Kilner®

The original Kilner® Jar is as much-loved and successful now as it was 175 years ago. As we reflect upon the brand's centuries' old success, we pay homage to the Kilner® Jars long-lasting popularity, owed to its distinctive pressure seal and iconic design. Put simply, households all over the world trust it to successfully can and pickle their fruit and vegetables.

A surge in popularity for canning home-grown fruit and vegetables, and storing food in jars rather than plastic for its health benefits has catapulted the Kilner® Jar into the limelight in recent times. Now, not only is it an essential for the kitchen, it has become a statement of style throughout the home.

Mason Cash

Mason Cash has been the choice of home cooks and bakers for centuries. The origins of Mason Cash can be traced back to a pottery operating in the heart of the British ceramic industry in 1800. Although Mason Cash has been producing mixing bowls since the 1800's, in 1901 they designed and manufactured the very first iconic Mason Cash mixing bowl. The bowl's design has endured the test of time and has become something of a design classic. In fact, the design has barely altered since then, which is why the brand is still renowned for its innovative, classic character in the world of kitchenware today.

Over the centuries, we have developed a great understanding of home cook's evolving needs and expectations, which enables us to invent products which are innovative, functional and effective, using the best quality materials available. While many of the Mason Cash items have retained their original designs, others embody contemporary twists, evolving into progressive modern interpretations of the original.

Typhoon

The Typhoon journey began over 20 years ago. From humble roots as a small British company specialising in Asian cookware, Typhoon quickly became a globally renowned brand after introducing woks to the European market, then expanding into fashion led homewares with kitchen storage and accessories.

The brand then quickly gathered a reputation for innovative and high-quality kitchenware at affordable prices. Our stylishly designed collections and signature cookware ranges have our customers home décor, lifestyle and tastes firmly at heart - from authentic retro accessories for lovers of a vintage era to the trend setters wanting the latest contemporary statement pieces – we cater for them all and always at great value.

Over the last 20 years, we have unveiled a variety of exciting products keeping our reputation for fashion-led, affordable items and through sustained global marketing, placements in premium retailers and department stores, Typhoon has firmly cemented its place in the market for design-led houseware products.

Viners

With over a century of flatware manufacturing experience, Viners is a highly distinguished, trusted and much loved brand, steeped in British Heritage. The illustrious flatware brand dates back to Sheffield, England in 1908.

From a small silverware specialist, they grew to be the biggest silver, silver plated and stainless steel kitchenware producer in the UK.

With a reputation of high quality products, Viners was issued with a Royal Warrant as Cutlers and Silversmiths to King George V of England. They continued to expand and grow their range nationally and internationally and were the biggest employer of flatware during the mid-century.

Innovation and design development are intrinsic values associated with the brand, with notable product designs spanning over 50 years. Current day, the brand offers shapes and patterns which reflect what consumers are looking for from contemporary or classic dining ranges which feel great in the hand and are practical to use.

Price & Kensington

The Price & Kensington story started at the beginning of the 19th Century, in Burslem, England, when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works. Specialising in tabletop accessories, and teapots, the brothers quickly became renowned for their distinctive designs. During their time within the local area the brothers developed a strong working bond with Kensington Potteries, who specialized in novelty teapots. This bond grew so strong that two companies eventually merged in 1962 to become known as Price & Kensington.

Rich in heritage and passionate about table top accessories and teapots, the Price & Kensington brand continues to flourish. While teapots remain the heart of the product range, we also offer a number of tabletop collections, including co-ordinating storage and dinnerware to accommodate all tastes and lifestyles. We understand that for generations the kitchen is the heart of the home, which remains the fundamental inspiration for our new developments.

Our Story

The original Kilner® Jar, first invented by John Kilner and Co in 1842 in England, is as much-loved and successful now as it was 175 years ago. Its long-lasting popularity is owed to its unique pressure seal, iconic design and overall quality. Put simply, households all over the world trust it to successfully can their fruit and vegetables. In the 1900s, Kilner® presented its innovation as 'the original and the best, all other brands are substitutes', a claim which remains as relevant today, and is a testament to its impressive heritage.

A surge in popularity for canning home-grown fruit and vegetables, and storing food in jars rather than plastic for its health benefits, has catapulted the Kilner® Jar into the limelight in recent times. Not only is the Kilner® Jar essential for the kitchen, but it has become a statement of style around the home.

From New York to Tokyo, Paris to Oslo, consumers around the globe love using Kilner®. As a result Kilner® Jars can be found in world-famous department stores and small independent shops around the world.

We recommend avoiding the use of low quality, inferior glass products, these can lead to injury and food waste. Don't risk your precious preserve by using low quality storage with ill fitting lids. Choose Kilner® as we only use quality food grade materials.

Kilner® have the knowledge and experience to develop and produce high quality glass jars that will last longer and keep your ingredients safe.

Glass is good for your food. It is made from pure, natural elements, so harmful chemicals or toxins do not leak into your food. Glass is also BPA free which means it's the healthier choice for storing, preserving or even transporting your food and drink.

Glass preserves your food, keeping it fresh. It locks in taste and aromas, is easy to clean and doesn't take on residual odours, tastes or stains from food and drink. Not only is it healthier, but also more economical, reusable and recyclable - friendlier on both our pockets and the environment.

MASON CASH

EST.

1800

FALL/WINTER 2018

Product Range

200 Years in the baking.

Mason Cash originated in a pottery operating at Church Gresley in the heart of the English ceramic industry in 1800. The pottery became world renowned for producing kitchen items made from their distinct 'white and cane' glazed earthenware. The pottery was run by a series of Master Potters of whom the most colourful was William 'Bossy' Mason.

During the 1800's the pottery was named after him, and when Tom Cash acquired it in 1901, he renamed it Mason Cash & Co. Although Mason Cash had produced mixing bowls during the 1800s, in 1901 they designed and manufactured the very first iconic Mason Cash mixing bowl. The bowl's design has endured the test of time and has become something of a design classic. In fact, the design has barely altered since then, which is why the brand is still renowned for its innovative, classic kitchenware today.

A handwritten signature in black ink, consisting of a large, stylized 'P' followed by the word 'Mason' in a cursive script.

Great British Design Icon.

First developed in 1901, the iconic Mason Cash Mixing Bowls are made from high quality, chip-resistant earthenware making them heavy enough to stay still when mixing, yet light enough to hold comfortably in one arm.

The distinct patterned exterior and rim of the bowl is designed to help bakers grip and tip the bowl and has become synonymous with the brand and baking ever since.

The bowls are as relevant today as they were in 1901 and have endured the test of time to become something of a design classic.

ORIGINAL CANE

Mixing Bowls

The sizes of Mason Cash Mixing Bowls were used historically to refer to how many can fit on a shelf in a kiln when manufacturing. There's a bowl size to suit any task. The size 4 is designed for large batches of dough, whereas a size 42 is designed for mixing sauces or storing ingredients. The size 12 is a good all-rounder for bread, pastry, cookie or cake mixes.

HISTORY & HERITAGE

As a Stoke-on-Trent pottery brand, Price & Kensington is a world renowned ceramic tableware company, with a history and heritage dating back over 100 years.

Our story started back in 1896, when the innovative Price Brothers founded their earthenware manufacturing company in Crown Works, Burslem. Specialising in tabletop accessories and teapots, the brothers quickly became renowned for their distinctive designs. Through their hard work and dedication the Price Brothers brand saw rapid success. In 1934 they moved to the Top Bridge Works in Longport, where they became known as Price Bros Ltd.

During their time at the Top Bridge Works, the brothers developed a strong working bond with Kensington Potteries, who specialised in novelty teapots. This bond grew so strong that the two companies eventually merged in 1962, to become known as Price & Kensington.

Rich in heritage and passionate about tabletop accessories and teapots, the Price & Kensington brand continues to flourish under family ownership. Whilst teapots remain at the heart of the product range, we also offer a number of tabletop collections, including co-ordinating storage and dinnerware to accommodate all tastes and styles.

We understand that for generations, the kitchen has been the heart of the home, which has been and remains the fundamental inspiration for our new developments.

“Some of the original brick built bottle kilns still stand today and capture a historical image of industrial life in this famous pottery area.”

“Rich in heritage and passionate about teapots and tabletop accessories, the Price & Kensington brand continues to flourish.”

Top: Price's National Teapots building still stands today, complete with the original company signage. Above: For years these towering bottle kilns were a permanent part of the potteries skyline, some of the kilns still stand today.
