**Fire and  
Rescue**

**Police  
Sheriff  
Highway Patrol**

# 9-1-1

**Ambulance**

*"Emergency" means a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential.*

For other than emergencies, refer to the Fire Department, Police Department and Sheriff's Office in the alphabetical section of this directory.

Write in your Fire Number \_\_\_\_\_

Write in your Police Number \_\_\_\_\_

Write in your Doctor's Number \_\_\_\_\_

## Notice!

### Dialing 9-1-1 and Your Privacy

When reporting an emergency by dialing 9-1-1, your number (including non-published number) and address may be automatically displayed on a viewing screen. This information enables the emergency agency to quickly locate you if the call is interrupted.

If you do not wish to have your telephone number and address displayed, use the appropriate 7-digit emergency number listed in the White Pages.

**Poison  
Control

California Poison Control System ..... 1-800-222-1222  
TDD ..... 1-800-972-3323

## Emergencia

LOS RESIDENTES DE  
CALIFORNIA NADA MÁS

La forma más rápida de obtener ayuda en una emergencia es marcar uno mismo el número. Si es necesario, la Operadora puede ayudarle. Si la Operadora no habla español, por favor mantenga la comunicación y la Sección de Ayuda de Emergencia en idioma Español traducirá su solicitud de emergencia. Luego la Operadora le conseguirá su conexión.  
ESTE ES UN SERVICIO DE EMERGENCIA

# Making an Emergency Call

## Dial 911

- **Be clear as to what kind of assistance is needed: fire, police, medical.**
- **Stay on the phone and answer all questions.**
- **Give the specific location where help is needed (know the nearest intersection, for example).**
- **Stay calm, and speak clearly.**

Remember to wait for help to arrive so you can direct it to the emergency. Follow the directions of the call taker. If you know basic first aid and CPR, you can help people by providing emergency assistance until professional help arrives.

9-1-1 calls are answered by trained public safety dispatchers whose priority is the handling of emergency situations. Please take the time to look up a non-emergency telephone number for the appropriate government agency if you do not have a problem that requires a law enforcement officer, fire department or ambulance to come to your location immediately.

Do not call “9-1-1” or the police to confirm an earthquake. Listen to your local radio or TV station for information.

### **TTY, TDD Emergency Calls Dial 9-1-1**

Tap the space bar until someone answers. After your call is answered, pressing different TDD keys may help shorten the time necessary to respond to your call.

### **Blocking**

In case of extreme congestion of the telephone network, Cal-Ore Telephone Co. and/or long distance carriers may institute blocking. Blocking prevents overloading the system by diverting some calls to recordings, allowing other calls to complete.

If you need to place an emergency call:

- 1.** Make sure receivers of all extension phones are on the hookswitch.
- 2.** Stay on the line. You may not hear a dial tone immediately; the delay could be as long as a minute or more.
- 3.** Do not repeatedly depress the hookswitch, as this will further delay your call.
- 4.** If you receive a “fast busy” or “all circuits are busy” recording, hang up and try again.
- 5.** If physical damage occurs in our equipment or facilities or your wiring, it may not be possible to complete your call.

It may be easier to call out of the disaster area during emergencies. Contact a friend or a relative outside the immediate area and have that person relay messages to reduce calling in and out of the affected area.

# General Business

Service • Tariffs • Bills • Charges

## Tariffs and Rules

Cal-Ore's current tariffs, on file with the California Public Utilities Commission, and consumer protection rules for telephone service and facilities are available for public inspection in our Business Office.

## Payment of Telephone Bills

All telephone bills are mailed on approximately the first of the month. Bills are due upon presentation and are delinquent fifteen days thereafter. Delinquent accounts will be advised of a disconnect date by means of a "Temporary Disconnect" notice.

## Late Payment Charge

A late payment charge is applicable if payment is not received in our office by the 15th of every month. The late payment charge of 1.5% will be applied to an unpaid balance of \$5.00 or more, with a minimum of \$0.30. Neither the billing or payment of late charges relieves the customer of the obligation to pay all charges prior to the due date of the bill.

Failure to pay charges (i.e., basic flat rate single line service charges including all mandated surcharges and taxes) may result in a disconnection of telephone service. Basic Service is defined in D. 96-10-066, Appendix B, page 5. Other services, such as the ability to make toll calls, may be restricted if not paid. Optional services may be disconnected.

If service is disconnected for non-payment, a reconnection charge and/or applicable deposit will be required to restore service.

## Disputed Telephone Bills

If you have a question or complaint about your service or billing, please call the customer service number on your telephone bill, 530-397-2211. If you do not receive a satisfactory response from us, you may call the California Public Utilities Commission's toll-free callback number for assistance:

1-800-649-7570 (M-F 10:00 AM - 3:00 PM)  
Or TTY at 1-800-229-6846  
Or (415) 703-4973

To avoid having your service discontinued, deposit the disputed amount of the bill, along with an explanation of the dispute, to:

### California Public Utilities Commission Consumer Affairs Branch State Office Building

505 Van Ness Avenue, Room F2003  
San Francisco, CA 94102-3298

The Commission will review the basis of the billed amount and make disbursements in accordance with its findings.

## Interstate Access Charges

The Federal Communications Commission is responsible for authorizing interstate access charges. Any questions regarding the interstate access charge portion of your bill should be directed to:

### Federal Communications Commission Common Carrier Bureau Consumer Complaints

445 12th Street S.W.  
Washington, D.C. 20554  
(1) 888-225-5322

## Universal Lifeline Telephone Service

Universal Lifeline telephone service is a discounted telephone service available only to qualified residence customers. You qualify for this service if:

1. Your total household gross income is no greater than \$25,900 for one to two persons. A sliding scale of income eligibility is used for households with more than two persons.
2. You have only one telephone line to your home, and you receive Lifeline service only at your principal place of residence.
3. You are not claimed as a dependent on another person's income tax return.

For certification forms and details, please call your local Business Office.

# General Business

*Important Information for our Customers  
About Your Telephone Service.*

Cal-Ore Telephone Co. provides a wide variety of products and services including the following basic service offerings:

<b>Single Party Residential Service</b>	<b>\$20.25</b>
<b>Single Party Business Service</b>	<b>\$26.00</b>
<b>Single Party Universal Lifeline Service</b>	<b>\$ 6.11</b>

The above rates include the following:

- Local Calling;
- Touch tone capability;
- Access to Operator services, directory assistance, and interexchange service providers;
- Voice grade access to the public switched network;
- Free access to emergency 9-1-1 and 800 or 800-like toll free services;
- One free directory listing;
- Access to telephone relay service;
- Free access to the business office

The following mandated surcharges, fees, and taxes will apply on all billed intrastate services:

- a. CPUC Reimbursement Fee
- b. Universal Lifeline Telephone Service Surcharge
- c. California Relay Service and Communications Device Fund Surcharge
- d. California High Cost Fund-A Surcharge
- e. California High Cost Fund-B Surcharge
- f. California Teleconnect Fund Surcharge
- g. Federal Excise Tax
- h. Emergency Telephone Users Surcharge (911)

Contact your local office for current rates.

## **What is a Preferred Interexchange Carrier (PIC) Freeze?**

A PIC freeze means that your carrier cannot be changed unless you contact us to change it. The PIC freeze may provide additional protection against unauthorized long distance changes. There is no cost to freeze or unfreeze your choice of carrier. Just call us. We have the form for your PIC freeze authorization. We also have a form to unfreeze the PIC or you can call us and give us the required personal verification data in order for us to ensure it is you that is giving us the verbal authorization.

## **What is Toll Restriction?**

Toll restriction stops unauthorized long distance calling from your telephone.

## **What About Blocking 900 and 976 Pay-Per-Calls?**

If you get billed for 900 and 976 calls, residential customers may receive a one-time refund from the carrier if you did not know the calls were chargeable or a child or someone else made the calls without your permission. You may also get a refund if you are not satisfied with a 900 service for any justified reason like poor transmission quality, dissatisfaction with the quality or value of the 900 service, or disputes over the amount of 900 charges billed. To get a refund you must call the carrier within 60 days following the date of the bill in question. We can only adjust 900 calls that appear on our bills. We offer 900 blocking free of charge. Basic telephone service, as defined by D. 96-10-066, Appendix B, page 5, will not be disconnected solely for nonpayment of 700, 900, 976 charges.

## **Third Party and Collect Call Blocking**

We can block your line from receiving third party and collect calls.

# General Business

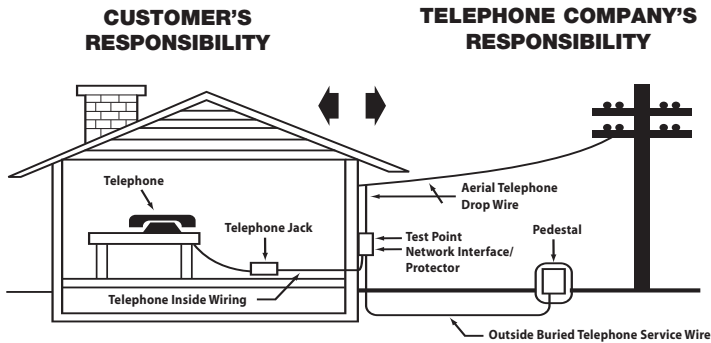

## Locating the Problem

### When Phone Service Doesn't Work

When your phone doesn't work, the problem may come from the telephone set or wiring inside your home/business or the telephone line outside. Where the problem is determines who is responsible for repairs.

The diagram illustrates what your telephone company will repair at no charge to you, and what part of telephone service is your responsibility. Inside Wire Maintenance Service is available for a low monthly fee.

## If You Have a Problem...

Attempt to determine if the source of the service interference is caused by your telephone or the inside telephone wire.

1. Hang up all telephones. Make sure phone accessories – answering or fax machines, computers, modems, security system, and telephone sets are working. To check, unplug the phone cord from the unit or the jack and check for damage. Leave everything unplugged for 6 minutes. Then try plugging in phone sets one at a time to see if the trouble still exists.
2. If all the phone accessories are working, go to your network interface box. (Outside, where the phone line enters the house).
3. Test to determine if the problem is inside or outside the house:
  1. Take a working phone to the network interface box (single line phone only).
  2. Remove the modular plug from the test jack and insert the modular plug from your phone.

### If the same problem occurs:

The problem may be in the phone lines. Call your local telephone company. If the problem is in the phone lines, they will repair the lines at no charge to you.

### If the problem does not occur:

The problem is in your wiring. Call your local telephone company or another company to repair your inside wiring.

# Custom Calling Features

Extra Services for Your Convenience

## Call Waiting

If someone dials your number while you are using your telephone, a short tone will notify you of the call. The calling party will receive normal ringing tone and cannot hear your conversation. If you desire, you can put the original party on hold by depressing the hookswitch for one second and answer the second call. You may alternate between each call as often as necessary, but may not talk to both parties at the same time.

A brief tone will alert you when another call is waiting to be answered. A reminder tone will sound 10 seconds later.

## To Answer the Waiting Call

You may terminate the existing call and hang up. Your phone will ring. Answer it and you will be connected to the waiting call.

If you wish to answer the waiting call and hold an existing call, depress the hookswitch firmly and release it immediately.

## Return to the First Call

By depressing the hookswitch firmly and releasing it immediately, you will return to the first call.

## Alternate Between the Two Calls

As often as necessary by depressing the hookswitch firmly and releasing it immediately each time, you can alternate between the two calls.

## To End Either Call

After you've finished talking with either party, hang up. Your phone will ring and when you answer, you'll be connected with the remaining person.

## Cancel Call Waiting

To cancel Call Waiting, press **\*70**, if you have touch-tone service, or dial 1170 if you have a rotary phone. Wait for the dial tone. Then dial the number you wish to call. Call Waiting has been cancelled for the duration of this call only and will be automatically restored when your call is completed.

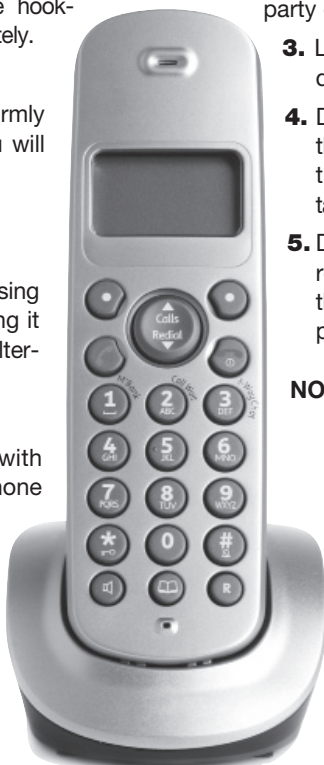

## Three-Way Calling

Add another person to an existing conversation by depressing the hookswitch for one second, and dialing the additional person's number when you receive a dial tone. The 3-way connection is completed after another hookswitch flash.

## Add a Third Person to Your Conversation as Follows:

1. Depress hookswitch firmly (one second).
2. Release immediately. This puts the first party on hold.
3. Listen for three brief tones, then a dial tone.
4. Dial the telephone number of the third person to be added. After the third person answers, you may talk before returning to the original call.
5. Depress hookswitch firmly and release immediately. This returns the first person to the line and completes the three-way connection.

**NOTE:** If the line is busy or there is no answer, cancel by pressing the hookswitch twice (one second each). Continue the original conversation.

# Custom Calling Features

Extra Services for Your Convenience

## To Remove Either

### Person From Connection:

The first person on the connection simply hangs up.

The third person is removed by depressing the hookswitch and releasing immediately after the third person hangs up.

All three connections are automatically disconnected when you hang up.

## Call Forwarding

If you are going to be at another location (telephone number) or you wish your calls to be answered by another person, you may do so by entering the desired telephone number. All your incoming calls will be forwarded automatically. You may still use your telephone for outgoing calls.

### To Forward Either Local or Long Distance Calls:

1. Dial **\*72** if touch-tone.  
Dial **72** (rotary dial telephones), wait for second dial tone.
2. Dial the telephone number to which your calls are to be forwarded. Ringing will be heard. When the called party answers, Call Forwarding is in effect. If the line is busy or there is no answer, hang up immediately and repeat steps 1 and 2. Call Forwarding will be established automatically when you hear two bursts of tone.

### To Restore Normal Answering:

1. Dial **\*73** if touch-tone.  
Dial **73**, and pause if rotary.
2. Listen for two bursts of tone.

### Some Tips:

Call Forwarding continues until you cancel it.

You can make outgoing calls while Call Forwarding is in effect.

One short ring will be heard at your telephone when a call is being forwarded. Notify the person to receive calls if Call Forwarding is used from a measured service telephone, a local message charge applies for each call forwarded. Call Forwarding to long distance numbers will be charged to you at long distance rates.

### Caller ID

Caller ID is a service that allows you to see who is calling before you answer the phone. There is no way to know if the party you are calling has the service. Caller ID service requires a display unit which will also store the name and telephone numbers of recent callers. Calls marked "PRIVATE" or "ANONYMOUS" are from callers who have chosen to block delivery of their name and number.

Caller ID also shows your telephone number and name to a person or business you call. Whenever you make a phone call, your telephone number is transmitted to those who have Caller ID service and display equipment, even if you do not have the service itself.

# Custom Calling Features

*Extra Services for Your Convenience*

## To Block Anonymous Calls

Use Anonymous Call Rejection, a free service for Caller ID customers, by lifting the receiver and dialing **\*77** (rotary 1177). Anonymous Call Rejection informs callers who have blocked their name and number that the party they are trying to reach does not accept blocked calls. The blocked caller is informed that they can unblock their call and redial. To cancel Anonymous Call Rejection, lift the receiver and dial **\*87** (rotary 1187).

## Your Privacy

Whether you choose to transmit your number or prevent it from being shown, Cal-Ore Tel. Co. agrees that the display of your telephone number should be the result of your informed consent. You have a legal right to choose whether or not your telephone number will be displayed on a Caller ID unit.

That's why Cal-Ore Tel. Co. provides free blocking services that give you the freedom to choose if, when, and how your number will be shown to those you call. You may change your blocking option once without charge.

## Your Choice... Selective Blocking

Press **\*67** before placing your call.

Selective Blocking is a FREE service that blocks your telephone number from being transmitted and/or seen on Caller ID units on a per call basis. By simply pressing **\*67** on your touch calling phone (or 1167 from a rotary dial phone) before placing a call, your phone number will not be transmitted. Those with Caller ID units who receive your call will see the word PRIVATE displayed.

## Complete Blocking (With Per Call Enabling)

Press **\*82** to deactivate on a per call basis.

Complete Blocking is a free service that gives you permanent control over the transmission of your phone number. To activate the service you must specifically request it from Cal-Ore Tel. Co. Complete Blocking blocks the transmission of your telephone number on ALL of the calls you place, unless you specify otherwise. There is no need to enter a code before making each call. Those with Caller ID units have the word PRIVATE displayed. You may deactivate Complete Blocking on specific calls by pressing **\*82** on your touch calling phone (or 1182 on a rotary dial phone) before you dial.

## Non-Published Telephone Numbers

If you do not choose a blocking option, you are automatically provided Selective Blocking unless you have non-published service. If you have non-published service you must be defaulted to Complete Blocking as required by the California Public Utilities Commission. These blocking options are free. If you want to change your initial blocking option, you may do so one time free of charge.

## Important Note

You cannot block the transmission of your telephone number for calls to 9-1-1, 800/877/888 and 900 service, regardless of the blocking option you choose. If for some reason, you want to report an emergency without having your number displayed, you should call the agency's seven digit number instead of 9-1-1. If the number you are calling from is not equipped with Complete Blocking, you will need to press **\*67** (or 1167 from a rotary dial phone) before you dial the agency's number in order to block your number from being shown.

# Voice Mail

## Voice Mail is an Electronic Messaging Service

- No machines to buy. The system is “built-in” to your telephone through your local business office. Call for activation and cost of this service.
- Every message that you receive is automatically recorded with a date and time stamp so you know when messages arrived.
- You can check your voice mailbox for messages from any touch-tone telephone – anytime, anywhere. You can even check your messages from your email.
- Voice Mail answers your calls and will take messages even when you are talking on your telephone, so you don’t miss messages because people calling got a busy signal.
- Access to your mailbox is secured by your own personal code/password. Multiple sub-mailboxes are also available.

## Voice Mail Definitions:

- **Mailbox:** Where your messages are received and stored.
- **Mailbox Number:** Your 10 digit home or business phone number.
- **Voice Mail Number:** The phone number you call to retrieve your messages: Dorris/Macdoel 397-3030; Tulelake/Newell 667-5000. Dial 1-530 then appropriate number when checking your mailbox from outside our calling area.
- **Password:** Your personal identification number between 4 to 7 digits to open your “electronic” mailbox.

## To Access Your Mailbox Dial:

**397-3030** . . . . in Dorris & Macdoel  
**667-5000** . . . . in Tulelake & Newell

To directly access your Voice Mail, Press **\*98**.

If calling from the phone your voice mail is assigned to, Press **#**, or

If calling from a remote phone, enter your mailbox number (your 10 digit telephone number), or

If using Auto Login and accessing from your home phone, no entry is required.

**If requested, enter your password, followed by the # key.** Your password will be a default of four zeros (0000) until you change it.

### Voice Mail Tips:

- **Situation:** You need to leave a message in your own or someone else’s mailbox but you do not want to listen to the whole greeting.
- **Solution:** Simply press # when you hear the greeting start. You’ll hear the recorded tone. Then leave your message.
- **Situation:** You deleted a played message and you wish you hadn’t!
- **Solution:** Press 6 to replay your “deleted” message, then press 2 to re-save the message before playing the next message or exiting your mailbox.

# General Information

TDD Service - Problem Solving

## Services for the Handicapped

Special equipment and services for disabled persons are available at no charge from California Telephone Access Program. Customers must be certified by a licensed physician or audiologist. Call for more info:

**Voice: . . . . . 1-800-806-1191**  
**TTY: . . . . . 1-800-806-4474**  
**Fax: . . . . . 1-800-889-3974**  
**www.ddtp.org**

Loud bells and amplifiers are the most commonly requested equipment. Many other devices are also available such as flashing lights, speech amplifiers, speakerphones, large button phones, and artificial larynx.

Hearing and speech impaired persons using a telecommunication device for the deaf (TDD) can access the Operator located in Oakland, California, by dialing toll-free 1-800-855-1155 for assistance with the following:

- Operator Assistance Call –Toll/Local Collect Calls**
- Person-to-Person Calls**
- Directory Assistance Requests**

A portable telecommunications device for customers with a speech or hearing impairment is available through California Telephone Access Program, battery or AC-operated, this device sends and receives messages using standard telephones through a system of flashing lights and electronic readout display. Accessories for the unit include portable carrying case, a printer attachment, a ring signaler and an automatic answer and recording device.

## Your Telephone Number is Important

When your telephone is preceded by your area code, it is the only one like it in the United States or Canada. Show your area code and telephone number on your stationery, statements and advertising items. It makes it easier to reach you.

## California Relay Service

This service relays calls between a person using a TDD and any other telephone user within the United States. It also allows a person without a TDD to call a TDD user. Specially trained personnel are available 24 hours a day, 7 days a week, 365 days a year to relay the call. There is no extra charge for this service.

Long distance or locally charged calls placed through the California Relay Service will be billed at discounted Sprint rates. To use the California Relay Service, call toll-free:

**If You Have a TDD:**  
**1-800-735-2929**

**If You Do Not Have a TDD:**  
**1-800-735-2922**

For more information on the California Relay Service, call Relay Customer Service Center at **1-800-676-3777 TDD/V.**

## Avoidance of Lawful Charges

Persons using unauthorized calling card numbers or unauthorized telephone numbers to avoid charges will be prosecuted. Anyone violating Section 502.7, California Penal Code, by attempting to avoid lawful charges for telephone service may be fined up to \$5,000 and imprisoned up to 5 years.

# General Information

## TDD Service - Problem Solving

### How to Handle Annoyance Calls

It is against the law in the state of California to make an obscene, harassing or threatening telephone call. When you receive such a call, follow these suggestions:

1. When answering your telephone, say hello twice. If no answer, HANG UP.
2. Do not give information until you are absolutely certain you know who is speaking.
3. Instruct children not to give any information to strangers over the phone.
4. Hang up when you hear something obscene or annoying.
5. Never reveal the fact that you are alone.
6. When annoyance calls persist, contact your local law enforcement agency.
7. Calls of a threatening nature should be reported to the local law enforcement agency immediately.

### Automatic Answering Sets

Long distance charges apply to station calls made to telephones with automatic answering sets. Charging begins when the called telephone is answered by the automatic answering set.

### Telephone Safety

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

### Use of the Telephone Near Water

The telephone should not be used while you are in a bathtub, shower or pool. Immersion of the -telephone or handset in water could cause an electrical shock.

### Use of the Telephone During an Electrical Storm

You should avoid using a telephone during an electrical storm in your immediate area; calls of an urgent nature should be brief. Although Cal-Ore Telephone Co. uses protective measures to

limit abnormal electric surges from entering your home, absolute protection is impossible. There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

### Use of the Telephone to Report a Gas Leak

If you think you've found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark to trigger an explosion if the gas concentration is high enough.

### Out-Of-Town Directories

If your telephone service needs require that you frequently use a directory for a city or calling area other than your own, out-of-town directories may be ordered, for a fee, directly through the following companies:

**SBC** ..... **1-866-329-7118**

**Dex.** ..... **1-800-422-8793**

You can apply your charges to either MasterCard or Visa.

# Protect Your Consumer Rights

*Help Protect Against Unsolicited Telephone Marketing Calls & Faxes!*

State Law (Assembly Bill 2134), effective January 1, 1999, requires the Telephone Company to provide customers the following information. Various governmental agencies publish information that generally describes telephone subscribers' rights under the state and federal law.

As a consumer, you have rights to privacy and to protect yourself from potential telemarketing fraud, unsolicited sales calls and faxes. The laws apply to live calls, prerecorded voice calls & artificial (computerized) voice calls.

The Federal Communications Commission (FCC) adopted rules and regulations, effective December 20, 1992, implementing The Telephone Consumer Protection Act (TCPA). Different rules and regulations apply to calls placed to homes and business.

The Federal Trade Commission (FTC) also has Telemarketing Sales Rules, which have been enacted to help protect you as a consumer.

State laws are in place to protect citizens who have had their privacy violated or have been victims of fraudulent telemarketers. The State Attorney General's office, along with the Telemarketing Sales Rules, has the authority to investigate and prosecute fraudulent telemarketers who operate across state lines.

## **Office of the Attorney General Public Inquiry Unit**

# Protect Your Consumer Rights

## *Rules for Monitoring Calls*

California laws strictly protect your right to privacy. Your telephone calls may not be intercepted, monitored, or recorded unless you agree to it. Your call can only be monitored and/or recorded if:

- Everyone on the call agrees; or
- You hear a beep or warning tone every 15 seconds; or
- Law enforcement or national defense agencies get special permission.

Any customer in California that provides its own terminal equipment and who monitors or records conversations over the public telephone network, must provide notice of the monitoring or recording by use of one of the methods listed above. We will discontinue service to a customer for noncompliance with this rule if, after five days written notice, the customer has not complied with these requirements. Service will be restored after the customer complies with these rules and pays the reconnection charge.

Although monitoring rules are different for telephone companies, we view your right to privacy very seriously. By law, telephone companies may monitor customer communications without notice as long as the contents of the call are not recorded or transcribed.

# Service Areas

California Local Access  
and Transport Areas (LATAs)

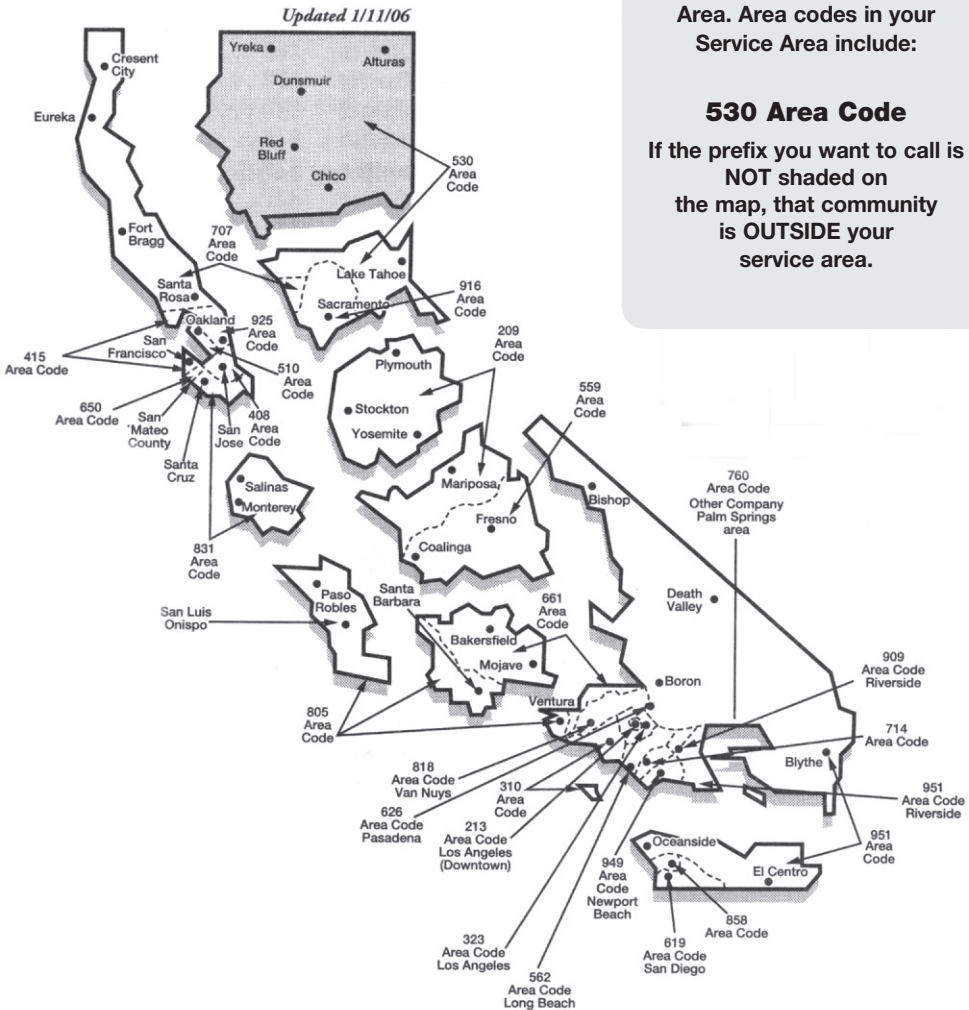

**For Your Convenience, Several of the Prefix Locations Within  
Your Service Area are Listed Below.**

## Your Service Area

The shaded region shown on  
this map illustrates your Service  
Area. Area codes in your  
Service Area include:

### 530 Area Code

If the prefix you want to call is  
**NOT** shaded on  
the map, that community  
is **OUTSIDE** your  
service area.

# Long Distance Calling

*Direct Dial (Less Expensive)*

## Direct Dial

Dialing instructions within the 530 Area Code have changed.

By dialing your own long distance calls, you will pay the lowest rate and pay for only the time you talk.

### To Place a Direct-Dial Call:

- Within the 530 Area Code, dial 7-digit Telephone Number only
- Outside the 530 Area Code, dial 1 + Area Code + Telephone Number

**Cal-Ore Telephone is in the Chico/Redding Service Area. The Chico/Redding Service Area is part of the 530 Area Code.**

If the community and number (Prefix) you want to call is not listed in the Service Area section of this guide, that community may be outside of your Service Area. Check with your "0" Operator for specific community Service Area.

Area Codes identify geographic calling areas. To find the Area Codes, see the Long Distance Area Codes.

To use a long distance company instead of your presubscribed carrier for your Service Area toll calls, you will need to dial that company's access code before you dial each outgoing toll call (i.e. 101 + access code + telephone number). This also applies to interstate toll calls that you want carried by another long distance company.

## Directory Assistance

### *If You Don't Know the Telephone Number*

1. For telephone numbers in the 530 Area, you may dial Directory Assistance your self: dial 555-1212 or 411.
2. For telephone numbers outside the 530 Area, dial 1, the Area Code and 555-1212.
3. When you are connected with the Directory Assistance Operator in the distant city, ask for the telephone number you want. When you get the number, write it down together with the area code in your new telephone directory.

You can get the telephone numbers of those businesses and people who have toll-free numbers by dialing 1-800-555-1212.

# Long Distance Calling

## Equal Access Dialing Plan

- 0 Call will go to your presubscribed Long Distance Company (Intralata)
- 00 Call will go to presubscribed Long Distance Company (Intralata/Interstate)
- 0 + 10 Digits  
Call will go to Long Distance Company Operator for handling and routing
- 1+ 10 Digits  
Call will be handled by your presubscribed Long Distance Company
- 7 Digits  
Call will be handled by your presubscribed Long Distance Company (Intralata)

- 101 + 4 Digit Carrier Code + 1 + 10 Digits  
“Casual Dialing”  
Calls will be handled by the “dialed” Long Distance Company

1-700-555-4141  
Long Distance Company  
Identification Line

# Long Distance Calling

*More Expensive*

## Operator-Assisted Calls

Long distance calls requiring an Operator are the most expensive. Calls placed from public (coin) telephones and certain calls from hotels, as well as most types of calls listed below are Operator-Assisted calls.

### **To place an Operator-Assisted call:**

*Within your Area Code, dial:*

**0 + phone number**

*Outside your Area Code, dial:*

**0 + Area Code + phone number**

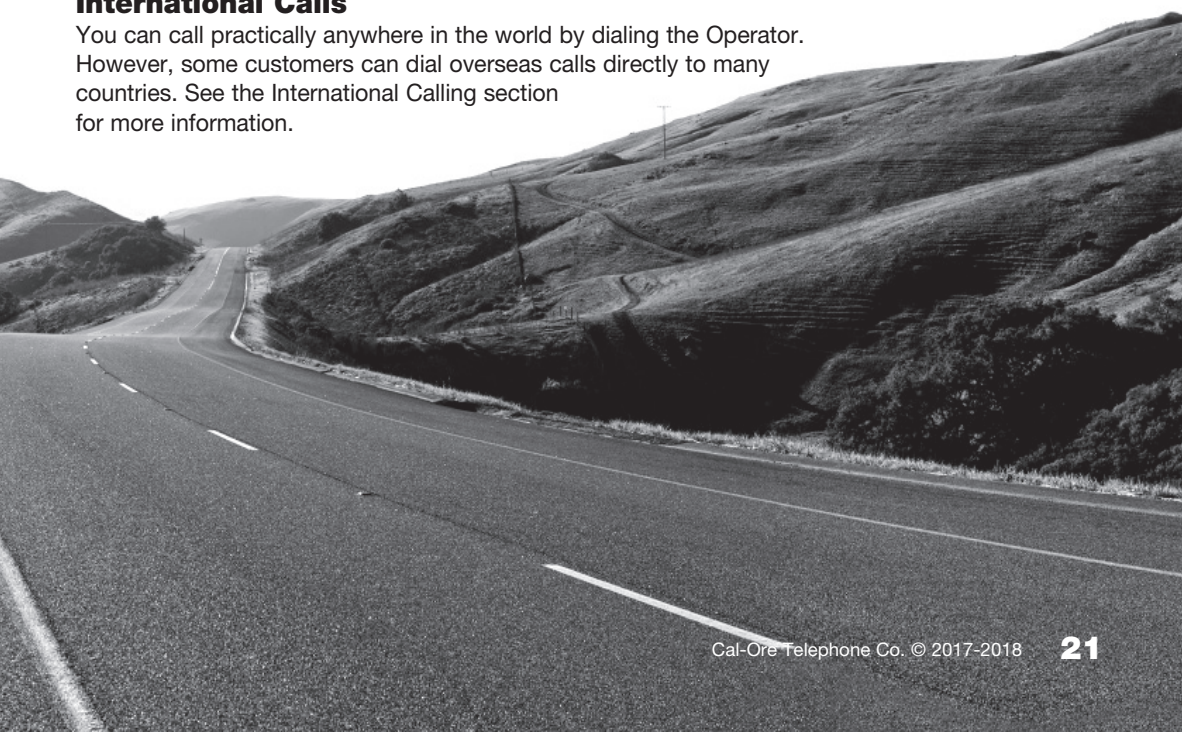

## Examples of Operated-Assisted Calls

### Collect Calls

You may call collect if the person or firm you are calling agrees to pay the charges. In your Service Area (530), dial "0" – XXX-XXXX. When calling out of the Service Area dial "0" – area code- XXX-XXXX; an Operator will come on the line to assist you with your call.

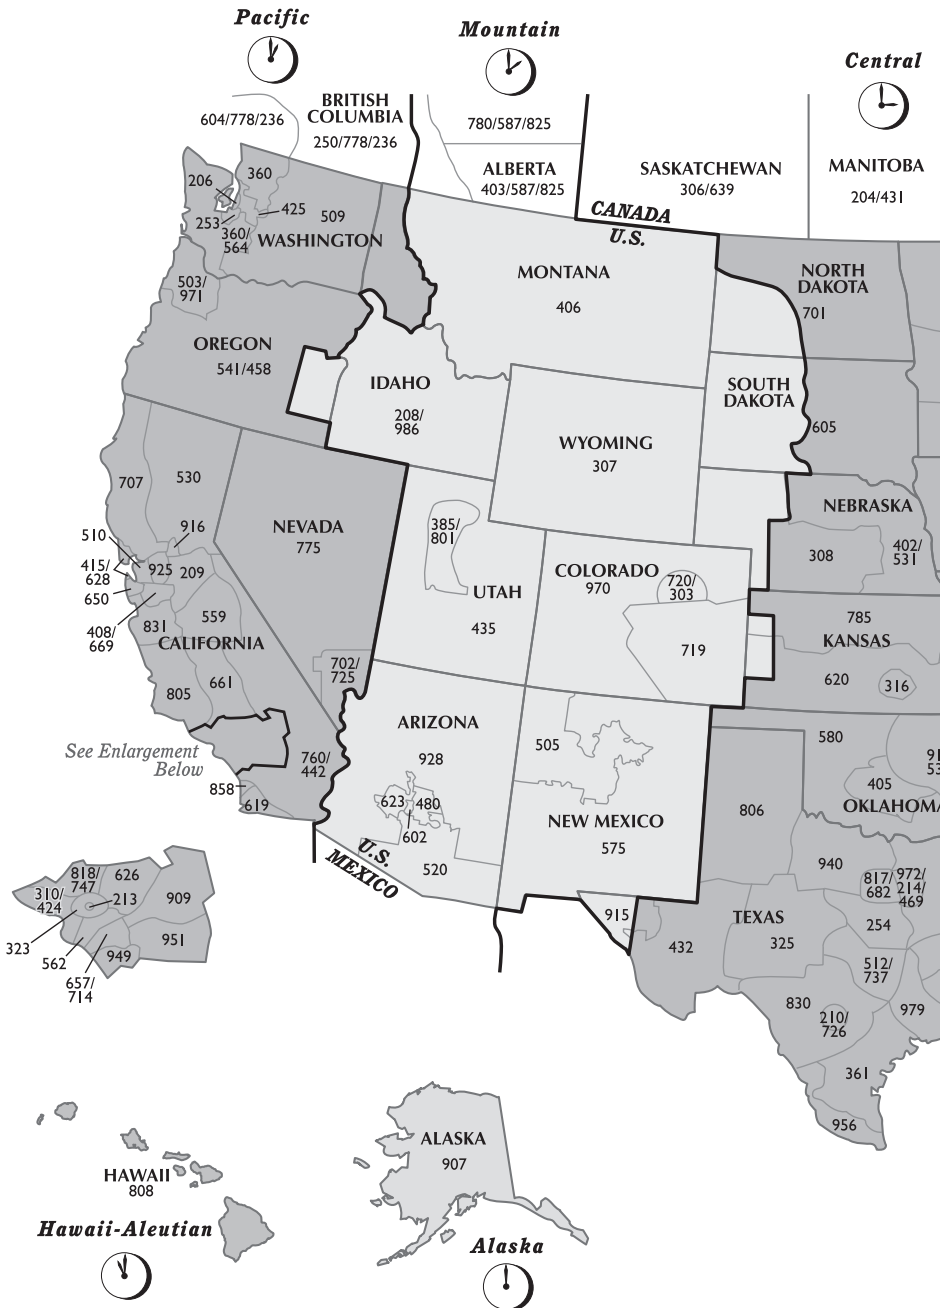

### International Calls

You can call practically anywhere in the world by dialing the Operator. However, some customers can dial overseas calls directly to many countries. See the International Calling section for more information.

# International Calling

For Your Information

## How to Dial Most International Calls

International dialing codes are the same for all companies offering International Direct Distance Dialing. Depending upon your long distance company additional numbers or codes may preface the international access, country and city codes.

**Calls to the Bahamas, Bermuda, Canada, Puerto Rico and the Virgin Islands can be dialed in the same manner as long distance calls within the United States.**

## To Dial International Calls, Dial in Sequence

If you are calling from a touch-tone telephone, press the # button after dialing the entire number. This will speed your call along.

**After dialing any international call, allow at least 45 seconds for the ringing to start.**

*Additional assistance or information*  
Dial "00" (Operator) if you need assistance

1. To obtain a telephone number you don't know.
2. To obtain City Codes not listed in this section.
3. For help in completing a call.
4. For credit on a call on which you had difficulty, including reaching a wrong number.

## World Time Chart

To determine the time in the countries listed below:

Add the hours shown under Pacific Standard Time (PST) to your time.

Or if the hours are preceded by a minus sign, subtract from your time. The differences shown are based on Standard Time observed from the last Sunday in October until the first Sunday in April. This may vary in other countries.

	PST		PST		PST		PST		PST

### Notice To Subscribers

The Cal-Ore Telephone Co. has tariff rules dealing with the limitation of its liability in connection with errors and omissions relating to telephone service. These rules do not apply to situations involving willful misconduct, fraudulent conduct or violations of law. There are special provisions dealing with gross negligence. If an error or omission has been made by Cal-Ore Telephone Co. in your listing in the telephone directory, you may be entitled to a relief under these tariff provisions. In many instances you may be eligible for credit allowance in accordance with tariff rules. This information notice summarizes the provisions of such rules. For complete information on the tariff provisions, please contact the Cal-Ore Telephone Co. business office. Thereafter, if you wish further information, you may call the California Public Utilities Commission in San Francisco or Los Angeles.

The purpose of telephone utility credit allowances and limitation of liability rules is to relate the telephone company's responsibility for errors or interruptions to amounts not to exceed the pro rata charges for services rendered. The basic rule applicable to all telephone services is as follows:

Except as provided in Sections (1) and (2) of this rule, the liability of the utility for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in any of the services of facilities furnished by the utility (including exchange, toll, private line, supplemental equipment, TWX, directory and all other services) shall in no event exceed an amount equal to the pro rata charges to the customer for the period during which the services or facilities are affected by the mistake, omission, interruption, delay, error or defect.

The specific form of rule applicable to interruption in exchange telephone service are as follows:

The utility shall allow, for interruptions in exchange telephone service of 24 hours or more not due to conduct of the customer, an amount equal to the fixed monthly charges for exchange service multiplied by the ration of the days of interruption to thirty days. When interruptions continue beyond 24 hours, credit allowances will be given in successive 24-hour multiples.

Similar but not identical provisions apply to private line and other telephone services. For details or provisions covering allowances for interruptions in such other services you should call the Cal-Ore Telephone Co. business office.

For errors or omissions in listings or advertisements in telephone directories, allowances are provided as follows:

For listings in the telephone directories furnished without additional charge, an amount not in excess of the minimum monthly charge to the customer for exchange service during the effective life of the directory in which the error or omission occurred.

For listings in telephone directories furnished at additional charge, an amount not in excess of the charge for the listing during the effective life of the directory in which the error or omission occurred.

For advertisement in classified directories, an amount based upon pro rata abatement for the charge in such degree as the error or omission affected the advertisement.

For information on allowances available in the event of errors or omissions in information records or in TWX or other special directories, you should contact the Cal-Ore Telephone Co. business office.

### Consumer Information

**DEFINITION OF NONPUBLISHED SERVICE:** Upon a subscriber's request, subscriber name, address, and telephone number are not listed in any telephone directory, street address directory, or in the directory assistance records available to the general public.

Agencies authorized to receive nonpublished information (name, address, and telephone number) and credit information, under Ordering paragraph 4. a: CITY DEPARTMENTS: Fire, Police, State Police, Organized crime and criminal intelligence, Branch of the Department of Justice, Enforcement and Investigation Branch of the Department of Justice, Wildlife protections Board of the Dept. of Fish and Game, Arson Investigation Unit of the Dept. of Forestry, Dept. of Health; FEDERAL: Bureau of Alcohol, Tobacco, and Firearms, Drug Enforcement Administration, Federal Bureau of Investigation, United States Attorney, United States Marshal, Secret Service, U.S. Postal Inspection Service. **PROCEDURE FOR RELEASE OF NONPUBLISHED INFORMATION TO AUTHORIZED AGENCIES:** Nonpublished information can be released to the above authorized agencies upon the agency's written request containing the name, status, and the telephone number, of the person making the (agency's) request, or in an emergency upon a telephone request followed within two days with a letter confirming the request; all information shall be furnished by the utility on a call-back basis. Such nonpublished information shall not be furnished unless the head of the authorized agency has provided the telephone utility with the name of the person responsible for requesting and receiving such information.

**RELEASE OF INFORMATION REQUEST TO NONPUBLISHED SUBSCRIBERS:** Notification in writing to the nonpublished subscriber of the requesting agency and the information disclosed shall be made within thirty days by the utility.

**RETENTION OF RECORDS:** All written documents pertaining to nonpublished service shall be retained by the utility for a period of not less than one year. In future contracts for nonpublished service between the subscriber and the telephone company, a current listing of authorized agencies having access to nonpublished information must be included, along with the rules promulgated herein for nonpublished service.

**PROCEDURE FOR RELEASE OF CREDIT INFORMATION AND CALLING RECORDS:** Subscriber credit information (including but not limited to can-be-reached number and address, account established date, and name of employer) and all calling records shall be released only upon receipt of legal process (including search warrants, subpoenas, summons, and court orders), except where credit information is requested by an authorized agency shall furnish the utility, within two days of the request, certification under penalty of perjury that such an emergency existed at the time of the original request. All such information shall be furnished on a call-back basis.

**RELEASE OF INFORMATION REQUESTS TO SUBSCRIBER:** Notification in writing to the subscriber of the requesting agency and the credit or calling records information released shall be made within thirty days by the utility unless the requesting agency certifies under penalty of perjury that such notification would jeopardize an ongoing criminal investigation.

**RETENTION OF RECORDS:** Records or requests for credit information and toll records, other than from utility's employees, shall be retained for a period of not less than one year from the date or receipt of such request.

**EXCEPTION TO PROCEDURE FOR RELEASE OF CREDIT INFORMATION AND TOLL RECORDS:** The procedure set forth above does not apply where the requestor is a collection agency working for the utility on the subscriber's account or is an Independent Telephone Company desiring information for the same purpose.

**TOLL RECORDS - FBI EXCEPTION:** Toll records may be released to the FBI without legal process where U.S. Attorney General has indicated in writing that the national security is involved.

Call Before  
You Dig!

Before you do any extensive digging or construction on your property or public lands, please give your local telephone company a call. They'll let you know if you'll run into any of their telephone lines.

Black Butte Towing & Recycling 239 S Main St Dorris.. 397-7697

To clean and sharpen your  
garbage disposal...

make ice cubes using equal  
parts water and vinegar.

When frozen,  
drop them into the disposer  
when it is running.

Follow up with a couple of  
slices of lemon, then rinse well.

To clean your microwave oven...  
 put a wet dishcloth in the center of the  
 oven. Turn the oven on high  
 and "cook" for 30 to 40 seconds.  
 The steam created will help loosen any  
 hardened spills. Use the  
 heated cloth to finish the job...  
 careful, it will be hot.
