

# SIMPLE, HASSLE-FREE

Our programs are easy.  
We take care of  
all the details.

 **AbsorbTech**®  
*Cleaner, safer solutions for industry*

# 5 benefits of a Sorblts® program

## 1 Safety

Reduce the risk of slip & fall injuries & help maintain a safer work environment.

## 2 Waste

Sorblts® have an immediate & measurable impact in pounds of solid waste eliminated from your facility.

## 3 Quality

Sorblts® outperform disposables in quality, cleanliness and absorbency.

## 4 Savings

Customers save significant time and money compared to disposables.

## 5 Managed

Delivery, pick up, laundering, inventory management & more - we take care of all the details.

*Sorblts*<sup>®</sup>

# HOW THE PROGRAM WORKS

# SOAK UP OIL

3-5 times more absorbent than disposables

*SorbIts*<sup>®</sup>

*Sorblts*<sup>®</sup>

**WE PICK UP**

And proactively manage inventory

*Sorblts*<sup>®</sup>

# WE LAUNDER

Sorblts<sup>®</sup> are laundered through a proprietary process

# WE DELIVER

Clean Sorblts<sup>®</sup> are delivered back to your facility

 AbsorbTech<sup>®</sup>

*Sorblts<sup>®</sup>*

# FLUIDS RECYCLED

Recovered fluids are recycled or beneficially reused

Cleaner, safer solutions for industry

Sorbites® Ultra™ Towel, Cotton Roll Towel, Mop and Filter Bag programs are Zero to Landfill Solutions supporting our customers' sustainability and waste stream elimination goals.

# SAVE TIME & MONEY

Significant time, cost savings compared to disposables, alternatives

*Sorblts*<sup>®</sup>

# Incineration vs. Reuse

## Incineration

*Incineration is burning with ash remaining. It is not vaporization with nothing remaining.*

Incineration is waste. Ash will get reused or landfilled.

The process of burning creates emissions from both the fuel used and the waste burned.

Customer identification remains all the way through the process to the ash.

**Waste**

**Resources**

**Liability**

## Reuse

*Reuse is use more than once.*

Reuse is not waste.

Reuse saves resources, including the container used to ship it.

Customer identification is lost (in most cases) once the product is received and sorted.

# Incineration vs. Reuse

According to the EPA's non-hazardous materials and waste management hierarchy, **reuse is preferred over energy recovery.**

The hierarchy places emphasis on reducing, reusing, and recycling as key to sustainable materials management.

A person wearing a high-visibility green safety vest and dark clothing is holding a large, blue, quilted pad. The pad is being held vertically, showing its diamond-shaped quilted pattern. The background is an industrial setting with blue machinery and a concrete floor. A smaller piece of the same quilted pad is laid out on the floor in the foreground. The text "QUILTED PADS" is overlaid in large white letters on a dark semi-transparent background across the center of the image.

# QUILTED PADS

**SUPERSOCKS<sup>™</sup>**

A worker in a grey short-sleeved shirt and dark pants is applying a grey and yellow slip-resistant mat to a large metal structure in a factory setting. The mat is being unrolled from a roll on the floor. The worker is wearing safety glasses and gloves. The background shows industrial equipment and a warehouse-like environment.
