2016 LINCOLN MKC

It's amazing what can happen when you focus on the here and now. Recognizing and honoring all the beauty that surrounds you in each moment, as well as that which emanates from within. In bringing MKC to life, the artisans of Lincoln looked toward the clean aesthetic of modern architecture and the graceful forms of nature for inspiration. Innovative technologies harmonize with its beautifully sculpted exterior and exquisitely trimmed interior in a uniquely elegant way. Empowering you to live in your moment – the 2016 Lincoln MKC.

Meticulously crafted seats  
are finished with French seams

Hand-stitched Wollsdorf  
leather-wrapped steering wheel

Genuine wood accents  
further elevate its refined nature

**THIS IS WHERE OPEN SPACE FEELS LIKE AN INTIMATE PLACE.**

We all need a spot to gather our thoughts and find our focus. MKC is made to be yours. Surrounded by the peaceful energy of its stunning interior, you'll relax into the comforting support of the **10-way power front seats** with 2-way power-adjustable lumbar support and driver's memory. **Bridge of Weir Deepsoft™ leather** trims the **cooled front seats**<sup>1</sup>, which can help keep you content regardless of the weather. Reclining rear seat backs are sure to please your passengers. And there's even a **particulate air filter** that traps pollen and other irritants, keeping them out of the cabin so you can breathe deeply and clear your mind.

<sup>1</sup>Available feature.

## EXPRESSIVE DESIGN

### WHERE YOU'RE CALMLY IN CONTROL OF YOUR WORLD.

Presentation matters. Which is precisely why MKC presents its controls to you in such a beautifully simple way. One that feels effortless from the very first time you slide behind its **leather-wrapped steering wheel**. Position your power driver's seat, **power<sup>1</sup> tilt and telescoping steering column**, and power sideview mirrors precisely where you like, then use the **convenient memory<sup>1</sup> feature** to store your settings. MKC will quickly recall them whenever you return. A touch of your finger is all it takes to change gears with the **push-button shift transmission**. When you want a little extra soothing, select your favorite hue among the 7 choices of **ambient lighting** to illuminate the footwells, cupholders and controls. It's easily changed to help you feel your best.

<sup>1</sup>Available feature.

## INNOVATIVE TECHNOLOGIES

It's important to have a sense of what's happening around you. A **Reverse Sensing System**<sup>1</sup> and rear view camera<sup>1</sup> are both standard on every MKC. The audible alerts and full-color visuals are really helpful when you're backing into or out of tight spaces. And the camera can even display visual guidelines to help you estimate distances.

We could all benefit from a little forward thinking. Thankfully, when you're pulling into a space, the **Forward Sensing System**<sup>1,2</sup> on MKC sounds an audible tone if its sensors on the front bumper detect an object in front of your vehicle.

Drivers often go out of their way to avoid parallel parking. **Active park assist**<sup>1,2</sup> with **park out assist** can help take the guesswork – and stress – out of it. Ultrasonic sensors measure open spaces to help the system find a parking spot as small as 1.2 times the length of your vehicle. When it does, take your hands off the wheel, then watch as the system guides you into it, while you control the brake, shifter and accelerator.

AUTO HIGH-BEAM HEADLAMPS<sup>2</sup> DIM THEMSELVES WHEN A LIGHT SOURCE IS DETECTED AHEAD

<sup>1</sup>Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>2</sup>Available feature.

Every now and then, we need a little nudge in the right direction. Fortunately, the **Lane-Keeping System**<sup>1,2</sup> can alert you with steering wheel vibration pulses if it senses you drifting out of your lane, and can then apply steering wheel torque to help direct you to steer back into it. The **Driver Alert System**<sup>1</sup> uses a forward-facing camera to detect lane markings, then emits a chime and displays a coffee cup icon in your gauge cluster if it detects that you've come too close to – or crossed – the lane markers too many times.

It always pays to plan ahead – and your MKC can help with that. Using advanced radar technology to constantly scan for slower vehicles in front of you, **adaptive cruise control and collision warning with brake support**<sup>1</sup> can automatically change your vehicle's speed to maintain your choice of 4 preset gaps – without you having to engage the brake or accelerator pedals. If collision warning with brake support senses a potential collision, the system flashes a warning across the windshield, sounds an alarm, then pre-charges the brakes and increases the brake-assist sensitivity to help provide full responsiveness when you brake.

It can be easy to miss when a vehicle has entered your blind spot. Just as its name suggests, **BLIS**<sup>®</sup> (**Blind Spot Information System**)<sup>1</sup> helps keep you aware of things that may be out of your line of sight. The system alerts you with a light in the corresponding sideview mirror<sup>3</sup> if its radar sensors detect a vehicle. **Cross-traffic alert**<sup>1</sup> notifies you with an audible warning and a light in your sideview mirror if it detects a vehicle approaching either side as you're slowly backing out of a space.

<sup>1</sup>Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. <sup>2</sup>Lane-Keeping System does not control steering. <sup>3</sup>BLIS replaces standard integrated blind spot mirrors.

*INNOVATIVE TECHNOLOGIES*

What could be easier than using your voice to command your car? SYNC® with MyLincoln Touch™<sup>1</sup> connects you to the world around you. A simple spoken word activates the system, and puts you at the helm of your audio, climate choices, music, information, calling, personal contacts and more – without ever having to take your hands off the wheel. In addition to the steering wheel-mounted 5-way controls, the system features a configurable, 8" color LCD touch screen, as well as a media hub with 1 USB port and an SD card reader, offering you several convenient ways to stay connected.

| SYNC

#### SYNC WITH MYLINCOLN TOUCH

Dial phone numbers and answer calls without picking up the phone – or taking your focus off the road. SYNC with MyLincoln Touch even mutes other audio sources so you won't miss an incoming call. Just say the word for voice control of your contacts, as well as the playlists on your USB device or smartphone.

THX

#### THX II CERTIFIED AUDIO SYSTEM

Every passenger inside MKC has a front-row seat to the concert courtesy of its enhanced THX® II Certified Audio System.<sup>2</sup> Patented sound-processing technology distributes your music's bass evenly throughout the interior and, together with 14 speakers, brings the rich, full sound of the studio to your everyday commute.

*INNOVATIVE TECHNOLOGIES*

<sup>1</sup>Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market. <sup>2</sup>Available feature. THX and the THX logo are trademarks of THX Ltd., registered in the U.S. and other jurisdictions. All rights reserved.

POWERFUL PRESENCE

**ACTIVE GRILLE SHUTTERS**

*automatically close to reduce drag and improve fuel economy, then open again to increase the airflow needed to help cool the engine.*

**ECOBOOST ENGINES**

When it comes to power, MKC keeps your options open. Take your pick of 2 turbocharged engines, a **2.0L EcoBoost®** or **2.3L EcoBoost!** both of which deliver refined performance and responsible fuel economy. Thanks to direct fuel injection that delivers fuel right into the cylinders, MKC provides 244 net PS<sup>2</sup> with 366 N•m of net torque<sup>2</sup> with the standard 2.0L. Offering you an even more impressive 292 net PS<sup>2</sup> and 448 N•m of net torque,<sup>2</sup> the 2.3L EcoBoost dramatically powers you forward with surprisingly graceful acceleration. For a more engaging drive, you can take advantage of the steering wheel-mounted paddle shifters on the standard **6-speed SelectShift® automatic transmission**. Or you can leave it all to MKC.

<sup>1</sup>Available feature. Availability varies by market. <sup>2</sup>Data as per GCC Standardization Organization certification.

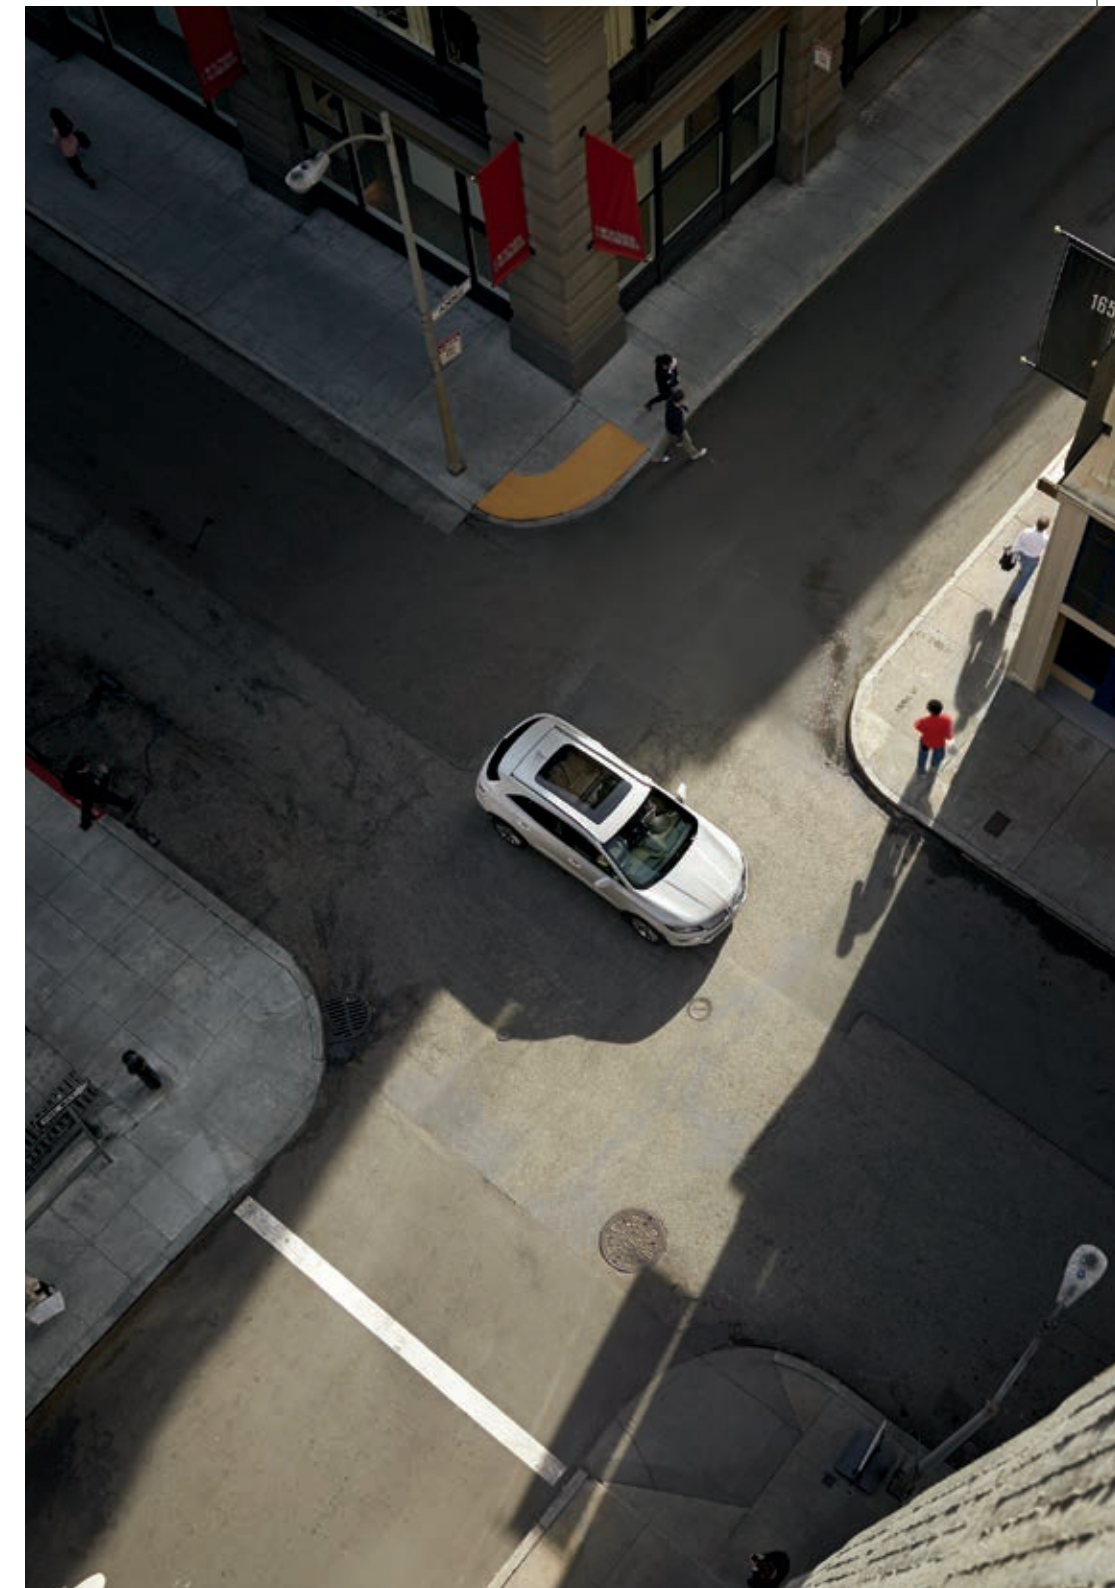

INTELLIGENT ALL-WHEEL DRIVE<sup>1</sup>  
CORNERS WITH CONFIDENCE

## POWERFUL PRESENCE

This is where technology and life gracefully intersect. **Lincoln Drive Control<sup>1</sup>** featuring **continuously controlled damping (CCD)** uses sensors to read the road – and your driving input – every 2 milliseconds, then quickly adjusts the firmness and damping at all 4 tires to help your MKC be in harmony with the road. The system also lets you select between 3 drive modes – Comfort, Normal or Sport – to match your driving style. **Electric power-assisted steering (EPAS)** automatically adjusts your steering for different driving situations. At the same time, **Torque Vectoring Control** automatically adjusts the speed between your front wheels for enhanced cornering and agility.<sup>2</sup> Handle life's twists and turns, confident in the knowledge that your Lincoln MKC is engineered to adapt.

<sup>1</sup>Available feature. <sup>2</sup>Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

## PREMIUM EXPERIENCES

**WHERE PERFECT FORM MEETS FUNCTION. AND EVERY DAY STARTS OFF ON THE RIGHT FOOT.**

Controlling the **foot-activated hands-free liftgate**<sup>1</sup> is as simple as kicking your foot beneath the rear bumper. You can even set the opening height that works best for you. As the liftgate rises, you'll gain access to an abundance of space – **over 1,500 liters** with the **60/40 split rear seat** folded flat. And MKC easily transforms to meet your changing needs. The **power panoramic Vista Roof**<sup>®1</sup> with power sunshade lets you and your passengers enjoy magnificent views, day after day.

<sup>1</sup>Available feature.

**LINCOLN MKC ANTICIPATES YOUR ARRIVAL FROM ABOUT 3 METERS AWAY AND WELCOMES YOU WITH DISTINCTIVE LIGHTING.**

Sensors inside the vehicle detect your key fob as you approach, triggering a seamless series of welcoming events that bring your Lincoln MKC to life.

Designed to delight, its LED exterior lamps gracefully fade up, while a luminous welcome mat featuring the Lincoln logo is cast upon the ground on each side of the vehicle.

As you let yourself inside, note the warm glow of the LED illumination in the door handle pockets, the intensity of which has been fine-tuned for each exterior color.

Relax into the driver's seat and close your door as the auto-folding, power sideview mirrors slide into your personalized position.

Then press the pulsing start/stop button on the instrument panel that's been anticipating your arrival, and make your departure in true Lincoln style.

**SOME OF ITS BEST FEATURES ARE HIDDEN BENEATH THE SURFACE – HELPING KEEP YOU SAFE AND SOUND.**

AdvanceTrac® with RSC® (Roll Stability Control™) helps MKC grip the road and keep you on your intended path.<sup>1</sup> Intelligent all-wheel drive<sup>2</sup> optimizes available traction to help you power through challenging driving conditions. There are also **7 standard airbags**, including a driver's knee airbag, to help protect you in the event of a collision.

To protect your solitude, noise inside the thoughtfully designed cabin is greatly diminished through the use of **felted wheel wells**, specially **laminated glass** that reduces outside road noise, and pedestal-style door-mounted sideview mirrors that are designed to minimize wind noise. Additionally, **active noise control** uses microphones in the cabin to detect unwanted noises, then sends opposing sound waves through the vehicle's audio system to cancel those sounds. Just another way MKC exceeds expectations.

<sup>1</sup>Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. <sup>2</sup>Available feature.
