorations. This diamond impregnated polisher is what is needed on today's "new age" porcelain and ceramic materials. 740-LS506..... **\$205.45**

CeraGlaze® Extra-oral Porcelain Adjusting & Polishing Set

This set contains the 17mm square edge wheels and points in all three steps for extra-oral adjusting and polishing on all porcelain restorations. Used chair side, this set doesn't require polishing paste or reglazing. 740-LS911 **\$345.45**

Zirconia Polishers

The ZIR-CUT™ Polisher utilizes a unique diamond-abrasive mixture to bring zirconia materials to a high shine. This two-step system removes scratches, smoothes rough surfaces, and creates a high gloss surface on all zirconia crowns, bridges, substructures and abutments. Available in a point, cup and disk, the ZIR-CUT Polisher is mounted to a latch mandrel for intra-oral use.

MORITA

TwinPower Turbine Standard

The standard model delivers up to 22 watts for smooth, efficient cutting even under high load conditions. Clinically evaluated by several institutions, TwinPower has earned high marks for its fit to hand ergonomics, balance, visibility, power output, and braking ability.

Unit Includes: Lubricant spray nozzle, chuck grip tester, spray hole wire, screwdriver, cap tool.

4H PAR-4HEX-O

280-165340888 Each.....\$1177.25

TwinPower Turbine 45

The TwinPower Turbine 45 model offers maximum access and visibility with a 45° angle and an overall head size smaller than competitive units. Extremely powerful, it delivers up to 20 watts for smooth, efficient cutting. Rear-facing exhaust vents direct air flow away from the surgical site for patient protection. With zero suck back in the air line, TwinPower also provides excellent contamination control, especially important in surgical procedures such as sectioning of 3rd molars.

Unit Includes: Lubricant spray nozzle, chuck grip tester, spray hole wire, screwdriver, cap tool.

4H PAR-4HEX-O-45

280-165344670 Each.....\$1177.25

HIGH SPEED FIBER OPTIC

TwinPower UltraM

UltraM delivers 18 watts of power, twice the power of some other popular mini handpieces. It also offers the smallest head of the TwinPower Turbine product line with a height of just 10.6mm. Due to its very compact size, UltraM offers exceptional access. It accepts burs up to 20mm. Unit Includes: Lubricant spray nozzle, chuck grip tester, spray hole wire.

PAR-4HUMX-O

HIGH SPEED FIBER OPTIC

IMPACT AIR 45®

The IMPACT AIR 45 has a unique 45° angled head that allows maximum access and visibility. The IMPACT AIR 45 is also designed for use in peri-odontal and endodontic procedures. A water or saline line inside the handpiece handle directs a pure water jet (not a mist) directly onto the cutting area. Air is exhausted through the back of the handpiece.

- Fully autoclavable (all stainless steel)
- Minimizes downtime (office-replaceable turbine)
- Uses standard friction grip burs (push-button bur release)

HIGH SPEED NON FIBER OPTIC

HANDPIECES

IMPACT AIR 45®

The IMPACT AIR 45 has a unique 45° angled head allows maximum access and visibility. The IMPACT AIR 45 is also designed for use in periodontal and endodontic procedures. A water or saline line inside the handpiece handle directs a pure water jet (not a mist) directly onto the cutting area. Air is exhausted through the back of the handpiece.

- Is fully autoclavable (all stainless steel)
- Minimizes downtime (office-replaceable turbine)
- Uses standard friction grip burs (push-button bur release)

IMPACT AIR 45® (2 hole)

Access II

Sable Access Handpieces are manufactured to meet and exceed ISO 7785-1 Handpiece Standard. All Sable Handpieces include push button chuck operation and a Quick Connect, 360 degree swivel feature. All product is supplied with a comprehensive manufacturers 12 month warranty.

Non Fiber Optic High Speed Mini Head

280-2000003 Each **\$344.50**

Rotamax II

Sable Rotamax Handpieces are manufactured to meet and exceed ISO 7785-1 Handpiece Standard. All Sable Handpieces include push button chuck operation and a Quick Connect, 360 degree swivel feature. All product is supplied with a comprehensive manufacturers 12 month warranty.

Non Fiber Optic High Speed Torque Head

280-2000004 Each **\$344.50**

StarDental® Instruments

A DentalEZ® Integrated Solutions brand

Concentrix®

Durable stainless steel construction with high gloss finish. Lubricated steel bearing turbine for smooth, high-torque operation. Single glass rod optics for shadow-free illumination. Improved unique water spray flushes site and keeps tooth and bur cool.

Concentrix® SW

Lubricated steel bearing autochuck turbine. Uses either 4-line or 2/3-line StarDental swivel. 1 year warranty.

280-265633 Each **\$420.95**

Concentrix® FX

4-line fixed back-end with lubricated steel bearing autochuck turbine. 1 year warranty.

280-265634 Each **\$382.95**

Concentrix® FB

Fixed back-end 4-line with manual chuck. 1 year warranty.

280-265635 Each **\$245.95**

430 Series

Ceramic autochuck turbine contains long lasting ceramic bearings. Improves efficiency and saves time with quick bur changing feature. Bifurcated solid cellular glass rod fiber optics offer greater light output for superior coverage and less bur shadow than single beam units. Small head. High Torque Design with low noise levels. Autoclavable.

Ti-Max Z45L Series

The world's first 45-degree contra-angle electric handpiece, Ti-Max Z45L provides effortless access to hard-to-reach molars that a standard contra-angle simply can't match. The slim-form also offers excellent visibility and high operability, creating more space between adjacent teeth and the handpiece body. Powerful and consistent cutting shortens treatment time for time-consuming sectioning and third-molar extractions compared to standard contra-angles, dramatically reducing stress for both clinicians and patients. Two-way spray function, making it suitable for a wide range of procedures such as third-molar preparation and clarifications of the root canal orifice.

- 1:4.2 Increasing

280-H273 Each..... \$1048.95

S-Max M Series

Push Button Chuck is NSK's original push button auto-chuck mechanism that tensions the bur grip during rotation. It allows one-touch bur insertion and removal without tools. The bur lock mechanism is designed so that bur retention strength increases when high loads are applied to the bur. The patented NSK Clean Head System is a special mechanism designed to automatically prevent the entry of oral fluids and other contaminants into the handpiece head prolonging the life of the bearings. The NSK Quattro Water Spray effectively cools the entire surface of the bur with a high cooling effect, leaving no areas untreated.

Ti-Max Z Series

Light and very strong pure titanium is used for the body. Microfilter to prevent particles from entering the water spray system to guarantee optimum water spray cooling at all times. NSK's latest surface enhancement technology takes advantage of the non-allergic and bio-compatible properties of titanium to further improve durability. DURACOAT creates a smooth, scratch resistant surface which is comfortable to hold. The patented NSK Clean Head System is a special mechanism designed to automatically prevent the entry of oral fluids and other contaminants into the handpiece head prolonging the life of the bearings.

ELECTROtorque TLC Torque Limit Control LUX Brushless Motor Kit

Brushless electric motor for ALL your high-speed, low-speed and torque control endodontic needs. Endo operation is available with a push of a button - no more searching and set up of a separate endo motor. Performs exact rotary endo procedures safely with torque control, auto-reverse and cellular optic advantages. Audible beep and flashing light notifies operator of automatic auto-reverse when preselected endo torque limit if reached. Remote mountable faceplate for convenient mounting options and easy to access controls. Motor speed range 100-40,000 rpm (with various attachments 2-200,000 rpm). Endodontic torque 0.4 - 8.0 Ncm. Motor torque 3 Ncm. KL703 Motor is sterilizable. 3 year warranty (includes motor, tubing and control box). One of the world's shortest and lightest electric motors. Superior power & torque. Unique brushless motor (no brushes to exchange - no downtime). Quieter than brush motors. Water spray can be adjusted at motor. Integrated light and coolant. Unit can be calibrated to existing air pressure for optimized performance.

Contains: ELECTROtorque TLC module with 6.5' cable, ELECTROtorque TLC transformer with connector, electric tubing, KL703 brushless electric motor (sterilizable), and mounting bracket with hardware.

283-10035840 Each..... **\$3498.95**

NLX Nano

Brushless LED electric micromotor portable system covers a wide speed range, 100 - 200,000 min-1, torque: 3.4 Ncm. The overall length of the instrument and NLX Nano micromotor are almost the same length as an air turbine and coupling. Use in multiple clinical applications and is compatible with existing optic and non fiber optic attachments. 3 year warranty.

Contains: NLX Nano control unit, NLX Nano motor, NLX Nano cord, NLX Nano A/C adapter.

280-Y1001361 Each..... **\$2,599.00**

LOW SPEED MOTOR SYSTEMS

NuTorque®

The NuTorque electric handpiece system features an easy-to-use touch screen to make every procedure more efficient and productive. The NuTorque micromotor is designed to deliver consistent speed and powerful torque for both low and high speed uses. The NuTorque attachments feature lightweight, durable and corrosion-resistant titanium housings that provide a firm, tactile grip. The light weight gives the handpiece exceptional balance and helps reduce hand and wrist fatigue.

NuTorque System

Contains: Control unit, tubing, electric motor and A/C adapter.

280-265199 Each **\$3611.95**

NuTorque Lite

The NuTorque Lite electric handpiece system is not only economical, but it is the go-to in dental care. Its push button control panel allows all procedures to be completed with ease and precision. Similar to NuTorque, the NuTorque Lite is more compact than existing electric motors as well as being whisper quiet and free of vibration. With a wide speed range of 100-200,000 RPMs, it's easy to see how NuTorque Lite can meet all of your procedural needs.

ENDODONTICS

Endo-Touch TC2 Cordless Handpiece

The next generation in cordless motors. Designed to replace the EndoTouch TC, TC2 has a large LCD display, simple 5-key operation and a lightweight, ergonomic design to assure comfort and ease of use during even the most delicate endodontic procedures. The autoreverse and alarm functions indicate the load is about to reach the pre-set torque level, allowing you to unload the file even before the auto reverse sets in. Contains: Motor handpiece, EndoTouch swing latch head 16:1, 110V power cord, battery charger, F-type spray nozzle, motorcap.

339-8159140 Each \$1558.45

M4 Safety® Handpiece and M4TC2 Handpiece

Before using any NiTi rotary file, it is important to establish a glide path using hand files. Hand filing can cause fatigue, especially when canals are calcified. SybronEndo's M4 Safety and M4 TC2 Handpieces have been designed to navigate canals quickly, efficiently and effectively with hand files.

ENDODONTIC HANDPIECES

COLTENE

CanalPro CL Cordless Handpiece

Thin, ergonomic design for better access to hard-to-reach areas. Large, user-friendly LCD panel. Memory for up to 5 programs. Auto-reverse modes. 6 head positions allow contra angle to be adjusted to your preferred position. Operates continuously for approximately 90 minutes. Non-contact charger prevents improper charging due to deterioration of metallic terminal. Energy-saving; turns off when not used for 10 minutes. Contra angle head is autoclavable at 135°C. Rotation Speed (min-1): 140~550. Torque Level (N-cm): 0.3~3.0.

334-H8CPCLINTRO Each.....\$1383.45

Tri Auto ZX

Cordless Endodontic Handpiece. The cordless Tri Auto ZX is the only endodontic handpiece with a built-in apex locator, giving the clinician the capability and convenience to electronically monitor the root canal before, during and after instrumentation. Combined with the technology and accuracy of the Root ZX II apex locator, Tri Auto ZX significantly increases accuracy and safety. Tri Auto ZX also offers greater control and flexibility with adjustable torque settings. Choice of automatic or manual mode operation provides versatility. Automatic functions include: Auto start/stop, auto apical reverse, and auto torque reverse.

330-5316227 Each.....\$2455.25

Endo-Mate DT

Push Type Ultra mini head allows fast and easy exchange of files during procedures. Compact head offers excellent visibility of treatment spots. Quick release system allows for easy head exchange. 120V.

280-Y141120 Each.....\$1248.95

Endo-Mate TC2

Mini head and slim neck assure higher visibility. Two kinds of alarms sound for safer and more efficient treatment. Suitable for use with most major brands of NiTi files. Features a large LCD panel and access friendly key.

NSK

Surgic Pro

This new surgical micromotor is 16.2mm shorter and weighs 42g less compared to the conventional optic surgical micromotor. LED illumination helps the clinicians to focus more easily on the treatment area and contributes to precise surgery. Use NSK Surgic Pro AHC to calibrate micromotor and handpiece to the rotational resistance of each individual handpiece prior to operation. AHC guarantees extremely accurate speed and torque for maximum safety during operation. The Foot Control is user friendly and allows operation of all functions within the preset parameters without touching the control panel to avoid accidental activation of the micromotor outside the preset limits. The Surgic Pro/Surgic Pro+ is certificated according to IPX8.

Lubrina - J. Morita USA

Fully automatic, highly efficient cleaning, purging, and lubrication for a wide variety of equipment. Service up to 4 handpieces in just 100 seconds, accommodating contra-angles, straight handpieces, air driven handpieces, and air scalers. Accepts multiple brands of spray lubricant. Additionally, up to two different lubrication sprays can be used in the same cycle. Equipped with an air suction system to help eliminate odor and a return circuit to absorb excess lubricant for a clean operating area.

770-245343054 Each..... **\$2477.25**

QUATTROcare Plus - KaVo Dental

Designed to clean, lubricate and purge your instruments with the simple push of a button. Loading and operation is easy as are the automatic care and maintenance procedures. Less wear, fewer repairs, less staff down time, smoother operation, and increased longevity of your handpieces. Can be used for virtually all manufacturer's high-speeds, low-speed contra-angles, straight handpieces, air driven scalers, and air motors. Complete handpiece maintenance is available with the new chuck care feature. Once per week cleaning and care of handpiece chucks maintains their gripping force, reliability and long service life. Unit comes with one can of QUATTROcare Plus spray.

770-10083805 Each **\$3268.95**

iCare - NSK

Automatically cleans and lubricates up to 4 handpieces at once. The proper solution volume is preset based on high and low speed handpiece type, ensuring precise and thorough lubrication at the touch of a button. A chuck-cleaning function removes dirt and cutting powder from the chuck. Purging select mode ensures complete removal of excess oil. The iCare uses liquid oil in an integrated tank that holds up to 1.2 liters and provides up to 2,800 cycles before refilling is needed.

POLYETHER

Impregum™ Penta™ Polyether - 3M Oral Care

The "original" polyether precision impression material that is ideal for use in the monophasic technique. Hydrophilic before, during and after the set for unsurpassed accuracy, even when moisture is present. Thixotropic: flows smoothly under pressure. Working time (including mixing) is 2:45 minutes, setting time (from start of mix) is 6:00 minutes.

P2 and P3 Penta Medium Body Intro Kits available upon request.

Impregum Penta Medium Body
Includes: 2 -300ml base and 2 -60ml catalyst.
297-3164 Each **\$359.95**

Impregum™ Soft Polyether

Better initial hydrophilicity than any VPS - provides void-free impressions in moist conditions. "Snap-set behavior" of soft polyether is ultra-forgiving and results in precise-fitting restorations without distortion. Less rigid, easier to remove, great for dual-arch trays. Suggested applications include: Crown and bridge impressions, inlay and onlay impressions, functional impressions, implant abutments and denture and partial denture impressions. Quick-setting materials especially suited for single-unit and two-unit impressions. Mint Flavor.

Penta Soft and Penta Soft Quick Set Intro Kits available upon request.

Impregum Penta Soft Heavy Body - Dark Purple

Contains: 2 -300ml base and 2 -60ml catalyst.
297-031741 Each..... **\$391.95**

Permlastic™ - Kerr Restoratives

Polysulfide, condensation-cured, elastomeric impression material in three viscosities.

Regular is recommended for partial- or full denture impressions because it has a high degree of

flow that will register the finest detail. While usually used in single-mix, it can be used with Light-Bodied Permlastic for crown and bridge impressions. It will not tear when being removed from undercuts.

Light-Bodied is the most free-flowing. It is excellent for inlay and fixed bridge impressions usually used with Heavy-Bodied Permlastic. Light Body bonds completely with both Regular and Heavy Bodies, resulting in impressions with great accuracy and fine definition.

Heavy-Bodied is formulated for use whenever a stiffer material is indicated. The heavy body consistency results in optimum compression of the Light-Bodied Permlastic in a double-mix, copper-band impression.

Light Bodied

Contains: 95gm tube base, 130gm tube catalyst and 1 mixing pad.

Access® BLUE - Centrix

Sets hard like laboratory plaster in 30 seconds when taking bite registrations, provisional crown pre-op impressions, and so many other "quick" techniques. Allows you to cut and trim the impression without it crumbling.

Contains: 2 -50ml S-50 cartridges and 6 mixing nozzles.
290-360006 Kit..... **\$45.95**

VINYL POLYSILOXANE (VPS)

Affinis® - Coltene

These wash and tray materials wet the tooth and gingiva extremely quickly and effectively. Its hydrocolloid-like property ensures that the material flows into the narrowest areas without applying pressure. Has a very low contact angle thanks to its structure-breaking property of the surfactant agent. The mixed material provides adequate stability and does not drip from the tooth. Final impressions can be autoclaved. Regular Set, 3-minute set time. Fast Set, 2:10 minute set time.

Contains: 2 -50ml cartridges and 12 mixing tips.
 Light Body 294-C6501
 Regular Body 294-C6511
 Fast Light Body 294-C6601
 Fast Regular Body 294-C6611
 Each **\$62.75**

Full line available upon request.

Affinis Precious

The unique colors – silver and gold – facilitate readability of the impression detail. Wash materials have an application time of one minute. The thermo-active formula accelerates the setting process as soon as the impression tray is placed in the patient's mouth.

Light Body Silver

Contains: 2 -50ml cartridges, 12 mixing tips (Yellow).
 294-C6775 Each **\$62.75**

Full line available upon request.

Use with AFFINIS Black Edition for excellent readability of the impression, available upon request.

Aquadil Smart Wetting Impression Material - Dentsply Caulk

Refills

Quadrafunctional vinyl polysiloxane material designed to minimize the problems of voids, bubbles, pulls and drags. An elastomeric impression material designed for optimum viscosity at each stage of the impression technique, delivered as both a free-flowing syringe viscosity and a more viscous and thixotropic tray material. Mint flavor. Contains: 4 -50ml cartridges impression material and 12 mixing tips.

PerfectIM Systems® - J.Morita USA

Two-step vinyl polysiloxane impression system eliminates packing retraction cord and any possible posttraumatic discomfort. Materials are hydrophobic, radiopaque, resistant to fluid absorption, tasteless and odorless. 30 second Blue Velvet has a whipped cream texture, eliminating running, dripping, and gagging. The high durometer (80) of 90 second Blue Velvet produces a hard, plaster-like set and eliminates the need for retraction cord when used with Flexi-Velvet or SnoWhite in the H&H cordless technique.

VINYL POLYSILOXANE (VPS)

Extrude™ - Kerr Restoratives

VPS impression system available in four viscosities. Extra is a thixotropic, non-slumping tray material that minimizes distortion while providing a flexible-firm set that promotes easy tray and die removal. Medium provides excellent flow as well as sufficient body for use as a tray material. Wash is a very low viscosity and is used in conjunction with Putty for the putty/wash technique or with Extrude Extra for the double-mix technique. M.P.V. is a unique material that can be used for both the tray and syringe material. It is very thixotropic, so it will not slump or run out of the tray, but it also exhibits superior flow under pressure and high tear strength. XP (Putty) is used for both simultaneous and two-step putty/wash techniques. It drives syringe material subgingivally for ideal tissue displacement and accurate details.

PLASTIC IMPRESSION TRAYS

DuraLock PLUS - Ortho Technology

By eliminating the extra step of coating the tray with adhesive and waiting for it to dry, the impression process is simplified and accelerated. Eliminate inadequate coverage and/or tissue impingement and ensures an accurate fit every time by offering more size choices than competing trays. Manufactured with an advanced medical-grade polystyrene plastic which is designed to be either disposable or cold sterilizable.

Introductory Kit

Contains: 60 trays, 5 trays of each size upper and lower.

STERILIZATION POUCHES

**Sterilization Pouches
Self-Sealing with Dual Indicators**

Made with lead-free indicator inks, medical grade paper with a thumb notch for easier opening and have built in internal and external indicators. They are made with a triple seal to prevent tearing as well as a reinforced bottom to help prevent instrument push through. Not made with natural rubber latex.

Biological Monitoring System

This mail-in biological monitoring system involves the use of bacterial spore test strips for measuring the effectiveness of steam, dry heat, chemical vapor and ethylene oxide gas sterilization processes. CDC guidelines recommend weekly monitoring of all practice autoclaves! These test strips also provide an effective way to biologically monitor both mechanical function and operator technique for steam and dry heat sterilizers. Postage not paid.

- 12 Envelopes/box**
590-HT12BMS Each\$85.95
- 52 Envelopes/box**
590-HT52BMS Each\$194.95

Attest™ Biological Monitoring System- 3M Oral Care

14-vial capacity to meet the needs of both small and large offices. Readout in 24-28 hours. Indicators are self-contained with dry-spore strip and ampule of growth medium.

Complete System

Contains: Incubator, biological indicators 25 each, Attest record book.

- 593-116K System \$524.95

Incubator Only

Comply™ SteriGage™ Integrators - 3M Oral Care

Integrators respond to all steam (i.e., time, temperature, and saturated steam) to assure

accuracy. Test packs provide immediate Accept/Reject results to allow you to respond more quickly to sterilizer problems. Can provide early readout of equipment performance prior to biological indicator results and/or in between biological indicator-monitored loads for faster detection of sterilization process failures.

- 590-4133 100/pkg..... \$25.75

ConForm® 10 In-Office Biological Monitoring System - Crosstex International

Results in just 10 hours. Meet daily biological monitoring requirements for steam sterilizers in less than half the time. Easy to use – Simply process indicator in a normal sterilizer cycle at the end of the day. Activate the indicator, place it in the incubator, then see and record the results the next morning. Easy to read results – If any bacterial spores survive the process, the indicator media will turn yellow.

Incubator

- 590-NDB601 Each..... \$260.75

Biological Indicators

- 590-C10BI25 25/box \$143.25

ConForm® 24 In-Office Biological Monitoring System - Crosstex International

In-office system for monitoring steam sterilizers. Easy to use and interpret, with results in 24-48 hours. Simply process vial in a normal sterilizer cycle, then activate the vial, incubate and record the results. If any spores survive the process, the vial medium will turn yellow. Incubator is 24 volt and holds up to 14 indicators.

Starter Kit

Contains: 1 box of 25 indicators, 1 incubator, 1 crusher and 1 record keeper.

AIR FRESHENERS

Citrus II® - Solid Air Freshener - Beaumont Products, Inc.

Using a unique, non-toxic, and biodegradable formula that utilizes baking soda. Quickly absorbs odors, and freshens the air with a fresh scent. Ideal for doctors' and dentists' offices, hospitals, nursing homes, and home care. Provides convenient, continuous odor control that lasts 6 to 8 weeks. Effective in areas up to 350 square feet. Citrus scent.
 890-636471430 8oz. **\$6.25**

Citrus II® Air Fragrance and Odor Eliminator - Beaumont Products, Inc.

100% natural and contains only the pure essential oils of tree ripened citrus fruit specially formulated to preserve their distinctive fragrance in an environmentally safe, non-aerosol container.
 Lemon..... 890-172528
 Citrus Blend 890-77000
 7oz. **\$10.95**

STERILANTS

Tec-Cide Plus®

3.0% glutaraldehyde is a, higher strength formulation with accelerated kill times for faster, high level disinfection of instruments. Has a minimal surfactant level to protect lensed instruments and a new solid activator to assure a mild pleasant smell at the higher glutaraldehyde concentration and to maintain a consistent efficacy level through 28 days of continuous use. Includes activator. High level disinfection time: 25 minutes, Sterilization time: 10 hours.
 500-0001 Gallon **\$30.95**

Biocide G30™ - Biotrol

Ready-to-use, 2.65% glutaraldehyde. 30 day, reusable sterilizing and disinfectant solution. Requires no activator. When used full strength, provides high level disinfection of dental instruments in 45 minutes and complete sterilization in 10 hours. Effective against spores, vegetative organisms, fungi and enveloped and non-enveloped viruses. Contains a non-ionic surfactant, a silicone antifoam agent, a corrosion inhibitor and a lemon scent.

510-BIOG30 Gallon\$51.45

Cetyl-G® Concentrate and Diluent - Cetylite, Inc.

Pleasantly-scented glutaraldehyde-based sterilant/high-level disinfectant in an easy-measure tip-and-pour bottle allows you to mix just the amount needed. Each quart of concentrate yields 15 quarts (3.75 gallons) of 3.2% strength use-solution, that may be reused for up to 28 days. Anti-corrosion formula.

Contains: 32oz. Cetyl-G and 8oz. bottle Diluent.

500-0122 Each.....\$104.25

500-00146 8oz\$27.95

Rapicide® OPA/28 High-Level Disinfectant - Crosstex International

Provides a superior way to reprocess heat-sensitive, semi-critical medical devices that are unsuitable for sterilization. A powerful,

ready-to-use disinfectant that is FDA cleared carrying an active ingredient of 0.575% ortho-phthalaldehyde (OPA). Tested to provide 84 reuse cycles along with a reuse period of up to 28 days—twice the reuse period of other OPA brands. 10-minute manual disinfection time. Easy to use. Less toxic than glutaraldehyde. No activation required. Compared to glutaraldehyde it is less likely to irritate the eyes, nose and throat.

500-ML020127 Gallon..... \$43.95

Rapicide OPA/28 Test Strips

500-ML020137 50/Pack \$69.95

SANI Glut® Glutaraldehyde 3% Solution - Crosstex International

Reusable sterilizing and high-level disinfection solution. Non-corrosive and is compatible with immersible, heat sensitive instruments and devices. Once activated, it can be used up to 28 days. Fast acting and useful against a variety of microorganisms. It is readily biodegradable, formaldehyde-free and performs more effectively than products that use formaldehyde, glyoxal or other corrosive materials

590-JGLUT Gallon \$39.95

CoeCide™ XL - GC America

2.5% alkaline glutaraldehyde has broad spectrum sporicidal, tuberculocidal, virucidal, bacterial, pseudomonacidal, and fungicidal activity. Corrosion inhibitors protect instruments. Includes activator. Sterilization: 10 hours at 25°C, High Level Disinfection: 90 minutes at 25°C. Intermediate Level Disinfection: 10 minutes at 25°C.

502-551128 Gallon \$65.25

CoeCide™ XL Plus

3.4% alkaline glutaraldehyde.

502-550128 Gallon \$65.75

Cidex® OPA Solution - Johnson & Johnson

Near neutral pH allowing for excellent materials compatibility. 12 minute immersion for high level disinfection including TB. Low-level ortho-phthalaldehyde formulation (0.55%), glutaraldehyde free. Requires no activation or mixing. Low odor. Used for high-level disinfection only.

500-20390 Gallon \$69.95

Compliance™ Disinfectant/Sterilant - Kerr TotalCare

Reusable for up to 14 days. Hydrogen peroxide/peracetic acid formula that offers a superior alternative to glutaraldehyde formulas. Does not require activation or test strips. Achieves high-level disinfection in 15 minutes at 20° C. Achieves sterilization in 3 hours at 20° C.

500-102500 Gallon \$65.25

ProCide-D™ - Kerr TotalCare

2.4% glutaraldehyde. Long life, activated 28 day, buffered glutaraldehyde solution. Recommended for the sterilization of heat sensitive, immersible dental equipment and instruments, except hand-pieces. No dilution required / Activation Required. Achieve sterilization after soaking items for 10 hours at 25° C. Not designed to be used as a holding solution. Includes activators.

500-PC1032 Quart..... \$15.95

Cement Remover
 Metered 16oz. bottle. Yields 32 applications.
 534-UC39 Each **\$68.25**

CrossZyme® Concentrated Enzyme Ultrasonic Cleaner - Crosstex International

Neutral pH formula will not damage or harm instruments/endoscopes. Contains no harsh alkaline components - non-corrosive. Safe for use on plastics, stainless steel, glass and aluminum. Contains rust inhibitors. Enhances the dissolving of organic materials. Balanced detergent system for effective cleaning and easy rinsing over a wide range of concentrations and temperatures. Powerfully chelated to improve performance in hard water conditions. May be used as an ultrasonic cleaning solution or an instrument presoak.

- 530-JEZ Gallon **\$35.25**

EfferZyme® - Crosstex International

Made from a biodegradable, non-chlorine formulation that contains fast acting protease enzymes. Enhances removal of blood and other soils that may be resistant to chemical detergents. Simply place tablets in warm water. 2 tablets makes 1 gallon.

- 530-JET 52/box **\$60.95**

Asepti-Zyme™ - Ecolab

Effective instrument presoak and detergent that can be used for manual cleaning, in scope washers/disinfectors, ultrasonic cleaners, and automatic instrument washers. Enzyme-formulated to remove and dissolve proteinacious matter. Safe for use on endoscopes, fiber optics and other medical instruments. Neutral pH, low foaming, non-staining, and leaves no residue.

- 530-61023175 Gallon **\$47.45**

Blood Buster - Enzyme Industries, Inc.

A premium, ready-to-use, blood and organic stain remover formulated for dental, sports, veterinary and medical industries. Its enzymes and surfactants rapidly convert water insoluble stains into water soluble stains. Effective on blood, saliva, vomit, urine, fecal, wine, coffee and grass stains.

- 370-4194 32oz. spray bottle **\$36.25**

Sani-Soak® Ultra - Enzyme Industries, Inc.

Superior anti-corrosion qualities will not rust stainless steel instruments or dental burs. This specially formulated, state-of-the art enzyme formulation is designed to clean and brighten dental instruments in just minutes. Fresh citrus flavor, is biodegradable and non-toxic. Convenient "tip & measure" container. 1/2oz. of concentrate makes one gallon of solution. Lemongrass Lavender Scent.

- 530-5199 Quart **\$49.95**
 530-5198 Gallon **\$145.45**

Available in Cool Mint and 0.5oz Packettes upon request.

Sani-Treet Plus - Enzyme Industries, Inc.

A non-foaming, biodegradable, non-toxic, enzymatic concentrate designed for evacuation maintenance. It cleans and deodorizes filters keeping lines clear of debris and may be used as an instrument pre-soak and ultrasonic cleaner. Pump included for accurate product dispensing.

- Mint Scent**
 550-15650 Gallon **\$65.45**

- Country Meadow Scent**
 550-4200 Gallon **\$65.45**

Concentrated Ultrasonic Powder - EPR Industries LLC

Light weight powder. Add water to make concentrated ultrasonic solution further diluted 10:1.

General Purpose

Cleans blood and debris from instruments, burs and dentures.

530-0103 Gallon **\$21.45**

Tartar & Stain

Removes permanent cement from instruments.

530-0101 Gallon **\$21.95**

Temporary Cement Remover - EPR Industries LLC

Ready-to-use ultrasonic solution to remove temporary cement.

530-CR Gallon **\$30.45**

COEZYME™ - GC America

Formulated as a neutral pH formula to guard against instrument discoloration. Contains two proteolytic enzymes in a powerful detergent base. Efficiently dissolves organic solids and protein, allowing the detergent to carry contaminants away. Low foaming, provides non-corrosive cleaning of hard to reach surfaces, reducing need for manual cleaning. As a presoak solution, prevents solidification of organic substances on instruments. If used as an ultrasonic cleaner, low sudsing, removes debris in less than three minutes. One ounce makes one gallon of cleaner.

530-557064 Gallon **\$74.75**

Dri-Clave Ultrasonic Cleaning Solutions - Heraeus Kulzer

VK-1 General Purpose Cleaner:

Concentrated solution specially formulated for the removal of buffing compounds, pumice, rouge, tripoli, food particles, foreign matter and soils of all types from dentures, bridges, crowns, orthodontic appliances, instruments, burs, reamers, diamonds, aspirator tips & glass slabs.

530-36202 Gallon **\$78.45**

VK-3 Plaster and Stone Remover:

Ready to use and specially formulated for removal of plaster and stone from bridges, crowns, dentures, inlays, impression trays and spatulas.

530-36206 Gallon **\$62.25**

VK-4 Tartar and Stain Remover:

Ready to use and specially formulated for removal of calculus, tartar, tobacco and food stains from dentures, bridges and orthodontic appliances.

530-36208 Gallon **\$62.25**

VK-6 Temporary Cement Remover:

Ready to use and specially formulated for removal of temporary cement from bridges, crowns, inlays, splints, acrylic dentures, orthodontic appliances and instruments.

530-36212  Gallon **\$62.25**

VibraKleen E2 - Heraeus Kulzer

Enzyme ultrasonic cleaner effervescent tablets. 20 tablets dilute to 10 gallons. Drop directly into ultrasonic cleaner. Contains fast-acting protease enzymes. Non-ionic, low-foaming, biodegradable. Clean mint scent.

530-37100 20/box **\$38.95**

530-37101 80/box **\$110.25**

Enzymax® Spray Gel - Hu-Friedy

Prevents blood, fat, saliva and other body fluids from drying onto instruments. Replaces the need for presoaking. Fast-acting dual enzyme cleaning; Corrosion inhibitor; Biodegradable, pH-neutral formula; Can be used as a linen spot remover.

530-IMS1229 24oz. bottle **\$21.25**

 HAZARDOUS MATERIAL SYMBOL

IMS Daily Clean - Hu-Friedy

Concentrated powder detergent specifically formulated for efficient ultrasonic cleaning or presoaking of cassettes and instruments. 1.1lb container makes 35 gallons, 5lbs makes 160 gallons.

530-IMS1220 1.1 lbs. **\$31.95**

530-IMS1218 5 lbs. **\$92.75**

Enzymax® Concentrated Ultrasonic Detergent - Hu-Friedy

Specifically formulated for efficient ultrasonic cleaning or pre-soaking of cassettes and instruments. Contains Steelgard agents to protect instruments from harmful minerals naturally found in water that contribute to buildup, spotting and corrosion. Can also be used as an evacuation system cleaner.

530-IMS1224 Quart **\$41.25**

530-IMS1226 Gallon **\$83.75**

Liquid Packets

Each packet makes 1 gallon.

530-IMS1222 40/box **\$87.25**

Powder

1.76lbs (800gm) makes 50 gallons.

530-IMS1230 Each **\$54.75**

Powder PAX

Dissolvable single-use powder packets. Each makes 1 gallon.

530-IMS1232 32/pack **\$56.95**

EZ-Zyme All Purpose Enzyme Cleaner - Integra® Miltex®

Neutral pH multi-enzyme liquid concentrate ideal for instrument presoak, ultrasonic cleaning, laundry presoak, and evacuation system cleaner. Ideal for cleaning hard to remove proteinaceous (mucous & tissue) and lipid (fatty) materials from the surfaces of surgical/dental instruments, linen, water submersible equipment, or where mechanical scrubbing is impractical.

Contains: 32 -22ml packets in a dispenser box; makes 32 gallons of solution.

531-3750 Each **\$69.25**

ULTRASONIC/ENZYMATIC SOLUTIONS

EmPower™ Dual Enzymatic Detergent - Kerr TotalCare

Quickly removes blood, protein and other proteinaceous debris. Neutral pH formula. Less corrosive than distilled water. Contains two proteolytic enzymes for more effective cleaning. Low-foaming.

530-060801 Gallon **\$44.75**

EmPower™ Foam

Ready-to-use foaming dual enzymatic spray perfect for the pre-cleaning of instruments. The thick foaming spray effectively cleans away blood, tissue, mucous and other protein-rich body fluids.

530-104224 24oz. spray bottle **\$23.95**

Diamond Zyme™ Cleaning Solution - Kerr Rotary

A concentrated enzymatic cleaning solution with anti-corrosive agents that helps to prevent dull or corroded dental burs and prolong the life of hand instruments and everything else.

530-EC1200 Quart **\$64.45**

UltraDose® Single-Dose Cleaning Powders and Solutions - L&R

Ultrasonics

Replaces bulky, heavy liquids and allow you to use one packet at a time, as needed. No more measuring.

Ultrasonic Cleaning Solution

A cleaner of instruments, burs and orthodontic appliances, this solution removes blood, organic debris, buffing compounds, soils, oxides, rouges and tripoli in an ultrasonic cleaning machine. Each 1 ounce packet makes one gallon of cleaning solution.

530-012 24/pack **\$58.75**

General Purpose Cleaner

This powder cleans instruments, burs, general equipment, orthodontic appliances, gold and porcelain. Effectively removes blood, tissue, debris, buffing compounds, rouge, tripoli and oxides when used in an ultrasonic cleaning machine. One packet makes one gallon of cleaning solution.

530-030 24/pack **\$59.75**

Tartar & Light Stain Remover

This powder cleans dentures, partials and bridges when used with a beaker in an ultrasonic cleaning machine. Biodegradable. Use one packet per cleaning.

530-028 24/pack **\$50.25**

Beakers

571-40005 400ml **\$19.95**

571-LR40006 600ml **\$20.95**

UltraDose® Bulk UltraDose Germicidal

This Hospital Grade Ultrasonic Cleaner Concentrate cleans and disinfects inanimate, non-porous instrument and appliance surfaces, eliminating residual micro-organisms in one step. Performs as an ultrasonic cleaner, disinfectant, deodorant, germicidal, fungicidal, virucidal and tuberculocidal all-in-one. Fragrance-free solution. 1oz. makes 1 gallon.

530-UD036 16oz **\$69.45**

Tartar, Light Stain and Permanent Cement Remover

Removes tartar and light stains from dentures, partials and permanent cements. Can also be used to clean solder flux, oxide, investment, calcium hydroxide, some temporary cements and hard water scale.

530-232 Gallon **\$42.25**

Advanced Formula Temporary Cement Remover

Removes most of today's most popular temporary cements and, replaces manual removal.

530-293 Gallon **\$58.45**

Plaster and Stone Remover

Removes tough-to-clean plaster and stone from dentures, partials, flasks and articulators.

530-230 Gallon **\$53.25**

MEDIZIME® LF - Medical Chemical Corp

Facilitates lower suds production in automatic cleaning devices. 100% bio-degradable and phosphate free. Gentle on the environment.

530-3304LF Gallon **\$56.75**

DEFEND Ultrasonic Enzymatic Tablets - Mydent International

Convenient general purpose ultrasonic solution in tablet form. Dissolves in 45-60 seconds. Non-corrosive and biodegradable. May also be used as a pre-soak for instruments.

530-UT1000 64/box **\$59.95**

Citrzyme® - Pascal

An excellent instrument pre-soak and ultrasonic cleaning solution. Fast-acting dual enzyme formula quickly removes proteins and carbohydrates. Leaves no residue. Premium non-foaming formula dissolves instantly in warm tap water – no mixing required. Fresh citrus scent & color.

Powder

Contains: 2 styrofoam mailers, 16 collection vials, 2 refrigerant packs.
530-81601 Kit.....\$372.45

Citrisil All-In-One Tablets - Sterisil, Inc.

Produces a light blue tint for usual compliance. EPA registered to produce less than or equal to 10 CFU per ml HPC purity; 50 times below the ADA and CDC Guidelines.

Contains: 20 maintenance tablets and 1 Citrisil shock tablet, for 0.7-1 liter bottles.
530-C20B Each\$16.25

Sterisil Straw - Sterisil, Inc.

Works 365 days to continuously disinfect dental unit water lines while providing safe and clean water for your patients, staff, and dental unit. A built-in shock treatment is released upon initial install for optimum control of bacteria.

For Use with Distilled Water
530-S365 Each\$222.95

For Use with Municipal Water
530-S365M Each\$222.95

WATER DISTILLERS

AQUASTAT - SciCan

A patented distillation technology kills harmful bacteria and viruses by flash vaporizing water and then reconstituting it through condensation. The result is water that's 99% pure. AquaStat purifies soft or hard water from any source including those that are spring fed or municipally piped. Limited one year warranty. 16" x 9 5/8" x 15" 1/8".

770-W10120S Each\$668.95

Filters

580-SCIW8010 Each\$94.75

Water Distiller Model 9000 - Tuttnauer

This distiller uses a highly effective process that removes up to 99% of most substances from the water. Limited one year warranty.

770-TUT9000 Each\$713.95

Model 9000 Water Distiller - Waterwise, Inc.

Effectively removes contaminants such as arsenic, bacteria, chemicals, heavy metals, nitrates, pesticides and viruses. Limited one year warranty.

Model 9000: Reservoir size 1 gallon.

PLASTIC PROBES

How the best perform

COLORVUE® PROBES

Colorvue probes feature a vivid yellow tip with black markings for enhanced contrast to intraoral structures in both natural and implant dentition. Optimal flexibility and a rounded tip provide greater patient comfort and acceptability. The probe tips are safe for use with implants and feature a twist-on design for easy replacement of worn tips.

Crystal HD

The Crystal HD[®] lens produces a 99% true color reflection across the entire color spectrum, significantly dominating the average 75% reflection that a Rhodium lens provides. With a 40% brighter reflection than Rhodium, the Crystal HD[®] mouth mirror lens helps illuminate the oral cavity significantly, bringing more value to this commonly-used dental tool.

Why Use Zirc's Resin Mirrors?

With an efficient and unique application system, mirror magic[®] assists the practitioner in combating fog and debris by using an anti-fog solution combined with an adhesive swipe pad placed on the glove or patient bib. One swipe prior to starting the procedure provides long-term protection against fogging and is accessible for debris removal at any time. The compact size of the anti-fog solution bottle and swipe pads allows this system to be easily accessible and manageable in the dental sterilization area or in the operatory, right next to chairside.

\$24.95 - mirror magic[®] Trial Kit

710-50R200
2 6ml bottles of Anti-Fog Solution
24 Swipe Pads.

\$16.95 - mirror magic[®] Organizer

MISC. MOUTH MIRRORS

Riofoto Intra-Oral Photography Mirrors - EMF Corporation

Riofoto mirrors for intraoral photography are used by dentists and orthodontists around the world to provide sharp, clear images when used with either 35mm or digital cameras. These glass mirrors are coated with Rhodium for the highest reflectance available and are mirrored on both sides. Riofoto mirrors withstand repeated steam autoclave cycles.

SICKLE SCALERS

H6/H7 Hygienist

| SH6/79E2

Handle options: #2, #4, #6, #7, #8, #C8, #9

Super-thin, contra-angle design is for interproximal areas. Shank angulation provides accessibility to all anterior and premolar surfaces.

U15/30 Towner-Jacquette

| SU15/309E2

Handle options: #2, #4, #6, #7, #8, #C8, #9

H5/33 Hygienist-Jacquette

| SH5/339E2

Handle options: #2, #4, #6, #7, #8, #C8, #9

Super-thin sickle scaler combined with a straight sickle blade. For scaling interproximal and cervical areas of anterior teeth.

U15/33 Towner-Jacquette

| SU15/339E2

Handle options: #2, #4, #6, #7, #8, #C8, #9

How the best perform

NEVI® SCALERS

How the best perform

JACQUETTE SCALERS

THE CURVED SICKLE SCALER
Two cutting edges on a curved blade that end in a sharp point

THE STRAIGHT SICKLE SCALER
Two cutting edges on a straight blade that end in a sharp point (also known as a Jacquette Scaler)

Nevi 1 Anterior

| SCNEVI19E2

Handle options: #6, #7, #8, #C8, #9

An elongated disk end for anterior lingual stain and calculus removal paired with a super thin, anterior curved sickle.

Nevi 2 Posterior

| SCNEVI29E2

Handle options: #6, #7, #8, #C8, #9

A super thin posterior curved sickle scaler, the unique contra-angle design is great for interproximal reach and ergonomic hand positioning.

Nevi 3 Posterior

| SCNEVI39E2

Handle options: #C8, #9

Ultra slender, dual cutting blades provide effective placement in tight, narrow contacts and interproximal areas and precise access for effective removal of light to moderate deposits.

Nevi 4 Posterior

| SCNEVI49E2

Handle options: #C8, #9
Tapered dual cutting blades provide precise access for effective deposit removal and increased shank rigidity provides for effective removal of burnished, heavy and tenacious deposits.

30/33 Jacquette

| SJ30/339E2

Handle options: #2, #4, #6, #7, #8, #C8, #9

Combination standard and miniature anterior Jacquette

31/32 Jacquette

| SJ31/329E2

Handle options: #2, #4, #6, #7, #8, #C8, #9

LANGER APPLICATION CHART

Standard
Langer
Curette

After Five®
Curette

Mini Five®
Curette

- After Five and Mini Five terminal shanks are elongated by 3 mm for access into deep periodontal pockets and root surfaces of 5 mm or more.
- Blade is 10% thinner than standard Langer to ease gingival insertion and reduce tissue distention.
- Mini Five has a reduced blade, half the length of the After Five or standard Langer, for better adaptation in narrow pockets and furcations.

Manufacturer part numbers are provided here, please visit www.dhponline.com to convert or contact your DHPI Account Manager.

Handle options: #6, #8

ME-1 [10-11]
| SME1 Handle: #2

STANDARD GRACEY CURETTES

- Area-specific allows for deep scaling, root planing and periodontal debridement.
- Offset blade provides a perfect working angulation for the tooth surface.
- Offset blade angulation means only the lower cutting edge of each blade is used.

1/2 Rigid
| SG1/2R9E2
Handle options: #2, #4, #6, #7, #8, #C8, #9

Slight contra-angle for anterior incisors and canines

3/4 Rigid
| SG3/4R9E2
Handle options: #2, #4, #6, #7, #8, #C8, #9

Short contra-angle for anterior incisors and canines

5/6 Extra Rigid
| SG5/6ER6
Handle options: #2, #4, #6, #7, #8

Medium contra-angle for anteriors and premolars

7/8 Extra Rigid
| SG7/8ER6
Handle options: #4, #6, #7, #8

Medium contra-angle for premolars and molars, facial and lingual surfaces

Manufacturer part numbers are provided here, please visit www.dhponline.com to convert or contact your DHPI Account Manager.

STANDARD GRACEY CURETTES

How the best perform

GRACEY 1/2

GRACEY 7/8

GRACEY 11/12

GRACEY 13/14

GRACEY 15/16

GRACEY 17/18

9/10 (shown)

| **SG9/109E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

9/10 Rigid

| **SG9/10R9E2**

Handle options: #2, #4, #6, #7, #8

Long contra-angle for molar buccal and lingual surfaces and a more pronounced angle than 7/8 for less accessible root surfaces.

11/12 (shown)

| **SG11/129E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

11/12 Rigid

| **SG11/12R9E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

11/12 Extra Rigid

| **SG11/12ER8**

Handle options: #4, #6, #7, #8

Angulated to reach mesial surfaces of posterior teeth

13/14 (shown)

| **SG13/149E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

13/14 Rigid

| **SG13/14R9E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

13/14 Extra Rigid

| **SG13/14ER8**

Handle options: #4, #6, #7, #8

Angulated to reach distal surfaces of posterior teeth

15/16 (shown)

| **SG15/169E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

15/16 Rigid

| **SG15/16R9E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

Same shank bends as 13/14, but blade positioned to reach mesial posterior surfaces

17/18

| **SG17/189E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

17/18 Rigid

| **SG17/18R9E2**

Handle options: #2, #4, #6, #7, #8, #C8, #9

Accentuated angles improve access to distal posterior surfaces. The 17/18 also has smaller blade and slightly longer terminal shank.

1/2

| **SG1/29APE2**

Handle options: #9

Modified Gracey 1/2 with a rigid shank and a face angle offset at 60 degrees featuring a thinner, shorter blade for easier subgingival access.

7/8

| **SG7/89APE2**

Handle options: #9

Modified Gracey 7/8 with a rigid shank and a face angle offset at 60 degrees featuring a thinner, shorter blade for easier subgingival access.

11/12

| **SG11/129APE2**

Handle options: #9

Modified Gracey 11/12 with a rigid shank and a face angle offset at 60 degrees featuring a thinner, shorter blade for easier subgingival access.

13/14

| **SG13/149APE2**

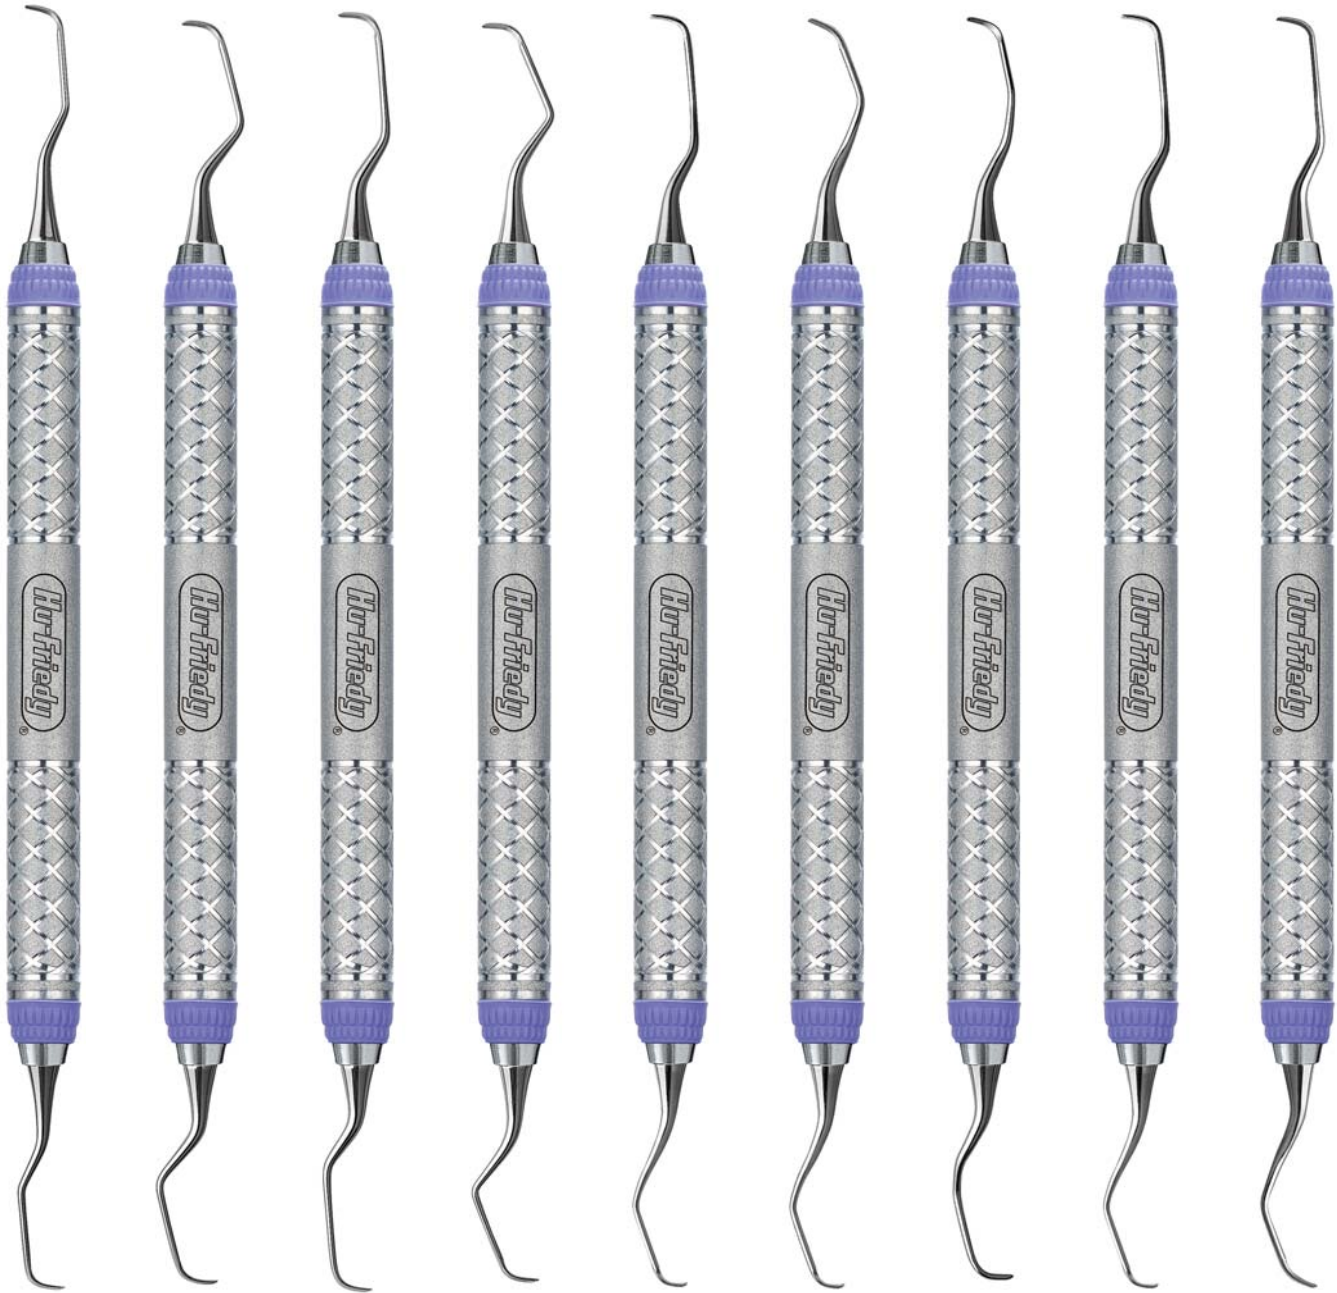

Handle options: #9

Modified Gracey 13/14 with a rigid shank and a face angle offset at 60 degrees featuring a thinner, shorter blade for easier subgingival access.

IMPLANT SURGERY

Adjustable Torque Wrench

Minimizes risk of implant screw working loose. Improves precision during bridge fabrication. No lubrication needed. Ratchet mechanism. 9 torque settings. Wrench head accepts the standard 4mm square connection. Autoclavable.

700-TWA Each **\$509.95**

Bone Funnels

Comfort grip thumb ring. Graft material loads at both ends to prevent clogging. 100% Stainless Steel. Made in America.

Curved

3.5mm/1.5cc 700-BFC35
 4.5mm/2.0cc 700-BFC45
 6.0mm/2.6cc 700-BFC60
 Each **\$96.95**

Straight

3.5mm/1.5cc 700-BFS35
 4.5mm/2.0cc 700-BFS45
 6.0mm/2.6cc 700-BFS60
 Each **\$96.95**

Implantation/Explantation Trephines

Trephine Drills create a defined space in the bone enabling precision implant placement. Fast removal of "bone core." Reduces number of drills used for implant site preparation. Depth markings at 9.0mm, 11.0mm and have an overall length of 14mm.

Implantation Trephine Kit

Contains: 5 implantation trephines and a sterilization block for storage.
 700-K363 Kit **\$449.95**

Explantation Trephine Kit

Contains: 5 explantation trephines and a sterilization block for storage.
 700-K369 Kit **\$449.95**

Osseous Collector

Sterile disposable bone collector. Harvest valuable autogenous bone. Correct small defects around implant sites and periodontal compromised teeth. Shut off valve cuts off suction eliminating the chance of drying out bone. Single patient use, includes 2 filters.

700-BC100 10/pack **\$149.95**

Osseous Glider

Sterile, disposable bone scraper. Always has a fresh blade. 360° blade is marked in 4 sections. Expose new cutting surface with the twist of any .050 hex driver.

Straight

Recommended for ramus, symphysis and tuberosity areas of the mouth.
700-BG200 Each **\$43.75**

Angled

Recommended for the external oblique ridge. Hold at a 35° angle on the ridge.
700-BG205 Each **\$43.95**

Osteotomes

100% stainless steel. Made in America. Lifetime guarantee.

Osteotome Kit - Concave

Contains: 6 straight and 6 angled osteotomes with concave tips, 1 mallet and a custom sterilization tray T-20.
700-K310 Kit **\$1192.95**

Osteotome Kit - Convex

Contains: 6 straight and 6 angled osteotomes with convex tips, 1 mallet and a custom sterilization tray T-20.
700-K320 Ki **\$1192.95**

Available individually upon request.

Universal Drivers

Long and short-handled drivers work with all major implant systems. Color-coded for easy identification. Fully autoclavable.

Short

Designed for anterior mandible cases. 1.75" long.

- Straight Screwdriver..... 700-ID535
- SCS Screwdriver..... 700-ID536
- Unigrip Driver..... 700-ID534
- Hex 1.3/0.50"..... 700-ID524

- Square 1.3/.050"..... 700-ID525
- Each **\$57.25**

Short Handled Kit available upon request.

Long

Provide outstanding access between teeth and are specifically designed for maxillary cases. 4.25" long.
Straight Screwdriver..... 700-ID530

- SCS Screwdriver..... 700-ID533
- Unigrip Driver..... 700-ID527
- Hex 1.3/0.50"..... 700-ID531
- Hex 1.2mm/.048"..... 700-ID532
- Hex 0.9/0.35..... 700-ID528
- Square 1.3/.050"..... 700-ID526
- Each **\$57.25**

Long Handled Kit available upon request.

Right Angle Driver

Ability to rotate the head to the exact angle you need, maximizing access and comfort. Pre-set torque adapters allow you to achieve a specific torque value.

- 280-RAD Each **\$393.45**

Torque Adaptor

Easily connects. 7 torque values. Autoclavable.

- 280-ATA Each **\$459.95**

Right Angle Driver Bits

Compatible with all implant systems. Ideal for posterior abutments and cover screws in the mandible and maxilla. Each bit is laser etched for quick identification.

- 700-BITSKIT 7/set **\$262.45**

Sinus Lift Instruments

Tips are extremely smooth to ensure the sinus wall isn't punctured when separating the sinus lining from the wall. Light-weight, color-coded handles with stainless steel tips.

Sinus Lift Complete Kit

Contains: Sinus 0, Sinus 1, Sinus 2, Sinus 3, Sinus 4, Sinus 5, Sinus 7S and the stainless steel sterilization cassette.
700-K7000 Kit **\$727.45**

RCSLK Sinus Lift Kit

Developed by Dr. Ronald Cardoso, includes 5 instruments arranged in a surgical tray. Each instrument is numbered and each side of the instrument is labeled A or B.
700-KRCSLK Kit **\$437.25**

Each sinus lift instrument available individually upon request.

COMPOSITE/PLASTIC FILLING INSTRUMENTS

The #1 (CIGFT1) on an anterior preparation

The thin blade of the Mini 4 (CIGFT4) working interproximally

How the best perform

GOLDSTEIN FLEXI-THIN COMPOSITE INSTRUMENTS

#1

| CIGFT1

Handle options:
#41, #6, #8

Small universal style with rounded plugger tip and a narrow paddle for initial placement and contouring of Class I, II and III restorations.

#2

| CIGFT2

Handle options:
#41, #6

Larger universal style for final placement and contouring of Class I, II, and III restorations.

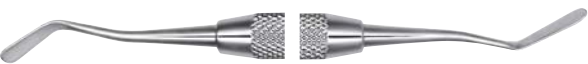

#6

Flexi-Thin

| CIGFT6

Large reverse angle tips make it easy to place fissures, grooves and pits creating the ideal occlusal anatomy in hard to reach posterior areas.

#3

Extra-Flex

| CIGFT3

Handle options:
#41, #6, #8

Flexible, reversed, flared paddle design for shaping and placement of Class III and IV restorations.

Mini 1

| CIGFTMINI1

Handle options:
#41, #6

Mini version of the CIGFT1 for small pits and fissures, tunnel preparations or minor tooth defects on lower anteriors.

#4

Extra-Flex

| CIGFT4

Handle options:
#41, #6

Flexible, paired, offset, paddle-shaped blades for placing and shaping material on posterior, mesial and distal surfaces. Reverse angle is also useful for placing and shaping anterior bonded restorations.

Mini 3

Extra-Flex

| CIGFTMINI3

Handle options:
#41, #6, #8

Mini version of the CIGFT3. Can also be used for packing gingival retraction cord.

#5

Flexi-Thin

| CIGFT5

Small reverse angle tips make it easy to place fissures, grooves and pits creating the ideal occlusal anatomy in hard to reach posterior areas.

Mini 4

Extra-Flex

| CIGFTMINI4

Handle options:
#41, #6, #8

Mini version of the CIGFT4 for placing and shaping material in difficult to access mesial and distal posterior restorations.

Manufacturer part numbers are provided here, please visit www.dhponline.com to convert or contact your DHPI Account Manager.

COMPOSITE/PLASTIC FILLING INSTRUMENTS

How the best perform

ABI Boghosian (PFIAB1) knife-shaped blade applying composite veneer

ABI Boghosian

| PFIAB1

Handle options:
#41, #6

Unique combination of thin, knife-shaped blade with standard angled blade. Knife blade allows controlled, efficient manipulation of composite even in gingival areas.
Application: Class III, IV, V

Interproximal Carver

| CVIPC

Handle options:
#41, #6, #7, #8

Extremely thin flexible blades are opposed for easy handling of composite materials and interproximal contouring.
Application: Class III, IV, V

AB2 Boghosian

| PFIAB2

Used for measuring composite layers and shaping occlusal anatomy.

3 Tufts

| C16001

Combination of medium-sized blade with small condenser tip for universal adaptability. Ideal for placement, layering, and general contouring. Application: Class I, II, III, IV, V

W3

| PFIW3

Handle options:
#41, #6, #8

Combination of medium-sized blade with small condenser tip for universal adaptability. Ideal for placement, layering, and general contouring. Application: Class I, II, III, IV, V

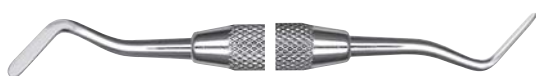

A6 (156)

| PFIA6

Handle options:
#41, #6, #7, #8

Large, thin blades are opposed for adaptability to any situation, including veneers, where broad contouring or carving strokes are needed. Application: Class II, III, IV, V

4F Tufts

| C16056

Reverse double-end blades with ideal width and length for initial placement and carving of composite. Can also be used for packing gingival retraction cord. Application: Class III, IV

4/5 Gregg

| PFI4/5

Off-angled blades allow easy adaptability to mesial and distal surfaces of posterior teeth, providing increased interproximal access and better visibility of the working area. Application: Class II, V

COMPOSITE/PLASTIC FILLING INSTRUMENTS

Hu-Friedy®

How the best perform

GOLDFOGEL INSTRUMENTS

A
Cosmetic
Contouring

| CCIA

Identical, opposing, large, flexible, oval-shaped blades, straight and angled, for contouring composite material on larger facial surfaces of central incisors.

B
Cosmetic
Contouring

| CCIB

Identical, opposing, spear-shaped blades, straight and angled, used for contouring composite material on smaller facial surfaces of central incisors.

F
Cosmetic
Contouring

| CCIF

Uniquely-shaped blades with curved and rounded tips for adding and shaping composite material on desired areas of facial incisors.

C
Cosmetic
Contouring

| CCIC

Flexible, oval-shaped blades - one slightly larger - for interproximal contouring on central incisors.

G
Marginal Ridge
& Embrasure
Shaping
Instrument

| CCIG

Allows formation of marginal ridges along with buccal and lingual embrasures while composite is uncured.

D
Cosmetic
Contouring

| CCID

Used when working near or at interproximal areas. Straight end compacts composite material, while sharp knife edge cuts composite to avoid bonding to adjacent tooth.

H
Occlusal
Anatomy
Instrument

| CCIH

Designed to help attain proper occlusal form, function and improve marginal seal.

E
Cosmetic
Contouring

| CCIE

Small and medium curved blades for thinning and shaping composite material at the gingival areas.

I
Composite
Packing
Instrument

| CCII

Aids in forming a properly filled axial box and occlusal portion.

 Manufacturer part numbers are provided here, please visit www.dhponline.com to convert or contact your DHPI Account Manager.

COMPOSITE MANIPULATION

OptraSculpt®Pad - Ivoclar Vivadent

Innovative modeling instrument designed for the intra-oral adaptations shaping, and contouring of uncured packable composite and compomer materials in Class III, IV and V restorations and direct laminate veneers. Non-stick surface of the foam pad prevents adhesion of composite resins. Instrument does not leave any marks and

ensures creation of even surfaces. Reference scales on the instrument handle ensure professional esthetic results. Consists of an autoclavable handheld instrument and single-use disc-shaped attachments (pads) in diameters ranging from 4 to 6mm.

Assortment Kit

Contains: 1 instrument, 1 refill (4mm/60), 1 refill (6mm/60).

Nola Dry Field System

Achieve Total Bonding Success...

- Full Arch Access for Bonding
- Adjustable to Arch Length
- Maximum Patient Comfort
- Excellent Soft Tissue Retraction
- Fully Autoclavable to 280°F/135°C
- Reduces Bond Failure
- Prevents Treatment Delays

The Nola Dry Field System completely eliminates saliva and fully exposes both arches making it ideal for all bonding applications.

The system is easy to assemble, be inserted, and used by a single operator. The entire system is completely autoclavable making clean-up easy.

Dry Field Systems

Large Resin 12 Instruments | [IMS-1112](#)

Holds up to 12 instruments (pictured)

Large Resin 16 Instruments | [IMS-1116](#)

Holds up to 16 instruments

BLEACH CLEANING RECOMMENDATIONS FOR RESIN CASSETTES

The resin cassettes should be bleach cleaned on a six month basis. They may be submerged in a solution of two cups bleach to one gallon of water (0.5 liters bleach to 4 liters of water) for 5 to 30 minutes. If staining has occurred, use less water and more bleach. If bleach does not break through the stain, wipe cassettes with isopropyl alcohol prior to bleaching. Be sure to remove instruments before placing cassettes in bleach solution as bleach is destructive to metal. This cleaning procedure is only recommended with resin cassettes. If staining does occur on stainless steel cassettes, wipe clean with soap and water. DO NOT use bleach process described for resin cassettes on stainless steel cassettes.

Manufacturer part numbers are provided here, please visit www.dhponline.com to convert or contact your DHPI Account Manager.

SIGNATURE SERIES™ TUBS

How the best perform

Together, procedure tubs and cassettes create the most efficient and organized system for managing instruments and consumable products. The time savings achieved by using IMS (Instrument Management System) cassettes and procedure tubs will allow the staff to spend time on more value added activities in the dental office.

Signature Series Tubs are designed to match IMS cassette rail colors and feature antimicrobial product protection.

Signature Series™ Complete Tub \$62.45

12-3/4" x 11-3/16" x 4"

Includes:

- Signature Series Tub
- Tub Liner
- Tub Divider (package of 8)
- Single Tub Cup w/Cover
- Double Tub Cup w/Cover
- Divided Slide Tray
- Locking Tub Cover

- Provides 5 storage compartments
- Dividers are removable for customization
- Perfect for storing capsules, discs, abrasive strips, wedges, matrix bands, etc.

SIGNATURE SERIES RACKS

Adjustable 3 Tub Rack

Adjustable 4 Tub Rack

Adjustable 3 Tub Rack

MIN 7-1/2" - MAX 15-1/2" x 10-1/2" x 13" \$101.45 | [IMS-1433](#)

Adjustable 4 Tub Rack

MIN 7-1/2" - MAX 15-1/2" x 10-1/2" x 18-3/4" \$91.45 | [IMS-1434](#)

- Holds a maximum of 4 tubs with lids or 8 cassettes
- Non-slip feet
- Sturdy metal construction

SIGNATURE SERIES CLIP-ON HOLDERS

Capsule Clip-on Holder

8" x 2-1/2" x 3/4" \$14.45 | [IMS-1429](#)

- Allows quick access to composite material during procedure
- Conveniently clips on any side of tub
- Holds up to 8 capsules, 4 syringe tubes and capsule/gun dispenser

Syringe Clip-on Holder

8" x 2-5/8" x 3/4" \$14.45 | [IMS-1430](#)

- Allows quick access to composite material during procedure
- Conveniently clips on any side of tub
- Holds up to 15 syringe tubes and 3 applicator tips

SIGNATURE SERIES SYRINGE STANDS

20-Unit Syringe Stand

9" x 4-3/4" x 2 1/2" \$32.25 | [IMS-1431](#)

- Stands up for easy access to syringes
- Lays flat to fit inside a tub or drawer
- Holds up to 20 syringe tubes

10-Unit Syringe Add On

8-1/2" x 2-3/8" x 3/4" \$14.45 | [IMS-1432](#)

- An add-on for the Syringe 20 Unit Stand
- Provides additional space for syringe storage
- Holds up to 10 syringe tubes

ANTIMICROBIAL PROTECTION

*Antimicrobial protection is integrated into the tub and tub components during the manufacturing process. This technology works by interrupting key cell functions that allow the microorganisms to function, grow and reproduce. Antimicrobial protection begins to work as soon as the microorganism comes into contact with the product surface and works continuously to inhibit the growth of microbes that can cause stain, odors and product degradation - for the lifetime of the product.

How the best perform

WHY USE Zirc's Cassettes?

A low-cost investment with a quick return! Individual instrument handling takes time away from treating patients and increases overall processing time. Zirc's cassettes will prolong your instrument's life and save you time without breaking the bank. In a 2014 Implementation of Cassettes Case Report, Marie T. Fluent, DDS, writes how the dental office benefited from the transition from no cassettes to using them with every procedure: "Drs. Dale and Thomas were both grateful that they chose to implement ... an Instrument Management System for the organization, processing, and handling of their instruments within their practice. They agreed that cassettes improved all aspects of instrument management... Initially, their opinions were varied; however, at the conclusion of the one-year anniversary, no clinical staff could imagine processing instruments in any other fashion. Cassette usage had become organized, efficient, safe, and routine." Read the article in its entirety at: www.dentaleconomics.com.

Size comparison with the 8-Place E-Z Jett® Cassette.

\$29.75 - E-Z Jett® Compact 8-place Slim

Holds 8 instruments. Covers stay attached to the cassette and fold back easily. Compact size. Fits the Statim. Stackable in Ultrasonic. Syringe Tip Holder included.

 Dimensions: 9-3/4" x 5-3/8" x 1-1/16"
 710-20Z466 Clear

\$10.75 - Flat Slide Tray
 Dimensions: 9-3/4" x 5-3/8" x 1-1/16"
 710-20Z467 Clear

The Safe-Lok® Tray Cover helps prevent cross-contamination and provide safe transportation back to the sterilization area.

Zirc's exclusive Safe-Lok® tray cover provides an excellent method of infection control and safety that allows for two benefits other trays do not:

1

Prevents any contaminated items from falling off of the used tray during transportation from operator to central sterilization. The contaminated items stay enclosed until you are ready for the cleaning and sterilization process.

2

Set up your procedure trays ahead of time with all instrumentation needed. The Safe-Lok cover securely locks to the tray, not only keeping items clean, but also allowing for safe transportation to chairside. The cover is removed once the patient is in the chair and the procedure begins.

\$11.95 - B-Lok Flat Tray

Wide edges for secure grip.
Non-slip feet for stability.
Self-lubricating, high-gloss surface helps prevent staining.
Dimensions: 13-3/8" x 9-5/8" x 7/8"
710-20Z401_ Available in all colors

\$14.95 - B-Lok Divided Tray

Holds 12 hand instruments.
Bur holder for 9 FG, RA, or HP burs.
Comes with Insti-Grip.
Non-slip feet for stability.
Self-lubricating, high-gloss surface helps prevent staining.
Holder for Syringe Tip or Saliva Ejector.
Dimensions: 13-3/8" x 9-5/8" x 7/8"
710-20Z451_ Available in all colors

\$16.95 - B-Size Safe-Lok® Tray Cover

Fits B-Lok Flat and Divided Trays only.
Side locking mechanism securely locks cover to tray.
Dimensions: 13-7/8" x 9-7/8" x 3/4"
710-20Z445

DUST COLLECTORS

Optiblast Workstation - Buffalo Dental Manufacturing

This ideal lab workstation for the Optiblast with built-in dust collection. Can be used with electric handpieces and other dust producing devices. 120 volts and has an additional power outlet to plug in your electric handpiece unit.

770-BUF36560 Each..... **\$442.45**

52CSU Etcher Catcher - Handler Mfg Co

Collects dusts created by the use of aluminum oxide blasting pencils. Constructed to be ergonomically accommodating when used with hand-held blasting pencils, preventing dusts from collecting on table tops and surrounding areas. Scratch resistant shield that lasts up to 4 times longer and more powerful suction fan to remove more dust.

Unit Dimensions: 11" W x 16" D x 9" H.

770-52CSU Each..... **\$378.75**

550 Porta Vac Bench Top Dust Collector - Handler Mfg Co

40% more suction power, compact in-line suction design, removable resin clean out tray, replaceable clear acrylic shield and reusable and replaceable pleated rear filter. Comes with a fluorescent light for hours of cool, bright operation and will collect 0.5 microns of dust and larger particles. Easy operation. The durable white powder coated heavy gauge steel frame is built to last. Made in the USA.

770-550 Each..... **\$398.95**

DUST COLLECTORS

62 Super Sucker - Handler Mfg Co

Develops 225 cfm suction capacity through two top inlets. Dust and grindings are entrapped in a removable, disposable paper filter. A secondary polyester filter entraps finer dusts. A third filter made of activated charcoal removes up to 80% of acrylic monomer odors.

Unit dimensions: 14-3/4" W x 8-1/2" D x 17-3/8" H.
570-HAN62 Each..... **\$674.95**

62-II Super Sucker II - Handler Mfg Co

Designed to provide excellent suction to a single bench top work position. Develops 110 CFM (cubic feet / minute) at a static pressure of 63" of H2O double walled disposable filter bag is easily removed through the front access door with the removal of two thumb screws. A rear internal activated charcoal filter aids in the removal of acrylic monomer odors. Includes the dust collector with variable speed controlled suction motor, 4 feet of 2-1/2" flex hose and a fishmouth. This unit is not recommended for collection of ALO dusts.

Unit Dimensions: 10" W x 15-1/2" D x 13" H.
770-62II Each..... **\$610.15**

LAB ADHESIVE

Permabond 910 Adhesive - Buffalo Dental Manufacturing

Cyanoacrylate adhesive used for cementation of pins, repair of models and dies, and for positioning work prior to soldering. Ready to use and requires no catalyst. Extremely high bonding strength, can also be used for sealing/hardening dies.

 740-7010 10" coarse..... **\$32.75**
 740-7012 12" coarse..... **\$35.75**

Carbo-Dent Model Trimmer Wheels - Handler Mfg Co.

Reversible and reinforced. 1/4" thick.

Standard Coarse
 580-HAN31AC 10"..... **\$33.95**
 770-32AC 12"..... **\$40.95**

31 Model Trimmer - Handler Mfg Co.

Standard with a reversible, reinforced 1/4" thick Carbo-Dent wheel for long lasting use and improved safety, as well as a pair of rubber suction cup feet to lift the front of the trimmer for better water flow and more stable operation for safety.

Model 31
 10" wheel, 1/3 HP, 110 volts.
 770-31 Each..... **\$607.45**

Model 31X
 10" wheel, 1/4 HP, 110 volts.
 770-31X Each..... **\$571.55**

Model Trimmer - Whip Mix

10" Model. Offers a two-position work table and many features of the larger models but at a lower cost. 10" coarse abrasive wheel and 1/3 HP motor.
 770-09474 Each..... **\$933.95**

Complete Kit

Contains: Sealed trap bucket, 2 hoses and sewer tail pipe adapter fitting.

560-62100 3-1/2 Gallon **\$46.95**
 560-62110 5 Gallon..... **\$53.95**

Refill

Contains: Trap and 2 plastic caps for sealing full trap.

560-62106 3-1/2 Gallon **\$19.95**
 560-62112 5 Gallon..... **\$23.95**

Bottle Trap and Self-Sanitizing Trap available upon request.

Crescent® Plaster Trap - Dentsply Caulk

Eliminates cleaning problems, odors and mess. It has a disposable vinyl liner with a built-in drain attached to disposable liner. 8 quart capacity and brushed aluminum canister.
 770-CRE0350100 3-1/2 Gallon **\$329.75**

Replacement Liners

560-0350225 Each..... **\$28.75**

MODEL TRIMMERS

Model Trimmer - Buffalo Dental Manufacturing

Engineered for greater visibility, plus efficient trimming of models without splashing or plaster build-up. Quiet and smooth running, ideal for any requirement. Heavy-duty bearing motor for low noise and smooth running. Optional solenoid valve controls water and motor simultaneously.

Model 61790A
 10" wheel, 1/3 HP, 110 volts.
 770-61790A Each **\$593.25**

Model 61792
 10" wheel, 1/2 HP, 110 volts.
 770-61792 Each **\$674.95**

PLASTER TRAPS

Trap-Eze™ Disposable Plaster Traps - Buffalo Dental Manufacturing

The sanitary, convenient, odor-resistant solution for the capture and disposal of messy wet model trimming waste.

Original Classic
 Requires minimum 9" clearance between bottom of sink tail pipe and top of trap bucket for easy installation without tools.

Dispos-a-trap - Keystone Industries

Combines convenience with economy. Translucent color allows for easy monitoring of the waste level. Safe, reliable and sanitary.

 Anterior 740-031336520
 10/pkg **\$46.25**

Saw Kit & Blades - Dentsply Ceramco
 Designed for hand cutting operations of stone and acrylic. The skip tooth blade permits a quick, clean and narrow cut. Blade is held in place by tension of the one-piece frame and is free of any locking or tightening devices which might interfere with the cutting surface. Blades are quickly and easily changed.

Saw Frame w/10 Blades
 760-9995112 Each..... **\$27.75**

Blades
 760-9995113 10/pack..... **\$13.45**

Wheel Saw - Keystone Industries
 High quality cutting wheel used for hard sheet resins and dual laminates. The cutting surface is on the edge that contacts the plastic. Fits most slow speed handpieces.
 760-9630100 Each..... **\$18.25**

SEPARATING AGENT

Al-Cote Separating Agent - Dentsply Trubyte
 Ideal replacement for tinfoil in the processing of acrylics. Chemically reacts with gypsum to form a film that is insoluble in water or monomer.
 760-652500 65ml..... **\$11.45**
 760-652502 Gallon..... **\$90.25**

☎ www.dhponline.com

SEPARATING AGENT

COE-SEP - GC America
 Tinfoil substitute that provides smooth, glossy and tough film on stone models. Prevents denture resins from sticking to stone models during processing. Uniform film thickness permits closer adaptation of acrylic resin to model.
 762-343591 2oz **\$11.45**
 762-343592 1 quart..... **\$41.25**
 762-343593 1 gallon..... **\$81.75**

Super-Sep - Kerr Laboratory
 An alcohol-based die separating fluid that dries on contact. Plastics, stone or investment can be poured against it immediately.
 759-22325 8oz. bottle **\$41.95**
 759-22326 32oz. bottle **\$82.25**

SILICONE SPRAY

Sta-Lube Silicone Spray - Buffalo Dental Manufacturing
 This silicone lubricant prevents mouthguard materials from adhering to the model, vacuum plates and frames. Assures easy cleanup of flasks and trays. Ideal separating medium for dies when making copings. Environmentally safe.
 571-80015 16oz..... **\$16.25**

☎ Fax: 888-681-5088

SILICONE SPRAY

Silicone Spray - Dentsply Trubyte

An all purpose food-grade release agent. Can be used on metals, many plastics, plaster, stone, amalgam and compounds. Does not contain petroleum oil.

760-98929 16oz \$19.45

Silicone Emulsion - Keystone Industries

Produces smooth, accurate, bubble-free surfaces on all impression materials and models.

760-0140400 4oz \$16.45

16oz. Concentrate

Makes 32oz.

SURFACTANT/DEBUBLIZER

Surfactant Debubblizer - Almore International, Inc.

Reduces surface tension and eliminates bubbles. Spray lightly on any impression material such as alginate, rubber or silicone. Does not contain alcohol. Avoids repouring and distortion of models. May also be directly added to stone or plaster mix.

- 760-62801 8oz \$18.25
- 760-62800 32oz \$40.75

VACUUM FORMERS

Econo-Vac - Buffalo Dental Manufacturing

Premium features and performance at a budget friendly price. 110 volts.

- 770-80186 Each \$455.95

The Machine III - Keystone Industries

Aluminum construction is long-lasting, eliminating the possibility of rust. Heating element is symmetrically engineered for even heat distribution throughout the thermoplastic material. Use with 5" x 5" resin sheets. Made in the USA with a 5-year guarantee on parts and labor. 110 volts.

- 770-NATM31 Each..... \$415.75

Machine IV - Keystone Industries

Super strong, lightweight thermoplastic material. Plastic housing dampens vibrations resulting in a quieter running unit. Vented heater cover allows heat to quickly dissipate. Locking handle allows you to vary the height of the material plate to control the heating rate of various materials. Contoured vacuum platform allows full air flow under the model. Reliable touch pad control with several safety features: Built-in safety timer that shuts down the heater if not used for 15 minutes. Built-in tilt-switch that powers down the unit if it is knocked over or tilted more than 45 degrees. Made in the U.S.A. with a 5-year warranty on parts and labor. 110 volts.

- 770-7000338 Each..... \$492.95

Stalite Special Solution - Buffalo Dental Manufacturing

Unique solution helps make harder, smoother and more accurate stone models and dies. No significant setting expansion. Can be used with all gypsums.

- 760-80151 Gallon..... \$38.95

Sta-Vac - Buffalo Dental Manufacturing

High performance, premium vacuum forming machine with a dual stage vacuum motor, which provides highly accurate adaptations. 110 volts.

- 770-80190 Each \$662.45

Debubblizer - Kerr Laboratory

A surface tension reducing agent that allows investment to flow uniformly to all portions of the wax pattern. For use when hand mixing.

- 769-22320 8oz \$42.75
- 769-22321 32oz \$55.95

Tray-Vac - Buffalo Dental Manufacturing

Features a high velocity air flow system, a new quick lock frame and a gasket free design. 110 volts.

- 770-80165 Each \$381.95

Pro-Line Air Vac 2000 - Keystone Industries

Provides superior adaptation for dental plastics. Utilizes the laboratory's or operator's internal air compressor to provide the maximum amount of air pressure to adapt thermoplastics. No motor means the unit is very compact and very quiet. The vacuum pressure from an office compressor is greater than that generated from smaller vacuum units. Greater pressure means it works on all types of plastics and all types of appliances. Can be used to layer appliances. Made in U.S.A. with a 5-year warranty on parts and labor. 120 volts.

- 770-7000470 Each..... \$612.75

Model Glow (Model Soap) - Whip Mix

High luster to gypsum models. Its special formulation does not yellow or flake and seals the pores to provide a protective coating. Its thin consistency does not affect occlusal accuracy. Long lasting and can be used full strength or diluted. Models can be buffed wet or dry.

- 760-29009 Gallon..... \$51.75

iNTERRA™ In Office Nightguard - Dentsply Caulk

Clinician can, in one visit, offer the patient a lab quality, custom fit, comfortable, long lasting durable and esthetically pleasing appliance, without the need for an impression. It offers a unique wedge shape that allows easier lateral excursions.

Starter Kit

Contains: 1 small arch, 2 medium arches, 1 large arch, 1 Regisil Rigid super fast set cartridge (50ml), 6 mixing tips.

Base Plate Material - Keystone Industries

Used for denture base or wax bite plates. Made of pure high-impact styrene, the material melts at a low temperature and is easy to work with. Pink. 5" x 5" sheets.

.060
 760-9616210 25/box **\$25.25**

.080
 760-9616230 25/box **\$17.45**

.100
 760-9616140 100/box **\$61.25**

Tray Material - Keystone Industries

Ideal for impression trays. Made of high-impact styrene. Spacer foam is included. 5" x 5" sheets.

.150
 760-9617410 25/box **\$26.75**

Additional thickness and sizes available upon request.

Bleaching Laminates - Keystone Industries

Ideally suited for making bleaching trays and withstanding bleaching products. Only .020" thick once it's formed over the model. Foam liner to absorb bleach. Clear. 5" x 5" sheets.

760-P150000 50/pkg. **\$86.75**

Coping Material - Keystone Industries

These cloudy, stiff polypropylene sheets are excellent for fabricating temporary crowns, bridges and copings. The material gives good definition and will not adhere to acrylics.

.020 Coping
 760-9613470 50/box **\$15.45**

.030 Coping
 760-9613480 50/box **\$16.45**

Additional thickness and sizes available upon request.

Crown & Bridge Material - Keystone Industries

A thin, clear rigid material that works great for temporary bridges. The material is easy to work with, does not bond to acrylic. 5" x 5" sheets, .020 thick.

760-9613680 50/box **\$25.95**

Dual Laminates - Keystone Industries

Unique combination of two materials formed into a single laminated sheet, made with bruxing cases in mind. Soft liner assures patient comfort and the hard surface assures long-lasting wear. Acrylic will bond to the hard surface to allow the technician to modify the occlusal surface. 5" x 5" sheets.

760-P130000 12/pkg..... **\$76.75**

Additional thickness and sizes available upon request.

Pro-Form Niteguard Laminates - Keystone Industries

Layered with soft/soft material, made specifically for the making of niteguards. Layering gives the thermoplastic a more abrasion resistant characteristic that will withstand grinding better than traditional soft sheet materials. 5" x 5" sheets.

0.120
 760-P120000 12/box **\$76.75**

Pro-Form Soft EVA - Keystone Industries

Great for the fabrication of custom fluoride trays, bleaching trays and model duplication. The material is soft, clear and easily forms, can be trimmed effortlessly. Ideal for soft bruxing patients. Clear. 5" x 5" sheets.

VACUUM FORMING ACCESSORIES

Block-Out Compound - Buffalo Dental Manufacturing
760-05240 Each..... \$12.95

ThermaKnife - Buffalo Dental Manufacturing
Quickly and easily trim bleaching trays, mouthguards and many other thermoplastic materials. Adjustable temperature control makes it easy to customize. Lightweight pen features an ergonomic design and sharp, permanent tip for improved comfort and control. 120 volts.

Intro Kit
Contains: Unit and Knife Edge Pen.
770-BUF80500 Kit..... \$220.95

Additional Pens available upon request.

Pro-form Electric Knife - Keystone Industries
Useful in trimming and cutting a variety of thermoplastic dental materials. Solid state circuitry, and interchangeable handpiece with up to four other replacement handpieces available, 2 outlet stations to accommodate more than one person. 10 amps allow you to cut most materials easily and smoothly by providing extra heat at the tip. Excellent for bleaching trays, impression trays, splints, mouthguards and more. Can also double as a waxer.
770-9144730 Each \$385.95

Pressure Dome - Keystone Industries
Uses positive pressure during vacuuming, allowing for a form-fitting mold of thermoplastics. Hooks into any existing air compressor lines to provide extra pressure when adapting thermoplastics over an existing model.
770-9594050 Each \$124.75

VIBRATORS

1A Vibrator - Buffalo Dental Manufacturing
Durable 4" diameter rubber cover and suction cup feet improve stability and ensure quiet operation. 120 Volt, 3 speed.
770-84350 Each..... \$96.75

200 Extra H.D. Vibrator - Buffalo Dental Manufacturing
Our largest vibrator for multiple flasks and dense castings. 10-1/8" x 7-1/2" rubber covered work platform for convenience and spill control. Beige enameled housing. 110 volts.
770-84500 Each..... \$324.75

78-RK Atlas Heavy Duty Tri-Speed Vibrator - Handler Mfg Co
Built for durability and rugged use. Two frequencies each with variable speed. The HIGH and LOW are variable to allow a technician to vibrate a mixing bowl or flask at the correct speed for the plaster, stone or viscous solution to de-bubble. The fully covered larger rubber table is built to hold larger flasks and mixing bowls. The rubber top is removable for easy cleaning and replacement. Four soft rubber feet hold the 78-RK in place during the heaviest vibrating cycles. The unit is coated with a baked enamel finish.
Unit Dimensions: 8" W x 6 1/2" D x 4 1/2" H
770-HAN78RK Each..... \$215.95

78-1 Atlas Junior Vibrator - Handler Mfg Co
A three speed vibrator for use by the dentist or smaller laboratory. This is designed for compactness, longevity and intermittent use. Its 4" [10cm] diameter, removable, rubber covered table top makes it an ideal addition to any small lab workbench where a vibrator will be utilized for short periods. Finished in a durable, baked coating with resista-move rubber suction cupped feet. Unit Dimensions: 4 1/2" W x 4 1/2" D x 4" H.
770-HAN781 Each..... \$115.95

ContactPro® Sectional Matrix System - Microbrush® International

The ContactPro Sectional Matrix System by Microbrush International provides you a solution for Class II Restorations. The system is reliable, consistent and easy to use. The ContactPro Ring provides consistent clamping force throughout the lifecycle of the product which helps achieve minimal flash and great contact. This ring was designed to allow for great visibility in your working area and better access for light curing. Pair the ContactPro Ring with the coated or uncoated Smartbands for a snug fit at the gingival margin, the ContactPro Wedge, and DryTips for advanced moisture control for a successful Class II Restoration.

20 - 6.4mm (green)	25 - Large (purple)

ClearView Ring

The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts, and it retains its strength for consistent and predictable restorations over time.

Either one ring may be used for the restoration or two rings may be stacked one over the other for performing M.O.D.'s and multiple-tooth restorations.

800-20020225 2 - Universal Rings.....\$224.95

ClearView Sectional Matrices

The Waterpik®ClearView Sectional Matrices have a non-stick coating, plus a centralized gripping tab for easier placement and removal of the matrix. The matrices are anatomically shaped to produce the best contour and contact for the range of Class II restorations. They are color-coded for quick and accurate selection of the desired size.

Palodent® Plus Sectional Matrix System

- Nickel-titanium retaining rings provide consistent tooth separation force and exceptional stability
- Matrices are shaped to commonly encountered cavity form
- Wedges are designed for easy placement, stacking, and minimized impingement of soft tissue
- WedgeGuards protect the adjacent tooth from bur damage during prep
- Ring placement forceps locking function and angled grip arms hold the ring securely for placement
- Pin Tweezers grip matrices, wedges, and wedgegards for placement and removal control
- Visit www.PalodentPlus.com for more information

- 100/box **\$16.75**

Additional colors and sizes available upon request.

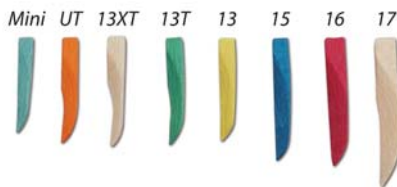

Cure-Thru® Reflective Curing Wedges - Premier® Dental

The clear acrylic body and white core reflect up to 90% of the curing light towards the restoration, resulting in a better contact.

Intro System available upon request.

- Small 807-9061221
- Medium 807-9061223
- Ultra Thin 807-9061225
- 100/pack **\$86.75**

Sycamore Wedges - Premier® Dental

Anatomically carved for function. The rounded tip easily passes over the gingiva while the concave sides conform the matrix band to the anatomy of the tooth. Slightly compressible yet will not splinter in thin sections. Ultra thin is half the width of regular wedges yet high through the embrasure. Number designates length in mm.

Marquis Bracket System, Roth-Style Prescription Color Coded ID System

Removable identification dot assures accurate selection.

Stainless Steel Direct Bond Brackets

Marquis stainless steel bracket system is pre-programmed with technical specifications for straight wire that has all the features you're looking for in a precise and versatile bracket system:

- A state-of-the-art base design with micro-etched pylons that act as miniature anchorage points to embed firmly into the adhesive.
- Made of the finest 17-4 surgical stainless steel to ensure durability and dimensional stability.
- Contoured edges for increased patient comfort. Tie wings are parallel to tooth anatomy.
- Defined center scribe line for easy and accurate bracket placement.
- Dependable integrated ball hooks.
- Offset Bicuspids available.
- An identification system with a removable color-coded dot.

ORTHO TECHNOLOGY®

PURE®

Sapphire Bracket System

The Ultimate in
Crystal Clear Aesthetics™

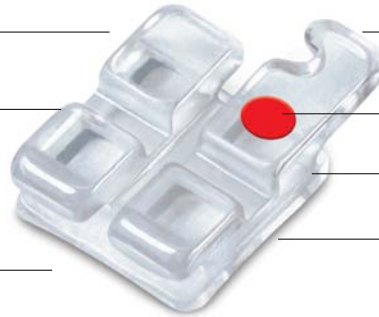

Smooth, strong and contoured tie-wings for added patient comfort.

Archwire slot design diamond and heat polished for superior sliding mechanics.

Highest Quality Material
Made from high quality monocrystalline sapphire

Unique bonding base.
Zirconia spheres provide superior shear bond strength and predictable debonding.

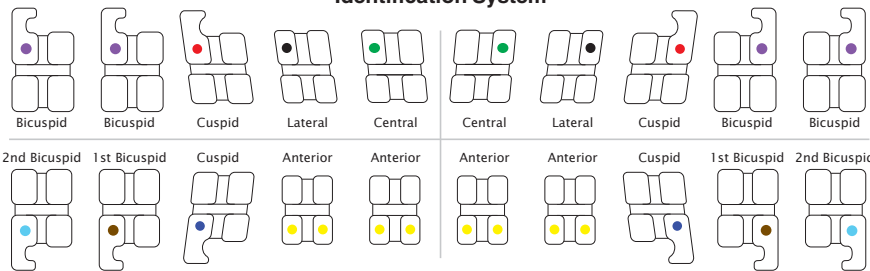

Ultra-smooth, strong hooks
For added patient comfort and secure engagement of elastics.

Removable color coded ID dot.
For easy bracket selection.

Ample tie-wing area
for easy bracket ligation.

Contour base
provides simplified and accurate bracket placement.

Identification System

Pure Sapphire Bracket System is made from pure monocrystalline sapphire for a bracket system with the highest transparency available for outstanding aesthetics. Nearly invisible against any tooth shade and stays crystal clear without staining. Each Pure bracket has been diamond and heat polished to produce rounded, smooth corners for uncompromised patient comfort. Tie-wings are easy to ligate, exceptionally strong and highly fracture resistant.

BITE STICKS

Color Coded Bite Sticks - Ortho

Technology

Molded high impact plastic with metal serrated triangle tip.

Cold Sterilizable

- Teal..... 690-600201T
- Purple..... 690-600201P
- Blue..... 690-600201B
- Each **\$6.25**

Autoclavable

Up to 250°F/121°C. Do not cold sterilize.

- Teal..... 690-600A201T
- Purple..... 690-600A201P
- Blue..... 690-600A201B
- Each **\$9.25**

High Heat Bite Stick - Ortho Technology

Metal serrated triangle tip. White, molded high impact plastic. Safe for dry heat sterilizers.

- 690-OT600199 Each..... **\$15.45**

BONDING SUPPLIES

GC Fuji ORTHO™ - GC America

Self-cured, resin reinforced glass ionomer cement ideally suited for bonding orthodontic brackets and bands. Its placement in a wet field simplifies application and bonding procedures. It can be used with a non-etch or etch technique. Because it's a true glass ionomer cement, it releases fluoride to protect against decalcification and decay.

Intro Package

Contains: 2 -6.8ml bottles of liquid, 40gm powder and accessories.

- 272-439503 Pack..... **\$394.75**

Liquid Only

- 272-439591 6.8ml..... **\$95.75**

Powder Only

- 272-439521 40gm **\$228.25**

GC Fuji ORTHO™ Band

Blue-colored resin modified glass ionomer for bonding orthodontic bands with sustained fluoride release to reduce white spot lesions. Mixes within 15 seconds and has about 3½ minutes working time with final set after 3 minutes (in the mouth).

Starter Package

Contains: 2 -13.3gm cartridges, 1 mixing pad, 1 Paste Pak Dispenser and 1 GC Fuji Spatula.
272-439460 Package **\$269.25**

Refill Package

Contains: 2 -13.3gm cartridges and 1 mixing pad.
272-001888 Each..... **\$174.45**

Paste Pak Dispenser

272-001573 Each..... **\$96.25**

GC Fuji ORTHO™ LC

Light-cured, resin reinforced glass ionomer ideally suited for bonding orthodontic brackets, bands and appliances. A continual fluoride release reduces the risk of decalcification, which helps maintain the soundness of enamel. Additionally, debonding can be accomplished faster with less risk of damaging the enamel than with composite resin bonding systems. Light cures within 10 seconds.

Introductory Package

Contains: 15gm powder, 6.8ml liquid, scoop and mixing pad.
272-439401 Package..... **\$169.75**

Standard Package

Contains: 40gm powder, 2 -6.8ml liquids, scoop and mixing pad.
272-439403 Package..... **\$363.95**

Liquid Only

272-439409 6.8ml..... **\$94.75**

Powder Only

272-439421 40gm **\$223.75**

GC ORTHO LC Conditioner

272-439425 25ml..... **\$63.45**

Capsule Starter Kit

Contains: 50 capsules, capsule applicator and GC ORTHO conditioners.
272-439451 Kit **\$433.75**

Capsule Package

272-439450 50/box..... **\$304.95**

GC Capsule Applier III

272-437555 Each..... **\$114.25**

Heliosit Orthodontic - Ivoclar Vivadent

Light-cured, highly translucent single-component material for luting orthodontic brackets (made either of metal or ceramic material). After the enamel has been etched with phosphoric acid (37%), Heliosit Orthodontic is applied to establish a sound bond (metal and ceramic surfaces have to be pre-treated according to manufacturer's directions).

Standard Kit

Contains: 3 -2.5gm syringes.
220-532629 Kit **\$108.25**

Orthogap Disposable Bonding Pads - Ortho Technology

The adhesive backing holds the brackets firmly in place. Liquid impermeable surface is perfect for mixing adhesives.

690-600370 25 sheets **\$16.75**

Ortho-Coat™ - Pulpdent Corporation

Coats brackets and teeth. Prevents decalcification, staining and discoloration under orthodontic brackets. Light cure, bonds to self-cure and light cure orthodontic adhesives.

Contains: 2 -5ml syringes and 20 applicator tips.
690-OC Kit **\$55.95**

ELASTOMERIC PRODUCTS

Maximum Power Chain - Ortho Technology

Manufactured from medical grade polyurethane, these elastomeric ligatures are fade resistant and feature high elasticity and excellent rebound. Not made with natural rubber latex.

 24mm..... 690-68281
 26mm..... 690-68282
 28mm..... 690-68283
 30mm..... 690-68284
 5/pack **\$49.45**

Braided Retainer Wire - Ortho Technology

Used to make permanent fixed lingual retainers following orthodontic treatment, features a very thin rectangular wire that can be adapted with no occlusal interference while ensuring patient comfort. It prevents inadvertent tooth movement associated with active force wires. Can be used as semi-permanent orthodontic splinting of the upper or lower incisors. To maintain difficult extraction sites. 6" lengths, .010" depth x .028" width.

690-68292 10/pack **\$57.75**

OrthoFlex Composite Buttons - Ortho Technology

Aesthetically pleasing appearance. Durable stain resistant material. Secure dovetail base design. 2.85mm x 2.05mm one piece base.

690-OT2344 10/pack **\$49.45**

Tongue Tamers - Ortho Technology

Eliminates detrimental forces. Discourages over active muscle activity. Bonds to upper or lower arches. 80ga. foil mesh bonding base. High quality 17-4 stainless steel. Curved base perfect for lingual placement.

690-034001 10/pack **\$56.25**

NON-METAL POSTS

**FibreKleer 4X Fiber Post - Pentron
Clinical**

Feature outstanding radiopacity of up to 400% of aluminum to help ensure that they are instantaneously identified on a radiograph. Translucent glass fibers bundled in a proprietary clear resin matrix provide outstanding flexural strength and help to preserve the natural lifelike esthetics. A dentin-like flexural modulus results in a post that flexes with the tooth and transmits stress more evenly to help minimize the instance of root fractures.

Original Kit available upon request.

DESENSITIZERS

Desensitizer with Fluoride

Desensitizing agent which eliminates post-op sensitivity and discomfort. It can be placed under dental cements and temporary, provisional and permanent restorative materials as well as amalgam. HEMA formulation to plug tubules. Glutaraldehyde based and contains fluoride. Compatible with all bonding systems, cements and amalgam. Helps kill bacteria.

- 220-10001 10ml \$40.95

**Hemaseal & Cide Desensitizer -
Advantage Dental Products**

Eliminates post-op sensitivity, precluding the need to do remakes. Superior disinfection of preparations. Enhanced and prolonged bond strength. Reduction of microleakage.

- 220-170 10ml \$87.95

Unidose available upon request.

**HurriSeal® - Beutlich® Pharmaceuticals,
LLC**

Acts as a wetting agent in bonding procedures. Treat or prevent dentinal hypersensitivity associated with: Cervical erosion/toothbrush abrasion, exposed root surfaces/recession, before and after tooth whitening procedures, after periodontal scaling and root planing treatment (applied after soft tissue healing), and permanent and temporary restorations. No mixing or light curing.

- 200-069782 12ml \$51.25

Zarosen® - Cetylite, Inc.

Provides immediate relief from hypersensitivity caused by thermal shock to exposed cementum or dentin from gum recession, erosion, post-prophy sensitivity, and/or tooth restorations. Instantly forms a hard protective film which protects, reduces acid diffusion from cement, minimizes marginal leaks, and acts as a thermal insulator.

- 200-0800 14gm \$45.25

Calm-it™ Desensitizer - Dentsply Caulk

A desensitizer that treats and prevents dentinal hypersensitivity immediately by creating cross-linked protein precipitates which form barriers within the dentinal tubules, greatly reducing painful fluid movement, a main cause of post operative sensitivity. A glutaraldehyde-based & resin-based formula meant to compete directly with Gluma.

- 228-61A002 6ml \$134.95

Unit Dose Refill

- 228-61A004 40/pack \$120.45

Seal & Protect™ - Dentsply Professional

Protective sealant for exposed dentin. Seals exposed dentinal tubules from the external environment, resists erosion and abrasion, reduces dentinal hypersensitivity fro up to 12 months.

Refill Package

Contains: 40 unit doses, 50 flocked applicator tips and 2 unit dose holders.

- 208-658010 Package \$114.25

DESENSITIZERS

Gluma® Desensitizer - Heraeus Kulzer

An ideal long-lasting desensitizing barrier under all types of restorative materials. Gluma can also be applied topically without a restoration to hypersensitive eroded areas using a simple one step procedure for long term treatment relief.

220-25142 5ml **\$145.45**

Clinic Pack

Contains: 3 -5ml bottles.

220-25143 Pack **\$378.25**

Single Dose Pack

Contains: 40 -0.075ml.

220-25131 Pack **\$101.75**

Gluma Power Gel

One-step gel formula desensitizer that allows for greater control and accuracy during application. Unique green-color indicator provides visual ease of placement and rinse-clean capability. Used with all bonding and restorative materials, in any situation. No-drip formula, so it stays where you place it, minimizing contact with soft tissues. No agitation or light curing required.

Gluma PowerGel Syringe Kit

Contains: 4 -1gm syringes and 20 cannulas.

220-66043451 Kit..... **\$159.95**

Brush Cannulas

230-66044334 60/pack **\$22.95**

Telio CS Desensitizer - Ivoclar Vivadent

Pre-treating and desensitizing exposed or cut dentin surface. To prevent and minimize dentinal hypersensitivity dentin surfaces can be treated prior to seating the temporary restoration. The desensitizing agent is suitable for the following fields of application: temporary restorations, luting/ cementation of indirect restorations, direct restorative treatment and treatment of sensitive tooth necks. Total working time of 10 seconds. No light-curing required.

Refill

220-627911 5gm **\$105.45**

Single Dose Unit Refill

Contains: 50 -0.1gm single doses.

220-627916 Each **\$107.95**

Teethmate™ Desensitizer - Kuraray America Inc.

A revolutionary new natural material designed to create the human body's hardest mineral, hydroxyapatite (HAp). It is created exactly where you need it, closing dentinal tubules and enamel cracks. And because it is natural, it is also tissue-friendly. So from now on, you can treat sensitivity with confidence. This can be used in a wide variety of treatment approaches for treating sensitivity: Exposed dentin (cervical hypersensitivity), scaling/root planing, before/ after bleaching and dentin prepared for prosthesis.

Contains: 6gm powder, 4.8ml liquid, 1 mixing dish, 1 measuring spoon, 50 superfine applicator brushes.

950-1210KA Package. **\$112.25**

Crest® Sensi-Stop™ Strips - Procter & Gamble

Thin, flexible strips that contain oxalate gel on one side. The unique strip is designed to cover the outer gumline of sensitive teeth. This gives the key ingredient time to form a lasting barrier that blocks dentinal tubules to help relieve sensitivity. Just 1 strip, applied for 10 minutes, can give patients up to 1month of protection against dentinal sensitivity.

950-80249760 6/box **\$13.45**

Shield Force Plus - Tokuyama Dental America, Inc.

Provides immediate relief from sensitivity, a strong coating layer for long-term relief and tough resistance to long-term reduction through abrasion and erosion. Green color provides accurate visibility of placement, then cures clear.

Kit

Contains: 3ml bottle, 25 disposable superfine applicators and dispensing well.

220-15111 Kit..... **\$118.95**

Refill

220-15121 3ml **\$96.25**

MicroPrime - Zest Dental Solutions

Eliminates post-op sensitivity and discomfort from cervical erosions. Proven HEMA formula which reliably desensitizes tubules.

MicroPrime B

220-87001 10ml **\$83.45**

MicroPrime G

Ideal as an antimicrobial when used with self-etch adhesives.

220-90814 10ml **\$83.45**

DISCLOSING AGENTS

HurriView® Plaque Indicating Snap-n-Go™ Swabs - Beutlich Pharmaceuticals, LLC

Highlights plaque in the mouth by staining it pink, making removal a snap. No messy rinses or tablets to chew, just unwrap, snap and apply.

950-01472 72/box..... **\$31.45**

GUM Red-Cote - Sunstar Americas, Inc

Highlights harmful plaque on tooth surfaces to show patient where more brushing and flossing are needed.

Tablets

950-800CQA 248/pkg **\$23.25**

DISCLOSING AGENTS

2Tone Disclosing Agent - Young Dental

A specialized multi-colored disclosing agent to increase patient compliance. Older plaque stains blue while newer plaque stains red.

 Medium - White950-10055
 Large - Blue950-10056
 100/bag **\$40.95**

Discovery Trays - Kerr TotalCare

Patented disposable trays for topical fluoride application are designed for greater patient fit and comfort. The foam matrix ensures total fluoride coverage to all tooth surfaces without a separate insert and the tray construction permits simultaneous fluoride application to both maxillary and mandibular arches. The Dual Foam ability provides a harder outer shell bonded to a closed cell soft lining that pumps fluoride interproximally during mastication.

Child - Aqua 959-16188
 Small - Yellow 959-16189
 Medium - Lime 959-16190
 Large - Blue 959-16191
 100/pkg. **\$151.25**

Topex® Dual Arch Fluoride Trays - Sultan Healthcare

Interlocking handles for easy placement and removal. Contoured shape creates a distal lock. Anatomically correct for comfort and interproxi-

mal placement of fluoride. Fill-lines offer guide to help eliminate over-fill and waste. Color-coded for convenience.

Pedo - Aqua 950-32010
 Small - Yellow 950-32011
 Medium - White 950-32012
 Large - Blue 950-32013
 50/pkg **\$43.95**

Topex® Single-Arch Fluoride Trays - Sultan Healthcare

Detailed occlusal anatomy on the biting surface, which forces gel to contact interproximal regions for total vertical coverage. Color coded with arch ID. Deep distal dam, prevents fluoride overflow, eliminates gagging and ingestion.

Small 950-32101
 Medium 950-32102
 Large 950-32103
 100/pkg. **\$37.95**

Oral-B® Centrasys® - Young Dental

Disposable single arch applicator trays used for fluoride treatment applications. Naturally contoured fit, deep distal dam and high walls inhibit overflow, stable foam design keeps fluoride in the tray and moisture out. Anatomical contours force fluoride into contact with all tooth surfaces. Closed-cell foam prevents fluoride absorption.

Small..... 950-13226939
 Medium..... 950-13226940
 Large 950-13226941
 100/bag **\$35.75**

Oral-B® Centwins® - Young Dental

Stable, non-flimsy foam design keeps fluoride in the tray and moisture out. Deep distal dam and high walls improve patient comfort and inhibit overflow. Anatomical contours force fluoride into contact with all tooth surfaces. Closed cell foam precludes fluoride absorption into the tray. Rounded arch and smooth ridge provide natural fit and comfort. Hide-a-hinge folds out of the way to help prevent gag reflex.

Small..... 950-13226936
 Medium..... 950-13226937
 Large 950-13226938

Clinpro™ Propphy Paste - 3M Oral Care

Clean and polish in one paste. Propphy paste starts out coarse for cleaning, then breaks down to a fine paste for polishing. Patented perlite particles are less abrasive to both enamel and dentin. Neutral pH value.

Mint	993-12611
200/box	\$75.95

Propphy Gems - Biotrol

1.23% fluoride ion with phosphate. Low splatter, great taste and rinses easily. Paste has excellent consistency and the ring is even recyclable after sterilization.

NUPRO® Extra Care Propphy Paste - Dentsply Professional

The only propphy paste powered by NovaMin. It contains fluoride, calcium and phosphate ions for improved oral health. NovaMin calcium phosphate technology releases the natural building blocks of teeth to help build an enamel-like mineral layer. The paste can also be applied before or after scaling to relieve sensitivity, and is available in two different grits: Polish, which is a fine to medium grit, and Stain Removal, which is a medium to coarse grit. Dye-free, gluten-free and SLS-free.

Cavtron Touch and Steri-Mate 360° Ultrasonic Scaling System - Dentsply Professional

The Cavtron Touch Ultrasonic Scaling System is designed to be user friendly, while providing options for an improved scaling experience.

Digital touch screen technology provides an easy to use interface. Smaller footprint to maximize available counter space. The wireless Tap-On Technology foot pedal is designed to reduce leg and ankle discomfort associated with continued foot pedal usage. The Steri-Mate 360° Handpiece offers features that provide a new scaling experience. Fully rotating handpiece allows for free flowing movement of an ultrasonic insert within

the oral cavity. The detachable and autoclavable handpiece provides the highest assurance of control against cross-contamination. The Featherweight Handpiece cable is designed to provide ergonomic benefits by reducing cable drag.

System Contains: (1) Cavtron Touch Ultrasonic Scaler, (1) Steri-Mate 360° Sterilizable Detachable Handpiece, (1) Tap-On Technology Wireless Rechargeable Foot Pedal and 2 Year Warranty. *Package contains similar contents with additional 2 handpieces and 4 inserts.

Piezon® 150 - Hu-Friedy

The new refined and versatile Piezon 150 serie features the intuitive EMS "Original Piezon Method" technology, offering dental professionals with more effectiveness and efficiency in all means.

Attaches to water system and has a unique external water filter and clear water line for biofilm detection. Large, ergonomic interface with fingertip control allows the clinician to easily select or change the desired power setting during use. Illuminated handpiece remains lit for 20 seconds after the foot control is released for continued visibility of the treatment site and easire diagnosis. Exceptionally low noise level during operation provides a more peaceful patient experience.

770-FT223HFA001 Unit Only **\$2071.25**

Piezon® 250 - Hu-Friedy

The Piezon 250 is based on the EMS Original Piezon Method. It offers dental scaler users an exceptional treatment experience that boosts their productivity while increasing their overall comfort - and that of their patients - through the low operating noise and the outstanding quality of both the equipment and the accessories.

This powerful and compact ultrasonic dental scaler offers precise power and irrigation control within a highly ergonomic system and a uniquely sophisticated and refined authentic Swiss design. Large, ergonomic interface with fingertip control allows the clinician to easily select or change the desired power setting during use. Illuminated handpiece remains lit for 20 seconds after the foot control is released for continued visibility of the treatment site and easier diagnosis. Instantaneous tip amplitude adjustment offers smooth treatment and ultimate patient comfort.

Cavitron® FITGRIP™ 30K Focus Spray Slimline®

Ergonomically designed with clinician’s fingers in mind, the hygienist’s grip naturally conforms to the insert’s unique one piece design. The large diameter silicone soft grip lessens muscle load and pinch force to help maintain tactile sensitivity. The rippled grip is designed to lessen chance of slipping.

How the best perform

ULTRASONIC SCALING

Hu-Friedy ultrasonic inserts give you the power, efficiency, and comfort you need to treat a wide range of patients.

POINTS OF PERFORMANCE

- Swivel inserts offer 360° rotation for efficient adaptation.
- Swivel Direct Flow inserts deliver water from the tip, which targets water directly to the area of treatment.
- Streamline inserts offer colorful resin handles, allowing easy identification of tip designs.

HEMOSTATIC SOLUTIONS

Gingi-Aid® - Gingi-Pak

Epinephrine-free. 25% buffered aluminum chloride solution for gingival retraction and hemostasis. Easily absorbed and can be applied by cord, cotton, paper point and mini-sponge or syringe for effective bleeding control.

- 320-12114 15ml **\$18.95**
- 320-12115 40ml **\$40.95**

Orostat® - Gingi-Pak

A specially buffered formulation of 8% epinephrine which controls hemorrhaging while delivering a debris-free field.

- 320-10145 15ml **\$19.45**

Stasis® - Gingi-Pak

21% ferric sulfate hemostyptic formulation that offers superior hemorrhage control versus other non-epinephrine solutions. Recommended for use with Gingi-Plain cotton pellets.

- 120-13114 15ml **\$18.45**
- 120-13115 40ml **\$41.45**

Hemogin L - Kerr Restoratives

25% aluminum chloride in a lubricating glycerin base. An eye dropper is provided to eliminate cross-contamination. Applied with cotton pellets to the gingival tissue, or pre-saturate retraction cord.

- 320-13057 10ml **\$21.45**
- 320-13058 20ml **\$32.45**
- 320-13052 35ml **\$55.95**

Hemodettes - Kerr Restoratives

20% buffered aluminum chloride lubricating hemostatic gel with saturated cotton pellets packaged in unique plastic cups with attached finger ring. Light blue color indicates area of placement. The gel viscosity enhances placement and eliminates migration from the site. Cranberry flavor.

- 320-13150 25/box **\$26.25**

Hemostasyt™ - Kerr Restoratives

15% aluminum chloride paste. Stops bleeding and controls fluids without the chance of staining common to other hemostatic agents. Adheres well to tissue for a more efficient use of material. Bright turquoise color offers sharp contrast to easily see placement. Strawberry scent.

- Contains: 2 -2gm syringes.
- 329-34723 Each **\$50.25**

Curved Applicator Tips

- 329-34724 40/pkg **\$29.45**

Styptin - Kerr Restoratives

A fast-acting, 20% buffered aluminum chloride hemostatic solution in a lubricating base. Blue coloring helps you see where the solution has been placed. Increased viscosity prevents the solution from migrating from the site. Squeeze bottle allows easy dispensing and minimizes the possibility of cross-contamination. Cranberry flavor.

- 320-13157 15ml **\$26.25**
- 320-13156 30ml **\$48.95**

Gel Cord™ - Pascal International, Inc.

Stays where you place it. Will not run or dilute as liquid astringents do. 25% aluminum sulfate gel with pleasant flavor. Can be used with any type of cord and is compatible with all impression materials. Light Blue.

Pro Pack 12

- Contains: 12 -0.75gm syringes and 14 tips.
- 320-15540 Kit **\$51.45**

MicroPoint Kit

- Contains: 25 -0.32gm cartridges and applicator syringe.
- 320-15505 Kit **\$69.45**

Bulk Kit available upon request.

Applicator Syringe

- 320-35900 Each **\$34.25**

FS Hemostatic® - Premier® Dental

A 15.5% ferric sulfate liquid solution offers instantaneous coagulation for difficult hemostatic control. It contains no epinephrine so it is safe for use on all patients.

- 327-9007057 1oz. dropper bottle... **\$24.45**
- 327-9007058 2oz. **\$36.45**

Hemodent® Liquid - Premier® Dental

Effectively stops minor gingival bleeding. It contains no epinephrine to help avoid cardiac reactions. Stable and offers a long shelf life.

- 327-9007071 10cc **\$16.95**
- 327-9007072 20cc **\$32.25**
- 327-9007073 40cc **\$55.25**

RETRACTION

HEMOSTATIC SOLUTIONS

**Racegel® - Septodont**

25% aluminum chloride for optimal and fast control of bleeding. Thermogelifiable properties to ensure no mechanical trauma to the periodontium to control application without excessive hand pressure to facilitate placement and rinsing. Orange color to easily see placement. Raspberry flavor.

Contains: 3 -1.4gm syringes and 30 pre-bent tips.
320-C0500 Each..... **\$98.45**

**Racestyptine Solution - Septodont**

Topical hemostatic and astringent that rapidly and temporarily retracts the gingiva. Contains aluminum chloride and oxyquinol sulfate.

320-S0350 13ml bottle..... **\$33.45**

**Hemoban - Sultan Healthcare**

Controls superficial bleeding during restorative procedures, placement of metal bands, cervical matrixes and crown preparations. 25% aluminum chloride, no epinephrine.

320-10801 30ml..... **\$48.25**

**Quick-Stat™ FREE - Vista Dental Products**

25% aluminum chloride clear hemostatic gel. Will not stain. Controls bleeding fast. Viscous gel will not flow onto surrounding tissue. Surfactant lowers surface tension for better wound penetration.

Standard Kit available upon request.

Value Pack

Contains: 40 -1.2ml syringes and 50 Stat-Flo tips.
330-504640 Kit..... **\$121.45**

Bulk Syringe Kit

Contains: 30ml syringe, 20 Stat-Flo tips, 20 -1.2ml empty syringes and 1 docking port.
330-504650 Kit..... **\$61.25**

Bulk Refill

Contains: 30ml syringe and 1 docking port.
330-504660 Each..... **\$35.45**

**Quick-Stat™ FS**

15.5% ferric sulfate hemostatic gel. Provides effective tissue management when completing impressions, restorations, crown and bridge procedures. Will not flow onto surrounding tissue.

Standard Kit

Contains: 4 -1.2ml syringes and 8 Stat-Flo Tips.
330-502804 Kit..... **\$20.75**

**Expasyl™
Gingival
Retraction
System -
Acteon North
America**

Rigid paste for gingival retraction that not only opens the sulcus but also leaves the field dry and ready for impression taking or cementation. Holds its rigidity when in the sulcus to create space between the tooth and the tissue. Safe and painless with no risk of rupturing the epithelial attachment. Original and Strawberry flavor.

Intro Kits available upon request.

		#B-3	Upper right molar	815-01050
		#B-4	Bicuspid, anterior	815-01051
		#B-5	All bicuspid & incisors	815-01052
		#B-6	All bicuspid & incisors	815-01053

Hygenic® Dental Dam Clamp Sets....\$102.25

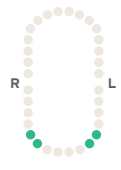

Contains the following clamps:
1, 2, 4, 7, 8A, 9, 12A, 13A, 14A

System-9 Winged-Clamp-Pak 815-02701

ANTERIOR

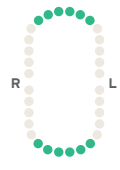

How the best perform

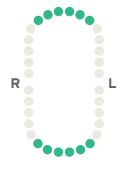

00
| HF-RDCM00

Flat jaws and high bow for small lower canines and first premolars.

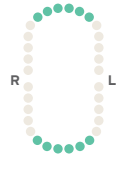

6
| HF-RDCM6

Slightly offset jaws for labial caries on anterior teeth.

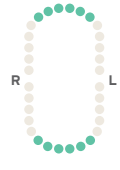

9
| HF-RDCM9

Offset flat jaws and stiff bow for anterior teeth.

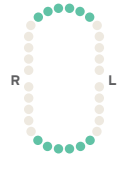

9S
| HF-RDCM9S

Offset flat serrated jaws for anterior teeth.

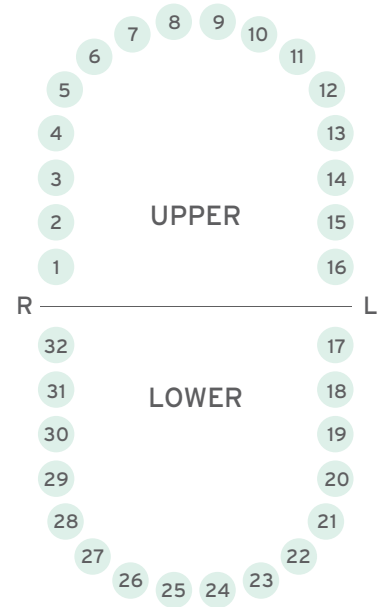

212
| HF-RDCM212

Flat jaws for labial caries on anterior teeth.

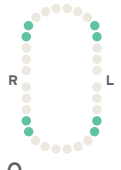

212SA
| HF-RDCM212SA

Slightly offset staggered jaws for odd shaped anteriors.

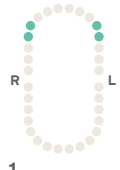

\$14.25 Each

PREMOLARS

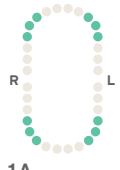

0
| HF-RDCM0

Flat jaws and high bow for longer premolars.

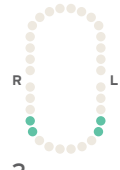

1
| HF-RDCM1

Slightly festooned jaws for upper premolars.

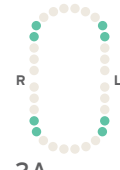

1A
| HF-RDCM1A

Deeply festooned jaws for canines and premolars.

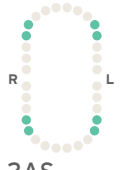

2
| HF-RDCM2

Flat jaws for premolars.

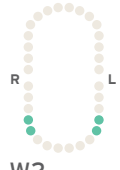

2A
| HF-RDCM2A

Flat jaws for larger premolars.

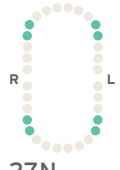

2AS
| HF-RDCM2AS

Flat serrated jaws for larger premolars.

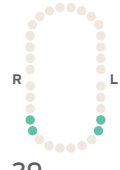

W2
| HF-RDCMW2

Flat jaws for premolars.

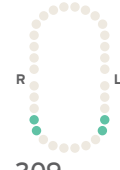

27N
| HF-RDCM27N

Slightly festooned jaws for premolars.

29
| HF-RDCM29

Flat jaws for lower premolars.

209
| HF-RDCM209

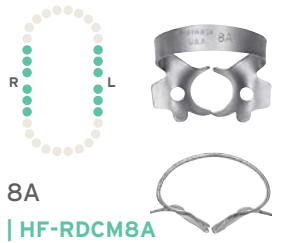

Small, flat jaws with stiff bow for lower premolars.

\$14.25 Each

MOLARS (GENERAL)

How the best perform

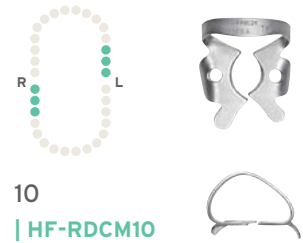

8A
| HF-RDCM8A
Deeply festooned four-point jaws for molars.

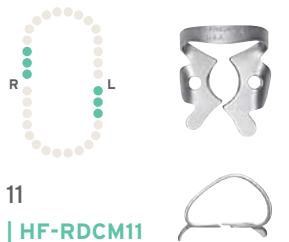

8AD
| HF-RDCM8AD
Deeply festooned jaws and extended bow for distal access to molars.

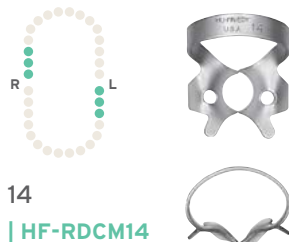

W8A
| HF-RDCMW8A
Slightly festooned jaws for molars.

10
| HF-RDCM10
Flat jaws designed for small upper left and lower right molars; paired with RDCM11.

11
| HF-RDCM11
Flat jaws designed for small upper right and lower left molars; paired with RDCM10.

14
| HF-RDCM14
Deeply festooned jaws for partially erupted or irregularly shaped molars.

14A
| HF-RDCM14A
Deeply festooned jaws for partially erupted or irregularly shaped molars; larger than RDCM14.

W14A
| HF-RDCMW14A
Deeply festooned jaws for partially erupted or irregularly shaped molars.

18
| HF-RDCM18
Flat jaws and stiff bow for molars.

24
| HF-RDCM24
Flat jaws for upper right and lower left molars; paired with RDCM25.

25
| HF-RDCM25
Flat jaws for upper left and lower right molars; paired with RDCM24.

27
| HF-RDCM27
Flat jaws for large molars.

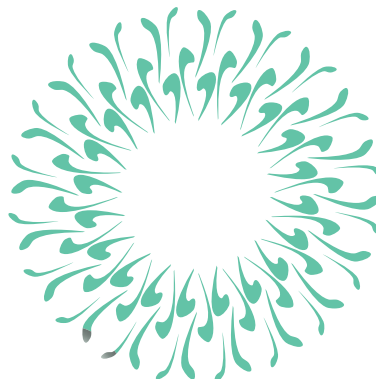

56
| HF-RDCM56
Slightly festooned jaws for large molars.

56S
| HF-RDCM56S
Slightly festooned serrated jaws for large partially erupted or irregularly shaped molars.

\$14.25 Each

UPPER MOLARS

How the best perform

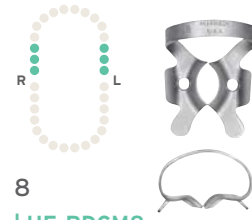

4
| HF-RDCM4
Flat narrow jaws for small upper molars.

W4
| HF-RDCMW4
Flat narrow jaws for small upper molars.

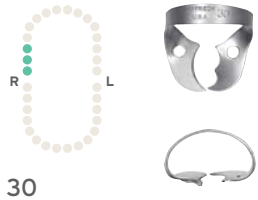

5
| HF-RDCM5
Slightly festooned jaws for large upper molars.

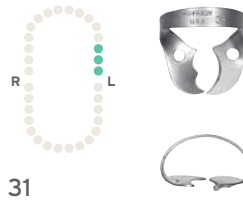

8
| HF-RDCM8
Deeply festooned jaws for upper molars.

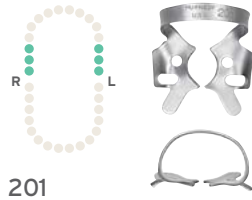

26N
| HF-RDCM26N
Flat jaws for upper molars.

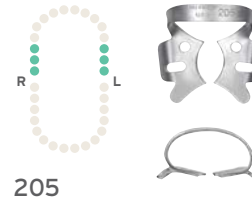

30
| HF-RDCM30
Offset jaws for upper right molars; paired with RDCM31.

31
| HF-RDCM31
Offset jaws for upper left molars; paired with RDCM30.

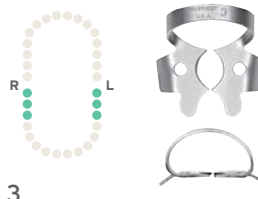

201
| HF-RDCM201
Slightly festooned jaws for upper molars.

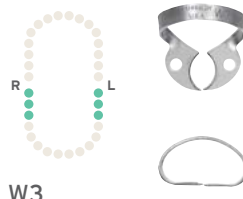

205
| HF-RDCM205
Slightly festooned jaws for large upper molars.

\$14.25 Each

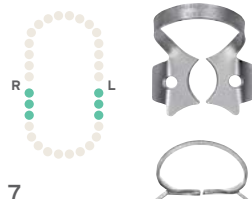

LOWER MOLARS

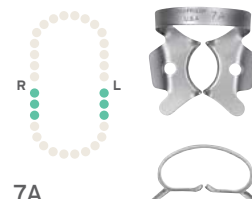

3
| HF-RDCM3
Flat narrow jaws for small lower molars.

W3
| HF-RDCMW3
Flat narrow jaws for small lower molars.

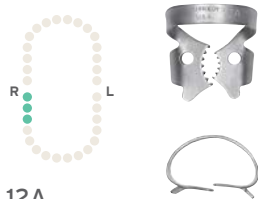

7
| HF-RDCM7
Flat jaws for lower molars.

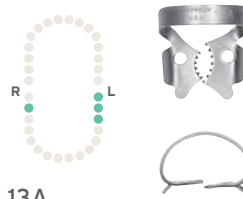

7A
| HF-RDCM7A
Slightly reversed festooned jaws for large lower molars.

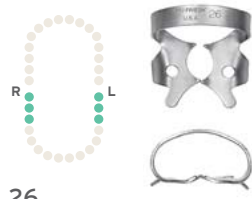

W7
| HF-RDCMW7
Flat jaws for lower molars.

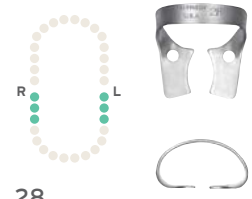

12A
| HF-RDCM12A
Serrated offset jaws for lower right molars; paired with RDCM13A.

13A
| HF-RDCM13A
Serrated offset jaws for lower left molars; paired with RDCM12A.

26
| HF-RDCM26
Slightly reversed festooned jaws for small lower molars.

28
| HF-RDCM28
Flat jaws for lower molars.

\$14.25 Each

SURGICAL BLADE ACCESSORIES

Blade-Safe - Integra® Miltex®

An instrument for the safe removal of scalpel blades from the handles. Protects hands against cuts. Stainless steel. Autoclavable.

- 861-4100 Each **\$19.95**

Qlicksmart® BladeFLASK - MYCO Medical

Scapel blade removal system. Removes all common blades from most sizes: No. 3, No. 4, No. 5, No. 7 and No. 9 scalpel handles in a single action. Immediate containment of blade upon removal. Holds 100 blades. Bracket required with initial purchase; reuse bracket with subsequent Qlicksmart removers.

- 370-QFRGEN Each **\$43.75**

Bracket

- 370-QBRGEN Each **\$8.45**

SURGICAL DRESSINGS & BONE AUGMENTATION

ActCel Hemostatic Gauze - Coreva Health Sciences

Collagen-like natural substance created from chemically treated cellulose. Effective, patented, hemostatic agent to help control bleeding from open wounds. Contains no chemical additives and is hypoallergenic. Does not cause delay to healing. Effectively cuts down on clotting time, helps stabilize new clots by accelerating the formation of fibrin cross-linkages, and increases blood viscosity.

- 860-HG020022 Each **\$118.95**

Curity™ Iodoform Packing Strip - Covidien Products by Medtronic

100% cotton, fine mesh gauze ideal for wet-to-dry packing. Sterile.

- 1/4" x 15'**
250-7831 Each **\$7.75**
- 1/2" x 15'**
250-7832 Each **\$7.25**

Barricaid® - Dentsply Caulk

Visible, light-cure periodontal wound dressing that gives total control over placement and setting, and is tinted for superior esthetics. Easy to use syringes which can be used outside the mouth or intra-orally for dispensing the material directly to the wound site. 4gm syringes.

- 728-639050 4/box..... **\$112.45**

Surgicel® Original Absorbable Hemostat - Ethicon

Absorbable Hemostat, assists in control of bleeding and clot formation. Conforms readily to irregular gingival contours. .05" x 2"

- 860-101955 12/box **\$674.25**

SURGIFOAM® Absorbable Gelatin Sponges - Ethicon

Sterile, water-insoluble, malleable, porcine gelatin absorbable sponge intended for hemostatic use by applying to a bleeding surface. Compressible, does not require cutting, and can absorb up to 40 times its own weight.

- 1cm x 1cm x 1cm**
860-1969 24/box..... **\$154.75**

- 2cm x 6cm x 7mm**
860-1972 12/box **\$141.25**

COE-PAK™ Automix NDS - GC America

A noneugenol surgical dressing and periodontal pack that has no burning sensation, no unpleasant taste, no disagreeable odor, and offers proven protection to surgical sites. Promotes cleanliness and healing. Plastic and cohesive; ropes of any length or thickness can be formed.

Continued

SURGICAL DRESSINGS & BONE AUGMENTATION

Coe-Pak Automix NDS continued.

Smooth texture allows to adapt closely to teeth and tissue to protect the wound. Sets with resilient, non-brittle hardness. The NDS version (New Delivery System) eliminates manual mixing and provides a consistent mix for immediate placement.

Pack

Contains: 2 -50ml double barrel cartridges with 12 mixing tips.

 860-62208 30x40..... **\$216.75**

HeliPlug® - Integra® Miltex®

Collagen wound dressing. Used to control bleeding and develop blood clots in extraction and biopsy sites. Measures 3/8" x 3/4" (1cm x 2cm) with a resorption time of 10-14 days. Sterile.

860-62202 10/box..... **\$124.75**

HeliTape® - Integra® Miltex®

Collagen wound dressing. Used for dressing minor oral wounds, closure of graft sites and to help repair sinus tears. Measures 1" x 3" (2.5cm x 7.5cm) with a resorption time of 10-14 days. Sterile.

860-62200 10/box..... **\$186.45**

Foundation® - J. Morita USA

A revolutionary bone augmentation material for use after teeth extractions. Collagen-based, it provides support for implants, bridges, and dentures. Immediately following an extraction, place into the socket, the surrounding cells and capillaries gradually infiltrate Foundation. As the extraction socket heals, it is filled with new augmented bone. "Bullet" form for easy placement. **Small**

SockIt! Oral Wound Dressing Gel - M.C.M.P

A hydrogel wound dressing approved by FDA for management of any and all oral wounds. SockIt! is drug-free, non-toxic and provides three important benefits to oral wounds: 1) fast, constant pain relief without causing a numb sensation, procedures, as well as mucosal ulcers, lesions and all injuries to the mouth. After professional application in the office, it is sent home with the patient to use as often as needed for safe, continuous pain relief and wound management.

950-SI Each..... **\$12.75**

950-SI25 25/pack..... **\$275.95**

SafeGauze® HemoStyp™ Topical Hemostatic Dressing - Medicom®

Sterile fabric prepared by the chemical treatment of regenerated cellulose. It is a safe and effective product used in dental practices for the control of bleeding applied to extractions, periodontal surgery and other selected procedures. When contacting blood or fluids the product expands and transforms to a clear, viscous gel which fills and adheres to the conformation of the extraction socket. Precut .75" x .75", 4-ply.

320-4900 20/box **\$69.95**

SureStop Hemostatic Dressing - MedRedi

Sterile, soluble cellulose-based dressing that transforms quickly into a clear, viscous gel upon contact with blood or fluids. It is indicated for the topical management of wounds and to temporarily control bleeding. Appropriate dental indications include extraction sites, dental trauma, biopsy sites, periodontal surgery, and oral surgery. Comes in pre-cut 1.9cm squares. Individually sealed in blister packs. It has two unique features – it is bacteriostatic and is very effective in stopping bleeding on patients who use anticoagulants.

320-SSSBGD 20/box **\$75.95**

SURGICAL DRESSINGS & BONE AUGMENTATION

Gelfoam® Absorbable Dental Sponges - Pfizer, Inc.

Sterile, surgical sponges prepared from a specially treated and purified gelatin solution and are absorbable. In oral and dental surgery, Gelfoam Dental Sponges are an aid in providing hemostasis. May be used either dry or moistened, depending upon conditions present at operation and preference of the surgeon. Isotonic saline is suitable for use with Gelfoam. Although not necessary, Gelfoam can be used either with or without thrombin to obtain hemostasis.

- Size 4 cm/2**
720-9039601 12/box **\$248.45**

- Size 100 cm/2**
720-2446557 6/box **\$428.95**

PerioCare® Periodontal Dressing - Pulpdent Corporation

A two paste, highly elastic periodontal dressing which sets resiliently hard and does not chip or fall apart in the mouth. PerioCare assists in tissue placement after periodontal surgery and provides durable protection of tissue. PerioCare is ready to pick up with wet fingers in about 90 seconds. Neutral odor and taste. Contains no eugenol. Contains: 3oz. tube paste and 3oz. tube gel with mixing pad.

720-PC Each **\$48.95**

R.T.R Syringe - Septodont

Made of β-tricalcium phosphate granules of synthetic origin. Sterile and gradually resorbable bone substitute. Releases calcium and phosphate ions that help promote new bone formation. Osteoconductive micro and macroporous structure that fosters dense new bone growth. Helps renew bone integrity within 3-6 months. Curved Syringe.

860-S0500 0.8cc **\$118.95**

Dry Socket Paste - Sultan Healthcare

Used to treat Alveolitis. Gives instant pain relief. Contains: Gualacol, balsamperu, eugenol, 1.6% chlorobutanol.

730-10404 1oz **\$155.25**

GUIDOR® easy-graft® CLASSIC Alloplastic Bone Grafting System - Sunstar Americas, Inc.

Designed to be syringed directly into a bone defect, hardening into a stable, porous scaffold in approximately one minute and eliminating the need for a dental membrane in many cases. 100% synthetic, fully resorbable and unit-dose application. Complete system that eliminates the need to guess with which liquid (e.g. blood, saline) to mix the granules. Ideally suited for filling voids around immediate implant placements and ridge preservation after tooth extraction. Each unit contains three systems. A system of GUIDOR easy-graft includes one syringe of coated granules and one ampule of BioLinker.

Large, Purple 500 - 1000µm, 0.4ml
860-C11008 **\$271.95**

Medium, Blue 500 - 1000µm, 0.25ml
860-C11078 **\$272.25**

Small, Green 500 - 630µm, 0.15ml
860-C110118 **\$222.45**

GUIDOR® Bioresorbable Matrix Barrier - Sunstar Americas, Inc.

A line of translucent, resorbable barrier membranes with a unique, multi-layer design that facilitates periodontal tissue integration. 100% synthetic with predictable resorption. Can be cut and shaped to precisely cover the defect site. Becomes malleable within seconds at body temperature, making it easy to handle and control. Each unit contains one dental membrane.

5lbs **\$97.45**

Mizzy Allcezon Base Plate Wax - Keystone Industries

Composed of general, all-purpose wax for bites, registration and impressions. Pink.

1lb. 830-0160100..... **\$18.25**

BITE WAX - PREFORMED

ALUWAX™ Waxes - Aluwax Dental Products Company

Sophisticated composite material which contains powdered aluminum to increase the integrity of the compound and provide the heat retention properties needed for efficient modeling. Available in wax only or waxed cloth form which contain coarse cloth at the center of the material. Scored wax allows easy use in small quantities.

Denture Wax

830-DENT 15oz **\$19.95**

Scored

830-SCOR 15oz **\$19.95**

Waxed Cloth

830-WCS 15oz **\$20.45**

U-Shaped Bite Wafers

830-USBW 40/box **\$21.95**

Hygienic® U-Shaped Occlusal Rim Wax - Coltene

Pink wax formulated for bite rims. Recessed base aids adoption to base plate. Can be reshaped at room temperature to fit individual arch.

835-04030 21/box **\$21.25**
835-00822 100/box **\$95.25**

Coprwax Bite Wafers - Heraeus Kulzer

Horseshoe shaped bite wafers made from wax with copper particles distributed throughout. Soften wafer in warm water and the copper holds the heat so the wax is softer. Foil laminated to prevent bite through, yet thin enough not to open the bite. Tempers in the patient's mouth.

830-92178 84/box **\$94.95**

Hygienic® Bite Wafers - Coltene

U-shaped, soft bite registration wax slips; designed for fast, precise impressions.

Blue Foil Laminated Double Thickness

Lessens distortion and prevents patients from biting through wafer.

835-00825 24/box **\$24.95**

Yellow Soft No Foil Single Layer

Adapts to dental arch; provides quick, precise bite-checks.

835-00839 50/box **\$24.95**

Green Extra Hard

Nonbrittle. Will not shatter when chilled; softens quickly in warm water; shaped for full arch coverage.

835-03365 50/box **\$24.95**

Modern Materials® Check Bite Wafers - Heraeus Kulzer

Easy horseshoe shape minimizes trimming. Ideal for a quick bite. Won't stain models. Yellow.

830-95094 48/box **\$28.25**
830-95194 192/box **\$89.45**

Modern Materials® Boxing Wax - Heraeus Kulzer

Sticky enough to adhere but not too sticky to remove cleanly without softening.

Regular .96" Thick

830-94693 1lb **\$25.25**

X-Thin .040" Thick

830-94793 1lb **\$30.95**

Boxing Wax - Integra® Miltex®

Soft, pliable and cohesive at room temperature, yet firm enough to maintain its form during handling. Used for boxing impressions in the pouring of casts. Red.

Thin

830-57630 1lb **\$27.45**

Thick

836-57550 1lb **\$25.75**

ORTHO WAX

Hygienic® Orthodontic Tray Wax Strips - Coltene

Used for peripheral lining of trays, increasing tray height and postdamming. Soft and sticky, they may be adapted without heating. Pure white color, unscented. 6" long by 1/4" diameter.

835-00827 48/box **\$19.95**

BOXING WAX

Hygienic® Boxing Wax - Coltene

Designed for boxing impressions; withstands the extreme heat given off by dental stones during setting. Red.

Regular 835-00815
Extra Thin 835-00816
1lb. **\$35.75**

Orthodontic Tray Wax - Kerr Laboratory

A soft, white plastic wax strip for orthodontic use in extension of periphery, post damming and stops for impression trays.

839-09246 48/box **\$37.45**

MISCELLANEOUS WAX

Surgident® PeripheryWax - Heraeus Kulzer

Wax for protecting soft tissue from the periphery of the impression tray, to extend or post dam impression trays. Can be used to post dam a tray or as a stop. Sticky enough to adhere without softening. Can be used with hydrocolloid higher melting range. Pleasant scent. Blue for visibility.

830-92189	60/box	\$27.25
-----------	--------------	----------------

DisclosingWax - Kerr Laboratory

A creamy wax used to repair wax pattern defects. Also used to determine the fit of full and partial dentures in relation to the supporting tissue. Ivory.

839-00610	57gm jar	\$36.95
-----------	----------------	----------------

Occlusal IndicatorWax - Kerr Laboratory

A superior indicator to define occlusal prematurities with a positive reading of contacting surfaces.

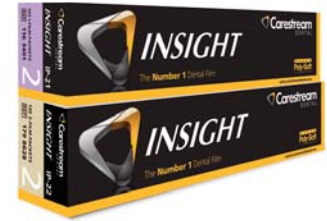

839-00655	180/box	\$80.45
-----------	---------------	----------------

Carestream Dental intraoral films capture high-resolution periapical, bite-wing and occlusal images with a wide range of film speeds and sizes for maximum patient comfort and confident diagnoses.

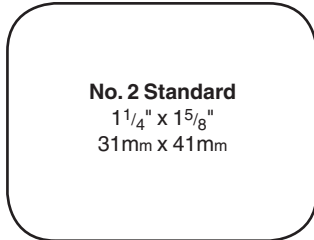

Ultra-Speed - Carestream Dental
D-speed film that generates the high quality, detailed images you need to make accurate diagnoses.

INSIGHT - Carestream Dental
A true F-speed film that delivers excellent and consistent image quality through exclusive T-Grain emulsion technology and 60% less radiation per exposure.

X-OMAT 2 Dental Duplicating - Carestream Dental

X-Omat dental duplicating film is used to produce duplicate radiographs. Designed for automatic processing in dental processors, this film can be processed manually in emergency situations. Unlike X-ray film, this is a direct-reversal film where longer exposure times produce lighter images and shorter exposure times produce darker images.

Extraoral Film - Carestream Dental

T-MAT G/RA: The standard for extraoral film in the industry, T-MAT G/RA is a Green sensitive, high-contrast, 400-speed system when used with LANEX Regular or EV Screens.

X-OMAT DBF: X-OMAT DBF is a Blue sensitive film with medium contrast that can be used with other manufacturers' blue/UV screens. When used with X-OMATIC Regular Screen, this provides a 200-speed system.

T-MAT L/RA: T-MAT L/RA provides wide latitude for capturing detailed images of soft tissue of facial profile as well as bone and tooth structure. This film acts as a 400-speed system when used with LANEX Regular Screens.

T-MAT H/RAL: T-MAT H/RA provides high-contrast images with very short exposure times. Excellent for capturing images quickly, T-MAT H/RA is an 800-speed system when used with LANEX Regular Screens. When used in the double load mode to create two identical radiographs with a single exposure, it acts as a 400-speed system with LANEX Regular Screens.

Extraoral Film EVG: EVG is a Green sensitive, high contrast, "zero-crossover" film, and is a 400-speed system when used with either EV screens or LANEX Regular Screens.

FILM MOUNTS

Universal X-Ray Film Mounts

Perforated, clear vinyl 2-window pocket mounts with white matte surface for writing. Protects film from damage. Each box contains 1000 windows.

910-10001 1000/box **\$95.95**

EZ-View FasTear Mount - Dentsply Rinn

Perforated for easy removal. Fan-folded for easy dispensing. Comes with Name/Date labels. Pull out the desired number of pockets and tear into your desired configuration. The clear vinyl pocket style offers maximum protection, visibility and convenience.

910-200500 1000/box **\$95.95**

EZ-View Universal Cut-Apart Mounts - Dentsply Rinn

Flexible windows hold #0, #1 and #2 films. Fan-folded for easy dispensing. Comes with Name/Date labels. Pull out the desired number of pockets and cut into your desired configuration. The clear vinyl pocket style offers maximum protection, visibility and convenience.

910-200102 1000/box **\$134.45**

AUTOMATIC PROCESSING CHEMICALS

Developer & Fixer - Air Techniques

Every batch of chemistry receives continual quality inspection. Our developer has superior anti-oxidation properties for longer life. Our fixer easily washes off the film surface extending the life of radiographs. For roller processors only.

Developer & Fixer

920-40270 2 gallons each **\$127.45**

Developer Only

920-40240 1 gallon **\$27.75**

Fixer Only

920-40245 1gallon **\$27.75**

Starter Solution

For use with Air Techniques Developer.

920-40280 12oz **\$13.25**

Peri-Pro Chemistry - Air Techniques

Developer & Fixer

920-90800 3 quarts each **\$62.75**

Developer Only

920-90801 1 quart **\$15.95**

Fixer Only

920-90802 1 quart **\$15.95**

Rapid Access - Carestream Dental

These ready-to-use solutions require no mixing. Radiographs are suitable for viewing in 30 seconds (15-second development, 15-second fix).

Developer & Fixer

920-1838374 1 pint each **\$23.25**

Readymatic - Carestream Dental

Designed for use in all automatic roller-transport dental x-ray film processors. They deliver clear, consistent results for all intraoral and extraoral radiographs. For your convenience, our chemicals are available in ready-to-use form.

Developer & Fixer

920-1028869 2 gallons each **\$89.95**

Developer Only

920-8777534 4 gallons **\$101.95**

Fixer Only

920-8712879 4 gallons **\$116.95**

Readypro Chemicals - Carestream Dental

Specially formulated for use in rollerless processors.

Developer & Fixer

920-1176262 1 quart each **\$25.95**

Redi-Chem - Fujifilm USA

Ready-to-use (no dilution required) chemicals, designed for use in all brands and types of automatic roller type processors.

Developer A & Fixer B

920-27270 2 gallons each **\$56.45**

Developer Only

920-27272 4 gallons **\$72.45**

Fixer Only

920-27274 4 gallons **\$58.45**

AUTOMATIC PROCESSING CHEMICALS

Peri-Chem Pre-Mixed - Fujifilm USA

For rollerless type automatic film processors.

Developer & Fixer

920-27271 3 quarts each \$36.75

Peri-Sol® - Solutek Corporation

Ready-to-use developer & fixer formulated for use in roller-less processors. They produce optimum film quality, high contrast and definition, low fog. One bottle fills a tank in the Peri-Pro processor. Peri Sol chemistry contains special ingredients that retard oxidation, produce consistent results, and minimize the formation of sludge.

Developer & Fixer

920-23879 3 quarts each \$20.95

Developer Only

920-23879A 1 quart \$4.25

Fixer Only

920-238792 1 quart \$3.95

SoluDent Developer & Fixer - Solutek Corporation

Ready-to-use processing solutions provide consistent results, long shelf life and exceptional quality. Pre-mixed chemistry prevents solution mixing errors and time consuming retakes. Assures high quality films with less handling time and fewer problems. Suitable for use in all automatic roller type dental X-Ray film processors.

Developer & Fixer

920-20629 2 gallons each \$31.95

Developer Only

920-20624 4 gallons \$33.95

Fixer Only

920-20824 4 gallons \$27.95

PanoPro™ Developer & Fixer - Southland Distribution & Sales

Formulated for use in roller type automatic processors. All temperature formula works in machines with or without heaters, specifically developed for "Peri-type" processors, less oxidation, stays fresher longer, archival quality X-rays, quick drying formula, sharper images.

Developer & Fixer

920-FM8004 2 gallons each \$105.25

Developer Only

920-FM8005 4 gallons \$100.95

Fixer Only

920-FM8006 4 gallons \$100.95

ABX® Premixed Developer & Fixer - White Mountain Imaging

Color-coding system specially formulated to help eliminate possible cross contamination. Fixscent, no odor formulation, completely eliminates chemical odors and provides a fresh pleasant floral fragrance.

Developer & Fixer

920-324 2 gallons each \$51.95

Developer Only

920-204 4 gallons \$64.75

Fixer Only

920-304 4 gallons \$54.75

Excel Ready-to-Use Chemistry - White Mountain Imaging

High quality chemistry ensures better looking films with fewer processor problems. Pre-diluted, simply open the bottle and add it to your film processor.

Developer & Fixer

920-9926020 2 gallons each \$81.45

Developer Only

920-992602DV 4 gallons \$78.75

Fixer Only

920-992602FX 4 gallons \$78.75

Peri-Dent Developer & Fixer - White Mountain Imaging

Easy to use. High resistance to oxidation which provides a longer active life. Special emulsion hardeners to protect the film as it goes through the processor.

Developer & Fixer

920-401 3 quarts each \$40.75

MANUAL PROCESSING CHEMICALS

GBX - Carestream Dental

Liquid chemical concentrates designed to manually process all of our intraoral and extraoral dental film. Both the developer and fixer are single-solution concentrates, which provide mixing convenience, chemical stability, and identical mixing and dilution procedures for tank and replenishment solutions.

Developer & Fixer Twin Pack

920-1901859 28oz each \$34.45

Developer & Replenisher

920-1900943 1 quart \$33.25

920-1900984 1 gallon \$77.25

Fixer & Replenisher

920-1901875 1 quart \$29.45

920-1902485 1 gallon \$62.45

MANUAL PROCESSING CHEMICALS

Insta-Neg & Insta-Fix - Microcopy

These solutions give not only speed but great diagnostic quality with archival permanence. In addition, many users indicate a greater active tank life compared to conventional and other high-energy solutions. Insta-Neg and Insta-Fix are premixed for use in either standard developing tanks for total X-ray processing (including panoramic film), or in small containers for endodontic and emergency processing.

Developer & Fixer

920-NEGFIXQT 4 quarts each **\$115.45**
 920-NEGFIXGL 2 gallons each **\$150.75**

Insta-Neg 920-NEGDEV
 Insta-Fix 920-NEGFIX
 1 quart **\$15.45**

Insta-Neg 920-NEGDEVG
 Insta-Fix 920-NEGFIXG
 1 gallon **\$31.25**

SoluDent SDX Concentrate - Solutek Corporation

SoluDent SDX is a special two-part formulation designed for processing X-ray films, packaged in twin-paks. One bottle of developer and one bottle of fixer, each makes one gallon..

920-26009 26oz each **\$8.95**

X-RAY PROCESSING CLEANERS

Peri-Pro Transport Cleaning Kit - Air Techniques

Contains: All items needed to chemically clean

572

a Peri-Pro Transport along with cleaning tub, 1 brush, and 1 Twin-Pack of Formula 2000.
 930-43975 Kit **\$147.95**

Formula 2000 PLUS Tank & Transport Cleaner

Use for roller-type processors, manual processing tanks & Peri-Pro transports.

Twin Pack - 1 Liter

Contains: 2 bottles, 2 sponges and 1 spatula.
 920-43945 Pack **\$53.95**

Spray 2000 PLUS - Air Techniques

For roller-type film processors only; not for Peri-Pro.

Contains: 1 liter Spray 2000 Plus, 1 spray attachment, 4 cleaning webs (non-abrasive scrubbing pads for cleaning roller transports).

920-43965 Kit **\$57.95**

Clean-Up Film - Carestream Dental

This film is designed for convenient cleaning of the transport mechanism in roller transport processors. (8" x 10" Roller Transport).

900-1039205 100/box **\$246.95**

Rapid-Klene - Premier® Dental

Effectively and safely cleans automatic film processors in as little as 20 minutes without scrubbing. After draining all sections, one Rapid-Klene pouch is emptied into each section to be cleaned and hot tap water is added. The transports are inserted and the machine is turned on. 63gm pouches.

927-9018101 12/pack **\$122.75**

Clear Image Radiographic Weekly Cleaner - Southland Distribution & Sales

No acids or hazardous chromate chemicals. One step and easy to use. Safe for all processors. 100% biodegradable and nontoxic. No hazardous shipping charges, EPA safe. Cleans rollers and tank in 3 to 5 minutes.

920-CI3212 1 quart **\$40.25**
 920-CI1284 1 gallon **\$122.75**

Pro-32 - Southland Distribution & Sales

A professional strength monthly or quarterly cleaner for all processors. Removes silver build-up and oxidation from rollers, webs, transports and tanks. Ten cleanings per bottle. Includes gloves and safety glasses.

920-P32 1 quart **\$116.95**

Sharp Image Clean Up Sheets - Southland Distribution & Sales

Eliminates retakes due to build-up. Process a new Sharp Image Clean Up Sheet as the first film of the day to remove artifacts that build up on the processor rollers. Fifty 8"x10" sheets per pack.

900-CI0810 Each **\$76.45**

X-RAY PROCESSING CLEANERS

Easy Clean - White Mountain Imaging
 This environmentally safe cleaner is a water-soluble powder. Simply drop your racks, rollers or tanks into the solution and leave them overnight or over the weekend. Easy Clean removes silver and other residues from the parts, minimizing the chances of film slippage in the rollers while decreasing artifacts on the films .25 lbs each.
 920-99260260 12/pack **\$67.45**

LH System Cleaner - White Mountain Imaging
 Concentrated powder cleaner can be used full strength, dissolves silver oxide deposits and other stains. 1 quart.
 920-701 6/box..... **\$42.75**

FIXER WASTE MANAGEMENT

All Ways Recycle - Fixer Treatment Systems
 Safely recycles hazardous fixer for one year in the dental office. For use with manual and automatic processors. Meets EPA regulations. Price includes UPS pickup of the old recycling unit.
 770-FTS100 Each **\$342.75**

CHEMGON® 5 - Waste & Compliance Management
 Chemistry treatment and disposal product for used X-Ray processing chemicals. On the basis of Toxicity Characteristic Leaching Procedures (TCLP), CHEMGON processed graphic arts, photo processing fluids, and X-ray fluids are converted to a non-hazardous solid waste safe for regular trash disposal; silver levels are well below the acceptable parts per million (ppm's) established by the EPA. CHEMGON converts hazardous liquids into non-hazardous solid waste.
 370-CHG5 5 gallons **\$107.75**

FOILGON® - Waste & Compliance Management
 Mail-back lead foil recycling. A FOILGON container is provided; prepaid shipping documents and a recycler ready to accept your lead foil waste. You simply attach the prepaid shipping label and give your full (no more than 7 lbs.) container to the UPS driver that delivers your supplies or drop the container off at a convenient UPS drop off location.
 370-FOILGON Each..... **\$89.45**

X-RAY FILM DUPLICATORS & VIEWERS

Slimline Duplicator - Dentsply Rinn
 Quickly and easily duplicate your radiographs, great for referrals and claims. Position films in darkroom with built-in safelight. Accurate exposure control with "instant-on" ballast and pre-settable timer. Exceptionally durable chemical-resistant polyethylene housing. 5-7/8" x 12-5/8" duplicating area.
 770-721212 Each **\$1157.45**

Kopy Kat - Flow Dental
 Duplicators for intraoral/extraoral films.
6" x 12"
 770-21520 Each **\$549.75**
10" x 12"
 770-21522 Each **\$598.25**

Classic X-Ray Viewers - Kerr Restoratives
 All plastic construction (wet films will not rust viewer). Roller clip secures film or film mount. Viewing area: 12 7/8" W x 4 7/8" H. Actual Size: 15 1/4" W x 6 3/4" H.
Desk Model
 930-31332 Each **\$132.25**
Wall Model
 930-31342 Each **\$132.25**

Luminator Slim-Line X-Ray Viewer - Kerr Restoratives
 Modern Slim-Line styling accepts panoramic films and intra-oral mounts. Functions as a desk viewer or as a wall mount. Viewing area: 13-1/2" wide x 6" high.
 930-31323 Each **\$186.45**

SOOTHE-GUARD AIR®
LEAD-FREE X-RAY APRONS

SOOTHE-GUARD®
LEAD-LINED X-RAY APRONS

Choose the right apron for the job!

APRON GUIDE

The NCRP (National Council on Radiation Protection and Measurements) requires thyroid shielding for all children and highly recommends it for all adults as well.¹

INTRAORAL IMAGING

BITEWINGS – PERIAPICALS – FULL-MOUTH SERIES

COLLARED APRONS

Provide protection in front from thyroid to gonadal area. Velcro closure at neck ensures snug fit.

EXCLUSIVE!

EXTENDED COLLAR APRONS

Adjustable closure fits necks sizes SMALL thru 6X-LARGE.

Premium leather grain Soothe-Guard® material.

COLLARS

For use with non-collared aprons for thyroid protection.

NON-COLLARED APRONS

Provide protection in front from shoulders to gonadal area. Not for use with Extraoral Imaging (no protection in back).

EXTRAORAL IMAGING

PANORAMIC – CEPHALOGRAPHIC – CONE-BEAM CT

PANOVEST

Provides light-weight protection from the shoulders and chest as well as down the back. Front closure for easy on-and-off.

PANO-CAPE

Provides protection from the shoulders and features a back closure. Light-weight option.

PANO-DUAL

Provides protection from the shoulders to the gonadal area in both front and back, with Velcro closure at the shoulder. Most protective option.

**DENTSPLY
RINN**

Studies show that protective collars reduce radiation dosage to the thyroid by 26-33%

SOOTHE-GUARD® Brand Aprons

EASY TO CLEAN

- Both sides will not crack, chalk or fade when cleaned with soap and water or VoloWipes™ disinfecting wipes**
- Comfortable Soothe-Guard® material

SOOTHE-GUARD AIR®

25% LIGHTER

THAN LEAD-LINED APRONS*

- Innovative lead-free alloy lining provides protection equal to lead*

EVERY APRON HAS A BIRTH DATE — WHAT'S YOURS?

According to the ADA:

“All protective shields should be evaluated for damage (ie. tears, folds, and cracks) monthly using visual and manual inspection.”*

Note: A crack in the outer layer could expose the lead inside, which could transfer to the patient. We recommend replacing your aprons every 3-5 years.

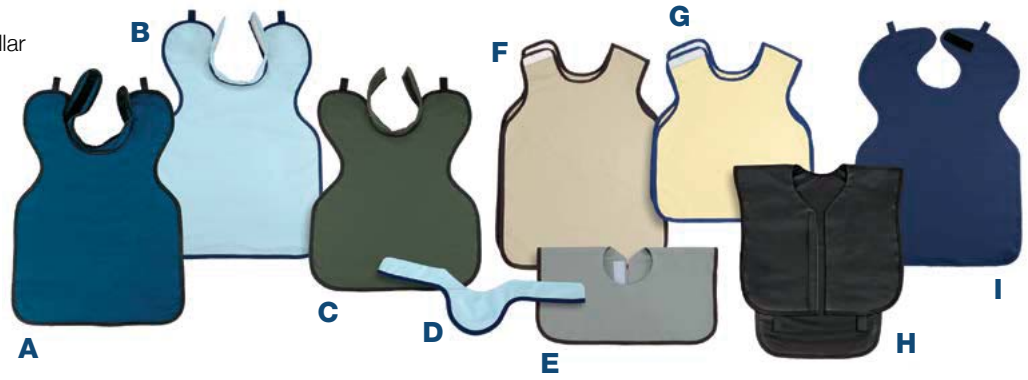

Apron Hanger

Heavy-duty, white epoxy-coated steel. Mounting hardware is included.

Dimensions: 1.25" high x 14.875" wide x 1.375" deep (32 x 378 x 35mm)

930-662052 Each.....\$43.25

X-RAY

Lead Free protection that's both beautiful and affordable!

Flow lead free aprons come in a variety of beautiful, stain resistant fabrics your patients will love! Made from environmentally friendly, non-toxic materials that are both long lasting and flexible, Flow aprons are healthier for you and for our environment. Available in Adult, Adult with attached color, Child with attached color, or Panoramic (poncho) styles. Thyroid collars can also be bought separately.

All Flow Dental Aprons are available in the following colors and patterns...

How to order your Flow No-Lead Apron

To order, select from any of the patterns shown above. Use the stock number and add a fabric number after it. **Example:** If you want a Bib Apron, without a thyroid collar, in the Tye Dye fabric, the correct product number is 930-75050NL-30.

Description	Size	Stock Number	Price
Adult Bib Apron without Thyroid Collar	24" x 26"	930-75050NL (+ color #)	\$252.75
Adult Bib Apron with Sewn-on Thyroid Collar	24" x 26"	930-75051NL (+ color #)	\$295.95
Child Size Bib Apron with Sewn-on Thyroid Collar	20" x 20"	930-75053NL (+ color #)	\$227.25
Adult Panoramic Apron	24" x 27"	930-75061NL (+ color #)	\$370.75
Child Panoramic Apron	20" x 20"	930-75062NL (+ color #)	\$308.75
Thyroid Collar	5" x 27"	930-75056NL (+ color #)	\$53.25

Lead-Free X-ray Apron with thyroid collar

Lead-Free X-ray Aprons with thyroid collars provide protection for patients during intra-oral radiography without the weight of lead.

Child, Blue microfiber	930-31351	\$184.80
Child, Charcoal microfiber	930-31354	\$309.25
Adult, Reversible Violet/Charcoal	930-31359	\$386.95
Adult, Charcoal microfiber	930-31389	\$333.75
Adult, Blue microfiber	930-31459	\$333.75

Lead-Free X-ray Apron without collar

The lead-free X-ray aprons are made of proprietary alloy sheeting that provides the same protection as lead but are up to 30% lighter.

Adult, Charcoal microfiber	930-31388	\$297.75
Adult, Blue microfiber	930-31458	\$297.75

Lead-Free Panoramic Poncho

Lead-Free X-ray Panoramic Ponchos provide protection for patients during panoramic radiography without the weight of lead.

Child, Charcoal microfiber	930-31355	\$464.25
Adult, Reversible Violet/Charcoal	930-31360	\$627.25
Adult, Charcoal microfiber	930-31390	\$485.25
Adult, Blue microfiber	930-31460	\$485.25

Lead X-ray Aprons with thyroid collar

Each lead X-ray apron drapes comfortably over patient. Adult size measurements: 23" width x 26" length.

Blue	930-31461	\$170.75

Vinyl Colors
Black Binding

Bite Wing Loops

Bite Wing loops are made of heavy-duty paper board, and designed to accommodate any dental film.

- Child size 0 930-HTBWL0
- Adult size 2 930-HTBWL2
- 500/box **\$5.95**

Bite Wing Tabs

Self Adhesive Bite Wing Tabs easily fold down and stick to any size film.

- 930-HTBWT 500/box **\$7.95**

Bite Wing Tabs - Crossex International

Self-adhesive bite wing tabs attach to adult and children's X-ray film - hold securely in place. Convenient pop-out dispenser box.

- 930-YBT 500/box **\$9.25**

Bite Wing Tabs - Dentsply Rinn

Self-adhesive tabs affix to film packet. For use horizontally or vertically. Handy dispenser box included.

- 930-140500 500/box **\$14.95**

Stabe Bite-Blocks - Dentsply Rinn

Holds #0, 1 or 2 film firmly, comfortably at the correct angle for long or short cone technique. End of block snaps off for tight situations.

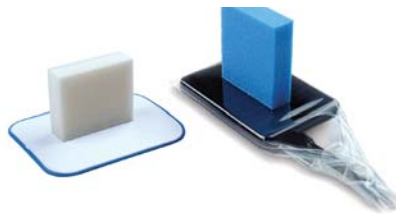

- 930-600870 100/box **\$46.45**

XCP Disposable Bite-Blocks - Dentsply Rinn

For size 0, 1 or 2 film. Break off front section for Pedo applications.

- 930-540870 100/box **\$51.25**

FLAPS Digital Sensor Film Tabs - Microcopy

Made of soft plastic foam. "Flaps" are so comfortable patients accept them better with less gagging.

- Original - White**
- 930-FLAPS 500/box **\$41.25**

- Long - Blue**
- 930-FLS 375/box **\$43.45**

SoftX Foam Bite Wing Loops - ProEdge Dental Corp

Cushion and protect the susceptible surfaces of the mouth during bite wing X-rays. Soft edges and corners comfortably cushion tissue to eliminate the pain of Bite Wing X-rays in seconds, for pennies per patient.

- #0 Pediatric 930-BWL250
- #2 Pediatric 930-BWL252
- #2 Vertical 930-VBWL252
- 250/box **\$31.25**

Bite Wing Tabs - Temrex Corporation

The box is self-dispensing, convenient pop-up as the carrier strip is advanced. This eliminates the individual peeling off of protecting paper on individual tabs.

- 930-2450 550/box **\$12.75**

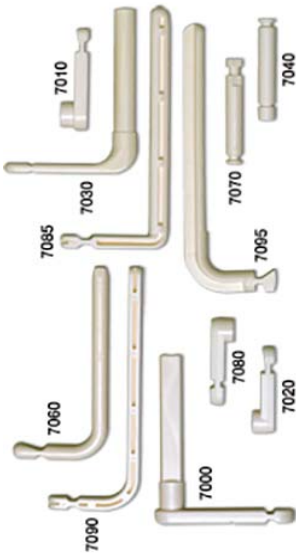

Bite Wing Tabs - Vista Dental Products

A self-adhesive tab that can be applied to both adult or child X-ray film. For added convenience, can be affixed either vertically or horizontally. The unique dispenser box eliminates the need to individually peel each tab while providing a convenient pop-up dispenser.

- 930-308001 500/box **\$10.25**

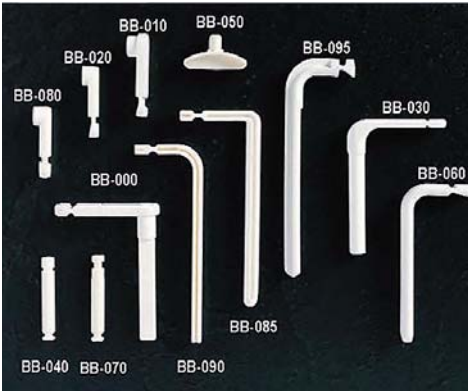

PANORAMIC POSITIONING

Dispos-A-Bite - Kerr TotalCare

Disposable bite blocks for panoramic X-ray machines. Individually wrapped to reduce the risk of cross contamination.

- Fits Midwest, Ritter Panorol, J. Morita, Versview 660-7000
- Fits Siemens OP10 660-7010
- Fits Siemens OP, OP5, DentalEZ, Panolite, Soredex 660-7020
- Fits Phillips 660-7030
- Fits GE, Gendex and Panolipse 660-7040
- Fits Planmeca 660-7060
- Fits Panorex by Keystone 660-7070
- Fits Belmont Autopan 660-7080
- Fits Yoshida, Kaycor Panoura, FIAD-Rotograph 660-7085
- Fits Belmont X-Caliber 660-7090
- Fits Panoramic 660-7095
- 100/box **\$57.95**

Block-4-Bite - Plasdent Corporation

Disposable bite blocks for panoramic X-ray machines.

- Fits Midwest, Ritter Panorol, J. Morita Versview 930-BB000
- Fits Siemens OP10 and Instrumetarium 930-BB010
- Fits Siemens OP3, OP5 930-BB020
- Fits Phillips, DentalEZ, Panolite, Soredex 930-BB030
- Fits GE Panolipse, Gendex 930-BB040
- Fits Yoshida, Kaycor Panoura 930-BB050
- Fits Planmeca 930-BB060
- Fits Panorex by Keystone 930-BB070
- Fits Belmont Autopan, FIAD Rotograph 930-BB080

- Fits Yoshida, Kaycor Panoura 930-BB085
- Fits Belmont X-Caliber 930-BB090
- Fits Panoramic 930-BB095
- 100/box **\$26.75**

SENSOR, FILM & PSP HOLDERS

Edge-Ease Comfort Cushions - Crosstex International

Developed by a dental hygienist to allow for easier film and sensor placement and provide a more comfortable edge on intraoral film packets and digital sensors. Patients will bite harder on your film holder, which positions the X-ray more periapically for better diagnostic X-rays.

- Large - Blue 930-EEB
- Small - White 930-EEW
- 300/box **\$48.95**

Eezee-Grip Digital Sensor Holder - Dentsply Rinn

Save time on digital radiographs. Simply insert the sensor, squeeze and you're ready to go. The Eezee-Grip has patented flexible grips for patient comfort and accommodates most popular sensor brands. Autoclavable.

- 930-550293 Each **\$35.75**
- 930-550294 3/pack **\$90.25**

Snap-A-Ray DS - Dentsply Rinn

Allows you to quickly load and place digital sensors for accurate periapical radiographs. Autoclavable. Use with the optional 2-in-1 Arm and Ring kit for easy alignment.

- 930-550321 Each **\$48.75**
- 930-550323 3/pack **\$127.95**

Endo

- 930-550421 Each **\$48.75**
- 930-550423 3/pack **\$127.95**

Arm & Ring Kit

- 930-550322 Each **\$92.75**

Snap-A-Ray Film Holder - Dentsply Rinn

Used with e2v (CCD) and Schick CDR Sensors. Posterior radiographs made simple with the modified Snap-A-Ray Film holder. Note: Not for Schick CDR Elite or other CMOS sensors. For e2v (CCD) and Schick CDR sensors.

- 930-550295 Each **\$34.45**

Snap-A-Ray Xtra Film and PSP Holder - Dentsply Rinn

Autoclavable film and PSP holder with cushioned holder grips to minimize potential of scratching PSP. Its anterior bite block is angled to assist with Bisecting Angle Instrumentation (BAI) while allowing for easier patient placement of X-ray media.

- 930-540501 Each **\$30.75**
- 930-540503 3/pack **\$73.75**

Uni-Grip 360 Universal Sensor Holders - Dentsply Rinn

Holder is designed to produce an entire full mouth series using only one holder. Sliding the bitepiece along the channels enables you to take anterior, posterior and bitewing x-rays. One per procedure is all you need.

Starter Kit

- Contains: 50 Holders & 50 Sensor Covers.
- 930-550052 Kit **\$69.75**

Combo Pack

- Contains: 100 Holders, 100 sensor covers and 1 Uni-GripAR Positioning Arm and Ring.
- 930-550252 Pack **\$143.45**

Kit for Film and Phospor Plates

- 930-550055 50/pack **\$69.75**

Combo Kit for Film and Phospor Plates

- Contains: 2 (930-550055) and 1 Uni-Grip AR.
- 930-550255 Kit **\$136.75**

Uni-Grip AR Positioning Arm and Ring

Accurately align your X-ray cone with the universal positioning arm and ring for Uni-Grip Holders. Color-coded for quick assembly. Autoclavable.

- 930-550100 Each **\$58.25**

SENSOR, FILM & PSP HOLDERS

X-Ray Holders - Precision Dental

Holds X-ray film for anterior and posterior X-rays. Both ends securely hold film without bending. Available with an angulated end or with a straight end. Sterilizable by standard table top sterilizer.

Beige Angled

930-XFH3 3/pkg. **\$13.95**

Blue Straight

930-XFH5BU 3/pkg. **\$14.45**

Wing-A-Ray® - Steri-Shield

Fits all digital sensors on the market. Can be cold or heat sterilized (105° C max.).

930-088050 Each **\$33.95**

Use with Wingers, see page 583

Endo Ray II - Dentsply Rinn

Greater control with addition of an aiming ring. Fits over files clamps and rubber dams without touching the subject tooth.

930-540303 2/pack **\$111.95**

930-540307 4/pack **\$221.25**

XCP® Evolution 2000 Film and PSP Holding Systems - Dentsply Rinn

Quickly align the x-ray cone to media and prevent cone cutting. Easily assemble with color coded XCP components. Guide PID for proper alignment with short arms and light rings that accommodate intraoral units. Steam autoclavable.

Kit with Bitewing Holder

Contains: 4 arms and rings: 1 anterior, 2 posterior, 1 bitewing; 17 bite blocks: 4 anterior, 8 posterior and 5 bitewings (2 H#2, 2 V#2, 1H #0/1, (1V #1); instructional poster.

930-542001 Kit **\$199.45**

Kit Without Bitewings

Contains: 3 arms and rings: 1 anterior, 2 posterior; 12 biteblocks: 4 anterior, 8 posterior; instructional poster.

930-540928 Each **\$151.95**

Kit with Bitewings and Endodontic

Contains: All contents of 930-542001, plus 1 endo arm and ring and 4 endo biteblocks.

930-542045 Kit **\$63.45**

Kit for Endodontic Film/ PSP

Contains: 1 endo arm and ring, 3 endo biteblocks.

X-RAY MONITORING

Instadose Radiation Badge Service - IC Care, Inc.

The traditional radiation badge service is provided through NVLAP accredited passive dosimeters. Exchange frequencies range from monthly to quarterly. Subscribers to our service will automatically receive shipments, along with a pre-printed envelope used to send the dosimeters back for processing. Before the end of the frequency subscribers will receive a new set of badges. Our traditional radiation badge service includes automatic exchange of dosimeters each wear period, processing and analysis of dosimeters, archival storage of exposure results, and standard dosimetry reports with data management, customer service and technical support programs.

Monthly Service

Includes twelve shipments of a badge and a monthly dosimetry report for one year, price per person.

930-ICC3835303 **\$151.95**

Quarterly Service

Includes four shipments of a badge and a quarterly dosimetry report for one year, price per person.

930-ICC3835311 **\$108.95**

@ease Personalized X-ray Monitoring Badges - ProEdge Dental Corp

Personalized X-ray badges measure exposure at 3 tissue levels and include quick reports from an accredited laboratory. Quarterly reports are updated for the current wear period, plus YTD and lifetime history. One super-low price includes everything: free control badges, automatic replacement badge shipments, online reports with no hidden fees for set-up, or changes. Every quarter, you'll automatically receive a new set of badges, along with a pre-printed envelope for returning the previous badges for analysis. Our service includes analysis, personalized reports with results archiving, data management, and technical support. No-hassle service - no account maintenance or set-up fees. 24/7 access to your secure online results. Automated reports sent with your exposure history. Automatic renewal option.

Annual Subscription - 4 quarters of service
 930-RB401 **\$106.75**

Annual Service - 12 monthly badges
 930-RB1201 **\$122.25**

BINDERS

Vinyl Round Ring View Binders

Create the perfect title page, then place it inside the clear plastic overlay. Wide base rings lock pages in place to hold securely. Concealed rivets on spine for a clean professional appearance. Two inside pockets for additional storage of loose documents. Included card stock spines are easy to remove, reverse and re-use.

Deluxe Vinyl Round Ring View Binder

Extra-deep 4½" inside pockets. Sheet lifters included in 2" capacity and larger. Holds 11 x 8½ sheets. Post-consumer recycled content: 42%.

 ♦ Remanufactured

Remanufactured Cartridges Conserve Oil

The manufacture of a single new toner cartridge burns approximately three quarts of oil. Many can be remanufactured up to four times for a potential conservation of twelve quarts of oil! Remanufactured cartridges keep tons of plastic and metal out of our landfills each year because they are restored multiple times before entering the waste stream.

We can customize your prescription pads. Ask your DHPI Account Manager for details.

month labels

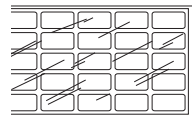

Month labels are time-saving, self-adhesive labels that are color coded for efficient filing of due dates, pay dates and follow-up work.

Labels are 1/2" high and are printed horizontally and vertically for side or top placement.

*Assorted package includes 300 labels, 25 of each month January–December - 70243.

Original Col'R'Tab® color code labels provide the best value of any label system in the industry. The unique hinged construction allows for consistent and quick application to file folders, pockets, or even pressboard folders. The clear, outside skirt offsets any tendency for the labels to "hook" onto one another when pulled from the shelf. Made with heavy duty paper and fade-resistant inks. Do not settle for inexpensive color matches – realize the value and savings by using only original Col'R'Tab products!

NAME LABEL PROTECTORS

Name label protectors eliminate dirty, worn, dog-eared file folders and file folder labels. Clear, wrap-around, self-adhesive protectors keep file folders and labels clean and prevent them from falling off, extending the life of the folder. Name label protectors can also be used "flat" to attach miscellaneous materials to any surface.

stock no.	size	qty. per pkg.	qty. per box	qty. per roll	price

*500 single protectors per box

OR

FULL END TAB PROTECTORS

End tab protectors are an ideal solution for extending the life of shelf file folders. Clear protectors wrap around folder end tabs, preventing labels from cracking or popping off, and protect against wear and tear. Self-adhesive, 8" x 2" protectors can be easily applied to all types of end tab file folders to keep them looking neat and clean longer.

stock no.	size	qty. per pkg.	price
791-68386	8" x 2"	100	\$8.95

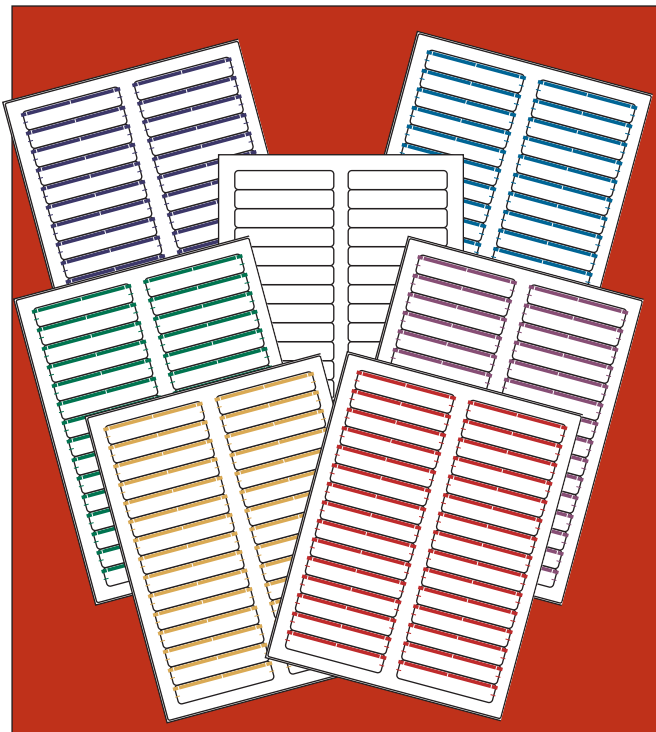

SPINE EDGE PROTECTORS

Edge protectors keep heavily used file folders looking good longer by protecting edges from cracking or splitting. The 11" x 2" clear, wrap-around protector is easily applied to the bottom edge of a file folder, where the most wear and tear occurs as the folder is moved in and out of shelf file cabinets.

stock no.	size	qty. per pkg.	price
791-68387	11" x 2"	100	\$12.75

24-Pack

Italian Roast Coffee - Tully's®

For an intense, full-bodied cup with a slightly more pronounced zippy bite than may be found in other robust roasts, Italian roast coffee is the perfect choice. When you sip this Southern European dark roast, sophisticated hints of caramel and spice will bring your palate to life. Extra Bold.

790-GMT193019

24-Pack

Newman's Own® Special Blend Extra Bold - Newman's Own® Organics

These singles are an extra bold blend of medium-roasted Central American and dark-roasted Indonesian coffees. Rich in taste with notes of dried fruit and dark chocolate while mild in finish with a slightly astringent berry bite, they're a study in contrasts that satisfies an extremely wide range of coffee drinkers. Fair Trade Certified™ organic coffee.

790-GMT4050

24-Pack

Regular

Colombian Fair Trade Select Coffee - Green Mountain Coffee®

Each sip of this bold, complex, single-origin Fair Trade coffee bursts with ripe fruit notes and sweet walnut tones. A medium body and a smooth finish with 100% Colombian beans.

790-GMT6003

24-Pack

Breakfast Blend Coffee - Green Mountain Coffee®

Always rich, balanced and smooth, never too weak, never too strong, gourmet Green Mountain Coffee® Breakfast Blend will please anyone. A wakeful harmony of crisp, citrusy Central American and sweet, full-bodied Indonesian beans.

790-GMT6520

24-Pack

Dark Magic® Extra Bold Coffee - Green Mountain Coffee®

Dark Magic® is sweet, intense and vibrant with a pleasing, lingering finish. A traditional cup of coffee that features the rich aromatics and flavor qualities of espresso. This syrupy Indonesian, Latin American blend is tailored to fit like a Savile Row suit.

790-GMT4061

24-Pack

Regular

Mahogany Coffee - Caribou Coffee®

Fans of rugged, robust dark roasts must try this blend. Its flavor tones of molasses, spice and semi-sweet chocolate provide a wonderfully complex experience. This Sumatran-Central American bean blend hits all the notes as well as a fine mahogany musical instrument.

790-GMT6990

24-Pack

Emeril's® Big Easy Bold Coffee - Emeril's®

Classic deep, dark Parisian roast captures the essence of the "most unique" city in America. Thick and hearty with an invigorating aroma, even those born and bred on the bayou confuse Big Easy Bold for their mother's fresh brew. Rainforest Alliance Certified coffee.

790-TWCPB4137

24-Pack

Decaf

French Roast Decaf Coffee - Tully's®

The powerful, intense flavor and smoky, decadent finish of these decaf singles have made it this roaster's most popular variety. This carefully roasted Guatemalan and Ugandan 100% Arabica, decaffeinated coffee blend more than deserves its acclaim.

790-GMT192419

24-Pack

Decaf

Breakfast Blend Decaf Coffee - Green Mountain Coffee®

Green Mountain Coffee® provides this naturally decaffeinated variety. Providing the same blend of crisp, citrusy Central American and sweet, full-bodied Indonesian beans, this coffee always brews with the perfect balance of vibrancy and smoothness.

790-GMT7522

24-Pack

Special Decaf - Newman's Own® Organics

This water-process decaffeinated coffee is a special blend of medium-roasted Central American and dark-roasted Indonesian beans. Rich in taste with notes of red wine and chocolate while mild in finish with a shallow but quiet persistence, they're a study in contrasts that satisfies an extremely wide range of coffee drinkers.

790-GMT4051

24-Pack

Dark Magic® Decaf Extra Bold Coffee - Green Mountain Coffee®

Dark Magic® is sweet, intense and vibrant with a pleasing, lingering finish. If you've been searching for a traditional cup of decaffeinated coffee that features the rich aromatics and flavor qualities of espresso, look no farther. This syrupy Indonesian, Latin American blend is tailored to fit like a Savile Row suit.

790-GMT4067

24-Pack

K-Cup® Pack

Flavored

Caramel Vanilla Cream Coffee - Green Mountain Coffee®

Delicious blend of caramel, toasty brown sugar and vanilla cream flavors caress the palate. Premium, medium-roasted beans brew a classic American city-style cup.

790-GMT6700 24-Pack

French Vanilla Coffee - Green Mountain Coffee®

If you love vanilla, you have to try this lusciously rich, flavored coffee. Inspired by the aromas and tastes of an artisan bakery, it's both sweet and creamy. This premium 100% Arabica coffee is an absolute treat.

790-GMT6732 24-Pack

Hazelnut Coffee - Green Mountain Coffee®

People, who prefer a very light, aromatic coffee with a flavored creamy body and smooth finish, love this coffee. Buttery and sweet with the essence of Piedmont hazelnuts, it's a coffee that promises to please.

790-GMT6792 24-Pack

Flavored

Fair Trade Wild Mountain Blueberry Coffee - Green Mountain Coffee®

A subtle berry-sweet, slightly buttery aroma underscores the special nature of this Fair Trade Certified coffee. The light roasted beans brew a lively, eye-opening cup with the flavor of sun-kissed blueberries in a buttery crust.

790-GMT6783 24-Pack

Tea

English Breakfast Black Tea - Celestial Seasonings®

Drinking this soothing, invigorating all-natural tea is a true pleasure. Made with only the highest quality black teas from Assam and Kenya, this robust English breakfast variety is guaranteed to tantalize your senses.

790-GMT14731 24-Pack

Green Tea - Celestial Seasonings®

People from around the world drink green tea to lift their spirits and to savor the smooth, full-bodied flavor. Green tea, a natural source of antioxidants (free radical neutralizers) offers many of the same health benefits as eating fruits and vegetables. Enjoy this delicious, 100% natural tea any time of the day or night.

790-GMT14734 24-Pack

Tea

Tea K-Cup® Pack Sampler, Assorted Flavors - Celestial Seasonings®

Four delectable varieties, including English Breakfast, Green Tea, Lemon Zinger® and Sleepy-time®, provide an ideal match for just about any occasion. Premium, 100% natural tea and herbs are an excellent alternative to coffee.

790-GMT6505 22-Pack

India Spice Tea - Celestial Seasonings®

Enjoy the health benefits of antioxidant-rich tea and savor an intriguing, delicious flavor that stands apart from the crowd. This tea features a fusion of meticulously blended premium black teas and natural, exotic spices that can't be beat.

790-GMT14738 24-Pack

Iced Beverage

Southern Sweet Perfect Iced Tea - Celestial Seasonings®

A sweet, Southern summer tradition. Bold, black tea with added natural sugar cane.

790-GMT6825 22-Pack

Cocoa/Other

Milk Chocolate Hot Cocoa - Café Escapes®

Developed with expert European chocolatiers to provide a sophisticated take on a traditional classic.

790-GMT6801 24-Pack

Chai Latte Specialty - Café Escapes®

Transport yourself with this aromatic blend of black tea and exotic spices. An added touch of milk and sugar completes the latte.

790-GMT6805 24-Pack

Hot Apple Cider - Green Mountain Naturals®

Made with real apples, brown sugar and cinnamon. Contain no artificial flavors or preservatives.

790-GMT6201 24-Pack

CLEANING PRODUCTS

A Formula 409® Glass & Surface Cleaner Ideal for glass, stainless steel, aluminum and other hard surfaces. Unique formula cuts dirt and grease without streaking. Ready-to-use, no-rinse formula leaves no residue. Biodegradable and phosphate-free.

No.	Size	Qty.	Unit	Price

SOPRO 717 First

The Sopro 717 First allows you to go beyond the limits of human vision while casting off bulky accessories. This is MacroVision.

As a result, you can film a cavity preparation, make a surface state, acquire images of micro-fissures, cervical lesions – while fully appreciating the exceptional image quality of the SOPRO 717 First. The focusing ring of the SOPRO 717 First allows great depth of field, whichever operating mode you choose (extraoral, intraoral and macro). This camera fits in perfectly with your dental practice environment and can be perfectly integrated into all dental units.

Features

- High sensitivity 1/4" CCD.
- Resolution:(752x582) PAL;(768x494) NTSC.
- Definition: 470 lines.
- Sensitivity: 2 lux.
- Lighting: 8 LED.
- Adjustment: 3 pre-set positions (Extra-oral, Intraoral, Macro).
- Non-inverted image.
- Freeze Frame with SoproTouch or pedal (option).
- Angle of view: 70°.
- Cable length: 2,5 m.
- Dimensions of the handpiece in mm: L. 200 x W. 28 x H. 24.
- Dimensions of the distal part in mm: l. 13 x H. 8.
- Weight: 75 gm

CamX® Elara

- Designed with all ergonomic demands in mind, this sophisticated intraoral camera will improve patient communication, leading to higher case acceptance and better tracking of treatment.
- Excellent Image Quality: 8 White Light LEDs positioned around the lens provide bright homogeneous image quality
- Always in focus from 5-35mm making the camera easy to use and eliminating the need for further adjustments

Please see your DHPI Equipment Specialist for pricing and availability in your area.

CamX Triton HD

CamX Triton HD Interchangeable Head System - caries detection and intraoral imaging with autofocus and real HD image quality. From communication and caries diagnostics to documentation and tracking progress, we've got you covered. The CamX Triton HD system from Air Techniques provides valuable support in dental treatments and fosters patient understanding of your treatment recommendations

NEW

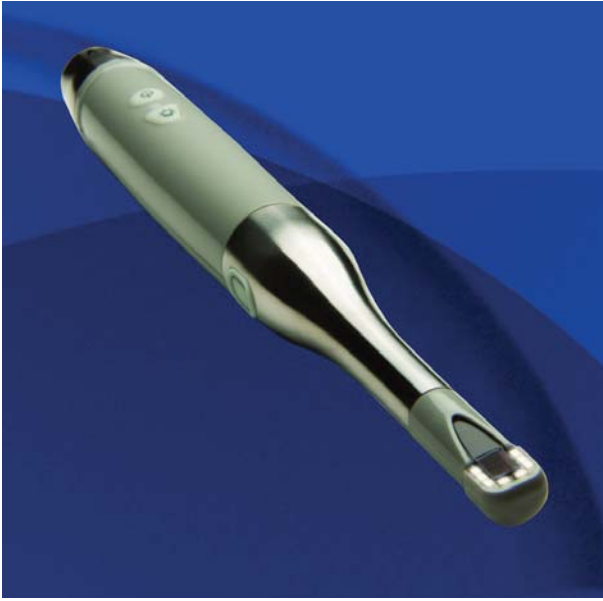

Iris HD

The new IRIS HD USB 3.0 brings the smallest details into brilliant full-screen high-resolution focus. With dual capture buttons and one-touch focus, control is always within reach. IRIS HD even knows to turn itself on and off when you pick it up or set it down. Extreme clarity in HD is obtained with the IRIS HD precision optical lens array and Sony's advanced HD sensor for the finest picture quality. A touch of the button and the newly designed electronic focus will advance automatically to the next focus mode, all five positions are shown onscreen. Equipped with a motion sensor, it will Auto-On when lifted and Auto-Off after ten minutes of inactivity. The streamlined soft-tip has brilliant 8-point LED lighting and a new tapered USB 3.0 connector that fits in a standard delivery unit.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

CAMERAS

**Iris LTE**

Bring the power of the new IRIS LTE Intraoral Camera into every operator. This precision optical instrument features an easy to use fixed focus system with dual capture buttons and a unique USB connector that fits in a standard delivery unit.

The elegantly streamlined profile has a smaller, specially designed soft-tip with brilliant 8-point LED lighting and with Sony's Hi-Resolution CCD, it produces the finest picture quality.

futudent»

EduCam HD

Futudent EduCam is the world's leading dental video solution created by top dentists for daily use in your practice. Capture everything you see, handsfree without interrupting your work. Take HD video and images and share your findings with patients and other dental professionals. It's the most easy-to-use, highest quality camera on the market and probably the only camera you will ever need.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

NEW

Wired & Wireless Cameras

Our goal is to make powerful technology more accessible, relevant and personal. The Polaroid Wired & Wireless Intraoral Cameras represent a new chapter in this relationship. Refine your case presentation and improve your patient education capabilities. Practical functions of our ultramodern intramural camera include angle rotation, a detachable head, caries detection and more. Take oral care to the next level.

Claris i4D

The award winning Claris i4D Intraoral Camera is the highest quality intraoral camera in the dental market. Designed and manufactured in Southern California by SOTA Imaging, the Claris i4D boasts a unique high end lens, hand control focus, and compatibility with almost all dental imaging software.

Features

- Precision optics with focal range of 1 mm-infinity for macro to full facial shots
- Precision controlled sliding focus
- 8 white LED lights
- Ergonomic hand-piece that weighs only 2.4 oz
- Silicon capture button for image stability
- Integrates seamlessly with almost all dental imaging software.
- Secure Monster® USB cable connection
- Light ON/OFF capability available with special order

CAMERAS

sun*i*

ImageMaster

The Suni ImageMaster intraoral camera continues Suni's commitment to providing high-quality digital imaging tools that help practitioners maximize their practices' diagnostic capabilities and workflow efficiency. With precision optics that produce crisp, high-quality images and an easy-to-use plug-and-play direct USB interface, Suni ImageMaster is designed to seamlessly integrate into your practice, allowing you to capture incredible images to educate your patients.

DrQuickLook™
DENTAL VIEWER

DrQuickLook SD

HD Camera with 6 super bright LEDs, choose from 3 resolutions with a simple TOUCH of the screen! Live survey, capture, zoom, and save countless "time-date" stamped images. Patient holds the viewer and will easily SEE what you SEE! Touch the screen and INSTANTLY review ALL saved images, zoom, move with your finger or delete unwanted images. Patients get involved and say yes to treatment, without the hassles that integrated intraoral camera's with USB cord can create. Drawn and undrawn images can both be saved, submit with insurance claim, transfer to electronic chart, or print. Reusable SD memory card, permanently save Time and Date stamped images in seconds. With a "single touch on the screen", do complete composite with occlusal views, lateral dental shots, anterior overjet, facial and more, then SAVE. Provides a LARGE image for patients to "see what you see". Great for Patient Education video's and slides. Charging SD PLUS with Rechargeable Li-Ion Battery. SD PLUS can charge overnight in countertop/wall mounted charger, plug in to any wall outlet. Up to 8 hours of continuous use. Battery life is up to 4 years and replacement is easy.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

SOPROCARE®

The SOPROCARE concept was developed to assist the dental professional during prophylaxis and periodontal treatment in the dental office. The camera utilizes unique fluorescence technology (SOPRO patent - 2003) to illuminate dental tissue to reveal caries, as well as plaque and tartar. In addition, SOPROCARE is the first product on the market to reveal gingival inflammation. In Daylight Mode, SOPROCARE can also be used as a camera, providing aUJ of the necessary tools to perform a complete and time efficient oral examination. The dental professional can now achieve complete prophylactic treatment with one device.

SOPROLIFE

ACTEON Group introduces SOPROLIFE, a new imaging fluorescence device aiding in the diagnosis and treatment of caries. The latest generation in dental imagery solutions, SOPROLIFE provides unsurpassed image quality.

SOPROLIFE functions "live" in three modes (Diagnosis, Treatment and DAYLIGHT) and are free from ultraviolet or ionizing rays. The auto fluorescence technology in SOPROLIFE allows you to detect occlusal or interproximal decay, even in its earliest stages, which can often be missed by the eyes or by x-rays. SOPROLIFE even allows you to differentiate healthy from infected tissue in order to excavate only the tissue which is diseased.

And thanks to its versatility (can be used with a simple monitor or any imaging software), sleek profile, and ease of use it will fit naturally into your dental practice.

CamX Spectra

- The only caries detection aid that uses fluorescence technology to visualize and discover caries earlier, as well as plaque and calculus.
- 4 Violet LEDs stimulate metabolic products found in cariogenic bacteria, causing them to glow red while healthy enamel glows green
- Caries and plaque filters in the imaging software show caries activity by means of a color scale and numeric evaluation
- Repeatable and reliable documentation for monitoring progress of caries due to the 8mm spacer

Please see your DHPI Equipment Specialist for pricing and availability in your area.

DIGITAL PROCESSORS

ScanX® Digital Radiography Systems

Digital Imaging Without Limits.

Your complete digital X-ray solution that works with ALL image sizes: 0, 1, 2, 3 and 4; Panoramic; Cephalometric; and TMJ. ScanX utilizes photo stimuable phosphor (PSP) technology. These wafer-thin, flexible and wireless PSP imaging plates provide ample comfort for every patient. Dentists are choosing PSP as their digital option due to its many advantages over film, including: faster image development; better clarity; greater convenience; no costly chemicals or processor maintenance; and paperless efficiency. Best of all, there is no need for special training, as workflow and placement technique are identical to film.

ScanX is available in 4 models to meet the needs of your practice

Classic

This do-everything four track system can read images simultaneously from 4 PSPs in seconds. ScanX Classic accepts intraoral PSP sizes 0, 1, 2, 3 and 4 and extraoral Pan, Ceph, and TMJ PSPs.

Duo

This small and efficient two track system is capable of reading images simultaneously from 2 PSPs. ScanX Duo accepts intraoral PSP sizes 0, 1, 2, 3 and 4 for patients of all ages and anatomies.

Intraoral

Centralized intraoral workhorse capable of reading images simultaneously from 4 PSPs. Accepts intraoral sizes 0, 1, 2, 3 and 4.

Swift

Chairside Imaging- this quick and efficient one track system is capable of reading intraoral PSP sizes 0, 1, and 2 for patients of all ages and anatomies.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

PSPIX Personal Imaging Plate Scanner

Combining revolutionary size, modern design and remarkable ease-of-use, the PSPIX represents the next level of PSP design, technology and function.

The PSPIX features a very small footprint, high quality and contrasted images, incredibly fast acquisition times and removable parts for easy sterilization. Tightly integrated with Sopro Imaging software, the PSPIX is available for both the Windows and OS X operating systems and can be shared across a local area network.

Because we care.

ClearVision® CR Digital Radiography Reader

Whether you are looking for a central reader or an affordable exam room based solution, the Midmark ClearVision® CR Digital Radiography Reader is the right choice for any practice. With its small footprint and elegant design, the reader fits seamlessly into even the smallest dental offices and exam rooms.

- LCD Screen—intuitively guides users through operations and offers image preview
- Magnetic Feeding Tray—push and go functionality is designed to ensure ease-of-use and perfect plate positioning
- Built-in Erase Function
- Full range of reusable plates come standard—including size 4C
- Progeny® Imaging Software is included with purchase to optimize acquisition, processing and image management

SOPIX²

The Sopix², digital x-ray system integrates the best of modern technology, including fibre-optic based CMOS, which ensures exceptional image quality. The ACE technology is a Sopro exclusive process that makes it possible to control the amount of x-rays accumulated by the sensor. It protects each image from overexposure and ensures that all your images are always clear. User friendly and compatible Sopix² will easily fit your practice whatever the configuration. Two sensor sizes have been proposed. In order to improved patient comfort, the corners of the sensor are rounded for easier placement inside the mouth.

DentiMax Dream

Affectionately termed the Dream Sensor, the DentiMax boxless sensors represent the latest in CMOS digital radiography, producing incredibly crystal-clear, film-like x-ray images. The DentiMax sensors' rounded corners and smooth edges make them the ideal sensor for patient comfort and patient compliance. Sensors are offered in adult and in youth sizes so as to provide the best fit for varying mouths. The adult size #2 sensor takes a large x-ray "footprint" while the youth size #1 sized sensor is the perfect fit for the smaller mouth. The sensors excel in every area, including: (1) Image Quality (2) Patient Comfort and (3) Hardware/Software Compatibility.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

GXS-700

The GXS-700, designed to make migrating from film, or upgrading a digital system, easier than ever. As the eighth generation digital sensor from Gendex, the GXS-700 system comes from a strong lineage of imaging excellence, raising the performance bar for other digital sensors.

- High quality image capture provides brilliant diagnostic results
- Advanced CMOS sensor technology enhances image quality, elevating technical and diagnostic capabilities
- High-performance sensor captures high resolution images, providing more than 20 visible line pairs per millimeter
- Two ergonomically designed sensors improve patient comfort
- Direct hi-speed usb 2.0 connectivity offers optimum portability
- Software integration and "always ready" image capture improves workflow

Because we care.

ClearVision®

ClearVision makes digital practice integration simple while delivering high quality images in a durable, patient friendly design. With direct USB 2.0 connection, there is no need for docking stations or adapters. Advanced CMOS technology optimizes resolution producing sharp, detailed images for immediate diagnosis.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

NEW

 **Polaroid**

Keren Sensors

Polaroid is proud to introduce its imaging product line the Keren & Keren HD intra-oral sensor. Superior image quality is guaranteed via high-definition, a theoretical resolution of >25lp/mm associated to 14 bit grey levels. Accompanying software further lends itself to image perfection as a color gauge on the finished image allows you to determine your optimal x-ray parameters. Additionally, image modification through standard software for the Keren HD, enables you to refine images through contrast, brightness and gamma values to your preference.

sota
 IMAGING

Clio

The Clio Digital X-ray Sensors are designed and manufactured in the world's leading facility of CCD and CMOS technology for guaranteed highest-grade imaging. These dental sensors have all the features and benefits that ensure a highly reliable product and deliver the best images in the industry.

Features:

- Direct Integration Technology
- Thin sensor hardware with rounded corners for maximum comfort
- Direct USB cable with no docking station
- Repairable USB cable for longevity of sensors
- Fiber optic plate sensors for low-noise ratio
- Largest active area for maximum coverage
- Fully waterproof sensor head with sealed cable and housing design
- USB connector: USB 2.0, USB 3.0
- Sensor Technology - Next Generation CMOS Fiber optic Sensors
- Maximum Gray Levels - 4096 (12-bit)

suni

Dr. Suni Plus

Dr. Suni Plus was designed to make the diagnostic process easy for doctors and comfortable for patients. The thinnest digital sensor in the world, Dr. Suni Plus is durably built—with an ultrasonically-sealed outer casing and reinforced cable attachment—without sacrificing patient comfort. Its versatile design and reliable performance allow Dr. Suni Plus to adapt to a variety of practice configurations making it the most flexible digital imaging system on the market. And as one of the few sensors available in a size 0 pedo-application, Dr. Suni Plus is the ideal solution for any practice.

- Patient Comfort. The thinnest digital sensor in the world, Dr. Suni Plus was designed for superior comfort with rounded corners that make positioning easy and allow the sensor to fit comfortably in the patient's mouth.
- Durability. A Bite Pressure Plate and Reinforced Cable Attachment make Dr. Suni Plus highly durable, allowing it to reliably withstand daily mechanical stresses. Dr. Suni Plus sensors also come with a full three-year warranty.
- Pedo Application. Dr. Suni Plus is one of the few intraoral digital sensors on the market that comes in a size 0—perfect for pediatric use. The rounded corners and industry-leading thin sensor design were crafted with younger patients in mind, for an easy and comfortable fit.
- Portability. Dr. Suni Plus was designed to take full advantage of its separate optical and electrical components. And because Dr. Suni Plus can be connected to each docking station without having to load the drivers each time a sensor is swapped, it's perfect for capturing full-mouth series where different sensor sizes are required.

HD Sensor

The HD Sensor is clinically usable at a wide range of exposure settings and is more consistent than all of the other sensors in the market. Practitioners benefit from a reduction of time consuming and exposure-related retakes. Also, patients benefit from the reduction of radiation exposure. With our high sensitivity sensor, you can capture diagnosable images under any condition, even when using an old X-ray source

Please see your DHPI Equipment Specialist for pricing and availability in your area.

X-RAY INTRAORAL

**XMind Unity™**

Discover X-MIND UNITY™, successor of X-MIND DC™, the famous bullet proof intraoral unit. With its elegant style coupled to the cutting edge patented ACE technology, X-MIND UNITY brings the standard of X-ray generator to a very new level. Perfect accuracy and patient protection are what no other X-ray system has been able to reach so far. With SOPIX Inside, the digital sensor connects seamlessly and effortlessly into the X-Mind Unity. SOPIX Inside digital sensors feature the patented ACE Technology and with ACE Technology, overexposed images are eliminated. Your patient will only receive the necessary and adapted dose to their dental morphology. The dose received by the patient after each exposure appears on the timer's screen. When used with SOPRO Imaging software, this dose is also recorded in the patient's file in SOPRO Imaging ensuring permanent traceability and recordkeeping. You can also single-handedly position and stabilize X-Mind Unity making adjustments effortless. The anti-vibration and anti-movement mechanism ensures drift free positioning during an exposure. This assures a perfect image every time, eliminating unnecessary retakes and further acquisitions. Both staff and patient are now protected from unnecessary radiation exposure.

**ProVecta HD**

ProVecta HD Intraoral X-Ray Perfect in function & design

- DC tube features a 0.4 mm focal point for maximum image sharpness
- The smaller the focal spot, the greater the contrast resolution, which provides sharper edge definition and finer details of internal structures
- ProVecta HD works with wired sensors, cordless flexible phosphor sensors (PSPs) and film
- Generator head handle allows precise positioning that stays in place
- Right-angle/parallel technology for precise alignment
- Adjustable mA and kV and exposure time
- Optional rectangular radiation field collimator
- DC technology allows constant radiation levels to ensure reliable image quality
- Our special generator head handle not only allows precise positioning, it makes the process more comfortable for both the clinician and the patient
- Choose from 3 Extended arm lengths: short (68"), medium (74"), and long (86")
- The DC tube reduces the patient radiation dose by more than 25% in comparison to conventional AC units, ensuring greater safety for your patients and staff
- This state-of-the-art unit's small footprint, coupled with its right-angle/parallel technology, allows it to work its magic in less space than less-advanced units
- Factory programmed dosage specifically set for each view of teeth when using ScanX flexible phosphor sensors (PSP)

Please see your DHPI Equipment Specialist for pricing and availability in your area.

NOMAD® Pro 2

Building upon the successes of previous innovation and design, the NOMAD Pro 2 provides the same mobile convenience and cost savings as previous models while also significantly increasing durability and performance. The Pro 2's newly designed battery handset, with infrared connectors, together with a new charging cradle improves the system's durability and boosts battery performance. Durability is further enhanced by a re-engineered user interface that is more scratch and moisture resistant.

PHOT-xlls

The PHOT-xlls DC Intraoral X-ray systems produces crystal clear radiographic images, while minimizing patient exposure to radiation.

- High frequency X-ray generator minimizes patient exposure to radiation
- Small, lightweight X-ray head facilitates easy positioning
- Individual and cumulative air kerma display settings aides operator staff with monitoring exposure radiation for patient safety
- Easy to use and compact microprocessor control module includes kV, mA, patient type, tooth type, cone type, film speed, exposure time and digital-ready selection switches
- Automatic and manual modes for optimal selection of parameters for each patient and tooth type
- 36 programmable time settings
- PHOT-xlls Intraoral X-rays include standard wall mounting plate or can be ordered with optional 4x4 stud/pass-thru mounting plate
- NEW Holder for digital imaging sensors

Please see your DHPI Equipment Specialist for pricing and availability in your area.

MaxRay

MaxRay offers a lightweight, truly portable, FDA-approved alternative to traditional x-ray machines. Weighing only 4.4lbs you can easily take x-rays anywhere and everywhere you go! MaxRay is 100% FDA-approved and meets all FDA standards for hand-held use. MaxRay features a permanently attached, extra long cone to protect the operator and the patient from unnecessary radiation exposure and a lead infused back scatter shield to protect the operator from potential back scatter.

Iridium Dental puts safety first, which is why the MaxRay was designed with patient and operator safety in mind. The MaxRay produces significantly less radiation than wall-mount units. This is particularly ideal for instances such as Pedo, Endo or Oral Surgery, where the operator may need to be in the room to position the sensor or secure the patient.

Add the optional rolling stand and remote switch and your MaxRay hand-held becomes a full-featured mobile x-ray machine.

Because we care.

Preva DC

Preva DC is a high frequency intraoral X-ray system that provides exceptional image quality. The smooth, drift-free arm is balanced in the factory, and a proprietary braking system provides drift-free positioning. The Preva's 0.4 mm focal spot allows for visibly higher resolution images when using digital receptors, phosphor plates or film. Only Preva DC offers such a powerful combination of features designed to provide incredible flexibility, razor-sharp images and years of productivity.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

RXDC HyperSphere

RXDC HyperSphere Plus incorporates an ergonomically advanced touch-activated positioning technology and the freedom of wireless control.

HyperSphere technology: Locked and unlocked by 2 touch-sensitive areas, the tube head revolves freely around the spherical ball-joint, enabling freedom and precision in terms of positioning.

Easy controls: The wireless control device, which can be attached to any available surface in the surgery, offers a full range of intuitive exposure scenarios designed to make correct X-ray acquisition a straightforward process.

MyRay Multi-Mode: The most appropriate combination of technical factors (kV, mA and exposure time) is automatically determined according to patient size and anatomic region of interest.

Precision imaging: Excellent parallelism ensured by the incorporated 30 cm (12") collimation, combined with a 0.4 mm focal spot, places RXDC at the top for image definition quality.

EzRay

The Efficient functionality Intra Oral X-Ray for All Dental Specialists

- Make your practice extraordinary
- Secure Clear Image
- Intuitive & Easy to use operating panel
- Reliable Design for Easy & Stable use
- Sophisticated Design

Please see your DHPI Equipment Specialist for pricing and availability in your area.

X-RAY 2D/3D PANORAMIC

NEW

The ACTEON logo, featuring the word 'ACTEON' in a bold, sans-serif font with a blue swoosh underline.

X-MIND® TRIUM

ACTEON® presents its new X-MIND® TRIUM panoramic dental unit which can be upgraded to 3D (CBCT) and/or cephalometry. It has a full range of medium FOV sizes to facilitate 2D and 3D examinations. X-MIND® TRIUM is equipped with an acquisition and reconstruction algorithm which ensures a perfectly uniform and high quality image on all visual axes.

The AIR TECHNIQUES logo, featuring the words 'AIR TECHNIQUES' in a bold, sans-serif font with 'equipped for life™' in a smaller font above 'TECHNIQUES'.

ProVecta S-Pan

The Air Techniques ProVecta S-Pan revolutionary technology delivers unmatched sharpness with unmatched ease. The S-Pan automatically selects the sharpest areas, resulting in sharper images and faster, easier diagnosis. From a single exposure, the S-Pan acquires 20 layers of images and slices them into 20,000 fragments. The best are selected and compiled to generate a single, exceptionally sharp panoramic image--automatically!

- Diagnostic information is sharply displayed, including the mandibular canal and bone structure
- Uses a CsI sensor for better image quality and reduced radiation
- Panoramic images for adults within 7 seconds
- 17 X-ray programs for ease of diagnosis, including 2 sinus for paranasal sinuses
- The child modes reduce the dose by 45-56% and shortens the scan time
- Face-to-face positioning uses 3 positioning laser lines and X-ray transparent temple holders
- Audio announcements for staff and patients
- 7" touch-display for intuitive operation
- Long vertical path accommodates tall patients and wheelchair users

» pricing and availability in your area.

ProVecta S-Pan Cephalometric X-Ray

Quick cephalometric X-ray images with excellent image quality are achieved with the new ProVecta S-Pan Ceph and with the lowest possible dose. The two high-end CsI sensors – for panoramic X-ray and Ceph projection – already integrated in the unit eliminate the time consuming switching of the sensor, and thus the risk of damage. All this makes ProVecta S-Pan Ceph the ideal X-ray solution for your practice.

- Low X-Ray Dose – High Efficiency
- Very fast scan in 4.1 seconds (lat. head)
- Excellent image quality
- Low radiation dose
- 17 panoramic programs + 5 cephalometric programs for Head lateral L, PA head, SMV, Waters view and Hand

Bel-Cypher N

Simple to use and affordable, the Bel-Cypher Digital X-Ray System produces outstanding panoramic, TMJ, and bitewing imaging.

- Digital panoramic (child, adult), 4 view lateral, and bitewing (child, adult) imaging.
- High frequency X-Ray generator minimizes patient exposure to radiation
- Three-laser beam alignment system for correctly positioning patients mid-sagittal, frankfort, and focal-trough planes
- Sharp images can be obtained, even with mild positioning errors
- Fast 10 second scan time

Please see your DHPI Equipment Specialist for price

X-RAY 2D/3D PANORAMIC

**GXDP-300 & 700™ Pan Series**

The GXDP-300 incorporates the features you are looking for with the most commonly-used imaging modes: a simple, three-step pan process. With the GXPD-300 panoramic x-ray system, you get exactly what your practice needs—great-looking images at a competitive price.

The GXDP-700 is a modular system, upgradable from 2D panoramic to Cephalometrics or 3D Cone Beam with flexible field-of-view, or both. As you need it, you can increase your imaging capabilities to complement general preventative care, extractions, implants, endodontics, and orthodontics. You have the freedom to upgrade on your timeline and within your budget for seamless and affordable expansion.

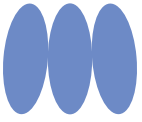

**Veraviewepocs 3D R100**

J. Morita's new completely unique full arch field of view (FOV) abandons the typical cylinder with a new convex triangle shape. By more closely matching the natural dental arch form, this groundbreaking FOV reduces dosage by excluding areas outside the region of interest. And, as with all Morita X-ray units, you won't believe the image clarity and diagnostic capability.

Features:

- 3D, panoramic, and cephalometric capabilities
- New 3D Reuleaux Full Arch FOV offers a full arch scan
- New Dose Reduction Feature lowers X-ray exposure 30% to 40%

Please see your DHPI Equipment Specialist for pricing and availability in your area.

MORITA

Veraview IC5 HD

Veraview IC5 HD offers high speed, exceptional clarity, and low dosage. The new 10 second panoramic scan captures an even higher resolution image with a 25% reduction in pixel size. Additionally, it features a 5.5 second panoramic for a quick examination. Digital Direct Auto Exposure automatically sets kV and mA and provides continuous, real-time adjustment of the parameters throughout the pass to compensate for varying densities. The result is exceptionally clear images with the best possible contrast.

Features

- NEW 10 second panoramic for exceptional detail & clarity
- High speed 5.5 second panoramic
- Low dosage
- Fully automatic, simplified operation
- Digital Direct Auto Exposure provides real-time adjustment of exposure levels
- Pediatric function offers 4.8 second panoramic with further reduced dosage
- Compact, lightweight & energy efficient

MORITA

Veraviewepocs 2D

Morita's cutting edge technology features extremely high quality images with low exposure. Veraviewepocs 2D is completely upgradeable to our Veraviewepocs 3D model. This unit also features the NEW High Definition (HD) cephalometric update.

Veraviewepocs 2D offers crystal clear panoramic and cephalometric images with low effective dose. Designed for versatility, the 2D model can be upgraded to 3D at a later date.

With fully automatic settings, Veraviewepocs 2D is easy to operate. This unit features a variety of options and specialized programs such as the Orthoradial Panoramic projection, which reduces the overlapping of neighboring teeth, and the Shadow Reduction Panoramic projection, which reduces obstructing shadows. Patient positioning is also easy with AF Automatic Positioning – a light beam sensor automatically positions the C-arm without requiring the patient to move.

For accurate diagnosis and analysis, Veraviewepocs 2D offers high definition, refined imaging processing with multi-plane observation.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Because we care.

Progeny Vantage®

The Progeny Vantage Digital Panoramic System has been designed to improve the way you work. With a full featured, Windows computer integrated into the VantageTouch operator panel, Vantage gives you the flexibility to prepare and deliver diagnostic images chairside, allowing you more time with the patient for consultation and image review. Vantage boasts an exceptional array of features, from ease of exam set up to positioning assistance with VantageTrust, to support efficient imaging work flow in your practice and to provide better patient care.

- Preview image on the VantageTouch operator panel
- Five pre-programmed exam choices including bitewing
- Open, compact design optimizes space requirements
- Ceph upgradeable for expanded extra-oral exam capability

Because we care.

Progeny Vantage® C

The Progeny Vantage® C is designed to meet your practice needs. Progeny Vantage® C is available with two sensors—panoramic and cephalometric for optimal examination efficiency, or with one sensor when the clinic requires occasional cephalometric exams. Purchase a Progeny Vantage® Panoramic System knowing that you can add the cephalometric option in the future. Enhanced by the exclusive Clarity Enhanced Imaging Filter Set, Vantage C provides soft tissue visualization for the detailed patient profiles necessary to identify the bony and soft tissue landmarks. These critical points of reference are essential for accurate measurement in orthodontic patient treatment care planning.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Hyperion X5

Hyperion X5 needs a minimum operational space, the same as an intraoral X-Ray. The captivating form and the elegant lines make it an agreeable element capable of adding value to your practice. Hyperion X5 does not clutter and blends into your environment.

- Smallest unit available on the market
- User friendly interface allows 15 HD, 2D images in just a few steps
- Installation is both time & cost efficient
- MRT feature eliminates exposure parameters

Hyperion X9 3D CBCT Scanner

The X9's 3D CBCT module is available with 11x8 or 11x5 cm image detector and a variety of fields of view including 5x5cm. SafeBeam technology automatically calculates the lowest possible dosage based on patient anatomy and scan modality. A 16bit detector and 75µm voxels allow for unmatched detail and clarity. Hyperion's super-charged NNT 4.0 clinical software comes with pre-stocked implant library to simulate implant placement. High-speed processing, specialty-specific user interfaces, and DICOM exporting for third party applications will please users regardless of their specialty.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Excelsior 3D CBCT

The PreXion Excelsior advances all CBCT core technologies including the X-Ray Tube and FPD. The Excelsior couples the smallest focal spot (0.3 mm) with the following: voxel size of 0.1 – 0.2; 1024 volume size; 360° gantry rotation; 16 bit grayscale; and advancements in the PreXion software – resulting in unprecedented diagnostic clarity. In addition, the PreXion Excelsior can deliver 30% lower patient dose without compromising the image quality.

The PreXion Excelsior has 4 fields of view (FOV), 48 preset scan mode options, bitewing capture, TMJ capture, and the optional Cephalometric. Direct applications include relevancy in implantology, orthodontics, oral surgery, periodontics, endodontics, TMJ, airway analysis, and ENT.

The PreXion software flawlessly integrates into the office network without any specialized hardware. The PreXion3D Viewer can be installed on any Windows PC on the network, allowing scans to be viewed from any computer (with no additional or annual viewer licensing fees). The PreXion Excelsior Pro has a 7 year parts warranty available.

PaX-i3D Green

- Real Low dose with high quality images
- 5.9 second Rapid Scan time produces superb image quality
- Optimized multi FOV: 15x15, 16x10, 12x9, 10x8, 8x8, 8x5, 5x5
- Easy and simple Software : Intuitive user-interface and powerful consulting tools

Please see your DHPI Equipment Specialist for pricing and availability in your area.

PaX-i

PaX-i : Digital Pano ONLY

PaX-i SC/OP: Digital Pano + Ceph

- Scan Type: Scanning Type (LAT/Full LAT) & One Shot Type (Small/Medium/Large)
- Superb Image Quality
- 2 Dedicated Sensors for Pano & Ceph
- Various Capture Modes
- Stable & Easy to Use
- Simple & Compact Design

PaX-i3D

- 3 Dedicated Sensors: True Pano + True Ceph + CT
- Optimized multi FOV: 12x9, 8x8, 8x5, 5x5
- Scan Type: Scanning Type (LAT/Full LAT) & One Shot Type (Small/Medium/Large)
- Analyze 3D images with advanced tools and functions. Ez3D supports effective and efficient communication with your patients
- Various 16 Capture Modes in panoramic including bitewing

Please see your DHPI Equipment Specialist for pricing and availability in your area.

K66 Rear Treatment Console

The K66 Left/Right Rear Treatment Consoles offer open accessibility to the cabinet central work area and a 2-way left-right sliding work surface. All doors are hinged to open away from operators to permit unobstructed access to storage.

Standard Features

- Interchangeable panel fronts for Delivery System Controls and Analgesia
- Central upper storage compartment with ventilation grill for CPU
- Left-right sliding monitor mount on upper section
- LED task lighting with dimmer control
- Stainless steel covered base with leveling feet
- Soft-close hinges
- Stainless steel hardware
- (2) Duplex electrical outlets with (1) grommet
- Utility Column front panel for easy access
- Space for LR Delivery System (BDS2561 Doc/Asst or BDS2563 Asst. Instrumentation)
- Options include: Stainless Steel Toe Base and Additional Upper Storage Glass Shelf

Please see your DHPI Equipment Specialist for pricing and availability in your area.

D4RH Split Entry Console

The D4RH Center Island Cabinets provide privacy, plenty of accessible storage space and cost savings by reducing construction expenses and allowing a single intraoral X-ray to be shared between adjacent operatories. Cabinetry height measures 86".

- Round end section with sink
- Stainless steel covered base with leveling feet
- Door noise reduction system
- Stainless steel hardware
- Laminated pass-thru upper storage with windows
- Dual flip down door storage with duplex outlet
- Paper cup, towel dispenser, single or dual glove dispenser
- Sink with soap dispenser
- Waste receptacle with basket
- Dual Knee Activated Faucet
- Pull out writing surface
- ITS/ETL pre-wire"

Please see your DHPI Equipment Specialist for pricing and availability in your area.

N7220 Central Divider

Standard Features

- Sink & waste module featuring oval integral sink, foot activated faucet, white faucet & soap dispenser and waste ring
- 4 drawer module to assistant's side
- Metal x-ray wall frame with 2 outlets
- 4 drawer appliance module to doctor's side
- Pass-thru storage cabinet with adjustable shelf
- Cup and towel cabinet with cup and towel dispenser, adjustable shelf and 2 glove dispensers in door
- Upper storage pass thru with adjustable shelf
- Bi-fold x-ray enclosure
- Water resistant base assembly
- Fully customizable

BIOTEC

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Platinum Collection

Biotec's Platinum Collection of cabinets gives you a premium style cabinet, without the premium price. Highly stylish and efficient cabinets do not have come at a high price. Biotec is best known for durable custom cabinets at a budget price level. The Platinum Collection of cabinets give an efficient environment for the provider. The features give an elegance to any operatory setting.

- Water Resistant 6" Base Assembly, guaranteed against water damage
- New Grohe fixtures all knee activated faucets.
- ETL Listed product with Pre-wired hospital grade outlets and USB outlets
- Integrated doctors and assistants controls are available
- Illuminated work surface is standard
- Beveled Upper doors with options for CPU storage
- Center Console with hidden storage and room for nitrous flowmeter and room for cable drops
- Solid Corian worksurfaces

DentaleZ® Equipment Solutions

NextGen® Elite Team Workstation

The heart of the dental operator is the NextGen® Elite Team Workstation and its pivoting work surface that holds both doctor and assistant instrumentation. NextGen® Elite Team Workstation 42" wide by 20" deep. Quality dental cabinets designed specifically for you!

Standard Features

- Upper storage module with glass panels for quick viewing of contents with optional pass-through.
- Clock timer for display of time-of-day and date and ability to time multiple procedures.
- (2) Duplex outlets built-in to internal powder-coated aluminum trim to accommodate ancillary devices.
- Drop-down pull-out front drawers for storage and easy access.
- Center nitrous storage area for easy access to rubber goods.
- Workstations available in any color choices and solid surface countertop options.
- Stylish powder-coated aluminum trim provides durability
- Sub-base with adjustable feet for leveling cabinets

Please see your DHPI Equipment Specialist for pricing and availability in your area.

DentaleZ® Equipment Solutions

NextGen® Elite Dual Access Workstation

Elite Dual Access Workstation with X-Ray bi-fold door (Model C) laminate tops, stainless steel round sink, standard lever faucet, 109" long. The dental cabinet choice for your open bay operator, the Dual Access Workstation offers the following benefits:

- Aesthetically pleasing rounded sink with solid surface dome.
- Numerous storage areas including doctor/assistant readily used accessory item drawers, customized storage area for any combo of doors and drawers, X-ray apron area and X-ray accessory items area.
- Shared upper storage area for trays, tubs, or operator supplies with glass door panels for easy viewing.
- Standard with tapmaster foot-activated faucet or optional infrared controls on faucet and soap for hands-free on/off eliminate spreading of germs.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Beckenridge Center Console

The center consoles come standard with glove, cup and towel dispensers, a sink base cabinet for additional storage, upper storage pass through cabinets, base storage cabinets, a concealed x-ray cabinet, and equipment area storage under the x-ray cabinet. Shown below is our standard unit. There are over 1000 laminate colors available to suit your needs.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Boulder Rear Delivery

The rear delivery units come standard with pass-through upper cabinets, three base cabinet sections - each customizable to your needs. Shown below is our canyon model followed by several other rear delivery units we have to offer. These samples show some of the color options available from the over 1000 laminate colors available.

Artizan® Expressions Treatment Stations

- Available in three design series, each with their own configurable options
- A slim midsection, floating glass shelf and cantilever forward upper profile, give the treatment station shape while freeing up valuable countertop space
- Adding the option of resin allows the upper cabinet face to become an expressive focal point
- Ultraleather and stainless steel accents complement the cabinetry's stylish appearance, giving it a high-end feel
- Monitor mounts, USB, ample electrical outlets and dedicated CPU storage options are available to help accommodate equipment or technology needs

Because we care.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Artizan® Expressions Central Stations

- Available in 72" and 90" heights
- Multiple storage options available for each cabinet zone to match your operatory support requirements
- Vanity front feature mirror, soft accent lighting, a sleek touch/proximity faucet and a recessed cantilevered sink
- Ultraleather™ and stainless steel accents complement the cabinetry's stylish appearance, giving it a high end feel

Because we care.

HANDLER

RED WING INTERNATIONAL

Pro Tech Lite Work Station PTL-211

The PTL-211 CAD/CAM is the newest family member of Handler's Pro Tech Lite platform of work stations. PTL-211 CAD/CAM is a sensible and elegant design that combines art & engineering. It is a compact, stylish and affordable CAD/CAM computer operator work station that enables the technician to use a computer efficiently and comfortably. PTL-211 CAD/CAM is manufactured in the USA of sturdy oven cured powder coated steel with solid Resistop work surface. Color options are colonial white, eagle white, designer beige, warm gray, merlot and blue heaven.

Features and Benefits

- Solid steel construction for years of efficient use in the lab.
- Compact design can fit almost any space.
- Affordable price fits any budget.
- Two 2" drop holes to keep electrical wiring off the work surface.
- Three separate storage drawers.
- Wrap around back splash to help keep prosthetics and other items from falling off the bench.
- Leg levelers.
- No installation required.
- Several color options available to match any lab design.
- Monitor mounting bracket.

HANDLER

RED WING INTERNATIONAL

Pro Tech Lite Petite Plaster Bench PTL-231

Pro Tech Lite is a sensible design that combines art & engineering. It is a compact, stylish and affordable plaster bench that provides adequate work space for the dentist or lab technician to pour models and trim models using a model trimmer. The installed sink and gooseneck lab faucet is convenient and necessary for plaster operations. PTL-231 is manufactured in the USA of sturdy oven cured powder coated steel with solid Resistop work surface. Color options are Colonial White, Eagle White, Designer Beige, Warm Gray, Merlot and Blue Heaven.

Features and Benefits

- Solid steel construction for years of efficient use in the lab
- Compact design can fit almost any space
- Affordable price fits any budget
- Factory installed Resistop sink and gooseneck lab faucet with paddles
- Leg levelers
- Several color options available to match any lab design
- Optional in drawer plaster bin
- Optional hands free kick plate for water activation
- Model Trimmer sold separately
- No assembly required, simple plumbing installation required

Please see your DHPI Equipment Specialist for pricing and availability in your area.

NevinLabs™ Workstation Solutions

ErgoTech™ Workstation

Features

- Dependable, steel construction with powder coated finish
- Personal bench height options of 34", 32", and 30"
- Adjustable arm rests that move side to side
- Variable speed dust collector with automatic or manual settings
- Modern, removable dust hood with shield
- Motor control panel with illuminated power switch and indicator lights
- Stainless steel scrap drawer
- Choice of 3 drawer sizes
- Gas valve and retractable air blowgun
- Single, back to back, side to side, and custom
- Shipped partially assembled, pre-piped for gas/air, pre-wired for electric, does not include final hook-up
- Task lighting and magnifying lens*
- Solid ½" work surface*
- Lab handpiece*

*Optional features

NevinLabs™ Workstation Solutions

Freedom™ Workstation

Functional features to make your work easier and more precise

- Individual dust collecting system with removable suction hood and safety shield
- 1/2" Solid Surface (Shown but quoted separately)
- Removable, stainless steel scrap drawer
- All steel construction with durable scratch and chip resistant powder coating finish
- Single workstations, pre-piped for gas and air, pre-wired for electricity
- AGA approved gas valve for Bunsen burner
- OSHA compliant air blowgun
- Drawer storage cabinet with steel roller bearings
- Case pan shelf
- 2X magnifying lens*
- Generous size magnetic stainless steel top saver*
- Removable, adjustable arm boards*

* Optional Features

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Quolis™ Q5000

The Quolis® Q5000 chair has a sleek and fluid appearance, incorporating a seat positioning system that gently glides patients into treatment position. The thin and narrow backrest design allows doctors and assistants to work comfortably and efficiently.

- Quolis® shockless seat movement hydraulic system smoothly and gently glides patients into desired treatment position, reducing patient stress and anxiety
- Synchronous movement of backrest and seat perfectly fits the patient's natural body motion
- Built-in armrest seat positioning controls
- Articulating dual axis headrest accommodates the anatomy of each patient
- 60° left-to-right seat rotation with electronic lock
- Swing out armrests
- Wide backrest or slinged armrest models available
- Option of seamless or plush upholstery
- Slinged armrest upholstery available
- Choice of Standard Vinyl or Ultraleather®

X-Calibur B50N

The B50N Dental Chair carries forward the Belmont traditions of excellence in reliability, durability and patient comfort.

- Dual axis articulating headrest accommodates the anatomy of each patient
- Swing-Away Armrests
- Built-in Chair Back Membrane Controls on Doctor's and Assistant's Side: Programmable Positions for Base Up/Down, Backrest Forward/Recline, and Programmable Auto-return Position
- Option of Seamless or Plush Upholstery
- Slinged Armrest Model Available with Upholstery Choices
- Choice of Standard Vinyl or Optional Ultraleather®
- Narrow, thin backrest for excellent access to the patient oral cavity

Please see your DHPI Equipment Specialist for pricing and availability in your area.

PRO II 037N

The PRO II Dental Chairs incorporates a unique folding legrest feature that permits doctors to communicate with, and access seated patients face-to-face. The PRO II is ideal for obtaining accurate and consistent occlusal records, prosthetic dentistry, cosmetic dentistry and general dental procedures. Its compact footprint makes it suitable for both small and large operatories, with easy accessibility for patients with disabilities.

- Roll out/folding legrest
- Patient sits with feet on floor & with backrest upright for assessment of jaw alignment
- Wide backrest design for improved patient comfort and support
- Articulating Dual Axis Headrest accommodates the anatomy of each patient
- Swing-Out Armrest delivers easy accessibility for patients with disabilities
- 220° Left-to-Right Seat Rotation with Locking Foot Pedal
- Choice of Standard Vinyl or Ultraleather®

Belmont

Evogue Delivery System

The EVOGUE Delivery System maximizes patient treatment productivity through efficient positioning of the delivery head and unhindered line-of-sight access to handpiece controls; even when working around patients in the twelve and one o'clock positions.

- Delivery head rotation gives practitioners the ability to fine-tune access to handpiece instruments, in relation to where they are seated, for more ergonomic & stress free patient treatment
- 3 Handpiece control
- Integrated Belmont chair seat positioning control touchpad is centrally located on the delivery head, so left-handed or right-handed practitioners have easy, line-of-sight access to controls during patient treatment
- Individual handpiece air and water coolant adjustment controls
- Optional integrated accessories such as a micromotor, handpiece fiberoptics & scaler can be attached & controlled from the delivery head, reducing typical operatory clutter associated with multiple stand-alone accessories

Belmont

QDU Delivery System

The Quolis® Delivery Systems are beautiful, rugged and jam-packed with features to optimize operatory efficiency and provide enhanced utilization of Quolis® Q5000 chairs.

- 3 Handpiece control
- Foot control
- Delivery head rotation gives practitioners the ability to fine-tune access to handpiece instruments, in relation to where they are seated, for more ergonomic & stress free patient treatment
- Digital display with integrated multi-control function panel reduces typical operatory clutter associated with multiple stand-alone accessories
- Individual handpiece air and water coolant adjustment controls
- Handpiece flush switch
- Individually adjustable handpiece holder angle provides a dimension of flexibility for assistants, so they can comfortably set instrument positions within convenient and easy reach

Belmont

BDU Delivery System

The BDU Series delivery systems focus on providing superb value for the growing dental practice that requires high quality and feature-rich dental units for their operatories.

- 3 Handpiece control
- Wet/dry foot control
- Individual handpiece water coolant and master air coolant adjustment controls
- Handpiece flush switch
- Individually adjustable handpiece holder angle
- Oil mist separator
- Master On/Off switch
- Air/Water Syringe (on Doctor's & Hygienist's delivery systems)
- Balance arm with pneumatic brake
- Pre-wired delivery system for adding optional accessory devices
- Bottled water system with bottle quick disconnect & City/Bottle selector switch
- Safety break-away telescoping assistant instrument arm with 4 position holder (Cuspidor/PMU models)
- Assistant syringe, HVE and SE (on Cuspidor/PMU)
- Air and water quick disconnects with outlet flow control (on Cuspidor/PMU models)

HYDRIM C61w G4

- Countertop or under the counter, steri-center installation.
- G4 web portal includes data storage, service logs and remote access capabilities
- Validated cycles to ensure repeatable washing performance
- Improved serviceability, reliability and minimal maintenance requirements
- Vivid color touch screen
- Robust stainless steel exterior
- USB port for data storage
- Active hot air drying

Hydrim Cleaning Solutions

For use with the C61wG4
 571-CSHIPCU 8-750mL/case..... **\$151.95**

HYDRIM L110w G4

Hydrim L110w is an instrument washer specifically designed for larger dental practices. The Hydrim L110w automatically removes debris from instruments, reducing the time, effort and risk associated with manual and ultrasonic cleaning.

The Hydrim L110w is designed to get instruments clean - very clean - as any residual debris left on instruments may impair sterilization. By virtually eliminating debris on instruments, the Hydrim L110w effectively promotes sterilization.

Hydrim Cleaning Solutions

For use with the L110w.

AdvErL Evo Er:YAG

AdvErL Evo is ideal for periodontal treatment. As an Er:YAG laser, the wavelength is readily absorbed by water and efficiently vaporizes soft tissue. Versatile, this unit offers a wide variety of tip options with an extensive selection for perio procedures. Its lightweight and flexible cable and powerful settings are also ideal for this specialty. Applications include removal of subgingival calculus, diseased, infected, inflamed and necrosed soft tissue within the periodontal pocket, subgingival calculus, and granulation tissue from bony defects. It may also be applied for soft tissue curettage, sulcular debridement, and osseous crown lengthening.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Photon

The Photon 3 Watt is the ideal Dental Laser, boasting 810nm diode flexibility, complete portability, built-in tutorials and the best multi-lingual interface on the market. Enjoy the flexibility of the 20 Pre-Set programs which may be tailored to fit your personal needs.

- 20 Customizable Programs
- Large LCD Screen and Long Battery Life
- Digital Password Protection
- Wireless Foot Pedal
- Disposable Tips
- Adjustable Aiming Beam
- Continuous or Pulse Mode
- Easy to Carry and Store

The Photon Laser was designed to be your surgical dental device of choice to perform a wide range of oral soft tissues and tooth whitening procedures. The use of Dental Lasers for curing gum inflammation and infection is highly recommended and is also a reliable and instant cure for a number of other periodontal ailments.

Photon Plus

The Photon Plus 10 Watt immaculate dental laser with 980nm diode versatility and complete portability has built-in tutorials and the best multi-lingual interface.

The large LCD touch screen for ease of navigation and a menu containing several programs that are both pre-set and customizable, makes the new Photon Plus dental diode laser unparalleled. It is perfect for tooth whitening or bleaching without any menace of cross infection.

- Portable power module can work wirelessly 4 hours
- Password protected feature provides great security
- 3 year warranty
- Touch interface and Wireless Foot Pedal highlight just a few of the advanced features
- More than 20 Preset Procedures and Multiple Customized Programs
- 3 levels of aiming beam intensity
- Continuous or Pulse Mode

Intended uses

Excision, Incision, Coagulation, Removal of Fibroma, Granulation Tissue, Soft Tissue Crown Lengthening, Canker Sores, Bleaching, Tooth Decay, Discolorations and Oral Soft Tissue dental procedures!

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Bel-Halo LED

The Bel-Halo LED Operatory Light produces cool, natural light with high color rendering performance for correct tooth shade matching and for differentiation of soft tissue. Stepless light intensity can be adjusted to fit operatory ambient light conditions.

- Unique circular LED array provides cool white light that is excellent for tooth shade matching and differentiation of soft tissues
- Easy on the eyes - stepless intensity control adjusts oral cavity illumination to fit ambient lighting conditions within the operatory
- Shadowless illumination - even with 50% obstruction between light and patient
- 5000°K color temperature approximates natural daylight at all intensity settings
- Long LED life and low power consumption add to operatory efficiency
- Touchless On/Off and Composite Safe Mode controls minimize the potential for operator cross-contamination, by reducing physical contact with the light surfaces
- Smooth, 3-axis light head rotation for easily directing illumination where it is needed
- Special mirror option provides dental staff with a means of providing patients with a visual communication of oral cavity conditions
- Available in post mount, swing mount, ceiling mount, track mount, cabinet mount, wall mount and curved post models

Clesta LED

The Clesta LED Operatory Light perfectly blends the technology of the award winning Bel-Halo LED Operatory Light with the proven, long-term success of the Clesta Halogen Light to provide a powerful new tool for every dental practice.

- Five LED array provides cool white light that is excellent for tooth shade matching and differentiation of soft tissues
- Step-less light adjustment provides operators with the ability to fine-tune illumination to fit individual operatory lighting conditions
- Shadowless illumination - even with 50% obstruction between light and patient
- Touchless On/Off and Composite Safe Mode controls minimize the potential for operator cross-contamination, by reducing physical contact with the light surfaces
- 5000°K color temperature approximates natural daylight at all intensity settings
- Long LED life and low power consumption add to operatory efficiency
- 3-Axis light head rotation provides operators with the flexibility to direct illumination precisely where it is needed within the patient's oral cavity
- Available in post mount, swing mount, post mount, ceiling mount, track mount, and curved post models

Please see your DHPI Equipment Specialist for pricing and availability in your area.

DCI Edge

Series 4 LED Light

New LED light features an innovative, durable design & breakthrough LED technology to delivery next level lighting performance. The brand new design blends innovation with beauty on every level, redefining what you should expect from an operator light. DCI's heavy-duty metal structure and handle design along with high quality components demonstrate a strong commitment to building the highest quality dental equipment.

Standard Features

- Available in both white & gray to match your existing operator equipment
- Available in multiple mounting options including track, ceiling, and post mount
- 3rd Axis Rotation for improved positioning
- Dual Membrane Integrated Touch Controls allow you to easily access and control three intensity settings of 17,500, 26,000 and 35,000 lux

NEW

DCI Edge

Series 5 LED Light

Affordable LED Technology

- The reflective technology of DCI's LED Light provides uniform light pattern, less eye fatigue and accurate shade matching.
- Available in both white and gray colors to match existing operator equipment
- Mounting configurations include: post mount, track mount, ceiling mount and system mount.
- 5 Year Warranty to support your investment

Advanced Features

- No Cure Setting
- 3 Intensity Level Settings
- Programmable No-Touch Sensors

Please see your DHPI Equipment Specialist for pricing and availability in your area.

DentalEZ® Equipment Solutions

EverLight® LED Operatory Light

- Operatory light with 100% true direct LED technology using no reflectors or fans
- Consumes 70% less energy than halogen; lowers bills
- Lasts 10 times longer than halogens
- Natural daylight illumination provides clearer oral cavity visibility
- 9 color/intensity settings to meet all your operative needs, including color matching and composite modes
- Cool, white, direct lighting at 6,000K
- Choose your light intensity: 15,000 – 25,000 – 30,000 LUX

DentalEZ® Equipment Solutions

CORE LED Light

The Core LED light is equipped with three light intensity settings (10,000, 20,000 or 30,000 LUX) and no-touch operation. The handles can be repositioned 360° and can be autoclaved.

- Pattern
- Magnetic Handles
- Hands-Free
- Programmable Sensor
- Kelvin Color Temperature
- Easy Cleaning

NEW

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Because we care.

LED Operatory Light

Features

- Cool, quiet operation - efficient design eliminate the need for noisy cooling fans
- Soft feathered edge on light pattern de-signed to help reduce eye fatigue
- True composite safe setting: Midmark uses filters to remove the 470 nm blue light known to cure composites
- Touchpad control designed to offer three intensity settings as well as composite safe mode
- Available as chair mount, ceiling mount, cabinet mount, wall mount or track mount configurations

Because we care.

Dual Track Light & Monitor

Features

- Monitor positioning designed to allow for overhead viewing during procedures or chair side viewing for consultation
- Designed to allow for seamless integra-tion of PC, TV, and DVD with inputs in-cluding VGA, HDMI, coaxial, 3.5 mm au-dio, S-video, and RCA composite.
- Dual trolleys and counterbalanced flex arm designed to offer uncompro-mised positioning
- Dental grade monitor optional
- Can mount with Midmark halogen or LED operatory lights

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Proma

5100 Series LED

Proma lighting technology has taken a dramatic step forward with the inception of LED. The safest, most beneficial application of LED for dentistry is indirect, reflected light.

Minimal Shadowing

The light's 516 facets work to greatly reduce shadows. Dual parabolic lenses are engineered to produce the perfect elliptical pattern, bright in the center with a feathered edge.

Relieve Eye Strain

Relieve eye strain by using precisely the most comfortable light level. Continuous intensity adjustment from 3,000 to 35,000 LUX range is achieved by the simple one-touch control.

The Ideal color rendering temperature of 5,000K, matching that of natural indirect daylight, is consistent at all intensities. When using light-cured resins, a filter is simply placed over the light source.

Upgrade existing Proma 5100 Series lights to the new LED version with an upgrade kit.

Proma

5152 LED HD Track Mounted LED Light & Monitor

Light Features

- Light head with three axes of rotation
- Auto on/off microswitch
- Counter-balanced drift-free arm Proma LED
- Reflected LED light with dual parabolic lenses for safe indirect, shadow-free illumination
- Cool and efficient - silent operation (no fan)
- Infinite intensity adjustment
- Color temperature is 5000°K at all intensities

Monitor Features

- 22" LED HD Wide Screen
- 12-volt power supply
- High definition 1920 x 1080 picture resolution
- Single remote control selects between different video sources, and operates the monitor functions (on/off, volume, brightness, etc.)
- Comes standard with internally routed cables for USB, Composite Video/Audio, HDMI, SVGA and Coaxial Video/Audio
- Integrated digital TV tuner

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Pelton & Crane

Helios 1800 Series LED Light

The Helios 1800 is the newest member of the Helios family of LED dental lights. Features like reflective technology and a crisp 3" x 6" light pattern mean enhanced performance over traditional halogen dental lights. This dental light also offers optimal efficiency to help you save energy and lifecycle costs. Leverage technology and enjoy increased performance from halogen lighting at a similar price point.

TPC Advanced Technology, Inc.

"On budget.... On time!"

Radiant LED Operatory Light

Features

- Two axis light head rotation for optimal positioning.
- The contoured handles are conveniently located for operator positioning and asepsis protection and easily removed for cleaning. (Serializable)
- Constant color temperature at every level of brightness.
- Superior color rendering index allowing real color matching and accurate examination of tissues.
- Light intensity is dimmable.
- 2-year warranty

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Digital Ultra Flushmount

The Digital Ultra Flushmount is the right choice for clinicians who prefer to work in a digital environment but want critical parameters displayed both numerically and as electronic flow tubes. The ease of color-coded, fingertip controls is an additional feature of the flowmeter. Options include a remote control, a printer for recording gas delivery during patient treatment and an automatic vacuum system. The unit's design complements aseptic, contemporary operatory environments.

Features

- Automatic Calibration – adjust total flow while gas % remains constant, adjust gas % and total flow remains constant.
- Digital and electronic gas flow displays.
- Microprocessor technology; color-coded fingertip controls.
- N2O ratio control – min. 30% O2 total flow.
- Oxygen fail-safe; oxygen flush.
- Audible and visual (LED) low O2 alarms.
- Sealed membrane switch technology – easy to clean and disinfect or barrier protect.

Newport Flowmeter System

The Newport Flowmeter System offers a practical solution to the challenges associated with operatory space planning and ready availability of conscious sedation equipment. A totally integrated mobile unit with a stabilizing low center of gravity, it glides easily between operatories and can be positioned discreetly under standard-height counter space when not in use. The system's enclosed design provides convenient, yet out-of-sight, storage for both the manifold and gas tanks. A floor supports the weight of the unit's four cylinders to simplify the task of changing tanks.

Features

- Enclosed 4-cylinder portable system.
- Single-knob on/off and total flow control.
- N2O ratio control - min. 30% oxygen.
- Flow tubes at 15° angle.
- Always-ready oxygen flush.
- O2 resuscitation connector.
- Oxygen fail-safe.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

PC7 Flowmeter System

Available on Mobile Stand Or Cylinder Yoke Block. Scavenger Rubber Goods Included.

Flowmeter Head Dimensions
8.75"H x 3.75"W x 10.25"D

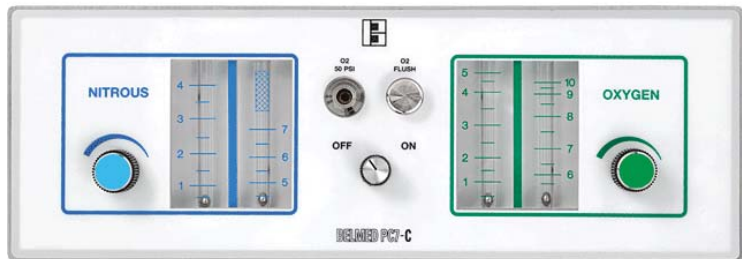

Weight of Flowmeter Head
5 lbs.

Bag and Outlet Diameter
22mm (Approx. 7/8".)

Oxygen Flow Range
3-10 LPM.

Nitrous Oxide Flow Range
0-7 LPM.

Fail-Safe Type
Proportional.

PC7-C Flushmount Flowmeter

The PC7-C has been reconfigured to fit flush into today's cabinetry and provides the same time-proven precision and dependability as our standard PC-7 unit.

- On off control. simple 1/4 turn, establishes a 3 liter minimum O2 flow.
- Oxygen flush. Provides rapid flow of oxygen directly into patient breathing circuit.
- Micrometer needle valves. Allow quick, responsive flow adjustments. needle valve design prevents seat damage.
- Minimum 30% O2. is achieved by limiting flows to a minimum of 3 liters for O2 and a maximum of 7 liters for N2O.
- Dual cascading flowmeter tubes. O2 and n2o are calibrated in liters per minute.
- Oxygen fail-safe. automatically and proportionally reduces N2O in the event O2 is reduced or shut off.
- Solid gas control block. Designed to eliminate internal gas leaks.
- O2 quick connect. Provides connection of auxiliary resuscitation equipment.
- NRB check valve. Prevents the rebreathing of expired gases and guards against CO2 build-up.
- Emergency air valve. Entrain ambient air into the breathing circuit in the event flow from the machine is lost for any reason.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

PORTER

MXR Flowmeter

- Porter Flowmeter Tubes - Provide accurate, visual flow readings the standard of the industry.
- Dual Seal Fail-Safe - Automatically reduces and eliminates N₂O if O₂ is shut off or the pressure is reduced.
- Gas Control Block - Virtually eliminates internal gas leaks. One piece, solid aluminum construction.
- Gas Flow Adjustment Knobs - Throttle-type knobs allow quick, accurate, one-hand adjustment of gas flows.
- Emergency Air In-Take Valve - Automatically provides patient with ambient air if gas flow is interrupted.
- Check Valve. - Prevents rebreathing of used gases and guards against CO₂ build-up in the breathing bag.
- Positive ON-OFF Switch - On all models, the on-off switch eliminates the possibility of accidentally leaving the machine on.
- Oxygen Flush Button - Provides an easily accessible override of all other gas flows and delivers 100% O₂.
- Posi-Stop Needle Valves - Spring washer design prevents over turn of needle stems and resulting damage to seats and valves.
- Oxygen Quick Connect - Facilitates connection of resuscitation equipment to the central system.
- Total Flow Adjustment Knob - Controls flow of both N₂O and O₂ at any desired concentration. Total flow can be adjusted without affecting concentration. Total flow can be adjusted without affecting concentration. Low flow capability means economy of operation Available only on MXR model.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

PORTER

MXR-D Digital Flowmeter

The MXR-D is the only digital flowmeter with both a digital display and calibrated glass indicator tubes for accurate real flow display.

The MXR-D features ergonomic total-flow and percentage adjustment knobs, advanced needle valve technology, visual and audible alarms, on/off switch, and oxygen flush button. The MXR-D is also the only digital flowmeter with an oxygen quick-connect built into the flowmeter for fast connection of emergency oxygen equipment. Easily mounted into your cabinets, walls or pediatric benches.

PORTER

Digital MDM

Porter's newest nitrous oxide flowmeter has the smallest footprint in the industry. At just under 8" long and 2 3/4" high the mounting options are limitless including: flush mount, surface mount, under counter, and top of counter. As cabinet spaces are shrinking and becoming more restrictive - the Digital MDM makes installation as easy as it gets.

PORTER

MXR-1 Cabinet-Mounted Flowmeter

Easily mounted to your cabinet or wall- the MXR-1 allows for ergonomic control and precision delivery with Porter glass indicator tubes. Convenience, accuracy, and reliability- built right into your cabinets or wall.

The MXR-1 is equipped with easy-to-read flow indicator tubes, on/off switch, oxygen flush button, and oxygen quick connect for fast connection of emergency oxygen equipment. Ergonomic single motion control knobs allow for easy flow and percentage adjustment. This space-saving cabinet-mounted flowmeter comes standard with a NIOSH recommended interconnect between the delivery unit and the vacuum system for dual failsafe operation.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Enhanced Oral Assessment

VELscope® Vx

It is time to take a closer look at the Enhanced Oral Assessment of the VELscope Vx system. Fast becoming the Professionals Choice; this easy to use, portable hand held device is guaranteed to elevate the standards of oral health assessment and patient care.

No rinsing or staining is required for bright clear mucosal visualization when you use the VELscope Vx system. It is used to conduct more oral tissue examinations than any other adjunctive device making it the number one choice for the early detection of oral disease and infection. The VELscope Vx system supports the early detection of:

- Viral, fungal and bacterial infections
- Inflammation from numerous causes
- Cancer and pre-cancer
- Various other oral conditions

STERILIZERS

**CoxRapidHeat**

Modernize your sterile processing with the fastest total cycle time. Incorporating Cox RapidHeat sterilization means a lower total cost of ownership (TCO) while also providing faster instrument turnaround! Because there is no water involved, you can place your COX RapidHeat Sterilizer anywhere. No water means that your instruments come out dry and ready to use.

**SteriSure**

The perfect low-cost alternative to steam sterilization. Purchasing a SteriSure delivers the lowest total cost of ownership (TCO) in a microprocessor controlled sterilizer. Requiring no routine cleaning, no harsh chemicals, and no water means lower operating costs while also providing sterilized instruments without pitting, dulling, or corrosion.

**SteriDent**

Cut costs without sacrificing quality. SteriDent sterilizers have a low purchase and operating cost. Requiring no routine cleaning, no harsh chemicals, and no water means operating costs remain low while also providing sterilized instruments without pitting, dulling, or corrosion.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Because we care.

M3 Ultrafast®

Features

- Sterilizes unwrapped Instruments and handpieces in just 6 minutes and pouched instruments in just over 10
- Easy-to-use, one-step loading operation, push-button cycle selection and automatic-opening door
- 3 pre-programmed cycles, programmable dry cycle and warm-up cycle
- Chamber size 7.6" x 12.1" x 1.6"
- ASME certified

Because we care.

M9 UltraClave®

Features

- Designed to be the most reliable and easiest to use autoclave in healthcare
- Exclusive automatic-opening door design allows for a quick dry time
- 4 pre-programmed cycles create convenience, flexibility and increase confidence
- M9 has 9" x 15" chamber with 3.5 gal usable volume
- ASME certified

Because we care.

M11 UltraClave®

Features

- Designed to be the most reliable and easiest to use autoclave in healthcare
- Exclusive automatic-opening door design allows for a quick dry time
- 4 pre-programmed cycles create convenience, flexibility and increase confidence
- M11 has 11" x 18" chamber with 6.5 gal usable volume
- ASME certified

SciCan

Statim 2000 G4

SciCan's innovative G4 Technology, now WiFi enabled, automatically records and monitors every cycle 24/7 so the tedious task of manually logging cycle data can now be done automatically and error-free.

Logging accurate cycle information has never been so effortless, simple and efficient. STATIM G4 Technology detects human or mechanical error before it costs time and money.

Specs

- Unit size (L x W x H): 19.5" x 16.25" x 6"
- Cassette internal dimensions: 11" x 7" x 1.4"
- Weight without water: 46 lbs/21 kg
- Air Drying Only

SciCan

Statim 5000 G4

SciCan's innovative G4 Technology, now WiFi enabled, automatically records and monitors every cycle 24/7 so the tedious task of manually logging cycle data can now be done automatically and error-free.

Logging accurate cycle information has never been so effortless, simple and efficient. STATIM G4 Technology detects human or mechanical error before it costs time and money.

Specs:

- Unit size (L x W x H): 23.6" x 16.1" x 7.5"
- Cassette internal dimensions: 15" x 7" x 3"
- Weight without water: 73 lbs/33 kg

SciCan

Bravo

The BRAVO fractionated vacuum chamber autoclave continues the SciCan tradition of being at the forefront of innovation and technology. BRAVO incorporates both pre-vac (to remove air) and post-vac (to help drying) cycles to ensure perfect steam penetration for any load. BRAVO is true to the STATIM reputation for speed, providing rapid cycles for all types of instrument loads.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

EZ9 and EZ10 Autoclaves

Tuttnauer fully automatic autoclaves fill, sterilize, exhaust and dry at the touch of a button. Innovative closed door drying cycle circulates warm, filtered fresh air through the chamber to maintain sterility and ensure efficient drying of packs and pouches.

Features

- Pre-loaded cycles for: unwrapped instruments; wrapped/packs; liquid and additional drying cycle.
- All program parameters can be customized and stored.
- Power outage recovery system.
- Hepa filtered air circulated in chamber drying.
- Chamber door remains closed during entire cycle.
- One touch fully automatic operation; forget it once you set it.
- Optional printer available.

9" and 10" fully automatic machines are also available in a fast cycle model (KWIKLAVE) which reduces total sterilization time by 50%.

Available Units

- 9" x 18"
- 10" x 18"
- 10" x 19"

Keep your sterilizer running clean and trouble-free with regular use of a chamber cleaner. DHPI also carries replacement gaskets and other parts for your sterilizer.

EZ9Plus & EZ11Plus

At Tuttnauer, our single focus on sterilization and infection control enables us to offer products to help practitioners meet today's challenging workloads and regulatory requirements. Our newly designed, ergonomically friendly EZGlide door features effortless opening and closing with an automatic double safety locking mechanism. Glide the door closed with a gentle push to close and lock it. The door remains closed through the dry cycle to maintain sterility and ensure efficient drying. High efficiency air pump circulates filtered air through the chamber for fast drying. Also includes a rear Network Port for connection to a local network, making remote monitoring of your system possible. Available in 9" and 11" chamber sizes and includes a 2 year parts and labor and 10 year chamber warranty.

The Only
**7" ON THE
MARKET**

Valueklave 1730

The Valueklave 1730 will satisfy all of your basic sterilization needs at an economical price. The compact size (7" chamber) makes it a perfect primary unit for small offices or a second autoclave for larger practices. The fast cycle time and heated drying delivers a quick turnaround for wrapped or unwrapped instruments. The simple controls and easy closing door make this unit a breeze to operate. High speed and reliability are built into every Valueklave 1730.

Features

- Fast Cycle Time. 11 minutes from a hot start (Standard Unwrapped Cycle time).
- Automatic shut off at the end of both the sterilization and dry cycles.
- A long life electro polished chamber and door.
- Double safety locking device prevents door from opening while chamber is pressurized.
- Drain valve is located on the front, allowing for quick and easy draining of water reservoir.
- Dual safety to protect against overheating.
- International certifications.
- 1 year parts and labor warranty.
- 316L grade stainless steel with electro-polish finish.

William "Buffalo Bill" Cody

His production in the saddle
made him a legend...

Now it's your turn!

Discover the exclusive back-pain-relieving
advantages of Brewer's innovative Dynamic,
Split-Saddle-Seat Technology!

Data shows that profit-robbing lower back pain affects 81% of dental professionals, which can lead to shortened work hours, leaves of absence and shortened careers.

So what can you do to help safeguard yourself and your team?

Optimize posture and production with
Brewer's latest patented breakthrough!

- **Unique 360° circular movement:**
 - Actively strengthens the core muscles supporting the spine
 - Allows natural movement while maintaining a neutral posture
 - Lessens lower back pain and spinal muscle degeneration
- **Patented split-saddle-seat design:**
 - Eases load on muscles by putting weight on the "sit-bones"
 - Lessens pressure on upper legs when moving side-to-side
 - Offers superior cooling comfort, improved circulation and reproductive health

Brewer

Visit www.brewercompany.com to learn more!

Brewer

135DSS

Ag 200 SweepZone

SweepZone technology uses "Smart Circuit," a custom-engineered electronic component that creates Constant Power Output (CPO) for consistent, uniform cleaning. SweepZone Ag cleaning systems automatically adjust to different conditions to create uniform cleaning power – eliminating hot spots and weak areas.

- Capacity: 4.25 quarts
- Tank Size: 11.75" x 6" x 4"
- Digital Timer & Drain
- Stainless steel cover
- Basket not included

770-LRAG902

Accessory Kit

Includes one 3/4 size solid side basket, one positioning cover, 2-60 ml beakers, 1 bur box, 1 bur tray.

771-LR659

Quantrex 140

- Capacity: 3.2 liters.
- Tank Size: 10-3/8" x 6-3/8" x 8".
- 60 Minute Timer
- Stainless steel cover.
- 117 volts, 270 watts.
- Basket not included

770-LR311

Accessory Kit

Includes: 1 solid side basket, 1 positioning cover, 2-600 ml beakers, 1 bur tray, 1 basket suspension bracket.

771-LR454

Quantrex 310

The Quantrex Ultrasonic Cleaning System line provides super-strength cleaning every time. Versatile enough for a variety of cleaning applications. When used with L&R's specialty formulated solutions, the self-contained, compact unit offers efficient trouble-free cleaning. Each Quantrex machine comes standard with increased power... strength you can see as soon as you turn the unit on.

- Capacity: 12.3 Liters
- Tank Size: 15.5" x 9" x 6"
- 60 Minute Timer
- Stainless steel cover
- 117V 300W

Basket Not Included

770-LR725

Accessory Kit

Includes: 1/2 Size Solid Side Basket, 1/2 Size Positioning Cover, 2-600 ML Beakers Complete, Bur Box, Bur Tray

COLTENE
BioSonic UC300

- 115 volts.
- Tank Size: 3.8 gallons with cover.
- Enzymatic cleaner and manual.

770-COLUC300115B

SciCan
StatClean

StatClean's 1.6 gallon tank and convenient self docking lid, holds a variety of instruments in the unique hands free drying basket, making it the perfect ultrasonic to complete your reprocessing needs.

Features

- Minimize noise level with StatClean's 4.5mm thick wall housing and tank lid.
- Made from engineering grade plastic making it quieter than most steel housing ultrasonic units.
- 3 color LED touch screen conveniently displays the 1-30 minute timer and 5 temperature settings with advanced power off memory capability memorizing last timer and temperature setting.
- Easy to access drainage valve – Eliminates manual emptying and potential spills.
- Two ceramic heaters are mounted under StatClean's tank for even heating.
- Independent control circuits for each transducer increasing up to 40% higher cleaning efficiency.

Tuttnauer
Your Sterilization & Infection Control Partners

Clean & Simple Ultrasonic Cleaner

Tuttnauer's Clean & Simple Ultrasonic Cleaning Systems are manufactured with only the highest quality components. The machines provide 60 kHz of quiet cleaning power which is less aggressive to instruments while still removing all surface contamination. The contemporary design and quiet operation compliment any office environment. Clean & Simple Ultrasonic Systems are available in 2 sizes and with a full selection of accessories to meet your specific needs. The 1 gallon holds a standard selection of instruments or 2 half size cassettes. The 3 gallon holds 3 full size cassettes.

Oil-Less Air Compressor

Deliver the highest quality of air to your staff and patients without loud, annoying machinery. Our unit is so quiet, you won't even know it's running. Throughout the day, this revolutionary equipment will sense the number of users and adapt to the number of handpieces in use at any one time. Our integrated air dryer also helps extend the life of your handpieces. And because our compressor is 70% smaller than the competition, our unit allows you to reduce your Utility footprint without sacrificing ease of access to service items. In larger installations, multiple stacked units communicate to operate in the most energy efficient pattern while balancing running hours on each compressor. Product comes with a five-year, 10,000 hour warranty, so you can worry about your practice, not your equipment.

Dry Vacuum System

Reduce maintenance costs, green your practice, deliver a higher quality of air and clean up your mechanical room with our Dry Vacuum System. Thanks to variable speed technology and an energy efficient dry vacuum pump, power consumption can be reduced by as much as 70% over wet systems. Add in the elimination of water and sewage costs, and this system can pay for itself in as little as three years. Because you'll also reduce your electric costs, our technology can save your business around \$20,000 over a ten-year period. Our direct driven vacuum motor is built to last up to 20,000 operating hours without maintenance. No other manufacturer can match that. Our system also has the smallest footprint in the industry to help reduce your Utility footprint. Product comes with a five-year, 10,000 hour warranty, so you can worry about your practice, not your equipment.

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Because we care.

ClassicSeries Wet-Ring Vacuum

The Midmark ClassicSeries Wet-Ring Vacuums bring together the highest standard of quality and most proven technologies into one uniform offering. The ClassicSeries Wet Ring Dental Vacuums come standard with many of the same value-driven features as their Apollo and Matrix brand predecessors including:

Features

- High output, proven performance.
- Exclusive internal water recycling uses over 60% less water than standard wet-rings.
- Durable aluminum bronze construction and a stainless steel motor shaft.
- NFPA 99C level 3 compliant and UL/CUL classified.
- Backed by an industry leading full 5 year product warranty

Because we care.

PowerAir® Oil-less Air Compressor

The Midmark PowerAir Oil-less Dental Air Compressors bring together the highest performance and most proven oil-less compressor head technologies into one powerful offering. PowerAir oil-less compressors satisfy the high standards demanded by today's dental professionals including:

Features

- Unrivaled power and performance – up to 66% more CFM than competitive products.
- .01 micron coalescent filter (500 times greater filtration than the industry standard) eliminates common contaminants that other systems can't catch.
- Ultra quiet operation
- Unmatched 5 year/3,500 hour full product warranty
- NFPA 99C level 3 compliant and UL/CUL classified
- Backed by an industry leading full 5 year product warranty

Our Service Technicians are factory trained and certified by the top manufacturers in the dental industry, like Midmark!

Because we care.

PowerVac® G Dry Vacuum

Introducing the next generation in dental vacuum technology – the PowerVac G. The Midmark PowerVac G uses an intelligent energy management system that creates a new standard for all dental vacuums by offering:

- Efficient energy control – uses up to 83% less electricity than competitive systems
- Significant heat reduction – reduces heat emissions by up to 30%
- Whisper quiet operation – as low as 48 dBA
- Consistent performance – up to 18" Hg
- Upgradable flexibility – can accommodate 1 – 20 users
- Unmatched product warranty – 5 year/10,000 hour full product; 10 year/20,000 hour pump warranty
- Backed by an industry leading full 5 year product warranty

Please see your DHPI Equipment Specialist for pricing and availability in your area.

RAMVAC® Utility Solutions

Badger LF LubeFree Dry Vacuum

- High efficiency positive displacement pump runs at only 6.2 amps even at full load, saving money and the environment.
- Connects to pre-existing plumbing, making an easy switch from your wet-vac system .
- Auto shut down ensures longevity of rotary vanes
- 5 Year / 10,000 Hour Warranty on pump, whichever comes first.
- LubeFree and open frame design for quick, easy maintenance.
- 100% water free, saving water and money
- Integrated tank and control unit, saving space in the utility room

RAMVAC® Utility Solutions

Osprey™ Compressor

For any practice looking to increase productivity and decrease downtime servicing their compressors. These new Osprey compressors provide clean, dry, oil-free air even in the busiest dental office! RAMVAC heads are 100% duty cycle rated and run at 115 PSI, helping produce more useable air than any other dental compressor. The Osprey also utilizes a dual column desiccant dryer to provide a 100% continuous supply of dry, clean air. Inquire about our industry leading RAMVAC compressor warranty – 6 years/4200 hours!!!

*Vacuum pump or air compressor need servicing?
Call DHPI and ask about our Preventive Maintenance
Program. Customized to fit your office's needs!*

RAMVAC® Utility Solutions

Bulldog® QT Dry Vacuum

- Easy install features include vertical inlet and exhaust with built-in exhaust check valve.
- One year service interval from a space saving oil reservoir recirculating synthetic oil.
- Compact, space saving flat sides with footprint matching standard twin water ring pump.
- Exclusive gravity and vacuum driven oiling system with no moving parts.
- Oversized pump shaft and bearings for maximum service life.
- 10 year no-fail, no-wear out warranty, high efficiency low speed oil-sealed positive displacement pump.
- Exclusive patented RAMVAC Filtrol features positive protection from foam and liquids; air filters you only need to check once a year; and dust protected vacuum controller.
- Washable long-life main air filter with stainless steel back-up screen.
- S1 Electrols with state-of-the-art micro controller keeps you informed of the equipment status. LEDs identify "faults" and announce time for maintenance.

NEW

HG Containment Series

Anterior Quest is a Michigan based company that contains and recycles 100% of chair side dental waste that contains amalgam. The HG Containment System is the simplest, safest and most effective mercury and amalgam separator on the market. This patented close looped system eliminates the liability for the office, by ensuring that no one comes into contact with the harmful material. There are no filters to change, no office shutdown required to maintain the HG Containment System. Anterior Quest has preset routes that evacuate the system for the offices every 2 months. They also do all of the paperwork, handling and provide software for each office to monitor their system. The HG Containment System is the only hands-off system on the market today. Anterior Quest is the only company World Wide that contains 100% of all chair side waste and recycles it back to clean mercury free water. The HG Containment System produced by Anterior Quest does not allow any mercury to pass to the local wastewater treatment plant and is contained, evacuated and recycled; this exempts offices with the Anterior Quest System from regulations. The HG Containment System is the most cost effective, maintenance free and environmentally friendly Amalgam Separator on the market.

Amalised Green

The Silver Service by medentex is your one-stop shop solution for amalgam recycling! You receive a box with everything you need: one amalised® Silver separator cartridge – which can be fitted to many existing separator systems, one amalgam waste container, one toothbox and a bag for amalgam capsules. We take care of the exchange intervals and the collection safe and trouble-free!

- ISO 11143:2008 Certified at 99.7%
- Universal, industry-standard connection
- Easy to install, easy to maintain
- Most offices need only 1 exchange per year!
- Separator, waste containers & recycling included for 1 price

Please see your DHPI Equipment Specialist for pricing and availability in your area.

Eco II Amalgam Separator

Features

- Services up to 6 chairs (or 12 chairs with tandem unit)
- ISO 11143 certified, >99% effective For wet or dry vacuum systems, adaptable to all thickness hoses
- Centrally installed before the main vacuum, zero maintenance
- Includes a pre-paid UPS return shipping label
- Online compliance portal with automatic recycling e-certificates
- Lasts 6-12 months depending on practice size with quick “plug-in, plug-out” replacement canister exchange process

Hg5 Amalgam Separator

We’ve got amalgam separation down to a science. Removing mercury from the dental practice (and the environment) is a good thing - and we’re way ahead of the game. When it comes to Amalgam Separation, no one knows more than Solmetex. 21 years ago, our experience in water science led us to create a system that easily and affordably removes amalgam waste from dental practices. Our signature product the Hg5 is the industry standard and has won more awards than all competitors combined. As a ‘total solution provider,’ Solmetex takes care of waste handling and recycling so you don’t have to. Good for you and good for the environment. Solmetex – clearly the leader in amalgam separation

Sterisil® System Microbiological Dental Office/Clinic Water Treatment System

Sterisil has simplified the means for producing treated dental water. This turnkey Sterisil System eliminates the inconvenience and added cost of buying secondary water disinfection products. It also provides continuous autoclave water and final rinse water for instrument washers. Gone are the days of corrosive, toxic and expensive waterline disinfection products as well as costly and untimely trips to obtain distilled water.

The Sterisil System is available in two different versions: Bottle Fill and Direct Feed. The Bottle Fill Sterisil System comes with a chrome faucet that conveniently provides EPA registered dental water for your bottle reservoirs. The Direct Feed Sterisil System is typically installed in a new build, remodel or configured in a pre-existing office that has directly plumbed water lines to the operatories.

Main Features

- EPA registered dental water for any size office. 1 to 100+ chairs
- Produces distilled quality water to 0ppm TDS for autoclaves
- Final rinse water for instrument washers

Product Highlights

- No more tablets & additives for daily dental water use
- Fully automated monitoring with visual and audible alarms
- Class B Ultraviolet (UV) Irradiation water disinfection
- Cartridge replacement only takes 10 minutes per year!
- Does not adversely affect composite bond strength
- Contains no iodine or chlorine and prevents hard water deposits
- Non-toxic, non-corrosive and safe for patients and dental equipment

Our Dental Reference Guide represents the industry's top selling supplies and equipment. If you are not able to locate items within this guide, please visit our webstore to shop our full product offering, www.dhpionline.com.

One Call Gets Us All...

When you call Dental Health Products, Inc. (DHPI) and speak to an experienced Account Manager, they will work with you and our entire team of professionals to select the best SUPPLIES, EQUIPMENT and SOLUTIONS for your practice. Our sales team is continually trained by industry top dental supply and equipment manufacturers to provide you with current product information and answers to any questions you may have about a product or promotion. If you have a specific question on a product or simply would like a quote for your supply needs, contact us today at 800-626-2163.

Ready to Ship...

We have a large selection of quality dental supplies and equipment – over 50,000 items from over 400 top manufacturers in the industry. Our broad product selection offers you the most popular brand name dental supplies, along with our own high quality line of Health-Tec® Brand Products.

Pricing Stability...

All prices in this catalog are current at the time of publication. While it is our policy to maintain everyday low prices for the duration of the catalog, market conditions and manufacturer price increases may make it necessary to adjust our prices without notice. We may also need to adjust prices that are incorrect due to typographical errors. Prices are exclusive of applicable sales, use and other taxes relating to the sale. Costs associated to the purchase or delivery of the product shall be paid by the buyer. Pricing in this catalog supersedes all previously published prices.

Ordering Products...

It's fast! It's easy! Choose your DHPI Shopping Experience:

- Phone in your order, 800-626-2163.
- Fax in your order 24/7, 888-681-5088. A fax order form is located at the back of this catalog. Photocopy before use to have additional copies for future orders.
- Order online, www.dhpionline.com. It's safe and secure!
- Order using OPTIONS Inventory Management Software.

Regulatory requirements may apply to the use or the installation of certain products. Please be sure to understand and comply with any such requirements prior to purchase. Please note that all business transactions may be conducted by electronic means, including the use of electronic signatures and are subject to Wisconsin Statutes Chapter 137. Phone calls may be monitored for training purposes.

Exclusive Distributor of...

OPTIONS Inventory Management Software; the only inventory management software program that allows you to order your entire practice's inventory – dental products to office supplies – from several different suppliers. The system automatically generates orders based on your stocking level requirements. Please contact your Account Manager for more details.

Government and Special Markets Accounts...

To service the unique needs of these customers, we have dedicated, professionally trained personnel to answer your questions and assist you in the supply procurement process. Requests for bids and proposals may be sent to: info@dhipi.net or call, 800-626-2163.

Payment...

For your convenience, we accept Visa, MasterCard, American Express and Discover at point of sale and for online payment of invoices. We also accept Check by Phone and ACH Debit. Qualified customers may establish an open account with the completion and approval of a credit application. Payments on open accounts are due on all orders within 7 days after receipt of the product. Balances left unpaid after 30 days from invoice date will incur a 1.5% finance charge per month (18% APR). Disputed items on an invoice are the exception. If we find it necessary to place an account in collection, fees and other costs associated with the collection will be assessed.

Equipment...

A deposit is required on all large equipment orders over \$10,000. Balance of payment is due when the equipment is installed. Please note we cannot provide long-term storage of customer's equipment purchases, therefore equipment must be installed within a reasonable amount of time. All equipment orders are non-returnable and cannot be cancelled. Architectural and design services are available for a fee and are refundable with equipment purchase. We honor manufacturer warranties and provide a 90-day labor warranty. Please read and return all warranty information required immediately upon taking delivery of your new equipment. Open or defective equipment will be covered by manufacturer warranty. Ask your Equipment Specialist about financing options and other details on equipment purchases today!

Financing Solutions...

In order to provide you with the best financing options, DHPI has partnered with the most reliable financial companies in the industry. Through our established partnerships, you can rely on our many years of experience and knowledge to help guide you through every step of the process. We're here to help you find the right plan, with the right terms, for your needs. Get the financing you deserve. Contact your DHPI Equipment Specialist, 800-626-2163, for more information today!

Service & Repair...

Our technical service consultants are reliable and manufacturer-trained. Take advantage of our annual preventive maintenance program designed to keep your practice running at peak efficiency. DHPI offers new equipment installation as well as old equipment teardown and disposal. All service is backed by DHPI and complete warranties. Our Service Dispatchers are available during normal business hours. To schedule a Service Technician visit for your office, please call 800-444-6410. After-hours service is available in select areas.

Shipping & Handling...

All orders within the continental U.S. are subject to a handling charge. A fuel surcharge may apply to all orders. Bulk items and liquids may incur additional freight charges. Expedited freight is available at an additional cost.

◆ Hazardous Materials...

The hazardous materials symbol is used to identify products classified as hazardous by the Department of Transportation (DOT). All hazardous materials are subject to a hazardous materials surcharge. This charge will be added to your invoice or credit card transaction. DOT regulations prohibit the shipment of hazardous materials by air freight.

Returns...

Need to return an item for credit or exchange?

- Call our Customer Service Department within 30 days of the invoice date for a RMA number.
- Please note, returns past 30 days from invoice date are subject to a restocking charge.
- Only items listed on the RMA form will be processed for credit. If additional items are added, a restocking fee will be applied.
- We will provide a return label and return instructions via email, fax or postal mail.
- Enclose a copy of the original invoice, the reason for the return, along with the item being returned.
- The customer is responsible for all freight; shipping charges will apply on all returns.
- For your own protection, we suggest you insure the package for the full value of the item being returned. Should the items be lost or damaged in transit, carriers require you to file a claim directly with them.
- Items must be returned in unmarked, unopened, and original sealed packages making certain the item being returned is in resalable condition.

Exceptions...

The following items are NOT returnable under any circumstance:

- Opened handpieces, small equipment, large equipment, their accessories, and custom-ordered equipment.
NOTE: Before opening a sealed item, please examine the label to determine you have received the correct item ordered. These items will be replaced according to the manufacturer's warranty as directed by federal regulations.
- Special ordered items for products we do not ordinarily stock.
- Personalized, customized, imprinted items or government-regulated items.
- Opened computer hardware and software.
- Hazardous items.
- Short dated or expired product.
- Discontinued merchandise.
- Items marked as non-returnable.
- Items that cannot be returned to the manufacturer.
- For X-ray film you believe to be defective, please call the manufacturer's help line directly. Defective X-ray film cannot be returned to Dental Health Products, Inc.
- Certain Health-Tec® items such as bulk items, alloy, or imprinted product. Please see our Health-Tec® Brand Products Guarantee below for more information.

Claims for shortages or errors in shipments MUST be reported within 48 hours of receipt of delivery. NO claim for shortages will be allowed after 48 hours of receipt of delivery. We will only grant full credit on items we can return to the manufacturer for full credit or are in resalable condition. Re-stocking fees and other restrictions may apply. We reserve the right to refuse any unauthorized returns following inspection. Please call our Customer Service Department for more details.

Health-Tec® Guarantee...

We stand behind our DHPI private label Health-Tec® Brand Products by offering you a 100% satisfaction guarantee. If you have tried a Health-Tec® Brand Product and it is defective or doesn't perform up to your expectations we will provide a credit, refund or exchange. It's your choice. Please call our Customer Service Department toll-free, 800-626-2163, to explain the reason for the return and to receive proper return authorization. We have a few simple conditions that apply:

- Product(s) can only be returned within 60 days of the invoice date with the exception of handpieces which must be returned within 30 days of the invoice date and must be unopened.
- Discontinued or personalized merchandise.
- Opened products must be returned in their original, unmarked packaging.
- Hazardous, personalized, or special ordered items are not returnable under any circumstance.
- DHPI will assume responsibility for any common-carrier ground shipping or restocking charges that may apply.
- Your account will be credited, a refund issued or an exchange made once the return has been received, inspected and approved for final return by DHPI.

Regulatory Requirements...

Local regulatory requirements may apply to use or installation of certain products. Be sure to understand and comply with any such requirements prior to purchase, use or installation of products. Any "transfers of value" made to you by Dental Health Products, Inc. or other distributors or manufacturers of dental care products may need to be reported to the Center for Medicare & Medicaid Services (CMS). This information will then be posted by CMS.

Important Notice...

We reserve the right to modify or change our Terms and Conditions at any time for any reason without notice. Please visit our website to review the most current DHPI Policies, www.dhponline.com.

Check-by-Phone Has Replaced C.O.D.'s
 Our customers are enthusiastic about our Check-by-Phone service. Check-by-Phone is faster than C.O.D. and saves you the \$10.00 or \$10.50 fee. To use Check-by-Phone just tell your Account Manager or Customer Service Representative your check information. It's that easy! No C.O.D., no extra charge; it's all taken care of!

WHEN ASKED...

...91% of our customers' responses state they would refer DHPI to colleagues

...our customers agreed — DHPI's Top 4 Qualities:

“Reliable, Responsive, Knowledgeable and Resourceful”

— 2017 customer survey —

**"VERY FRIENDLY,
RELIABLE CUSTOMER
SERVICE. RECEIVE
ORDERS IN A TIMELY
MANNER. QUALITY!"**

— customer response —
MICHIGAN

**"Our DHPI Service Tech is
a HUGE factor... an asset
to the DHPI team."**

— customer response —
NEBRASKA

**"The reason we choose to stay
with DHPI is because of our
Sales rep. She is extremely
knowledgeable of all the
products and goes above and
beyond to ensure that we
are well taken care of. She
has a wonderful personality,
and because of that, makes
ordering and obtaining quotes
through DHPI a breeze!"**

— customer response —
TEXAS

**"Being busy with patients,
I'm not able to call several
times a day to try to get
ahold of my supplier.
Sometimes I have questions
about products that I need
to know ASAP. I am able
to get ahold of my DHPI
Account Manager all of the
time, and it's the best!"**

— customer response —
MINNESOTA

**"We continue to do business
with DHPI because they
have everything we need and
at a good price. Our sales
representative is very kind
and easy to work with."**

— customer response —
CALIFORNIA

**"You understand the
business end and work
with us to make our
office profitable."**

— customer response —
WISCONSIN
