RE: J. Raymond Construction Credential Package

Dear Luis:

Thank you for your response to my inquiry about your office project at 3840 Main Highway in Coconut Grove. While I understand that has been awarded to Grycon please accept this package for future consideration.

Luis, this package will give you the “big picture” of J. Raymond’s history. It will detail our company and our construction experience throughout Florida and the southeast.

I would like to share with you a few of the highlights from the package:

- ◆ 2017 is our 28th year in business
- ◆ All our work has been in the privately financed commercial market including retail, medical, office, mixed use, manufacturing, auto, warehousing, parking structures, religious and non-profit.
- ◆ We have never missed an owner’s opening date nor have we been in litigation with a client, subcontractor or supplier
- ◆ 2016 Revenue was \$163 Million, 2017 is projected to be \$185 Million
- ◆ Financially strong – can bond up to a \$125 Million single project, \$175 Million aggregate
- ◆ Highly advanced technologically in our estimating, project management, field operations, client communication, reporting and Building Information Modeling capabilities.
- ◆ We build the R.I.G.H.T. way, **Respect**, **Integrity**, **Golden Rule**, **Humility** and **Trust**

In this package please find our construction history, company information, details about our services, an AIA-A305 Contractors Qualification Statement and lists of current and completed projects.

Ms. Luis Lamar
Optimum Development USA
Page 2

Additionally, you will find bank, bonding and client references as well as illustrations of our work and the resumes of key company personnel.

We pursue and are awarded projects via hard bid, negotiation, construction management, design/build and early teaming where we work closely with the owner, architect, consultants and other team members throughout the design and construction phases of a project.

Many times, in teaming we are selected based on qualifications and/or the submission of a competitive Fee and General Conditions proposal.

Thank you for your consideration.

Sincerely,

J. RAYMOND CONSTRUCTION

A. OVERVIEW & PROJECT PROFILES

BUILDING INFORMATION MODELING (BIM)

BUILDING INFORMATION MODELING OR BIM IS THE PROCESS OF DEVELOPING A VIRTUAL BUILDING MODEL THAT ALLOWS THE PROJECT TEAM TO SEE, INTERACT, ANALYZE AND COLLABORATE IN AN INTELLIGENT 3-DIMENSIONAL ENVIRONMENT. J. RAYMOND CONSTRUCTION ADOPTED THE USE OF BIM IN 2011. BENEFITS FROM BIM IMPLEMENTATION WERE IMMEDIATELY RECOGNIZED WITH A REDUCTION IN THE NUMBER OF RFIS, COSTS AND TIME DELAYS.

BIM AT J. RAYMOND CONSTRUCTION

A BIM KICKOFF MEETING IS HELD AT THE START OF EVERY PROJECT WHICH REQUIRES THE ENTIRE PROJECT TEAM TO ATTEND. A BIM EXECUTION PLAN FOR THE PROJECT IS DEVELOPED WITH INPUT FROM THE ENTIRE TEAM THAT WILL DEFINE THE SCOPE OF BIM IMPLEMENTATION ON THE PROJECT, IDENTIFY THE PROCESS FLOW FOR BIM TASKS, DEFINE INFORMATION EXCHANGES BETWEEN PARTIES AND DESCRIBE THE REQUIRED PROJECT AND COMPANY INFRASTRUCTURE NEEDED TO SUPPORT THE IMPLEMENTATION. 'INTELLIGENT' 3-DIMENSIONAL MODELS, THAT NOT ONLY INCLUDE THE PHYSICAL PROPERTIES OF THE PROJECT BUT ALSO ITS FUNCTIONAL PROPERTIES, ARE DEVELOPED. BIM COORDINATION MEETINGS ARE HELD THROUGHOUT THE PRE-CONSTRUCTION AND CONSTRUCTION PHASES TO RESOLVE CLASHES AND CONSTRUCTABILITY ISSUES. 4-DIMENSIONAL MODELS ARE DEVELOPED TO AID IN CONSTRUCTION SEQUENCING, PHASING AND SCHEDULING SIMULATIONS. FIELD STAFF HAS EASY ACCESS TO CUSTOM ELECTRONIC LAYOUTS OF ANY AREA THEY REQUIRE AT ANY GIVEN TIME. BIM MODELS MAYBE USED IN FUTURE FOR OPERATIONS AND MAINTENANCE PURPOSES.

Re: West End Professional Office Center

Russ

Having recently had the opportunity to work with J Raymond on the above referenced three story office building we write this letter of recommendation with genuine enthusiasm.

As is the case in most working relationships the success of a project comes down to the quality of the people working together on the team, and our experience with you and your staff was an extremely pleasant one.

From the very start of this project you were committed to providing the owner with the highest quality product you could deliver within their budget and on time.

Feel free to use our name and this project as a reference tool because we would recommend you highly to anyone considering a construction project that would enjoy working with a company who listens, advises, cooperates, and performs on a very professional and personal manner.

Best of luck to you and let's do this again sometime.

Simply put, J.Raymond Construction was instrumental in the successful completion of our Community Life Center. Without their guidance, I believe we would not have the 12,000 square foot building being used today. Our Design Build Team interviewed several local and national contractors and were unanimous in our decision to choose J. Raymond.

Every aspect of the design and build process went smoothly and they were right there with us – from assisting in choosing an architect, through the design phase, budgeting, pre-construction, ground breaking, construction and grand opening. During our construction update meetings, they were very informative and patient with any and all of my questions.

Their judgment was clear and very valuable. The construction was excellent, on time and under budget. J.Ray's subcontractors were all professional which was very important to us given construction was on an active, open campus of our Church.

They went "way beyond" expectations to make sure we were happy with every detail. Many thanks to John Sofarelli, Tom Lail, Brian Giddens and the whole J. Raymond staff.

We highly recommend J.Raymond Construction. Please call or email me with any questions you may have.

RE: THE SCOTT PARTNERSHIP ARCHITECTURE OFFICE BUILDING

Dear John:

Please let this letter serve as an appreciation of your work on the above-referenced project. This project entailed extremely difficult time constraints, all of which were met and even exceeded our expectations. The entire J. Raymond team, led by Tom Lail, with on-site supervision and leadership by Frank Pando, exhibited a high degree of professionalism and integrity throughout the execution of this project.

The Scott Partnership Architecture Office building was a difficult project in the sense that the project involved the construction of our company's new corporate headquarters, always a tough assignment.

We have done multiple projects with J. Raymond and in every case have found your work to be top-notch. We have absolutely no reservations in recommending you for future work.

We look forward to a continued long and successful relationship with J. Raymond Construction.

Re: 250 N. Orange Ave., 16-story Renovation

I sincerely and enthusiastically compliment J. Raymond Construction Corp. for their excellent work and professionalism on this project. Throughout very hectic and challenging circumstances J. Raymond kept our best interests always in mind and made the construction portion nearly painless for me.

This project entailed tremendous amounts of preparation and coordination. On all but the bottom two floors, everything on every floor was demolished and replaced -- exterior glass, rest rooms, telephone and electrical rooms, every foot of copper wire, all air-conditioning handlers, ducts, and controls, and an entirely new additional 16-story fire stair. The performance and "can do" approach taken throughout each phase was exemplary, almost heroic. Your team is congratulated for their effort and for delivering what was promised.

I do not hesitate to refer your company to anyone desiring a reliable, highly ethical full-service contractor. I have enjoyed our relationship over the years and look forward to more projects with J. Raymond.

RE: Letter of Recommendation – J. Raymond Construction Corp ("JRCC")

Dear Russ:

I personally feel that this letter of recommendation is long over due. I have had the pleasure of working with you and your construction team the last nine years. The first construction project that your company built for Retail Property Group ("RPG") was the Oaks Square retail shopping center located in Gainesville, FL, consisting of approx 120,000 SF of national retail tenants. The project was completed December 1999, and, all of the tenants were able to open in accordance with their grand opening time line.

We have successfully worked together on various portions of three other RPG owned southeast FL shopping centers that total approx 600,000 SF. The end result for all these projects, were successfully completed renovations &/or new construction for our shopping centers.

This last project that we are currently in the process of closing out has been one of the most complex time consuming construction projects that I have had your company build for RPG to date. You and your construction team has successfully completed the thirty one acre off site work for a wetland mitigation restoration project, and the on site work for a twenty seven acre Home Depot shopping center, including building construction for 95,000 SF of retail and restaurant space.

I have enjoyed working with you and the JRCC construction team during the last nine years. JRCC has a great team approach which has allowed us to work thru various difficult site work and building construction situations. I have found every one that I have worked with at JRCC, starting with the preconstruction phase through issuance of certificate of completion, to be professional and knowledgeable within their field of work.

I look forward to working with you, and the JRCC construction team on our future projects. I personally want to let you know, there are very few construction companies that I would recommend to other developers. Please feel free to use me as a contact person on your reference list.

Dear John:

On behalf of Realty Capital and West Volusia Towne Centre, LLLP, I am pleased to write this letter of recommendation for the services of J. Raymond Construction Company for the construction of a 250,000sf Kohl's anchored shopping center in Orange City, Florida.

As a first time developer, we lacked the experience and framework to develop such a project. There was absolutely no certainty that the project would happen, and as a potential client to an established general contractor, we represented as much liability as we did opportunity.

You and your team embraced us and the opportunity. John, we are particularly grateful for the personal commitment that you and Scott Milke showed to us from start to finish in completing the construction on schedule, on budget and to a high level of quality. In addition, you were instrumental in helping through numerous pre-development issues that were key to securing approvals and making the numbers work.

Most importantly, you and JRCC operated to the highest standard of integrity throughout the project. You operated open-book and consistently did the right thing each step of the way.

For all these reasons, I would recommend J. Raymond Construction Corp. for any construction project, and we hope to be a long-standing repeat customer.

Sincerely,

Re: Mainstreet at Midtown

Dear Russ:

Please let this letter serve as an appreciation of your work on the above-referenced project. This project entailed extremely difficult time constraints, all of which were met and even exceeded our expectations. The entire J. Raymond team, led by Jon Roemer, exhibited a high degree of professionalism and integrity throughout the execution of the project.

Mainstreet at Midtown was a difficult project in the sense that there were nine individual buildings, a 500 car parking structure and multiple coordination issues with our residential builder. Additionally, the project involved the construction of our company's new corporate headquarters, always a tough assignment.

We have done multiple projects with J. Raymond and in every case have found your work to be top-notch. We have absolutely no reservations in recommending you for future work.

We look forward to a continued long and successful relationship with J. Raymond Construction.

Re: Orlando Orthopaedic Center SoDo Project

Dear John:

Orlando Orthopaedic Center recently completed the relocation of our downtown Orlando medical and corporate offices. This project was unprecedented in both size and scope for our company in its almost 40 years of business. The success of this project was largely due to the decision to hire JRaymond construction as the general contractor for the build-out of our office suite and clinical offices. The team of construction professionals at JRaymond which included Carson Brownell as Project Manager and Matt Murray as site Superintendent were able to complete this project for Orlando Orthopaedic Center in the timelines prescribed and at the highest level of quality expectant of a first class outpatient medical facility. I would like to personally thank the entire team at JRaymond Construction for their dedication, professionalism and quality of work that went into making this new facility a showcase for our company and one that we are extremely proud of.

It is without reservation that I would recommend the contracting services of JRaymond to others and consider using you for future projects for our company.

Dear Russ:

I want to extend my appreciation to you and your team for all your hard work at The Shoppes at Isla Verde. I am pleased for the opportunity to recommend the services of J. Raymond Construction Company. As you know we hired you in the beginning of 2007, amidst a disastrous situation with another contractor. J. Raymond was able to quickly work through all of the existing issues that we had and was able to deliver the project on time to all of the tenants without delay.

I believe that J. Raymond Construction Company is an excellent choice for any company seeking a general contractor. J. Raymond exceeded my expectations throughout the project with their outstanding service and professionalism. I had the pleasure of working directly with Gary Williams and Scott Bryan throughout this project and the enthusiasm and professionalism that they provided was a huge asset to this project. Your company is well represented by both gentlemen.

I look forward to working with you on our next venture, Royal Office Park in Royal Palm Beach, FL.

Re: Lake Conway Woods façade renovation

Dear Russ:

As the completion of the façade renovation is in its final stages, I wanted to take a moment and thank you for the excellent job done by the entire J. Raymond crew. We're happy the project turned out as well as it did and judging by the enthusiastic input from the residence of Belle Isle, I would venture to say the community is thrilled also.

I'd like to thank Senior Project Manager, Martin Foster and Project Manager, Scott Milke for their professionalism and efforts and especially Site Superintendent, Mike Federsen, who not only kept the project going but kept all of the tenants informed and minimized business interruption.

We're hoping that you have a good before and after picture of the project that we could have to frame to place in our office. We want to show off the nicest looking retail center in the Belle Isle area.

Russ, once again thank you to the entire staff associated with the completion of this project. I look forward to working with you again in the future.

Dear John,

I wanted to take a moment to compliment J Raymond Construction and your team of Tom Lail, Jeff Lang, and Matt Murray for the execution of the Palm Coast Fire Station Number 21. The construction of Fire Station No. 21 was a critical component in the development of our Kohl's shopping center in Palm Coast, Florida. The fire station was constructed in 5 months, then an existing fire station demolished and utilities and parking were installed in place of the old fire station. The demolition of the old station and reconstruction of that portion of the retail site took another 2 months.

I knew that it would be critical to bring in a proactive and team oriented contractor to finish this project. J Raymond sold us on your capabilities to finish complicated projects and then delivered.

The overall quality of workmanship was excellent. Your team coordinated in a professional manner with the City of Palm Coast, Palm Coast Fire Department, and the City's architect.

Thanks again for the hard work

Sincerely,

TO WHOM IT MAY CONCERN:

I am pleased for the opportunity to recommend the services of the J. Raymond Construction Company.

The BETA Center has had a strong working partnership with the company, and majority owner John Sofarelli, for more than a decade. In 2001, we hired J. Raymond as general contractors for a \$3.5 million building expansion/renovation project at our BETA Center facilities in East Orlando. This two-phase project was completed in 2004.

I believe that the J. Raymond Construction Company is an excellent choice for any not-for-profit organization seeking a general contractor. J. Raymond has an outstanding reputation in the community for excellent service and workmanship and completing projects on time and on budget. Furthermore, J. Raymond Construction has a thorough understanding of the needs and challenges of the not-for-profit community. John Sofarelli serves on nonprofit boards such as BETA Center's and is actively involved in volunteering with other not-for-profit and community organizations such as the Boys & Girls Clubs and his church.

To assure we would get the most value for our construction dollars, John bid all major subcontracts to at least three reputable subcontractors. He took great care to assure a trouble free project and a lien-free completion. We can't say enough about the excellence and high quality nature of the services that we enjoyed from the company. If I can answer any questions for you on the J. Raymond Construction Company and its excellent credentials, please give me a call at 407-277-1942, ext. 113.

Dear John:

Now that One Charter is coming to a close, I would like to express my thanks to you, Dan and all of your staff. There certainly have been numerous issues that we have worked through over the past year.

I pride myself on my coordination abilities at the end of a job, but I think I have been upstaged on this project. Rick Liddell has done a masterful job the last two months by completing the site work under very difficult conditions. As you know this site is like working on a postage stamp. Rick sold fill, bought fill, traded fill and moved mountains of fill more than once to make the site balance. He was skillful at removing rock and gravel and replacing it with topsoil for landscaping.

I know that landscaping was not in J. Raymond's contract but Rick took on the project like it was his own. He was onsite every day coordinating Windmill Irrigation, Aucamp's Nursery and Landscape Professionals while still managing his "real" job. I look forward to working with Rick on future projects with J. Raymond.

Sincerely,

Attn: John Sofarelli

Dear John:

Words are inadequate to express our appreciation of the building project accomplished at Sweetwater Episcopal Academy/Episcopal Church of the Resurrection, Longwood, FL. The quality of work provided by J Raymond Construction Company went above and beyond our expectations! We are so proud of our new building – it is beautiful!

You are a man of integrity and an effective leader in your company. All of your employees and subcontractors were courteous and helpful. Special thanks to you, Scott Milke, and Tim Pehonsky for your patience and guidance through the process. It was all new to us, and you provided the expertise we needed. All of your employees and subcontractors were respectful and hard-working. There were no incidents of inappropriate language, music, or behavior on our campus, which we appreciated.

It is rare to complete a construction project within budget and ahead of schedule – but you did it! We are grateful for all the little (and not so little) “extras” you provided to us. Without your support of this project, we would not have a multi-purpose building today. We are already wondering, “What did we do without it?” You made the dream come true.

Thank you for caring about SEA. You have left a legacy for many students in the future. We are blessed by your kindness and generosity. Thank you for everything!

Sincerely yours,

Janet Stroup
