Anti-Rollback & Safety Brakes

BUY 11 GET 1 FREE!

Wheelchair Anti-Rollback Device

As the user begins to stand, a pair of brake arms instantly grab the tires to prevent the chair from rolling back and away. The greater the rearward force exerted on the chair, the greater the holding power. Each unit includes an easy to install kit to compensate for the added weight of heavy seat cushions. Both models fit most full and hemi height chairs. Single or dual axle. Sling seat required.

Will not work on Quickie/Breezy wheelchairs.

Economy Anti-Rollback Braking System

- ✓ Provides anti-rollback automatically, regardless of weight
- ✓ Not affected by pressure relief or gel cushions which can defeat weight activated brakes
- ✓ Rearward movement requires constant pressure on brake levers
- ✓ Releasing pressure automatically engages anti-rollback function
