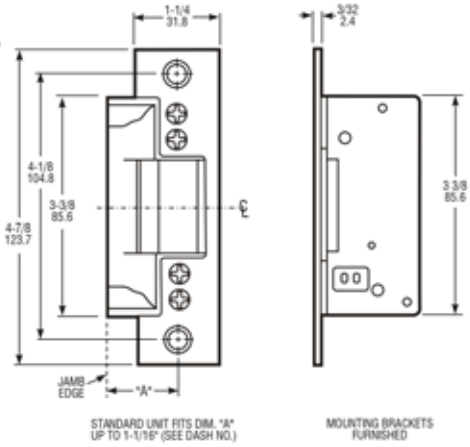
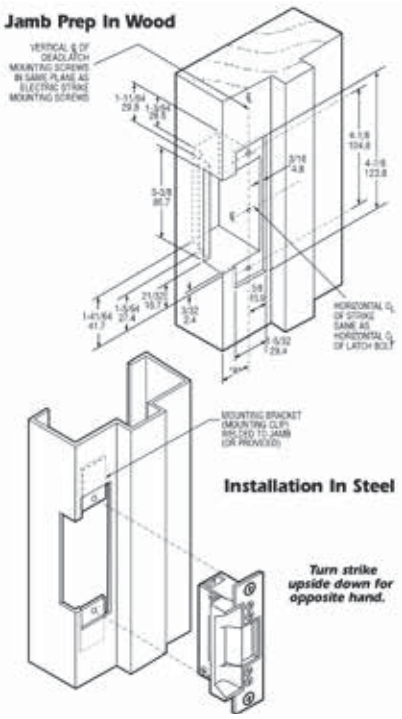
Adams Rite - *Electric Strikes*

7140 Series

Product Description & Features

- For use with key-in lever latches
- **Lip Extension:** 1.06” from door line to jamb edge
- Faceplate measure 1-1/4” x 4-7/8”
- ANSI/BHMA E09321 Grade 1
- **Strike Opening:** 5/8” x 1-7/16” x 1/2” deep bolt retainer jaw is made of stainless steel.
- **Case:** Approximately 1” x 3-3/8” x 1-5/8” deep
- Fail secure operation
- **Voltage:** 24 VAC / 24 DC continuous, 24 VAC / 24VDC intermittent



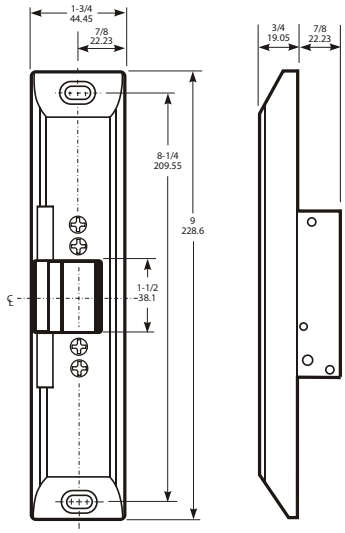


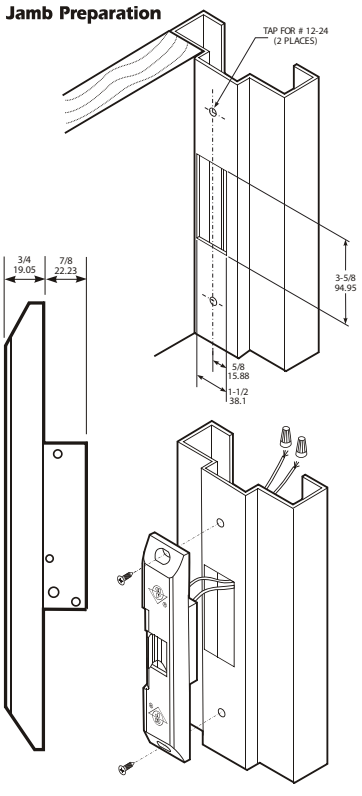
Stocked Product:
Finishes: Aluminum, Dark Bronze

74R1 Series

Product Description & Features

- For use with Von Duprin, Monarch, Precision and Pullman latches
- **Lip Extension:** 1.06” from door line to jamb edge
- Faceplate measure 1-3/4” x 9-3/4”
- ANSI/BHMA E09321 Grade 1
- **Strike Opening:** 5/8” x 1-7/16” x 9/16” deep bolt retainer jaw is made of stainless steel.
- **Case:** Approximately 1” x 3-3/8” x 1-5/8” deep
- Fail secure operation
- **Voltage:** 24 VAC / 12 VDC intermittent 24 VAC / 24 DC continuous

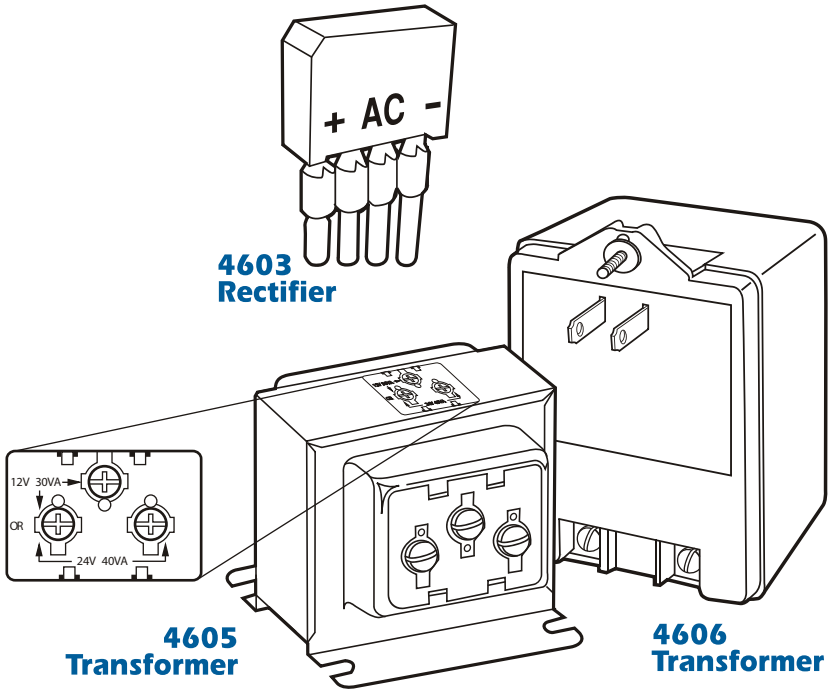




Stocked Product:
Finishes: Aluminum, Dark Bronze

Adams Rite - *Electric Strikes*

Accessories



4603 Rectifier

Converts low voltage AC current to DC of same voltage. Installs in low voltage line between transformer and strike. Full hyphen bridge type. Rated 2 amps. (200 PIV).

AC CONTINUOUS

AC Continuous duty strikes are supplied with a 4603 Rectifier attached to the solenoid leads. These are silent operation strikes -- without the buzzing sound. They use a DC solenoid, but the externally attached full-wave bridge rectifier allows them to be connected to AC power.

4605 Transformer

Converts 120VAC to 12VAC/24VAC. Rated 40 Volt-amp output assures plenty of power for strike release.

4606 Transformer

Converts 120VAC current to 24VAC. Plugs into standard wall outlet.

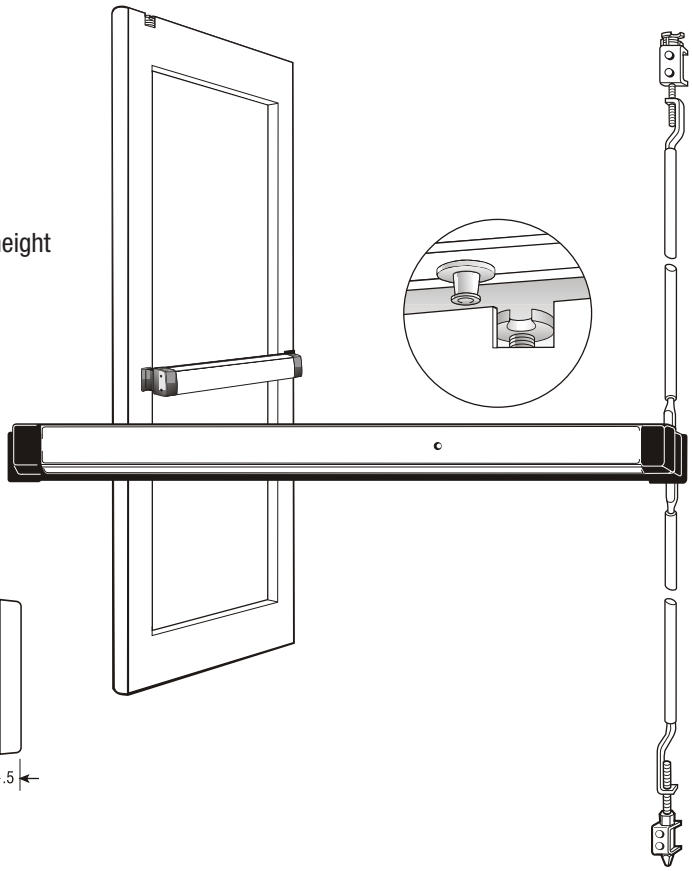
Adams Rite - *Exit Devices*

8600 - Series Narrow Stile Concealed Vertical Rod Device

DIMENSIONS & SPECIFICATIONS:

- ANSI/BHMA E09321 Grade 1
- **Handing:** Device is non-handed
- **Bar Height:** Adjustable from 30” to 44”
- **Projection:** 2-5/8” when fully projected 1-5/8” when dogged
- **Stile Width:** 2” minimum
- **Door Height:** Adjustable for doors up to 66” above selected bar height

Stocked Product:
Sizes: for 36” width door
Finishes: Aluminum, Duro

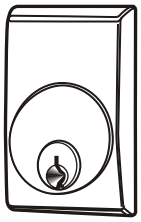


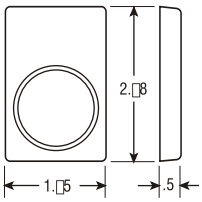
Accessories
8650 - Escutcheon

Required to mount any make standard Mortise cylinder, with MS cam, on outside of door.

- Less Mortise Cylinder

Stocked Product:
Finishes: Aluminum, Duro





8650

8800 - Series
Rim Exit Device For Aluminum Doors

DIMENSIONS & SPECIFICATIONS:

- ANSI/BHMA E09321 Grade 1
- **Handing:** Device is non-handed
- **Door Thickness:** Suits 1-3/4” up to 2-1/4”
- **Projection:** 2-5/8” when fully projected 1-5/8” when dogged
- **Stile Width:** 2” minimum
- **Door Height:** Adjustable for doors up to 66” above selected bar height
- **Stile Width:** 8800 - 2” for aluminum style

Features

- Patented “standard” bolt interlocks door to frame.
- Push bar is anodized or clad not plated.
- Unobstrusive design for clean sight lines.

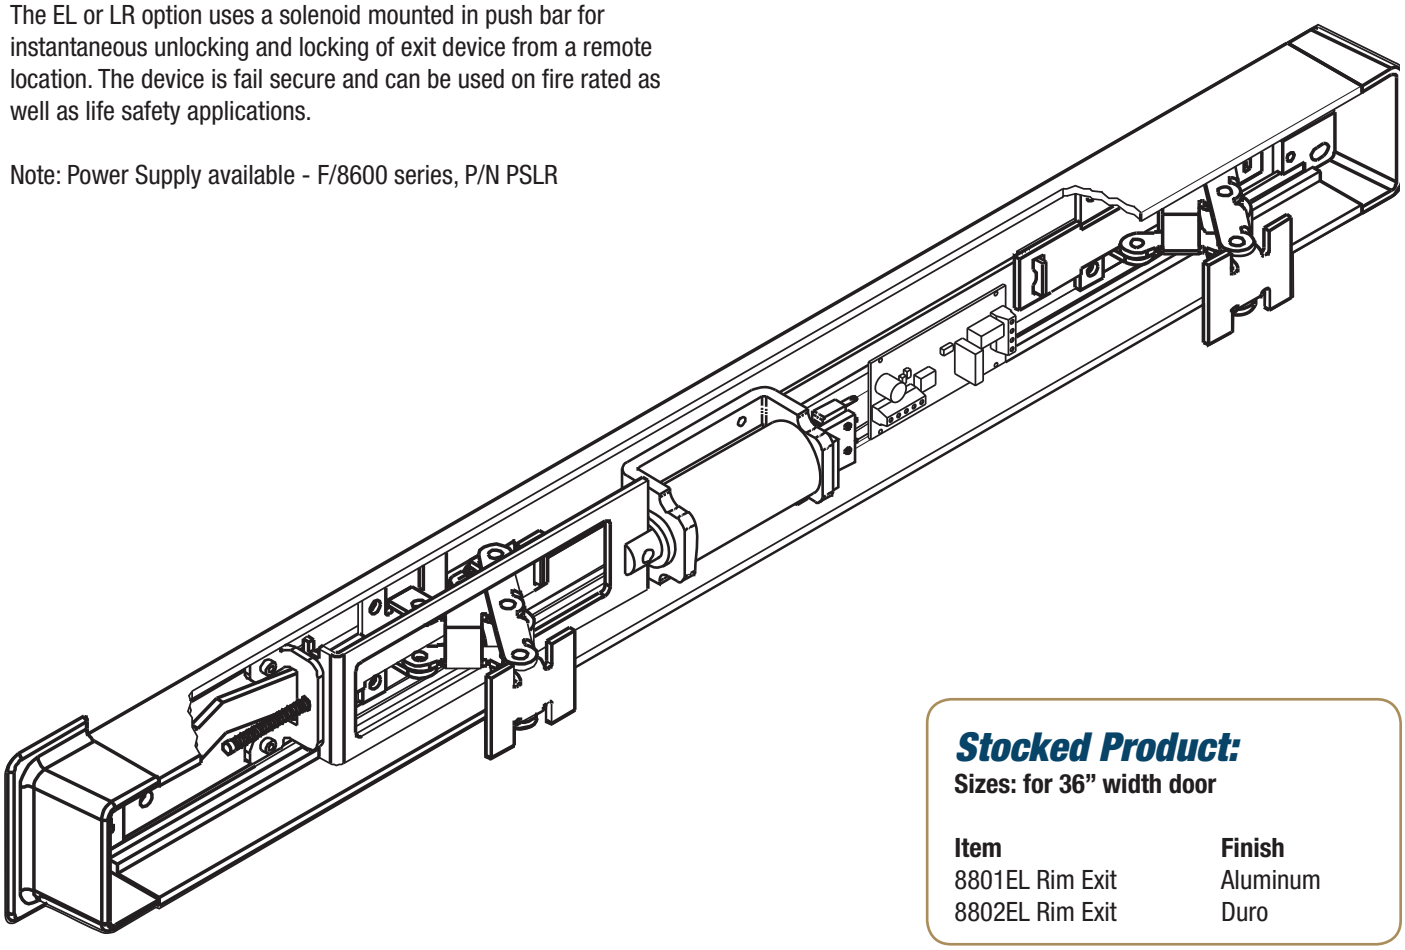
Stocked Product:
Sizes: for 36” width door
Finishes: Aluminum, Duro

Adams Rite - *Exit Device Options & Accessories*

Electric Latch Retraction - *For all Adams Rite Exit Devices*

The EL or LR option uses a solenoid mounted in push bar for instantaneous unlocking and locking of exit device from a remote location. The device is fail secure and can be used on fire rated as well as life safety applications.

Note: Power Supply available - F/8600 series, P/N PSLR



Stocked Product:

Sizes: for 36" width door

Item	Finish
8801EL Rim Exit	Aluminum
8802EL Rim Exit	Duro

Adams Rite - *Store Front Hardware Accessories*

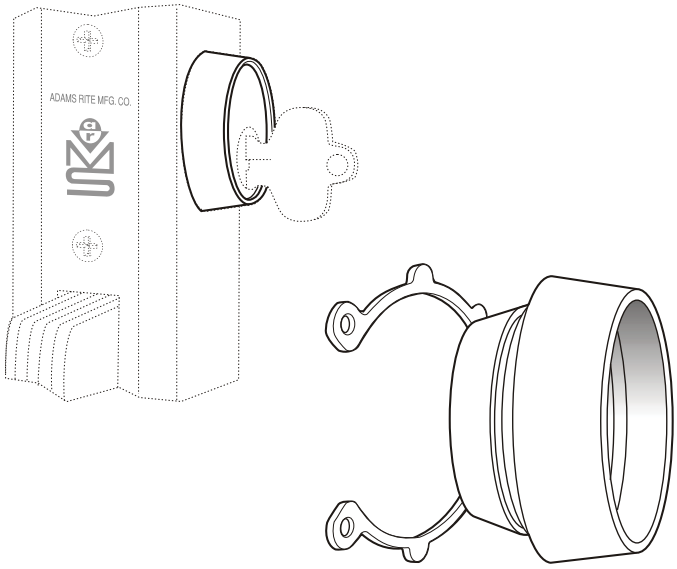
MS4043 Series - Cylinder Guard

SECURITY RING

Made of hardened steel. Free-swiveling when properly installed.

RETAINER RING

Hardened steel, plated for corrosion resistance.
Permits security ring to swivel.



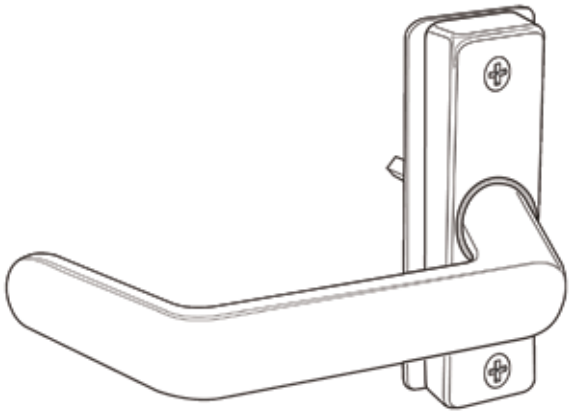
Stocked Product:
Finishes: Aluminum, Dark Bronze

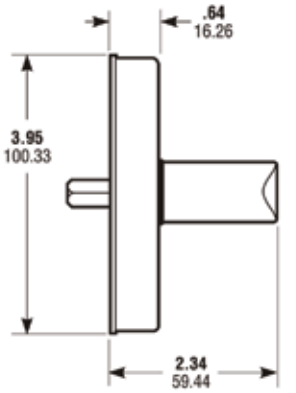
Adams Rite - *Store Front Hardware Accessories*

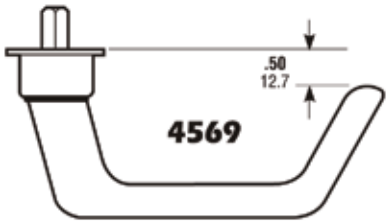
4569 - Eurostyle Deadlatch Handle

Product Description & Features

- **Escutcheons:**1-3/8“ x 4”, designed to match the narrow stile door’s clean lines. Steel mounted base is secured by hidden screws and has two large helical compression springs. (One becomes a “spare” once handling is given.) A 1/4” square heat-treated spindle is part of escutcheon assembly, which interlocks with the cam plug. Finished to match lever.
- **Function:** Designed to operate 4500/4700/4900 Series latches by a natural downward hand movement. These handles incorporate an activator cam disc that mounts on the handle escutcheon and fits solidly into the cylinder hole of the latch. Not intended for use as a door pull.
- **Cam Plugs:** Secured in latch body by cylinder setscrew, plug is also rigidly tied to handle escutcheon by hardened steel pins. Handing can be reversed by removing a spring clip, “flopping” the cam and replacing the clip.
- **Levers:** Lever of cast aluminum, in choice of 130 Satin Aluminum or 121 Dark “Bronze”. Modern European styling offers a generous hand grip with shank offset away from the narrow stile jamb for hand safety. 4569 has return end to meet anti-snag code requirements.

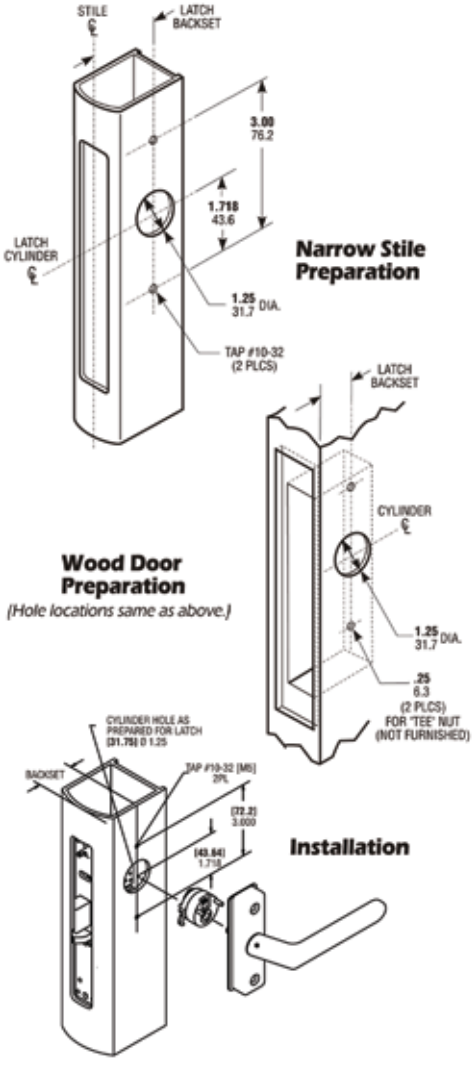






REVERSIBLE 4580
Cam Disc INCLUDED
(REQUIRED TO OPERATE
4500/4700/4900
SERIES LATCHES)

Stocked in Sacramento only



Stocked Product:

Item #	Handing	Door Thickness	Finish
4569-501-130	LH	1-3/4” - 2”	Satin Aluminum
4569-601-130	RH	1-3/4” - 2”	Satin Aluminum
4569-501-121	LH	1-3/4” - 2”	Bronze
4569-601-121	RH	1-3/4” - 2”	Bronze

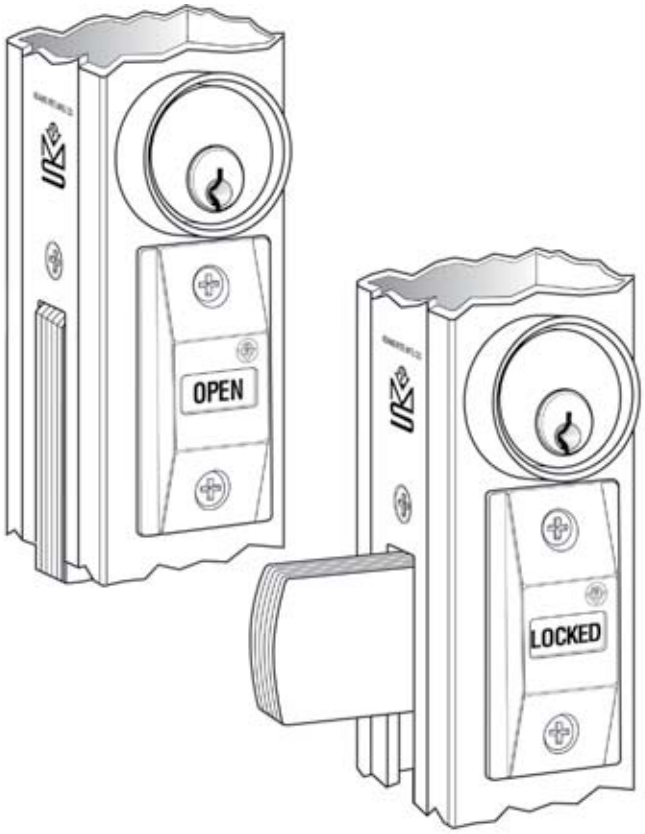
- Pre-handing can be specified LH or RH although re-handing in the field is easily accomplished. Standard handles are for 1-3/4“ thick doors.
- Packed individually with cam plug handed LH or RH as specified.
- Two 10-32 mounting screws furnished.

Adams Rite - *Store Front Hardware Accessories*

4089 - Exit Indicator

Product Description & Features

- **Function:** Provides unmistakable notification of an exit door's "locked" or "open" condition. Under many local building safety codes, this allows the use, in certain occupancies, of a security deadlock instead of less secure panic devices. It includes two permanent adhesive header signs: "THIS DOOR TO REMAIN UNLOCKED DURING BUSINESS HOURS." (That wording is according to Uniform Building Code.) The second sign for NFPA and other local codes reads: "THIS DOOR TO REMAIN UNLOCKED WHEN THE BUILDING IS OCCUPIED.
- **Message Panel:** "OPEN" appears in black letters on white background when lock is retracted and "LOCKED" in red letters when actuated. Also available with red (locked) and green (unlocked) wordless panels.
- **Material/Finish:** Indicator escutcheon is zinc alloy with 130 (Satin Aluminum) Ritecoat finish. Header sign is clear aluminum match with black letters.



COMPATIBLE LOCKS:

- **1830**
- **1870**
- **MS1837**

4015 - Threshold Bolt for Aluminum Stile Doors

Product Description & Features

- **Cylinder Height:** Standard threshold bolt rod is sufficient for cylinder height up to 53-7/16”.
  It is fully threaded and can be cut off for low cylinder heights.
  Also available to volume users , cut and threaded only for specific cylinder heights.
- **Adjustment:** Exact adjustment of threaded rod to cylinder height is locked in place by hexagonal threshold bolt.
- **Function:** Adding the 4015 bolt to a pivoted bolt MS deadbolt allows Maximum Security for pairs of doors by the turn of a single key. Simultaneously dropping steel hexbolt into the threshold and pivoting the massive MSÂ® bolt into the mating door’s stile, the two-point lock secures the entire double door entrance. The 4015 threshold bolt is harnessed to the rear of the pivoted bolt. It may be added to any basic MS1850S or MS1850SN deadbolt.
- **Threshold Bolt:** Hexagonal 3/8” flat to flat.
  Made of stainless steel.
- **Operation:** 360° turn of key or thumbturn in basic MS lock throws counterbalanced bolt into opposite door and drop-bolt into threshold. Key can be removed only when bolts are in a positively locked or unlocked position.
- **Options:** For “universal” application, specify 4015-18 with fully threaded rod for cut off to any cylinder height below 53”.

4016 - Header Bolt for Aluminum Stile Doors

Product Description & Features

- **Strike:** For header bolt a 1/2" diameter hole in metal frame is suitable, or for non metal installations, 4005 strike is availabel
- **Adjustment:** Exact adjustment of threaded rod to cylinder height is locked in place by hexagonal threshold bolt.
- **Door/Cylinder Height:** The standard version is designed for a 7' door height with cylinder height as low as 35". Can also be ordered for up to 10'door with additional extension.
- **Function:** Adding the 4016 Header Bolt and the 4015 Threshold Bolt to a pivoted MS® deadbolt allows for Maximum Security for pairs of doors by the turn of a single key. Simultaneously extending the stainless steel hexbolts top and bottom and pivoting the massive MS® deadbolt into the mating stile, the three-point lock secures the entire double door entrance. The 4016 can be added to any basic MS1850S, MS1850SN or for two-points top and bottom use with 1870/1870HM Cylinder-Operated Flushbolt. Not applicable to 7/8" backset locks.
- **Header Bolt:** Hexagonal 3/8" flat to flat. Made of stainless steel.
- **Threshold Bolt:** Hexagonal 3/8" flat to flat. Made of stainless steel.
- **Operation:** 360° turn of key or thumbturn in basic MS lock throws counterbalanced bolt into opposite door and hexagonal bolt into header strike. Key can be removed only when bolts are in a positively locked or unlocked position.
- **Options:** For "universal" application, specify 4015-18 with fully threaded rod for cut off to any cylinder height below 53".

MS1850S - Deadbolt for Aluminum Stile Doors *(1' x 6-7/8" Faceplate)*

Product Description & Features

- **Cylinder Backset:** 31/32", 1-1/8" or 1-1/2" only
- **Case:** Steel with corrosion-resistant plating. 1" x 6" x depth. (Depth varies by backset.)
- **Function:** A huge bolt of laminated stainless steel, nearly three inches long, activated by an uncomplicated pivot mechanism, has made this basic MS® Deadbolt the standard of the narrow stile door industry. The length of this bolt provides maximum security for a single leaf door, even a very tall and flexible one or an installation where the gap between door and jamb is greater than it should be.
- **Bolt:** 5/8" x 1-3/8" with 13/16" throw. Eight ply laminated stainless steel with Alumina Ceramic core defeats any hacksaw attack (including rod-type "super" hacksaws) while hook shape repels prybar attempts to "spread" door from its jamb or lift it off its track.
- **Strike:** See next page for dimensions of strike slot which can be cut in metal jamb. Trim plate, box strike, and armored strike are also available.
- **Operation:** 360° turn of key or thumbturn throws or retracts the counterbalanced bolt. Key can be removed only when bolt is in a positively locked or unlocked position. Lock accepts any standard 1-5/32" diameter mortise cylinder or thumbturn from either or both sides. Cylinder must have MS® dimensioned cam.

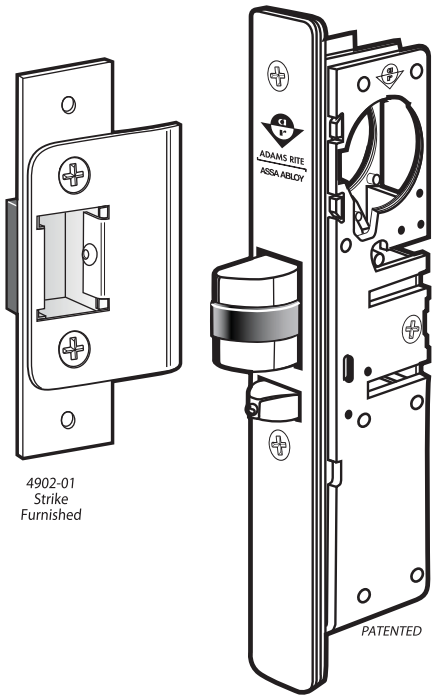
4510 - Series Deadlatch Deadbolt for Aluminum Stile Doors

Product Description & Features

- **Cylinder Backset:** 31/32", 1-1/8" or 1-1/2" only
- **Case:** Steel with corrosion-resistant plating. 1" x 5-13/16" x depth. (Depth varies by backset.)
- **Function:** Flexibility of traffic control during and after business hours is offered by 4510 Series Deadlatches. A reverse turn of the key while bolt is held retracted retains the bolt, to allow two-way traffic for hospitals, banks, stores and other buildings which require free entrance at certain times and exit-only at other times. Interchangeable, without stile modification, with any MS1850A or MS1850S deadbolt of same backset and faceplate shape. (They do not, however, provide the same maximum security level as the MS Deadbolt.
- **Latch Bolt:** 1/2" x 1" x 1/2" throw. All metal with hardened steel internal pins. Handing is reversible without special tools.
- Auxiliary Bolt: All metal. Deadlocks latch bolt to prevent "loiding" or case-knife entry.
- **Strike:** Standard strike furnished is 4902-01 for flat jamb where door closes flush or nearly flush. Also available: radius strike for opposite stile in paired doors; longer strike (4901) to cover slot strike of MS® lock; long lip strikes for centerhung doors.
- **Operation:** Turn key or operate handle to retract spring-loaded latch bolt. To hold bolt retracted, push it in and secure by reverse turn of key. Uses any standard mortise cylinder with MS®cam.

ANSI/BHMA Type E823, Grade 1



4902-01 Strike Furnished

Options

Backset, Faceplate Shape, Finish, Strike and Handing must be specified when ordering.

STANDARD PACKAGE

Individually boxed with strike and machine screws for mounting. Cylinders, paddle or handle available at extra cost. Shipping weight: 1-1/4 lbs. Also available in a 25 unit pack for volume users.

Alarm Lock

T2 - DL2700 Series - Stand Alone Digital Locks

Features:

- Clutch mechanism offers long lasting performance
- Heavy duty trim design with self contained, fully programmable, 12 digit key pad
- Non handed
- Key bypass capability
- Multi level user, up to 15 different codes
- Individual, group or total lockout codes

Specifications:

- Fits 1-5/8" to 1-7/8" door thickness
- 2-3/4" backset
- Power 5 AA alkaline batteries (included)
- Standard ANSI A115 series prep
- Compliance grade 1 heavy duty lockset
- Furnished standard Schlage C keyway for all overide locks
- IC model - **supplied less core**

Options

- "WP" Weatherproof with operated temperature Range -20F to 151F

Stocked Product

- **Finishes:** 26D (Schlage Override Only)
- **Key Override:** Best LC (less Core), Schlage C Keyway

T3 - PDL3000 Series - Digital Lock with Prox and Audit

Features:

- Accepts most HID proximity cards
- 2000 user codes including master, manager, supervisor & basic user
- May use card, code or card and code
- User data can be added to software via the lock, card reader module or PC
- Fingertip keypad or windows PC programmable
- Real time clock enables up to 500 schedule events and holiday schedules
- Rhodes/Saturn type design

Specifications:

• Keypad	Weatherproof all metal
• Backset	2-3/4" standard
• Door Thickness	1-5/8" to 1-7/8"
• Door Prep	ANSI A115 modified by additional throughbolt holes
• Strike	1-1/8' x 2-3/4" T strike and 1-1/4" x 4-7/8" ASA strike included
• Compliance	Grade 1, UL listed

Stocked Product

- **Finishes:** 26D
- **Key Override:** Schlage C Keyway
- **Lever type:** Rhodes/Saturn

Alarm Lock

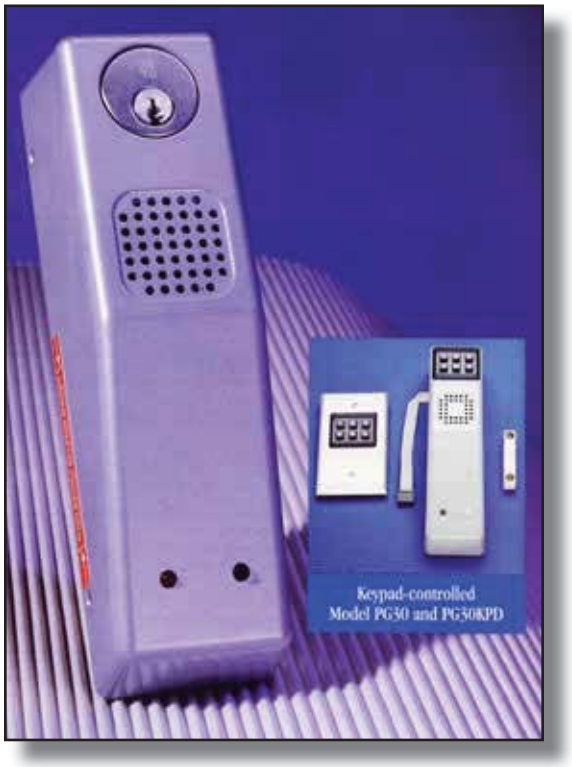
PG Series - Door Alarms

Features:

- Max flex terminals that provide:
  - continuous power with additional external power supply
  - multiple door monitoring with external reed switches
  - form C relay output permits remote monitoring
- Conventional plug in
- Improved 95db siren
- Visual magnetic alignment mode
- **Supplied less cylinder** - requires 1-1/4" mortise cylinder

Note: PG21 same as PG21E but without max flex terminals

Stocked Product
- PG21
- **Finish:** Metallic Silver



Model 700 / 715 - Alarm Exit Device

Stocked Product
- For 36" width door
- 700 and 715 models
- **Finish:** Aluminum

Features:

- Model 700 has changable 2 minute alarm cut off of manual reset
- Non handed
- Audible low battery warning and cam for exterior key control
- Includes door warning sign and bar dogging function
- Power 9VDC alkaline battery
- Lock bolt: 1" throw - heavy die cast zinc alloy with steel inserts
- Sound level 95db
- **Supplied less cylinder**, requires rim cylinder

Model 715:

- Stand alone delayed egress panic. 15 second delayed latch, instant egress in case of emergency or fire. Meets NFPA 101 Lite Safety code. Includes monitoring output for secondary siren. CCTV or remote monitoring
- **Supplied less cylinder**, requires rim cylinder

Door & Exit Alarms

Babcock Davis

ITK Series Access Panel / Fire Rated

Features:

- Fire rated walls and ceilings
- Wall rating U.L. 1-1/2 hour B door
- Ceiling rating Warnock Hersey 3 hour
- Continuous hinge
- Insulation 2" thick and fire retardant
- Frame 16 gauge cold rolled steel
- Door 20 gauge cold rolled steel
- Flange 1" wide
- Flush key / knurled knob
- Gray prime finish with baked on rust inhibitor
- Rough opening 1/4" over

K - Knurled knob/key operated latch bolt
Patented ball bearing latch bolt operated by a screw-in type knurled knob or flush key. This is the standard latching mechanism on our fire rated models.

Options:

1551 hardware pack includes screws, Key and Knob

B5806 - Series

GRAB BARS - CONCEALED MOUNTING WITH SNAP FLANGE

FEATURES

- Constructed of 18-gauge (1.2mm), type 304 satin-finish stainless steel tubing in 1 1⁄4" diameters.
- Concealed mounting flange 1⁄8" (3mm) thick, type 304 stainless steel plate, 2" W x 3 1⁄8" H (50 x 80mm), with screw holes for concealed anchors.
- Cover is 22-gauge (0.8mm), type 304 stainless steel with satin finish, 3 1⁄4" (85mm) diameter.
- Cover snaps over mounting flange to conceal screws.
- Peened nonslip gripping surface available.
- Optional mounting kits and anchor devices are available.

GRAB BAR BARRIER-FREE WASHROOM GUIDELINES:

Diameter of grab bars should be 1 1⁄4" to 1 1⁄2" (32–38mm) with 1 1⁄2" (38mm) clearance from the wall. Grab bars should not rotate in their fittings. The required mounting height is universally 33" to 36" (840–915mm) from the centerline of the grab bar to the finish floor. The structural strength of all grab bars and their mounting devices should withstand more than 250 pounds of force (1112 N). For all Barrier-Free toilet compartments, individual toilet rooms and guest bathrooms, it is recommended that a 36" (915mm) minimum horizontal grab bar be installed on the back wall over the toilet and a 42" (1065mm) minimum horizontal grab bar be installed on the side wall or partition nearest the toilet. This can also be accomplished with a single horizontal two-wall grab bar.

FEATURES

Satin-finish stainless steel. Bottom edges hemmed for safety. Hooks hold furnished reusable vinyl liner; removable for servicing. Capacity: 6.4-gal. (24.2-L). Unit 14" W, 18" H, 6" D (355 x 455 x 150mm).

B72974

SURFACE-MOUNTED PLASTIC, AUTOMATIC, UNIVERSAL ROLL TOWEL DISPENSER

Introducing Bobrick's new addition to a complete line of Automatic, Universal Roll Towel Dispensers:

Surface-Mounted Plastic, Automatic Roll Towel Dispenser, Model No. B-72974

The new Surface-Mounted Plastic Automatic Roll Towel Dispenser is a perfect complement to our stainless steel line of dispensers where budget is a concern, yet the building owner wants to maintain a high level of design, function, and flexibility.

Stocked Product
B-72974

FEATURES

- Automatic, hygienic, hands free operation.
- Universal roll towel dispenser offers flexibility and freedom from expensive proprietary paper.
- Dispenses universal, 1-1/2" to 2" diameter core, up to 8" diameter, 8" wide, nonperforated, non-proprietary rolls.
- Four paper saving features allow building owner to control cost of paper towels and comply with US EPA Reduce & Reuse Resource Conservation Initiative
  - Adjustable towel lengths set at 9", 12", or 15"
  - Adjustable time delays on second activation set at 1, 2, or 3 seconds
  - Paper Saver Feature with two optional sheet lengths on second activation: 25% or 12.5% shorter
  - Stub roll dispensing accommodates up to 3-1/2" diameter stub-roll with automatic transfer to full roll
- Extended 300,000-cycle, 1-year battery life with low battery indicator light; AC adapter available.
- Easy access battery compartment located in the front of cabinet.
- Durable beige body made with high-impact resin plastic and a navy translucent cover that allows view of the paper supply.

Calibre - Overhead Concealed Closers

CA2200 OHC Series

Product Description & Features

Underwriters' Laboratories Inc. Listed for units without hold open feature. UL10C for positive pressure and certified to conform to UBC 7.2 (1997) BS476 for Fire Safety.

Center Hung Door Application :
Double or Single Acting (applied door stop renders unit Single Acting). Adjustable 'S' type side loading or 'A' type and 'K' type end loading arms are available for center pivoted door applications.

Offset Hung Door Application :
Single Acting Offset 'JO' and 'VO' type top arms are available for butt hung or offset pivoted applications.

'S' type side loading top arm, CA3010-DP adjustable dual purpose pivot set, and the CA3010-FS anchor set will be furnished unless otherwise specified by the customer. 'A' type or 'K' type end loading, and 'JO' or 'VO' type offset arms are optional, but must be specified. Sold Separately.

Offset Hung Doors : Complete units for offset pivoted or butt hung aluminum doors and frames are furnished with a 'JO' or 'VO' type offset arm and CA3010-FS anchor set with all fasteners. (Offset pivots or butt hinges not included. Note: Top Door Stop / Arm Cover by others)

DOOR CLOSER FUNCTIONS

- Built-in positive Back Stop and Hold-Open positions are available:
- 105° Back Stop with Hold-Open
- 105° Back Stop -no Hold-Open
- 90° Back Stop with Hold-Open
- 90° Back Stop -no Hold-Open
- Handicap (ADA) spring tensions available for use on center pivoted door applications :
  8.5 lb. Opening Force (Center Hung door)
- Standard Fixed spring tensions available:
  Medium
  Dual Speed Control Valves :
  Closing and Latching speeds controlled by separate regulating valves, fully adjustable after installation.
- Adjustable CA3010-DP dual purpose radial ball-bearing bottom pivot set is provided for floor or threshold mounted (Side or End Loading) center pivoted installation. CA3010-GE bottom pivot sets are optional,and must be ordered separately.
- Universal application. Non-handed for left or right door application.
- Installs in an aluminum storefront header or transom as small as 1-3/4" x 4"
- Positive cam centering for alignment and to hold door closed against normal wind or draft conditions.
- Stable hydraulic door check fluid for any climatic operation and provides constant lubrication.

ML9080 EL 12V and 24V
ML9080 EU 24V with REX switch

Electrified Cylindrical Locks

ND80PEU **Modified Schlage ND Lock - 24 VAC/DC - Fail Secure**
ND80PEL **Modified Schlage ND Lock - 24 VAC/DC - Fail Safe**

Features:
- 24V Models
- Current draw 12V – 600 MA, 24V – 300 MA
- Optional REX (request to exit available/special order)
- 3 Year warranty

Options / Special Orders
- Sparta Design
- REX Switch

Stocked Product
- Finishes 613, 625, 626
- Design Schlage Rhodes
- ND80 12V EL (fail safe)
- ND80 24V EU (fail secure)
- ND80 24V EL (fail safe)

Notes:
- Available in all Schlage Designs and Finishes
- Current Draw 300mA @ 24V

Command Access Technologies

Electrified Exit Device Trim

Features:

- Modified Von Duprin 996L
- Continuous duty solenoid
- 12 Volts & 24 Volts Models AC or DC available
- Current draw 300mA @ 24V / 580mA @ 12V
- Handed
- **Less Rim Cylinder**

Stocked Product

- EU (fail secure) 24VDC, 26D Finish

Energy Transfer / Monitor Hinges

Features:

- 3 Year warranty
- 4' Leads on all hinges
- ETH x 2 WH – 2 wire 18 gauge 5 amps (16 amp in rush for 300 MS)
- ETH x 4 W – 4 wire 26 gauge 1.0 amp (per pair)
- ETH x 8 W – 8 wire 28 gauge
- Center located wire access holes for easy installation (5 Knuckle)
- All hinges are Hager brand
- UL - 60 LK Flexible connection all hinges
- Transfer pivot – 2 wire

Notes:

- 2 wire hinges come with 18 gauge wire for use with high current exit device
- All hinges are Hager unless specified other
- All hinges come with a 4' lead for quick install

Stocked Product

- ETH 2 wire, 4.5 x 4.5 613, 625, 626 finishes
- ETH 4 wire, 4.5 x 4.5 613, 625, 626 finishes
- ETH 8 wire, 4.5 x 4.5 613, 625, 626 finishes

Accessories

PM200

- Voltage range: 22 to 30 VDC
- Locally (at exit bar) supplies necessary 13-16 amp. in rush current to energize the latch-pull back exit device with most 1 amp. or greater power supply.
- The PM1's surge allows up to 700' wire run from the exit device with 18 gauge wire
- 2 year warranty

Command Access Technologies

EZ-REX Switches

Features:

Field Installable Request-to-Exit or AE switch (for Schlage L9000 and Command Access ML1 series mortise locks) - sends a signal to alert the control panel that the door is about to be opened by someone intending to exit from within the secured area

Command Access Concealed Door Loop (CDL)

Features:

for 3/4" offset Pivots

- Offset Pivot Applications (3/4" only)
- Easy Installation
- Supports up to 105 degree swing
- 3-Year Warranty

This patented Concealed Door Loop (CDL) is a low cost method of transferring low voltage power from the door frame to the locking device. Whereas typical door loops are surface mounted and remain constantly visible, the CDL slides into the frame completely concealing itself when the door is closed. Commonly used in storefront or main entrance applications with 3/4" offset pivots that swing up to 105°. The CDL's aesthetic appeal will benefit retrofits and new installations alike.

Command Access Technologies

EL Device Kit for Von Duprin

The electrified latch pullback kit is a simple, cost effective way to convert a non-electrified Von Duprin exit device to an electrified latch pullback exit device by simply replacing the standard mechanical Von Duprin baseplate with the Command Access modified EL baseplate contained in the kit. The kit also contains the PM200 power booster module as the standard solenoid interface module. Besides performing the basic coil switching this module allows up to a 700' wire run from the power supply with 18/2 wire and gives the user the option of using our PS series power supplies, Von Duprin's or most standard DC 1.5 Amp or higher power supplies. Once installed the exit device maintains the same appearance of the original manufacturers non-electrified mechanical device but can be remotely controlled via a card reader, prox reader, biometric reader, keypad or by an ordinary switch. The electrified latch-pullback devices are commonly used in high-occupancy/high-traffic conditions such as hospitals, airports, schools and they are commonly used with double doors with automatic openers.

Features

- High performance custom solenoid designed for strong latch-pullback and continuous duty applications.
- Standard high performance interface module (the PM200) ensures solid solenoid performance and may extend solenoid life.
- The standard PM200 interface module allows wire runs up to 700' with 18/2 wire from the power supply to the exit device, when used with PS1 or PS2..
- The kit works with most 1.5 A or greater switching, linear, or non-regulated DC power supplies* (see specs for output fuse and Relay requirements).
- Latch bolt monitoring (LBM) available Special Order
- Request-to-exit (REX) switch available Special Order
- Precision machined parts make for years of trouble free operation.
- "No-hassle" 3-year warranty
- UL Listed

Specifications

- Operating Voltage 24VDC + or - 10%
- Amperage – Surge current 12A for 150ms
  Holding current: 270 mA
- Coil Resistance
  Primary Coil: 2 ohms Holding Coil: 125 ohm
- Output fuse requirement – glass type fuse = 3.5 A or greater
  Resetable type = 1.0 A trip or greater
- Relay requirement – 5A or greater
- Solenoid Temp Max
  (outer solenoid housing) – 57° C (135 ° F)

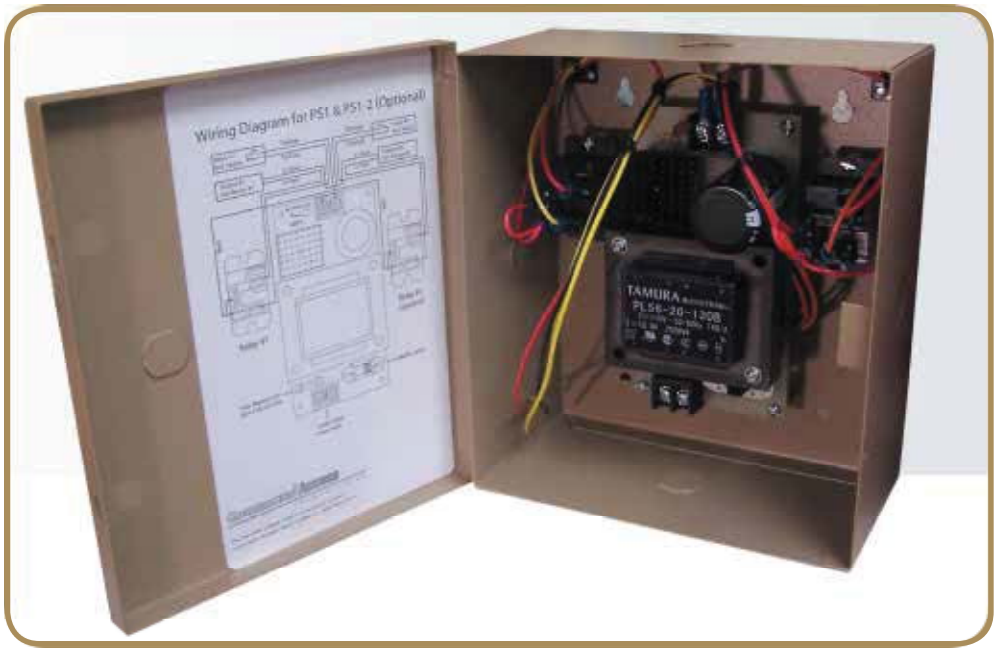
VLP KIT 48"

Command Access Technologies

PS1/PS1-2 Power Supply Unit



Application:

The PS1 and the PS1-2 are a heavy-duty low cost solution for powering electric latch-retracting exit devices. The PS1 offers a single heavy duty 20 amp relay while the PS1-2 includes a pair of these 20 amp relays. These power supplies offer raw, unregulated DC current which is ideal for the extreme inrush requirement of most solenoid-driven electric latch retracting exit devices. The power supply is housed in a sturdy yet metal enclosure.

Features

- Power supply delivers the necessary high current in-rush for Von Duprin
- Soid-state design eliminates problems associated with mechanical relays
- Single input/output
- No hassle 3-Year Warranty
- UL Listed

Specifications

- 110VAC input voltage
- 2.3 continuous @ 24VDC (56VA transformer) output current
- Onboard surge supply to provide 16A in rush current for 300ms.
- Heavy duty 20A replay (PS1-2 includes 20A relay X 2)
- Dimensions: 7” x 8” x 3.5”
- 2 year warranty

Stocked Product

- PS1, PS2

Deltana-Bolts

4FBS Series
4" Flush Bolt
Square Corner

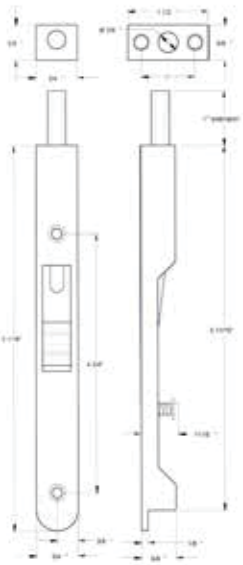
BOX QTY: 15 PC
CASE QTY: 150 PC

Stocked Product
- **Finishes:**
  US3, 10B, 15, 19, 26, 26D

Packaging: 1 flush bolt, #6 3/4" flat head Phillips screws, and 1 mortise strike packed in individual poly bag.



Deltana-Bolts

4SBCS & 6SBCS Series - Concealed Screw, Surface Bolts

Specifications:

Concealed screw surface bolts are packaged individually in poly bags. Strikes and screws are included and packed in separate poly bags.

Each concealed screw surface bolt is supplied with 3 strikes: Universal, Mortise, and Angle strike with matching solid brass Phillips's head screws.

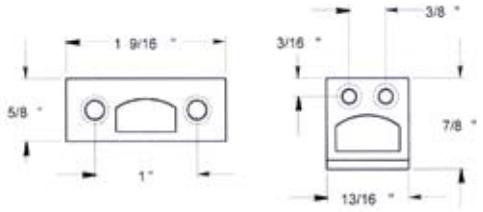
Knob diameter: 5/8"

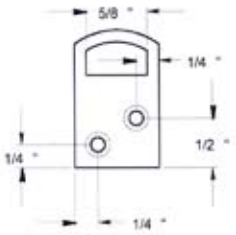
Fully concealed screw design improves security and appearance.

The surface bolt is designed with a unique ball bearing tension system that holds the bolt in any position, prevents scratching of the bolt, and ensures a smooth sliding action.

Stocked Product

- **4SBCS 4" x 9/16":** US3, 10B, 15, 15A, 26, 26D
- **6SBCS 6" x 9/16":** 3, 10B, 15, 15A, 26, 26D
- **Ives Equal# 40**





6SB, 8SB, 12SB, 18SB Series - Surface Bolts, Heavy Duty, Solid Brass

Specifications:

Solid brass bolt includes solid brass guides.

Each surface bolt is supplied with 3 strikes: Universal, Mortise, & Angle strike with matching solid brass Phillips head screws.

Rod resistance = 109 lbs.

Each strike and screws are individually-packed in poly bags.

Guides are held in place with a unique ball bearing system that eliminates scratches on the barrel of the bolt, prevents rattling of the bolt, holds the bolt in any position, and ensures a smooth sliding action.

DETEX

ECL 230D – Exit Control

Features:

- Single point deadbolt locking device, 1" throw
- Unauthorized pressing of exit bar emits high decibel, 100db alarm
- Inside key control allows alarm bypass
- Accepts rim cylinder
- UL listed panic hardware
- 9 volt standard battery included
- Required Cylinder: Rim (not included)

Stocked Product
- 230D

V40EB – Exit Control

Features:

- 100db alarm
- Powered by 9 volt battery included
- Low battery alert
- Red flashing LED alert when not armed
- Inside key control allows alarm bypass
- Accepts 1-1/8" mortise cylinder
- Latch bolt monitoring standard
- Required Cylinder: Mortise (not included)

Code Compliance:

- Grade 1 UL listed panic
- Fire exit hardware
- UL listed for 3 hours
- UBC97 standard 7-2
- Exceeds ADA, CA title 19 ANSI / BHMA requirements

Stocked Product
- V40EB for 36" door
- V40EBL for 48" door

EAX-500

Features:

- Low cost, self contained door alarm with piezo horn
- Surface door mount only
- Patented plastic template allows for fool proof alignment of internal magnetic door contact
- Temper resistant housing
- Taper cover allows installation on 2" minumum stile doors
- Inside key control requires 1-1/8" mortise cylinder with standard Yale cam (supplied less cylinder)
- For outside key control (optional) use RIM cylinder (not supplied)

Stocked Product
- EAX500

EAX-500 - Is designed for applications that require an alarmed exit device on secured doors. Replaces old model EA-500

DMH Touch Lock	10A, 26D
DMH Smart+ Prox Card	

DMH Touch - Touch Screen Digital Lock (Continued from previous page)

Specifications:

- **User PIN Code**
  1,000 individual users codes + credentials
- **Smart+ Prox Card**
  - Compatible with existing MIFARE infrastructures
  - Operates at 13.56 MHz in accordance with ISO14443A
  - Inductive Distance up to 1-3/16"(~30mm)
  - PVC 1/32" x 2-1/8" x 3-3/8"(.076mm x 54mm x 85.6mm)
- **Handing**
  Non-Handed, Field reversible levers
- **Lever mechanism**
  Free wheeling lever mechanism. When the outside lever is locked, it will rotate freely up and down while remaining securely locked.
- **Door thickness**
  1-3/8"~2"(35mm~51mm) standard
- **Backset**
  2-3/4"(70mm) standard or 2-3/8"(60mm) special order
- **Face plate**
  1-1/8" x 2-1/4" (28mm x 57mm) square corner, beveled, for 2-3/4"(70mm) backset standard
  1" x 2-1/4"(25mm x 57mm) square corner, beveled, for 2-3/8"(60mm) backset optional
- **Strike**
  ANSI Curved lip strike 1-1/4" x 4-7/8" x 1-3/16"(32mm x 124mm x 30mm) lip to center standard. Optional ("T", "Full-lip") strike available on request.
- **Exposed Trim**
  Lever: pressure cast zinc, plated to match finish symbols. All metal escutcheon provide quality and durability.
- **Latch bolt**
  1/2"(13mm) throw solid brass, deadlocking on keyed function.
- **Lever design**
  Saturn
- **Cylinder**
  6-pin solid brass "Schlage C" keyway standard with two brass keys per lock.
- **Finish**
  US10A/US26D
  Other finishes available with lead time.
- **Power source**
  Powered by 4 AA Alkaline battery with optional hardwire. 9 volt battery terminal for emegency power supply.
- **Environmental performance**
  Weather resistant
  Temperature ranging from -30°F~150°F(-30°C~+66°C) at 85% relactive humidity.

Programming Functions:

- **Master PIN code**
  It is used for programming and register some kinds of PIN codes. It can open door and factory default setting.
- **User PIN code**
  It can open door and registered up to 1,000 codes, 3-6 digits.
- **One-time user PIN code**
  It can only be used once and the PIN code information is deleted automatically after use.
  It can be registered up to 3 different codes, 3-6 digits.
- **Manager PIN code**
  It can open the door with lockout mode and be used like User PIN code.
  It can be registered up to 3 different codes, 3-6 digits.
- **Smart+ Prox Card**
  It can be registered with each registration number(No.1~999) consecutively by Master PIN code.
  If not needed anymore, delete registration number only.
- **Passage Mode**
  Enabling Passage mode allows continuous entry for non-restricted traffic. Passage mode enabled or disabled through feature programming by either the Master or Manager PIN code. When the unit is in Passage Mode, the unlocked padlock icon will appear on the screen.
- **Lock-out Mode**
  This feature is enabled by either the Master or Manager PIN Codes. When enabled, it restricts all User PIN Code access except Master and Manager PIN Codes. When the unit is in Lock-out, the padlock will appear on the screen.
- **Low Battery**
  When battery power is low, the low battery icon will begin blinking. If battery power is completely lost, the key and cylinder can be used or the 9 volt battery terminal can be used for emegency power.
- **Auto Re-lock time**
  After successful code entry and the units unlocks, it will automatically re-lock in a default of five (5) seconds.
  RE-lock time can be changed by either Master or Manager PIN code.
- **Sound Volume**
  Can be changed by either Master or Manager PIN code.
  The factory default is 2 Level. (Min1- Max3, Mute4).

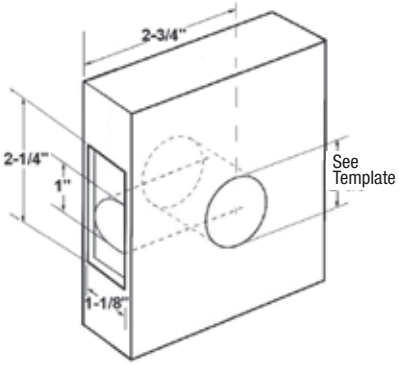
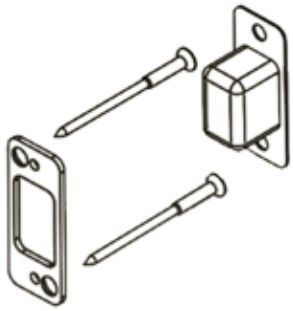
700 Series - Standard Duty Commercial Deadbolt - Grade 2





Wood Door Frame Reinforcer
(Concealed under strike/deeply anchored to jamb with 2 3" screws)

Features:

- Tested to exceed 150,000 operational cycles ANSI Grade 2 requirements for durability.
- 3" steel screws provide the added strength to prevent against break-in attacks for Wood Door. (Exclusive concealed wood frame reinforcer protects wood jambs from kick-in attacks.)
- 1" throw, high-strength deadbolt with hardened steel roller resists sawing and kick-in attacks.
- Standard dust box includes additional space inside strike box for true deadlatch. Provides deep anchoring and added strength.
- Concealed screws on double cylinder deadbolts for enhanced security and safety.

Specifications:

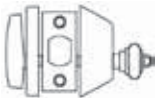
- Handing — Non-handed
- Door Thickness — 1-3/8" -1-3/4"
- Backset — 2-3/4" standard, 2-3/8" optional
- Faceplate — 1-1/8" x 2-1/4" standard
- Dead bolt — 1" throw with saw resistant hardened steel roller inserted
- Strike — 1-1/8" x 2-3/4" metal and wood strikes with strike reinforcement supplied standard
- Cylinder — 5 & 6 pin solid brass "Schlage C" keyway standard with two brass keys per lock
- Keyways — Available for all keyways of most major manufacturers

Options:

- SFIC (small format) interchangeable core and high security cylinders
- Compatible 6 or 7 pin cores with Best style
- Master keying, Grand master keying and construction keying

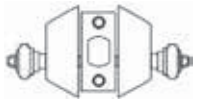
Functions:

DB751 Single Cylinder



- Deadbolt thrown or retracted by key from outside or by turning inside turn.
- Bolt automatically deadlocks when fully thrown.

DB760 Double Cylinder



- Deadbolt thrown or retracted by key from either side.
- Bolt automatically deadlocks when fully thrown.

DB780 - Door Bolt

- Deadbolt thrown or retracted by turn only.
- **No through holes in door. Designed for half door preparation.**
- **Half bore is 1-5/8" (Do not bore through)**

CODE COMPLIANCE:

Meets ADA Requirements specifically designed for Barrier Free Application
ANSI/BHMA A 156.5 Series 4000, Grade 2 strength and operational requirements
UL listed to USA and Canadian safety standards listed for 3 hour doors
Meets UL 10C and UBC 7-2 (1997) Positive Pressure

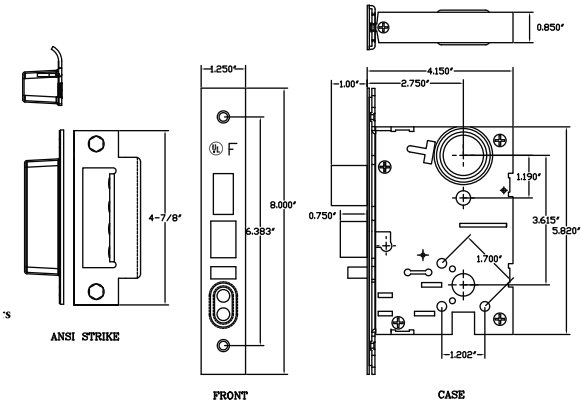
Heavy Duty Commercial Mortise Locks



Features:

- Non Handed
- Stock 6 pin Schlage "C" keyway, drilled for construction keying
- Door thickness — 1-3/4" standard, other thicknesses available when specified
- Backset — 2-3/4 "
- Lock case — Heavy gauge plated steel
- Armored Front — Wrought stainless steel or brass- adjustable angle and attached by screws to the lock case front
- Dead bolt — 1" throw, stainless steel with hardened anti-saw pins
- Latch bolt — Stainless steel latch and anti-friction insert
- Guard bolt — Stainless steel
- Stop works — Push buttons- chrome plated brass
- Strike — Stainless steel or brass, 4-7/8" x 1-1/4" curved lip ANSI strike
- Handing — Handed, reversible in field
- UL Listings — UL listed, 3 hour fire doors, single and pairs
- ANSI Specification — Meets all Grade 1 security, operational, dimensional and cycling requirements of ANSI/BHMA A156.13 Series 1000, Lock body conforms to Federal Standatd FF-H-106 Type 86/87

Specifications:

Mortise Locks – ML series.
All locks or latches are provided with 3 hour listed stainless steel dead latch or spring latch. Lock chassis shall be stainless steel, steel bar and cold rolled steel case with ball-bearing roller retractors.

Options:

- Trim: 06, 17, 03, specify "A" for sectional trim
- Finish: US26D
- Available with "clutch type" lever, Specify ML "C". Note: Different template required. Clutch only available with 06 lever.

CODE COMPLIANCE:

2789
Dogging Key

Features:

- Part number: 19REO X Finish
- Function stocked: "EO" exit only
- Trims Separately: Note: Lever trim is handed
  - 1906T Thumb piece (new number 910)
  - 1909NL Night latch (new number 910NL)
  - 1910L Entry Lever Dane (new number 912L)
  - 914KIL BE Key in Lever(sectional) Blank Escutcheon
  - 914KIL IC Key in Lever (sectional) Lever Entry X IC core
  - 914KIL KD Key in Lever (sectional) Lever Entry
  - 914KIL NL Key in Lever (sectional) Lever Night Latch
- Finishes: Aluminum and Duro
- Length: 36" and 48"
- ANSI A156.3-2001 Grade 1 standards, UL Listed
- Cut out: 161

The Monarch 19-R Series rim device that delivers superior panic hardware with modern touchbar styling. This non-handed device covers a 161 cutout and may be used on 13⁄4" narrow stile aluminum doors.

F19 Series - Fire Rated Rim Device

F570
Standard

Features:

- Part number: F19REO X finish
- Function Stocked "EO" exit only
- Trims Separately: See page
  - 1906T Thumb piece (new number 910)
  - 1909NL Night latch (new number 910NL)
  - 1910L Entry Lever Dane (new number 912L)
  - 914KIL BE Key in Lever(sectional) Blank Escutcheon
  - 914KIL IC Key in Lever (sectional) Lever Entry X IC core
  - 914KIL KD Key in Lever (sectional) Lever Entry
  - 914KIL NL Key in Lever (sectional) Lever Night Latch
- Finishes: Aluminum and Duro
- Length: 36" and 48"
- ANSI A156.3 Grade 1
- UL for 1-1/2" hour door
- Cut out 161

The F–19 Rim fire exit device is an excellent addition to the touchbar. This device is non-handed and is listed by UL for B label fire door installations on 4'0" x 7'2" single doors and/or 8'0" x 7'2" double doors with an F–4023 removable mullion or CRF-4023.

Monarch by Falcon - *Exits*

19 Series - Vertical Rod Device

3788
Strike

Manufactured to the same exacting standards as the 19 Rim, the 19–V Exit Device complies with most exit door requirements, and is fully reversible and surface applied. This device is regularly furnished with deadlocking top latch with latch retention and square bolt at bottom.

2789
Dogging Key

Latch retention hold is in the top latch. Retainer is released when it engages the strike.

Features:

- Part number 19VEO X Finish
- Function Stocked: Exit only
- Trims Separately: Note: Lever trim is handed See Trim page
  - 1906T Thumb piece (new number 910)

Exit Alarm - EAK Retrofit for 25 Series devices.

Features:

The Exit Alarm/ Hardwire (EA/ HWEA) feature provides a battery powered exit alarm to allow for a simple and effective means of monitoring the use of exits while still maintaining means of egress (for code requirements). When the touch bar is depressed the alarm will sound continuously, indicating that the exit has been engaged. The exit alarm can only be reset by way of a standard 1-1/8" mortise cylinder with standard "A" (5/16" wide x 3/4" long) cam. The design of the unit will allow the single 9V battery to last for at least six months (on standby mode).

EA-25-R-EO
Exit Alarm Device

EA/HWEA Sticker

- All solid state circuitry.
- Powered by one 9V alkaline battery (supplied).
- LED indicator showing armed status of alarm.
- 10 second delay (during arming) permitting egress.
- Outside key entry without activating alarm (will not work when set up as DM option to activate EA).
- Works with rim, mortise, concealed, surface vertical rod.
- EAK retrofit kit available for your existing devices.
- Alarm sounds continuously at 90 db level for approximately
- 10 minutes prior to automatic reset. Low decibel beeping will continue at intervals until manual reset (HWEA only).
- Low battery power indication.
- UL listed.

EAK
Exit Alarm Kit

* For applicat ions on surface vertical rod devices, specify DM (Device Monitor).
* * Not recommended as a retrofit kit for your existing surface vertical.

Falcon

19, 25, and XX Accessories and Options

F-4023 Shown

Removable Mullion

- The F4023, KRF-4023 and KR-4023 steel mullions are for use with the 19-R, 25-R, and XX-R devices on double door openings. Advantage: Increased security and tighter closure. Minimizes door warpage and sag. Regulates the flow of in-and-out traffic.
- Falcon removable mullions are easily removed and reinstalled for full width access.
- Rim devices are used on both leaves, attaining a perfectly symmetrical opening.
- The mullion assembly consists of a mullion, top and bottom mounting brackets and a screw pack.
- The F4023 and KRF-4023 fire-rated mullions also include four stabilizer blocks as required for labeled installations.
- Mullions may be cut on the job for doors under stock lengths.
- KR Mullions require 11⁄4" mortise cylinder with standard A cam.

Features

- Mullion fittings – ductile iron.
- F4023, 4023, KRF-4023 and KR-4023– 2" x 3" x height.
- 2923 mullion - 1-1/2' x 2-1/2' x height.
- Prime coat only.
- 7' or 8' door opening standard, other door opening as specified.

Cylinders
- Cylinder supplied only when specified.
- Cylinders keyed different unless specified keyed alike.

Sex Bolts
- 325 (1⁄4"-20 Thread)
- 425 (#10-24 Thread)

Falcon

8200 Series - Low Energy Operator

Designed to fit perfectly.

The small footprint and elegant design of the Falcon 8200 Series make it a perfect solution for a range of applications.

- Assisted living
- Retail
- Restaurants
- Hospitality
- Small office
- Ambulatory care

Features:

SmartLatch – Senses and overcomes external pressure conditions with a graduated energy assist for secure latching.

Push 'n' Go – Selectable feature allows door to open automatically as soon as it feels pressure.

Open Position Learning – Automatically sets the opening position to eliminate wall and door damage.

Obstacle Obstruction Detection – Safety feature stops and reverses door direction when distress or an obstruction is sensed.

Pre-Load Strike Assist – Removes load on strike lip with a one second delay allowing the door to release and automatically open.

LED Light Illumination – Light illumination on control box signals accurate installation and helps with connection diagnostics.

On Board Power Supply (12 VAC) – Powers the accessories without the need to install an external power supply.

Adjustable features:

- Hold-open time delay
- Backcheck/latch position
- Backcheck speed
- Opening/closing speed

Glynn Johnson

90 Series Surface Heavy Duty Overhead Door Holders/Stops

90 series door holders and stops provide long lasting protection for doors, frames and hardware. All models incorporate a heavy-duty channel/slide-arm design and offset jamb bracket. This design allows for simple field modification.

When the Hold-Open function is not a requirement, the Stop only model provides a reliable method of door control. The Stop only models may be used on fire doors.

Glynn Johnson

100 series Heavy Duty Concealed Overhead Door Holders/Stops

100 series provide a wide range of optional features and are ideal for use on entrance and vestibule doors, large doors, or door subject to abuse. These models are also furnished with an offset style jamb bracket designed for heavy duty applications, 100 series models will provide long lasting protection to doors, frames, hinges and other hardware. Templates provided allow for variable mounting positions, ranging from 85 degrees to 110 degrees of opening.

100 series is non handed

When the Hold-Open function is not required, the Stop-Only function provides the same effective door control. Can be used on fire doors. The friction tension is adjusted using an allen wrench and an open end wrench.

450 series Medium Duty Surface Overhead Door Holders/Stops

450 series holders and stops are designed for medium to light duty applications, They are ideal for openings that are subject to normal activity, providing protection for the door, frame and hinges

All models incorporate the popular channel/slide-arm design and offset jamb brackets. The improved design makes it easier to change functions in the field.

Non handed

450 F Friction Hold-Open models provide an alternative holding method ideal for patient room doors, closet doors or similar applications where multiple Hold-Open positions are desired.

450S Stop only is used when Hold-Open function is not required. The Stop-Only function provides the same effective door control without keeping the door held open. May be used on fire doors.

Hinge Thickness .085
Screw Size: Wood 3/4 x 9

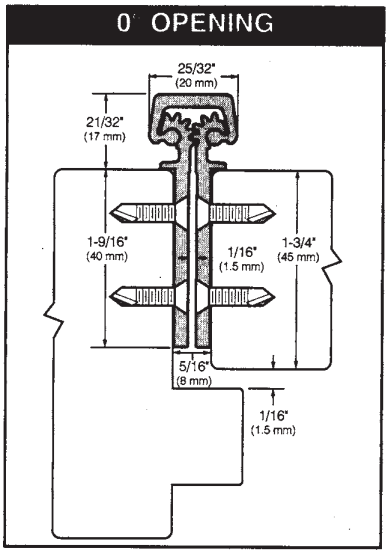
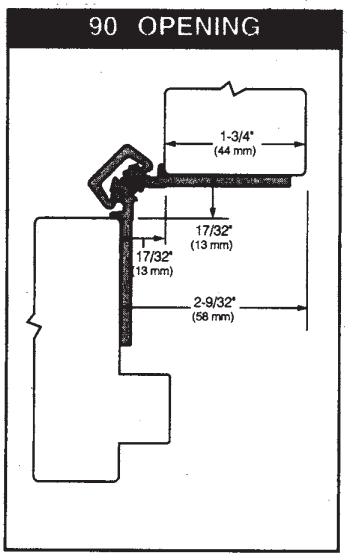
Roton by Hager - *Continuous Hinges*

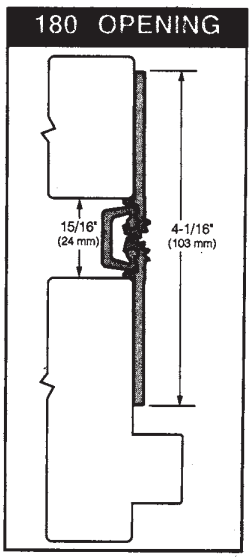
780-112 HD

Stocked Product
- 780-112 83" and 95" Clear

Features:
Individually packed
Clearance - 5/16" hinge side
Fasteners - Dril-kwick screws included
Length - Stock 83", 95"
Special order 79", 85", 119"
Door reinforcement - None up to 200 lbs, use 16 gauge channel
Frame reinforcement - None up to 200 lbs, use 16 gauge channel
Fire rating - Up to 3 hours
HD - Heavy duty







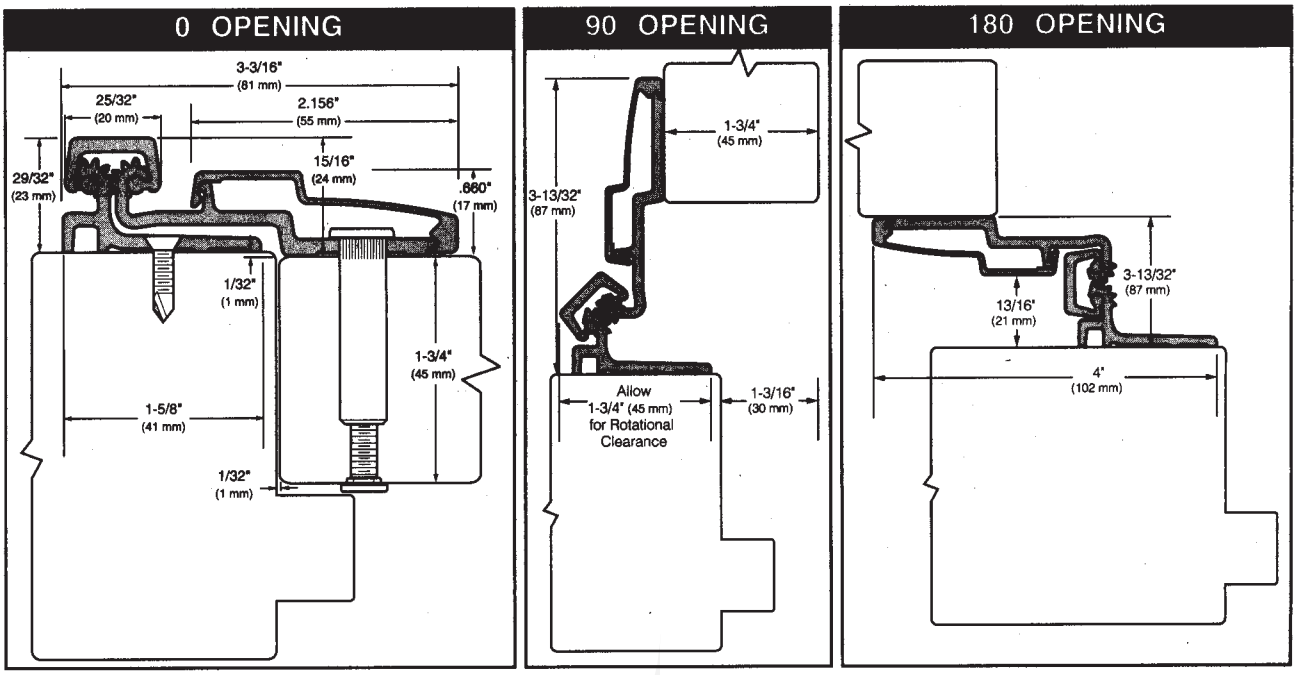
Roton by Hager - *Continuous Hinges*

780-210 HD Full Surface

Stocked Product
- 780-210HD 83” and 95” Clear, 83” Dark Bronze

Features:

Individually packed
Clearance - None required for hinge side, 1-5/8” minimum frame face required plus 3/16” rotational clearance
Fasteners - Dril-kwick screws and sexbolts included
Length - Stock 83”, 95”
Special order 79”, 85”, 119”
Door reinforcement - None required
Frame reinforcement - None required up to 200 lbs, use 16 gauge channel
Special features - Zero clearance required for hinge side. Can be used with any door and frame material
HD - Heavy duty, Fire Rated



Roton by Hager - *Continuous Hinges*

780-224 HD Mortised

Stocked Product
- 780-224HD 83” and 95” Clear

Features:

Individually packed
Clearance - 5/16” hinge side
Fasteners - Dril-kwick screws included
Length - Stock 83”, 95”
Special order 79”, 85”, 119”
Door reinforcement - None up to 200 lbs, use 16 gauge channel
Frame reinforcement - None up to 200 lbs, use 16 gauge channel
Fire rating - Up to 3 hours
HD - Heavy duty

EC1100 - Steel with Steel pin

Plain Bearing - Standard Weight
For use on medium weight doors or door requiring low frequency service

Gauge of Metal: 0.134
Hole Count: 8
Screw Size: Machine 1/2 x 12-24
Wood 1-1/4 x 12
ANSI A8133

Stocked Product
4-1/2 x 4-1/2 26D

ECBB1100 - Steel with Steel pin

Ball Bearing - Standard Weight
For use on medium weight doors or door requiring medium frequency service

Gauge of Metal: 0.134
Hole Count: 8
Screw Size: Machine 1/2 x 12-24
Wood 1-1/4 x 12
ANSI A8133

Stocked Product
4-1/2 x 4-1/2 26D

ECRCBB1100 - Steel with Steel pin

Ball Bearing - Standard Weight
For use on medium weight doors or door requiring medium frequency service
* Two ball bearings
* Non-rising removable pin with button tip and plug
* Round corner with 1/4" radius standart

Gauge of Metal: 0.129
Hole Count: 8
Screw Size: Machine 1/2 x 12-24
Wood 1-1/4 x 12
ANSI A8112

Stocked Product
4 x 4 10B, 26D

EC1105 - Steel Spring

For automatic closing of door. Meets codes for hotels, motels, institutions and commercial buildings.
* For use on 1-3/4" doors
* For maximum versatility use all spring hinges or a combination of spring and ball bearing hinges. Do not use plain bearing hinges.
* Full spring tension may not be required on all hinges
* Strong wind conditions, carpeting drag, twisted/misaligned frames, or weatherstripping on doors may require additional spring hinges

Gauge of Metal: 0.129
Hole Count: 8
Screw Size: Machine 1/2 x 12-24
Wood 1-1/4 x 12
ANSI K81071F

Stocked Product
4-1/2 x 4-1/2 26D

Hager

1756 - 200 Degree Door Viewer

Features:

- Requires 9/16” (14 mm) hole for viewer
- For doors 1-3/8” (35 mm) to 2-1/8” (54 mm) thick, adjustable
- Tamper resistant
- 90 minute fire rated
- One way viewer
- Brass
- Meets ANSI A156.16 for L03221

Stocked Product
Finishes:
US3, US10A, US15, US15A, US26

232W - Convex Wall Stop

Features:

- Meets ANSI A156.16 for L02101
- Diameter: 2-7/16” (62 mm)
- Projection: 1” (25 mm)
- Wrought brass, bronze, stainless steel with grey rubber bumper
- Fasteners: One (1) #10 x 1-1/2” PPHWS with plastic and toggle anchor

Notes:

- Specify 232T for machine screw and toggle nut screw pack (10 pk)
- BL232W is 232W case quantity 50
- Concealed tamper proof mounting
- Easy installation by inserting screwdriver through small hole in bumper

Stocked Product
Finishes:
US3, US10B, US26, US32D

236W - Concave Wall Stop

Features:

- Meets ANSI A156.16 for L02101
- Diameter: 2-7/16” (75 mm)
- Projection: 1” (25 mm)
- Wrought brass, bronze, stainless steel with grey rubber bumper
- Fasteners: One (1) #10 x 1-1/2” PPHWS with plastic and toggle anchor for drywall

Notes:

- Specify 230T for machine screw and toggle nut screw pack (10 pk) for concrete
- BL236W is 236W case quantity 50
- Easy installation by inserting screwdriver through small hole in bumper
- Concave rubber bumper prevents damage to locksets with projecting buttons
- Concealed tamper proof mounting

Stocked Product
Finishes:
US3, US10B, US26, US32D

Hager

241F - Dome Stop - Low

Features:

- Meets ANSI A156.16 for L02141
- Diameter: 1-11/16" (43 mm)
- Base Thickness: 1/8" (3 mm)
- Overall Height: 1" (25 mm)
- Cast brass with grey rubber bumper
- Fasteners: One (1) #14 x 1-1/2" FPHWS, one (1) 1/4-20 x 3/4" FPHMS, one (1) 1/4-20 lead anchor, and one (1) plastic anchor

Notes:

- To be used independently or in conjunction with 246B
- BL241F is 241F case quantity 50
- For use when no threshold is used (door not undercut)
- For use with wood or concrete floors

Stocked Product
Finishes:
US3, US10B, US26, US26D

246B - Dome Stop Riser Plate

Features:

- Diameter: 1-3/4" (45 mm)
- Base Thickness: 3/8" (10 mm)
- Cast brass
- Fasteners: One (1) 1/4-20 x 1" FPHMS

Notes:

- For use with 241F on undercut doors, doors with thresholds, and carpeted flooring

Stocked Product
Finishes:
US3, US10B, US26, US26D

250W - Convex Wall Stop

Features:

- Diameter: 1" (25 mm)
- Projection: 9/16" (14 mm)
- Cast brass
- Fasteners: One (1) #6 x 3/4" screw with anchor and one (1) .052" diameter nail

Notes:

- Concealed mounting screw prevents vandalism
- For use on drywall
- Compact design

Stocked Product
Finishes:
US3, US10B, US26

Hager

257F - Floor Stop

Features:

- Base: 1-9/16" x 2-15/32" (40 mm x 63 mm)
- Overall Height: 2" (51 mm)
- Cast Brass With Black Rubber Bumper
- Fasteners: One (1) #14 x 1-1/2" FPHWS, one (1) 1/4-20 x 3/4" FPHMS, one (1) 5/16-18 lead anchor, one (1) 1/4-20 lead anchor, one (1) plastic anchor, one (1) 5/16-18 x 2-1/2" threaded stud, and one (1) 5/16-18 x 2-1/2" combo threaded stud
- Meets ANSI A156.16 for L02131

Notes:

- 1-3/8" (35 mm) max door to floor clearance
- Heavy duty - for use in high traffic area
- For use on wood or concrete floors

Stocked Product
Finishes:
US3, US10B, US26, US26D

270D - Kick Down Door Holder

Features:

- Base: 1-19/32" x 1-25/32" (41 mm x 45 mm)
- Arm: 3-1/2" (89 mm)
- Cast Brass With Rubber Tip
- Fasteners: Three (3) #6 x 3/4" OPHWS
- Meets ANSI A156.16 for L01381

Notes:

- Provides simple hold and release with a touch of the foot
- 2-1/4" (57 mm) max door to floor clearance

Stocked Product
Finishes:
US3, US10B, US26, US26D

271D - Kick Down Door Holder

Features:

- Base: 1-19/32" x 1-25/32" (41 mm x 45 mm)
- Arm: 4-7/16" (87 mm)
- Cast Brass With Rubber Tip
- Fasteners: Three (3) #6 x 3/4" OPHWS
- Meets ANSI A156.16 for L01381

Notes:

- Provides simple hold and release with a touch of the foot
- 3-1/4" (83 mm) max door to floor clearance

Stocked Product
Finishes:
US26D

Hager

281D - Slide Flush Bolt

Features:

- Faceplate: 3/4" x 6" (19 mm x 153 mm)
- Bolt Diameter: 1/2" (13 mm)
- Strike: 7/8" x 1-3/4" (22 mm x 45 mm)
- Bolt Backset: 7/16" (11 mm)
- Bolt Throw: 1" (25 mm)
- Brass, Bronze faceplate with steel components
- Fasteners: Four (4) #6 x 3/4" FPHWS
- Meets ANSI 156.16 for L04201

Notes:

- Double action spring design provides automatic holding of bolt in projected or retracted position

Stocked Product
Finishes:
US3, US5, US10B, US15, US15A, US26D

282D - Manual Flush Bolt

Features:

- Faceplate: 1" x 6-3/4" (25 mm x 172 mm)
- Flattened Round Bolt Head: 1/2" (13 mm) square
- Bolt Throw: 3/4" (19 mm)
- Standard Rod Length: 12" (305 mm) (from center of face to corner of door)
- Bolt Backset: 3/4" (19 mm)
- Guide Plate: 1" x 2" (25 mm x 51 mm)
- Mortise strike: 15/16" x 2-1/4" (24 mm x 57 mm)
- Optional Rod Length: 18" (457 mm)
  25" (636 mm)
  30" (762 mm)
  Specify 282R
- Brass faceplate with steel components
- Fasteners: Eight (8) #8 x 3/4" combo screws, Eight (8) #8 x 1-1/2" combo screws
- Meets ANSI 156.16 for L14251

Notes:

- 3-hour fire rating for metal doors up to 4 feet wide by 10 feet tall
- 282S strike plate bag and 282P bolt head available
- For use on hollow metal/fire rated doors
- 282R optional rod length available: 18" (457 mm) , 25" (635 mm), and 30" (762 mm) (bolt head not included) - no charge
- Non-handed
- Bolt head rods are adjustable

Stocked Product
Finishes:
US3, US10B, US26D

Hager

324W - Light Duty Wall Bumper

Features:

- Diameter:1-1/4" (32 mm)
- Projection: 3-1/4" (83 mm)
- Cast Brass, Bronze With White Rubber Tip
- Tip Diameter: 5/8" (16 mm)
- Fasteners: #10 x 7/8" Wood Thread
- Meets ANSI A156.16 for L02031

Notes:

- Replaceable rubber tip available. Part # 1-269-3073
- Hex shape near the tip allows usage of a wrench for easier installation

Stocked Product
Finishes:

30S - Square Corner - Beveled Push Plate

Features:

- Gauge: .050" (1 mm)
- Aluminum, Brass, Bronze, Stainless Steel
- Fasteners: Six (6) #6 x 5/8" OPH Tapping Screws
- Meet ANSI A156.6 for J301 push plate

Notes:

- May be ordered cut for cylinder (CFC) or engraved "PUSH"

Stocked Product
Finishes:
US3, US10B, US32D

36N - Pull Plate - Square Corner

Features:

- Gauge: 0.050" (1.3 mm)
- Aluminum, Brass, Bronze, Stainless Steel
- Fasteners: Six (6) #6 x 5/8" OPH Tapping Screws
- Meets ANSI A156.6 for J405 Pull Plate

Stocked Product
Finishes:
US3, US10B, US32D

6601 - Handrail Bracket

Features:

- Base to center of rail:2-3/4" (70 mm)
- Projection: 3-1/4" (83 mm)
- Cast aluminum
- Fasteners: - Three (3) #8 x 1-1/2" OPHWS, Two (2) #8 x 3/4" OPHWS
- Polybag (1 each) with wood screws and rail bracket

Stocked Product
Finishes:

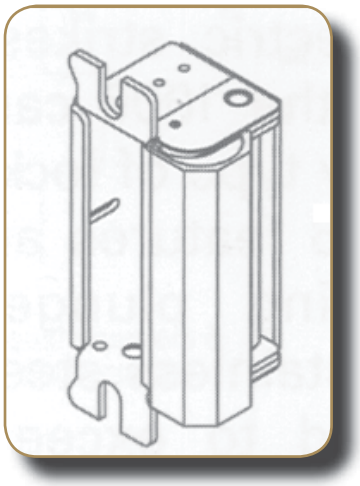
HES

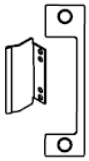
1006 - Series Electric Strike

Features:

- Innovative dual interlocking plunger
- Stainless steel construction
- Electrical .45 amps @ 12 VDC
  .25 amps @ 24 VDC
- 3000 lb static strength
- Dual voltage, field selectable, 12 or 24 VDC
- Internally mounted solenoid fail secure
- Non handed



Face Plate Options:



AD
For Use with mortise locksets with a normally extended 1" deadbolt without a deadlatch.
Compatible Locksets: Sargent (7700 & 8100 series), Schlage, Yale (8700)

KD
For use with Schlage, Sargent (8100), Yale mortise locks.
Mortise locksets with deadlatch positioned above the latch bolt.

ND
For use with Schlage, Sargent (8100), Yale mortise locks.
Mortise locks where the deadbolt is used for night latch function only.

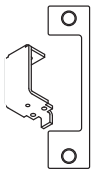
J
For use with cylindrical locksets up to 3/4" throw and all locksets with center lined belts.
Compatible with Arrow, Best, Corbin, Falcon, Russwin, Sargent, Schlage, Yale

KM
For use with Best, Corbin, Falcon, Sargent (8200).
Mortise locks with a deadlatch positioned below the latch bolt.

NM
For use with Corbin, Falcon, Sargent (8200).
Mortise locksets with a deadlatch positioned below the latch bolt and where dead bolt is used for night latch function only.

J-2
For use with cylindrical locksets with up to a 3/4" throw, in wood frame applications.

TD
For use with mortise locks with a normally extended 1"deadbolt and a center-liner.
For SCH, SGT, YALE



HD
For use with: Mortise locksets with a 1" deadbolt without a deadlatch. Strike will not release when deadbolt is extended. Compatible locksets: Sargent (7700 & 8100 series), Yale (8700)

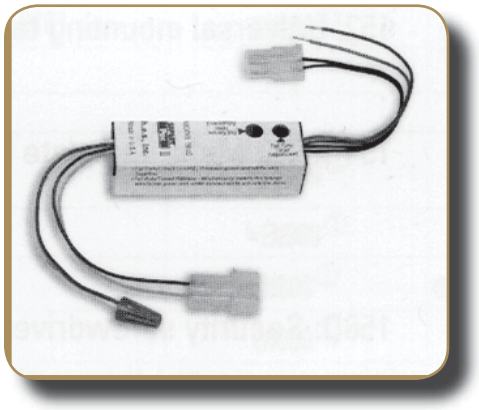
2005 Smart / Pac III

2005 is an in-line power control that is able to receive input voltages from 12 or 24 VAC or VDC. Has a built-in bridge rectifier and provides 12 to 24 VDC output.



Features:

- Inline fuse
- MOV to protect against surges
- 2 to 8 second adjustable timer

4500 - Series Low Profile Fire Rated Strike

Features:

- 1-3/8” depth for installation in 2” frames with 1/2” drywall penetration
- 3000 lb static strength
- Heavy duty stainless steel construction
- 5 year limited warranty

Specifications:

- UL 10C 3 hour fire rated in fail secure mode
- BHMA 156.31 Grade 1

Kaba Ilco – *Key Machines*

BRAVO III
Lever Operated Duplicator

Features

- Wide spacing between vise jaws accommodates new longer keys and large headed keys.
- Versatile four-position reversible vise jaws securely c residential, commercial, padlock, and automotive keys including double-sided types, without adapters.
- Carriage is spring loaded, provides consistent cutting pressure, and reduces potential for miscuts.
- Automatic cutter start feature controlled by micro-switch is activated by raising or lowering the carriage.
- Precise adjustments. A tracer point with micrometer dial regulation makes it quick and easy to adjust depth of cut; simple to replace when worn.
- Carriage release button can only be activated when the key gauges are in the down position, preventing potential cutter contact.
- Two carriage shafts ensure sensitivity and precision in the cutting movement.
- Features a “soft-touch” deburring nylon brush.

Specifations

Motor: 110V standard; 1⁄4 hp capacitor start
Vice Jaws: D507215BA

Cutter: CU50A milling cutter, flat left side, cobalt steel

Brush: D925102ZR

Dimensions: 15”W x 20” D x 10” H (38cm x 51cm x 25cm)

Weight: 47 lbs. (21.4kg)

Duplicates Cylinder and Automotive Keys

Kaba Ilco – *Key Machines*

044 HD
Lever Operated Duplicator

Features

- Super Jaw 3, “secure grip”, four-position vise jaws; securely clamps most residential, padlock or automotive keys without the need for adapters, including double-sided types.
- Permanently lubricated cutter spindle shaft ball bearings rather than bushings; bearings are usually found on more expensive models.
- Hardened carriage shaft and cutter spindle provide extended service life
- Fast spindle speed provides smoother cuts
- Titanium coated P-CU20 milling cutter; made from quality, hardened tool steel
- Wide spacing between vise jaws, accommodates longer key types.
- Dial type depth adjustment system greatly simplifies calibration and improves accuracy.
- Ideal for mobile use, efficient 1/4 hp motor will operate with most inverters and generators that supply 500 watts (continuous) or higher output (115 VAC)
- Special device guards against cutter contact with vise jaws.
- Circuit breaker protected.

Specifations

Motor: 110V standard; also 220V; all 1⁄4 HP, 1725 rpm

Vise Jaws: Super Jaw 3, four position

Brush: 814-00-51

Cutter: P-CU20 milling cutter, flat left side

Dimensions: 141⁄2”W x 16”D x 10”H (32cm x 35cm x 25cm)

Weight: 28.3 lbs. (12.84 kg)

Meets OSHA and CSA/NRTL/C* requirements
**Applies to 110 Volt model only*

Duplicates Cylinder and Automotive Keys

Kaba Ilco – *Key Machines*

045 HD

Features

- Super Jaw 3, “secure grip”, four-position vise jaws; securely clamps most residential, padlock, or automotive keys without the need for adapters, including doublesided types.
- Permanently lubricated cutter spindle shaft ball bearings rather than bushings; bearings are usually found on more expensive models.
- Hardened carriage shaft and cutter spindle provide extended service life.
- Wide spacing between vise jaws; accommodates longer key types.
- Dial type depth adjustment system greatly simplifies calibration and improves accuracy.
- Ideal for shop or mobile use; efficient 1/4 HP motor will operate with most inverters and generators that supply 500 watts (continuous) or higher output (115 Volt AC).
- Special depth limit device guards against cutter contact with vise jaws.
- Features a “soft-touch” deburring brush.
- Cutter is made of high speed tool steel, coated with titanium nitride for longer cutting life.
- Built in circuit breaker protection.

Specifations

Motor: 110V-AC standard; also 220V; all 1/4 hp, 1725 rpm

Vise Jaws: Super Jaw 3, four-position

Cutter: P-X23MC; titanium coated

Brush: 814-00-51

Dimensions: 14 1/2”W x 17 1/2” D x 8 3/4”H (36.8cm x 44.5cm x 22.2cm)

Weight: 26.1 lbs. (11.85 kg)

Meets OSHA and CSA/NRTL/C* requirements.
** Applies to 110 Volt model only*

Duplicates Cylinder and Automotive Keys

ILCO - *Replacement Cylinders*

15995 -Key-in-Knob / Deadbolt Combination Replacement Cylinders

Universal Knob / Lever Locksets Plus Arrow & Schlage Deadbolts
(Arrow Knob Designs TA,BD,DD use 1539 knob cylinder)

- 32 Available Keyways
- Arrow D, E, F, K, Schlage B100, B200, B400, H Series deadlock
- Operates most Grade 1& 2 knob cylinder locksets and levers
- CL3900 Corbin Lever and Falcon T Series with tailpieces below
- 560 and 660 Schlage Deadbolts
- Screw Cap Retainer
- US4 and 26D Finish
- Solid Brass

Rim Cylinders

7015 - Rim Cylinders

Solid brass cylinders are ideal for use on 1-3/8" to 2-1/4" thick door.
Each cylinder is furnished with trim ring, mounting plate & break off screws.
All cylinders drilled 6 pin - 5 pin keyed.

Ives – *Door Silencers*

SR64

- For use on metal frames featuring pneumatic design that, once installed, forms an air pocket to absorb shock and reduce noise of door closing.
- Tamper-proof once installed on the frame.
- Proper installation also eliminates door rattle and provides constant tension for door latches or locks.
- Packed in bags of 100.
- Each bag has an installation tool included.
- Meets ANSI/BHMA 156.16, L03011
- Finish: gray

SR65

- For use on wood frames, also features pneumatic design to cushion shock and absorb noise.
- To prevent removal, a small brad should be driven into stop strip and through stem of silencer, as shown in the detail.
- Packed in bags of 100.
- Each bag has an installation tool included.
- Meets ANSI/BHMA 156.16, L03021
- Finish: gray

Ives – *Commercial*

MB1 & MB2 MOUNTING BRACKETS

Product	Jamb Depth	Stop Width
MB1	4-3/4" Min.	Over 2-1/2"
MB2	4-3/4" Min.	Up to 2-1/2"

- Allows stop mounted hardware to be properly installed without damaging the coordinator.

Stocked Product
USP

COR SERIES BAR COORDINATOR

- The COR series coordinators are designed for use on pairs of doors when one door needs to close before the other.
- All COR units function easily. The active door lever, located nearest to the active stop, holds the active door open until the trigger mechanism is released by the closing of the inactive leaf.
- All COR units are equipped with an override feature which allows the active door to close under extreme pressure.
- All COR units are compatible with flush bolts.
- The COR series does not cover the entire length of the stop, so a filler bar can be provided to maintain architecturally clean lines.
- Cor series coordinator channels and fillers are made of aluminum and are normally furnished US28 finish.
- Meets ANSI/BHMA A156.3, type 21A

Dimensions: 1-5/8" Wide x 5/8" Deep x Ordered Length

Stocked Product
COR52 x FL20 Filler Plate

LG1 LOCK GUARDS

- Units are non-handed and incorporate security frame pin to prevent separation of the door and frame.
- Unit covers the latch bolt area of the door and lock, thereby providing added protection from burglars, vandals or normal abuse.
- Ideal for use with mortise or cylindrical locks.
- Easy installation.
- Through bolted with carriage bolts and nuts.
- Finishes: Stainless steel - US32D, Steel - US2G

Stocked Product
US32D, US26

Ives- *Commercial Roller Latches*

RL30

- Actuation is simple, closing of the door causes the roller to fall in the depression of the strike, thereby holding the door closed.
- The projection of the roller is easily adjusted using adjusting screws on the face of the unit.
- Maximum projection of the roller is 3/8" allowing for variance in the door clearance.
- Nylon Roller Standard.
- Forged Brass Construction.
- Meets ANSI/BHMA A156.16, E19091.
- Finishes: US3, US4, US10, US10B, US26, US26D.
- Optional Roller-F- Nylon covered brass roller.
- Optional Strike-A-ASA

Dimensions:
Body: 1Il Wide x 3-3/8" Long x 1-11/16" Deep
Strike: 1-11/16" Wide x 2-1/4" Long x 5/32" Thick
Optional ASA Strike: STK726 (not shown): 1-1/4" wide x 4-7/8" long x 3/32" thick

Stocked Product
US3, 10B, US26, 32D

RL32

- Actuation is simple, closing of the door causes the roller to fall in the depression of the strike, thereby holding the door closed.
- The projection of the roller is easily adjusted by turning knurled knob on back of latch.
- Maximum projection of the roller is 1/2" allowing for variance in the door clearance.
- Fits heavy-duty cylindrical tock cutout.
- Nylon Roller Standard.
- Non-handed.
- Brass or Stainless Steel Construction.
- Meets ANSI/BHMA A156.16, E191 01.
- Finishes: US3, US4, US10, US10B, US32, US32D.

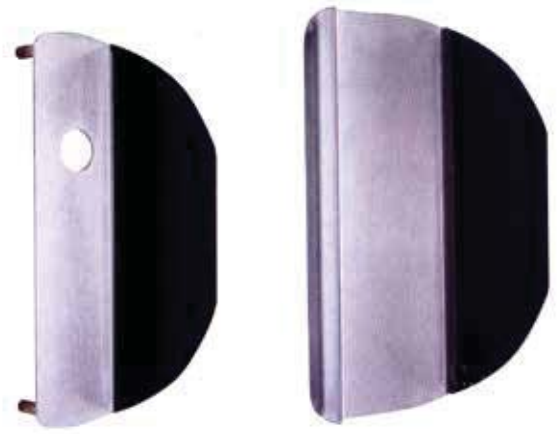
Ives – *Vandal Resistant Trim*

VR900 Vandal Resistant Trim



Features:

- Stainless Steel construction, 11 gage (0.120" thick).
- Thru-bolts and rugged mounting screws for maximum fastening strength.
- 1/4-20 screws and stainless steel finishing washers supplied with VR900 models; 10-24 screws supplied with VR910 models.
- Built-in lock protector prevents vandalism to mortise latchbolt (available on certain models).
- Extra-tough stainless steel cylinder collar prevents pipe wrench or similar tool from damaging cylinder. Tapered design prevents side impacts from transferring directly to cylinder. Collar spins freely.
- Sleek, attractive design.
- Furnished with mounting screws for door thicknesses of 1-3/4" to 2-1/4".
- Finish: US32D.
- Grip coated in black plastisol for softer touch and resilience to temperature extremes. Grip designed for comfortable operation.
- Meets ANSI/BHMA 156.13, Trim Security Test and California State Accessibility Standards Title 24.

VR910-DT

- For use with Von Duprin 98/99 Series Rim and Vertical exit devices.
- Thru-bolts directly to device.
- Pull operation only. No cylinder cutout.

Width	5-1/4"
Height	11"
Thru-bolt pattern	1-3/8" W X 7" H

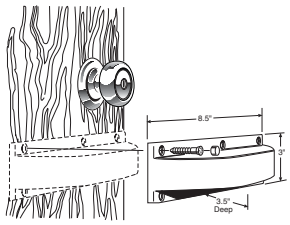
Keedex

K-6
Master Follower

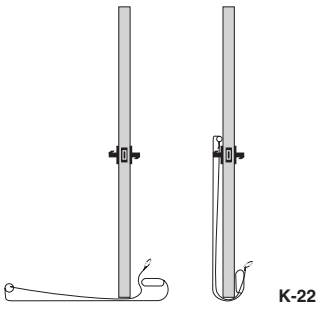
This remarkable follower is a wise choice for either the newcomer or master locksmith. Made of solid brass, it will out last those made of plastic or aluminum. The capabilities of this machined follower far exceed any follower on the market today. It can be used as a regular follower, or as a master pin remover and follower on Schlage, Sargent, Kwikset, Weiser, Almont padlocks and many others. Special taper allows smooth operation and better control over sticking pins.

K-12, K-12D
Protect-A-Lok

Finally a product designed to protect locks and other hardware from impact damage. The Keedex K-12 Protect-A-Lok, made from Lexan polycarbonate, is virtually indestructible. Designed for use in areas where locks may have a chance of getting hit by carts, forklifts or vehicles. Can be used with levers, knobs, panic hardware and more. Installs in minutes. Guaranteed for 5 years. Available in Cream (K-12) and Duranodic (K-12D).



K-22
Lever Opening Tool



IF YOU CAN SLIDE THIS TOOL UNDER THE DOOR, YOU WILL OPEN IT!
This tool is to be sold only to locksmiths and law enforcement agencies.
This tool is not to be used unlawfully. Keedex will not be responsible for the misuse of this tool.
Replacement Cable Available: Part# K-22CABLE (Special Order)

K-24

LCN - *Closers*

1250 - Series **Closers**

The 1250 Series cast aluminum closer is designed for low-frequency and low abusive traffic areas. This cast aluminum closer is ideal for aluminum storefronts, interior offices and many other applications. Combining dependable operation, low maintenance and a patented stylish look - with or without the optional slim line cover. And with the most common hole pattern in the industry, the 1250 Series is the perfect choice for easy aftermarket replacement.

CLOSER MOUNTS
*HINGE (PULL) SIDE
TOP JAMB (PUSH SIDE)
PARALLEL ARM (PUSH SIDE)

Features:

- Tested and certified under ANSI Standard A156.4, grade one.
- Cast Aluminum
- All weather fluid

ADA COMPLIANT Barrier Free Thresholds meet the requirements of the AMERICANS WITH DISABILITIES ACT Accessibility Guidelines for Buildings and Facilities (ADAAG)-September 2002, and ICC/ANSI A117.1-2003 Accessible and Usable Building and Facilities.

SLIP-RESISTANT NGP 'SIA' (Slick-it-Ain't) textured surface is available on all thresholds. Our process embeds and fuses bits of hot nickel and titanium into the surface of the threshold. This technology originally developed for use on aircraft carrier decks is very skid resistant and will not wear off.

Norton

1601 Series
Multi-Sized Closers - Packed 6 per case

Features

Two Power Ranges:
Each series can be adjusted through a range of sizes:
Series 1601 Normal Power Range Closers,sizes 3 thru 6. Series 1601BF Accessibility Code Closers, sizes 1 thru 4.

Booster Spring:
Specially designed booster spring is engineered into each unit to provide additional and necessary closing force for doors which travel beyond 110° of swing.

Tri-Style Installation:
Packaged for regular arm, top jamb or parallel arm installation.

Aluminum Alloy Shell:
Norton closer shells are constructed of a special aluminum alloy which is lightweight and offers proven durability.

Rack & Pinion Operation:
Provides a smooth transmission of power, for control of the door through its full opening and closing cycle.

Adjustable Sweep Speed:
An independent regulating valve, hex-key-operated, permits adjustment of the general closing speed.

Adjustable Latch Speed:
An independent regulating valve, hex-key-operated, permits adjustment of the door's speed for approximately the last 10° of the closing cycle.

Adjustable Backcheck Cushioning:
An independent regulating valve, hex-key-operated, provides an adjustable hydraulic cushion to the door opening speed toward the end of the opening cycle.

Adjustable Delayed Action:
Available in place of backcheck. Adds a third closing speed range at the beginning of the door's closing cycle.

Note: Norton Series 1601BF door closers will meet the requirements of the Americans With Disabilities Act (A.D.A.), and will comply with industry standards for opening and closing forces as established by the Builders Hardware Manufacturing Association (B.H.M.A.).

Norton

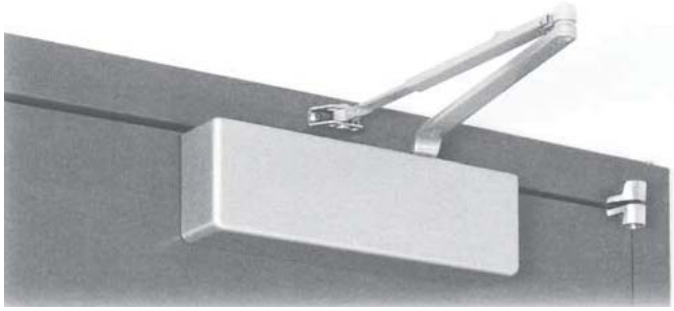
7500 Series

Applications

Series 7500 closers are narrow projection door controls: projection is just 2 1/8" from the surface of the door or jamb. They are complete with covers finished to suit the decor of other hardware. They are available with sprayed covers or BHMA plated finishes. Norton Series 7500 closers are non-handed and are packaged with both a mounting shoe and soffit plate. Any Series 7500 can be installed Regular Arm or Parallel Arm. It can also be installed top jamb where frame face and frame reveal permit, it can be installed on either right or left hand doors.



Regular Arm

This is the only pull side application where a double lever arm is used. It is the most power efficient application for a door closer. Sufficient frame, door and/or ceiling clearance must be considered. Since the arm assembly projects directly out from the frame, this application may present an aesthetic issue or be prone to vandalism.

All closers are stocked, packed tri-pack with parallel arm bracket

Options

BF: No longer need to specify. All 7500's have new spring for size 1-6
CLP: Built in stop effective at one point at installation from 85°-110°. Parallel arm application only
DA: Delayed Action Closing
H: Hold open arm function
PR: Parallel rigid arm (heavy duty)
SNB: All closers packed with sex nuts and bolts

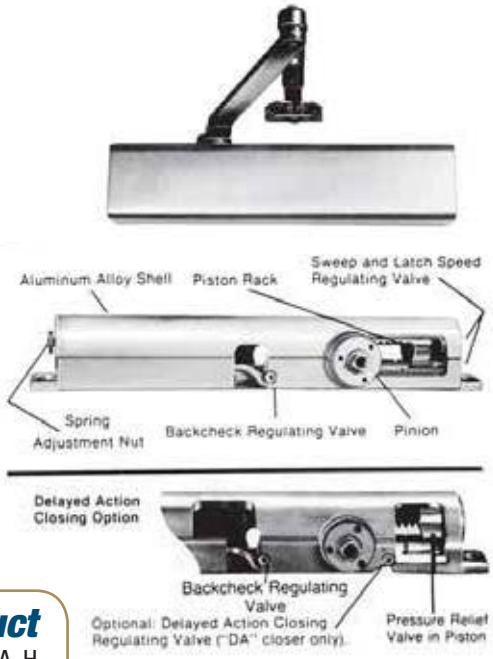
U.L. Listing

All Norton Series 7500 Closers with non-hold-open arms are listed by Underwriters Laboratories, Inc. for use on labeled fire doors. Series 7500 are Accessibility Code Closers and are adjustable in a 1 thru 6 size range.

8500 Series

Features

This series incorporates independent sweep and latch speed adjustments. In addition, adjustable spring power and adjustable backcheck cushioning are standard features. Adjustable delayed action closing is available as an option in addition to the adjustable backcheck cushioning feature. Norton also offers a Multi-Size Door Closer Series which features adjustable spring power thru a range of sizes. Series 8501 has adjustable power in the Normal Power Range of sizes 1 thru 6. These closers offer low opening resistance for handicapped accessibility but still provide acceptable door control.



Options

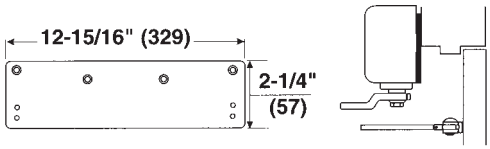
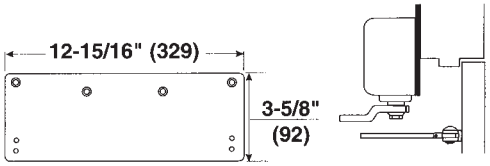
8501 Series Top Jamb Closer: Closer Mounting Plates



Low Ceiling Clearance - #8146 Drop Plate
For use where low ceiling clearance prevents normal top jamb mounting. This plate is used when clearance is from 1-7/8" to 2-7/8 (48mm to 73mm). Where ceiling clearance is less than 1- 7/8 (48mm) see #8148 Drop Plate detailed in the following text.

Overhead Door Holder - #8146 Drop Plate
For use where a surface or concealed overhead door holder prevents normal top jamb mounting. This plate drops the closer and allows arm mounting screws to clear the bottom of the door holder. This places the centerline of the arm mounting screws at 2-7/8 (73mm) from the top of the door.



Low Ceiling Clearance - #8148 Drop Plate
For use where the ceiling clearance is between 1- 1/2" and 1- 3/4" (38mm and 44mm).

SiliconSeal Adhesive Backed Fire / Smoke Gasketing

- Seals begin compressing at 3/16", and both can be compressed sufficiently to seal openings with 1/16" gaps, making door latching easy.
- Excellent resistance to compression set, particularly at elevated temperatures and for extended periods of times.
- Stays flexible between 70° F and 250° F with very high resistance to flex fatigue.
- Outstanding ozone resistance rating.
- Smoke tested by WYLE Laboratories in accordance with UL 1784-90; meets the requirements of NFPA 105 "Installation of Smoke Control Door Assemblies".

Gasketing - EDGE SEAL PRODUCTS

Edge Sealing Products for Positive Pressure Door System

- The new positive pressure building codes require stopping the passage of smoke, flames and hot gasses
- Pemko's intumescent and fire / smoke gasketing products have assisted numerous door and frame manufacturers in complying with the new stringent positive pressure standards UL10C and UBC7-2, Parts I and II, UBC7-2, Part I (for fire) and UBC7-2, Part II (for smoke).
- Many fire rated door assemblies (currently listed for UL10B) can now be listed for positive pressure (UL10C) by using Hot Smoke Seal in combination with SiliconSeal. Consult individual door and / or frame manufacturers for specific listing information.

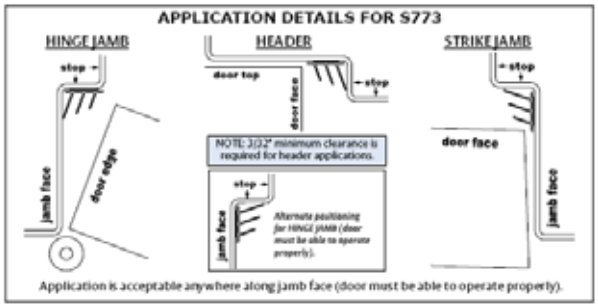
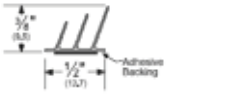
S773 on Frame with Beveled Edge Door

- Pemko's S773 is a utility gasket that can be used in virtually any application requiring insulation from sound, smoke and weather conditions.
- Pemko's S773 can seal larger gaps than traditional seals and allows for warped doors and frames.
- Pemko's S773 fins help to absorb the door's closing impact.
- Pemko's S773 mounted on the rabbet (on the latch side jamb) means more clearance and easier operation of latches and deadbolts.

The S773 is typically used as a perimeter gasket when sound transmission is an issue. It is an effective seal against heat loss and drafts. Common installation locations include hotel rooms, theaters, offices, etc. The S773 allows a low door closing force so it is particularly well suited to locations where ADA compliance is necessary. S773 can be effectively installed on both interior and exterior doors.

The S773 has an adhesive back and should only be installed on clean, dry and cured surfaces. On the "latch side" door jamb and the door header, the S773 should be installed on the frame rabbet with the tallest fin toward the door stop. On the "hinge side" the S773 should be installed on the door stop with the tallest fin toward the frame rabbet.





- Triple-fin design effectively blocks light and sound from infiltrating a room.
- Product designed as hospitality gasketing (see more hospitality products in the Hospitality Products section).

Perfect

DoorSaver II

DoorSaver II catches both the front and back side of the hinge for total protection. Its truly unique design means no damage. No hinge pin creeping up. And no bumper. All you see is the beautiful, ultra-low profile and damage-free doors and trim.

Features:

- Bumperless design eliminates damage to doors and trim
- Ultra-low profile in four designer finishes
- Installs in seconds – no tools required
- Hinge mounted to fit 3 1/2" OR 4" residential hinges
- Won't work up like conventional hinge-mounted products
- Made from strong carbon steel

Perfect

DoorSaver 3 Commercial

DoorSaver 3 Commercial provides a stop that does not contact the casing or door. It's ultra-low-profile design utilizes the existing hinge pin to create bumperless protection for doors and trim.
DoorSaver 3 Commercial is simple to install, looks great and stays in place without "working up." Designed to fit a variety of commercial hinges with standard or non-standard diameter hinge pins. Includes a vinyl bushing to assist in accommodating the various pin diameters.

Features:

- Bumperless design eliminates damage to doors and trim.
- Ultra-low profile in three designer finishes.
- Installs in seconds. No tools required.
- Hinge mounted to fit all doors.
- Won't work up like conventional hinge-mounted products.
- Made from strong carbon steel.

A042-LAX

A042-QC1 - Quick Change™ Long Reach Tool

The A042-QC1 gives you the versatility to unlock many vehicles on the road. The multi-piece Quick Change tool is designed to enter into the passenger compartment of the vehicle through the door using wedges and/or door jack type tools. The specialty formulated Glow-in-the-Dark tip comes in handy on some openings at night.
When extra length is needed, simply use the 18" "extension" between the rigid "handle" and rigid tool "body". Our seamless design, not needing a bulky coupler, can reach up to 67" and can be stored easily. The A042-QC2 is a convenient accessory offering more accessibility.

Stocked Product
A042-QC1

A042-QC2 - Quick Change™ Long Reach Tool

The A042-QC2 is a convenient addition to the A042-QC1. The thin diameter tool bodies screw directly into the rigid "handle" or 18" "extension" without the use of a bulky coupler. The thinner material may provide less wedging or stress on the vehicle. It is easier to slightly bend the thin diameter bodies to pull or push on the desired unlocking feature.

Residential–*Weatherseals*

For Metal or Wood Entry Doors and French-type Patio Doors

Model *QEBD 650*

Schlegel Q-LON weatherseal mounts easily and outperforms other kerf-fitted doorseals

- Highly engineered embossed polyethylene liner resists paint and varnish, lasts longer and maintains an attractive appearance.
- UV stabilized to withstand sunlight with no visible degradation
- Open-celled urethane foam core maintains shape and resiliency over time, offers excellent all-temperature sealing performance, prevents corner leaks and allows seal to conform to uneven surfaces.
- Tri-fin insert allows for easy installation and maximum retention. Can be easily removed and reinserted without damaging jamb or seal.
- **Schlegel Q-LON - the most recognized, most asked for name in kerf-fitted weatherseals.**

B60 Series - Deadbolt

Three-piece design Ready to go out of the box for quick installation.

Sleek Low profile face is almost impossible to grab with a wrench and cannot be unscrewed.

Versatile Shield is easily removed to fit 1 1/2" cross-bore prep.

Stronger 1/2" of bolt left in housing when bolt is thrown for added kick-in resistance.

Tougher Thicker metal strike reinforcer has 3" screws for greater strength in the jamb.

Secure Integrated anti-pick shield with SNAP & STAY™ self-adjusting tension provides added security and simplifies installation.

Required 1" door prep required for larger bolt housing.

Solid Zinc bolt has hardened steel pin inside that spins in response to sawing attack and can't be cut through.

Bigger Bolt diameter is 10% larger than typical bolts for maximum kick-in resistance.

Rounded Radius corners on strike plate for more attractive installation. 1 1/8" x 2 3/4" round corner strikes come standard.

UL Listed Optional 3-hour UL Listed fire cup/latch available.

Streamlined Deep drawn housing delivers a seamless piece of steel from beginning of helix to back of bolt for maximum latch/bolt reliability. Fits both 2 3/8" and 2 3/4" backsets.

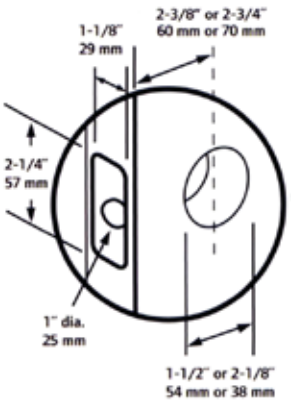
Unprecedented Adjustable backset has the industry's only helical design that locks into place with no adjusting during installation. Fits both 2 3/8" and 2 3/4" backsets.

Code Compliant ADA compliant thumbturn.

Available Functions:

B60 - Single cylinder dead bolt lock
B62 - Double cylinder dead bolt lock
B80 - Door bolt
B81 - Door bolt with trim (Special Order)

Designed to fit virtually any door.



Standard door prep for B-Series installation.

BE365

Keypad Deadbolt

Deadbolt thrown from outside by keyway turn after pressing Schlage button or by inside thumbturn.

Deadbolt retracted from outside by entering valid user code then rotating keyway turn or by inside thumbturn.

Key can be used to unlock as backup

FE285

Lower Half - Front Entry Set

Combine with BE365 Keypad Deadbolt for Front Entry Set.

FE595

Keypad Entry with Flex-Lock

Flex Locking, switch between unlocked or automatic re-locking.
Unlocked by valid user code from outside.

Inside lever always unlocked

Key can be used to unlock as back-up

Schlage - *FE Electric Lock Set*

BE369 / FE599 Series - Keypad Locks

Enhanced Security Featuring Wireless Encryption
- Anti-pick shield helps to prevent tampering
- Patented latch bolt design provides maximum kick-in resistance
- SSL 128-bit encryption
- Similar security used in online banking

Innovative Technology
- Uses Z-Wave Technology
- Automatic battery level notification
- Non-wearing Keypad, lighted for night time use

Easy Installation with Guaranteed Fit
- Replace your existing lock with a screwdriver in less than 30 minutes
- Fits all standard door preparations
- Reversible lever adapts to both right- and left-hand doors

BE 468NX & BE 469NX Series - Touchscreen Deadbolt

Schlage connected locks use Z-Wave®, a wireless technology that makes your house smarter, safer, and far more convenient. When these locks are paired with a compatible Z-Wave® home automation system, homeowners can remotely control, manage, and monitor access to their home.

BE468NX Features:
- GRADE 2 Higher Residential Security Rating
- Durable resistive touchscreen ensures wear pattern remains undetectable.
- Slim exterior prevents interference with storm doors or other door preps.

BE469NX Features:
- ANSI A156.36-2010 Grade 1 BE469NX - Touchscreen Deadbolt with Alarm
- Autothrow deadbolt is activated from outside by pressing the Schlage button
- Deadbolt automatically retracted from outside by entering valid user code
- Key can be used to unlock as backup
- Built-in Alarm Technology alerts home owners to potential security threats

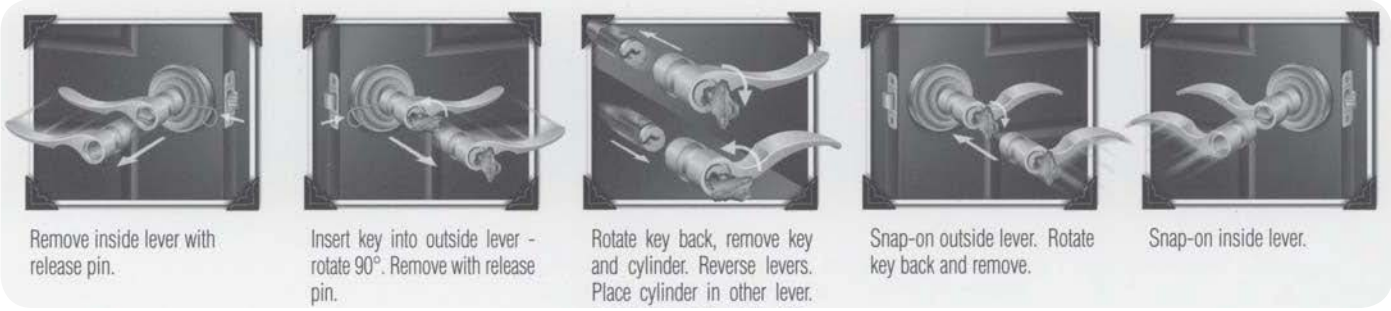
Reversible Levers



Schlage - *L Locks*

Standard Features:

Certification	L9000: ANSI A156.13, 1994, Series 1000, Grade 1 Operational, Grade 1 Security, UL Listed for 3hour fire door (except L9076 and L9077). With Interchangeable Core Cylinders: Grade 2 Security
Case Size	L9000: 4-7/16" x 6-1/6" x 1"; L400: 4-7/16" x 3-5/8" x 1"
Armor Front	L9000: 1-1/4" x 8"; L400: 1-1/4" x 5-19/32"
Deadbolt	1" Throw stainless steel
Latchbolt	3/4" Throw stainless steel with anti-friction tongue
Strike	L9000: 1-1/4" x 4-7/8" Square Corner, 1-3/16" lip, box
Backset	2-3/4"
Cylinder	Cassic C keyway Also available in Schlage Everest C123 keyway.
Door Range	1-3/4"

L9010 ANSI F01
Passage Latch
Latchbolt retracted by knob/lever from either side at all times.

L9040 ANSI F22
Bath/Bedroom Privacy Lock
Latchbolt retracted by knob/lever from either side unless outside is locked by inside turn piece. Turning inside knob/lever or closing door unlocks outside knob/lever. To unlock from outside, remove emergency button, insert emergency turn (furnished in access hole and rotate.)

L9050 ANSI F04
Office and Inner Entry Lock
Latchbolt retracted by knob/lever from either side unless outside is made inoperative by key outside or by turning inside thumbturn. When outside is locked, latchbolt is retracted by key outside or by knob/lever inside. Outside knob/lever remains locked until thumbturn is returned to vertical or unlocked by key. Auxiliary latch deadlocks latchbolt when door is closed.

L9070 ANSI F05
Classroom Lock
Latchbolt retracted by knob/lever from either side unless outside is locked by key. Unlocked from outside by key. Inside knob/lever always free for immediate exit. Auxiliary latch deadlocks latchbolt when door is closed.

L9080 ANSI F07
Storeroom Lock
Latchbolt retracted by key outside or by knob/lever inside. Outside knob/lever always inoperative. Auxiliary latch deadlocks latchbolt when door is closed.

L9453 ANSI F20
Entrance Lock
Latchbolt retracted by knob/lever from either side unless outside is locked by 20° rotation or thumbturn. Deadbolt thrown or retracted by 90° rotation of thumbturn. When locked, key outside or knob/lever inside retracts deadbolt and latchbolt simultaneously. Outside knob/lever remains locked until thumbturn is restored to vertical position. Throwing deadbolt automatically locks outside knob/lever. Auxiliary latch deadlocks latchbolt when door is closed.

L9456 ANSI F13
Corridor Lock
Latchbolt retracted by knob/lever from either side. Deadbolt thrown or retracted by key outside or inside thumbturn. Throwing deadbolt locks outside knob/lever. Turning inside knob/lever simultaneously retracts deadbolt and latchbolt and unlocks outside knob/lever.

L9465
Closet/Storeroom Lock
Latchbolt retracted by knob/lever from either side. Deadbolt thrown or retracted by key outside.

SOSS - *Invisible Hinges*

Models 216 & 218

Features

- Security- When closed, the SOSS Invisible Hinge cannot be seen or tampered with. When opened, the riveted hinge pin is non-removable.
- Safety- The moving pivot point remains inside the hinge during travel until fully opened, eliminating an external pinch point on the back side of the door.
- Strength- The installed hinge is firmly anchored in a deep, full mortise, which assists the screws in supporting the door, assuring a stronger, more rigid installation.

22 ALK - Exit Alarm Kit (supplied less cylinder)

The 22ALK battery alarm kit is a simple yet effective way to monitor the use of an exit device. While still a means of egress, the unit contains an internal horn. When the touchbar is depressed, the horn sounds to provide an audible means of signaling that the opening has been violated. The key switch uses a standard 1-1/4" (32mm) mortise cylinder. The unit operates on one standard 9-volt transistor battery. When the battery is weak the horn will emit an intermittent signal. Alarm kits are available with a choice of two switch kits, S1 or S2. S1 monitors the touch pad and is furnished standard. S2 optional latchbolt monitoring is recommended for use with surface vertical rod exit devices. Specify ALK-S2 special order.

Factory Definable Delay Time
Most jurisdictions allow 15 seconds of delay before allowing egress. In those cases where 15 seconds is not appropriate, Von Duprin can set the Chexit for any delay time between 0 and 60 seconds on 2 second increments. For delays greater than 15 seconds a letter from the local authority is required.

Request to Exit Switch is built into the device to detect when someone attempts to exit. Applying less than 15 pounds to the push pad when the device is armed will cause this switch to start an irreversible alarm cycle.

Nuisance Alarm — When a Chexit is located in a public area, it can be desirable to limit false alarms. If the Nuisance Audible and Nuisance Delay options are set to off, the device will go into alarm as soon as the push pad is touched (when armed). Turning the Nuisance Delay on will require the push pad to be pressed for 2 seconds before the Chexit goes into alarm. If the Nuisance Audible and Nuisance Delay are both on, the alarm will sound as soon as the push pad is pressed, but the alarm sequence will stop unless the push pad is held for 2 seconds or more.

Remote Alarm — A set of relay contacts (rated 1 ampere, 24 VDC) are provided to give external alarm indication. These contacts close when the device is in an irreversible alarm condition (If Nuisance Audible is enabled, they will not close until the push pad has been held for more than 2 seconds). These contacts can be used to drive a horn, lamp, or other indicative device.

Key Switch — The Key Switch provides the means to arm, disarm, or reset the Chexit. The key can be removed in either the Arm or Disarm position. In cases where the key switch is not used for controlling the device, a blank cylinder can be used.

Indicator Lamp — The status of the Chexit can be determined by the Indicator Lamp. A masked bezel design provides wide angle viewing in any lighting condition. When the lamp is off, this indicates the device is disarmed and is functioning as a normal exit device (no delay). A continuously on lamp indicates the device has just been armed and as soon as the selectable rearm timer expires, the device will arm. A slow flashing lamp indicates the device is armed. A fast flashing indicator lamp indicates the device is in alarm.

Internal Horn — Whenever the device is in alarm or the push pad is pressed the internal horn will sound. The volume level of this horn exceeds 85 db at 6 feet. The user can select whether or not this horn sounds during a fire alarm condition.

Door Position Input — An external door position switch can be connected to the Chexit. Doing this gives added security to the opening and is recommended. If a door position switch is used, it will cause the alarm to sound if the door is not closed when the device is armed; it will sound the alarm if the door is forced open while the device is armed; it will provide anti-pass-back by cutting short the rearm time.

External Inhibit Input — This optional input is provided to allow remote override of the Chexit in the armed condition. It also allows remote reset of the Chexit in an alarmed condition. Typical device connections include card readers, wall-mounted key switches, or a remote security console. This input is controlled with a Normally closed switch (open = disarmed).

Fire Alarm Input — This input disables the Chexit immediately upon a fire alarm. The building's fire alarm system should provide normally closed contacts which open on alarm.

Internal Auxiliary Lock — The Auxiliary Lock is engaged when the Chexit is armed. The locking mechanism is specifically designed to hold securely even when the exit device is struck with forceful blows. The mechanism will also release upon command irregardless of the force applied to the push pad. An override spring prevents damage to internal components when more than 75 pounds of force are exerted on the push pad.

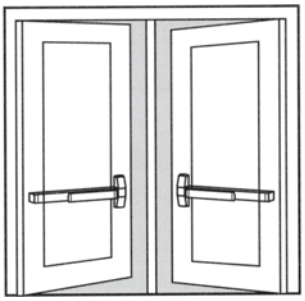
Sprayed Aluminum and Dark Bronze

Mullion

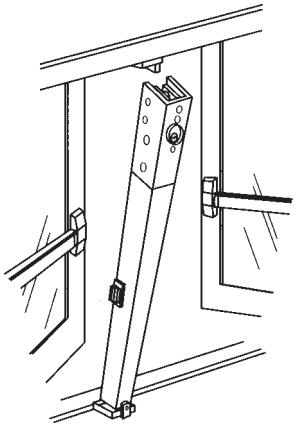


Removable mullions provide single door performance in double door openings with rim devices. Mullions are easily removed by loosening bottom set screw and removing top fitting cover. The top mullion fitting is attached to the frame and is concealed by the fitting cover.
Mullions are shipped presized, with mounting screws, and prepared for strike. Strike not included.
4954 - standard door application. Prepared for two 264 or 299 strikes for use with all Von Duprin panic rim exit devices.
VON DUPRIN

Stocked Product

9954	7'3"	Aluminum and Dark Bronze

Keyed Removable Mullion (supplied less cylinder)



Keyed Removable mullions makes removal faster and easier by a single operation of the mortise cylinder. Mullions provide single door performance and security on double door applications. Once the mullion is removed, large equipment or furniture can freely pass through the opening. The unit will self lock when re-installed, without use of the cylinder key.
KR 4954 - key removable option supplied less cylinder - mortise cylinder 1-1/4"
9954 - UL Fire label mullion for up to 3 hour opening using Von Duprin fire exit rim devices.
MT54 - Wall mounted storage kit with floor and wall brackets for storage of key removable mullion description.

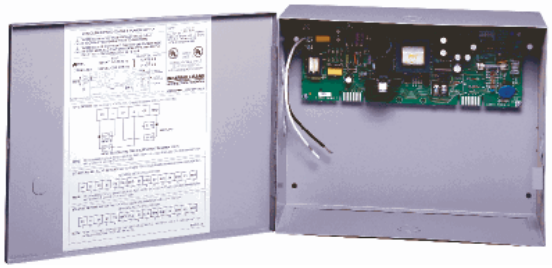
Series PS902 - Power Supply

- The series PS902 power supply is designed for electromagnetic locks and electric strikes on single door applications. The output power is field selectable for either 24VDC @ 1 ampere or 12VDC @ 2 ampere. Standard input 120VAC @ 0.6 ampere and 240VAC @ 0.3 ampere available. Terminal block will accept up to 14 gauge stranded wire.

Series PS9142RS - Power Supply

- The series PS9142RS power supply is designed to operate a wide variety of electrical products.
- The regulated output power is field selectable for either 24VDC @ 2 ampere or 12VDC @ 4 ampere.
- Standard input 120VAC @ 1.0 ampere
- PS9142RS complete for 2 doors.



EPT10 - Electrical Power Transfer

- Electric power transfer provides a means of transferring electrical power from a door frame to the edge of a swinging door. The units are completly concealed when the door is in the closed position, and are ideally suited for installations involving abuse or heavy traffic.
- Door applications; up to 5" butt
  Hinges - 180° swing, 5-1/2" butt
  Hinges - 130° swing, 6" butt
  Hinges - 110° swing, and 3/4" offset pivots 180° swing.

Fire Listings: 4800LN series locksets are UL listed for use on fire doors for up to 90 minutes.

Strikes: Lockset - T-Strike (Model 371) standard.
Deadbolt - D245 standard, 542 optional.

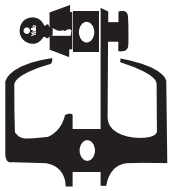
C Keyway 6 pin

Warranty: The 4800LN series carries a one-year mechanical warranty.

* Simulated painted finish meeting ANSI/BHMA standards for wear and durability.

Installation:

4800LN series interconnected locks use a 4" center to center dimension and conform to ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.



4851LN (F95)
Entrance, Single Locking
Deadbolt operated by key from outside or by thumbturn from inside and automatically deadlocks when fully thrown. Latchbolt retracted by lever from either side. Turning inside lever retracts deadbolt and latchbolt simultaneously for immediate exit.

*in*Touch® Stand-alone Touchscreen Access Lock

Users benefit from an interactive touchscreen that makes day-to-day access effortless and offers voice-guided programming for fast and simple updates to user information in the event of staffing changes or security breaches.

Ideal for a wide variety of applications, *inTouch* is recommended for management offices, patient records storage, storerooms, staff lounges, restroom doors, etc. Anywhere that requires simple controlled access is an ideal place for *inTouch*!

inTouch is engineered for quick & easy installation and fits into the standard ANSI/BHMA A156.115 cylindrical locks with lever door prep with one additional 3/4" hole and 7 screws including latchbolt and strike.

The *inTouch* Series lever design meets accessibility guidelines of the Americans with Disabilities Act and the requirements of the Uniform Federal Accessibility Standards and ICC/ANSI A117.1

Certified ANSI/BHMA A156.2, Series 4000 Grade 1.

The *inTouch* stand-alone touchscreen access lock features the Free Wheeling lever mechanism. When the outside lever is locked, it will rotate freely up and down while remaining securely locked.

Specifcations:

Door Thickness: 1-3/4" (44mm) door thickness standard. For use on 1-3/8" thick doors, a special thin door kit must be used. To order 1-3/8" thin door kit, specify part number 14-4761-0106. This kit includes inside and outside escutcheon spacers as well as a 2-3/8" latchbolt.

Backset: The 4600(LN) series cylindrical locksets are available with a 2-3/4" (70mm) standard or 2-3/8" (60mm) optional backset.

Latchbolts: 1/2" (13mm) throw deadlocking latchbolt supplied standard.

Power Source: Powered by 4 AA alkaline batteries.

Strikes: ANSI strike 4-7/8" x 1-1/4" x 1-1/4" (124mmx32mmx32mm)

C Keyway 6 pin

Fire Listings: Functions are UL - cUL Fire Listed for use on fire doors having a rating up to and including 3-hours.

Warranty: The *inTouch* stand-alone touchscreen access lock carries a three-year warranty. Likewise, *inTouch* carries a lifetime warranty against lever sag and lever spring breakage.

Handing: Locksets are non-handed.

Installation:

InTouch uses a cylindrical lock with levers door preparation with the addition of one 3/4" hole, therefore conforming to modified ANSI/BHMA Specifications A156.115 which cover hardware preparations for steel doors and steel frames and A156.115-W which cover hardware preparations for wood doors with wood or steel frames.

Yale

*in*Touch® Stand-alone Touchscreen Access Lock

Features:

Touchscreen as shown when not activated

Touchscreen – Responds to human touch enabling convenient entrance or access to programming menu. After operation has been completed, the lock reverts to sleep mode.

Ergonomic Design - Slanted touchscreen optimizes line of sight, and backlit touchscreen provides illuminated access in low light conditions.

Return to Previous - During programming, this key can be pressed to return to the previous step or menu setting.

Lockout Mode - Restricts user PIN code access.

Low Battery Indication - Blinking designation signals internal 4 AA alkaline batteries are low.

Cylinder/Key Override - Accepts Yale® fixed core component cylinders. Also available to accept small format interchangeable core (SFIC). Allows integration with existing key systems.

Passage Mode - Allows continuous entry for non-restricted traffic.

Solid Escutcheon - All metal escutcheon provides quality and durability.

Touchscreen as shown when activated

Yale

*in*Touch® Stand-alone Touchscreen Access Lock

Additional Features:

- Menu access to voice guided programming available through touchscreen.
- Pre-programmed voice options: English (default), Spanish or French.
- Visual and tone playback confirmation provides positive reassurance while operating.
- Silent mode available to disable tone playback for use in quiet areas.
- Auto re-lock time – default of 5 seconds.
- Keypad Shutdown – Deters tampering by disabling the keypad for a default of 180 seconds after five successive wrong code entries.
- Weather resistant. Operational in temperatures ranging from -40°F to +140°F (-40°C to +60°C) at 95% relative humidity.

2100 Series - Flatbar Exit Devices

The 2100(F) is a rim exit device to be used with single doors or pairs of doors constructed of metal, wood or composite materials. The 2100(F) can be paired with a wide variety of trims to meet many applications.

Certified ANSI/BHMA
A156.3, Grade 1.

Listed for use on fire doors having a rating up to and including 3-hours unless otherwise noted.

2100 exit device lever trims feature the unique Free Wheeling lever mechanism. This Free Wheeling trim features a clutch mechanism which allows the lever to float down 60° when operated in the locked condition, greatly improving vandal resistance.

The 2100 series exit devices carry a three-year warranty. Rose trims carry a two-year warranty.

ANSI/BHMA Certified: A156.3 Type 1, Grade 1

Features:

- Designed for wide stile doors
- Non-handed for easy installation
- Steel interlock “E” bracket maintains door-to-mullion relationship in fire-labeled devices
- Deadlocking pullman latchbolt positively engages roller strike

Applications:

- Single swing doors
- Pairs of doors (mullion required)
- Metal, wood or composite door materials

Specifcations:

Door Opening Width:
-36 for 30” - 36” (76cm - 91cm) doors
-48 for 42” - 48” (107cm - 122cm) doors
Door Thickness: 1-3/4” (44mm) standard. Optional door thicknesses available to 4-1/2”; specify door thicknesswhen ordering.
Minimum Stile Width: 4-1/2” (114mm)
Projection: 2-1/2” (64mm) active, 1-3/4” (44mm) depressed
Latchbolt: 3/4” (19mm) deadlocking stainless steel pullman-type
Strike: 757F, 793 optional (double door application, panic only)
Fasteners: Machine screws and wood door fasteners standard for panic hardware. Sex nuts and bolts supplied standard for fire exit hardware.
Trims: 440F series rose trim with escutcheon plate
Dogging: Hex key dogging supplied standard on panic devices

Options:

MicroShield®
Warranty: 3-year limited

UL/cUL Listed: FVSR/FVSR7 - Panic hardware
GXHX/GXHX7 - Fire exit hardware (F)
(4’ x 8’ single, 8’ x 8’ pairs, 3 hr.)
