## February's Chess Puzzle

You may often find yourself in a situation where all pieces seem perfectly placed, nevertheless one can only be the winner. This is one of these moments. White is to move, and all you want is to brake black's perfect set up.

Hint: not every move must be an attacking move...

*Answer from last month's puzzle:*

Sacrificing queen to 1E followed by bishop to 1E will deliver win for white.

## Notary Public Services at the POA

Our licensed professional notary public services are here at the POA Office to make life easier. Once your documents are notarized, we will help you make any necessary copies and send them where they need to go.

Why do documents need to be notarized?

A notary public acts as an impartial third-party witness to not only the signature of a document, but also that all parties who signed a document did so willingly and under their own free will.

### Be Prepared and Ready to have your documents notarized.

1. Schedule an Appointment at the POA Office at (561) 627-1467.
2. Bring a valid, government issued photo ID with you when you visit the POA Office for notary services.
3. Laws vary by state and some documents may require witnesses in addition to the notarization. In most cases, the notary cannot act as a witness.

### Duties of a Notary Public

Notaries are authorized by law to perform six basic duties:

- Administer oaths or affirmations
- Take acknowledgments
- Attest to photocopies of certain documents
- Solemnize marriage
- Verify vehicle identification numbers (VINs)
- Certify the contents of a safe-deposit box

Types of documents that may require notarization:

- Wills
- Trusts
- Deeds
- Contracts
- Affidavits

## Mowing Schedule

If you remember, last month I was going on about the record heat and precipitation in December and was looking for a change.

Well, it looks like I got my wish. It was 52 degrees this morning and currently we have sunshine and 70 outside, great golf weather!

January and February are my favorite months in Florida because the plants grow slower and we can tackle other projects that we do not have time to do in the summer.

The cooler weather also slows the growth rate of the turf areas so we can increase the interval between cuts, giving the turf a longer period of time to recover the mower traffic. We will normally cut every other week during the winter months.

That being said, if you have an upcoming event or family gathering at your home and you need the grass cut on an off week please let us know in advance and we will be happy to schedule it for you.

Depending on the weather we will resume weekly mowings on or about the end of February.

Enjoy the rest of the Season!

## *Importance of Cleaning up Pet Waste*

### Top 4 Reasons for a clean lawn

Dealing with pet waste is one of those topics that every pet owner must deal with but no one likes to talk about. The fact is that the majority of community and neighborhood pet problems result from the inappropriate handling of pet waste. In addition, pet waste is the greatest source of potential health risk for your pet and your family. This article will highlight the five most important reasons to properly dispose of pet waste and will also give you some tips and products to make this chore easier.

#### #1 Disease Control

There are several very common diseases that can be transmitted to dogs, cats and people through feces. These include Giardia, roundworms, hookworms, Salmonella, and E.coli. Did you know a heavily infected puppy can pass over a million roundworm eggs everyday? In addition, your dog can spread or contract parvovirus or coronavirus through infected feces. All of these diseases are very serious and common and every effort should be made by pet owners to keep their pets and family away from potentially infected feces.

#### #2 Fly Control

Flies will consume and lay eggs in feces. These same flies will then come into your house and then spread disease as they pause on your counter and food. Need we say more about keeping feces cleaned up to prevent this cycle?

#### #3 Responsible Pet Ownership

Your responsibility to clean up after your pet doesn't end when your dog leaves your yard. There are probably fewer things that aggravate neighbors more than a dog that 'goes' in their yard. Pet owners need to clean up after their pet every time they go to the bathroom. Period. No exceptions. If you are walking in the woods and your dog goes, then bury it. If you are in a park or neighborhood, pick it up with a plastic bag or a Dispoz-a-Scoop. If you don't have a yard, then walk your dog on a leash or get an electronic fence. Don't make your responsibility somebody else's problem.

#### #4 Preventing Stool Eating

While most dog owners think this doesn't apply to them or their dog, the shocking truth is that most dogs will engage in this unsavory practice at some point in their life. Dogs evolved as carnivore/scavengers and feces were considered fair game in lean times. To prevent this occasional indiscretion from becoming a life-long habit, clean up feces as soon as possible, especially in young dogs where the problem is most prevalent.

## *Marine Patrol Boat*

## New Marine Patrol Boat in Service

This shiny new Marine Patrol Boat takes over your Marine Patrol Services. After 6000 hours the existing patrol boat has been replaced with this US Coast Guard ready boat. It will be customized to our needs and finishing touches such as the light bar and night vision flare unit are to be completed.

Jason Mammino is your Frenchman's Creek Boat Patrol Officer. He is also currently active with the US Coast Guard and he is looking forward to finally patrolling the waterways in the new boat after its initial break in period.

During his daily patrols, which are on a random schedule, Jason manoeuvres the patrol boat on the waterways behind your homes from the Donald Ross Bridge and under the Prosperity Bridge to inspect your backyards and the backyards on La Porte Drive. He watches out for incoming waterway traffic and acts as deterrent for possible property trespassers. He performs dock and lift inspections to ensure dock safety and welfare of the vessels at members homes regularly. Jason also reports issues with the seawalls and / or whether the drainage outfalls into the waterways are open and clear or not.

The boat is safe for 6 passengers, including the Captain. Therefore, if you would like a closer look and tour the Frenchman's Creek waterways with Jason, please contact Director Mark Hall at Frenchman's Creek Security at (561) 622-7800.

## *Golf Rule of the Month*

### Unplayable Ball (Rule 28)

The Player may deem his or her ball unplayable at any place on the course, except when the ball is in a water hazard. The player is the sole judge as to whether his ball is unplayable. If the player deems his ball to be unplayable, he must, under penalty of one stroke:

#### Penalty for Breach of Rule:

**Match Play: Loss of Hole**

**Stroke Play: Two Strokes**

- A Play a ball as close as possible from the spot where the original ball was last played.
- B Drop a ball behind the point where the ball lay, keeping that point directly between the hole and the spot on which the ball is dropped, with no limit to how far behind that point the ball may be dropped.
- C Drop a ball within two club lengths of the spot where the ball lay, but not nearer to the hole.

If the unplayable ball is in a bunker, the player may proceed with A, B or C. If he or she elects to proceed with B or C, a ball must be dropped in the bunker.

When proceeding under this rule, the player may lift and clean his or her ball or substitute a ball!!

“Be careful about distracted driving.”

### Beach Club Wine Dinner

Featuring Saint Helena Winery, Napa Valley

Saturday, February 6<sup>th</sup>

Founded in the year 2000, Saint Helena Winery was created to promote estate grown Cabernet Sauvignon that appeals to curious and cultured wine buyers looking beyond big wine brands for new discoveries. "Our wines are for people who collect and enjoy rare items for personal indulgence".

Winemakers Aaron Pott and Elizabeth Tangney guide the creation of three estate Cabernet Sauvignons, a Chardonnay and a few very small lots of estate specialties. "When you open a bottle of our wine, you are experiencing something few people will ever know – a wine reflecting the craft of our small-but-stellar team of farmers and winemakers and our unique place in Napa Valley".

"Kudos to Aaron Pott who appears to have put himself in the top hierarchy of Napa Valley's most illustrious winemaking consultants." - Robert Parker

### Gourmet Wine Dinner

Featuring Kermit Lynch Wines

Thursday, February 11<sup>th</sup>

Kermit Lynch was raised in San Luis Obispo, but his name has become synonymous with French and Italian wines. In 1972, with a \$5,000 loan and maybe a bit of gumption, this writer/musician opened Kermit Lynch Wine Merchant with thirty-five cases of wine stacked on the floor. Attracted by the Old World wine cultures of Europe, Kermit became a retailer, distributor, and national importer for authentic wines that express their terroir. Much like his close friends, the late food writer Richard Olney and Chez Panisse's founder Alice Waters, Kermit's influence has been enduring.

He has had so much success shining the spotlight on small, artisan producers that he has won two James Beard awards and was knighted by the French government with their prestigious "Legion d'Honneur."

Kermit's creative nature continues to extend beyond the two doors of his Berkeley storefront. In 1998, he purchased the historic Domaine Les Pallières in Gigondas in partnership with his friends, the Brunier brothers of Domaine du Vieux Télégraphe.

### Frenchman's Creek Live

#### Dr. Toby Cosgrove, President and CEO of the Cleveland Clinic

On Wednesday, February 10<sup>th</sup>, we will hear from Dr. Toby Cosgrove, the President and CEO of the Cleveland Clinic. Prior to being appointed CEO, Dr. Cosgrove chaired the Department of Thoracic and Cardiovascular surgery, and played a major role in leading the clinic to its worldwide prominence in the field of cardiac care.

He will speak about recent and anticipated new developments concerning the healthcare delivery system in the United States. Some of these developments significantly impact patients, doctors, hospitals and other healthcare professionals, but they are all intended to make the system more efficient economically, while generally improving patient outcomes. As with any significant change to the status quo, there may be winners and losers. I expect Dr. Cosgrove will help us understand how we and our children and grandchildren will be affected.

#### Dr. Ann Kirschner, Dean of the Macauley Honors College at the City University of New York

Friday, March 18<sup>th</sup>, will speak about urban universities and the numerous issues currently stirring up college campuses across the country. CUNY has a storied history, especially for Jewish students who could not afford, or could not gain acceptance to, the elite private universities. In its glory years it produced numerous Nobel Laureates, prominent professionals and industry leaders, including many FC residents. Partly due to racial politics, it enacted an open admissions policy, which was very unsuccessful. More recently, it reversed this policy and its Honors College now competes with elite schools for the highest achieving students, most of whom are not Jewish and come from minority groups.

All programs will begin promptly at 8:00 p.m. in the Main Dining Room.
