HINTS ON FIELDING.

FIELDING is a part of our most noble English game, which although not less important than the other two branches, is generally esteemed so, and especially in schools where to excel with the bat is thought most of to the detriment of fielding, which is less cultivated than either batting or bowling. To bat and bowl well are certainly great things, but no one could be called a finished cricketer who could not field, and to field well one must begin early. As this branch of the game requires persevering practice with more smartness than is generally developed by mere love of the game, it is a great thing to have been made to fag well when young, and will be found of great use in after years. This system of fagging for cricket at schools, if fags are made to do their work, does more to turn out good fieldsmen than any way. A first-rate field is often of a great deal more use to an eleven than a first-rate bat, the latter may be "run out," or be unlucky in many ways, but the former is

always sure and reliable, so no man ought to be in an eleven who cannot field. A bad fieldman is a loose screw in the machinery of your eleven, and a good ball will soon find him out and make good use of one of his deficiencies in this branch. The essence of good fielding consists in running forward to meet the ball directly it has left the bat, and *not stopping for picking it up*, then by one continuous action to throw it sharply up to the wicket, at the level of the balls. Throw in a catch if you can, but if too far off for that, send the ball in so as to reach the wicket at the first bound, and above all do not waste time in "winding up" before throwing, nor in throwing high up in the air. The very worst throw up, and the most difficult to the wicket keeper, is one that just pitches off his feet. Always throw the ball up to the wicket keeper, unless in cases where the bowler may call for it, or you can perceive a better chance the other end. You should pay great attention to the study of running in to meet the ball, this requires a practice of its own, and is a charming operation when you can do it, for the same impetus with which you run in assists the quickness of your return, so never stop before you reach the ball, practice alone will make you perfect in running in, only run with your hands near the ground so as not to have to stoop suddenly, and keep your eyes well

on the ball. In fielding, as in batting, you must practice the different kinds of balls, such as tices, half volleys, and different lengths. Anticipating the ball and getting the momentum on the right side is everything in fielding. Always stand easy, and in a position whence you can most readily spring to action *any way*; study sharpness rather than style in fielding. A man who can field well often prevents the batsmen from attempting to run by the assurance they have of his sharpness; he often also confuses them by returning even sharper than they expected. He thus does an immense amount of good to his side both by keeping the bowlers in good heart, keeping the runs down on the other side, and by helping to dispose of perhaps troublesome batsmen when well set and beginning to knock up a score. Thus far as to stopping; now as to catching, and a very few words will suffice. A fine fieldman must be able to catch surely, with either hand or both hands, his hands must be on the rat trap principle, taking everything in, letting nothing out. Practice all sorts of catches, high, low and running, on either side with either hand. To excel in catches one must practice; practice alone can make a fieldman. In catching too, you must look out for a spin, for balls usually spin off the bat, especially to the near fields. By habit, brought about by practice, hands and eye will go together, and you will in time judge difficult catches perfectly sure, and allow for all spin or twist which the ball may have. Another thing in fielding is greatly neglected, that is *backing up* a throw from the other side; there should never be less than *two* backing upon the opposite side of the wicket keeper from wherever the ball may be thrown up. Be always watchful and ready; long on and off should be ever careful to watch; when the wicket keeper, seeing the batsman backing up too sharply, shies at the opposite wicket, the bowler often does not expect it, and is not ready for it, so the long fields should back up well for such a throw. It is very important that young players should practice throwing, remembering always to throw in straight to the balls and not at the wicket. There is something really enjoyable in being a good field, one knows one is sure for any catch or hit within reach, and a com-

manding fieldman, as I have said, always intimidates the batsmen. Don't try any of the dodges of fine fieldsmen till you have entirely mastered the rudiments, and above all *never funk the ball*, you will never succeed in fielding if you do. Now, having given these few general rules, I will pass on to places in the field. In the first place never grumble at where you are placed, but do your best cheerfully and you will be all right. Never be down-hearted at missing a catch or letting a ball go, but run after it sharp, not waiting to express your disgust by dumb show; also be careful not to unnerve your fellow fieldsmen, say a word of encouragement rather than jeer at them when they miss a ball.

Wicket keeping must be well done in every eleven, and it requires great practice, a good eye and sharp hands. But as posture has a great deal to do with success in this place, study the attitude of some good wicket keep, and imitate the excellencies of his style as nearly as is convenient and easy to yourself. This is undoubtedly one of the most difficult places; persevering practice before all else, as in all fielding is indispensable.

Point is another of the most difficult places in the field. The great aim of point is to anticipate the direction of the ball before it is struck and thus stop many a good cut; this place requires a safe pair of hands, good judgment and large covering of ground. Point should vary his position to the pace of the bowler and style of the batsman. "The great fault of point is that if he stands near he stands too near, and if far off not far enough off," so says a high authority, "to stand too near with wild bowling is absurd."

Short Leg is often a hardly-used personage, expected to save runs that seem easy but are really impossibilities. The great difficulty is, as with point, the correct position suited to the style of the bowler and batsman; this place requires a most active field; no other in the field gives more scope for displaying talent.

Long Leg.—This place wants a man who can run well, catch well and throw well. Balls hit to leg generally twist in, just as balls cut to the off also have a tendency to curl to the left.

Long Slip is seldom well placed; he should

either stand to save one or save two, and must be very active in backing long stop to swift bowling.

Cover Point is something of the same sort of a place as the last, the balls come to both so fast and curling as often to puzzle the best men, as great watchfulness and activity is indispensable in both. Cover is the place for brilliant fielding, but few covers stand deep enough.

Long Fields,—on or off.—These places want men who are good judges of high catches, and can throw well and run fast. All long fields should cover a lot of ground and be very sharp in returning the ball.

Long Stop.—This field gets the most work; he should be sure and sharp in picking up the ball and returning it to the wicket keep. It is good practice for an eleven to make every man take a turn in this place.

Third Man is a place in the field between point and long slip, and for fast bowling is very useful. It is a very difficult place and the remarks on *point* will apply here as well.

Mid Off and On have no fixed places, they may have to stand deep, almost as long fields, or close in as near fields, in the former case the remarks on the *long fields* will apply, in the latter they will have an immense amount of work to do in places where difficult catches and hard hits abound.

In conclusion, as fielding is the most neglected branch of cricket, it is the most necessary for young players to practise. Therefore practise "running in and stopping," "catching," and "throwing," and in a short time you will find you will have made great improvement.

In the School's earliest days at New Inn Hall Street, Oxford, use had to be made of any public available space to play football and cricket. Port Meadow was a favoured venue for both winter and summer sport and was well remembered by Kenneth Grahame who attended the School 1868-1875. Years later he wrote the following:-

'The sole advantage of Port Meadow as a cricket pitch was the absence of boundaries. If an ambitious and powerful slogger wanted to hit the ball as far as Wolvercote, he could do so if he liked; there was nothing to stop him and the runs would be faithfully run out. The chief drawback was that the City Burgesses used the Meadow for pasture of their cows – graminivorous animals of casual habits. When fielding 'deep', and frequently cries of 'Throw her up!' reached one from the wicket, it was usually more discreet to feign a twisted ankle or a sudden faintness, and allow some enthusiast to recover the ball from where it lay'.

It was not until 1870 when Algernon Simeon was appointed Headmaster, that more suitable arrangements were made whereby the University grounds were leased near the railway station during their holidays. Later still in 1871 the School procured the use of the White House Ground beyond Folly Bridge

PROFILES OF THE SCHOOL CRICKET SIDE OF 1872

Herbert Edward Harper (Captain) was at the School 1870-4 entering at the age of 13. He was the first Senior Prefect after the move to North Oxford in 1873/4 and captained both the School's Cricket and Rugby XV sides. He was also an accomplished athlete winning the High Jump, Open 100 Yards and the Hurdles in his final year. He became the Managing Director and Editor of the 'Wine Trade Journal' and died in his office in June 1904 following a fit, during which he hit the floor hard and died later in St. Bartholomew's Hospital, London, aged 47 years. His younger brother Frederick was also at the School.

Henry William Russell Bencraft was at the School 1872-8 at the age of 13. He was the Senior Prefect in 1877/8 as well as captaining the School Cricket and Rugby XVs. He continued to concentrate on cricket and in 1876 he first played from Hampshire C.C., a club of which he was a founder member. He was also continued playing rugby football representing the Trojans Club based in Southampton. He qualified as a doctor and practiced in Southampton and became one of the city's most respected citizens gradually spending less time on medicine and more in business interests, eventually being appointed Director or Chairman of the three largest businesses in the city; he even found time to be a Magistrate (which he continued for 48 years). His foremost love and interest was sport in Hampshire, primarily cricket and he served the County Cricket Club for 60 years in every capacity possible ending up as Chairman. He persuaded other OSE including Edward Wynyard to join him at the club as well. He never lost interest in the School and was delighted to open the then new Cricket Pavilion in 1933. He was a Vice-President of the School's Society and the first President of the Martyrs. He died in 1944 at the age of 85.

George Lowes Dickinson attended St. Edward's 1872-3 entering at the age of 16, in his single year at the School he was a member of both the Cricket and Rugby teams. On leaving he went up to Durham University where he gained an MA. He was ordained in 1883 and appointed a Rector in High Bray, Devon in 1896 and was Vicar in Sourton, Devon 1917-25. He died in June 1952 aged 94 years.

Percy Clive Hoggins was at the School 1872-3 entering at the age of 13. Apart from being a member of the Cricket side little else is known of him. He became a schoolmaster and died in 1892 aged 34 years.

George Tucker Cornish was 12 years old when he joined the School where he stayed 1872-6. He trained to become a banker but died very soon after leaving the School in 1878 aged only 18 years. He was the middle of three brothers who attended the School.

Charles Preedy was the second oldest of six brothers who all attended the School. His years at the School were 1866-73 - he was 11 years old when he arrived. In his long career he was Senior Prefect 1872/3 and played in both the Cricket XI and Rugby XV. He left just before the School moved to North Oxford. He went up to St. Edmund Hall (MA) and was then ordained Priest in 1879 and held curacies in Wolverhampton, Birchington, Nottingham and Huddersfield; from 1900-31 he was Vicar of Stailsfield, Faversham, Kent. He died in January 1936 aged 81 years.

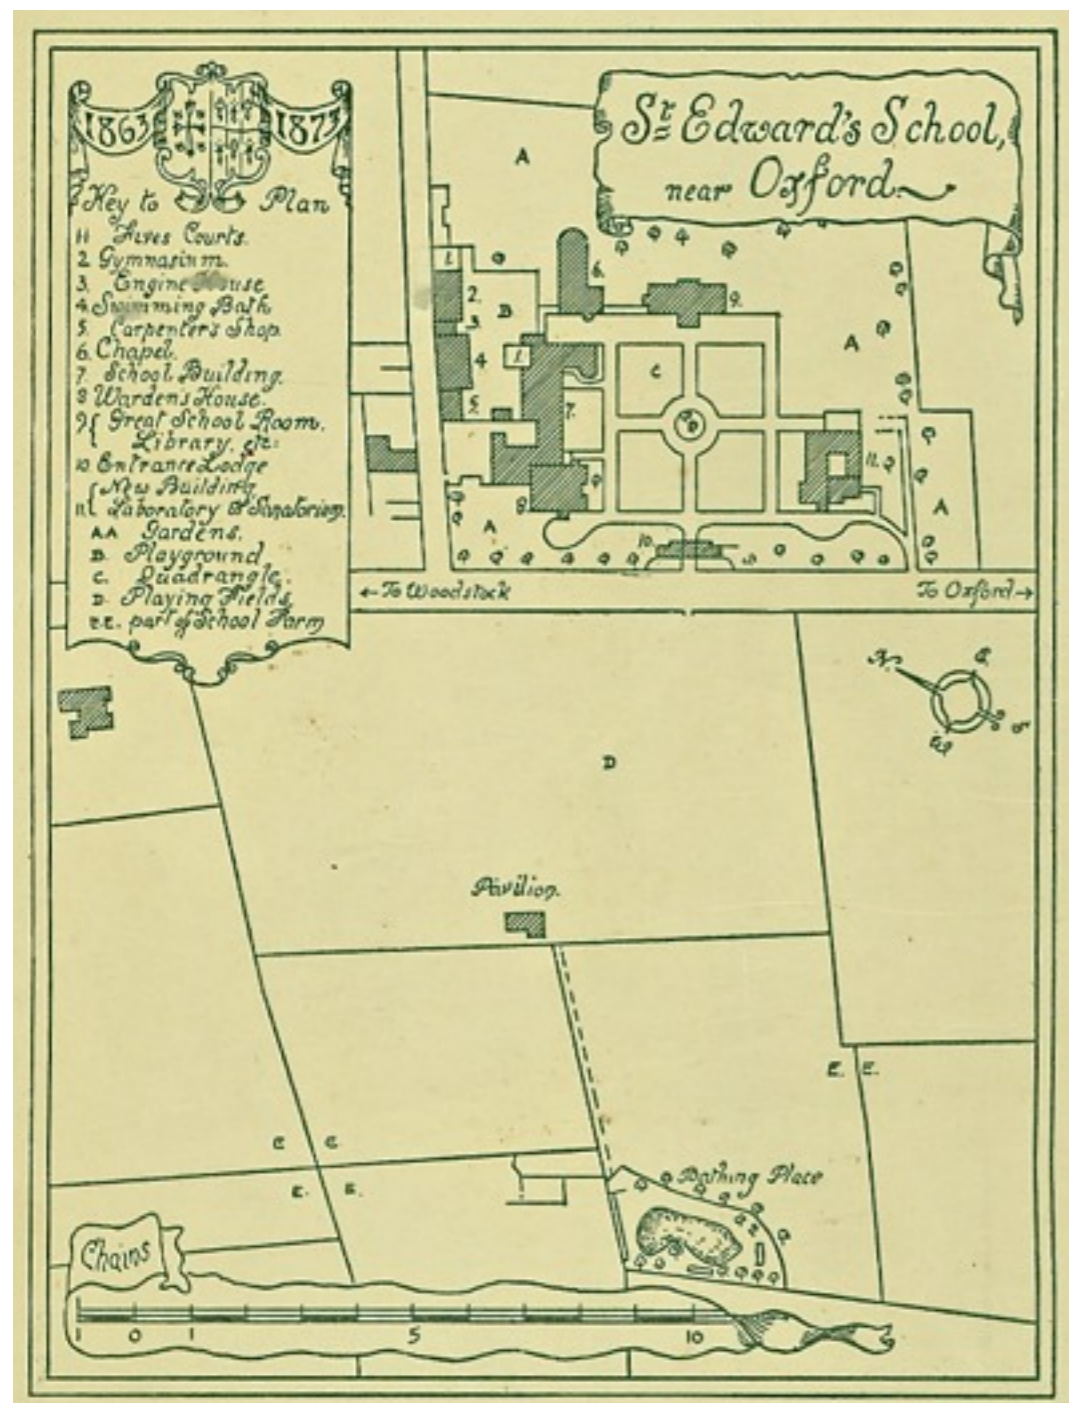

Reginald Moseley was at the School 1870-2 entering at the age of 14 years. He was Senior Prefect in 1872 and also played for the School's Cricket and Rugby sides. After gaining his degree at Worcester College, Oxford he joined the forces and took part in the Sudan Campaign in 1898. Later on he was ordained and appointed Chaplain to the forces between 1889 and 1918, this included a spell at Chelsea Hospital in London, by which time he was a Colonel. In 1918 he was a Hospitaler at St. Bartholomew's Hospital also in London then was appointed Vicar of St. Matthew's in Denmark Hill. He died in 1937 aged 81 years.

Frederick Ronald Borrow a student at the School 1871-4 joining at the age of 14 years. His main claim to fame was his involvement with the Cricket XI. After leaving he joined the 81st Foot, North Lancashire Regiment and fought in the Sudan Campaign of 1887. He attained the rank of Captain and was awarded the D.S.O. and The Order of Osmanieh and Mejidieh and left the army in 1888. He died in 1892, aged 34 years.

John Arthur Dockeray joined the School in 1866 aged 9 years and left in 1873. He was an early Prefect at the Summertown Site and a member of the Cricket XI. Little else is known of him except that he died in Llananno, Radnorshire in 1925 aged 66 years.

Alfred Sidney Gardner arrived at the School in 1872 and left in 1873. He represented the School both at Cricket and Rugby during his short spell. He came from a wealthy family and in time owned the Eaglebrush Ironworks in Neath, Wales. He held a variety of posts in his local area including Justice of the Peace for Glamorgan and Brecon, Deputy Lieutenant and commanded the 1st Glamorgan Volunteer Artillery and obtained the Volunteer Decoration. During the Great War he was a Colonel with his regiment until he fell from his horse and badly injured himself and forcing him out of front line action, although he remained with his Territorial duties. He never recovered full health and died in September 1917, aged sixty-two. For some unknown reason he was not included in the School's Roll of Honour. He had married in 1882 and had one son, Cyril (also OSE) who was badly wounded serving with the Royal Flying Corps.

Cecil Dacre Tyler was at the School 1871-7 joining at the age of 11 years, the second of four Teddies brothers. He was a School Prefect and played in both the Cricket and Rugby Football teams. Nothing else is known of him except his death date in 1904 aged 45 years.

CRICKET XI 1873

SQUAD H.E. HARPER (CAPTAIN), E.W.L. STRADLING, H.W.R. BENCRAFT, H.P. CROFT, W.R.W. TYLER, F.R. BORROW, E.H. JENKINS, H.F.D. SEWELL, F.W.P. HOLTON, J.D. BULLOCH, C.D. TYLER, T.M. CHAMBERS

HARPER, BENCRAFT, BORROW ARE SHOWN IN THE 1872 GROUP, STRADLING, CROFT, BULLOCH, HOLTON, CHAMBERS ARE IN THE 1875 GROUP.

THE ILLUSTRATION ABOVE IS A MAP OF THE SCHOOL AND GROUNDS IN 1873 SHOWING THE POSITION OF THE KEBLE COLLEGE CRICKET PAVILION. AT THIS TIME THE GROUNDS WERE OWNED BY THE DUKE OF MARLBOROUGH'S ESTATE AND LEASED TO KEBLE COLLEGE WHO IN TURN ALLOWED THE SCHOOL TO SOMETIMES USE IT FOR HOME MATCHES DURING HOLIDAY PERIODS. THE REST OF THE TIME CRICKET WAS PLAYED ON THE 'MEADS' (TODAY'S QUADRANGLE)

“Colours of black and blue were first worn by the 1st XI in 1873 and in the following year the 2nd XI were privileged to wear a cerise coloured ribbon on their hats.

During 1873 and 1874 cricket was played in the Quad, though most home matches took place on the Keble College ground (on the opposite of the Woodstock Road). It is sad to relate that in the latter year, the School, in a match with North Moreton, were all dismissed for 7 runs. 1874 was also noteworthy for being the first year in which the School played against an Oxford College - H.W.R. Bencraft took 28 wickets for 3 runs in 1873 and had a batting average of 24 in 1874.”

H.C. BROOKE JOHNSON (ST. EDWARD'S 1885-1889)
SHOWN RIGHT

AVERAGES FOR THE PAST YEAR.

THE averages at the bottom of the eleven are rather low this year: this may be accounted for by the wet weather we have had. H. E. Harper gained the bat, and R. Bencraft the ball.

Correspondence.

CRICKET.

To the Editor of "S. Edward's School Chronicle."

SIR,

Now that we are just on the verge of the Athletics, we think very little of the coming season of cricket—the most important of all. Of course its all very well to say we will play on the "Keble Ground" when the Undergraduates go down. Well, when that time comes it will be all very well; but before that where are we to play? We must not surely abstain from that healthy sport until the ground is vacant. We should be behind everybody like the "cow's tail." The grass on the meads does not look very promising, I must say. And if it is not going to quicken its pace faster than it is now, we shall have to wait two or three years before we can play on it.

The best plan would be to knock our heads together and get it sodded. I feel quite sure the parents would be most happy to contribute towards "S. Edward's Cricket Ground."

Hoping this will meet the eyes of the Head Master,

I remain,

Yours sincerely,

CRICKISTICUS.

**[We are happy to learn that a very good cricket-field has been secured, so we are released from the "sod" necessity suggested by our correspondent. Still we heartily endorse his appeal "ad parentes," as the rent is by no means the whole of the expense entailed by a well-ordered cricket ground.]

S. E. S. CRICKET CLUB.

ON Wednesday, April 14th, a meeting, consisting of the old members of the Eleven and the Prefects, was held in the Library, the Head Master in the chair. It was then decided that the Head Master should be *ex officio* President of the Club. Mr. Sealy was elected Vice-President, and it was resolved that the Prefect highest up in the First Eleven should be Captain. These three were to settle any disputed points which might arise. The Rules which appeared in the last Number of the *Chronicle* were then considered. Rule No. 2 of the General Regulations was altered as follows:—"That the subscriptions be as follows: Upper Game, 5/.; Middle Game, 4/.; Lower Game, 3/." It was also considered best that the subscriptions be paid by the first week of term instead of month. K. Grahame was then elected Secretary.

There is still one place vacant in the Eleven which will not be filled up just yet, as report says there is a new boy coming who is said to be a genius, let us hope that fickle rumour will not disappoint us.

Our ground is now in better order, owing to constant rolling which is improving it wonderfully. Regular practice has begun and we have a fair prospect of a good season.

The 2nd Eleven is in an unsettled state, owing to there being so many candidates for the vacant place in the 1st.

The New Pavilion has been begun about a week ago, sufficient subscriptions having been paid in to allow of its commencement. It will be finished with fittings complete very shortly.

“THE OLD BOYS’ MATCH.”

JUNE the 17th, the day appointed for the “Old Boys’ Match” at last arrived, and with it eleven old faces.

The prospects of a fine day were far from encouraging in the early morning, nor did they brighten as the day wore on, in fact at about 11.30 it began a steady downpour, which increased to damp our spirits as well as the ground. However, at about 12.30, setting our faces against the weather we began play. As the match will be seen in another column I will not detain our readers with a second account.

At 2 p.m. we retired from the field of battle to the hall, where a sumptuous repast awaited us, and I cannot refrain from saying that we did justice to the viands.

The more substantial part having been removed, speeches began in the usual way, by the Head Master proposing the Church and State, which he said he hoped would always be readily responded to at St. Edward’s, and if one may rightly judge from the cheers which followed his speech he was not very far wrong in his calculations. After that the healths of Mosely and Bencraft (old Captains), Stradling (present Captain), Mr. Sealy and Mr. Legat (who by their combined efforts at St. Edward’s have proved themselves able coaches for the eleven), and Robertson (Head Prefect), who in his turn proposed the Head Master’s health, which was drunk amid loud cheers, followed by the health of Mr. Cowie (second master). After which we once more returned to the Cricket Field, where as will be seen by the score the Present again vanquished the Past; though we had some of our old Captains to do battle against. Thus ended the Old Boys’ Match of 1876. D.B.C.

THE Pavilion is being improved in various ways, and the new professional, A. Merrit, seems to give every satisfaction both in keeping the ground and forwarding the colts.

THE OSE DEFEATED FOR THE FIRST TIME EVER BY THE XI

Cricket Etiquette.

BEYOND, and in many respects superior to, the mere muscular training developed in athletic exercises, there is in all contests or matches an excellent moral training, resulting from the strict obligation of a regular adherence to justice, impartiality, and good temper. As a rule, perhaps, it is in Football that players are more especially apt to lose their tempers, and more inclined to dispute a doubtful point; for in Cricket the presence of two regularly appointed umpires with supreme power is generally sufficient to check anything beyond a privately expressed opinion that someone was 'leg before,' and that another had his bat down in time to save the 'run out.' But recent experience has shewn us that unfortunate disputes may arise even in Cricket, and we take this opportunity of reminding our readers how necessary it is to be as thoroughly just in play as in business, and to be perfectly impartial in one's conduct even if the result be mortifying for the time being.

A full account of the Bloxham Match is given elsewhere: we need only say here, that it was played almost throughout in a drizzling rain, that, when we wanted six runs to win, and had six wickets to fall, (with the consent of our batsmen who were at the time well set), the game was adjourned for a few minutes. After this, although for some time the rain was not heavier, no arguments could induce our opponents to resume play, and the match was therefore left in this most unsatisfactory condition, when another five minutes would have concluded the whole. Under any circumstances, as it appears to us, the more satisfactory and

equitable game would have been to play the match out; still more so, seeing that the rain was not so heavy but that spectators could afford to stand out in it. We well remember an instance of two schools playing a match, when, although the rain was really heavy, and the time all but over, yet the losing side insisted on playing on for the extra ten minutes, rather than save a match by such doubtful means; in the present instance the rain was very slight and an hour and a-half remained for play. But this point of courtesy was increased into an absolute duty by the fact that our batsmen had,—to their own disadvantage and under no necessity,—retired in compliance with the request of the Bloxham Captain, who, by the way, vanished at once from the field and was not seen again till time was over. The polite conduct of our batsmen should undoubtedly have been reciprocated, and we much regret that this final passage of arms with a school, that has on more than one occasion been none too courteous to us, should have found them so wanting in impartial fair-play.

In concluding this most disagreeable subject, we would offer our sincere congratulations to our Eleven for their conduct under such aggravating circumstances, and on their well-earned victory over a school which has not been defeated by a boys' eleven for four seasons.

BATTING ANALYSIS.

	Matches.	In- nings.	Runs.	Most in an Inngs.	Times not out.	Aver- age.
P. Coates (Capt.).....	13	17	191	81	4	14.9
E. J. A. Stradling.....	12	16	201	35	4	12.9
W. G. D. Sewell	10	14	61	18	0	4.5
W. R. W. Tyler	11	14	75	25	3	6.9
F. W. Terry	13	18	346	74	5	26.6
E. G. Wynyard	12	16	243	87	1	16.3
R. A. B. Stradling ...	11	13	19	8	1	1.7
C. E. O. Wilkinson ...	9	11	25	9	3	3.1

Of the colts who at times filled the remaining places, W. Gibbes played in three matches, made 16 in one innings, and had average of 5.2; A. Ingle, in three matches, with average of 5.1; H. S. Gill and S. Stradling in four with 0.2; V. Pack in one match with average of 2.

BOWLING AVERAGES.

	Balls.	Maiden Overs.	Runs.	Wkts.	Average run per Wickets.
E. J. Stradling ...	1105	84	317	74	4.21
F. W. Terry.....	727	50	217	34	6.13
P. Coates.....	447	30	184	20	9.4
W. Sewell	237	20	61	7	8.5

The average bat was therefore won by Terry, and the ball by Stradling max., both with exceptionally good averages.

L-R ON GROUND A.C. DORNFORD, S.A. STRADLING

and definitely the characteristic features of our Gaudy Days. There will be a choral celebration of the Holy Eucharist at 8 a.m., and at evensong the anthem and special hymns will be sung, and a sermon will follow. After dinner one toast will be proposed, viz., "St. Edward's," and immediately afterwards the Latin "Carmen," composed by Mr. Legat, and set to music by Mr. Morris, which we print elsewhere, will be sung by the choir. No doubt some entertainment, such as a concert, will naturally suggest itself on the evening of these days, but this we must leave to the zeal and enterprise of the leading spirits in each successive generation.

The Cricket Ground.

NO one can be ignorant of the work which is going on for the improvement of the Cricket Ground, and although the laurels which the fifteen are winning, probably absorb the immediate interest of most of us, yet all can still afford to look forward to next summer, and estimate the advantages which we hope to be in store for us. If the whole work, which is now in progress, is carried out, we shall in a few months' time find ourselves the possessors of a first-rate ground, with plenty of room for play throughout the whole school, and sufficient space for lovers of lawn tennis to enjoy themselves without interfering with, or being interfered with, by those who are engaged with cricket. The extent of the ground will be about seven acres, and the advantage which this will afford for obtaining good courses for the long races in the Athletic Sports, is obvious to all. There ought to be nothing to prevent us from shewing as good time in our races, or from producing as good an eleven as any public school in England. Hitherto the Lower School has been obliged to accept whatever ground could be spared by the members of the first and second elevens; in future they will be able to cultivate their cricketing powers with equal advantages as regards quantity and quality of ground with their seniors. The possession of such a ground may fairly justify us in prophesying as good success in cricket, as we have

already won in football, and we may justly expect that many who love the game, but have not extraordinary natural powers of excelling in it, will gladly embrace the opportunities of improving themselves, and will probably find that they are worth more than they have thought they were. In short, we feel sure that next summer, every single boy will be conscious of a very decided addition to his previous enjoyment, in consequence of the additions and alterations which are now going on.

But whether the whole design is carried out at present, or whether it shall be left to posterity to complete, and therefore fully enjoy it, must depend, to a great extent, upon the immediate liberality and action of the school.

The estimate, which has been prepared by the Contractor, amounts to no less than £305 14s., towards which, however, it is possible that Keble College may contribute £80 19s., in return for the surplus soil which they need for enlarging their ground. Subscriptions have been already invited, and the result is, from one point of view, successful, *i.e.*, about £30 have been paid in by 22 members of the school. We cordially thank these active co-operators for their liberality, and invite all to follow their example. We think that we may fairly expect, that when the list of subscribers is closed, not one single name will be wanting. All will, no doubt, feel that they ought to subscribe towards a work which will be of undoubted benefit to each individual, and to the school as a body. But it may be said—and with justice—that the burden of a work like this ought not to fall entirely upon the present generation, but ought to be borne to some extent by those who will succeed. And we grant this, and the cricket club has already arranged to borrow £100 at 5 per cent., and to repay the capital with interest in the course of a few years. We want, and we confidently expect to receive, at least, £100 more, *i.e.* we want an average of £1 subscription from every boy, and we do not doubt that this will be readily and cordially subscribed. Those who can afford to do so, will, no doubt, follow the good example which has been set them, and give more than £1, and thus prevent the cricket club from being crippled in its resources. After the Christmas holidays, the question must be settled in proportion to the way in which our appeal is responded to, whether the work shall, or shall not, be carried out in its entirety this year.

THE REVEREND H.A. DALTON
THE SCHOOL'S THIRD HEADMASTER 1877- 1883.
A KEEN CRICKETER, HE BOTH COACHED AND PLAYED FOR THE CRICKET XI

THE ELEVEN.

The first XI. for this year with the individual characters, and the bowling and batting averages are as follows :—

**E. G. Wynyard, Captain.* By far the best all round cricketer that has ever been at St. Edward's. Unsurpassed as a bat; very fine field with a sharp return; a good slow bowler breaking both ways. Owing to his excellent management the XI. have experienced a far more successful season than they could possibly have hoped for, and mainly through his exertions cricket throughout the school has materially improved.

**F. W. Terry.* A very fast and difficult bowler, on his day quite unplayable. As a bat always likely to score heavily, drives and hits to leg exceedingly well and has a strong defence. Has kept wicket in first rate form throughout the season. Should be the mainstay of the XI. next year.

**P. Hutchinson.* Has very much improved in every department of the game; a very straight bowler with a difficult break from the off, is seldom hit. A very safe and pretty bat especially strong on the off side, but does not hit with his bat quite straight. Fine field with quick return, and safe catch.

**A. C. Dornford.* Has fallen off in batting. At the beginning of the season promised well as a bowler but has fallen short of the expectations formed of him. Slow in the field.

**H. S. D. Gill.* A very steady bat, greatly improved since last year. Long-stops splendidly. Very safe catch.

H. Fawcett. Fields well at long leg and long off and always throws magnificently. A very hard hitter but not always to be depended on for runs. Most useful change bowler with difficult break from leg.

S. A. Stradling. Always gets his runs in good form, seldom makes a mistake, promises to make a very good bat next season. Very smart and active in the field, picks up and returns well. An accident has prevented him from playing the latter part of the season, when his loss was much felt.

W. T. Gibbes. Bats in very promising form and has shown on trying occasions both nerve and steadiness, has also plenty of hit but is rather inclined to put the ball up when playing forward. Has fielded most brilliantly at point throughout the season.

A. MacBean. His batting has been consistently steady throughout the season. Always does his best, but is rather slow in the field at times.

V. Packe. A most promising bat and has played some very good innings though rather deficient in nerve. Has fielded excellently throughout the season.

F. H. Gibbes. Hits well but lacks defence. Brilliant field, very safe catch.

BOWLING AVERAGES.

	Balls.	Mdns.	Runs.	Wkt.	W.	N-b.	Av'ge.
E. G. Wynyard	498	34	184	34	0	1	5.453
P. Hutchinson	1371	92	460	80	2	2	5.8
H. Fawcett ...	288	15	125	22	6	0	5.954
A. C. Dornford	734	48	278	43	9	0	6.677
F. W. Terry ...	1478	139	473	65	55	0	8.123

It will be seen by the above that Wynyard carries off both the average bat and ball, a feat never before accomplished here.

EDWARD WYNYARD (LATER FIRST OSE TO WIN INTERNATIONAL CAP) CAPTAINS THE SIDE, HE HEADS BOTH BATTING AND BOWLING AVERAGES SCORING 773 RUNS WITH A HIGHEST SCORE OF 95 - HE MAKES SEVEN FIFTIES IN TOTAL AND TAKES 34 WICKETS FOR 184 RUNS

FIRST MATCHES AGAINST READING SCHOOL AND THE OXFORD CITY C.C.

THE BOWLING ATTACK IS PARTICULARLY STRONG WITH WYNYARD'S CONTRIBUTION ALSO PHILIP HUTCHINSON'S 80 WICKETS (FOR 6 RUNS AVERAGE), AND FRANCIS TERRY 65 WICKETS (FOR 8 RUNS AVERAGE)

BARKER THE PROFESSIONAL WAS PRAISED FOR HIS 'UNFLAGGING IN THE GROUND, AND HAS WORKED THE ELEVEN WELL'

PHILIP HUTCHINSON LATER PLAYS TWO TESTS FOR SOUTH AFRICA AGAINST ENGLAND IN 1889

THE 'KEBLE FIELDS' CIRCA 1879. PICTURE TAKEN FROM THE LODGE

The Past Cricket Season.

WE often, in common with many other people, wonder what there is in Cricket to provoke the enthusiasm of all kinds of people, of all ages, and in all classes of life. Sitting, as we did, squeezed and crowded, hot and very uncomfortable, in the front row of the crowd at Lord's Ground when the Oxford and Cambridge match was being played, we wondered more than ever. Many men there were Cricketers, many were University men, but an enormous number were clearly neither: and yet not only did they enjoy it, but they metaphorically hugged to themselves their favourites, and in some strange way claimed the triumphs of the players as their own. An enthusiastic light-blue partizan near us was full of the most intense admiration for the Hon. Ivo Bligh. Refusing to see any merit in Fowler's big leg hits he ceaselessly shouted "Look at Ivo! look at his legs! he'll stop it!" and so he usually did. We do not think we

mean that the enthusiasm for Cricket in the School is very great, as indeed it ought to be, and we often have a select and critical ring of admirers outside the school. We can hardly compare them to the ring of spectators at Lord's, but they are decidedly enthusiastic for us, and rejoice in our victories. We think most of them find employment (when not watching our matches) in the neighbouring brickfields. We think that we have given our friends some very fair Cricket to look at. Let us take the position of a spectator, and give our impressions of the season now past.

Our first impression is, that to take the number of matches lost and won is not a fair test of our strength by itself. We wish our eleven as it is could play the eleven as it was the first month. If it were possible to play in this way a literal "Past v. Present," we confidently affirm that the Past would not be in the game at all. The improvement in individual members of the game has been marvellous. We would be even bold enough to say that our present eleven would beat our last year's celebrated and victorious team, and for this reason: we have not the batting of Wynyard it is true, who is gone to gain fresh glory in his county's behalf: but however much we feel his loss, we

have this great element of strength—an eleven which is good throughout. Until we are all out, we are still dangerous: our sting is often in our tail—a position naturally fitted for it. Last year, if two or three wickets were down, it was hopeless. This year it is different. West at Bicester and F. H. Gibbes against Magdalen School, are only examples of the pluck with which our eleven has always played. The next feature of the season we notice is the bowling of Hutchinson, which is far above the average. His analysis in the matches against Mr. Collis' eleven, Magdalen School, and Stony Stratford is remarkably good. We fear we are egotistical, and also dull. But our excuse is that we are writing for Cricketers, past, present, and to come; and to cricketers, all cricket is interesting.

We must next notice Terry's fine batting, good bowling, and judicious management, and although it is difficult to make selections where all have improved so much, we cannot but congratulate Lechmere, W. Gibbes, and F. H. Gibbes on their success with the bat, while Sutton has proved a useful bowler. The fielding, though not faultless, has been very fair: Terry at the wicket, and V. Packe and W. Gibbes perhaps call for special mention. On the whole, we have every reason to be satisfied with our success: we have had some very good and very pleasant matches; the ground has been very good, the weather tolerable, and the eleven has worked harmoniously and kept well together. The Pavilion (for which we owe the Warden our best thanks), has been very convenient; while much of our success is owing to the efforts of our professional, Barker. We take leave of the Summer Term with regret and with pleasure. With regret because we own to a preference for Summer over Winter, with pleasure, because we hope all to enjoy our holidays, and we are conscious that at least in Cricket, we have increased our reputation, and satisfied ourselves and our friends. We have seen with great satisfaction the care the authorities have taken of the junior and middle divisions. There is plenty of material for the future. We daily see the efforts and successes of our future representatives, and to judge from present appearances, we may feel sure that the future Cricket of St. Edward's will add fresh laurels to the victories of the past.

F.G.G. JELICOE, EARLY SCHOOL CRICKET
COACH 1881-90, ALSO LAST TEACHER TO
ACTUALLY PLAY IN THE XI

To the Editor of "St. Edward's School Chronicle."

DEAR SIR,

I enclose the account of our Cricket Match with Magdalen College School which appeared in their chronicle *The Lily*. I think that as this has been an annual match for some years and as it has always provoked considerable interest on both sides, that we have a right to expect to see, not only the full score, but also such an account of the whole match as always appears in our *Chronicle*. This is not the first slight, I may say insult that we have received at their hands, nor have we yet forgotten how they published an account of our Football Match with them in *The Field*, when it had been distinctly agreed that no account of this match should appear in any newspapers until a disputed point had been settled, and how grossly incorrect that account was. We have, I think, put up with as much as we can well be expected to endure and have tried to avoid a quarrel but I think it is about time we ceased to have any further dealings with them, and my opinion is shared by a large majority of the school.

[Extract from *The Lily*, vol. II., No. 12, p. 60.]

"The School v. St. Edward's School.—Played at Summertown on June 18th. Score, M.C.S. 55 (R. Hitchings 17, C. J. Godfrey 10); St. Edward's 173 for seven wickets (H. Gill 38, C. H. Sutton 37)."

I am, dear Sir, truly yours,

QUOUSQUE TANDEM.

A NEW CRICKET PROFESSIONAL BY THE NAME OF HUTCHINSON HIRED - A 'REMARKABLY STEADY BOWLER WHOSE PRIORITY IS NET PRACTICE'

EARLY CRICKET ON THE "KEBLE FIELDS" IN THE 1880S

THE XI. OF 1882.

**R. T. Prioleau.* Has filled the responsible office of Captain with judgment. A pretty but unlucky bat, has not come up to last year's expectations. Played well at the beginning of the season. A moderate field; is persevering at the wicket.

**E. W. Stradling.* Has bowled through the whole season extremely well. Combines a good pitch with a fair break from the off. As a bat lacks determination in defence. At times fields well, though uncertain.

**P. S. Irwin.* Bats in a style peculiar to himself, would do well to remedy the fault of being too eager to make big hits; though at times his hitting has been extremely useful. Has longstopped very steadily and well throughout the season.

R. W. C. Hunt. A very variable and uncertain bat; punishes loose bowling severely, but lacks nerve and patience in defence. Slow in the field.

W. J. Ogden. Bats well at times, with good defence, wanting in judgment. Smart field with good return. Sure catch.

H. W. Ware. A rather disappointing bat, hits hard, but is very uncertain; a brilliant point and sure catch in the long field. A very good change bowler on a wet wicket.

L. C. Wilkinson. A stiff but straight bat; shews great patience in defence; should learn to judge his runs. Weak in the field.

G. B. Kerr. A fair and promising bat, has greatly improved, plays well on the off, but has a poor defence. A very fair cover point, and sure catch.

P. S. Lamb. Bats with great perseverance. Owes his place to his good fielding at long leg. Safe catch.

L. N. Gibbes. Bowled well at the beginning of the season, but has fallen off. A poor bat with no signs of improvement; would do well to exert himself more in the field.

H. M. Ingledeu. A fair slow bowler on his day. His batting is very uncertain and weak, and wanting in determination. A sleepy field.

FREDERICK JELlicOE (CR) TAKES 7 WICKETS FOR 49 RUNS FOR THE SCHOOL VERSUS THE HIGHGATE WANDERERS C.C.

To the Editor of "St. Edward's School Chronicle."

DEAR SIR,

It was with much regret that I noticed last year that the part of the pavilion set apart for the use of the two Junior Divisions was converted into a receptacle for broken nets, poles, and old canvas screens. The consequence was that the Middle and Junior Divisions were obliged to keep their bats in the Senior part of the pavilion, thereby causing much inconvenience to those privileged to use it. Hoping that this may meet with the attention of the Captain of Cricket,

I am,
Yours faithfully,

THE FIRST OFFICIAL NEW ZEALAND CRICKET XI 1894

ANDREW DE LABAT (O.S.E.) IS SHOWN ON THE LEFT HAND SIDE ON THE GROUND. HE WOULD PLAY FOR THE SIDE UNTIL 1897

CRICKET.

Hurrah! for the coming summer!
 Hurrah! for the bat and the ball!
 Cricket! who loves not cricket?
 We answer at once, one and all.

Cricket! we all love cricket,
 As every good cricketer ought.
 Hurrah! for the season's cricket,
 The regular true summer's sport.

R.A.C.

CHARACTERS OF THE ELEVEN.

**G. B. Kerr* (20). Has proved himself a most energetic and painstaking captain; the result has been a satisfactory season; is a good steady bat, with great hitting powers. An excellent field and shews considerable promise as a wicket-keep.

**A. M. Labat* ($14\frac{2}{14}$). Bowled admirably throughout the season, and was also successful with the bat, but is too fond of cutting at straight balls. Active and ubiquitous in the field.

**H. Packe* ($20\frac{1}{2}$). Has been invaluable to the eleven this season, generally making runs when

* Honour Sash.

wanted; has a good eye and not being troubled with nerves can hit most bowlers; a capital field and good change bowler.

W. J. Frampton ($4\frac{4}{13}$). Was not so successful with the ball as last year, and has not made much advance with the bat, though he has got runs on occasions and can hit well to leg. Is a good field and a capital thrower.

K. H. Marsham ($8\frac{3}{8}$). Though improved, has hardly come up to expectation; is a neat and steady bat with some good fancy strokes, but plays too much off his balance and does not keep in his ground. Fields better than he did.

A. A. Macnab ($10\frac{3}{8}$). Plays with a good straight bat and has proved useful for breaking the bowling, but lacks power and is inclined to force his forward play, especially against slows. Is a fair field.

C. E. Labat ($17\frac{1}{11}$). Came on wonderfully as a cricketer; has been uniformly successful in getting runs, and is a good field and change bowler.

W. J. Marsham ($17\frac{2}{14}$). A most useful member of the team; a decidedly promising bat; hits well on the off-side, but has a weak defence on the leg-stump, playing back too near the wicket. A good field and catch.

H. S. Nicholl ($6\frac{1}{13}$). At the beginning of the season played steadily and with a straight bat, but fell off toward the end, having developed a tendency to hit across at straight balls. Has a good idea of fielding at point.

L. M. Crofts (16). Plays most patiently, with a very straight bat, and shews great promise; must cultivate back play and try and be more agile in the field.

H. T. Kerr ($7\frac{1}{8}$). Has adopted a cautious style in batting and ought to turn it to good account, but must learn to play more in his ground.

BATTING AVERAGES.

* Average Ball.

There may be a general impression that we have not started the season in a very brilliant fashion. Personally, though I feel that we ought to have done much better, I think there is some excuse to be made for our ill-success so far. It cannot be denied that a slough of despond does not afford much encouragement to any one for practising upon, be he batsman or bowler, veteran or novice: hence we have been placed at a disadvantage to start with, while on the other hand the 'Varsity have had all the advantage of the fine weather and were able to get into trim before the rains and tempests set in. Therefore I would say "nil desperandum"; the season is yet young and we have plenty of time before us and ten matches or so to win: what we want is a little fine weather, as it is impossible to practise properly when the ball pops up and stares you in the face.

Since fortune has only favoured us with one innings so far it would be unfair to criticise the batting. I believe that batting talent does exist in the eleven and that more may be unearthed yet: suffice it to say for the present that playing forward at short balls is not a safe course to pursue on a slow wicket, and that the old adage still holds good, "take care of your wicket and the runs will take care of themselves." If our batsmen could learn to play in a match as they often play at the nets we might score many a win yet.

Now for the bowling: this ought to be our strong point but I have no hesitation in saying that it has not been up to the mark so far; it is not easy of course to bowl on a sloppy wicket with a slippery ball, but at any rate it is not difficult to keep a good length, the most difficult consummation to realize under the said disadvantageous conditions being accuracy of direction. In a word the bowling has been terribly *short*: now this defect must be remedied, because short-pitched bowling is not only the easiest of all bowling to hit but also gives the batsman plenty of opportunity of getting his eye in. Therefore I say it is better to over-pitch than to pitch short; you may by this means achieve a lucky yorker or two, and, on a sticky wicket especially, over-pitched bowling is more likely to produce catches.

Next as to fielding: in this department I don't think we need have anything to fear: all the old members of the team shew decided promise in this respect and there is no reason why two or three should not turn out really brilliant.

The Australians have taught English teams how a good fielding side can work wonders and win many a hard-fought match. One member of the eleven sets an excellent example which those especially who are trying to gain their colours would do well to follow. When not bowling he is ready to field anywhere, is active and energetic and always plays the game, can throw a mile when required and even keep wicket when occasion demands. Now this is the kind of spirit which must pervade every good team; the object is to win matches, not to get the best batting or bowling average. Let the bowlers or captain see that the field is properly set and if necessary changed about before each ball is delivered if the batsmen happen to change ends, when one of them is a hitter and the other not. The importance of this latter point cannot be over-estimated. It is one of the most characteristic features of first-class cricket, and if this is the case, how much more ought a school eleven, which presumably is aiming at a high standard, endeavour to imitate the example set by those who excel in the game and yet are always trying to learn

something fresh? I would also again urge the absolute necessity of the deep fields standing out far enough and that when there is a boundary, say at long-leg, the fieldman if he is supposed to be long-leg must stand back to it to save the four and not the single; it also occurred to me the other day while watching one of the matches that the running between wickets was not good: always run the first run hard if there is the slightest chance of getting a second: it bustles the field and may produce an overthrow. Then again at the nets, coach one another; any one who has been coached knows the golden rules of batting and it is easy enough to see how a ball ought to be played though it isn't always so easy to do it.

By the time this appears in print something probably will have been done to carry into effect one or two other proposals I wish to make. More must be done this year to bring out our younger cricketers; we have to think now of next year and the year after: a bowler they say "nascitur, non fit": it is not so with batsmen. Given a new net, then, I would suggest (1) that 30 boys if possible should have the benefit of net practice and coaching. (2) That Monday afternoons be devoted to coaching 15 boys who are not playing in the senior game. (3) That the professional always be on the spot to bowl, the senior game to provide their own umpires. (4) That the captain or one or more members of the old eleven be also present if no one of the masters is able to put in an appearance. (5) That the process might be repeated when possible on another afternoon in the week. (6) That two middle division games a week is an ample allowance. (7) That the play in the middle division games be watched by some one in authority. (8) That a slow bowler be unearthed for the eleven and one for the second eleven. (9) That a side be made up occasionally in which those who have got their colours stand out. (10) That all left-hand bowlers practise vigorously. (11) That no one bowl in practice without cricket shoes. (12) That the eleven bowlers do not bowl before dinner on match days.

In wishing the eleven all success for the season I will only add that, considering we have this year a card of fixtures which many a large school would envy, it is only right and courteous to our opponents, many of whom will come from long distances, that we make it our earnest endeavour to work ourselves up to their standard, and if we cannot win, at any rate to give them as much sport as possible.

I remain, faithfully yours,
F. G. G. JELlicoe.

May 31st, 1886.

THE TWO DE LABAT BROTHERS TAKE 102 WICKETS BETWEEN THEM, BOWLING 77% OF THE TOTAL OVERS

WALTER MARSHAM (OSE) PLAYING FOR ST. CATHERINE'S COLLEGE AGAINST THE XI TAKES 5 WICKETS FOR 4 RUNS INCLUDING A 'HAT TRICK' IN A WIN OVER THE SCHOOL BY 4 RUNS

ANDREW DE LABAT SCORES 89 THEN TAKES 7 WICKETS FOR 34 RUNS IN AN EASY VICTORY OVER LEAMINGTON COLLEGE, HE THEN TAKES 7 WICKETS FOR 45 RUNS VERSUS W.B. HAWKIN'S XI. PLAYING IN A THIRD MATCH IN 4 DAYS. HE TAKES 8 WICKETS FOR 49 RUNS AGAINST H. PACKE'S XI

AGAINST THE OSE XI DE LABAT TAKES 8 WICKETS IN THE FIRST INNINGS THEN IN THE SECOND DONS THE WICKET KEEPER'S GLOVES AND ACHIEVES TWO STUMPINGS!

AS WELL AS WALTER MARSHAM, HIS BROTHER KEITH ALSO IN THE SIDE - IN ALL THERE WERE FOUR MARSHAM BROTHERS WHO, IN THEIR TIME, ALL PLAYED FOR THE SCHOOL XI

BETWEEN 1886 AND 1896 FIVE NEALE BROTHERS PLAYED CRICKET FOR THE SCHOOL

To the Editors of "St. Edward's School Chronicle."
DEAR SIRS,

As cricket is now in full swing and two matches, up to time of writing, have already been played, I would take this opportunity of making one or two suggestions which may commend themselves to the notice of the eleven.

ANDREW DE LABAT APPOINTED CAPTAIN IN HIS FIFTH YEAR IN THE XI - HE MAKES 308 RUNS AND TAKES 77 WICKETS IN THE SEASON INCLUDING 8 FOR 25 VERSUS F.B. HAWKIN'S XI

VERSUS ST. JOHN'S COLLEGE, OXFORD THE DE LABAT BROTHERS TAKE ALL THE WICKETS FOR THE SCHOOL - BUT STILL LOSE THE MATCH

THE TWO DE LABAT BROTHERS RIP THROUGH THE ST. MARK'S SCHOOL WINDSOR SIDE TAKING 8 WICKETS FOR 27 RUNS BETWEEN THEM

REPORTS OF XI.

**A. M. Labat.* As captain may fairly congratulate himself on the season's results, which are in a great measure due to his excellent all-round cricket and indomitable energy. Has bowled better than ever; his batting, though uncertain at times, has been invaluable; while as a field he has set an example which the younger members of the team would do well to follow.

**C. E. Labat.* Has much improved as a bat. Plays steadily, with good defence and hitting power; as a bowler has become more erratic though successful at times. Good in the field.

**H. S. Nicholl.* A good run-getting bat, with great hitting powers, though rather unsteady at times. An excellent point.

A. D. Clarke. Has hardly come up to expectation; should learn to play back more, and not trust so much to his forward play. Lacks energy in the field.

**R. E. Neale.* A good straight bat, with excellent cutting and driving powers. Always makes runs when most required. Has improved greatly in the field.

G. C. Higgs. Has vastly improved as a bowler. A steady bat, with good defence. An excellent cover-point, with good return.

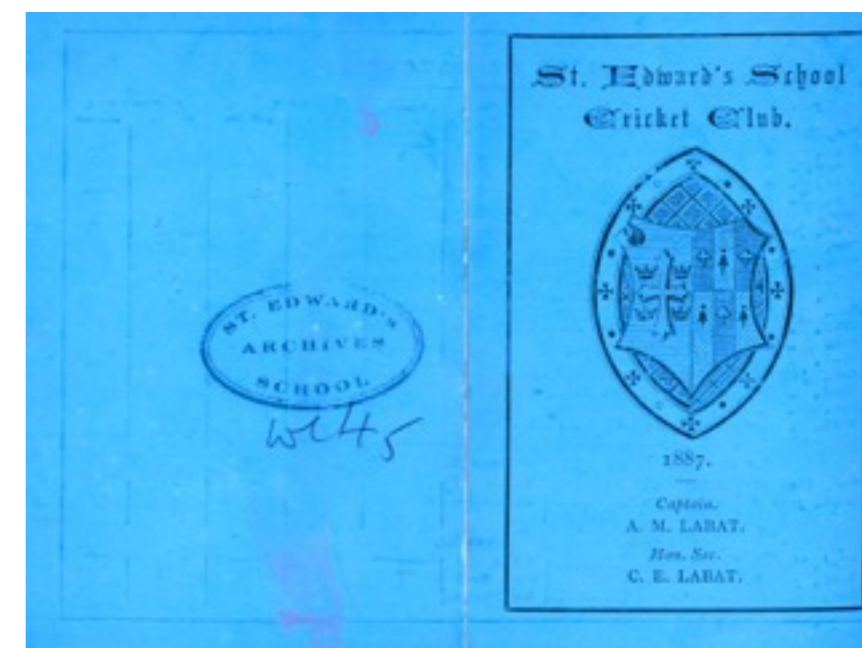

E. W. Page. Showed great promise at the beginning of the season, but seems to have lost all idea of playing steadily to the on side. An uncertain field: should use both hands more.

A. H. Douglas. Bats in a style peculiar to himself, though he generally manages to get a few runs. Has kept wicket fairly, though clumsy at times.

E. H. Wilgress. Plays with a straight bat, and will be useful next year, if he will learn to stand up to leg-balls and use his wrists more; should exert himself more in the field.

W. W. Ware. A steady bat, but lacks strength, especially in cutting. Fair field, would do well to attend more to the game.

C. M. C. Marsham. An uncertain bat; should learn to play steadier and hit less. Ought to be of use as bowler in time. A sleepy field.

THE O.S.E. CRICKET & FOOTBALL CLUB.

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

It has been brought to my notice that there are certain doubts in the School as to the objects, and even as to the existence, of the above Club. I think if you will kindly find space for this letter, and the Rules (a copy of which I enclose), any possible misconceptions will be removed. The Club was originally started some four years ago, with the object of keeping together Old Boys, chiefly at Oxford, by means of cricket and football teams. For a time this object was carried on with a fair amount of success, but when the original promoters went down, and no one came forward to take their places, our appearances in public as a club ceased. It is owing probably to this fact that members of the School have begun to think that the O.S.E. colours may be worn by any Old Boy. This idea is, of course, erroneous, as the Club still exists, and its colours are private property, the only title to them being membership, according to the Rules. I do not think it will be necessary for me to say anything more, as the Rules themselves very clearly show all that could be said on the subject. I may add that very strong efforts will be made to have a football team in the field next term, and I would remind all present members of the School, especially those who are just going up to the 'Varsity, that the future success or failure of the Club lies in their hands, as it is impossible for those who have gone down to give it very active support.

I am, Sirs,
Yours truly,
R. T. PRIOLEAU.

Rules of the O.S.E. Cricket and Football Club.

1. That the name of the Club be "The Old St. Edward's Cricket and Football Club."
2. That the number of members be unlimited.
3. That the affairs of the Club be conducted by a President, an Honorary Treasurer and Secretary, and a Committee consisting of these officers and four members. Three members of Committee, one of whom shall be an officer, to form a 'quorum.'
4. That the President be the Warden.
5. That the Secretary and Treasurer and Members of the Committee be elected annually, at a general meeting to be held in Oxford, at the end of the University Summer Term.
6. That the Masters be "ex-officio" members.
7. That the election of members devolve upon the Committee alone, who shall also choose a captain for cricket and football at the beginning of each season.
8. That every candidate for admission to the Club send in his name to the Honorary Secretary previous to his leaving the School.

Correspondence.

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

There are one or two points in connection with the school cricket this term on which I should like to make a few remarks. There is no doubt that we are placed at an unusual disadvantage to start with: we expect, of course, at the end of a season to lose many of our veterans, but we do not expect to lose our recruits: now the latter in 1888 were an exceptionally promising lot: only one remains to us for 1889: hence it is obvious that we have got our work cut out for us if we are going to turn out a team in any way equal to those of the last two years. Now I have no hesitation in saying that we have not begun well. There is a certain section of the community whom nature has endowed with either a total indifference to the game or a superabundance of wit and humour. During the first week of term the net practice was selected by them as an excellent opportunity for the display of these unusual gifts: the natural result followed: the whole thing degenerated into a farce. The same spirit has existed in the school before now: only then it was the spirit of the majority: some five or six years back I had occasion to indulge in a tirade on this subject in the School Chronicle. There was then a set of boys who simply ruined the cricket for two

seasons by their inane performances at net practice and in matches. It was considered a remarkable achievement for the School to get 30 runs in an innings, and the attitude assumed by their friends in the pavilion was as facetious and sympathetic as that of our rustic gallery on the other side of the palings. Now I do not wish to imply that we are in such a case now, as we are fortunate in living in better times. I merely wish to point out the danger that exists if the slack, the frivolous and the indifferent are allowed to have full play. They must be weeded out; they never will be missed as they only hinder progress. There is plenty of patriotism in the majority to stem the torrent and prevent the contagion from spreading. I take it we look on ourselves as a public school and I conclude we wish to be courteous to our opponents: we shall be neither, if practice is regarded as a bore, and failure as a joke. One or two field practices will very soon show who's worth anything.

Since the above was written, I am glad to notice that steps have been taken in the right direction, though plenty more remains to be done.

At present there are only two bats in the school, but there is plenty of material to work upon and competition is sure to develop more: something unexpected always crops up: rumours of a century in a junior game have reached me: may it lead to many more—against bowling outside the school.

At present nearly every one will play out of his ground or swipe blindly at all balls on the leg stump regardless of pitch, pace and everything else. Anybody can play out to a ball fairly well up: the thing to learn is to smother a ball on the "blind spot" without moving the right leg. All other details can only be learnt at the nets: preaching in print is useless.

But even if the batting fails, which I don't think ought to be the case, what a lot can be done with good bowling and fielding! Now I think that a great point ought to be made of the practice before dinner. Only those should be allowed to bowl then who have reached a certain standard or who are, so to speak, on trial. It is then as a rule that the best bats should have their practice so that they may get the best bowling opposed to them. The bowlers can have their turn with the willow on certain afternoons, though far be it from me to imply that bowlers need not and cannot learn to bat as well: the latter art is mainly a matter of good eyesight, and nowadays the all round cricketer is preferred everywhere: and while I am on this point *do* let us see everybody in flannels when possible, *minus* coats (even beautiful blazers) and *plus* cricket shoes.

We *must* also have a wicket-keep. One is being tried and has gained a lovely black eye in the cause of honour and glory: let us hope he will not be daunted by this mishap: some one at any rate must aspire to fill this all-essential post with credit and renown, not forgetting that he must learn to bat as well.

Field practices are a *sine quâ non*: they bring out the keen and expose the useless as I remarked above.

The practice of hitting up catches is an excellent one: it is a regular institution at Winchester where they are not too proud to take any amount of pains to improve their fielding.

Lastly a word to the small boys:—when your names are put down for a net, whether to bat or bowl, remember it is to see what you are worth, and some one in authority is always, or ought to be always, watching your performances. Esteem it an honour and come down in flannels and shoes.

I think it is certainly a matter for congratulation that the competition for places in the eleven, whether as bats or bowlers, is likely to be excessively keen. There is a fine opportunity for the latter, as I cannot see that anyone is very much better than another: there are about half a dozen boys all much of a muchness, one or two quite young: these must be well coached at the net practice before dinner as they are by no means wanting in promise and only want to be shewn the tricks of the trade.

Given then five bats, three all-round cricketers, two bowlers and a wicket-keep, I think we may make a fair show this season: we have an excellent list of fixtures, one or two being such as any school might be proud of. Let us prove then that we *are* a public school by showing public school spirit both in practice and matches.

Believe me,

Yours very truly,

F. G. G. JELLICOE.

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

In your last number a letter appeared with reference to the junior games at St. Edward's, but the writer did not endeavour to make any suggestions which might help to improve them. This I shall try to do. The junior games are supposed to be begun at 4.15 on whole school days and 2.15 on half-holidays when there is no match. As the gymnasium classes are in the afternoon, it is impossible to expect every one to turn up at the appointed time, and as it is especially important, at this critical time of the school's year for every boy to be well grounded in the rudiments of cricket, might I ask the Warden if the gymnasium classes which interfere very much with cricket can be held between 12 and 1 instead of the afternoon? This will of course cut out the 12 o'clock bathing, but is it not better to forego the opportunity of bathing then and be content with a bathe after cricket instead of at 12? This arrangement would allow the Captain to choose sides from nearly the whole school and cause him less trouble than he has had this term. It would also be a capital thing if some member of the XI. always superintended the junior games and gave the fellows (many of whom are very promising in every respect) a little coaching in batting, bowling, and fielding. This would cause some little trouble to the coach, but I am sure we should soon see a great improvement in their play if this was done. Fielding is a great thing for a cricketer to learn, as a good field may stop a batsman from running in case the ball is thrown in sharply, and besides, there is nothing prettier than seeing a clean field. Also if our matches were in future limited to one a week, it would enable the cricket throughout the School to be more thoroughly practised.

Next year, although many of our XI. are leaving, the cricket ought to be fairly good, if only great care is taken while practising and no slackness of any sort allowed.

Your last correspondent wrote about the middle games, but my aim is to take them both in one, as the two are generally united.

Hoping that these remarks will not be overlooked by any they may concern,

I remain,

Very faithfully yours,

A MEMBER OF THE XI.

THE ELEVEN.

E. H. Wilgress (11 $\frac{5}{8}$). Has again filled the post of Captain satisfactorily: his batting has considerably improved and will probably develop still further: is also a useful change bowler, and understands how to work a field very fairly.

M. Wade-Smith (10 $\frac{1}{2}$). Has improved his batting but has hardly fulfilled expectation. Is a good field and safe catch.

T. H. Page (4 $\frac{1}{2}$). As a bowler meets with great success on his own wicket. Has not much improved in batting.

A. E. Buchanan (9 $\frac{3}{8}$). Has hardly come up to last year's promise. Should hit with more confidence. Slow field.

C. O. Brutton (16 $\frac{9}{10}$). Has improved greatly as an all-round cricketer. Has bowled well all through the season. Frequently making runs; good field.

C. P. Bartholomew (9 $\frac{1}{2}$). Has a very good idea of cricket, but has not met with much success. Fields well at point.

G. Wright (17 $\frac{1}{2}$). A hard hitter, frequently making runs. If he learns the art of defence should prove very useful. An erratic bowler and good field.

A. C. Adair (15 $\frac{1}{2}$). A useful run-getter, with a style of his own, and fair field.

J. N. Hughes (13). Has improved both in fielding and batting, and would be still better if he would use his wrists and play in a less cramped style.

E. G. Read (5). Has improved in batting during the season. Is a lazy field. His bowling has not met with success. Next year he ought to turn out a good all-round cricketer.

J. Foulkes (4 $\frac{1}{2}$). Has fallen off in his batting since the beginning of the season. Has kept wicket with fair success, but must learn to be sharper.

BOWLING ANALYSIS.

	Overs.	Md'ns.	Runs.	Wkts.	Av.
A. N. Stallard	175.2	63	334	48	6.46
E. G. Read	100.1	29	242	29	8.10
R. G. L. Horton	184	64	331	35	9.16
A. C. Miller	47	8	133	7	19

A. C. Mace, 11.2, 1, 37, 4, Av. 9.1, and A. J. Arkwright 1, 0, 6, 1, Av. 6, also bowled for the team.

Cricket Prospects.

HE prospects of the coming season cannot at all events be regarded as gloomy: for we have nine left who played for the team last year. We have indeed lost Wade-Smith and Brutton, the latter of whom we shall especially miss in the bowling department, and the want of the former's hitting powers will also be felt: but still we have with us Read, who takes Wade-Smith's place as captain, and Stallard, and these two ought to prove a formidable pair of bowlers to begin with. Read, as far as we can see, has not lost any of his skill as a bowler, and has already shown great improvement as a bat in the few games we have had, and ought to score considerably in the matches. Stallard has also improved in batting, and is likely to prove a useful man at a critical moment: his bowling was not so good at the beginning of this term as at the end of last season, but he is steadily improving and we hope soon to see him once again at his best. Mace does not seem to have improved much in batting at present, though he has played one good innings: however his fielding at point is as good as ever, and we hope his batting will improve later on. Kitcat plays as determinedly as ever, and ought to be of great service to the team: moreover his wicket-keeping shows some improvement since last year. Arkwright has also improved since last season, being strong on the leg side, and, if he learns to play harder on the off, ought to make runs. Neale, Hamshaw, and Bacon, who played last year but failed to get their colours,

ought with careful attention to coaching and keenness in games to get their places in the team. Horton, who also played for the team last year, seems to have improved considerably in batting since he has given up attempting to "slog," and taken to playing more carefully: he might also be of some use as a bowler if he could learn not to bowl too fast, which seems to be the prevalent mania among young bowlers. Among others, who at present show promise in batting, Marsham, Miller and Kingsford are the best of rather a poor lot, and in bowling, Miller alone seems to be really likely to be of use to the team. But it is not only batting and bowling that win a match, a good fieldsman is of great value to his side: and we know from experience a run saved is often a match won. We are sorry to say that the fielding with two or three exceptions is much below the standard it ought to reach: and schools always ought to excel in that department of the game. It is to be hoped that now the matches are coming on the team will show that, although the bowling of their opponents may be too good for them, they can be smart in the field at any rate. In conclusion we hope that all the members of the eleven will back up their captain: if they do this we may confidently look forward to a successful season.

Correspondence.

—o—

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

Would it not be an improvement to the appearance of the Cricket Field if the bare flag-staff on the Pavilion were ornamented on match days with a flag of the School Colours, as it formerly used to be? The cost would not be very great. Moreover it would make the match look of far greater importance, instead of looking like an ordinary game. I sincerely hope that my proposal will be carried out by next term, as a flag would look very well at Football Matches.

Yours truly,
GREAT EXPECTATIONS.

THIS YEAR'S SIDE FELT TO BE ONE OF THE STRONGEST IN THE SCHOOL'S HISTORY TO DATE

ROBERT BARTHOLOMEW WHO PLAYED FOR THE CRICKET XI 1893-1895

The Past Cricket Season.

THE following details with regard to last term's cricket have been sent to us by a correspondent, and will doubtless be appreciated by many:—

“Will you allow me a word or two of comment on the most successful cricket season we have had since 1879, and the two most brilliant performances of individual cricketers that have ever been witnessed at St. Edward's.

“The best season we have ever had was in 1879 under the captaincy of E. G. Wynyard: matches played 19; won 15; lost 1; drawn 3—a fine performance on the face of it, which improves on examination. The defeat was a matter of 2 runs only, and the club which won, (the then powerful North Oxford Club), was thoroughly beaten afterwards. Of the drawn matches, one was a certain victory, in another the School had made 82 for 2 wickets, a good beginning at any rate; in the third our opponents were all out for 108. In both the last rain stopped play. Now I am not going to say that Horton's season was as brilliant as that, but it was considerably better than any others. The record of 1894 is:—matches played 12; won 7; lost 1; drawn 4. The total number is smaller than that of 1879 and moreover the draws do not analyse so well, for of them, though one was practically a victory, two were practically defeats. Still the fact that we avoided actual defeat, except in one instance, makes it quite reasonable to compare the two seasons, acknowledging fully the superiority of 1879.

“When we come however to individual performances, the scale of 1879 kicks the beam. The best of 1879 was the captain's, Wynyard, who won both the Average Bat and Ball. The next best was F. W. Terry. Both have since proved themselves cricketers above the ordinary level. Let us place side by side the records of the two years:—

	Inns.	Runs.	Highest score.	Not out.	Average.
1879. Wynyard..	20	773	95	2	42·94
1894. Miller	15	613	106*	3	51·08
1879. Terry	20	578	88	1	27·52
1894. Horton ..	15	623	102*	1	44·5

Even counting 'not out' innings as completed, Miller's average is better than Wynyard's, while the fact that Miller invariably went in first, while Wynyard went in second or third wicket down greatly enhances the comparative value of all the former's scores. Similarly Horton's average is superior not merely to Terry's, with whose it should fairly be compared, but even to Wynyard's, in every point. Horton also always went in first. It remains merely to mention two 'not out centuries' in one season. Miller, like Wynyard, won both the Average Bat and Ball. The details are:—

	Overs.	Md'ns.	Runs.	Wkts.	Aver.
1879. Wynyard..	99·3	34	184	34	5·45
1894. Miller	237·2	92	458	60	7·63

“It will be seen that Wynyard was really a change bowler (Hutchinson and Terry shared the real work of the bowling in 1879), while Miller bowled nearly twice as many overs as any other member of the 1894 team. His average therefore may well stand side by side with Wynyard's, though it is not as good as Hutchinson's, whose figures were O. 274·1; R. 463; W. 80; Av. 5·8, and who really deserved the Average Ball of 1879, which was actually awarded to him in 1880, though his average was in that year also not as good as that of one of the change bowlers.”

BATTING AVERAGES.

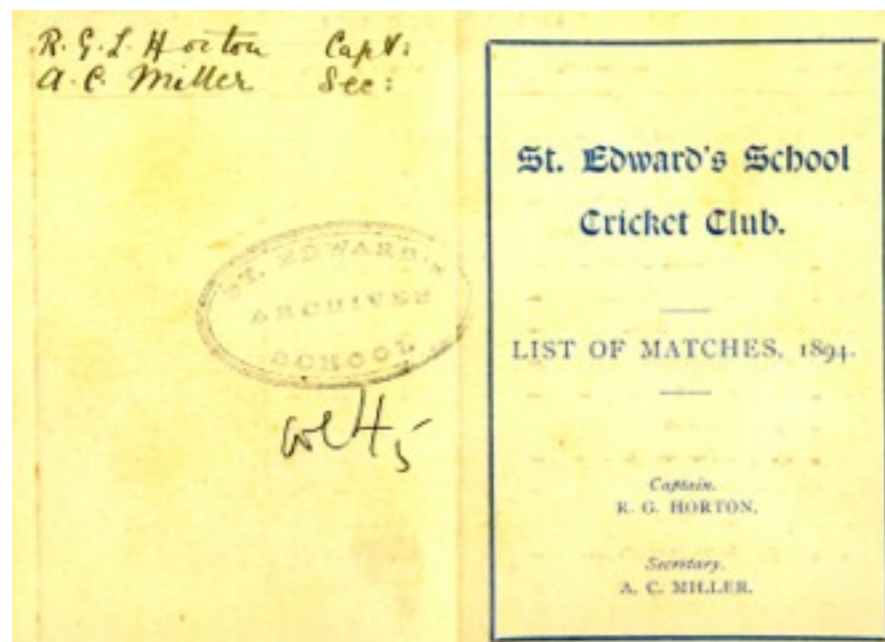

Batsman's Name.	No. of Innings.	No. of Runs.	Highest Score.	Times not out.	Av.
A. C. Miller	15	613	106*	3	51·1
R. G. L. Horton	15	623	102*	1	44·3
W. G. Wade-Smith	13	205	68*	3	20·5
R. A. Bartholomew ..	15	257	47	1	11·5

To the Editors of "St. Edward's School Chronicle."
 SIRs,
 May I, in the hope of this catching the delinquent's eye, draw attention through your columns to the fact that as yet no photograph of last year's XI. has appeared in the Library?
 This is, I think, the first time such an omission has taken place; moreover, though our last year's XI. record may not have been a brilliant one, yet it seems a pity to destroy the sequence of photographs now in the Library. Hoping that the gentleman whose business it is will at once take steps to remedy this omission,
 I am, etc.,
 R. C. P. B.

To the Editors of "St. Edward's School Chronicle."
 DEAR SIRs,
 Can you inform me why there are no 2nd XI. Matches now? In former years, up to, I believe, 1891, there used to be an annual fixture with the 2nd XI. of some other school, generally with that of Radley or Leamington. Why cannot this custom be revived? If a match with one of these Schools could not be arranged, would not one of the masters, or an old boy, bring up a team?
 Hoping that this suggestion may meet the approval of the authorities.
 Believe me, yours truly,
 2ND. XI.

FIRST RE-FORMED HAMPSHIRE COUNTY CRICKET XI 1895
 RUSSELL BENCRAFT AND EDWARD WYNWARD (BOTH O.S.E.) ARE SHOWN SEATED, THE FORMER IN THE CENTRE IN HIS CAPTAIN'S ROLE WITH THE LATTER ON HIS RIGHT.
 HAMPSHIRE FINISHED 10TH OUT OF 14 TEAMS, THE WINNERS BEING SURREY

RUSSELL BENCRAFT CIRCA 1895. STALWART OF HAMPSHIRE CRICKET OVER A SIXTY YEAR PERIOD, ALSO A SOCCER PLAYER OF NOTE. HE WAS KNIGHTED IN 1924 FOR SERVICES TO HAMPSHIRE IN GENERAL AND SOUTHAMPTON IN PARTICULAR

CHARLES WETHERALL SCORES 163 NOT OUT AGAINST CUDDESDON COLLEGE - THEN A RECORD, ESPECIALLY MERITABLE AS THERE WERE VERY FEW BOUNDARIES INVOLVED!

WETHERALL SCORES 101 NOT OUT AGAINST LEAMINGTON COLLEGE HE TAKES 7 WICKETS FOR 33 RUNS AGAINST C. MARSHAM'S SCRATCH XI AND SCORES 83 AGAINST KING EDWARD'S SCHOOL, WARWICK

WETHERALL CAPTAINS THE SIDE IN HIS FOURTH YEAR IN THE XI

FIRST MATCHES VERSUS KING EDWARD'S SCHOOL, WARWICK AND BROMSGROVE SCHOOL

BEVERLEY USSHER AVERAGES 52 RUNS PER INNINGS FOR THE SEASON WITH HIS HIGHEST EFFORT BEING 153 AGAINST CUDDESDON COLLEGE (THEN A RECORD)

SEVEN DAYS AFTER THE ABOVE INNINGS USSHER SCORES 79 NOT OUT AGAINST EXETER COLLEGE, OXFORD

USSHER SCORES 150 FOR HIS SET (KERRY'S) AGAINST WILLISON'S IN THAT YEAR'S TUTORS MATCH FINAL, HE THEN PROCEEDS TO TAKE 7 WICKETS!

WETHERALL AND PHILIP HAWTIN SHARE A THIRD WICKET STAND OF 138 RUNS FOR THE SECOND WICKET (THEN A RECORD) AGAINST KING EDWARD SCHOOL, WARWICK

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

I believe that there is a main water pipe in the road; couldn't a pipe be laid on to the cricket field, with a place where a hose could screw on, as the way the pitches are watered at present is far from satisfactory, the water having to be fetched from the Bath, and then poured on anyhow? Hoping this will be put right by next Term,

I remain, yours truly,

CRICKET.

O.S.E. Cricket Tour.

AS it is hoped that this Tour may become an annual fixture, an account of the first of the series will have some historic interest. Its organisation was due to the enterprise and perseverance of Mr. Ferguson. That the Team which ultimately went on tour was not quite that originally intended is no fault of his. Owing to refusals at the last moment, it was necessary to include two Masters, a couple of boys still at School and, in some of the matches, one or two who had no immediate connection with the School. So it was not exactly a representative O.S.E. Eleven, still less was it what the local press persisted in calling us, "The St. Edward's School XI."; but perhaps as we did not do so badly, the Eleven will forgive us!

 Capt. Lidner for Marlow 66
 H. E. Bull for Buckingham 53

In conclusion we must express our gratitude to the School and also to the Central Committee for their kind grants in aid of expenses, to Mr. Ferguson for the trouble he took in getting up the Tour (we hope that though he has left us, he will long continue to help us in these Tours which he inaugurated), to Mr. Tubb for his hospitality at Chesterton, to Mr. and Mrs. Neale for their kind entertainment of so many of us at Reigate, and to all who took part for their unfailing keenness, good play and good humour all of which combined to make the Tour of 1899 the great success it undoubtedly proved. To the Editors of " St. Edward's School Chronicle."
 DEAR SIRS,
 Would it not be possible to arrange more than one match for the 2nd Eleven? Surely it would not be difficult to arrange matches against the 2nd Elevens of K.E.S., Warwick, or Magdalen College School. Do you not think that the keenness on Cricket in the School would be increased if others besides the 1st eleven played matches?
 Yours faithfully,
 CRICKETER.

CECIL SMITH AVERAGES 58 RUNS FOR THE SEASON, INCLUDED ARE AN INNINGS OF 120 NOT OUT AGAINST WADHAM COLLEGE, 82 NOT OUT AGAINST CUDDESDON AND 83 NOT OUT AGAINST UNIVERSITY COLLEGE

IN THE ANNUAL PRESENT V PAST XI's MATCH THE OSE DECIMATE THE SCHOOL, WINNING BY INNINGS WITH GEORGE GILLETT (OSE) SCORING 125 NOT OUT AND FREDERICK NEALE (OSE) MAKING 103

CECIL SMITH HITS A FAST 125 NOT OUT AGAINST THE OSE - HIS AVERAGE AT SEASON'S END IS 55 RUNS PER INNINGS

ALFRED ANDREW SCORES 128 RUNS FOR COWELL'S SET VERSUS WRIGHT'S SET IN THE TUTORS' CUP

LAWRENCE BLENCOWE (AGED 14) PLAYS THE FIRST OF SIX SEASONS IN THE SCHOOL SIDE (A RECORD)

Some rules about fielding, which K. S. Ranjitsinhji lays down in his Jubilee Book of Cricket, are well worth mentioning here :—

- (1) Keep the legs together when the ball is hit straight to you and while you are picking it up.
- (2) Always back up the man who is receiving the ball at the wicket, when it is thrown in, but not too close.
- (3) Always try for a catch, however impossible it may seem.
- (4) Always be on the look out and ready to start.
- (5) Use both hands whenever possible.

CRICKET RETROSPECT.

We have not had much success upon which to congratulate ourselves. Out of thirteen matches there are seven losses and four draws, but only two wins. However one of these was the Reading match. It seems improbable too that our score of 120 at Warwick would have been beaten, as the wicket was in a terrible condition. We now have to look at the Eleven and discover the cause of so many failures. The chief one is perhaps the want of a really reliable bowler who may be depended on to take wickets. A bowler's accessories are of course good fielders, and I am afraid we all in our inner consciences feel we are guilty of many offences in this line. The fielding during the latter part of the term was a very distinct improvement on that of the first, indeed no words could have been too strong for the fielding in the University and Exeter matches. A little pluck and resolution are essential to good fielding, and it should be remembered that a ball can always be stopped, and that a miss should be as rare as a blue moon. Catching is more of an art, but is learnt by steady practice. In the bowling line Gillett has been distinctly useful. He bowled moderately at the beginning of the term, badly in the middle, and best at the end. His performance against Reading School was excellent. Dyson can bowl some excellent balls but seem to have bad luck, and Hare has shown himself an excellent change bowler, though he should learn to vary his balls more. Peel played some good innings at the beginning of the term and has been useful all through the term. I should very much like to see a little more resolution in the members of the Eleven when they go out to bat. They seem to think that the chances are that they will come out, instead of the other way on. Some too, might do a little more hitting, especially when the wicket is hard. But the last word must be as usual about the fielding, for the Eleven will never be really successful until the bowlers can rely on the fielders to accept the catches.

A. H. M.

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

May I occupy a few lines of your valuable space in laying before the "C.C." some information which I think will be useful. Why couldn't there be a few more 2nd XI. matches? At present I think I am right in saying there is generally only one, which is against Bloxham 2nd XI. It would make the 2nd XI. take much more trouble and interest about their cricket than they do now. And why couldn't the 2nd XI. be provided with a blazer? They have a sort of cap but no coat. It is bad luck to have an unequal number of things. So let them have a blazer, and then they will have good luck. Hoping this will receive some attention,

I am, yours truly,

B2.

A JUNIOR CRICKET CUP DONATED BY THE SCHOOL DOCTOR (DR. WHITELOCK)

WORST SEASON TO DATE WITH NO VICTORIES AT ALL IN 10 MATCHES

ARTHUR WETHERALL (OSE) CAUSES MORE DAMAGE TO THE SCHOOL XI MAKING 126 FOR THE PAST VERSUS THE PRESENT SIDES

Cricket. PROSPECTS.

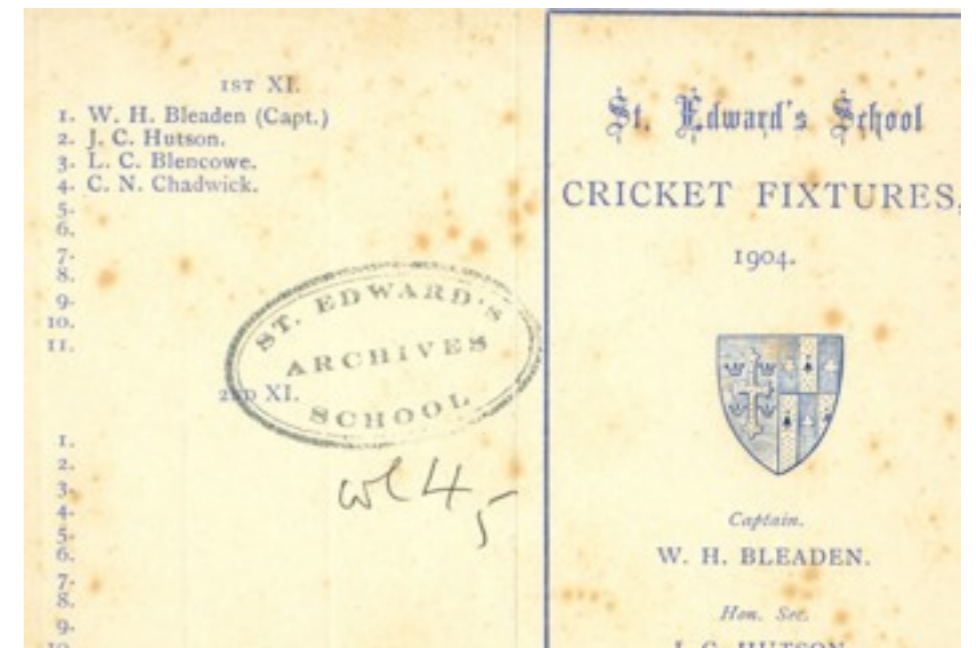

WE must begin with the same old story and say again that if the School is going to have a successful season the fielding must be improved. So far, however, the fielding has been much better than it was last season, but there is still room for improvement.

But the reason why the "colts" seldom make any runs is because they go in with the thought "I'm sure to make a duck," and get into such a funk that of course they do nothing when they get to the wickets. If they went in with the thought that they were going to make 50, and that the bowling was the easiest they had ever had to face in their lives the result would probably be much better.

We have found a good wicket-keeper in Heale, but we want some good bowlers.

On the whole the team ought to be quite as good as last year and if the fielding goes on improving, it will be decidedly better.

BLEADEN ALSO SCORES 87 AGAINST BEDFORD MODERN SCHOOL AFTER TAKING 5 WICKETS FOR 20 RUNS IN THEIR INNINGS

HARRY THOMPSON SCORES 100 NOT OUT VERSUS ST. JOHN'S COLLEGE, OXFORD

BLEADEN HEADS BOTH BATTING AND BOWLING AVERAGES - SCORING 464 RUNS AT AN AVERAGE OF 34 AND TAKING 39 WICKETS FOR 14 RUNS EACH - EASILY THE BEST ALL ROUND FIGURES FOR YEARS

O.S.E. Cricket Tour.

THE prospects of this year's tour were probably brighter than those of any previous one. Places of interest, new to most of us, were to be visited; strong teams were to be met, stronger possibly than any of former years.

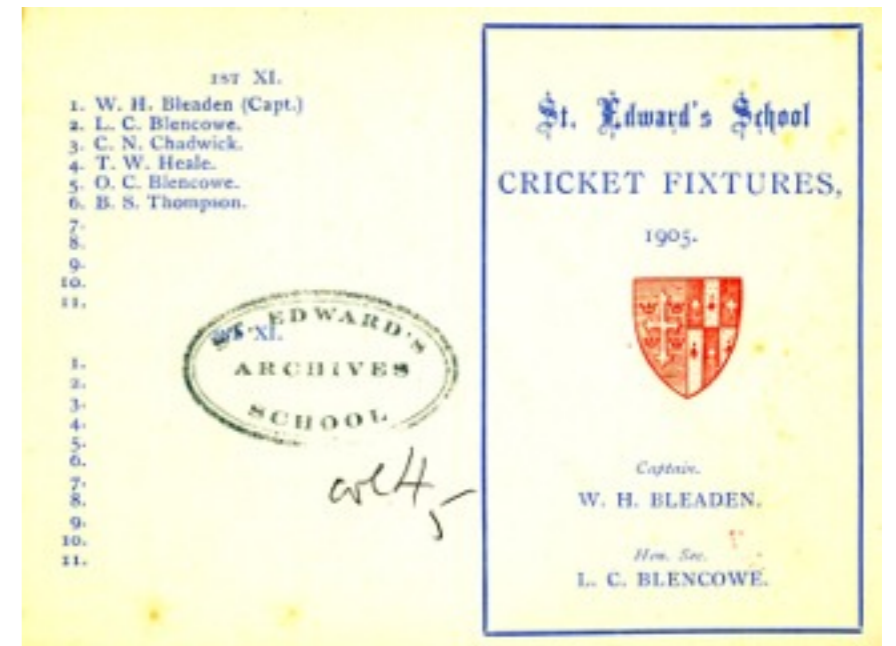

Two splendid cathedrals, a fine historic castle, and the atmosphere of the first Test Match! What more could be desired by the keenest archæologist or the most enthusiastic cricketer? Moreover, what a lovely summer we had been enjoying, or rather looking forward to enjoy, when released for a short spell from our respective labours. It was on a splendid day that we assembled at Lincoln and began our first match most auspiciously by making a good score and getting our opponents out cheaply. Still further were we encouraged by making a satisfactory start in our second innings. Nothing but rain could rob us of victory; and who could think of rain in the midst of such lovely weather? Alas! the impossible happened: next morning it was raining hard, hopelessly, pitilessly hard. The only thing to do was to go up to the ground, lunch, and pack our bags for an earlier train to Nottingham.

On arriving at Nottingham we found that we had secured comfortable quarters at the Victoria (Station) Hotel, where we changed places with the Uppingham Rovers, who had been playing the Notts Amateurs, and were to play Lincoln Lindum the next day. We certainly gained by the exchange, as the Lincoln hotel was by no means an unqualified success. It shall therefore be nameless here! The cricket at Nottingham was practically a repetition of what had happened at Lincoln, except that the draw was an even one. After a good day's cricket the rain again came down to disappoint us on Saturday. We therefore started early in the afternoon for our various week-end homes to meet again on Monday at Leamington where we were most comfortably housed at the Regent Hotel. B. S. Thompson had left us and R. A. Bartholomew and F. C. W. Grigson joined our forces. The ground was some distance from the Hotel, but it was a pleasant drive, affording us a lovely peep of Warwick Castle, rising sheer from the waters of the Avon and surrounded by glorious trees. We had an excellent game here, which we lost after having by no means the best of the luck, though we won the toss. There were several little things that went against us. Labat was late owing to Bank-Holiday eccentricities on the part of the trains, and did not turn up till after luncheon. His steadiness might easily have made a considerable difference. As it was, he went in last and had only a few balls. Gillett was unwell, and, besides not being able to do himself justice with the bat, could not bowl till late in the afternoon. The way he finished off their innings made us regret his indisposition all the more. Finally the wicket improved

a bit towards the end of the day, but a shower in the early morning made it nasty for us before lunch again, and it was at its best in their second innings. However, we were fairly and squarely beaten after a jolly good game. In any case it was a treat to have a finish. It was the only one we had, as at Worcester rain prevented any play after lunch the first day, and the match there never had any prospect of a definite result. Here Dr. F. W. P. Holton made his *début* on our tour, and a most successful one, too. Before finishing with Warwick we must mention the fact that we had the great pleasure of seeing the Warden, who spent most of the day on the ground. Also, Mitchell was there at the end of the first day's play.

Well, Worcester was the end of our trip. By Thursday evening most of us had dispersed with the sincere hope of meeting again next year. It is by no means a certainty that these tours will not come to an untimely end, unless we bestir ourselves. Apparently the difficulty in getting the team together has been increasing of late years, and this year it nearly reached its climax. A prodigious number of letters had to be written by our hard-working Secretary. The answers were in many cases belated,—one has not yet arrived!—and practically all were refusals. The result was that we were one short in our first two games. Comment is needless and the danger must be obvious to us all. Probably next year the tour will be in the second week in August, so as to try to suit more of us.

The chief features in the cricket demand a little space. J. W. Neale played the highest and best innings, his 82 at Lincoln and 52 at Worcester being both finely-hit scores. Holton played an excellent innings at Worcester, and we hope to see many more such scores from him in years to come. Labat was as steady as ever, fairly surpassing himself at Warwick. C. R. Wetherall batted most consistently and also bowled well, probably better than in any previous tour. Gillett was also consistent, but continually disappointed us by getting out just as we thought he was going to give us a big performance. His bowling was good; but he was obviously not quite fit, or he would have done us still more yeoman service. A. S. Wetherall had his least successful tour, but he played one very good innings, when runs were very difficult to get, at Warwick. His wicket-keeping was as good as ever, which is sufficient praise for anyone. R. T. S. Neale is full of promise and we shall look to him for scores in future years. B. S. Thompson had no luck in batting, but his fielding was keen and good, his catch at Lincoln being very nicely judged and taken. Ferguson never got going with the bat till the last afternoon, and he had not much luck with his bowling, which he changed to leg-breaks. The fielding this year was quite satisfactory; the usual brilliance was lacking from want of opportunity, though Bartholomew was quite himself at Worcester. The umpiring was always good, Upton being with us again. Once more we most cordially thank C. R. Wetherall for all the trouble he has taken. The best way to show our gratitude is to give him less trouble in getting up the team next year. This year Peel was our skipper, and he proved himself a veritable Jackson in winning the toss every time.

CHRISTOPHER DE LABAT, WHO PLAYED IN THE CRICKET XI FROM 1885-1888, CAPTAINING THE SIDE IN HIS LAST YEAR. HE WAS REPUTED TO BE ABLE TO THROW THE CRICKET BALL 100 YARDS. HE RETURNED TO THE SCHOOL AS A TEACHER 1898-1906, DURING WHICH TIME HE COACHED CRICKET THROUGHOUT THE SCHOOL. HE PLAYED FOR THE O.S.E. TEAMS UP TO THE GREAT WAR

LAWRENCE BLENCOWE, PLAYED FOR THE CRICKET XI 1902-1907, CAPTAINING IN 1906 AND 1907. HE WAS ALSO A RUGBY PLAYER OF NOTE, GAINING TWO OXFORD RUGBY BLUES 1907-8. KILLED IN THE GREAT WAR

Correspondence.

—o—

To the Editors of "St. Edward's School Chronicle."

DEAR SIRS,

Would it be impossible to have Junior Tutors' Matches in Football as well as in Cricket? The latter have been very successful in their object of increasing keenness and interest and there seems to be no reason why the same result should not be obtained by football matches on a similar plan. They would have this advantage over the cricket matches, that they can be played quite easily on whole-school days and only take an hour from start to finish. The teams might be chosen from the Middle and Junior Games and the badges now awarded might possibly be made to have some special meaning with regard to the Junior teams chosen to represent their Set. Possibly there is some serious difficulty in the way of starting such matches which you will be kind enough to let me know through your columns.

Yours obediently,
PHILAGON.

J. S. Douglas	336	127	29	11.5

The following also played for the XI. :—Cleeve mi., Dart, Dashwood, Hughes, Reynolds.

CHARACTERS OF THE XI.

O. C. Blencowe (Captain). Very much improved both in batting and bowling; played some very good innings and did a great deal of useful work with the ball; captained the team successfully: but might, perhaps, try a change of bowling sooner.

C. H. Jenner. His batting was much more vigorous than last year and his strokes far more powerful. Good field.

H. B. Thompson. He can be a very good, and very straight bat when he takes the trouble, though he has just lately been playing very crooked, chiefly through a desire to hit everything. His bowling has on occasions been good. A very good field.

C. E. E. Cockey. A very careful, straight bat; though he scores very slowly. He has played some very good innings: is much too sleepy in the field.

R. G. B. Barrett. A very straight and promising bat, his off strokes being extremely good. Has batted well all through the season. His bowling has been very disappointing; he seems to have lost all last year's promise of becoming a very fair left-hand bowler. His fielding is very good.

C. L. Bleaden. His wicket-keeping this season has been a great success, though he had very bad luck in only being able to play in a few of the matches. His batting is poor.

F. C. A. Cleeve. His batting has been disappointing this season, which is chiefly due to an unnecessary flourish at the beginning of each stroke. If this fault were conquered he could become a very fair bat. His fielding in the deep is good.

J. S. Douglas. A very promising and fair paced bowler, who when once he found his length sometimes seemed difficult to play. His batting is fair, but he must learn to stand still when playing back.

L. A. Strange. A very promising bat: has shown excellent form on more than one occasion.

Cricket Prospect.

WE have already played three matches, and as far as can be seen the success of the season is going to depend upon smartness in the field. The batting is, even at this early period, as good as last season, and promises to be much better later on, though perhaps a little more trouble might be taken in practice at the nets. Bowlers are fairly plentiful, but at present are too erratic; if only bowlers would use their heads more and try and make 'length' their one ambition, I am sure it would result in a great improvement, and wickets would fall more quickly. As regards the fielding, which is going to have everything to do with the success of the season, a great improvement must be looked for; at present it is all terribly slow, and the throwing in especially erratic. On fast wickets, such as we are now having, unless everyone is on the move actually *before* the ball is hit, it is absolutely impossible to get near it. If this can be remedied we ought to do well.

O.C.B.

KENNETH HARDING WHO PLAYED IN THE CRICKET XI IN 1908. HE WAS LATER HEADMASTER OF ST. BEDE'S SCHOOL, EASTBOURNE WHO MOVED TO ST. EDWARDS 1940-5 UNDER FEAR OF GERMAN INVASION. HE PLAYED 3 TIMES FOR SUSSEX C.C. IN 1928

Cricket Prospect.

OF last year's XI. there are still eight left and of these Sherwell has come on considerably since last year and so far has made a good score in every match. Of last year's bowlers Douglas and Bickley still remain with us; the former has shown much promise on a hard wicket, but is inclined to be erratic. The consistent bowling of Blencowe will be sadly missed, but Burn has filled his place with some success. The fielding at present is not up to last year's standard. This is a serious matter, since we have to rely on three bowlers who must needs be discouraged when they are not backed up by good fielding. A catch however impossible it may seem can often be caught if the fielder is on the look out and ready to start. One cannot exaggerate the importance of always keeping on the move. Every fielder should be ready for every ball to come his way; very often its direction can be anticipated by watching the bowler's delivery. If all these points were observed, there would be a marked improvement in the fielding. There are now only two places left vacant in the team and it is impossible to foretell who will fill them. Practice in the nets should be taken more seriously both in batting and bowling. In the latter it is important to remember that good length balls do far most good to both batsman and bowler.

C.L.B.

LEWIS SEYMOUR TAKES 7 WICKETS FOR 22
RUNS AGAINST C.C.E. COCKEY'S XI

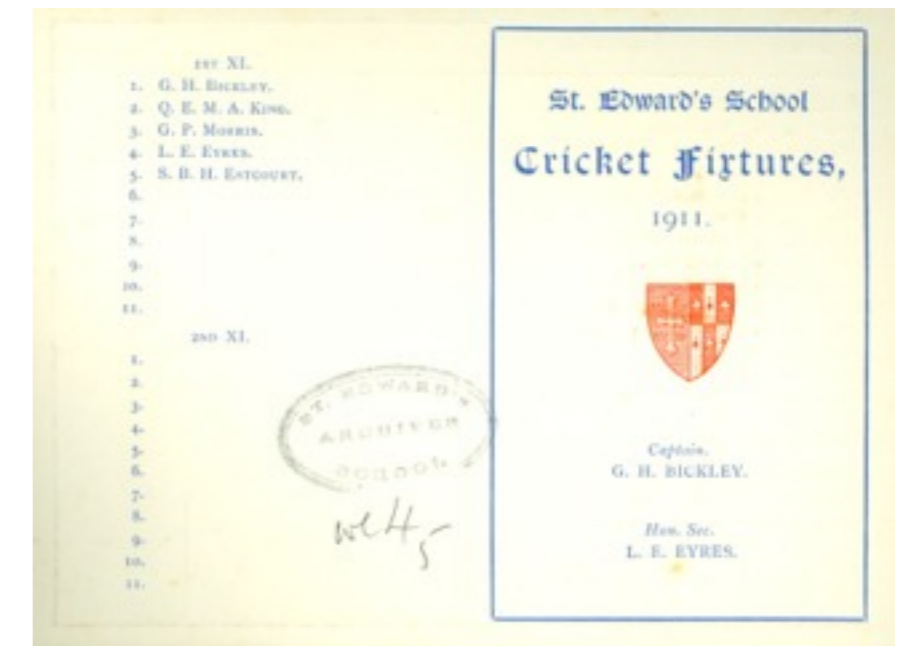

GEORGE MORRIS TAKES 7 WICKETS FOR 68
RUNS AGAINST BICESTER C.C.

NOTHING has appeared in recent numbers of the *Chronicle* on the subject of this Fund; but we are now in a position to state that the sum collected from all sources amounts to £3000. Though this sum falls far short of the total required for the purchase of the land, it is enough to secure the fields to the use of the School; and, all being well, the Freehold of the land will shortly pass into the possession of the Trustees.

The first payment in respect of the land must be made before the next *Chronicle* appears, and it is much to be desired that this payment should be as large as possible. We make bold therefore to ask all who have promised or who are intending to help the Fund, to send their contributions during the next few weeks.

The Fund will of course remain open for further contributions, and we are hopeful that it will only be a matter of time to pay off the whole sum. Even when the title-deeds of the land have changed hands, no better service can be rendered the School than to help in reducing the outstanding debt.

Notes.

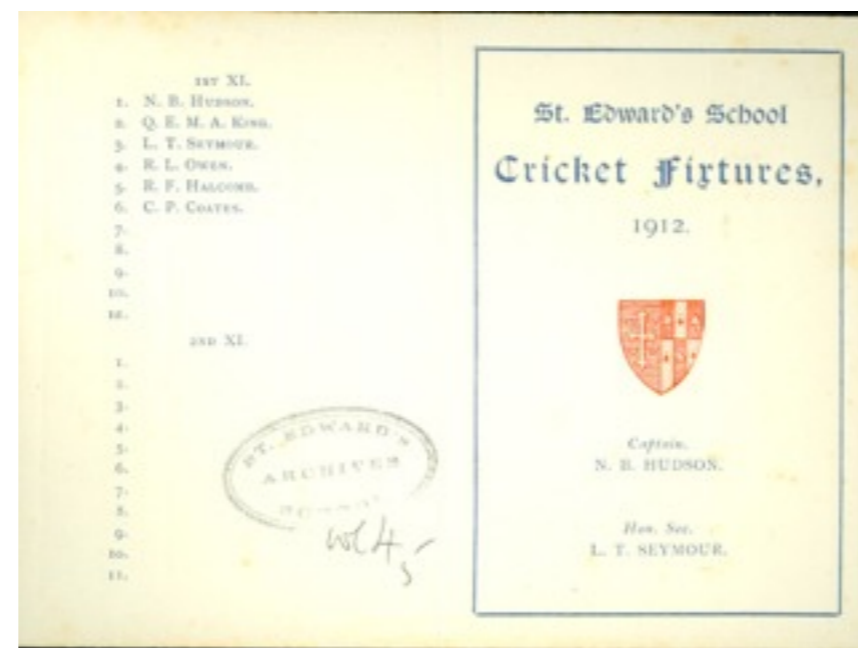

HE Cricket Season has ended with a satisfactory balance of five matches to the good. Since of the games we did not win, two were lost by very small margins (2 runs and 8 runs) and one was drawn much in our favour, this may fairly be set down as well above the average. It stands on about the same level as 1909, and then we must go back to 1898 to find another parallel.

HUDSON has proved himself a very competent Captain. He has had fortune on his side in the sense that this has been a bowler's year, the very opposite of last season, and that he has had an unusual choice of bowlers—four good men, to say nothing of a fifth.

—o—

THE Bowling Averages are worth notice. It has probably not happened before, that the School has had four bowlers with an average under ten. The Average Ball rewards a very excellent performance on the part of L. T. Seymour. But King's record is only fractionally behind it, while those of the two change bowlers, show even lower averages. Indeed Snow's bowling, which is always straight and keeps low, and Kidd's deceptive slows contributed not a little to the winning of matches at critical moments.

Cricket.

N easy win in the first match coupled with a creditable draw with Cuddesdon in the second have given the side a confidence which should go far to make the season a successful one.

The fresh talent which has so far been shown, if not very extensive, is certainly of good quality, and both in batting and bowling there are indications of a general improvement.

In the matter of fielding there must, as usual, be a good deal of practice, if we are to attain to the high standard which should always be found in a School side not too well supplied in the other departments of the game.

*Not out.

The other places were not filled up. Smith ma. (7.2), South (7), Knowles (5.1), Crowder (5), and Sharples also batted.

Bowling Averages—F. L. Foulkes, 11.1; F. I. S. Gill, 15.7; R. E. L. Tuckey, 16.6; J. R. C. Stock, 17; R. P. R. Carpenter, 23.5; also bowled South 12.13; Crowder 13.3; Wild 18; Sharples 19.

THE Captain of the XI has five of the old colours, besides himself, out of the eight who held them last year, Tod and Mackay being the only losses. He has as well all three Second XI men who played last year. A wicket-keep and a new bowler have been found. A very long programme of matches has been arranged, and the result of the first was very encouraging. It only needed another quarter of a hour to make it a decisive win. Though the bowling was perhaps not at its best and the ground fielding not quite so clean as we were accustomed to last year, the team looked well and the only three batsmen who got an innings showed excellent form.

CRICKET XI 1920

L-R BACK ROW A.D. HAMILTON, W.L. COX, R.C. MORTIMER, R.C. LAWSON

L-R CENTRE R.D. ALLEN, B.E. MOODY, C.M. THORMAN (CAPTAIN), J.W.M. FLETCHER, H.B.S. WILD

L-R SEATED J. KEYMER, N.H.L. ROUND-TURNER

The O.S.E. Cricket Week.

THE O.S.E. Cricket Week of 1920 will always be remembered by those who took part in it. By those, who had not played for the O.S.E. because it was their first appearance and by those who had played together before because they can feel that a bridge has been drawn across the years of the war and that the tradition of an O.S.E. cricket tour has not been allowed to die.

We were not blessed by fine weather but Bank Holiday, some hours of which we spent in the Pavilion, gave us all an opportunity of looking forward to the day when a stroke of fortune might enable one of us to build a new one.

As far as the matches were concerned, we lost them all, but winning or losing games is a side issue, and all the games were thoroughly enjoyable.

The best match of the three was the last. We were up against very strong opponents and the practice of the previous games enabled the team to show to better advantage, although the result was a heavy defeat. We were certainly handicapped in the second innings by the accidents to our captain J. W. Neale and James.

The catching of the side was not good and the chief offenders were the younger members of the side. One pitied the bowlers in the match against Oxford City, though J. W. Neale brought off a very fine catch in the deep.

We had the satisfaction of seeing the ball hit out of the school ground four times, twice into the road by J. W. Neale and James and twice into the Keble ground by Shelmerdine who ap-

pears to have been doing the same sort of thing for the Incogniti in America.

It may be invidious to mention individual performances but we should have been badly off in batting without Gillett who in five innings scored 197 runs when runs were not easy to get. A. S. Wetherall, too, behind the wickets, saved us very many runs and the way he stumped Wells in the first game would have done credit to Strudwick. King, indefatigable as bowler or in any position on the field, never let us forget how really good it is to be alive.

Looking back on the week as a whole we are confident that O.S.E. cricket has taken on a new lease of life, but its future must depend to a great extent on the younger generation of O.S.E., and, although we hope that, for some years, the giants of past O.S.E. cricket teams will be available, it is up to the younger generation to allow them to retire feeling that the continuance of the O.S.E. cricket tour is ensured.

We cannot be sufficiently grateful to the Warden for all his hospitality and the trouble he took to make the week a success. Arthur Jeffrey, a very faithful friend, remembered each one of us and looked after our bodily wants as only he can do. Last, but by no means least, are we indebted to C. R. Wetherall who had the most thankless task of all, the organisation of the team. We only hope that he will continue in the good office of Hon. Secretary, as we could never hope for a better.

A. H. S.

TWO CRICKET COACHES OF THIS TIME FROM THE COMMON ROOM. TOP IS BRUCE GOLDIE AND BOTTOM IS ARTHUR TILLY. GOLDIE WAS INVOLVED FROM 1920-25, TILLY 1920-1945

RESULT OF SEASON, 1921.

Played 12; Won 5; Lost 6; Drawn 1.

The season has been the best since 1914. The Captain H. B. S. Wild, has done very well both as a Captain, a bat, and behind the stumps. R. C. Mortimer's batting has been excellent, though he has not come off in the last match or two. R. D. Allen's bowling has been the mainstay of the attack and the fielding in general has been very smart, Hamilton and Lawson particularly distinguishing themselves by their running, clean picking up and excellent throwing in, while Risien and Rutter have brought off many excellent catches. The latter has also played several valuable innings at critical moments.

HUGH WILD SCORES 87 AGAINST J.A.B. DAVIES'S XI AND 56 VERSUS WADHAM COLLEGE, OXFORD

ARCHIBALD HAMILTON SCORES 70 AGAINST BEDFORD MODERN SCHOOL

ROBERT MORTIMER SCORES 108 AGAINST ALL SAINTS SCHOOL, BLOXHAM

JOHN KEYMER SCORES 67 AGAINST THE REVEREND A. MACNAMARA'S XI

TWO COMMON ROOM CRICKET COACHES OF THE TIME.

ARTHUR MACNAMARA (ABOVE) WAS OFFICIALLY COACH AND GROUND KEEPER 1920-1925, BUT ALWAYS TOOK A KEEN INTEREST IN SCHOOL CRICKET THROUGHOUT HIS LONG 40 YEAR CAREER.

E.T. JAMES (RIGHT) WAS INVOLVED BETWEEN 1920-25

Wright, N. M.....	28.3	1	134	5	26.8

THE new Pavilion has risen like the Phoenix from the ashes of the old one. It looks at first sight much the same, but is larger, and it has a balcony! also a large store for goal posts, &c., a lavatory, and a much better room for the professional. It is not yet quite finished internally. It has been paid for by the Shop Funds, for that notable institution which now supplies practically all the clothing a boy needs, as well as what it did before, has recovered, thanks to Mr. Stanton and Miss Johnson, from the great difficulties of War time, and is beginning to be a great help to the hard-pressed Central Fund. Even a venerable school like Westminster has found it necessary to appeal for help, personal and financial, to get its cricket ground in order.

ANDREW DE LABAT (O.S.E.) DIED THIS YEAR. HE WAS A MEMBER OF THE SCHOOL CRICKET XI 1886-1887, CAPTAIN IN 1887. HE RETURNED TO HIS NATIVE NEW ZEALAND AFTER THE GREAT WAR AND PLAYED CRICKET FOR HIS COUNTRY 1890-1897

Cricket.

The XI, so far as made up, is F. H. Pollard (Capt.), F. W. A. Harding-Newman, R. C. Lawson, W. T. H. Rutter, G. D. Risien (Sec.), R. D. Moore, H. T. Hopkinson, R. G. Watson, S. T. Hutchinson.

The first six are last year's colours.

S. T. Hutchinson	126.4	13	507	20	25.3
H. M. Chubb....	114.5	10	543	19	28.6

HOPKINSON has only two first XI colours, Rutter and Hutchinson for his nucleus of a team, but there are four second XI colours, a wicket-keeper and plenty of good batting material. The first match was quite promising, and was only lost by a few runs made by the last wicket.

THE WARDEN AND SCHOOL PREFECTS 1922

AMONGST THOSE ALSO IN THE CRICKET XI WERE R.G. WATSON, F.W. HARDING-NEWMAN (CENTRE LEFT AND RIGHT BACK ROW) AND I.D. HELBY, F.H. POLLARD (CAPTAIN) AND G.D. RISIEN (SEATED FIRST AND SECOND LEFT AND FAR RIGHT OF SEATED ROW)

J. C. O'Dwyer, R. H. Griffiths, L. M. Buchanan, G. K. C. Brooks, also bowled.

‡ Old Colours. † New Colours. The rest are 2nd XI Colours.

The Season's Record (W. T. H. Rutter, capt.) is—
 Played 12, Won 5, Lost 2, Drawn 5.
 2nd XI Colours beside the above:—D. R. S. Bader, V. R. Saffery.
 Colts' Colours:—Bader, Benison, Spurway.

For the coming cricket season the prospects of the XI are by no means brilliant. The Captain has four old colours and four 2nd XI colours left, but unfortunately both of last season's fast bowlers have left, and what is still more serious is the loss of Nicolls, last season's wicket keeper. The XI should be quite strong in batting judging from last season's results; the bowling is decidedly the weak point, but there are some bowlers of promise who with continued practice may improve. So far the weather has been a considerable hindrance, preventing fielding practices and nets.

The first match, as well as a trial game, has tended to justify the above forecast, written a week or so ago.

Redpath's second 'century' in a foreign match brings him up into the *primi ordines*, where his fellow centurions are R. G. B. Barrett and Q. E. M. A. King. But the *primipilus* is still C. R. Wetherall (125, 101 not out, and 163) and Redpath has still something to do to be *phaleratus* like that.

The Captain of Cricket reminds us that we omitted in our last number to record his grateful thanks for assistance in coaching last term to the Warden, the Rev. A. Macnamara, Mr. G. H. Segar, Mr. H. M. Ching, Mr. Goldie, and Mr. Dingwall.

Benison, J. B.	42	7	162	5	32.20
----------------	----	---	-----	---	-------

The result of the season is this :—Played 14, Won 6, Lost 4, Drawn 4. Of the drawn matches, three were practically won; a few minutes more time would have made them fairly easy wins. The season is thus very

MICHAEL SPURWAY A MEMBER OF THE CRICKET XI 1925-1926. LATER PLAYED COUNTY CRICKET FOR SOMERSET IN 1929 AS A WICKET-KEEPER/BATSMAN. ALSO A CONSUMMATE SUPPORTER AND PARTICIPATOR OF O.S.E./MARTYR CRICKET IN THE INTER WAR YEARS.

HE WAS AFFECTIONATELY CALLED 'SLOGGER SPURWAY'

DON BRADMAN SIGNING BATS IN 1925. STANDING BEHIND HIM, SECOND LEFT, IS 10 YEAR OLD ERIC 'BUDGE' DIXON - FUTURE NOTABLE CRICKETER AT THE SCHOOL AND OXFORD UNIVERSITY

Griffiths, the new Captain of Cricket, has four Colours besides himself for a nucleus, and some good bats, good fields, and a very promising wicket-keeper among the Colts to select from. The team should be strong in batting and fielding, though, as last year, the bowling seems likely to be the weaker side.

DOUGLAS BADER PLAYED FOR THE CRICKET XI 1925-1928, CAPTAINING IN 1928. SHOWN HERE IN 1936 WITH RICHARD LAWSON (LEFT) AND EDWARD 'HEWE' HEWITSON (RIGHT) DURING CRICKET WEEK

L-R BACK ROW W.E.N. NORTHCOTE-GREEN, R.H.J. BROOKE, J.B. BENSON, E.V. STILLINGFLEET, D. ABBOTT

L-R SEATED G.B. FOX, E.J.B. LANGHORNE, J.C. O'DWYER (CAPTAIN), D.R.S. BADER, M.V. SPURWAY

MICHAEL SPURWAY WOULD LATER PLAY FOR SOMERSET IN 1929

O.S.E. CRICKET WEEK.

This summer it is proposed to revive the O.S.E. Cricket Week. Three two-day matches are to be played at the School on July 30th and 31st, August 2nd and 3rd, 4th and 5th. Names of opponents will be announced later. Accommodation will be provided for O.S.E. at the school.

It would greatly assist the organisers if O.S.E. who are willing to play would write to J. S. Douglas, Pembroke House, Hampton, Middlesex (Telephone, Molesey 392), and say on what days they could play and whether they bat (right or left hand), bowl (fast, medium, slow, spin, etc.), wicket-keep.

Cricket

FIRST XI AVERAGES, 1926.

*Not out.

BOWLING.

	Runs.	Wickets.	Aver.
D. R. S. Bader	240	26	9.23
R. H. J. Brooke	259	17	15.24
J. B. Benison	565	34	16.62
G. B. Fox	410	21	19.52

Also bowled: Boyson, 5 for 33; Sargeant, 8 for 130; O'Dwyer, 1 for 28; O'Hagan, 0 for 74; Foster, 0 for 31.

Bader and O'Hagan were disabled for the greater part of the season.

Apsley has two small cricket pitches in use, and a third has been made on the new field below Field House. With one on the Middle Field, and two possible on the Upper Field (besides the match pitch) this gives us six, but we want seven. When the field by Field House is levelled up, this may possibly be found there.

The match against Mr. Masterman's very strong team was memorable for the re-appearance on the School field of E. G. Wynyard, the captain of by far the most successful XI we have had. The XI of 1879 played 19 matches, won 15, drew three, and lost one. Making all allowances for the fact that two masters played in two of the matches, and for the rather lower level of skill of the teams they played, this was a wonderful performance. The team contained, besides its captain, three cricketers of outstanding merit, to say nothing of the rest. The old captain—he is sixty-six—not only bowled the craftiest of lobs, but scored 45 in the most perfect style, and only retired for fear of consequences, as he had not played for a very long time. Our best thanks are due to Mr. Masterman for giving us the opportunity of seeing so distinguished a cricketer.

CRICKET (SENIOR).

RICHARD BROOKE GAINED AN OXFORD CRICKET BLUE IN 1932 AND PLAYED MINOR COUNTY CRICKET FOR BUCKINGHAMSHIRE

O.S.E. Cricket Week

As our match against the Old Bromsgrovians showed us at our best, it is reported in some detail.

The O.S.E. batted first on a slow wicket, losing two wickets for 7 runs. Griffiths and Boyson then took the score to 41, when the latter was bowled. After that there was a collapse, eight wickets being down for 52, but Douglas, playing a real captain's innings, with the assistance of Bridson and Rutter, enabled the O.S.E. to put together the respectable score of 146. The Old Bromsgrovians started badly, half the side being out for 57, of which Huins made 24. Then Gray and Oswald, by courageous if lucky batting, put on 70 runs, but the whole side was out for 142. Once again the O.S.E. started badly, but Rutter, Griffiths and Buchanan improved matters. The later batsmen did little, but Rutter had time to complete a good century, in which he hit 11 boundaries. The innings was declared closed at 239 for 8 wickets, leaving the O.B.'s two and a half hours to get 244. They made a plucky effort to force a win and failed only by 20 runs when only five minutes remained for play. Huins and Gray each got 50 runs, hitting hard and making victory possible for their side, but apart from Brownsdon and Walker the later batsmen offered little resistance to Douglas' bowling. Douglas in the match took 10 for 97.

The remaining matches speak for themselves. We were outbatted and outbowled. Our only excuse is that Douglas and Harding-Newman strained themselves and were unable to bowl properly for the three matches in which we were so heavily defeated. We also lacked a wicket-keeper, though Dodgson gallantly filled the breach. In the Radley Rangers match alone did we again come into our own, when we did well to get a strong side out for 141. We hope that younger generations of cricketers will come to our support, and make up their minds to keep O.S.E. week every year, and to come to it in good practice with bat and ball. We now have an excellent fixture list, and it is up to us to live up to the standard of the teams we play.

For the social side of the week our thanks are due to the Warden, Mr. Macmichael, Nurse Laurie and all those who so kindly looked after us. The 'gin-palace' of last year

was replaced by a super-sports model with what sounded like an aeroplane engine, and many an excursion did we enjoy in it. Music there was, bridge there was, and other games of skill and chance. Those of the visiting teams who stayed with us thoroughly entered into the spirit of everything, and undoubtedly enjoyed themselves. One of the Stragglers told us to look out for him in 1931! Can praise go higher?

Once again we all found it a difficult task to say Au Revoir to St. Edward's and Apsley and all they mean to us.

BATTING AVERAGES.

v. BRADFELD COLLEGE. Bradfield, 161 for 6 (Bathurst 81, C. Stephan 31); S.E.S., 142 for 7 (Beale 65).

A review of the results of matches shows that, on the whole, the cricket season has been highly satisfactory. On a hard wicket the odds are in favour of one-day matches ending in draws. Yet by no means all the matches were indecisive, and the majority of the drawn games ended with the School in a strong position. In a dry summer it is essential for a side to have one of two, if not both, match-winning qualities—quick scoring and strong bowling. At the beginning of the season both these qualities were present. But by the time the team had got into its stride Brooke had been lost, so that the bowling could never be called strong, while the further absence of Veitch's steadiness with the bat made a low score likely if the hitters failed. Of the batting, Brooke, Barnes and Veitch were the stayers, Bader, Hoare, O'Hagan and, occasionally, Denne were the quick scorers, and the rest were more or less potential run-getters. Only once did they fail to take the score into three figures, and that was against a side that contained one or two Varsity bowlers. In bowling, Brooke was badly missed, so that, though Denne started off well but lost his length in the latter half of the term, the brunt of the attack was shouldered by Bader, Way and Sargeaunt, who all performed their tasks manfully. The ground fielding throughout the term was of a very high standard, and the catching, except in one match, was equally good. Hudson, behind the stumps, improved steadily as the term went on. Mention must be made of Parton, the pro. and groundsman, who in his first season has produced finer wickets and a better outfield than have been seen here for some time.

H.

RICHARD BROOKE PLAYED FOR THE CRICKET XI 1926-1928. FIRST O.S.E. TO GAIN A CRICKET BLUE AT OXFORD IN 1931/2. HE ALSO PLAYED FOR SEVERAL MINOR CRICKET CLUBS AND THE FREE FORESTERS

The cricket season opens with good promise. Bader is restored to health, and has a very good second-in-command in Brooke. As they are both good bowlers and strong bats, though of very different style, this is important. There are three other old colours, Barnes, O'Hagan and Denne, and of second colours, Wetherall and Bailey ma. There is besides plenty of excellent material both in bowling and batting. The opening match, a most exciting tie with Keble, on the stroke of time, was an encouraging opening of the season.

THE HIGHEST SCORES OF THE SEASON BY THE CAPTAIN JOHN BARNES - 81 AGAINST E.P. HEWETSON'S XI FOLLOWED BY 63 VERSUS OXFORD CITY C.C.

29TH JUNE 1929 IS A KEY DATE IN SCHOOL CRICKET HISTORY - WITH THE 1ST, 2ND AND COLTS XIS ALL WINNING FOR THE FIRST TIME EVER. FOR THE COLTS PETER CRANMER SCORES 177 NOT OUT

IN THE SENIOR HOUSE CUP, JOHN BARNES SCORES TWO CENTURIES IN TWO INNINGS VERSUS APSLEY, WHILE BATTING FOR TILLY'S, BUT STILL LOSES THE MATCH - IN ALL 1149 RUNS ARE SCORED!

PAUL GIBB (AGED 15) MAKES HIS DEBUT AS WICKET-KEEPER FOR THE SCHOOL SIDE - LATER TO PLAY FOR ENGLAND, YORKSHIRE AND ESSEX

June 22nd was a fine day for School cricket. The XI beat Bromsgrove by eight wickets; the Second XI beat Radley 2nd at Radley by five wickets; the Colts, after accumulating a huge score, including 177 not out by a boy under 15, just failed to get the last two wickets of the Bradfield Colts, and had to be content with 'drawn in favour.' The evening ended with a race against the clock. The XI beat it, the Colts just failed; but the Chapel bells had a ring of triumph in them.

BOWLING.					
	Overs.	Mdns.	Runs.	Wkts.	Av.
C. M. C. Woodroffe	46.4	12	107	12	8.92
G. M. Beal	129.2	22	372	27	13.78
J. A. H. Sargeaunt	103.4	20	358	23	15.57
K. J. Veitch	108.3	14	367	21	17.48
A. G. P. Way	78.4	8	305	12	25.42

The following also bowled: A. H. M. Hoare, 12 1 49 3 16.33.

It is clear from the averages that the batting of the First XI has been disappointing. Barnes alone has been really consistent, and he only in the latter half of the season. Wetherall and Gibb have played some useful innings at critical moments, Wetherall's knock on a nasty wicket at Windsor, and after a disastrous opening, being especially worth recording. Veitch and Hoare, from whom much was expected, have never run into form. Though Veitch has made several useful 30's, he has never reached anything like his true form. Hoare generally opens with a most confident four, which leads him on to rashness and disaster; while Fortune, so kind to him last season, has shamefully deserted him. For the rest, Green mi. is an improved batsman and Woodroffe has played one good innings. The out cricket of the side has been, in most matches, its strong point. The bulk of the bowling has fallen upon Beal, Sargeaunt and Veitch, and they have rarely bowled badly. Sargeaunt bowls too many no-balls, but he gets life and pace into his bowling; Beal is too fond of bowling outside the leg stump, but he never looks very easy to play and his nip off the pitch has had many batsmen in trouble. Veitch keeps a good length with his off-breaks and gets considerable spin on the ball. Woodroffe and Way have lent some useful aid at different times. The fielding has been good: catches have at times been dropped, but the ground fielding is generally safe. Gibb ma. has come on well as a wicket-keeper. Both school matches have been won, and there have been good performances against two or three strong sides. Barnes has captained the side well and made the most of his material.

O.S.E. AND THE STRAGGLERS OF ASIA ELEVENS CRICKET WEEK 1929

INCLUDED IN THIS GROUP ARE:-

BACK ROW - S.T. HUTCHINSON (FAR LEFT), W.T.H. RUTTER (4TH FROM LEFT), J.F.W. EARDLEY (5TH FROM LEFT)

O.S.E AND OXFORD CITY C.C. ELEVENS - CRICKET WEEK 1930
THE O.S.E WON BY 4 WICKETS

ROBERT BERRY MEMBER OF THE CRICKET XI 1930-1933 AND THOUGHT BY ARTHUR TILLY TO HAVE BEEN THE FASTEST BOWLER EVER TO THAT DATE, IN THE SCHOOL'S HISTORY

REVIEW OF THE SEASON.

WON 6, LOST 5, DRAWN 4.

We were stronger than usual in both batting and bowling this year. In matches against Oxford Colleges the side generally did well, but in the matches against I.S.C. Windsor and Bromsgrove, both of which were lost, the batting broke down for no apparent reason. Veitch was the steadiest bowler, and was well supported by Berry, who proved very useful as a fast-medium bowler. During the second half of the season many wickets were taken by the slow left-hand bowling of Northcote-Green. Barnes, whose captaincy all through left nothing to be desired, and Veitch were the most consistent of the batsmen. Throughout the term the fielding, which was uniformly good, both in the air and on the ground, contained no weak spots.

Cricket.

The prospects for 1930 are brighter even than those of the previous year. There are eight old Colours left, all of whom have already shown considerable promise and improvement in the opening match of the season. The batting should prove stronger, and certainly more solid, than last year. The same may be said of the bowling. There is the usual full programme of matches in May and June.

CRICKET XI 1934

L-R BACK ROW E. HOLLEY, A.W. PATON, H.B. COULTHURST, E.F. BENNETT, R.W.W. HOWELL, I.G. MACLAURIN

L-R SEATED E.J.H. DIXON, R.M.A. LAWSON, J. BUTTERWORTH (CAPTAIN), P. COOKE, A.N. REID

ERIC DIXON AND ARTHUR REID FORM THE HIGHEST SCORING OPENING PARTNERSHIP IN THE SCHOOL'S HISTORY - BOTH AVERAGE 40 RUNS PER INNINGS FOR THE SEASON

PETER CRANMER'S FIRST SEASON PLAYING COUNTY CRICKET FOR WARWICKSHIRE, HE WOULD BE APPOINTED CAPTAIN IN 1938 AND PLAYED ON AFTER THE WAR UNTIL 1947

JOHN BUTTERWORTH SELECTED TO PLAY FOR THE REST VERSUS THE PUBLIC SCHOOLS AT LORDS. HE CAPTAINS THE SIDE HIS FOURTH YEAR IN THE XI

WITH THE FORMIDABLE OPENING PARTNERSHIP OF DIXON AND REID GIVING THE SIDE SO MANY GOOD STARTS THIS USUALLY PROVIDES A FOUNDATION FOR SUBSTANTIAL SCORES

ARTHUR REID SCORES 76 AGAINST ST. JOHN'S COLLEGE FOLLOWED BY 121 NOT OUT AGAINST NEW COLLEGE IN A OPENING STAND WITH DIXON (49) OF 141 ALLOWING THE SCHOOL TO DECLARE AT 229-2

AGAINST EASTBOURNE COLLEGE DIXON AND REID PUT ON 158 FOR THE FIRST WICKET (DIXON 122) - THEN A RECORD

ONLY AGAINST THE OSE (INCLUDING CRANMER, BADER, O'DWYER AND BROOKE) DO THE SCHOOL REALLY STRUGGLE AND ARE LUCKY TO END UP WITH A DRAW

TOP FOUR BATSMEN SCORE 2458 RUNS BETWEEN THEM

NEW CRICKET PAVILION 1934.

EDWARD HEWETSON

TRIPLE OXFORD CRICKET BLUE AND WARWICKSHIRE. HE COACHED THE CRICKET XI 1926 - 1936

Cricket

The Cricket XI, favoured as they have been by this wonderful summer, have enjoyed an excellent season. Out of a total of seventeen matches, they have won five, in which number are included all the inter-school matches. The hard wickets which have prevailed throughout have favoured the batsmen, who seldom failed to take advantage of their chances. Scores of well over 200 have been more the rule than the exception, for which they have mainly to thank Dixon and Reid, the opening batsmen. Four times they topped the century mark before being separated, and altogether averaged between fifty and sixty for their opening stand. Though somewhat slow in starting, they never failed to quicken their pace as the score mounted, and, taken as a whole, it cannot be said that they were a tedious pair. The soundness of Dixon's defence was an admirable foil to the more debonair methods of Reid. The School was indeed lucky to have as their following batsman one of Butterworth's type. Naturally a forcing player, he was given ample opportunity to exploit his scoring facility, so much so that the remainder of the team had, as it were, to take turns in getting a knock. Maclaurin has developed a soundness in his defence which will stand him in good stead in years to come, and Cooke and Lawson gave us several attractive and useful innings.

In a season such as this the wickets have been heart-breaking for bowlers, especially when they have toiled all day and their fieldsmen caught nothing. Such, fortunately, has not been the fate meted out to the XI. In Butterworth and Howell they have had bowlers well above the average, who have triumphed over the circumstances which have beset them. These two are mainly responsible for the wickets that have fallen. Dixon's leg-breaks were not called on quite so much as in the previous season, chiefly owing to the advent of Coulthurst, another bowler of very similar type. Bennett's off-breaks did not show their true worth until that sensational over which finished off the Bromsgrove match.

In the fielding, one thinks first of Lawson's high consistency behind the stumps. Here is a wicket-keeper who has improved steadily ever since he first put on the gloves, and he deserves no small measure of praise for the successes that our bowlers have achieved. Besides in some cases covering up the looseness of the bowling by keeping down the toll of byes, by his sureness behind the stumps he gave the bowlers that additional confidence that makes such a difference. The fielding generally was of an adequately high standard, though it did not perhaps reach the peak attained by last year's side. It is certainly true to say that there were no weak spots in the team, and among a very level lot one might perhaps single out Butterworth, Cooke, Reid and Maclaurin as the best.

Altogether the XI's cricket has reached the standard that has been maintained by previous teams, and they can claim it as a fitting climax to a successful season that their Captain has been selected to play for the Rest against the Lord's Schools.

MAJOR E. G. WYNYARD

A GREAT GAMES PLAYER

We regret to announce that Major E. G. Wynyard, the former Hampshire and England cricketer, died yesterday at his home at Knotty Green, Beaconsfield. He was aged 75.

Edward George Wynyard was born on April 1, 1861, and was the son of William Wynyard, of Hursley. He entered Charterhouse in 1874 and played in the Football XI. In 1877 he went to St. Edward's School, Oxford, but a few years later he played for the Old Carthusians when they won the Association Cup.

Wynyard joined The King's Liverpool Regiment in 1883 and served with distinction in the Burmese Expedition of 1885-87. He was twice mentioned in dispatches and was appointed D.S.O. for his conduct in that campaign; he was later awarded the medal of the Humane Society. In 1890, with the rank of captain, he joined The Welch Regiment. He was Adjutant to the Oxford University Volunteers in 1899 and Instructor in Military Engineering at Sandhurst from 1900 to 1902. He retired from the Army in 1903, but the outbreak of war in 1914 brought him back to his first regiment, The King's Liverpool Regiment, with the rank of ..

major. He was attached for duty with the Royal Army Ordnance Corps in May, 1915, and for the ensuing three years was Commandant of the Thornhill Labour Camp. He had been appointed to The Middlesex Regiment in 1916, and finally retired from the Army in 1919.

"Ted" Wynyard was one of the greatest all-round athletes of his generation. Apart from football for the Old Carthusians and the Corinthians, he played hockey for Hampshire. He was a brilliant tobogganist, winning in 1899 the International Toboggan Race at Davos. He founded his own private golfing society, the Jokers, of which he was "Chief Joker," mostly composed of cricketers of some fame. He was elected an honorary member of the Royal Wimbledon Golf Club.

But his greatest achievements were at cricket. He captained the Hampshire XI from 1897 to 1899, and was invited by Stoddart in 1898 to join the All-England XI to play against Australia, but had to decline on account of his Army duties. He captained the M.C.C. team against New Zealand in 1906, and was invited to captain the M.C.C. Australian team in 1907, but again had to decline, this time for family reasons. He went to America with the M.C.C. team in the same year. He represented the South African Cricket Association in England during 1908, and from 1920 to 1924 served on the M.C.C. Committee.

1,000 Runs in Varsity Cricket

P. A. Gibb's chance of performing a rare feat. Changes in Hockey Rules

THE great feat of scoring 1,000 runs in a season in University cricket is rare. As a matter of fact the last Cambridge man to do this was J. H. Human, the Light Blue skipper of 1934, who, in that season, had an aggregate of 1,160 runs. Now Cambridge have another player in P. A. Gibb who may complete his 1,000 runs in the Varsity season. Up to date Gibb has scored 799 runs for the University, and there is plenty of time to go yet.

More Than H. T. Bartlett
IN all first class matches Gibb has hit 872 runs, but 73 of these were for the Gentlemen of England against the Australians. Even so, his aggregate for the University, with only just half the season gone, is more than such a hitter as H. T. Bartlett made in a whole Varsity season of 1935. Bartlett headed the Cambridge averages then with a total of 700 runs. In Human's great season another Cambridge man, R. de W. K. Winlaw, almost succeeded in getting the 1,000, ending up with a total of 977.

For Yorkshire
GIBB is a wicket-keeper batsman whose fine form may one day bring him Test honours. His county is Yorkshire, but last season he was unable to command a regular place in the team. Now the Yorkshire batting is not so strong, and it seems that Gibb will obtain a place in the side without much difficulty.

P. A. GIBB

The Universities at Lord's A Drawn Match

OPENING PAIR: E. J. H. Dixon (73), M. M. Walford (34) open Oxford's first innings. Both were caught to Howson's bowling.

Above: ANTICIPATION: One of the Cambridge short legs to G. E. Howson loses in anticipation of a sweep to leg by E. J. H. Dixon, but the ball went free and is seen being in Gibb's safe gloves. Howson, however, eventually took his wicket by this same top.

NEAR SQUEAK: J. M. Lucas, who played a great innings of 94 for Oxford in their first innings "registers" pain after edging one into the slips who scramble for it. P. A. Gibb, who has been striven to take the place of the injured Ames at Manchester, by his attitude suggests that it was a chance.

CRICKET XI 1940

L-R BACK ROW C.F. DEACON, B.G. FERGUSON, M.B. RAY, M.B. ROGERSON, B.T. TATHAM, J.G. HOPKINSON

L-R SEATED D.A.B. BORGER-WOOLDRIDGE, A.G. LANGDON, M.W. HENDERSON (CAPTAIN), J.G. CRANMER, J.W. HALLIDAY

JOHN CRANMER WOULD LATER PLAY MINOR COUNTIES CRICKET FOR CHESHIRE 1948-51

THE ATTRACTIVE SCHOOL GROUND, where the match was played, will be the scene of all the St. Edward's First XI games this season, except here—Radley and Eastbourne are to be visited. The Cryptics, O.U., Marlborough, Gloucestershire College, and the B.A.C. are among the sides to be entertained.

St. Edward's Win

ST. EDWARD'S SCHOOL, Oxford, made a most encouraging start to the season by beating Seble College by six wickets, the scores being 113 and 127 for four. An outstanding all-round performance for the

ST. EDWARD'S: (Standing, l. to r.) C. F. Deacon, M. B. Ray, C. E. Folan, J. Richard, A. Powell, R. T. Tatham; (Seated) D. A. Rogerson-Woolridge, A. G. Langdon, M. W. Henderson (captain), J. G. Cranmer, J. G. Halliday.

A. G. LANGDON'S glorious innings came to an end when, after hitting two more off successive balls, he tried for another and was bowled. He had scored all but three of his 37 runs from boundaries—seven 6's and four 4's. Langdon's feat is also taking four cheap wickets is all the more creditable because the left pitch gave no help to his fast deliveries.

Their First Match

School came from A. G. Langdon, who took four wickets for 22 runs and then, in a whirlwind innings, scored 37 in twenty minutes. On this first showing it would seem that the School has a very promising side.

N. B. SAVAGE, the Eble's captain and wicket-keeper, dodges a hit by C. F. Deacon. Savage is a useful forcing bat and hit 23 out of the first 30 runs scored for the College.

M. TINDALL, wicket-keeper at St. Edward's, captained Cambridge in 1935 and has made several appearances for Middlesex. He is an Old Harrovian.

ST. EDWARD'S is famous for its Rugby products, and three of the cricket XI—(l. to r.) M. W. Henderson, the captain, A. G. Langdon, the secretary, and G. B. Palau—are also members of the First XI. The fourth member of the group is Maysie, the Rigger captain.

J. G. CRANMER, a slow left-hand bowler, is a cousin of Peter Cranmer, who was also at St. Edward's. He is regarded as a promising all-rounder.

Cricket

FIRST XI.

With a single school match won, two drawn and three lost, the season has been far from successful. The lack of a good slow bowler and erratic spells by the quicker experts prevented our attack from attaining the excellence for which we had hoped. Though the fielding improved considerably after the first month, it did not reach the high standard that should be achieved by any school side. Our real weakness was, however, in batting; collapses were the rule rather than the exception. A fatal tendency to attempt leg-glides off straight balls at the beginning of an innings was epidemic, and efforts to play what were intended to be correct strokes absorbed the energy that should have been used in scoring runs. This was evident in the number of wickets lost through half-hearted shots.

It must, however, be remembered that the side was young, and therefore should look forward to a good measure of success next year. Experience has been gained and opportunity given of learning from mistakes. Deacon captained a difficult side well; he never rattled them in the field, and set a meritorious example, unfortunately not followed, of hard and clean hitting when our turn came to bat. The wicket-keeper, too, deserves a word of praise for the improvement he made by hard practice.

SEVENTEEN PLAYERS ARE TRIED OUT
FOR THE FIRST XI - WITH LITTLE
SUCCESS

Cricket THE XI

Though this season must be reckoned more successful than last, the standard of cricket attained was not often high. Occasionally, however, against quite strong opponents, as for example, the Oxford University Authentic side, the XI played well. The fielding improved considerably as the term went on, though the same cannot be said of the batting. There was a lack of determination to score runs, and indifferent bowling was often treated with surprising respect. Loose balls were played hesitatingly, and sometimes quite gently into the hands of the neighbouring fieldsman. As last season, the side was easily frightened out, and generally run-getting was looked for with faint hope, and even a meagre score greeted as a triumph. Two really good first bowlers with two more than adequate changes assisted us in most matches to keep our opponents' total within attainable limits, had our batting been less timorous. The low scoring in the first seven matches was undoubtedly partly due to the wet and drying wickets, but the comparatively small number of boundaries hit even when the wickets became faster is a justification of the above criticism.

L-R BACK ROW I. MACDONALD, A.M. GIBB, C.C.B. NICOLL, C.H. HOSSELL, R.D. FOX, J.H.J. GREENISH

L-R SEATED D.J. MCKENZIE, J DE B. SHROSBREE, W.B. STEVENSON (CAPTAIN), D. HENDERSON, M.T.D. WOMERSLEY

MICHAEL WOMERSLEY WOULD LATER WIN A WARTIME OXFORD CRICKET BLUE IN 1944/5 AND PLAY MINOR COUNTIES CRICKET FOR OXFORDSHIRE

SCHOOL FIRST XI AVERAGE 17 YEARS OF AGE DUE TO WARTIME DEMANDS ON MANPOWER

ONLY ONE MATCH LOST OUT OF TEN PLAYED

Cricket

THE XI

The XI had a comparatively successful season, winning seven matches and losing one. The fielding of the side improved greatly as the season progressed, and rarely did the batting completely break down, as so often happened last year. Four really useful bowlers made the attack adequate, though a slow leg-breaker or a left-hander would have been an advantage. The running between the wickets improved too as time went on, but still needs that fast first run and quick turn; matches are often lost by 'lazy' runners, as may be deduced by simple calculation. In the last match the batting showed that aggressiveness and confidence which deserves success. The team was well led.

FIRST XI AVERAGES

BATTING

	Innings.	Not out.	Runs.	Highest.	Average.
W. B. Stevenson	- 10	1	265	54*	29.44

Cricket

FIRST XI

Played, 14; won, 7; lost, 2; drawn, 5.

The policy of last year's captain in filling up his side with young and promising cricketers who had the faults of their years, was amply justified this season. We won five out of six school matches, drawing the sixth. We made a good show, too, against the O.U. Authentics, two R.A.F. teams, and Canon Mortimer's XI—all of them strong sides and, for these days, very strong.

The XI was difficult to get out and on occasions batted really well, while the bowling was unusually strong, with two good opening fastish bowlers supported by some useful slows, though only one of medium pace. The weakest point was the fielding, which only rarely reached a good standard, though we were fortunate in having some good slips.

Perhaps the best batting achievement of the year was against an R.A.F. side, when, set over 200 to get in 1½ hours, we went for the runs and scored 160 odd for 7; while the bowling against the other R.A.F. side, who beat us by two wickets, reached a high level.

D. Henderson finished a very successful cricket season by playing in both the Public Schools matches at Lord's. He is the first representative we have had in the Public Schools' XI. He also played for Sussex.

COLIN HICK, MEMBER OF THE CRICKET XI 1945 & 1946.

Cricket

THE XI

In days of peace the start of a season with only three old Colours remaining would have foreshadowed a gloomy season; if to this were added the almost complete disappearance of the previous Second XI, the prospect would have seemed well-nigh hopeless. In war-time such handicaps have, however, become a commonplace, and the 1945 XI struggled manfully with the difficult task of emulating last year's side. Reckoning solely wins and losses would, however, give a wrong impression of their worth, for defeats such as those against Radley and Cheltenham might well with a little fortune have been turned into victories, and we have only ourselves to blame for losing one match where at a critical moment four catches were dropped off five successive balls.

The bowling, though lacking a slow spinner, was above the average of even peace-time sides, but the batting depended too much on one or two players, and was apt to collapse lamentably. The fielding was patchy, though not often have we been so fortunate in good slip-catching. Another season, were that only possible, might turn the team into a really good one.

**CRICKET
THE ELEVEN**

'Just as one good fielding eleven breeds another, so does one good individual fielder cause improvement in the rest of his side. Nothing promotes good fielding more than the influence of example, and the same may be said of bad fielding. . . . Any one boy with a genuine interest in Cricket, decent health, and ordinary gifts of eye and hand, can, if he likes, become a very useful fielder.' So wrote Ranjitsinhji.

Averages show deeds done with the bat and with bowling, but not the runs saved by good fielding. I wonder how many runs have been saved this season by good catching and good fielding.

The Eleven has at times looked good in the field—especially against the M.C.C. We must strive to attain the very highest standard of fielding on the square and throughout all the games.

In School matches we have, on the whole, done well. Bromsgrove and Eastbourne were defeated; Cheltenham, but for rain, we might well have beaten; the match against Radley was very equal, but we only just avoided a defeat by Stowe; Bradfield just managed to defeat us in a low scoring game.

The season has been one of great interest, mainly because the pace of the wicket varied so much. Kitchin captained the side soundly and with skill. More than once he had to bat after the opening pair had failed and thus never became sufficiently at ease 'to make mediocre bowling look tripe.' He bowled admirably at times, and when he has learnt to reduce the number of the loose ones should prove a very good bowler.

Every member of the Eleven had his day. Apart from the Captain, Hick, with the bat, and Lattey, with the ball, proved the most consistent. Everton's fielding was exemplary.

Runs were not easy to get owing to the wet wickets and to the 'austerity mown' outfield. Nevertheless, in almost every match we lost many runs by weak running between the wickets. Scarcely any batsman seemed able to judge a short run; there was that second's hesitation which turned a very possible single into a stifled groan from the Pavilion! Take cheer. Running in House matches seems to have improved.

COACHES THIS YEAR INCLUDED STUART PETHER AND ROGER NORTHCOTE-GREEN (OSE) NEWLY RETURNED FROM THE WAR

DAVID BACKHOUSE TAKES 6 WICKETS FOR 56 RUNS AGAINST M.C.C.

CRICKET

THE ELEVEN

We started this season with three colours—two bowlers and a wicket-keeper—and our main task has been to find batsmen. Runs have been difficult to get although the hard wickets should have helped us. The fact is that not once did a player make 50, and as a rule J. I. Lattey, the Captain, was faced with having to get the opponents out for a meagre total if we were to win. Our bowlers often did remarkably well, but the lack of runs in the side too often led to the over-bowling of the stock bowlers and prevented the Captain exploiting the little spin bowling at his call.

It was a pity that D. G. Backhouse took six weeks in finding his form. His bowling in the M.C.C. match, in which he took 6 for 56, must be one of the best spells of bowling seen on the ground for some years. J. I. Lattey, erratic at times, bowled his heart out on more than one occasion, and the good length bowling of J. S. Smith was of great assistance to him. C. R. H. Sweeny varied his pace well but was inclined to bowl his 'slower one' too often.

The Captain, very wisely, has endeavoured to build a side for the future, and next season we shall have five old colours who should be able to make plenty of runs.

The fielding has been sound and at times R. W. Perry kept wicket really well. The throwing-in has been consistently good.

The running between the wickets has improved, as well it might. Far too many runs were wasted early on by poor judgement as to what was and what was not a reasonable run.

Mr. Jack Guilfoyle (Oxfordshire) has given us great assistance as professional, and we look forward to seeing him fit and well next season. With his help the new score-board—the generous gift of R. E. Neale (O.S.E.)—may well advertise our ability to make more runs.

M.J. BOWER PLAYING FOR RADLEY COLLEGE SCORES 207 NOT OUT AGAINST THE SCHOOL - THE HIGHEST EVER TO DATE FOR A VISITING SIDE

FIRST MATCH AGAINST THE FREE FORESTERS

ALAN WALDRON (OSE) PLAYS COUNTY CRICKET FOR HAMPSHIRE

PROMISING NEWCOMERS TO THE TEAM ARE DAVID GILBERT-SMITH (AGED 16) AND ANDREW BROCKMAN (AGED 15) - BOTH FUTURE CAPTAINS

AS WELL AS THE COMMON ROOM COACHING, THE PROFESSIONAL HELP COMES FROM JACK GUILFOYLE

CHRISTOPHER DEACON (OSE) SCORES 55 NOT OUT FOR THE FREE FORESTERS AGAINST THE SCHOOL

CRICKET THE ELEVEN

Played 12, Won 2, Drawn 6, Lost 4.

It was our hope when the season began that School cricket, and that of the XI in particular, would reach once again a reasonably high standard. Our hope for the XI was based upon the six Old Colours and a successful Colts XI from the 1947 season. As the season progressed in the most unkind weather, this hope of ours receded and finally disappeared. The Old Colours were most disappointing, making very few runs and with their bowling sadly inaccurate, and a sense of resignation to their indifferent performances rather than of enthusiasm and determination to better them. The re-

mainder of the side included four of our younger players who should have at least two more seasons and who, having clearly shown their worth as batsmen or bowlers, also realize to the full that failure at either can, and must, be atoned for by the excellence of their fielding.

Our bowling we feared would be weak, but would, on any occasion, the batsmen give them a reasonable total with which to play? D. B. T. Lattey (Captain), J. S. Smith, D. P. Bown, P. H. Russell-Smith and T. E. S. White were all expected to make runs, but, with the exception of a good innings here and there, they have not been getting runs on this season's wet wickets. D. S. Gilbert-Smith and A. Brockman are two of the more promising younger bats who will surely make many good scores for the XI in the future, after failing to fulfil their early promise this year. P. R. Shortt has played several good innings; he is not afraid to hit the ball but will not run. The calling and running between wickets has been rather uncertain all through the side and has lost us many runs.

The bowling available for the Captain has really had little desirable variety. D. B. T. Lattey, D. P. Bown and S. P. Powell have been our new-ball bowlers, but have all too often shown little control over length and direction—the first requirements of any bowler. A second, and almost equally important rule, is to bowl the new ball at the stumps and not harmlessly past on either side. The spin side of the bowling has been built around C. R. H. Sweeny; he has a number of wickets to his credit, but is lacking in accuracy too often and consequently rather expensive. J. S. Smith can bowl well-flighted leg breaks and the 'googly,' but is sometimes reluctant to do so; while D. K. Gardiner has, as yet, had little chance to show his bowling.

In the field we have all too often looked a very ordinary side. D. S. Gilbert-Smith has kept wicket admirably, but the fielding generally has been a tale of dropped catches—too many of them—and rather uncertain ground-work. As with so many things, practice makes perfect, and we do hope that no School cricketer will ever feel too shy to include fielding in his voluntary practices.

CRICKET THE ELEVEN

Played 15, Won 4, Lost 3, Drawn 8.

In bare figures this season does not appear to have been one of more than ordinary success in School Cricket, and in the Eleven in particular, but this is not so. Have we not had the joy of such lovely cricket weather as few can recall, a Second XI undefeated, and, not least, the formation of the Wagtails Cricket Club by the Rev. Macnamara with their own private ground on Lower 1? The Wagtails Club was planned originally to provide games for those not able to win places in their House League sides — now its popularity is such that League players almost strive to become Wagtails.

The Eleven, a young side of whom nine should be here next season, have had a good season which must have resulted in more matches actually won had they been blessed with a little stronger batting and more generous use of our bowling. The number of matches won, however, is of little importance when compared with the excitement and pleasure of games such as we had with A. T. Barber's XI, Cheltenham, and Bromsgrove, to mention but three of many exciting matches this term with varying results.

The success of the side was due more to the bowling than batting. In R. Lock, H. E. Lucas, and D. C. Thorne we have a trio of most promising bowlers, one right-arm medium pace and two left-arm slow; R. Lock in particular bowling very steadily and intelligently. To complete the variety of bowling usually demanded of the complete cricket side, D. K. Gardiner bowls right-arm off spin and J. S. Smith slow leg-breaks, but neither with great success this year. We expect better of them in 1950.

The batting has depended too much on the captain, D. B. T. Lattey, and, earlier in the term, D. K. Gardiner. D. B. T. Lattey was the most successful bat, but too often appeared to get himself out and so failed to make any really high scores. The rest of the side had their moments but seldom in the same match. However, it is reassuring to have been told by several of our opponents that right down to Number 11 we do play along the line of the ball, and so surely runs must come more plentifully next year.

It is customary to finish this account by denouncing the School fielding. This year it would be most untrue to do so as the ground fielding has often been very good but the catching still rather uncertain. D. S. Gilbert-Smith has become a very sound wicket-keeper, and together with A. Brockman at cover and R. Lock in the slips has set an excellent example to School cricket.

WILLIAM TOMLINSON (CAMBRIDGE BLUE AND DERBYSHIRE PLAYER) HELPS TO COACH THE 1ST XI

CRICKET

THE ELEVEN

Played 15, Won 3, Drawn 8, Lost 4

We have again had this often unsatisfactory, and inevitably indecisive, result drawn in more than half of the matches played by the Eleven. The truth is that our opponents batted first no less than eleven times to our four and, besides lacking a really aggressive opening bowler, neither R. Lock nor D. C. Thorne settled down to bowl left arm slow as well as we had hoped. Thus we seldom got our opponents out either cheaply or sufficiently quickly to give an average batting side the chance to get enough runs at their limited rate of scoring.

J. N. MacCaig and J. D. Currey settled down as our opening bowlers and have been the most successful. J. N. MacCaig, with rather a laboured action, has been our main seam bowler, whilst J. D. Currey's medium paced left arm inswing bowling has worried the best of batsmen and got him many good wickets. They both obviously enjoy every moment of their bowling and have that great virtue of putting everything into it, but not worrying unduly if things do not go right at first. D. K. Gardiner had several good spells in the Bromsgrove game, but must learn soon the importance of length and direction in bowling.

It must be unusual for any School to have been able to play the same opening pair of batsmen in every match, but this we were lucky to do this season. M. E. Thorne has batted correctly and delightfully freely to help give the side a good start in nearly every game. P. W. H. Jackson has determination but few shots; he played his part well. A. Brockman has been the most successful in run getting; he is still an alarmingly shaky starter, but once set plays with delightful ease and style. J. S. Smith can play as well as any, R. Lock got quite a lot of runs in a way unmistakably his own and D. S. Gilbert-Smith settled down to play several invaluable fighting innings at No. 8.

The all round fielding of this side has been splendid. We play nearly all our matches at home, and this season we have had to contend with the after effects of House rugger matches which left both Upper I and II very bumpy and grassless. Despite this the ground fielding and throwing have been commendably clean and accurate, with D. S. Gilbert-Smith keeping wicket very well indeed. His leg side stumping of the Cheltenham Captain and catch to dismiss Peter Cranmer were outstanding.

Having tried to give praise where praise is due it would be wrong not to mention one or two of the side's faults. Two in particular stand out to one who has watched every match. The first to come to mind is the deplorable standard of calling and running of nearly everyone in the Eleven; it is impossible to say just how many runs were lost through this but, besides others, M. E. Thorne and J. S. Smith were both run out three times. The other observation is that captains and bowlers must know the sort of field to set and do so quickly; so often a lot of time was wasted doing this and the batsman unnecessarily interrupted by sudden last minute changes in field placing during the over.

CRICKET

THE ELEVEN

Played 15, Won 1, Drawn 8, Lost 6

This has been a disappointing season, with the side showing rather indifferent form as a whole. They played particularly poorly in some School matches and then, as if to show that this really was too bad to be true, they did very well against the M.C.C., St. Edward's Martyrs and Stowe. One often felt about the side that there was lacking the spirit of England's No. 11 batsman in a fairly recent Test Match in South Africa. 1 run to win, 1 ball to go, England's last batsman walking to to the wicket and pausing to speak to the South African Captain those memorable words, 'Cometh the hour, cometh the man,' and then scoring the run for victory. We too had our chances but did not make the best of them.

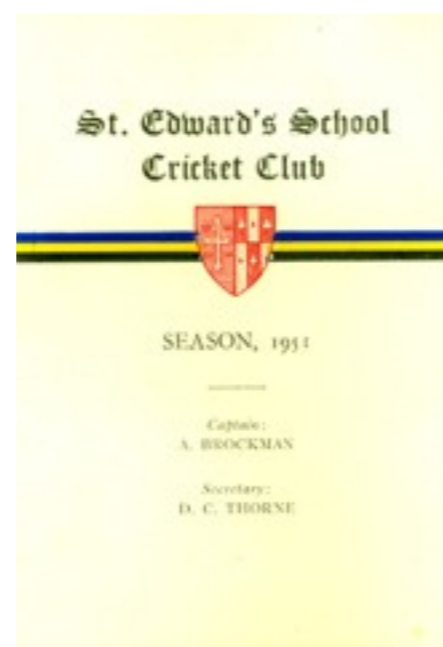

The batting has not been in the least convincing, with too much depending on D. C. and M. E. Thorne, who together scored about two thirds of all our runs. D. C. Thorne played some delightful innings, always attacking the bowling, but sometimes unduly rashly. M. E. has been our most successful bat and scored a magnificent hundred before lunch against Stowe. He excels in leg side play, but must eliminate some indifferent off-side strokes.

A. Brockman captained the side but did not have the best of luck himself this season. Fundamentally one cannot find much fault with his batting when he does get runs; perhaps a more determined approach to his innings during the first few overs would enable him to settle down and get the runs which all feel sure he is capable of doing. J. A. T. Beard supported M. E. Thorne well as an opening bat, but can be dismally slow. D. Temple and B. T. Fell improved immensely and should get many runs in the future.

The bowling prospect at the beginning of the season was not too hopeful as none of the more successful bowlers of last season remained.

J. K. Carlyon and M. E. J. Woods played the part of opening bowlers, but neither is more than a medium pace at present. J. K. Carlyon is the more likely to be able to step up his bowling speed but must decide now what sort of a swing bowler he wants to be. M. E. J. Woods started indifferently but has developed a late outswing and, above all, reasonable control of length and direction. The Thornes were in fact our most successful bowlers and, fortunately, refused to remain like twins by bowling with different arms. Variety was added by spasmodic appearances of A. Brockman and J. P. Smith.

In the field we have not always backed up the excellent wicket-keeping of J. S. Woodhouse. He had missed a season's practice in 1950 but quickly settled down and improved with every game. The ground fielding of A. Brockman, D. Temple and J. P. Smith was particularly good. There is no excuse for bad fielding by any school side; too often it is the result of momentary inattention or simply not watching the ball and I sincerely hope that all the younger School cricketers will remember that failure with the bat or ball may always be forgiven, but never slack fielding.

FIRST MATCH AGAINST OUNDLE SCHOOL

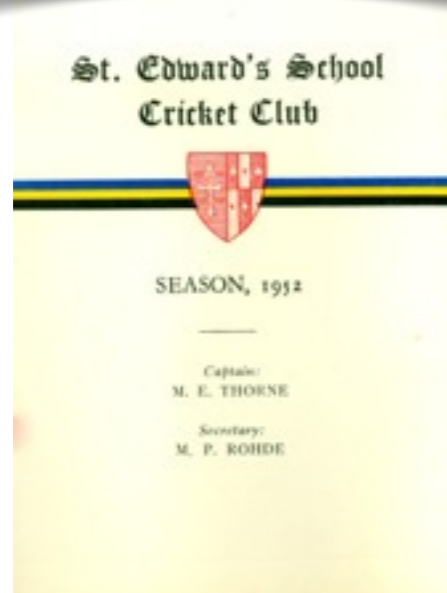

MICHAEL THORNE CAPTAINS THE SIDE IN HIS FOURTH SEASON IN THE XI

MUCH DEPENDS ON THE HARD HITTING BATTING OF JAMES BEARD WHO TOPS THE AVERAGES MAKING 459 AT AN AVERAGE OF 30

CHRISTOPHER SHAW SCORES 91 NOT OUT AGAINST RADLEY BUT STILL ENDS UP ON THE LOSING SIDE

A LONG SEASON FOR THE BOWLERS - THE CAPTAIN ONLY USES FIVE WHO BOWL 795 OVERS WITH ONLY 112 WICKETS TO SHOW FOR THEIR EFFORTS!

DEREK HENDERSON TAKES OVER AS COACH

ARTHUR TILLY MEMORIAL PAVILION OPENED IN 1952 BY DOUGLAS BADER (O.S.E.), OVERLOOKING THE LOWER CRICKET FIELDS.

DEREK HENDERSON (O.S.E. AND C/R) COACHED THE CRICKET XI 1952-61. HE HAD PLAYED FOR THE SCHOOL 1941-1944, CAPTAINING IN 1944. HE WON A CRICKET BLUE AT OXFORD IN 1950 AND ALSO APPEARED FOR SUSSEX C.C.

CRICKET

FIRST XI, 1952

Played 15, Won 3, Lost 5, Drawn 7

The XI have yet again experienced a disappointing season. After getting off to a good start with a fine win over Cheltenham College we finished on a sorry note, not winning another match after June 7th.

When the term started everything pointed to a good side being built around the six old colours. Thorne, the captain, was enjoying his fourth season in the eleven—a rare distinction—and he was lucky to have both the previous season's opening bowlers to call upon. In addition there were three batsmen, Beard, Rohde and Fell, who surely must do better than they did in 1951, and a strong contingent of ex-Colts. However, things rarely work out in practice as they do in the imagination and 1952 was to be no exception.

To take the batting. For the first half of the season everything depended upon Beard. He alone decided that the ball was there to be hit. He played splendid innings against Bradfield and the Free Foresters scoring 86 on each occasion and had useful scores in many other matches. Not unnaturally he took time off in the middle of the season, but came again to bat well against Oundle. What was wanted was another opener and some reliable batting at least as far as No. 6. This we never managed. Thanks to a tail that wagged vigorously on numerous occasions our scores were raised to respectability, but the number of times the scoreboard read 70—5 merely showed the lack of spirit in the so called batsmen of the side. Where was the Thorne who once scored 100 before lunch in a school match? He made little or no effort to conquer his failing of moving his head away from the line of the ball. Either the front foot or the head must be to or over the ball,

SING'S, WINNERS OF THE SENIOR CRICKET HOUSE TROPHY 1952

preferably both, but when neither is there you cannot expect success. With the exception of a successful slog against Eastbourne he did not have any. Perhaps 200 overs of slow off spin drained him of his concentration: something certainly happened to his technique. Fell and Rohde had their moments, the latter, with as good an innings ever seen on the square, against M.C.C. But he never did it again. Fell wound himself up in so much theory that he usually succeeded in talking himself out before he had even taken guard! The one thing that is gratifying about our batting is the excellent young material coming on. Shaw's 91 against Radley should give him the necessary confidence for many future big scores, and one hopes he will receive good support from Cole, Cranmer and Anderson.

Our bowling, though never good, was adequate, Carlyon gave of his best once and won us our first school match. He has a beautiful action, but must learn more control of length and direction. One really good ball per over does not make up for three long hops. Woods toiled away and sometimes got some one out while Hadlee improved no end as a leg spinner. It was a pity the Captain did not share the Coach's faith in leg spin bowling. Cranmer often filled up one end successfully: he bowled really well against Oundle and believe it or not bowled left arm as well as right (in both senses) against Stowe. Thorne took 34 wickets at an average of 17 in 200 odd overs. His future in cricket lies in his ability to bowl rather than bat. Never afraid to toss the ball right up he usually kept a splendid length and really turned the ball. This season he has developed what might be described as a 'leg roller' and this variation has added to his success. With more experience (and experiment) he may well become first class.

And lastly fielding. All school first elevens should field well and I doubt whether this school has ever had a side that fielded quite so well as against Bromsgrove and Oundle on the first day. It reflects credit or discredit upon the captain if the fielding is good or bad. We achieved, this season, a standard below which we should never sink. We must aim much higher yet.

Taking all in all, our failures and disappointments this term must not dampen our hopes for the future. The standard in the Colts and Juniors is coming along well and everything points to a real revival in the seasons to come.

CRICKET

FIRST XI

Played 15, Won 3, Lost 6, Drawn 6

To start this account by stating we have experienced a disappointing season is merely to repeat what has been said so often in recent years and to state the obvious. Briefly we won three matches, lost six and drew six. We failed to win a match after May 23rd and the season ended with a crushing and humiliating defeat at the hands of a very good Radley XI. Why are we bad at cricket? It is difficult to explain. Everything here is in our favour. From the Juniors up to the First XI we enjoy grounds and pitches of a standard that few other schools can boast: the nets are there in increased numbers and further than that we have the great help of Jack Guilfoyle who toils untiringly in the nets. The answer lies in the fact that we have no tradition of doing well in this great game. We give up too easily and sometimes commence a match defeated before the first ball is bowled. Captaincy plays a great part when such an attitude exists. This year Woods has tried his hardest to show the way with both bat and ball. That he failed with the latter and improved out of all recognition in the former should have encouraged the younger members of the XI to realise batting is not so impossible as they sometimes think. He often bowled well but never received any reward for his endeavours. With six Old Colours and himself to build upon, he rightly entertained high hopes for a successful season. In May things went well. We beat the Cryptics in a highly exciting finish; lost to M.C.C.; lost to Cheltenham, when to win or lose did not really matter in such a close finish, and followed this up with an extraordinary win over Eastbourne in a two-day game. Wanting seven runs to win in the last over with four wickets in hand, Eastbourne had a sensational collapse and lost the game off the last ball. Cranmer had an over of a lifetime that will surely remain a memory!

Then came June and still our record was far from bad. The Bradfield game was drawn. We fought back from 9 for 3 to 191 for 4. This was really good cricket with Shaw playing the sort of innings that he always promises to play but so seldom does, and Cole giving him great support. Our declaration was too long delayed and our bowling was inadequate to remove careful batsmen. A dull draw was the answer. The next day we held at bay a strong side brought by A. T. Barber. A very strong Free Foresters XI made runs at a great pace and lost few wickets in doing so but left us plenty of time. Only Woods, No. 9, and Herd, No. 10, had sufficient

courage to put bat to ball. Surely one had the right to expect runs from Fell, now in his third year in the team! His performance about now was very poor. He was always being 'given out', or so he said. A bad habit to criticise decisions. Use the bat and not the pads is the answer. The Authentics should have been beaten, but Gardiner and Cranmer, having batted so well, let the side down badly by both getting out to village green shots. All they had to do was to carry on the good work against steady bowling, but they chose the other course and came back to the Pavilion with a 'well we've done our bit' attitude. For once Woods failed too; improvisation sometimes is caught out. The weakest ever Martyr side won the next game.

And so we moved to the final and most important part of the season: four School matches. We lost two and drew two, the Oundle game alone showing to our advantage. Accounts of these games appear below.

With young players coming up from the Colts, it is essential for the Old Colours to show the way at first. No one expects success every time but courage and determination there must be. Woods alone showed courage and determination in adversity. The others seemed to give up after a succession of poor starts.

Of individuals Shaw is our outstanding batsman. He is good enough to be classed with the very best school-boy batsmen. But until he learns to concentrate and really get down to the task in hand I fear he will not be a prolific scorer. Cranmer, with plenty of material ability, bowled well throughout the term. He is really a stock bowler and not an opener. That he acted as the latter emphasises our lack of choice in this department. His batting can be a delight to watch with his graceful off-driving, but an astute captain quickly sees his fear of fast bowling. One step backward, march, seemed to be the order of the day then. Friend, Hope, Gardiner and Anderson (injured for most of the season) remain for next season.

The fielding was always of a high standard and here alone we more than held our own with our rivals. Hope and Herd near the wicket, and Cole at cover were outstanding, while the Captain at mid-off got in the way of some stinging drives. Let us hope that the batting and bowling will soon excel the fielding.

CRICKET XI 1954

L-R BACK ROW H.I. SUTHERLAND, B.P. BURNARD, C.E.L. BALMER, M. OLDAKER, M.H. SPENCE, Z.M. FUAD

L-R SEATED J.D.B. GARDINER, J.R. FRIEND, C.T. SHAW (CAPTAIN), S.T.W. ANDERSON, R.J. HOPE

This season we have succeeded in winning three School matches—a number not achieved in the last ten years—and this fact alone raises the level of achievement above that of recent years. However, this small success, encouraging as it is, must be seen in its right perspective. A quick glance at the score book will show that on eleven occasions the hundred has not been raised by the fall of the sixth wicket and on six of these occasions it has not come until the fall of the eighth wicket! Clearly, then, we are very weak in batting. Not once throughout the summer has anyone suggested that he could, and in a crisis would, dominate an innings. In short, we do not possess a single reliable batsman. Shaw, the captain, a batsman of undoubted promise, has been a sad disappointment in this respect and he has limited his good innings to two this year, his match-winning 72 against Stowe and a 63 against the Cryptics. The playing of one or two good innings in a season just does not begin to measure up to the requirements of a First XI batsman, especially when we have seven School matches and such strong Club games as M.C.C., Free Foresters, the Authentics and A. T. Barber's XI.

The bowling has been quite good. On the advice of no less a personage than E. W. Swanton, Spence changed from round to over the wicket for his quick left-arm deliveries. He has a good natural ability to run the ball away from the bat, and whenever Shaw placed himself in the slips the catching was always (dare I say it?) sure. (The score sheets will show that Spence did not spurn this good advice, especially when the great correspondent was at the 'receiving end'!) Balmer, the other opening bowler, has improved out of all recognition, not only in bowling but in his batting and fielding. Towards the end of term he tried to bowl too fast, became erratic and far less effective. Of the other bowlers most interest centred on Friend, a genuine leg spinner with a good

wrong 'un. But, alas! Friend is one of those bowlers who cannot be convinced that he is good. He never expects to get anyone out and consequently he seldom did until he changed his attitude (after a few harsh words) and arrived at Stowe with a determination to bowl well. His batting that day got him 'in the mood' and when at last given the ball he finished off the Stowe innings in eleven overs, taking 6 for 31. He bowled that day as he used to in the Juniors, where, as he put it himself, 'nothing mattered'. Burnard was unfortunately kept out of the side for most of the season through injury. He overcame his handicap just in time to find a place in the side. He is a real thinker, Burnard. He throws the ball well up, varies his flight and really turns his off-breaks. Oldaker is a real trier but as yet is not economical enough to be described as a stock bowler. He has taken some very useful wickets, but bowls far too many balls nearer his own toes than the batsman's. When he stops doing this he will be very useful.

Space in this issue is at a premium, so no accounts of the separate matches appear below. We deserved to lose against Cheltenham because we only made 85, and that is not a winning score. This game invariably produces a result, due to its being played so early and this partly explains the low scoring; but, in truth, our batting was awful. The Eastbourne match, won for the third successive year, was notable for a very fine innings from Gardiner. Sixth out at 155, he made 98 in two hours, twenty-five minutes and hit 12 fours. Hard wickets suit Gardiner for he plays his off side shots with his left foot placed firmly down the wicket with a consequent enormous gap between bat and pad. This is a great pity for he plays the forward defensive shot better than any School batsman has done for years. Apart from 35 against Bradfield on a turning wicket, he did not make another score worthy of mention. Our batting collapsed in the second innings, but so did Eastbourne's, and we were left winners by 105 runs.

The game against Bradfield was ruined by rain when the Bradfield score stood at 1 for 1. We were fortunate in being able to rearrange this fixture and lost it quite convincingly the second time. No one, Gardiner apart, could master the guile of Lewis, slow left arm, who bowled well on a helpful pitch. Burnard might have saved us, but he was absent and so Bradfield won easily by seven wickets. We beat Bromsgrove by eight wickets. Spence, Balmer and Oldaker shared the wickets in bowling Bromsgrove out for 74. It was as well that they did for we had no slow bowler with us. Burnard was still injured and Friend was the victim of the 'A' level examination.

Against M.C.C. we fared none too well, losing by an innings in a one-day game—quite an achievement! It was an exceptionally strong Club side, well led and, in fact, too good for us. But we gained in experience. The match against Stowe was an excellent game. Six wickets down for 90 was a poor but usual start on a lovely wicket. It rained very hard during lunch and when the game was eventually resumed the wicket was far from easy. Shaw and Friend, batting very well, remained together for a vital period of thirty to forty minutes, pushing the score along in ones and twos. Thereafter the wicket eased and Shaw unleashed a series of beautiful strokes. Friend, too, realised that there is something in this 'moving the feet business' and batted in his best vein. A score of 177 by tea time was better than one had once believed possible. Stowe were left with 2½ hours in which to get the runs, a rate of roughly 77 an hour. They went for them from the word 'go' and came very nearly to success. Shaw was guilty of overbowling his pace bowler and delaying any sort of change. When a change did come it was Oldaker rather than Friend, and

CRICKET

It is still difficult to get First XI blazers. If there are any O.S.E. who have no further use for theirs the School would be very grateful to receive them. Please send them to the Hon. Sec., St. Edward's School Society.

he allowed the former to give away 19 runs in four overs before he at last brought out his spinners. When he did this the game was promptly won. Burnard, at the other end, was allowed but two overs, despite a 'sitter' going down in the slips, Oldaker once again being preferred. It is so easy to be wise after the event, but slow bowlers have to be hit to the boundary, whereas off the quicker ones the ball tends to 'fly' there—a fact a captain might well remember when the other side is chasing after the runs.

We have only ourselves to blame for losing to Oundle by 10 wickets. At lunch time on the second day we were 20 odd runs behind, with nine wickets in hand—a good position with the advantage of third innings on a wicket inclined to 'do' things. After lunch, however, we played our worst cricket for years. Some gremlin refused to allow our batsmen to strike the ball. Sixty-three was a very dismal score. The excitement that remained was provided by the elements. It got darker, colder and more windy every minute. Undeterred, Holland and Taylor knocked off the runs. They succeeded with about two minutes to spare, for then the heavens opened and it simply poured. Oundle, quite rightly, were not denied a victory.

Our last game was with Radley. They were put in on a fast and true wicket. All their batsmen went for the bowling, and how well they succeeded. The snick high over slip's head was much in evidence. This Radley XI (they will excuse my saying so, for they have set themselves a high standard in recent years) was distinctly agricultural in method, but they all had one great asset: they swung up and down the line of the ball, and, fortune favours the brave. In reply to 238 for 7 declared we could make only 157 and that for eight wickets. Gardiner started off the right way but was then foolishly run out. Friend batted well but was then drawn miles down the wicket. Had he waited the ball might never have arrived! As it was, Wilson, almost apologetically, removed a bail as Friend passed mid-wicket on his way to the pavilion. Wickets now fell at frequent intervals until Hope bravely came in to bat. He had received a very nasty crack on the chin when fielding at short leg. Still rather groggy he came in and put a stop to our steady decline. Wisely shielding Spence, he played out time.

From these brief accounts it will be seen that our batting has been far from good. For the future there are situations vacant for those who can hit the ball. Let us hope there are some applicants for the job.

CRICKET XI 1955

L-R BACK ROW J.E. SAINSBURY, R.J.C. SPRAGUE, B.G. POWELL-HARPER, D.L. HOSIE, C.F. DOBSON, H.J.E. EMSON, E.A. APPLEBY

L-R SEATED M. OLDAKER, C.E.L. BALMER, J.R. FRIEND (CAPTAIN), J.D.B. GARDINER, M.H. SPENCE

FIRST XI

FOUNDATION OF THE CORFE CRICKET CLUB UNDER THE LEADERSHIP OF F.H. PRITCHARD, H.D. WILLIAMS AND B.H. GALE, ALL MEMBERS OF THE COMMON ROOM

THE MOST SUCCESSFUL XI FOR A DECADE LOSING ONLY 2 FIXTURES, HELPED BY THE INCLUSION OF SIX NEW YOUNG AND TALENTED PLAYERS

THE SEASON STARTS WITH THREE SUCCESSIVE WINS INCLUDING A RARE AWAY VICTORY AGAINST CHELTENHAM COLLEGE

CHARLES BALMER, A KEY FAST STRIKE BOWLER, INJURES HIMSELF DURING THE CHELTENHAM MATCH AND TAKES NO FURTHER PART IN THE SEASON

IN A HIGH SCORING SIDE, CHRIS DOBSON AND DAVID HOSIE ARE A RELIABLE OPENING PAIR SCORING 800 RUNS BETWEEN THEM FOR THE SEASON

HUGH EMSON HEADS THE BATTING AVERAGING 44 PER INNINGS

CHRIS DOBSON HAS AN OUTSTANDING SEASON BEHIND THE WICKET

'CRICKET IS ON THE UPGRADE AND THE 1955 XI IS TO BE CONGRATULATED ON THEIR GOOD PERFORMANCES. NEXT YEAR WE INTEND TO DO BETTER'. (CHRONICLE)

The XI have had a good season. They won 7 matches, drew 6 and lost 2. But for a debacle against Radley in the last match, their record would have been excellent. The strength of the XI has not lain in the particular brilliance of any one player: rather every member of the side has done something at various times and this accompanied by good captaincy, has achieved much. Last year in these notes the writer advertised situations vacant for those prepared to hit the ball: it is gratifying that there have been applicants. Indeed, two matches were won brilliantly against the clock and in one other a 50 was scored in 20 minutes. In our last match Radley showed us that we still have a lot to learn about hitting the ball hard so the advertisement must be renewed this year.

The side took time to settle down but in doing so won its matches. The first 3 games ended in victory. It was far too long, however, before the fielding reached the required standard. Practice makes perfect in this department of the game and this can, and must, be done in spare moments. It was noticeable that very few this year practised on their own. However, we did eventually field well and our catching was very good.

To take the School matches first. Against Cheltenham we had a story book finish. It was a cold windy day and on winning the toss Friend put Cheltenham in. 114 for 3 at lunch suggested that his policy might fail. However, after lunch Balmer and Spence bowled very well and we got Cheltenham out for 186. I think his effort on this day ruined Balmer's back for the term and thereafter he scarcely bowled again. This was cruel luck both for the School and himself, for he was developing into a very first class opening bowler; his batting was useful and his fielding in a class of its own. As a side we could ill afford to lose him. 170 for 4 to 186 all out shows how well these two bowled. We had 3 hours in which to get the runs, but never really got on terms with the clock. Friend played very well and patiently for his 57 and Powell-Harper kept us 'almost there' by his good innings. Then they were both out quickly. The orders now were to play for a draw and this Oldaker thought he had achieved, but to his and to many other's amazement, another over was given. It had the right effect on Oldaker. The first ball was a six over mid-wicket. (The pulled drive for numbers 1 to 4; the cow shot for the rest). The second hit firmly to the sight screen for 4. The third cut to where third man was not—4. Four to win in 3 balls and someone's nails were being chewed. But Oldaker needed one ball only. It was a repeat stroke of the first ball and it counted the same. Twenty in 4 balls was a great effort duly acknowledged by the Cheltenham crowd. Furthermore the XI decided from that moment on they would try to win their matches.

Eastbourne was ruined by rain. Hosie made a very stubborn 72 out of 137 and alone stood his ground while others failed through lack of experience when playing on wet wickets. I rate this the best innings of the term. He pushed away on the on for singles, hit 5 fours and 2 very good sixes. His concentration never relaxed. Eastbourne took 34 minutes to score their 14 runs and even had it not rained, were too far behind the clock to really place the School in danger.

Bromsgrove was the next school match. We put them in: got them out for 92 and made these runs for 6 wickets. Our batting was bad, except for Friend. Had he got out anything might have happened.

One got the impression that against Bradfield neither side would risk losing. Bradfield batted for 3 hours 40 minutes and then declared at 203 for 8. In the hour after lunch Spence and Oldaker bowled very well and kept the scoring down to under 40. The School were left 2 hours 35 minutes in which to score the runs. We finished 46 short with four wickets in hand. We never looked like winning: nor did Bradfield.

Stowe were beaten by 5 wickets. They were a rather poor batting side and were out before lunch for 119. When we batted Friend played well but the other batting was patchy. One realised when Friend was batting what a very good No. 4 he was. He so often held the innings together. His late cut and off drive brought him most of his runs. Captaincy brought the best out of him as a batsman: but not as a bowler!

The Oundle game was a magnificent struggle with the honours perhaps favouring Teddies. We won the toss and batted. Dobson and Hosie put on 42 for the opening partnership and we continued to score freely with Hosie supplying the backbone of the innings. Two and three-quarter hours at the wicket brought him 88 runs. He had batted in his usual determined fashion. This was followed by a great bit of hitting by Emson who scored 55 in 27 minutes. He has a good eye, ignores the rules but makes the runs! We were eventually out for 255. With Oundle 102 for 6 it looked as though we would have a big lead but Doubleday batted very well for 133. One feels certain that had Appleby been allowed to bowl to him overnight he would have taxed his patience too far. But the captain, like so many others, had no faith in the very slow leg spin. Appleby eventually had Doubleday, but by then the damage was done. In our second innings the order was altered and Gardiner was sent in with orders to get on or get out. He did both. This was a gem of an innings and the sort that Gardiner should always play. He is never at his best when playing for keeps. This innings and the one he played against the Free Foresters were examples of what he could do when attacking the bowling. (His off-side strokes were a joy to see and one in particular off the back foot lingers in the memory. It flashed to the boundary.) Emson again played his part well and we were able to declare at ten to three, leaving Oundle 3 hours and 10 minutes in which to score 233 to win. The last ball before tea the Oundle score stood at 33 for 2. When the ball had been bowled the score should have been 33 for 3. Had this chance been held we would have won. As it was, Lawry was dropped in the slips before he had scored. At 6.30 he was 104 not out. Cricket is a game of chance. Appleby was doing his stuff this innings. He invited the batsmen to hit him, but in doing so two were caught and one stumped. Then he had 4 fours struck off him in one over and off he came. Here again was this attitude of not daring to lose. He should have stayed on for Oundle had a long way to go. They still needed 100 in the last hour when Appleby was taken off. Had they got it, well, good luck to them. As it was the match was drawn. One's memory recalls Dobson's wicket-keeping. Bowlers usually bowl so much better when they are well supported behind the stumps. This has very much been the case this year. Against Oundle Dobson was at his best and a very good best it was too.

And so to Radley with our tails up. We played disappointing cricket and we lost easily. Every side always has one bad match and yet one cannot be too critical of a side that scores 206. We kept on getting on top of the bowling only to lose a wicket and with it any advantage.

We really did give our wickets away and this criticism must apply to Dobson despite the fact he made 82. ('I could have got back', he remarked on returning to the pavilion after being stumped, 'but I have no nails in my boots so I could not turn.') He had batted exceedingly well and is a good example to all those who languish at the tail end of the batting order of what keen practice can achieve. Never before this season has he really been considered anything other than a No. 10 or 11. It is no mean achievement to score 82 in a school match in your first season as an opening bat. The Radley opening pair put on 100 in 55 minutes and the match was as good as won. Having seen 5 of his own side fall to a slow leg-break bowler the captain did not see fit to try Appleby to see whether he could perform the same feat. He was not given an over. As this was the very mistake he had made against Oundle on the first day of that match (a mistake that did not go without criticism) it was difficult to comprehend his reasons for again not bowling Appleby.

Space does not permit reports on Club matches but it is only fair to mention that we drew against the usual

strong M.C.C. side and brilliantly won for the first time against the Free Foresters. Gardiner's batting in this latter match was at its very best.

It has been a good XI and one that Friend has brought on well with his fine example with the bat and in the field. Hosie batted in a manner he has for so long promised. His concentration was good and on the advice of an eminent cricketer he allowed himself to forgo the drive, so often his downfall. In the field he chases after the ball with terrific speed and in general he must be described as the most improved cricketer in the side. We never succeeded in finding a reliable No. 3, but with the hitting power of Gardiner, Emson and Oldaker and the sound batsmanship of Powell-Harper, this did not really matter. Oldaker bowled with unflagging zeal and not always with much luck, while Spence started well but eventually became stale and far less effective. And the memory of the long hops down the leg side should (but will not) give him sleepless nights for years! But they were a good opening pair of bowlers—as good as the School has had for many a long day. Had Balmer been there, there would have been the necessary support, but he was not and that was that. Friend was, alas, hopelessly inaccurate with his leg spinners and Appleby only came into the side late and was used sparingly.

Cricket is on the up grade and the 1955 XI are to be congratulated on their good performances. Next year we intend to do better.

CRICKET

FIRST XI

The XI won 6 matches, lost 4, and drew 5. They were certainly the strongest XI to represent the School for the last five years. Had fortune smiled on them a little more than she did they might have doubled their number of wins.

At the beginning of the season it seemed on paper that we would be able to get other sides out, but where the runs were coming from was difficult to see. After our first two matches this judgement seemed all too correct but thereafter, by dint of hard practice and an increase in concentration in our earlier batsmen, we were only let down really badly in our batting on one occasion; and on that occasion the collapse was complete!

Powell-Harper looked the most polished player and played one or two innings of great charm and grace: his innings against Oundle was really good. But in temperament he is no Yorkshireman and often he brought about his own downfall with exceedingly careless strokes. Sutherland regained his place in the side as an opening batsman but he will never really satisfy the needs of his side or himself until he decides to put bat to ball. He looks every inch a batsman of class (for timeless tests); unfortunately for him these are no longer needed! However he has, along with Dobson, often given us a good start upon which our more adventurous batsmen were able to build. Trotman, Davis, Fletcher and Sainsbury formed the middle batting and they all improved as the season progressed. As they will all be here next summer we should be an exceedingly strong batting side then. They should however remember that they have a lot to learn and big scores will not come until elementary faults in batting technique are ironed out.

The bowling has really depended upon the Captain, Sainsbury and Tyacke. Useful support has at times been forthcoming from Appleby and Emson. What we really lacked was a good off-spinner. Oldaker took more wickets than anyone else against the Schools: this is understandable as he does more with the ball than do the others. If only he would cure himself of the dreadful habit of pitching short! At least four balls an over from him were too short. This quite spoilt his chances of being a really excellent team bowler. His variation in pace brought him many good wickets. Sainsbury, who took the most number of wickets, never really looked dangerous in School matches. In some of the Club games ageing cricketers found his pace too quick. This was not the case against 'in practice' School cricketers. He has a bad action, being too front-chested at the moment of delivery, and constant attempts to improve this were frustrated by his insistence that his comfort was being upset. His great strength allows him to sling the ball down with a goodish velocity: with a good action, fully cocked before delivery, he could be devastatingly dangerous.

Tyacke shows great promise for the future. He does a little either way but as yet lacks control. This will come with more experience and no doubt he will bear the brunt of the bowling next summer. He also fails to get himself sideways on before delivery.

Appleby, Francis and Emson have supplied leg breaks of varying intensity and accuracy but have all taken useful wickets. Appleby is still too slow through the air: he can be reached on the fall. He must try to push it through a little quicker. Emson's breaks turned hugely, enough usually to beat bat, wicket, wicket-keeper and slip. He had his moment against Eastbourne.

In general our bowling has disappointed through lack of accuracy: it had great potential but this failed to materialise.

We were, however, exceedingly well served behind the stumps by Dobson. He draws the best out of bowlers when he is on form. He has had a very good season, rightly rewarded by his selection for the 'Rest' Schools against the Southern Schools at Lord's. For the past two years and on occasions two years before that—four in all—Dobson has been a tower of strength to the First XI. Unfortunately the fine example he has set, not only in wicket-keeping, but in keenness and tidiness in turn-out, has not been followed by younger members of the School. Next year our bowlers will learn to realise how lucky they have been this summer in having such an expert to back them up behind the stumps.

The individual matches do not require much comment. In School matches we beat Cheltenham and Bromsgrove. We put Cheltenham in on a good wicket and bowled them out for 187. This we achieved for the loss of 5 wickets. Trotman batted with great courage at a crucial moment. Coming in at 98 for 4 he and Sainsbury (who was totally out of touch) stayed together until the score was 175. Trotman finished off a fine display by hitting the already much hit Wichers into the Woodstock Road. It was difficult to believe then that he is only 15. Against Bromsgrove we did our best to lose to an exceedingly weak side. Only level headed batsmanship by Powell-Harper and Davis saved our faces from appalling disgrace. Bradford Grammar School set us a problem or two. Having made 305 for 6 wickets in 3 hours, 5 minutes, they immediately set a defensive field and bowled widish of the off stump. We did not find an adequate answer to this and all in the end blamed 'Father' for making the wicket too easy!

We made Eastbourne follow on. 263 to 143, and then failed to get them out a second time. Instead we watched a painfully slow exhibition from Watt, their captain, who eventually made a century. In our only innings our batting was both bright and purposeful. With instructions to get on or get out we made 263 in rather under 4 hours. In the past 5 years we have only had one result against Bradfield. This year we failed to reach a definite decision for various reasons. Firstly we won the toss and put them in on a batsman's paradise. This having misfired, Bradfield proceeded to bat too long for too many and the result was a dullish draw. Sainsbury batted exceedingly well in a defensive role after Powell-Harper had shown the best batting of the day during a stay of one hour for 45 runs. He used his feet to the great Lewis with such effect that that bowler had his worst day for quite some time. Next year we must endeavour to play attacking cricket against Bradfield. We are just as much to blame for the failure in recent years to get more results in this game.

The Oundle match was a draw. We batted first and collapsed and so did they. We were twenty or so on over night with one wicket down. On the second day, aided by many missed chances, we made 253. Powell-Harper batted extremely well for 80. His off-driving was tech-

nically correct and practically remunerative to a degree. This was his best innings of the season and a very fine 'best' it was, too. Our bowlers could not give us the victory. Oldaker relied too much on Sainsbury. He should have bowled more himself and kept Francis and Emson and Trotman (before he was hurt) on at the other end. We might have won then.

We chose Stowe for our debacle of the season. Without wishing to detract from the excellence of Stowe's performance ours was deplorable. We dropped eight catches before lunch: we bowled long hop after long hop; the Captain never once set a defensive field—the whole thing was awful! And when our turn came to bat (after a most generous declaration) we did everything that we knew we should not. We hit 'across it'; we played back when we should have played forward; we lifted our heads; we left our courage in the pavilion. Needless to add we recorded our biggest beating of the season. Unfortunately we could not atone for our sins by beating Radley as the rains came on that day.

Of the Club games I should like to mention the M.C.C. game. We won the toss and batted and almost immediately were in trouble. 0 for 1, 2 for 1, 3 for 17, did not give rise to much hope. However both Sainsbury and Davis batted extremely well. This was the type of cricket that we have lacked in recent years. Two batsmen saying to themselves 'I am not going to get out'. It was courageous cricket. Sainsbury was unfortunately adjudged l.b.w., but Davis went on to make a first-class 71 and thereby ensure an exciting finish. The M.C.C. were fortunate to have the promising S. Pether to come in at No. 11 and make the 12 runs necessary for victory. This was a good game and the School acquitted themselves well. Apart from F. F. Fisher's XI the other Club matches were disappointing. Weak opposition were unable to keep their wickets intact against Sainsbury and were beaten quite easily.

To sum up. This was a good XI, keen and difficult to beat. Their fielding was good, a fine example being set by the Captain and Powell-Harper. We are steadily building up and after two good seasons we look forward to even more success next year.

CRICKET XI 1957

L-R BACK ROW D.G. DAVIES, J.D. DAVIS, C.H. SHIRLEY, J.D.C. HANCOCK, E.A. APPLEBY, J.H. FLETCHER

L-R SEATED J.N. TYAKE, M.A. TROTMAN, H. DALE (CAPTAIN), T.W. BRETT, A.R.N. APPLEBY

CRICKET

FIRST XI, 1957

Played 16, won 4, drawn 8, lost 4.

Looking back upon the season, long after the last appalling decision given in a Second League House match has been forgotten, one is forced to believe that the season has been disappointing. If we ponder over our results it will be found that of the four matches won, two were against weak sides, Bromsgrove and R. M. Stowe's XI, that against Eastbourne was won in the nick of time by really superb fighting cricket after earlier foolishness had all but thrown the game away; and the other was an exciting win in an afternoon game against Trinity College. We must face facts over this: our record is really rather bad. With half our matches drawn the obvious and correct conclusion to deduce is that we had no penetrating bowling to give us the victory and with four matches lost, two against schools, again to state the obvious, we had no dependable batting. All this gives a rather bleak impression of what appears to have been a bad XI. But in fact that is far from the case. Looking at it from a more cheerful point of view. We lost to the Cryptics early on—in fact our first match—and anything can happen then. The Authentics were too good for us and

there is no disgrace in that. Stowe swamped us and somehow one knew we were having our worst day; and we all but beat a strong Radley XI in an exciting finish; we lost by 2 wickets. A few 'ifs' and 'buts' and the season was a success!

What success we did achieve and which ever way you look at it, all praise for it must go to a very outstanding schoolboy captain—H. Dale. He had no First XI experience behind him, for he was appointed from the Second XI, and he would be the first to admit that his batting capabilities were no more than average. But for sheer guts when he went to the wicket and for really magnificent fielding we have not had the like of him for many a long day. It was a great effort on his part and he deserves the congratulations and backing that his XI gave him.

Before a general account of the matches is given it might be useful to comment upon one or two aspects of our play. Dale was quite outstanding in the field. It is not often that catches are taken at mid-off when the fielder has to take off and catch the ball when still in the horizontal position. Dale brought off two such as this and his example was infectious for Trotman, too, held one catch that bordered on the miraculous. These were great happenings in a side whose fielding was above average. They were all triers and, as a result, they improved. One could mention nearly every member of the team in this connection and one does mention J. D. Davis in particular for he does not find fielding easy at the best of times, but by the end of the season he was as good as anyone. Good fielding and a general atmosphere of alertness in a side is a sure sign of a good team spirit. We had that this year, thanks to Dale. In bowling we expected Tyacke to be the most successful and E. A. Appleby to be the most effective against the schools. Our expectation in both cases did not materialise. Tyacke was far too inaccurate and bowled down the leg side too often. He is too square chested at the time of delivery and does not make full use of body swing. If only he would practice these things he might become a very first class bowler. Appleby's leg-spin bowling developed into non-leg-spin 'tosh' and he regained his place in the XI more as a very good number 9 batsman who was often called upon to save difficult situations. He matched his Captain in application.

Davis and Trotman, slow left arm and off-spin both bowled well and next season they should do well. Shirley was the surprise choice. He only came into the side as a substitute against Bromsgrove and proceeded to take eight wickets before lunch. He would not be kept out after that! And lastly batting. We had our first century since 1950 made by Brett, and we have a most promising performer in Trotman. He alone of the batsmen might be described as a class player. Next year will prove whether this opinion is correct. The writer has no doubts about the matter! Brett made runs well and quickly in the first half of the season: his concentration then left him and probably accompanied him to the classroom instead. In the last five matches he was very disappointing and consequently the innings never got off to a good start. Trotman's performance was steady. So often when a Colt gains a place in the XI he seems to fail in his second year. Fortunately this did not happen to Trotman who at times played really well—especially against Cheltenham and Oundle. In each case his innings were in a defensive role. J. D. Davis took a long time to warm up but when he did, at Gaudy, he hit the ball superbly hard and always scored his runs quickly. It was a pity he got out against Bradfield when going really well. Had he stayed we might have won that game. Fletcher got going once or twice but apart from that he filled himself with ridiculous theory and failed accordingly.

Cheltenham was our first school match and we started the day badly by losing the toss—it was a good one to win as it had rained hard in the morning and the pitch was always likely to get worse as the day wore on. This in fact happened. We could not bowl them out on the soft wicket and when the declaration came so did the sun. Brett, fresh from his triumphant century against Oriel, gave us a good start but once he went—caught off a long hop—we were soon in trouble. When the score stood at 80 for 6 Trotman was joined by Davies and together they stayed for a vital hour. The ball was turning a lot but both were equal to the occasion. Trotman was out with five minutes to go but by then the game was safe.

Eastbourne we beat in the last over. That the game was exciting was due to our deplorable second innings, and Eastbourne's failure to exploit to the full their favourable situation on the first evening. We were all out for 222, of which Brett made 60. As the score-sheet will show five others made scores of over 20 and all managed to get themselves out when well set. With forty minutes left for play Eastbourne were 180 odd for 3 and in those forty minutes they added only another 29 runs and lost 4 wickets. That really lost them the game. They declared over-night and quickly had us in trouble. We were bundled out for 115, leaving Eastbourne 125 to win with 2 hours and 20 minutes remaining for play. In that time we played our best cricket of the summer. The fielding was first-class; the bowling hostile and over all Dale captained the side excellently. Eastbourne were all out on the fourth ball of the last over for 93. A. R. N. Appleby took 5 for 19—an excellent performance—and Tyacke 3 for 57. Between them they bowled 41 overs of the 49 overs that the innings lasted. Eastbourne have only themselves to blame for losing this match but our performance in the field during their second innings was very good.

Bromsgrove were rather weak and could do nothing with Shirley. His considerable in-swinging had all their batsmen pushing out only to be caught in the leg trap. He finished with 8 for 50. We tried to have them out again, having made 235 in reply to Bromsgrove's 89, but their batting was much more determined in the second innings.

We played our customary drawn game with Bradfield. They asked us to make in 2½ hours what had taken them 3½ hours and against good bowling we could not do it. You need a good start in order to make runs against the clock and this we did not get. It was left to Dale and after him Appleby to defend for all they were worth. We finished 60 short of our target with two wickets standing. Bradford scored their runs in 79 overs and bowled 59 to us: a big difference.

We also drew our two day game with Oundle. In this match neither side ever got on top of the bowling and consequently on the second day we struggled for survival and Oundle made no attempt to score 140 in 85 minutes. We batted first and got off to quite a good start, 184 all out was rather disappointing, having been 80 for 2 earlier in the day. Oundle were about 30 short of our total overnight and they were not able to resume their innings until after one o'clock because of rain. Presumably their policy should have been to build a big lead and then hope to bowl us out cheaply thereby leaving themselves a small target in the last innings. In fact they only got ahead by 28 runs. Trotman saved us from disaster in the second innings: this was by far his best innings and he hit 7 fours in our innings lasting 2½ hours. We got two quick wickets in the Oundle innings and rather later a third. And that was that! A draw was a fair answer.

We failed badly against Stowe, losing by 76 runs. On a good wicket we got them out for 179 and had 3 hours in which to make the runs. We never looked like achiev-

ing this, our batting being very disappointing. And so to our last match, against Radley. We lost by 2 wickets, but only after a very good struggle. Yet again the batting proved totally inadequate against steady bowling. The only one who really seemed comfortable was Havell, playing in only his second game for the XI. His was an encouraging performance and he should do well next year. Brett, Hancock, Davis and Davies were all going well only to lose patience and their wickets. Brett, in particular, should curse himself for years to come for the manner in which he got himself out. Such strokes as his last one are seldom seen in Second League Cricket. In the field our cricket was seen to better advantage. The fielding was good and rare excitement was reached when the Radley seventh and eighth wickets fell with the score at 156. However Wigley, no. 10 for Radley, was then presented with 4 runs by an unnecessary overthrow and that seemed to clinch matters. It was a good game and had just one batsman played a responsible innings we would have won this match.

So there it is: the results are disappointing but the outlook is quite good. No praise can be too high for the way Dale led the side and without him we might well have been in a mess. With luck he may be here next year when, assuredly, he will lead a successful side.

THE DEFEAT BY RADLEY COLLEGE MEANS THAT THE SCHOOL HAVE ONLY BEATEN THEM TWICE IN NINETEEN MATCHES

CRICKET THE ELEVEN

Played 16, won 2, lost 7, drawn 7.

The First XI have not done well this season: they defeated the Common Room and R. M. Stowe's XI at Gaudy, but these games apart they never really looked like winning a match, nor for that matter did their cricket deserve greater success. We came close to defeating Eastbourne, but Eastbourne came close to defeating us. Yet, despite everything, a young side has gained in experience and our hopes are high for the future.

It was always likely that this year would see a slump in our cricket: now that events have justified our darker thoughts we are disappointed. If we were to win matches it was essential that we bowl out the opposition for a score never in excess of 150; then with our limited batting resources, that should not prove too great a target. In any event the batting would revolve around Trotman; so long as he was there one felt all would be well. Statistics show, however, that in fifteen innings he was dismissed for under 20 on no less than eleven occasions. No unkindness is meant by drawing attention to his comparative failure (not many of us can boast a 76 and a 98 in School matches) but his failure meant the XI's failure and therein lay our real weakness. Trotman is a fine cricketer whose best days lie ahead of him, and that is bad news for our opponents in 1959! Let me say at once that he has captained the side in a difficult year very well and along with Tyacke, the Vice-Captain, he shares the credit for the XI maintaining their cheerfulness in adversity and their keenness throughout the season.

Howell, Maclachlan and Shenfield are all batsmen of promise, but at present they do not realise their potential or responsibility. So often they were in only to lose their wicket in a moment of rashness consequent upon a pause in their concentration. None of them know what it is to play an innings. There is not enough of the 'over my dead body' approach; too often do they expect to get out and are rather surprised when they see the scoreboard registering 25 against their name. The surprise usually proves fatal. Three times only did Maclachlan get beyond 20 and on those occasions he played as though he had been born with a bat in his hand. He was courageous and skilful and his cricket gave delight by its power and individuality. Alas! nine of his other innings did not total 100 runs, and this from our number 4 batsman! These observations do not concern just the above three names, they concern the batsmen of the School. Where are the batsmen in this School? Where is the success that breeds the all important confidence? It will come, it must come, but only through the efforts of the players. Coaching can only help.

We have had a useful bowling side. Tyacke has bowled well without even realising his promise of two years ago and White and Davies, left-hand, have been very steady. Best, 14 years old, turns his leg breaks a shade too much; at present he aims at the off stump and the turn beats the bat completely. He must endeavour to alter his point of attack to the leg stump. His promise is exceptional; it was a pity that so many low scores meant he was too often used sparingly and sometimes not at all. His flight at present lacks guide but this is more than offset by his keeping an immaculate length.

The fielding improved steadily and at times was of a high standard. We never found a slip fielder of any class

and innumerable catches were not accepted. This was a pity as the bowlers needed all the breaks coming their way.

The story of our Club matches is soon told. We failed against M.C.C. by 4 wickets. To our credit the Club had to fight for their 99 runs, with White and Trotman bowling very well. All who watched the Free Foresters were rewarded by an innings of great power by F. R. Brown. It was the best piece of batting seen here all summer. How well he hits the loose ball! We struggled valiantly when it was our turn to bat and saved the game. The fielding in this game was excellent, Bond and White both catching very hard chances. Against the Cryptics, Warden's XI and Authentics we just could not make the required number of runs, although in the latter game a patient innings by Maclachlan saved our record a little: a 'D' instead of an 'L'!

In our first School match against Cheltenham, we batted first and at 2.20 our score stood at 116 for 4 wickets. Twenty minutes later we were all out for 126. Davies, in a typically chancy innings, saved us from desperate failure. Davies throughout the season scored his runs by attempting chops through the slips. Frequently he gave the opposition catching practice; somehow they would not accept his generosity. Suffice it to say he gave more chances yet made more runs than anyone else in the XI!

Cheltenham won, thanks to a good attacking innings by their Captain, Brain. Had we got him out early we would definitely have won. And what effect might this have had upon the remainder of the season? Best's first over in First XI cricket is worthy of mention. He dropped a catch and bowl first ball, then had a catch taken at the wicket with the next. The third failed to convince the umpire that a fate similar to his predecessor had befallen the new batsman; the fourth ball saw a catch dropped on the square leg boundary and counted four runs and the last saw Maclachlan take the catch of the season in the covers. Interesting! Best promises so much. He must not be disappointed if his leg breaks desert him in the years that lie ahead: they so often do, for his promise as a batsman matches the excellence of his achievement as a slow leg break bowler.

Eastbourne failed to beat us when the game was theirs for the asking. In an undistinguished match between two weak batting sides the bowling was always on top. In Eastbourne's second innings Tyacke bowled beautifully. There are so many 'ifs' and 'buts' in cricket: spare the writer just one (more!). If Tyacke had bowled like this . . . never mind, curse the thought!

Bromsgrove beat us and many a moan went up. That they were a better side mattered little. This was a School match played to Headmasters' rules: a late start and a late finish, a half-day game with the hours of play, from a duration point of view, as little altered as possible. Five hours ten minutes as compared with six and a half hours. The game turned dramatically when Trotman was out to a superlative catch under the trees by the subway. A six all the way until a left hand shot up and plucked the ball from the air. Trotman had hit five boundaries in his score of 21. It was bad luck on Trotman, it won the game for Bromsgrove. We disintegrated after this, making a futile effort to score runs quickly. We failed but we learnt a lesson.

Having put Bradfield in to bat we dropped four catches behind the wicket in the first twenty minutes; they then amassed a sizeable score. It was a joy to see Bradfield

and a quarter hours remained. We had to play for a draw. On a slow wicket and slow outfield Trotman came into his own. Reid, Stevens and Davison had hit our bowling hard and often. Trotman did likewise. He batted seven minutes under two hours and apart from a difficult catch at the wicket—the ball kept very low—he never gave a chance. He would do well to remember this innings and better to imitate it, often. In the last over of the day he drove Eacersall to the off boundary as though to say 'no one can get me out'. It was a great stroke.

And so to Oundle, Stowe and Radley. The first abandoned after fifty minutes play on the first day, the second drawn and the last resulting in a crushing defeat.

We played safe against Stowe who really were rather good. In doing so we scored more runs than any other school side did against Stowe this year. That we did this was due to Trotman and Stowe's bad fielding. He made 98: they dropped him four times. It is difficult to be critical of someone who makes 98, but it was not a good innings, it was too lucky. Stowe, despite the length of our innings had time to win but Best bowled extremely well and had them in some trouble. In the end a draw was all that was possible.

Our playing record against Radley is as bad as it could be. In nineteen engagements we have won two. This year play could not begin until just after 2.15 owing to rain. We won the toss and compiled a miserable 103, Davies alone, as he has done so often this season, standing between disgrace and mere collapse. Miracles can happen and had it not been for some very bad wicket keeping one might have occurred. Radley could have been 40 for 5 had two easy stumpings been achieved. They were missed and that was that. Radley won by 6 wickets.

Not since 1946 have we done as badly as this. Whether this season has achieved anything will be seen next year. But we will fail again then unless our senior cricketers remember and realise their potential and responsibility. Time will tell.

CRICKET XI 1959

L-R BACK ROW D.I.R. DAVIES, N.R. PHELPS, J.F. BAILEY, C.F. SCHNADHORST, S.D. RUTHERFORD, J.E. BISHOP, J.L. WALLACE

L-R SEATED R.W.O. HOWELL, R.L. WHITE, D.G. DAVIES (CAPTAIN), A. MACHLACHLAN, R.L. BEST

CRICKET

THE ELEVEN

Played 16, won 7, drawn 4, lost 5.

The Eleven played very good cricket up to Gaudy; thereafter they disintegrated into a poor side, losing four matches on the trot and thus spoiling what might have been an excellent record. The one redeeming feature of the latter half of the season was the bowling of Best, a truly remarkable young cricketer.

This year conditions for batting have been near to perfect throughout the term. And to our credit we made good use of them early on. Davies, the Captain, ugly but determined; Howell, a sound left-handed opening bat; Maclachlan, at least, fulfilling earlier run promise, were all in the runs. And the habit was infectious. Schnadhorst, tall and angular, batted with discretion and gained in experience, while Bailey struck a rich vein and was an invaluable, hard hitting No. 5 bat. We fielded quite well, and we bowled the opposition out. And so we started to win matches and really looked like an efficient XI, ably controlled by an astute captain. At Gaudy we had suffered but one defeat and that a technical one. One hoped now that success would breed more success, but alas! it had the reverse effect. Our caps would no longer fit upon our heads; we contravened basic principles of batsmanship; we dropped twenty-four possible catches in four matches; we lost all our remaining school matches, including being tumbled out before lunch for 71 against Stowe—on a glorious Saturday the game was finished at ten past three—and we possessed absolutely no one who would show some determination in adversity. It was really spineless. It is worth mentioning that it was thanks to a newly promoted Colt that we

saved the follow-on against Oundle; it was thanks to the same Colt that we reached three figures against Radley; and it was due to Best, a fifteen year old, that the defeats we suffered by these two schools were not humiliating. Best is a leg break bowler, a genuine wrist spinner, who took 51 wickets in this lovely summer, which is, as far as our records show, the highest number anyone in the XI has achieved this century. Unlike so many others he practices hard and strives for greater success.

In Club matches the highlight of the season was the defeat of the M.C.C. This is the first time that we have achieved this distinction. Maclachlan batted quite beautifully for his 82 and was undefeated at the end. The M.C.C. declared at 221 for 5, leaving the School just under three hours to get the runs. Davies and Howell got us off to a good start putting on 88 for the first wicket. Davies was batting very well until he hit across a short one and was l.b.w. Howell was taking time to settle down. After Davies' departure Maclachlan proceeded to attack the bowling and with a really great innings, saw us safely home with 15 minutes to spare. With his capabilities and bearing in mind the hard wickets, he should have done so much more this season. He made well over half his total number of runs in the matches that were not against other schools. He was far and away the best fielder and had his moments as an opening bowler. It is all there except the temperament and in this he is not alone! We beat the Cryptics and the Warden's XI quite comfortably, rather scraped home against the Martyrs and later lost to the Free Foresters.

In the school games we beat Cheltenham and Bromsgrove; all but beat Eastbourne and then, without much difficulty, lost to Stowe, Radley and Oundle. We also lost to Bradfield in an excellent game of cricket and as it was our best school match for a long time it will be dealt with first.

We won the toss and batted, and at twenty to three our first wicket fell. Davies and Howell put on 181 against some rather indifferent bowling. Davies batted well but should have been caught when he was in the thirties—a costly mistake for Bradfield. Howell was not batting well and although we had 130 on the board by lunch it should have been more. The running between the wickets was not good. It seems a bit hard to criticise an opening partnership like this, but nevertheless it must be recorded that we missed at least 30 runs before lunch by indifferent running between the wickets. By comparison, in this department, Bradfield were brilliant and they would have had 50 more in the time! Davies went to his century and with the others hitting out and getting out, we declared for 241 for 3 wickets at 17 minutes past 3 o'clock. It was a generous declaration and gave Bradfield five minutes under 3 hours in which to get the runs. They did this with five minutes to spare, thanks to some excellent batting, some really wonderful running, some dropped catches (two off two successive balls—horror!) and some annoying drizzle which greased the ball and reduced Best's spinning ability virtually to nothing. It was strange that the Captain failed to ask for sawdust. It was a pulsating game to watch and one in which as much credit went to the losers as to the winners. A statistical point of interest was that Bradfield bowled 57 overs in our innings and in fifteen minutes less time we bowled 59 overs in their innings. The frequent and sometimes prolonged field placings were the only bit of adverse criticism that must be levelled at the Bradfield Captain. I wonder, had we been set a

similar challenge, whether we would have achieved the target? At this stage of the season undoubtedly we would have tried; three weeks later it would have been absurd to suggest it. Such was our cataclysmic decline. One must say more about this game: if more school captains (and coaches!) would throw open a challenge as Davies did to Bradfield, and more school sides would accept as Bradfield did and perhaps be beaten because of it, then results would be in their proper place—second to the game. This was a memorable school match.

We had ten minutes to get the last pair out on the second day against Eastbourne. Best was too good for Eastbourne until then, but in the closing overs Maclachlan's long hops, full tosses, beamers and bouncers would probably have done the trick! We outplayed Eastbourne completely and the batting of Davies 89 and Maclachlan 49 in our first innings and Bailey 57 in our second innings was very good. Just about this time Davies was enjoying a 'purple patch'. We fielded very well in this match and memory recalls a beautifully taken catch at backward short leg by Maclachlan off Bishop. Throughout the season Maclachlan rarely made a mistake in his fielding. We needed him everywhere. Howell, too, deserves special mention for the way he turned himself into a very reliable slip-fielder and Schnadhorst caught them there too. In this respect the combination of Best, Bailey and the slip fielders was a source of strength to the XI.

PUBLIC SCHOOLS CRICKET

ST. EDWARD'S v. RADLEY

St. Edward's, playing at home, take the field at the start of the match

Our results are, yet again, disappointing. Had we possessed but one reliable batsman we might be congratulating ourselves on an excellent season. It is frustrating to think that only one side scored 200 runs against us this year and we only won three matches.

Against the Schools we beat Cheltenham and Eastbourne, lost to Bromsgrove, Oundle and Stowe and drew with Radley and Bradfield. In the Club games we beat the Cryptics, drew with M.C.C. and the Warden's XI and lost to the Free Foresters, the Authentics, R. M. Stow's XI and the Martyrs.

The XI depended upon three very good cricketers. Bailey, Captain, wicket-keeper and our best batsman; Best, who took 66 wickets with his leg spinners; and Bishop, left arm opening bowler who took over 40 wickets. Without these three, we would have had difficulty in beating the 1st VIII, strengthened by Messrs. Hill, Arundel and Vernon. On occasions Schnadhorst and Phelps batted as they should, especially the former who made a good 50 against Cheltenham and 72 against Bromsgrove. But as the season wore on Phelps lost all confidence and in all scored only 105 runs in seven School matches. We needed him to succeed if Bailey was to receive any support. Alas! he had a bad season and only the excellence of his fielding kept him in the side. Schnadhorst started well but could not keep it up: despite his failure with the bat he, too, was good in the field. Against Eastbourne and Bradfield he caught two superlative slip catches.

Cheltenham could not cope with Best who took 7 for 46. We had to make 135 and did this for the loss of three wickets. This was a good start and was shortly followed by a narrow win over Eastbourne. This was a game between two bad batting sides and we were lucky to win. Eastbourne had the game in their pocket but somehow contrived to be perfect guests and not offend their hosts.

We beat Eastbourne on May 28th. It was the last success we had.

Bradfield have only themselves and Bailey to blame for not defeating us with something to spare. They batted too long and in the end had to be content with a draw. A score of 5 runs for 3 wickets after only seven balls when we needed 212 to win, necessitated our playing for a draw and thanks to a splendid innings from Bailey we achieved this.

Bromsgrove beat us by 28 runs. Bishop bowled exceptionally well in taking 7 for 48. We had just over three hours in which to get 186 and apart from Schnadhorst no one stayed for long. Our batting was characterless and lacked courage: we did not deserve to win.

We went to Oundle determined upon success but after one hour's play our score stood at 22 for 6 and that really was that! Best bowled us back into the match by taking 7 for 48 and we were only 22 behind on first innings. To think (weeks later) about the batting in our second innings makes one hot under the collar—it is better to forget it! We won the toss against Stowe and put them in to bat. This seemed good tactics when they were all out for 129, Best taking 6 for 64 and Bishop 4 for 50. However, 129 by this time was a big score for us and so it proved when our total was only 78. And against Radley we drew. This game was fully reported in the 'Field'.

Best was selected for the Southern Schools at Lords and was further chosen for the Public Schools XI

versus the Combined Services. In both games he did well. This School has never produced a finer bowler.

Bailey has been cheerful in adversity. He has set an outstanding example and, entirely due to him, the XI have been a cheerful one. They have tried hard in every match.

And, Bishop, along with Best has bowled and bowled and bowled!

We always hope for better things. Next year Best and Bishop remain but there will be no Bailey. It is almost impossible to think of the first two bowling without the third to catch and stump.

Best, we hope, will lead a stronger XI than has been Bailey's lot and we have in Wood a young cricketer who in performance may well revive memories of Cranmer, Dixon, Read and Deacon. Time will tell.

L-R SEATED P.C.H. WOOD, J.E. BISHOP, R.L. BEST (CAPTAIN), N.R. PHELPS, G.D. HUDSON

CRICKET THE ELEVEN

Played 17, won 4, lost 8, drawn 5

The Eleven have had a season of mixed fortunes. In school matches we beat Stowe, Cheltenham and Radley; we lost to Bradfield, Bromsgrove and Oundle. The game with Eastbourne was left drawn. Against the clubs our only win was against M.C.C.

At the start of the season it was reasonable to suppose that Best and Bishop would bowl most of our opponents out—as they had in the previous season. Runs were going to be our problem. However, here there was good reason to hope that Phelps and Wood would fulfil earlier promise and that they would get useful support from the less experienced players.

We started the season by just saving the game against the Common Room and then losing easily to the Cryptics. On each occasion the batting broke down. However against Oriel College we did well, scoring 170 for 4 wickets. Hudson batted extremely well for his 80 not out. This performance

gave the side confidence for the first school match against Cheltenham.

Cheltenham won the toss and chose to bat. They were soon in trouble to Bishop and Kane and after an hour's play their score stood at 16 for 6. They never recovered from this bad start and despite some cheerful hitting by Coley who made 42 (he was missed by the wicket-keeper second ball) they were all out for 82 just before lunch. Bishop bowled extremely well. Kane gave him excellent support with the new ball and Best also bowled well. When the School batted Stanley was soon out but then Hyslop and Hudson saw us through to a nine-wicket victory.

The Warden's Eleven, an afternoon game, gave us useful practice. Hudson again batted well, but we were unable to make a sufficient number of runs quickly enough seriously to extend a formidable batting side. Then came the Authentics and against a really strong side we did extremely well. In reply to 243 for 7 we made 220 for 6. The Authentics had two bowlers from the University side, Potter, an opening bowler, and Piachaud, an off-spinner. Hyslop, Stanley, Wood and Best all made good scores. It really did seem at this stage of the season that the batting, after all, would prove adequate to the task.

Bradfield was our next school match. We were all out for 159 having batted for just over three hours. Against steady bowling only Wood played with any real confidence. It was an extremely disappointing performance after the Authentics match. It was difficult to understand, when Bradfield batted, why Best used only three bowlers. Kane was allowed only four overs before the Captain put himself on. He and Bishop bowled for the most of the Bradfield innings. Runs came steadily and Bradfield won by six wickets with 20 minutes to spare. Murphy batted very well for 74 not out. Bishop bowled with unflagging zest for nearly 2½ hours!

We beat the M.C.C. In this game Stanley made a century. His concentration and application are far in excess of his natural ability as a batsman. It was an extremely fine performance on his part to keep going for so long. When the M.C.C. batted, Best rang the changes with his bowlers and they all took wickets. The fielding was quite magnificent and Stanley completed a great day with two superlative slip catches.

The Gaudy matches followed, neither of which we won and then came our first real debacle against Bromsgrove. Bromsgrove made 159, Bishop taking 5 for 35. St. Edward's made 92, Black, their opening bowler, taking 5 for 24 in 21 overs. Our batting was very, very bad. Butterworth going

in at No. 9, showed that the bowling was very ordinary. He was in no trouble at all and his innings lessened the severity of our defeat. This was a really depressing game from our point of view, and the cricket we played was listless throughout. One's fears at the beginning of the season over our batting were fully realised. And now we proceeded to collapse in our next three innings. Firstly against the Free Foresters and this was followed by two failures against Oundle.

On a lovely day we were fortunate to win the toss against Oundle. But this advantage was soon thrown away and we were all out for 103. No one batted with any degree of authority. Oundle gained a first-innings lead of 112. Bishop, now in top gear, took 6 for 41. Apart from Stanley who made 66, and, to a lesser degree, Hudson, we failed again in our second innings and Oundle were left with only 41 to make.

In our last three school matches the Eleven played very much better cricket. We beat Stowe by 7 wickets, having bowled them out before lunch for 78. Bishop was bowling quite beautifully and took 8 for 33. He is a fine bowler who gives nothing away.

We beat Radley for the first time since 1949. Having been put in to bat we recovered from 63 for 6 to 229 all out. This was due to a very fine innings from MacWhannell. He batted for 2½ hours hitting eleven fours and a six. He received excellent support, firstly from Best, followed by Butterworth and Bishop. He was last out having a 'go' caught in the covers five runs short of his century. In the forty minutes before tea Radley lost two wickets for 29. After tea Best wisely opened up the game by putting the spinners on. Four more wickets fell quickly. Despite a seventh-wicket stand which doubled the score, we were not to be denied, and we won by 119 runs with nearly an hour to spare.

The last game was against Eastbourne. Again we were put in and our innings got off to a remarkable start when Phelps, chancing his arm, made 50 fortuitous runs. He gave six chances, none of them very difficult. 107 for 3 went to 107 for 5. Crisis! But Ball and Drake batted sensibly and we were eventually all out for 220. Eastbourne, in the person of Thwaites made 41 in the first 30 minutes of their innings. He was then out. From four o'clock until 'stumps' they tried to save the game and in this they were successful. It is a long way to go to play in this sort of match and one hopes that Eastbourne will exert themselves rather more in the future. The result must not matter so much as to preclude the opportunity for boys to enjoy playing this great game.

Our recovery at the end of the season was due in the main to two things. The continued good bowling from Bishop and the vast improvement in Best as a Captain. Should he be here in 1962 we really can look forward to an excellent season. But we will only win matches if we can make runs. This year in school matches only and excluding the Canadian Colts our batting has been far from convincing. Phelps in 7 innings made 115 runs; Wood made 83 runs, also in 7 innings; Hudson got 174 in 8 innings; Hyslop, 94 in 6 innings; Best 100 in 6 innings and MacWhannell 108 in 2 innings. Nearly all these totals might be achieved in a single innings. And next year there will be no Bishop! Sixty wickets at an average of 14 is something of which he can be truly proud.

CRICKET

THE ELEVEN

Won 6, lost 3, drawn 5

This has been an interesting season and nearly all matches have been well worth watching. It has been very strange to me that with an XI batting attractively and doing well the number of spectators has been almost negligible. It should be a pleasant pastime in good weather to watch a school side that in five games averaged over 85 runs an hour, and I know the XI felt strongly the lack of support. Early on it is true, the weather was appalling—the norm being a sea-mist alternating with a biting cold wind. Under such foul conditions the side still managed to play attractive fighting cricket, but with the sun the season truly started.

Before the season began it seemed likely that there would be batting in depth, and this fact was amply borne out. The ball has been struck firmly, the running between wickets has been intelligent, and on the rare occasions of early failure (with the notable exceptions of Bradfield and Radley) recovery has been both sure and belligerent. The bowling it was thought would be tidy and efficient, and at times it has been this, but only against the Free Foresters and in Oundle's second innings has it acted as a faceful unit. At other times there have been too many loose balls. The fielding has usually been sound, but only on a few occasions has it raised itself to the highest level of which a school side should always be capable. Best, Phelps and Townley have always fielded well; the throwing of the XI has been very good and often commented upon by visitors; few catches were dropped until the Eastbourne game; but there have been occasions when too many mistakes on the ground have been evident.

Cricket is a game to be enjoyed, though concentration must not lapse, and the ball is there to be hit. The XI has throughout taken note of these maxims. Best, the Captain, must take much credit for the success of the team. With few exceptions he has changed the bowling well, and his experience in field placing was shown during the season. He may not have had the best of luck with the ball, but he made up for this in his approach to the game, a factor seen very clearly at Oundle.

After a few experiments the opening pair settled down and Wood and Bell did most of what was required. It has been libelously suggested that both have secured the destruction of the 'spider' run charts of their innings, so efficiently made by the excellent scorer, Winkley. There is as little truth in this as in the idea that Wood did not score a

four through the covers before the end of June. They put on between 48 and 130 on five occasions, Wood had seven innings over 40 and was rarely outpaced, placing the ball skilfully. Bell, not a stylist, watched the ball well, played some vital innings, and despite having the right hand well down the handle moved out to drive all bowlers with equal determination. Both cut often and effectively and were particularly efficient on fast wickets, but both must beware of cutting at balls that are too close to the body or without moving the feet. Hudson early in the season looked very good with a sound defence and increased power. After the Bradfield match he ran into a succession of low scores and lost all certainty. It was good to see him bat so well against Oundle, his 95 not out on a dusty wicket was an innings of the highest class. Phelps at No. 4 this year joined his native aggressive and hitting power to a more common-sense application. A player who hits the ball so well and with such well-formed strokes has no need to resort to crudity or senseless hitting across the line. The admonition 'to keep your head down', which even Arnold Palmer admitted to forgetting at Troon in the preliminary rounds, is applicable in both attack and defence at cricket. Drake batted most sensibly throughout the season; sound in crisis he also showed the ability to hit the ball hard. Both qualities were seen to the full at Stowe when he scored 96 after going in with the score at 31 for 4. Best played some valuable knocks, forceful striking against the Foresters and experienced defence against Stowe and Eastbourne among the best; and Townley and Hodson gained very useful experience in the XI, the former's innings at Oundle and the latter's against Stowe and Eastbourne promised well for the future. The bowlers get little mention for their batting, but when called upon always inspired confidence. Easter with application and practice could be a useful all-rounder, Butterworth's alternating phlegmatic defence and violence, and Kane's confident belief that a fifty was there for the taking—all provided an XI of Manx-like qualities.

Of the bowling less good can be written though all bowled very well on occasions. Kane headed the averages and proved capable of bowling very good balls (two he bowled to Maclachlan stand out in the memory) but for a medium-pacer he lacked accuracy. Having altered his run some readjustment was bound to be necessary; much practice and this year's experience should produce good results in 1963. Easter bowled very tidily. He learnt a great deal during the year and added much variation by use of the crease, change of pace and swing, and but for a tendency to bowl short at times did well. These two should make a good

opening pair next year if the former can increase in accuracy and the latter use his body more in the delivery stride, for they shared 64 out of the 97 wickets that fell. Best rarely hit a length this year and though bowling good balls put in too many of uncertain length. At Oundle before dislocating a finger and at Stowe he looked more the very good leg-spinner of former years. Butterworth, a quietly efficient secretary, who was rather underbowled was tidy in length throughout the season and possesses a most deceptive flight that gained him many wickets. Townley, who improved much in flight and length this year, bowled better than his figures suggest, and has gained valuable experience for next season.

FIRST XI RETROSPECT 1963

Won 4, lost 1, drawn 7, abandoned 4

One would not have been considered over-optimistic if at the beginning of the season one had had visions of the scoreboard ticking merrily as the School batsmen scored heavily. Of the accredited batsmen last year, only Phelps and Wood were missing and the XI topped 200 eight times in completed innings then. The first two matches produced centuries by Hodson and Hudson and although the bowlers had toiled for eight wickets at nearly sixty runs apiece, it seemed likely that there would be few moments of worry for watchers during the season. There followed a depressing period when the matches against Eastbourne and the Authentics were abandoned without the XI batting, though the bowlers showed improved form; and with further wet weather the School had not batted in anger for a fortnight. Luckily St. Edmund Hall obliged by coming at short notice and although the batting was poor the bad strokes were out of the system, and on a good wicket against a useful M.C.C. bowling side, 277 runs for 4 wickets were amassed. The termly heat-wave followed but there was only one match, though in this Bradfield was beaten. Then followed a whole series of wet wickets and batting became more of a chore as the ball began to seam. Not only this, but now a further three matches were abandoned without result, and by 18th July the XI had only played 7 matches with any hope of result. I have gone into this at length for it explains why a potentially very strong batting force produced only just above average results. If ever an XI needed fast wickets this one did, and when they occasionally came, shots were always in evidence and high scores likely. That the side could have realised its potential, was seen by the way the bowling improved immensely in variety, venom and accuracy; and the general excellence of the ground fielding and throwing. Although a fair number of catches went down in the slips (proof of the bowler's skill) elsewhere they were caught safely, and a number brilliantly, and the rest of the fielding was always highly praised by visitors.

CRICKET 1964

The season produced four wins, three losses and six draws; but these bare figures give no clue to the interest of the cricket and the improvement of the XI. The team struggled early on because on damp, slow wickets the batting looked uncertain, but by dint of determination they suffered only two losses, the second to Bradfield by one wicket. Up till Gaudy the established batsmen, Drake, Miller and Townley, had not dominated, though the latter always seemed the most likely high scorer, and so the team had relied on tidy and sometimes forceful bowling to cover up its limitations. During this period of four draws and two losses most changes had been aimed at producing a first class fielding side to back up the bowling strength, and one had felt that once confidence was gained the batting could become a force. At Gaudy a strong Martyrs' side inexplicably collapsed and with the first victory achieved the season underwent a complete change and three more wins were recorded over Oundle, Radley and Cranleigh, in the two draws the opposition were decidedly worsted, and Stowe alone dented the new-found confidence. The out-cricket during this period was of the highest class, the close catching being better than usual and the throwing and ground fielding of a very high quality. Much of the praise for the good performance of the XI must go to the Captain, J. N. C. Easter, who when the team was in its early unsuccessful phase, instilled determination not to lose and made them practise and concentrate on their weaknesses, and then led with belligerence and confidence when the team realised its potential in the second half of the term.

It seemed likely before the season began, and the 'A' XI games confirmed the opinion, that the batting would lack depth but that the bowling would be stronger than usual. Easter was in his third year in the XI and was a first-rate opening bowler with great control of length and direction,

and the ability to move the ball a little either way off the pitch and in the air: he took 36 wickets and deserved more. D. E. Radcliffe established the right to share the new ball by virtue of his accuracy and tenacity; he doesn't move the ball much in the air but has a whippy delivery with definite movement off the pitch—he will get many wickets in his school career. The two orthodox spinners picked themselves. G. M. Townley bowled his off-spinners with far greater control of flight and length than formerly, and he really spun the ball: his bowling under pressure at Bradfield was exemplary—almost Lakerish. H. C. Bishop bowled less well at the end of the season than he had early on, but he turns the ball more than most slow left-handers and once he had conquered his tendency to vary his speed and flight too heavily he bowled very well on occasions: dragooned willingly into opening the batting he found his bowling suffered a little in consequence. One more bowler was needed and Boyd with leg-breaks and googlies appeared the most likely. However, he was expensive in his few appearances and with the uncertain batting didn't fit into the defensive pattern. A third seamer was therefore preferred and the work was shared by P. Pitt-Brown who also improved much as a bat and N. D. Tonkinson who was chosen as a slip specialist, work he performed excellently.

The batting in the first matches was frighteningly vulnerable and two makeshift openers were eventually chosen. Both Bishop and Pitt-Brown were determined if not stylists, and watched the ball carefully. Rarely were the stroke players required to face a ball with any shine left on it. Caution tended to be the keynote early on, but as runs slowly but surely came against good Club bowling, confidence grew till at and after Gaudy the scoring became almost prolific: in the last three matches 206 for 7, 240 for 7 and 200 for 4 were scored in 2½, 3 and 2 hours respectively. Townley batted attractively but made only one 50; with all the shots he was still prone to lose patience and get out when set. Miller was always elegant but on wet wickets drove with his head away from the line and got out too often in the teens. He, like Drake, who hit the ball very powerfully, scored over 400 runs and batted as well as one could have wished on the hard wickets in July, his on-driving being particularly good. Both scored centuries of high class and their stand of 95 in under the hour against Radley was schoolboy batting at its best. Easter always batted well when runs were most needed and drove very strongly; and the remaining places went to Haig, Whitehead and Tonkinson, each of whom contributed useful innings and fielded wholeheartedly. It was in the field that the XI showed the most improvement

CRICKET—1965

Won 5 : Drawn 5 : Lost 4

This might have been a disastrous season for after the false hopes from a win over a poor Cheltenham batting side, and a high score off uncertain Forester bowling, the batting began to show that frightening vulnerability that was to be its hallmark for all but the last few weeks of the season. However after the unhappy month of June when four successive matches were lost, recovery came and the collapse of Bedford heralded a period when of seven matches played by the 1st or 'A' XI's five were won and none lost. During this time the batting began to show more discipline and the heart notably lacking in June, and with the confidence of success and the growing form of Drake, the XI moved towards a useful season in which three schools (Cheltenham, Bedford and Oundle) were beaten against two losses, and our most dangerous opponents of former years, Bradfield and Radley, were met in indecisive encounters.

The averages tell the tale of a below standard batting eleven. Early on only Pitt-Brown showed the determination necessary to overcome slow wickets, though Rivett flattered with a ton against the Foresters—and in June the side collapsed five successive times losing five wickets in the space of ten runs each time. It was doubly unfortunate at this crisis period that the School should meet some of the best bowling sides of the season (Stowe and the Authentics) but the collapses were more a sign of lack of character and confidence than of technique. In the Stowe game Tonkinson batted very sensibly and showed that ability he was to display more and more often in the remaining matches. He drives pleasantly straight and is not afraid to hit the ball; the Canadian match was an exciting climax to his season. Whitehead was never over-awed by an occasion though his technique was often bound to let him down; and Purdon, again with technical limitations, driving with his foot away from the ball and favouring the back-foot slash to balls of too full a length, improved much and by the end was looking a more convincing player. Rivett scored the most runs and has abundant talent which will mature once he can discipline himself. He is difficult to contain and if he grows in concentration and learns from his mistakes he may well score many runs another season. Radcliffe played a number of sensible innings in difficult situations and has only to be unafraid of making large scores to succeed in the future. The captain, Drake, fighting to overcome the physical disabilities of his knee injury, failed to make runs until the Radley game. He was often out to his first bad shot, but after his innings at Radley he looked more

his old self in scoring twenty-six in eighteen minutes against Oundle. Bennett always learnt from his mistakes and gained invaluable experience for next year.

The bowling very rarely let the XI down, though it failed to make the most of a green wicket in the Bradfield game. Radcliffe was always the most hostile and dangerous partly because he rarely gave away runs by loose bowling. Any batsman who knows he will get four an over from a full toss or long-hop will be content to score at 80 runs an hour and concentrate on defence for five balls every over: Boyd, Pitt-Brown and Kirkpatrick all bowled well at times, beating the bat often, but there were too many loose balls. Radcliffe has a lively action and whippy delivery and he was aided by some sound close catching in the short leg area particularly by Purdon and Rivett: the Bedford match turned on three such catches. Boyd has as much technical talent as any leg-spinner on the school circuit, but in the middle lacks the necessary confidence: his first few overs are often inaccurate and so he loses that ascendancy over the batsman's mind so essential to every slow bowler. Kirkpatrick came into the side late and improved immensely; in the last few matches he deserved wickets, bowling a fuller length and better direction than earlier on.

The ground fielding and throwing were not up to the high standard of previous years though Radcliffe was always a joy to watch, and a number of individuals including Tonkinson and Whitehead threw well. Fielding should be the most demanding, enjoyable and full-hearted effort of the game, and it was not until the Bedford and Radley games that one could enthuse about this department of the game for it was often below the athletic standard expected of school sides.

Of the matches—five were won, five drawn and four lost. At CHELTENHAM Radcliffe and Pickford bowled accurately to dismiss a very vulnerable batting side, and the School stumbled to victory with painstaking batting by Pitt-Brown and Rivett. The eleven scored well but patchily against the FREE FORESTERS and contained the opposition with accurate seam bowling. BRADFIELD, one of the more successful sides of 1965 were allowed to escape through bad catching and inaccurate slow bowling on a soft wicket, and the bid for victory foundered after a sound opening stand that failed to quicken its scoring rate after the initially correct consolidation period. The CRYPTICS escaped from 21 for 3 again through bad catching, and the batting except for Pitt-Brown's could not break out. During the month of June the matches against the AUTHENTICS, STOWE, MARTYRS and BROMSGROVE were all lost almost entirely because of difficult batting, the bowling each time giving us a chance of victory. The relief on all faces

at a quarter to three on 26th June at Bedford was obvious, for Radcliffe and Boyd had bowled finely aided by some belligerent close catching and Whitehead had ensured victory by half an hour's hard hitting after the initial panic of 6 for 2. The depth of the batting was proved against the M.C.C. though the middle batting collapsed. At RADLEY the School were denied by a century fourth wicket stand after early hopes at 21 for 3, and Radley remembering last year's famous victory and Drake's innings declared too late for this season's capabilities and 11 for 3 made nonsense of the XI's hopes of victory for the second year. OUNDLE batted long and slowly but declared to give us a chance of victory, the runs being scored in only just over half their number of overs. The season was brought to a happy conclusion by the defeats of the two touring teams, the Dutch side HAARLEM and the CANADIAN COLTS. The latter was a most exciting game for 106 were needed in just over an hour with the score standing at 47 for 5: Tonkinson ably supported by Pitt-Brown, Radcliffe and Kirkpatrick brought victory by three wickets with one over to go—a fitting game to end the season.

R.H.M.A.

The following made up the XI: C. J. Drake, D. E. Radcliffe, P. W. Pitt-Brown, P. J. Whitehead, R. B. W. Boyd, R. C. Rivett, N. D. Tonkinson, R. A. Purdon, M. Gibb, G. E. Bennett and Kirkpatrick T. A.

The following also played: Pickford A. J., Barnett R. D., Torrance W. P., Garne A. J., Northcote-Green C. S.

SPORTS AND GAMES

CRICKET 1966

FIRST XI,

Won 6: Drawn 4: Lost 3.

As the Eleven passed through Northampton on the way home after the fine win over Oundle, past the Cobblers' floodlights and with the news of Brazil's exit from the World Cup they had dominated for eight years, the evening was tinged with sadness as well as pleasure: the cricket season was over. The enjoyment of the last two weeks with wins over Stowe, Radley and Oundle was still something to savour and the Eleven who early on had started with high hopes but-tressed by success against the Colleges but who had sunk to close but disappointing defeat in the first two school matches could now feel they had done as well as any post-war team by winning four school matches. The 1966 season, then, had ended with six wins—over Bromsgrove, Stowe, Radley, Oundle, Free Foresters and Martyrs—but also with three defeats. If only the two defeats by Cheltenham (23 runs) and Bradfield (6 runs) had been reversed as we all felt they ought to have been.

If only: the Eleven had much talent, but with its youth and occasional batting vulnerability, it never quite reached the heights we had perhaps hoped for. This was perhaps best seen in the field where though they were usually competent, they rarely inspired despite Radcliffe's example, and helped by Barnett's clean and neat wicket-keeping—always of a high standard.

As it turned out the bowling was the strongest department, for every school but Bedford (who had only an hour's batting in a rain-ruined match) were bowled out—the scores being 136, 111, 132, 115, 80, 189, 113. The main wicket takers were Radcliffe and Purdon, both of whom were extremely accurate and economical. I had felt before the season started that Radcliffe could be a candidate for the Public Schools team and if he had bowled throughout as he did in the last four matches this would have been no false hope. Early on, however, delighted with his speed, he bowled too short on the good wickets and wasted his undoubted skill. At Stowe and afterwards he kept a fuller length and was unlucky to record only sixteen wickets in the last four games with his accurate cutters at a brisk pace. Purdon never bowled badly; his length and direction were impeccable and many of his victims were clean bowled. His average of 32 wickets at 11.8 was just reward for some very

accurate seam bowling. The supporting bowlers were less sure though Kirkpatrick early on when he bowled a full length, and Baldwin later on when given a full quota of overs (his analysis against Radley and Oundle was 50 overs, 5 wickets for 57) gave sound backing. Kyle suffered somewhat from dropped catches but lost his rhythm and direction too easily at times; and Boyd had the misfortune to split a finger in the fourth game and was not match fit until the Oundle game.

All the batsmen had good scores, but rarely except against ordinary club bowling and latterly against Oundle did they score as a unit. Purdon was in turns phlegmatic and vicious (the straight six at Oundle down-wind was an immense buffet), and became even more watchful and correct as the season went on. Thackeray, in his first season in the XI as a colt, did very well to head both the averages and the runs-total. But for some weaknesses on the leg-stump and some faulty timing when pressing, he is technically efficient and has the urge to score runs and not get out that augurs well for the future. Rivett was more responsible in his batting this year, and though out of touch early on he played some sensible innings against the clock (as against the Foresters and Martyrs) and was increasingly reliable. Bennett played one innings of immense watchfulness and authority at Bradfield, and latterly some hard-hitting scores that swung the game as against Radley and Oundle. The right hand was too much in evidence for the purists but when he learnt to hit straight this did not matter. Radcliffe was at the centre of every recovery, and Hodgson and Northcote-Green gained invaluable experience whilst Barnett and Baldwin in their different ways were very useful.

So to some of the tales of the season. CHELTENHAM were well placed at 111 for 4 but lost wickets quickly to Boyd and Purdon to be all out for 136. The School batting after a useful start proved remarkably fragile, but for Thackeray who made 51 last out, in his first school match, and the match was lost. BRADFIELD had more than fifty for the first wicket but Radcliffe and Purdon went through them in the drizzle for another sixty. All seemed set for a win, but at 23 for 5 defeat seemed inevitable; Bennett and the lower order batsmen struggled bravely but we ended six short. Against the Schools, now all was success. BROMSGROVE were easily defeated, Purdon and Thackeray scoring heavily and Radcliffe taking four wickets. The other three wins were all exciting in some way. STOWE were 59 for 1 yet all out 115 (Radcliffe 3 for 37; Purdon 7 for 27). At tea taken at 71 for 2 all was relaxation and smiles;

many grey hairs and 29 runs later the ninth wicket fell with sixteen still needed—Kyle proved too much for Black, and with Baldwin moved to a victory which was never in doubt (they said afterwards!). RADLEY lost wickets regularly to the usual two and were all out for 80 which Bennett proceeded to smash almost on his own in just over the hour. OUNDLE seemed ready for a draw from the first day yet in awful blustery weather belligerent batting, thrustful bowling and catching on the second day served to gain another victory five minutes from time. Of the Club games, the M.C.C. match is perhaps best forgotten as the XI capitulated to some fiery fast bowling; but good wins were gained over the FORESTERS (Baldwin and Rivett batting sensibly against the clock to reach 201 for 4) and the MARTYRS in a match of fine batting in which Brett scored a hundred for the seniors whilst Thackeray (65) and Rivett (71) had an unfinished stand to reach 214 for 2 and victory.

The following made up the Eleven: D. E. Radcliffe, R. A. Purdon, P. R. Thackeray, R. D. Barnett, R. C. Rivett, G. E. Bennett, S. A. Baldwin, T. A. Kirkpatrick, T. W. Kyle, J. E. D. Hodgson, C. S. Northcote-Green.

The following also played: R. B. W. Boyd, B. J. Hutchinson, A. R. J. Sykes.

CRICKET XI 1968

L-R BACK ROW S.M. MISCHLER, P.M. DAVIES, A.T. GREAVES, S.P. GASPER, C.M. BROADBENT, E.M.J.K. DAVIS

L-R SEATED R.D. DRAKE, C.S. NORTHCOTE-GREEN, P.R. THACKERAY (CAPTAIN), J.E.D. HODSON, A.R.J. SYKES

PETER THACKERAY WOULD LATER WIN AN OXFORD UNIVERSITY CRICKET BLUE IN 1974

On Thursday, 11th July, at 00.01 hours, the first day of our three-day end-of-term festival I trudged through three inches of water or Upper I as I moved from the Pavilion to the Subway and down to the even wetter basement of Mac's: it seemed we were back where the term started—with RAIN. Fantastically enough cricket was played that day and the two days following also, though not with the successful festival spirit we had envisaged. Of the three days it is best to remember the last, though this game against Radley, drawn like the others, was like the others lacking real fire; and remember the stroke-play of Thackeray just picked for the Schools' Trial at Lord's (as I write he has just finished scoring his second century in three days for the Martyrs), the authority of Drake and the rising talent of Davies scoring a half-century not out after lunch.

It is better to forget the bad things of 1968—the frustrations of May with four consecutive wet Saturdays, the four inconclusive draws of July—and remember the very real pleasures of the season. The team, one of many talents, was potentially the strongest batting side for years, and despite several pedestrian movers was a lively fielding side capable of making some startling catches, with the brilliance of Sykes, Drake and Davies, spearheaded by Thackeray, unleashed from behind the stumps, making ten catches and covering two fielders' ground in the field. (Mischler, the wicket-keeper, became very competent and rarely missed the important chance.) The team, including six elder statesmen, was always a pleasure to be with—be it for nets, where they were willing and attentive in practice, or for fielding practice or a chat during the matches: and considering the disappointment of the weather and the proximity of exams there were grounds for unrest and dissatisfaction.

May saw four matches cancelled (most disappointing of all, a new fixture with Harrow) but June blazed and four school matches were played and won: Bradfield, Cheltenham, Stowe and Bedford all fell to useful bowling and able batting. At the beginning of the year, dreaming of hard wickets and warm days, in my imagination I basked in the pleasure of runs galore and lack of worry; the truth was harsher, every match gave cause for a few more grey

hairs—most finishing in the last few minutes of time. We were usually called upon to score our runs rather faster than the opposition had scored theirs, but it wasn't until the end of the season that our habit of putting others in and batting second misfired and we fielded for far more than our share of the game against the Cryptics and Wellington. Perhaps we would have been wiser to bat first occasionally, though the first four matches all won batting second, and the drawn match against Radley when we batted first, showed why we didn't.

Thackeray captained strongly and fielded magnificently: he also scored the finest school-boy hundred I can remember (against the M.C.C.) and pulverised the Radley attack on the last day of term. Northcote-Green looked elegant always but only batted at his best twice—against Cheltenham and the Cryptics—he needs the hard wickets and alas all too rarely had them. Drake was slow to reach form (he bowled well throughout) but persevered until the hundred that nearly beat the Martyrs was followed by fine innings against Cryptics, M.C.C., Wellington and Radley. Sykes, a highly talented all-rounder, headed the bowling averages and looked capable of winning matches with the bat as he did at Stowe and so nearly did against the Cryptics. Hodson was never his belligerent, relaxed self at the crease, and only once gave fulfilment of the promised long innings. New boys Davis and Davies batted most promisingly at times whilst next season's bowling looks in good hands with Greaves, Broadbent and Gasper, though none had quite the work they deserved this year.

So another unbeaten season was past and is now but a pleasant memory. It seems ungrateful to say five wins and no losses was not enough: players and coaches felt it could have been more with sun and hard wickets to cheer. The players were never given the chance to fulfil their obvious potential—every match was played on a different-paced wicket—and the keeping of morale during the ugly month of May was a tribute to the team and its captain.

CRICKET

FIRST XI

The XI played 11 matches, won twice, drew three times, and lost five times. This poor record suggests a none too successful season, but the members of the side enjoyed themselves and their cricket most of the time, and without exception improved considerably as cricketers. They started out under the shadow of the powerful batting sides of the last few years, and while they could not match the depth of those teams, some fine deeds were accomplished: Greaves and Davies put on fifty or more for the first wicket five times out of eight; Davies struck nineteen off the over before tea at Radley; Gaspar and Morgan made 48 for the ninth wicket in 23 minutes to beat the Free Foresters. These and others helped to cheer what could have been a depressing season.

The poor weather early in the season meant that an inexperienced batting side was not allowed to gain confidence, and two 'A' XI games were lost to the weather. Somehow belting plastic balls around a squash court is no real substitute for batting in the middle. However, the bowling and fielding both began to look promising with four seamers of very different sorts, Graham and Davies left-arm, Greaves and Badger right-arm; two spinners, Gaspar and Kenyon, off-spinner and orthodox left-arm, and the captain, Mischler, who handled them sensibly and kept wicket pretty well too. But throughout the season a lack of experience and confidence in their own and each other's batting made the difference between winning and losing, and failing to win at Radley, though only just, for five runs were needed off the last five balls of the match, after bowling and fielding quite well, summed up the limitations of the XI.

The M.C.C., the School's first opponents, batted very well and bowled too well for some rather nervous batsmen, although Morgan and Sears, two of last year's Colts, played encouragingly. The XI played better altogether against the Authentics but no attempt was made to score at the four runs per over required for victory. The first inter-school match, against Bradfield, showed up all the School's failings. Gaspar, not as consistent as an off-spinner should be but capable of bowling really well on a helpful wicket, had an off day, and only Badger of the seamers bowled a respectable line and length.

The tentative batting allowed an inexperienced slow left-arm bowler to take 6 for 23 to win the match. The weather interfered with the next two games, a loss to Stowe and a draw at Cheltenham. The batting was improving slowly and we had enjoyed two good starts from Davies and Greaves, but still wickets were given away unnecessarily at all too regular intervals. The final blow came on a rain-affected pitch at Oundle. In forty hostile overs the bowlers, led by Gaspar, trimmed Oundle out for 74, but after another forty overs we had been bowled out for 42, and scarcely a blow struck in anger. But then came the Martyrs and the sun. A charitable declaration and a beautiful pitch allowed the School a win by 8 wickets, and seven members of the side discovered for the first time what it was like to be in a team that scored 200 runs.

So to Bedford, where some steady bowling and fielding put us in a winning position, but once again the batting lacked that vital confidence and a slow left-arm bowler was allowed to bowl nine maidens in a row, so ruining what had been very genuine hopes of victory. There followed two exciting games with the School now batting far better. First the Foresters were beaten after all had seemed lost at 169 for 8, then a thrilling chase for runs against the Cryptics ended in rather sudden disaster. Finally we were guests at Radley's Gaudy and proved most polite visitors. The story was the same again, with the batting failing to capitalize on the bowling and fielding, but Sears's 62 bodes well for the future, as does the fact that seven of the eleven will be here next season, together with the experience they have gained.

Thanks are due to all those masters who so readily and so ably give up time to the coaching of all teams, to Brian Edrich for his tireless enthusiasm and invaluable know-how, and to Jim Jaques and his staff for the attractive and well-kept grounds.

CRICKET

Won 7; Lost 4; Drawn 2.

1970 was almost a season to end seasons. It might have been so if Bradfield had been beaten, as seemed certain; and if we hadn't batted abysmally badly and out of character against ordinary Oundle and Radley XIs, who took the opportunity given most gladly. Still, 7 wins and 11 results out of 13 matches played showed a willing and adventurous spirit. Steven Gasper's side was never dull, often exhilarating, sometimes depressing—but always positive. There were five matches which were decided in the last over, two of them off the last ball; there was the one-wicket win over the Cryptics and the 5 runs loss to Bradfield; and perhaps to cap all, the exciting win at Harrow, where exciting seam bowling restricted and destroyed the strong Harrow batting for a win by 21 runs.

Many things stand out in the memory—ranking highest were two superlative attacking innings: the first by Philip Davies at Bradfield, where he made 129 out of 148 in 90 minutes; and the second by Richard Sears, scoring 140 against Cheltenham. Simon Northcote-Green was always elegant and Jim Badger made several useful innings, as at Stowe and Cheltenham. The bowling often relied on the steadiness of Steve Gasper, as it did above all in the Bedford game, but he was extremely well supported by three seamers, Badger, Davies and Nigel Boulton, who, especially early on, as at Harrow, bowled with life and bounce; and by leg spinner Stephen Williams, who has only to control his temperament to become a very good cricketer. The fielding was often superb—some great catches were held (one by Robert Burgess, an improving wicket-keeper, to dismiss Needham of Harrow, off a leg glance, remains most in the memory); the throwing was strong and the ground fielding good.

Steven Gasper captained a side full of character with sense and skill. His field placing and bowling changes were sound, and he used his varied attack always well. His batting in a crisis was reliable in a side that sometimes got itself into trouble by over-exuberance. What more need be said? Seven wins, plenty of excitement, sunshine all the time and a cheerful XI, who were: S. P. Gasper, P. M. Davies, S. P. B. Badger, R. A. C. Sears, R. M. Burgess, S. K. Northcote-Green, N. P. A. Boulton, R. H. T. Kenyon, G. Morgan, A. P. J. Strubell, S. R. Williams.

Results

The School beat: Bedford, Bromsgrove, Cheltenham, Harrow, Cryptics, Free Foresters, and Martyrs.

Lost to: Bradfield, Oundle, Radley and Authentics.

The matches against M.C.C. and Stowe were both drawn.

CRICKET XI 1971

L-R BACK ROW P.G. FAIRHURST, E.W. THOM, S.D.G. WILLIAMS, S.R. GIDMAN, A.J. SNOW, W.H. ALLUM, J.R. BURCHFIELD

L-R SEATED S.R. WILLIAMS, R.A.C. SEARS, R.M. BURGESS (CAPTAIN), S.R. NORTHCOTE-GREEN, J.N. LAWTON-SMITH

FIRST MATCH AGAINST RUGBY SCHOOL

A YOUNG TEAM WHICH STRUGGLES FOR VICTORIES BUT GAINS 8 DRAWS AND IS ONLY BEATEN 3 TIMES

OPENING BOWLING ATTACK IN THE CAPABLE HANDS OF JULIAN LAWTON-SMITH AND STEPHEN WILLIAMS WHO TAKE 43 WICKETS BETWEEN THEM AT AN ECONOMIC RATE

No season in which only one match was won and three were lost can be called a good one, but somehow one felt it might have been altogether different if a run had been scored off the last ball of the match to beat Bradfield, and if Stowe, one of the better equipped sides we played, had been beaten, as seemed possible at one stage. After this, when the XI batted well, as at Bedford and Rugby, they bowled and fielded as if they wanted their opponents to win; when they bowled efficiently and held catches, as against Oundle and Radley, the batting was diffident and unsure.

There were many good things during the season: Northcote-Green's elegant hundred v. the M.C.C.; Sears' violent 98 (v. Stowe); Burgess' competent captaincy, sure keeping and useful batting, as at Cheltenham. S. R. Williams looked a class leg-spinner, especially when he didn't push the ball through too quickly, and batted brightly; whilst Lawton-Smith bowled venomously at times and was sensibly supported in the opening attack by Snow. All the others at one time or another played well and fielded enthusiastically.

As a postscript we should like to record our pleasure at Simon Gidman's recovery; his absence for most of the season was just one more blow that turned a hopeful season into a disappointing one.

CRICKET XI 1972

L-R BACK ROW J.G. SEARS, C.M. SEXTON, H.D. COCKE, T.T. CHANNELL, J.H. MAINWOOD, B.M. HUGHES

L-R SEATED A.J. SNOW, S.R. NORTHCOTE-GREEN, R.A.C. SEARS (CAPTAIN), S.R. WILLIAMS, E.W. THOM

CRICKET 1972

Won 2; Lost 2; Drawn 5; Abandoned 3.

1972 was a slightly disappointing season in that the XI did not register the expected wins, but most encouraging for the future as the younger players improved and did well. We had potentially a high scoring side and, with two leg spinners plus left arm and seam to exploit this, we badly needed a dry summer and luck with the toss. Unfortunately we were rewarded with neither, the wickets were consistently wet and slow and we fielded first in all but three matches. This made it extremely difficult for Richard Sears to use to advantage his, at times, expensive leg spinners. The bowling generally was good and was only once 'collared'—this against Cheltenham, the strongest and narrowest hitting side that we have met for many seasons. The fielding improved out of all recognition and later in the season the side looked well drilled and very keen. The batting, apart from the Cryptics match when Simon Northcote-Green and the Captain put on 182 for the second wicket, was always slightly laboured, the openers failing to give us the start that we needed. Richard Sears played very well latterly and was the season's highest scorer. Unfortunately Chris Sexton was injured (playing soccer), when keeping wicket and batting very well, and missed several important matches. This was critical for, although Northcote-Green took over competently behind the stumps one feels that it was to the detriment of his batting. We also missed the runs that Sexton would surely have amassed.

The School had exciting wins against Bradfield (at long last) and a rolling, typically Williams', catch from Snow's bowling won the Oundle match in the last over. Against Bedford we couldn't quite clinch it, having four balls at the last man with everyone around the bat. Our one School defeat by Stowe was no disgrace. The side, having done well to dismiss the opposition for 119 were caught on a drying wicket and bowled out by high-class spin bowling.

The side who worked very hard at their game, and who were always cheerful and willing, consisted of: R. A. C. Sears, S. R. Northcote-Green, S. R. Williams, A. J. Snow, T. T. Channell, E. W. Thom, C. M. Sexton, J. H. Mainwood, B. M. Hughes, H. D. Cocke, J. G. Sears.

CRICKET 1973

Won 3; Lost 2; Drawn 7; Abandoned 1.

With six colours back and five good all-rounders to complete the side we had hopes for a successful season. It was so nearly a great one, only the lack of a genuine pace bowler robbing us of victory in several drawn games.

We commenced the season with an excellent win against the Foresters. This was achieved by fine attacking batting, backed up by tight bowling and high-class fielding. For a team with no obvious stars this did a lot for morale and against Oundle we again played good positive cricket, just failing to force the win. Edward Thom tried all that he knew to winkle out the tail-enders, but in spite of our bowling 29 overs in the last hour, they managed to hang on. Our depth in batting ensured a good total against Harrow but rain came to thwart us as they struggled to 57 for 4. Bradfield came next and once more, having completely out-played them, we just fell short. At 76 for 8 wickets chasing 161 they were in shocking trouble, but without a real 'quickie' we could not complete the job. Cheltenham was a high-scoring draw with Cocks and Sexton putting on 149 for the 3rd wicket. Then came wins against Stowe and Martyrs, with Sears taking important wickets, including that of his brother Richard in the latter match. This was the team's high-water mark for the season. After this our cricket lost a little of its edge, vital catches were

dropped and the batting was not nearly so prolific. Bedford was a draw. Cryptics (or should it be S.E.S. Common Room) beat us in a good match. Abingdon, a new fixture, another draw in our favour. Rugby beat us because they had the pace bowling to exploit a hard fast wicket. We did not learn quickly enough to get on the front foot. Radley was a disappointing match in which they batted 3 hours 40 minutes to score 192 for 6 wickets. After losing 2 wickets in the first over and 5 for 24 we had no chance to score this total in the time remaining. The Captain and Farrar saved us with a stand of 56 and we drew the match at 100 for 7 wickets.

To sum up, it was an exciting and most enjoyable season. The XI did themselves much credit, playing positive and at times inspired cricket. Edward Thom did wonders in moulding the side, who were great triers. Hughes' dash to Radley after a 3-hour exam and then 19 overs and nearly 4 hours fielding, is an example of the way the entire side were prepared to fight. Early in the season I asked them to try to speed up the game. The response was to bowl an average of 22 overs an hour in all matches, batsmen always crossed and the fielding was exciting and very energetic. They were essentially a 'team'.

The XI, which went through the season unchanged, were: E. W. Thom, C. M. Sexton, H. D. Cocks, B. M. Hughes, J. G. Sears, J. H. Mainwood, M. A. Fletcher, S. J. Farrar, A. C. Murton, D. J. Maxfield, and S. H. Lawton-Smith. Scorer: S. D. Lumsden.

L-R SEATED D.J. FAWCUS, S.H. LAWTON-SMITH, A.C. MURDON (CAPTAIN), D.J. MAXFIELD, C.J.A. PULTENEY

CRICKET 1974

Won 3, Lost 5, Drawn 6.

With eight colours, who included all the batsmen, missing from last year's XI it was expected that runs this season would be at a premium. This proved the case, and so often the side were fighting for every run in the effort to reach a worthwhile total. Murton, who scored 256 and headed the batting averages, and Fawcus, with 225 were the only batsmen to score 200 runs in a full season on good wickets. The seam bowling was generally extremely good, with Thursfield, injured and unable to bowl in several matches, taking 21 wickets costing 10.14 runs each, and Pulteney, 30 wickets for 13.03, the most successful. Murton and Lawton-Smith also bowled well and Johnstone's off-spin, although used infrequently was effective. The ground fielding improved as the season progressed and became sound, if not exciting. Vital catches were held and fine throws, resulting in run-outs, swung a couple of matches.

The School were beaten in the first match by M.C.C., largely through the efforts of a young professional who scored 139 not out and then took three early wickets. Draws against South Oxford Amateurs and the Free Foresters followed, and then an exciting game against Oundle. In a fluctuating match the opposition reached 129 for 9 attempting to score 134 for victory. On a bad wicket at Harrow we were dismissed for 70 and beaten by 8 wickets. Next Bradfield, and our usual cliff-hanger, bowled out for 80 we had little chance and with our opponents scoring 23-0 off six overs the result seemed a foregone conclusion. At this stage Murton took 3 wickets for 1 run and with

Pulteney getting in the act we had them 48 for 7 and were winning. A stand to 68 and only 13 needed and then a splendid catch by Halstead, two clean bowled by Lawton-Smith, and the match was ours by 6 runs. Stowe was a dull draw, with our fragile batting we could not achieve the high scoring rate required and settled for a draw at 120-7 against 172 by Stowe. The Martyrs beat us very easily with Simon and Chris Northcote-Green scoring the bulk of their 154 runs, we could only manage 83 in reply. Then a defeat by the Cryptics for whom Chris Sexton scored 63 and Malcolm Watson took 6 for 38. Bedford for the second year running batted far too long leaving us only 2 hours 21 minutes to score 182. This was not possible after losing 4 wickets for 21 and we played out time for a draw. Against Cheltenham, Thursfield with the excellent figures of 13:3:17:4 and Pulteney with 8:5:6:4 bowled beautifully to dismiss them for 87 and with Murton scoring 48 not out we won by 5 wickets. Abingdon was a drawn match in their favour and then came a tremendous contest against Rugby. We scored 110 and at 39 for 0 in reply they were in complete command. At this stage the seamers broke through and at 46 for 5 and then 61 for 6 the match was poised. Sound batting took them to 86 before Pulteney bowling well took 3 wickets, and at 93 for 9 the match should have been ours. Rugby however are made of sterner stuff and 10 and 11 batting sensibly, scored the 18 needed. Radley, always a difficult side to beat, were our next and final opponents. We had another bad start but Fawcus with a dour, grafting, but vital innings of 53 well supported by Maxfield 28 and Murton 23 helped raise the score to 153. Against a strong batting side this should not

have been enough; but accurate and sustained fast bowling and three run-outs from direct strikes on the stumps gave us a memorable victory by 24 runs. A wonderful climax to the season.

Charles Murton did well with an XI who, although lacking the ability of past sides, used all that they had to good affect. Very keen and always cheerful they worked hard at their game. Always desperately short of runs and lacking a left arm orthodox bowler, the side were committed to seam bowling and on occasions, defensive tactics. However, there were many close and exciting finishes and the last home matches against Rugby and Radley will long be remembered.

The XI was selected from the following: A. C. Murton; S. H. Lawton-Smith; D. J. Maxfield; D. J. Fawcus; G. J. A. Pulteney; K. E. Halstead; J. H. C. Johnstone; N. W. Mainwood; H. T. Thursfield; G. M. T. Barnes; R. A. Wilson and C. W. Mackaness.

Cricket 1975

Won 4, Lost 4, Drawn 3, Abandoned 2

'When we were good we were very, very good, but when we were bad we were 'orrid'; not quite the correct quotation but if applied to this year's XI most appropriate. In the School matches there was no middle path, we either won or lost convincingly. In early season nets and A XI matches it became obvious that the batting yet again would be the problem and this proved the case. The fast bowling was very good in early School matches and Stowe, Bradfield and Cheltenham were put to the sword. Barnes who headed the bowling analysis with 29 wickets for 15.02 runs each was the chief architect of these wins. At this stage with 17 wickets in 3 matches he was lethal but later lost his edge. Thursfield, who topped the batting averages with 23.90 also bowled well but this year luck was absent. Pimlott a fine team man made himself a sound wicket-keeper and played some good innings.

We started the season against M.C.C. for whom Alan Day scored the immaculate century that we have come to expect. This ensured a total beyond our means and we settled for a draw, as we were forced to do in the Foresters match which came next. Again an excellent hundred, by N. Pocock, a fine player, and 217 needed for victory. This time however we batted much better and with Thursfield scoring 52 not out and good support from Boulton, Pimlott and Cowap we finished 44 short with 4 wickets in hand. Both the Oundle and Harrow matches were abandoned because of rain and then came Stowe and our first School win. Barnes (5 for 45) and Thursfield (4 for 31) bowling unchanged, and supported by good fielding, dismissed them for 78. After losing 4 wickets for 17 we eventually won by 2 wickets. Bradfield came next and our second win. In a long 'grafting' innings the School reached 143 for 8 declared with Thursfield 75, and Thom 30, the main scorers. Bradfield, immediately in trouble against our 'seamers' managed only 77 with Barnes

taking 4 for 19 and Buckingham 5 for 24. Facing a total of 192 for 7 declared against the Cryptics and having lost 4 wicket for 19 runs we played out time for a draw. Martyrs, with Simon Northcote-Green scoring a magnificent century set us 183 to win in even time. They won by 23 runs with Edward Thom (5 for 47) and Steve Williams (4 for 66) doing the damage. After Exeat we journeyed to Cheltenham College and in a fluctuating match beat them by 63 runs. Batting first we were in severe trouble at 53 for 6 but Boulton with 42 and Wilson with 29 took the score to 113 and we reached 132 all out. This should have been an easy proposition for Cheltenham but accurate and hostile fast bowling by Barnes who took 8 for 38 in 20 overs and superlative catching enabled us to dismiss them for 69. At Bedford after another bad start we reached 151 for 9 declared, thanks to a fine innings of 69 by Mackaness and 35 from the Captain. The strong Bedford batting found this target no problem and they cantered to a 9 wicket win with 4 overs to spare. For the second year running the School put up an abysmal performance against Abingdon. Set to score 192 for victory after a lethargic showing in the field in which the one bright spot was Miscampbell's first long bowl, we collapsed against pace bowling on a good wicket and were 'shot out' for 67. Only Cowap with 24, reached double figures. After two severe thrashings and the consequent lowering of morale the outlook was not auspicious for the next match at Rugby. On a turning wicket which got progressively worse, Miscampbell bowled beautifully to take 6 for 52 in 20 overs. We were set to score 153 for victory on a wicket now turning square. After our recent batting failures this was a daunting task, however, thanks to an innings of tremendous character from Pimlott who scored 64 and useful support from Mackaness, Cowap and Boulton we won by 3 wickets. This our first defeat of Rugby was to my mind the best performance by the School for many seasons. After the champagne, the small beer! Against Radley our next opponents we were back to our very worst. This time we at least got away to a reasonable start and were going nicely at 52 for 2 after an hour's play. We seemed poised for a useful score but a caught and bowled off a rank long hop, a ridiculous run out, several shots best forgotten and all back in the 'hutch' for 76. Radley took a bit of batting practice to win by 9 wickets and the match was over at a quarter to four.

An unpredictable side! Looking so very good when attacking and on top, so awful when things started to go wrong. Hugh Thursfield tried desperately to inspire by personal performance but perhaps, conscious of the dearth of runs, relied too much on his fast bowling. In the event 4 wins and 3 losses in School matches was a fine accomplishment and a good return for much hard work at fielding and net practice. We would certainly have settled for these results before the season commenced but, oh for a 'Thackery' in the middle order, who knows what might have been achieved.

I found the eleven a pleasant and happy group to work with and, it was I think, an enjoyable season for all concerned.

CRICKET XI 1976

L-R BACK ROW N.B. KARIM, H.T. ROGERS, J.M.J. FORD, M.F. MAUDSLEY, N.R. CHAUMETON, M.S. SCRAGG

L-R SEATED W.H.G. HIGGINS, C.W. MACKANESS, P.W. THOM (CAPTAIN), A.I.F. MISCAMPBELL, S.L.B. GILL

Cricket 1976

Won 1; Lost 5; Drawn 7

The above statistics make sorry reading, but the 1976 side was not really as bad as this, for the results give no indication of much good cricket played. We had expected to start the season with four colours but injury and illness robbed us of two of these for early matches and one subsequently never regained his form. Injury to Miscampbell also deprived us of our most prolific wicket-taker at a critical stage. The side thus lacked the necessary experience and this proved vital when pressure was on. The batting was the soundest for some seasons but the bowling was short of real pace and lacked penetration on good wickets. Maudsley, still a colt, scored consistently to head the batting averages with 450 runs averaging 34.6, his innings against Bedford being a classic. However, better judgement of the run would have enabled him to reach his century before lunch. The Captain also scored well and with the first eight all making runs we usually managed a worth-while total. Unfortunately the bowling and occasionally the fielding did not match up to the batting and we lost three matches having set the opposition a target. Ford, who graduated to the XI from first the "Pickles-Ford net marathon" and then the 3rd XI, added variety to the attack and headed the bowling averages with 12 wickets costing 18.6 runs each. Karim and Miscampbell also bowled well at times, but it is ironic that in a season when not an hour's match cricket was lost through weather the latter did not have one spinner's wicket to bowl on. The early matches against M.C.C. and the Free

Foresters were drawn with honours about even. Gideon Hudson returning to play against the school for the premier side, scored a superb 140 not out, already exposing the limitations of our attack. However, the batting looked reasonable, with depth, and the XI left for Oundle with high hopes. Against very good pace bowling on a "seamers" wicket the side fought back to reach 147-8 declared leaving the opposition 2 hours 20 mins. to get the runs. At 75-5 victory seemed ours but sensible hitting by their number six swung the match and we were beaten by three wickets, with an over to go. Stowe next, with the batting again performing pretty well enabling 171 to be set in 2 hrs. 40 mins. This Stowe achieved very easily against poor bowling and uninspired fielding. Harrow after two defeats were a daunting prospect and we were again beaten. At 76-2 with Maudsley (40) and Thom (24) going well, we were well placed, but a collapse ensued and the side could muster only 96 and Harrow knocked these off for one wicket. The Cryptics were our next opponents and at last the elusive victory. Set 185 in even time the School won an exciting game in the last over with Gill 65 not out and Chaumeton 45 not out the main scorers. In a low scoring match against the Martyrs we just failed to reach the 114 needed, scoring 110-8, dour cricket this with bowlers always on top. Against Cheltenham, having bowled them out for 199 we were coasting to a win with Maudsley (86) going very well and with time in hand. Four wickets then fell for 15 runs and we finished with 184-8. Splendid batting by Maudsley (102), Higgins, Gill

and Thom against a strong Bedford side enabled the School to declare at 193-3. Unfortunately although having them in dire trouble at 111-7 we could not force the win. The Abingdon match was a dull draw. Attempting to score 206 runs in 2 hrs. 30 mins. we lost early wickets and got behind the clock, eventually scoring 142-4. Maudsley and Thom again batted well against Rugby and with Chaumeton striking a quick 41 the XI were able to declare at 183-9, leaving 2 hrs. 50mins. to get the runs. This Rugby managed by sound batting helped by catching and fielding errors. After last year's debacle against Radley we approached this, our last match, with some trepidation. Our worst fears were realised for we collapsed against good seam bowling and were dismissed for 63. Radley thrashed these off in 10.5 overs thus crushing us for the second year running.

In spite of the lack of success the XI stayed in good heart and were a joy to work with. Possibly the youngest side ever to represent the School they worked hard at their game and deserved better fortune. However, with nine returning for 1977 the future looks extremely rosy.

B.R.E.

The XI were: P. W. Thom, C. W. Mackaness, A. I. F. Miscampbell, W. H. Higgins, S. L. B. Gill, M. F. Maudsley, N. B. Karim, H. T. Rogers, N. R. Chaumeton, J. M. J. Ford, and M. S. Scragg.

The School beat Cryptics; lost to Oundle, Stowe, Harrow, Rugby and Radley; drew with M.C.C., Free Foresters, Bradfield, Martyrs, Cheltenham, Bedford and Abingdon.

CRICKET XI 1977

L-R BACK ROW H.W. BLACKETT, E.J.C. FRY, N.R. CHAUMETON, A.H. MUNSEY, C.A.M. REID, H.T. ROGERS

L-R SEATED S.L.B. GILL, A.I.F. MISCAMPBELL, P.W. THOM (CAPTAIN), M.F. MAUDSLEY, J.M.J. FORD

Cricket

Won 4, Lost 3, Drawn 5, Abandoned 2

This was a season of mixed fortunes, starting badly with defeats by Oundle and Harrow but finishing well with outstanding wins against Cheltenham, Bedford and Radley. The matches against Bradfield, Abingdon and Rugby were drawn. The early season injury of Maudsley our key batsman robbed the XI of his services for the first four matches; but on his return and with the inclusion of Munsey the batting took on a new dimension. The latter, who added much needed stability to the middle order topped the averages with 45.5. Ford, a great trier headed the bowling averages with 37 wickets costing 10.43 runs apiece. Chaumeton, Rogers and Miscampbell also bowled very well on occasions. The fielding improved out of all recognition as the season progressed, with the catching, in later matches of a very high standard, contributing much to the better results. Gill as always was his safe and competent self behind the stumps but was not the force with the bat.

Rain was the winner in April and early May causing cancellation of the "A" XI practice matches and out first ever fixture with Eton. We did manage half a match against M.C.C. when the bowlers performed well, as they did against the Free Foresters a week later, when a full contest was possible. Dismissing a strong batting side for 153 the XI were in a strong position at 104 for 3 with Chaumeton in full flow. Wickets then fell, and against high-class bowling we were fortunate to survive at 135 for 8. Oundle next, was a disaster, the batting collapsing on a slow wicket, with only Blackett, 39, and Gill reaching double figures. Oundle scored the 71 needed in 24 overs for the loss of 2 wickets. On yet

another slow, wet wicket, Rogers bowled superbly with good support from Miscampbell to dismiss Harrow for 100. This however proved too many, for our out-of-form batsmen who could manage only 65.

Bradfield set us 180 to win in two hours 55 minutes but after losing 3 wickets for 11 runs and getting well behind the clock we had to settle for a draw at 140 for 8. Blackett with 46 and Maudsley, returning after injury, were the main scorers. Cryptics came next, and at last the victory that we so badly needed. The batting at last came good, and with Blackett 58, Maudsley 41 and good supporting innings from Chaumeton, Rogers and Munsey, a declaration was possible at 209 for 8. Splendid bowling by Ford 6 for 50, and Chaumeton 4 for 42 backed up by good fielding and catching dismissed Cryptics for 115.

In great spirits the side next took on Cheltenham, who on winning the toss were bowled out for 196, leaving us 2 hours 20 minutes to get the runs. This looked a formidable task, but after a magnificent opening stand of 116 between Maudsley and Fry and a typical plundered 28 by Chaumeton to put us ahead of the clock. Gill struck the winning blow with 3½ overs left. A strong Martyrs side put the XI to the sword at Gaudy scoring 181 for 6 dec. and then exploiting their known weakness against leg spin to dismiss them for 87. Over the years S.E.S. XI's have spent many hours in the field watching Bedford grind on to large totals. It did our hearts good this season to see Ford, in a wonderful spell of attacking, fast bowling, demolish their batting with 7 wickets for 22 runs in 19.1 overs. With Chaumeton taking 2 for 24 and a run-out, Bedford were shot out for 79 and these were knocked off for the loss of 4 wickets.

Abingdon, our next opponents, made no attempt to score the 196 set them after Munsey 67, Gill, Chaumeton, Scragg and Fry had contributed to a total of 195 for 8 declared. The match was drawn with Abingdon 83 for 4. Winning the toss against Rugby the batting recovered from 19 for 3 to reach 180 for 8 declared with Munsey 46, Thom 35, Gill 26 and a swash-buckling 33 by Scragg providing the bulk of the runs. After 4 hours 45 minutes in the field the understandably weary Rugby batsmen were assaulted and decimated by hostile fast bowling and superb catching (Munsey's 4 in the slips were breathtaking), Chaumeton taking 6 for 23 in 15 overs and Ford 3 for 40 in 18 overs. However, at 62 for 9 with 13 overs left the "quickies" tired and the last pair, batting sensibly stayed together and robbed us of the victory so richly deserved.

Although heavily defeated in the two previous seasons, the side travelled to Radley with tails up, confident that this trend would be reversed. Batting first, we reached 164 by sound, if uninspired tactics with most of the batsmen chipping in. Yet again, the pace-men were on target and with the spinners coming on to wrap up the tail, Radley were convincingly thrashed by 89 runs. A wonderful way to finish the season and we were sorry that it had ended.

1977 was an enjoyable and successful season with the XI finishing in great form to register 3 wins and 2 moral victories in the last 5 School matches. All members of a hard working and happy side contributed to this success but the bowlers, the pace men especially, were the cutting edge that clinched our victories. Peter Thom struggling with injury and loss of personal form, handled the side well, fought hard and must take much of the credit for the way the XI came back after a shattering start. Finally, many thanks to our efficient scorers, and to the hard working and conscientious secretary Andy Miscampbell.

B.R.E.

The XI were: P. W. Thom, A. I. F. Miscampbell, S. L. B. Gill, M. F. Maudsley, H. T. Rogers, N. R. Chaumeton, J. M. J. Ford, M. S. Scragg, H. W. Blackett, E. J. C. Fry, and A. H. Munsey.

The School beat Cryptics, Cheltenham, Bedford and Radley; lost to Oundle, Harrow and Martyrs; drew with Free Foresters, Bradfield, Abingdon, Rugby and M.C.C. The matches against Eton and Stowe were abandoned.

CRICKET XI 1978

L-R BACK ROW J.A. LYONS, S.A. TALBOT-WILLIAMS, W.P.D. WALTER, P.R.J. SMITH, C.G. LAWLESS, C.D.V. ISARD

L-R SEATED C.A.M REID, N.R. CHAUMETON, H.T. ROGERS (CAPTAIN), H.W. BLACKETT.M.P. MALLALIEU

Cricket

Won 1, Lost 4, Drawn 7, Abandoned 1

As the results show, this was a disappointing season, with both the batting, at times short of character and resolution, and the bowling, which lacked penetration, contributing to the dismal record. There was a wonderful period in early season when runs came freely and Chaumeton scored two superb not out centuries in four days against Stowe and Oundle. However, 297 runs in the season for so talented a player was a comparative failure and he was headed in the averages by Heeley, who joined the XI for the last four matches to add some stability to the brittle middle order. Talbot-Williams always looked good but consistently got himself out when the big score was there for the taking. Hugh Rogers as well as captaining efficiently did very well in the other departments playing some fine innings, but the rest of the batting too often failed and thus we were usually short of runs. The bowling was just not good enough, and when one considers that only once in a full season were the opposition bowled out, there is little wonder that more matches were not won. Chaumeton headed the averages but was not the

force that we had hoped for after his performance with the ball last season. The ground fielding was good with Blackett in the covers out-standing and the catching sound. Isard, behind the stumps, was competent and as the season progressed learned to concentrate and work at his game.

Rain yet again, robbed us of the M.C.C. match and the first ever clash with Eton was played in appalling conditions, good practise for the season to come. Rogers bowled very well in this match taking 5 for 27 in 27 overs to help restrict Eton to 123 for 8 in 3 hrs. 57 mins. batting. With the outfield saturated the only real chance of a win was an assault by Chaumeton, and when this failed the match fizzled out with the score 46 for 5. Harrow our next opponents, declared at 197 for 5 leaving us 2 hrs. 53 mins. to get the runs. A win looked possible at 104 for 4 with Rogers (61 not out) and Smith (24) going well, with Chaumeton to come, but wickets fell and we finished at 157 for 8. Against Bradfield with Rogers (40) again playing well and good support from Mallalieu (45) Lawless (22) and Talbot-Williams (26) the school declared at 188 for 8, leaving the opposition

3 hrs. to make the runs. No real effort was made and the match was drawn with Bradfield 148 for 5. Stowe came next, and having won the toss our batsmen really cut loose. Chaumeton (107 not out) and Talbot-Williams (61) put on 113 for the second wicket and the School declared at 211 for 6 after 3 hrs. 6 mins. Stowe, having looked at one time likely winners, scored 178 for 4 in 3 hrs. 11 mins. against some extremely friendly bowling. The long trip to Oundle did not deter our batsmen for once again they were in tremendous form. Chaumeton (103 not out) Lawless (41), Talbot-Williams (34) and Reid (27 not out) hammered the Oundle attack for 2 hrs. 53 mins. enabling a declaration to be made at 257 for 7. The pace bowlers then struck, and had Oundle reeling at 45 for 5, but a marvellous innings of 131 by G. Leivers, a hard-hitting right hander, not only brought them back into the game but at 206 for 7 with seven overs left, a chance of a memorable victory. However, Leivers was caught at this stage and with the ninth wicket falling immediately the last pair were left to bat out time, which they accomplished successfully. Very disappointing for the XI but a truly wonderful game of cricket. At Gaudy the bowlers performed well to dismiss the Martyrs for 145, but this proved too large a target when Edward Thom, with his beautifully flighted leg-spin, cast his net. After the seamers had made early in-roads he ran through the middle and late order to finish with figures of 6 for 20 in eight overs, to emphasise what a high class spinner he has become. The batting failed again when electing to take strike against Cheltenham. On a good wicket we collapsed and were bundled out for 95 with only Chaumeton (43) offering resistance. Cheltenham passed this total after early alarms when four wickets went down for 37 but the fifth wicket pair added 62 and that was that. Very rarely do we get a sticky wicket at St. Edward's but this occurred after over-night rain for the match against Bedford. Unfortunately they read the conditions and having won the toss put us in and with a combination of off and leg-spin bowled us out for 80. The very competent Bedford batting knocked these off in 36 overs for the loss of two wickets. The Cryptics, our next opponents, set us the very fair target of 160 in 2 hrs. 50 ins. after a promising bowl by Nigel Friend who took 2 for 36 in 15 overs in his first match for the XI, Rogers (86 not out) and Heeley (29 not out) also making his debut, in a stand of 112 took us to comfortable win with seven overs to spare. Abingdon having won the toss scored 227 in 3 hrs. 23 mins. against an attack in which only Chaumeton (7 for 77) and Friend looked 1st XI bowlers. The batting collapsed yet again after the long grind in the field and we were dismissed for 116. The Rugby match was a disappointing draw with the opposition making little effort to score the 168 left them after we had been put in, with Heeley scoring 65 of this total. Rugby finished at 102 for 4. In the last match Radley batted

very well to score 218 for 4 leaving us 2 hrs. 44 mins. to score the runs. After losing three wickets for 56 runs, Rogers (64) and Heeley (36), in a stand of 81 gave us hope of an exciting victory, but when they were separated, wickets fell quickly and we were lucky to survive at 162 for 9.

It would be fair to say, that the XI were just not good enough. The batting before Gaudy was adequate and enough runs were scored to have won us matches had we a Ford and Miscampbell in the attack. After Gaudy with Chaumeton's purple patch ended, runs were at a premium, but it is bowling that wins school matches and it was in this department that we were sadly lacking. Hugh Rogers tried very hard throughout a trying season and handled the side well but he could not perform miracles. Although short of success no XI in recent years has practised harder and they always remained cheerful and a pleasure to work with.

Thanks finally to Andrew Peregrine for scoring so efficiently and for the mass of hard work put in on averages, etc., and helping compile the following

B.R.E.

The XI were: H. T. Rogers, N. R. Chaumeton, H. W. Blackett, M. P. Mallalieu, C. A. M. Reid, C. G. Lawless, S. A. Talbot-Williams, C. D. V. Isard, M. A. Heeley, P. R. J. Smith and J. A. Lyons.

Results:

The School beat Cryptics; Lost to Martyrs, Cheltenham, Bedford and Abingdon; Drew with Eton, Harrow, Stowe, Oundle, Bradfield, Rugby and Radley. The match against M.C.C. was abandoned.

Cricket

S.E.S. v. M.C.C.

1st XI REPORT 1979 SEASON

Played 12, won 3, lost 4, drawn 5, Abandoned 1.

The 1979 Season began in some of the most wintry conditions imaginable which made the mere thought of playing cricket somewhat foolish. Nevertheless despite the elements only one match had to be cancelled due to the weather. As a result of the wet conditions wickets were never hard and true and consequently some low scoring games were inevitable. It was not until the latter part of the season when some recognizable summer weather arrived that better wickets were possible.

The first match against an ageing M.C.C. side was still a good test for the new XI. Conditions were passable and the habitual appearance of one A. R. Day for the opposition meant the M.C.C. would probably muster enough runs. As usual the opposition batted first and as usual A. R. Day batted competently to come to lunch 67 not out. The first ball after lunch was a "long hop" which he kindly hit towards cover where N. A. Friend made an extremely good catch. As he reached the pavilion mutterings were heard "Failed again Day." After 3 hours batting and some good bowling by N. Arkell (5-36) the M.C.C. were bowled out for 147. After losing two or three wickets in the 30's the chase was not really on and survival was the necessary action. J. Lyons (52) batted extremely well to save the game.

In the match against Eton the weather intervened. In many ways we were lucky to play at all because of some heavy overnight rain. The wicket was inevitably very wet and we were duly "inserted." We only managed to muster 54 runs which Eton made for the loss of two wickets. They also did not find making runs at all easy as they took over two hours to make the required score.

The match against Oundle was actually played in good conditions and some good cricket was seen from both sides. Oundle made 172 mainly due to C. Longbottom (67) who ran himself out which rather changed the game. In our innings the honours went to N. A. Friend (55) and S. K. Lewis (58) who batted extremely well to make victory possible by 5 wickets. It was a good all round performance, especially the fielding.

We went into the match against Harrow feeling reasonably confident and hoping for a good result. This was not to be so. Having been put in by Harrow on a very good wicket we found ourselves 27 for 5 after 40 minutes. However M. Heeley (57) and P. Smith (48) managed to steer the ship out of trouble and we reached a respectable score of 157. The Harrow openers were in fine form and both batted superbly to make the score level whereupon the Captain C. J. Lawless decided to bowl and, what is more, he was successful! Nevertheless the inevitable occurred and Harrow were worthy victors by 9 wickets.

The match against Bradfield resulted in a very dull draw due to a poor declaration by the opposition who made 220-5. There was never enough time to make the runs and we concluded at 163-6, with S. Talbot-Williams, S. K. Lewis and M. Heeley all batting competently.

The result of the season was undoubtedly against Radley who were beaten by 5 wickets. Again the weather intervened but we managed to play on a reasonable wicket. Radley batted first and in fairness they did not bat at all well and were bowled out for 101 with P. Smith taking 6-32, his best return of the season. After a sound start it was left to M. Heeley (44 n.o.) to play a fine innings to win the match by 4 wickets.

At Gaudy yet again the weather intervened and a 40-over limited over match was agreed. Inevitably the scores were low with the Martyrs making 104 and the School 94-9. Some accurate bowling by H. Thursfield and J. Lawton-Smith never allowed the school batsmen to take command.

At Cheltenham College we finally came across a true hard wicket but we did not take advantage of the conditions. Cheltenham made 181 with N. A. Friend producing a fine bowling analysis of 17-2-58-7. We could not however achieve a high enough scoring rate and consequently the game ended in a tame draw.

At Bedford some very heavy overnight rain again influenced play. We did not bat at all well against some good seam bowling by J. D. Cook (6-24) and consequently we only made 99 runs with S. K. Lewis (36) making the highest contribution. The bowlers stuck to their task and managed to take 6 Bedford wickets before they passed into three figures. If we only had scored another 30 or 40 runs the result could well have been different.

The match against the Cryptics (i.e. the Common Room) saw some entertaining cricket. We bowled efficiently, possibly luckily, to dismiss the opposition for 171 after a fighting innings by J. J. McPartlin (26). The second innings was dominated by S. A. Talbot-Williams who made 103 not out. He batted extremely well and showed what a potentially very good batsman he is. He was ably supported by J. Lyons (31) and M. Heeley (28) and we won by seven wickets.

The last two games against Abingdon and Rugby were probably the most traumatic of the season. The age old adage of "Cricket's a funny game" could well be applied to both these matches. Against Abingdon we lost by one run a game we should have won easily. We dismissed them for 163 which was well within our capability. We were going very steadily at 133-4 when S. Talbot-Williams was out for 60. From then on things went from bad to worse and we were finally bowled out for 162. The gallery watched in disbelief, but that's cricket.

The match against Rugby yet again saw S. A. Talbot-Williams continuing his fine run of scores. He failed by one run to score his second hundred of the season. At lunch we were 170-1 which quite astounded everyone, particularly the opposition. We declared at 241-7 with C. J. Lawless making a fine 67. Rugby began their innings in much the same way as we had begun ours and A. R. G. Barnard batted very fluently to make 121. Rugby kept up with the required run rate and with two overs to go needed 14 runs with plenty of wickets in hand. Incredibly they only achieved 13 runs and the game ended in a tied draw. We were lucky to escape save for a bizarre run out incident in which their Captain D. Cutler (40) was probably given out when in fact his partner was out. If the Captain had remained for those last two overs I am sure that Rugby would have won.

Despite the very disappointing performance against Abingdon and the earlier games against Eton and Harrow it was a very enjoyable season. The side was well led by C. J. Lawless who certainly fielded by example. The fielding on occasions was of a high standard with some notable incidents—several good catches by N. Friend, one extremely good catch by N. Arkell at Bedford, a leg-side stumping by C. D. V. Isard, and a bizarre run out at Bedford involving T. Rogers. Thanks go to Brian Edrich who again was

tireless in his coaching as well as producing some excellent net wickets.

The following were awarded their colours:—C. J. Lawless, S. A. Talbot-Williams, M. Heeley, S. K. Lewis, N. A. Friend, J. A. Lyons, C. D. V. Isard, P. J. R. Smith, N. H. M. Arkell, S. E. F. Powell and W. J. Armstrong.

Also played:—T. J. Rogers and N. J. Gates.

CRICKET

1st XI

Played 11, Won 1, Drawn 7, Lost 3, Abandoned 3

As can be seen from the results this was a disappointing season. In many of the matches however we were not outplayed but rather did not play to our potential. The exception to this was Harrow, where we were beaten by a better side even though they were made to fight every inch of the way. Undoubtedly the highlight of the season was the match against Eton in which two centuries were scored by J. A. Lyons (captain) and N. A. Friend. This was truly a remarkable piece of batting, particularly in the session after lunch when they scored 150 runs in 80 minutes. As Frank Spragg commented in the "Sunday Telegraph," it was some of the most exhilarating schoolboy cricket he had seen for some time. During the season there were other good individual performances, notably P. J. R. Smith who scored a fine century against Stowe and also batted fairly soundly throughout. S. H. Smith came back into the XI in the latter half of the season and batted extremely competently for a young player. N. H. M. Arkell bowled with a great deal of determination but never really looked like bowling a side out. The spin attack comprised N. Friend (13 wickets), T. Rogers (14 wickets) and W. J. Armstrong (8 wickets). They all bowled quite well and it was a pity that Armstrong did not find his form or his enthusiasm for the game until later on in the term, because he began to bowl very well. D. J. E. Arkell, a young player who shows much promise, never produced his potential this season. He tried hard with the new ball but his future as a cricketer is with the bat; with application and concentration he could make a lot of runs next season. J. C. P. Vernon-Powell added colour to the side. He kept wicket with his usual tenacity and style and when batting one was always prepared for something to happen and more often than not it did.

One can rarely write a cricket report without mentioning the weather and it did play quite a part in the season's activities, causing three games to be abandoned. May was unusually dry but not very warm and some hard wickets resulted with some high scoring games. The latter half of the term was mostly wet and miserable and not really conducive to enjoyable cricket.

D. J. E. Arkell opens the bowling against Stowe

Cricket

1st XI

"It never rains but it pours"

This quotation sums up the appalling weather conditions that were forced upon us, particularly during May. Now that exams are coming earlier and earlier into the Summer term, May has become the month in which the bulk of the cricket fixtures must take place. In fact it was extremely fortunate that only two block fixtures, against Radley and Bradfield, were cancelled. Despite the inclement weather conditions, few practice days were lost, due to the main net area draining so efficiently.

In general this season has been not only an enjoyable one but also a reasonably successful one and this includes not just the XI but other school sides such as the 3rd XI who pulled off some remarkable victories.

The XI's strength lay in its batting which was certainly anticipated before the start of the season. This soon became apparent in the first school match against Eton early in May. Eton batted first and made 204—3 on a very wet wicket. The target, to be made in 145 minutes, was achieved with some remarkable batting from everybody. The openers Alastair Lamb (50) and David Soper (32) gave the side a sound start. Nick Gates (34), Nigel Friend (38 n.o.) and David Arkell (43 n.o.) all contributed to a victory much against the odds. The bowling on both sides was of a poor standard but Eton must be severely criticized for not bowling their two spinners.

The MCC match proved to be a day for batsmen as well. Lamb (38) and Soper (53) again batted well to give a sound basis for a good total. Friend, Simon Smith, Gates and Arkell all contributed enabling the declaration to be made at 196—4. The MCC were not really in the game until Mark Williams (O.S.E.) made a very quick 43 and enabled them to win in the last over. In all, a good game of cricket.

The match against Oundle ended in a tame draw, neither side bowling well enough to force a victory. The batting was sound, with Philip Blanchard (57), Lamb (44), Soper (28) and Friend (65) helping to reach a total of 219—6. Oundle were never really in the hunt and finished at 144—7. In league parlance this is often described as a "winning draw" or a moral victory.

Harrow were probably the best balanced side of all our opponents. Their opening bowling attack was certainly the best. As usual their batting was very competent, and having been put in they made a respectable total of 184—7, their captain making a fine 74. Wickets were lost in the pre-tea session and the game ended in a very tame draw with the total at 70—4. Lamb again batted throughout, unbeaten on 34.

At Gaudy, Julian Lawton-Smith produced a strong side and the bowlers did well to contain them to a total of 139, Tony Sykes contributing a solid 48. Unfortunately the Martyrs' bowling was just a little too strong but even so there were only two runs separating the sides at the end. Lamb (57) provided the mainstay of the School's innings with good support from Robert Mitchell (23 n.o.) who could not quite bring off victory in the last overs.

At Cheltenham our victory at Eton was instrumental in causing a delayed declaration that left too little time to make the required 203. Cheltenham batted far too slowly and our bowling was hardly penetrating. Consequently neither side deserved to win and a rather dull draw resulted. Soper (65) batted extremely well and showed potentially what a good player he is.

At Bedford yet again it was the batsmen who were on top for most of the game. On a very "flat" pitch and on one of the few summer days it was inevitable that the batsmen were in command. Our total of 223—3 included an excellent innings from S. Smith (62 n.o.) and an opening stand of 125 (Lamb 66, Soper 58). Bedford were never up with the asking rate and the bowling again was incapable of winning the match, which was not surprising on such a good wicket.

The Cryptics (alias the Martyrs) produced a very good game of cricket. Their bowlers were always in command in the form of N. Chaumeton and M. Ford. The visitors made 205—7 declared and the reply was 171 all out, but the last wicket fell in the last over. Lamb (84) again formed the main individual score of the total.

The match against Abingdon produced the second victory of the season, an exciting game won on the fifth ball of the last over. Lamb (96) batted maturely with the others all contributing a few runs. It was finally left to Paul Bishop, who had rarely batted in earnest, and Peter Hood in his first game in the XI, to make the last 14 runs.

At Rugby, on a wicket suited to every kind of bowler, runs were hard to come by. It was a struggle to reach 147 but Lamb (57) continued his fine form and without a valuable ninth wicket partnership of 23 runs by Mitchell and Adams things might have been different.

Rugby also found batting difficult, particularly against the bowling of Friend (2—23) and Mitchell (3—19). After losing seven wickets for 94 they decided to "put up the shutters" and settle for a draw and closed at 107—8.

The final match against Stowe was the only cricket "disaster" of the season. Again the "unfortunate" win over Eton was in part the cause of a very late declaration by Stowe. They made 269—5 with Lester (capt.) making a fine century. With only two hours 20 minutes to reach the vast total the chase was never really on. The innings closed at 163—3 with Smith making a very sound 77 not out. Both sides had poor bowling attacks and hence found it difficult to force a result.

My thanks go as always to Brian Edrich for all his efforts both on the wickets and in the nets. Without his advice, experience and anecdotes the season would not be the same. Thanks to Mr. and Mrs. Jacques for their hard work in the pavilion.

In conclusion my thanks go to Nigel Friend who captained the side in a mature and responsible manner and certainly led the fielding by example. Being captain of a cricket side is rarely easy and I am sure he has learnt a lot about the job in the past term. Alastair Lamb emerged as a formidable scorer of runs. He is not always elegant but has tremendous concentration and that "Boycott" desire to occupy the crease. David Soper showed unending enthusiasm for the game in all departments but as a batsman he bridged the gap between Colts and 1st XI impressively. He has great potential and hopefully only the tip of the iceberg has been seen. Simon Smith began to bat well in the later part of the season and next year his real ability will come to the fore. The bowling was limited but there were signs that Robert Mitchell might be a force next season.

Cricket

1st XI

Played 13, Won 3, Lost 2, Drawn 6, Abandoned 2

In retrospect this XI did not fulfil its true potential, particularly regarding the batting. Several established players from last year did not produce the quantity of runs or wickets expected of them. It is always difficult to win at this level and many would agree that to win four or five matches means a very successful season. This season, only three matches were won (M.C.C., Rugby and Cheltenham College) but a moral victory was achieved against Eton. The match against Stowe was affected by rain but if the side had batted anywhere near their potential then we might have gained another victory. However, "ifs" are of no value, particularly in a game like cricket which often produces remarkable results. No doubt one or two members of the side would quote the adage "cricket's a funny old game!" Nevertheless, with a bit of luck things could have been different, but that was not to be the case.

The opening match against an M.C.C. side managed by Edward Thom (O.S.E.) contained several old boys, including G. Hudson who batted rather well to enable a fair declaration to be made at 210—6; the out-cricket was reasonable with Rayne (3—34) and Franklin (3—56) sharing the wickets. The batting was

anchored by Soper (64), ably supported by Arkell (49), Cane (29) and P. Bishop (29), and the target was reached with a few overs to spare.

The Eton match was extremely exciting and they were fortunate to hold out at 127—8 chasing a solid total of 200—8 declared (Soper 49, Blanchard 49). The Eton batsmen found the chinaman/googly bowling of Franklin difficult to cope with and he finished with fine figures of 5—47.

At Bradfield on a fine sunny day the home team batted first and a very good hundred from their captain was the stumbling block: having been dropped at a critical stage, he made 114 out of 186—8, with the next top scorer being 18. After a tremendous start to the innings (Lamb 25, Soper 38) the middle order failed disastrously and from then on we could only salvage a draw, finishing at 128—7, Cane making a sound 20 not out.

At Harrow, we won the toss and elected to bat yet again, but with the exception of Soper (47), the senior batsmen failed, mustering only 22 runs between them. At 90—6 things looked fairly black, but a remarkable recovery was made by Bishop (31) and Mitchell (29) who rallied the score to a respectable 181. The Harrow batsmen were never in much difficulty but they could not score quite fast enough and, attempting to accelerate, they lost both wickets and momentum, and settled for a draw 30 runs short.

Stowe visited us on one of the rare wet days in May. They struggled to 81—6 not very impressively and one sensed that if the game had reached a conclusion we ought to have won.

The local Derby against Radley was the low point of the season: this was the only match in which we were truly outclassed, in particular by their two fast opening bowlers (L. George and A. Moss). Radley batted first, reaching a good total of 209 with no one player dominating. We were dismissed for 89 with the pace bowling being just too much for all concerned.

At Gaudy the Martyrs mustered a very useful side. The School batted first making 194—9 declared, with Lamb (77) at last finding some form, and Soper contributing well with 33. Some mean bowling by S. Northcote-Green (5—55) kept the total under 200. The Martyrs could only find one batsman in form, G. Hudson again, who made an attractive 57. He had little support except from A. Sykes (32) and they finished at 174—9.

The victory over Cheltenham was the best of the season because they had been enjoying a very good season. We managed to bowl them out for 131, and Soper, having been promoted

to opening bowler, finished with 5—24. At last the captain S. Smith found some form by scoring 57, and a victory by six wickets was comfortably achieved.

The match against Bedford was abandoned after a tremendous thunderstorm completely flooded the square in mid-afternoon. We had struggled to 156 all out with de Putron making a solid half-century. Bedford were 22—1 when the heavens opened.

The Cryptics match produced 450 runs altogether, and a superb hundred by H. Rogers (O.S.E.) plus some hard hitting at the end by C. Mackaness (O.S.E.) and D. Drake-Brockman, enabled the captain, J. J. McPartlin, to declare at 241—6. De Putron (58) and Soper (60) formed the basis of the innings but the target of 241 was always a little too much and a draw became inevitable.

The match at Marlborough was the first at this level for many years. The wicket was green and not very hard and hence batting was never easy. However, the Marlborough openers put on 89, and then followed a remarkable collapse to 110—9. The last pair put on an invaluable 24 runs before Arkell on his return to the bowling arena completed the rout with figures of 5—19. We started very slowly and only de Putron (31) made any headway. Runs were hard to come by and though the threatened rain had held off for most of the day it finally ruined an exciting finish. We were 123—8 with four overs left, so it could have gone either way.

The victory against Rugby proved to be something of a capitulation. Batting first, we made a solid 199—5 declared, with de Putron (62), Smith (43) and Arkell scoring the bulk of the runs. Rugby in reply had no answer to the bowling of Franklin (6—45) and they were all out for 92 in 46 overs.

The final match against Oundle was nothing short of disaster. We could only make a modest 164 all out, with Arkell (58) batting extremely well. Oundle's innings started with a wicket in the first over but the game was dominated by a young player, A. Townsend (96 not out), who batted with maturity to see them home by three wickets. Arkell again bowled tidily to take 3—32.

In conclusion, the season could have been very good, but the outcome was somewhat disappointing, especially after sound performances early in the season against such sides as Eton and Harrow.

Finally, I would like to thank all those involved with the cricket but in particular Brian Edrich for his invaluable coaching and Mr. and Mrs. Jacques for all their work, especially on match days.

P.G.B.

Colours were awarded to: S. J. H. Smith (capt.), D. J. E. Arkell, D. A. Soper, A. M. A. Lamb, P. D. Blanchard, T. de Putron, P. J. A. Bishop, R. J. Mitchell, T. J. C. Rayne, D. A. Cane, R. N. C. Franklin. Also played: A. E. G. Lewis.

Cricket

1st XI

Played 14, Won 2, Lost 4, Drawn 8, Abandoned 1

As usual with any cricket report, the weather has to feature prominently. This year was no exception with one of the wettest Mays on record. However, as many predicted, the latter part of the term saw very little rain, though due to examinations most of our matches have to be played in May. Nevertheless only the Stowe match was lost to the weather, which was a pity because we might have had a fair chance of success.

As can be seen from the record of the season it was not one of the most successful, with only two matches being won (Cheltenham and Edinburgh Academy). The middle order batting let us down on several occasions and the last pair all too often had to bat out the remaining overs. It was the lack of runs that meant we were never in a strong position to dictate the game. The fact that the highest total of the season was 194 (v. Academy) is indicative of the problem. In retrospect we were lucky to draw against Bedford, Radley and Harrow, but on the other hand we might have beaten Rugby and Oundle if the odd catch had been held. The successful schools against us were Bradfield, Marlborough and Pocklington, with only Marlborough completely outplaying us.

There were some memorable moments during the season. In particular David Soper's century against Oundle was long overdue. For most of the season he had been providing most of the runs and it was fitting that in his last game on the square he achieved the coveted three figures. Not only was his batting vital but he also bowled a vast number of overs, taking 22 wickets. Overall a tremendous effort, and without him the side would have been somewhat depleted. Other moments included Robert Franklin's 7-63 against Cheltenham; Robert Sadler's hat-trick against Rugby; Alastair Cane's 96 against Pocklington; Paul Bishop's catching against Denstone; Alec Lewis's conversion into a sound opening bat; and the backlift of Michael Jones!

A special mention must be in order for Robert Franklin who this season amassed 47 wickets. His unorthodox type of bowling (left-arm "chinaman" and "googly") had many good batsmen wondering where the next ball would go. When he was bowling well there was always a chance of the unusual. As everyone knows "cricket is a funny game." As with D. Soper, without him the side would have struggled to win any games at all.

In the first match of the season against MCC the game should have been won but some rather inept batting meant that the last pair, M. Jones and R. Franklin, had to bat out the last few overs. The following week we travelled to Eton. The pitch was extremely wet and in any other summer the game would not have been played. However, the rain ceased for a few hours and a rather tame draw resulted. Having lost early wickets the target was never within reach.

Against Bradfield yet again poor batting, in particular the failure to play the "yorker," let us down and a meagre total of 90 was never enough. However, R. Franklin's teasing bowling (6-40) nearly pulled off a remarkable victory.

Year in and year out Harrow have been the strongest batting side on our circuit and when they declared at 180-7 we thought there was a chance. It was certainly not to be as we limped to 63-9. This was a game we ought to have lost but thanks to some poor captaincy by the opposition we salvaged a draw.

At Radley their powerful batting totalled a score of 205-8. Unusually it was the early batsmen who failed and only a stalwart innings by N. Telfer (21) and A. Lewis (24) saved the game. Even then the last pair yet again had to negotiate the remaining tense overs.

At Cheltenham, the only success of the term was largely due to some fine bowling by R. Franklin. Cheltenham were 5 wickets down with only 13 runs on the board at one stage but they recovered well through some sound middle order batting but were unable to sustain it. They finally capitulated 19 runs short.

At Bedford yet again we salvaged a draw. The bowlers did not bowl well and there was no support for D. Soper (49) in our innings.

The Cryptics (alias the Common Room) beat the XI all too easily. D. D-B. and E.C.D. totally disregarded the good length ball and scored the 177 runs required with time to spare. On a good wicket a total of 200 runs plus was necessary. Unfortunately D. Soper could not accelerate the innings and again the middle order provided very little. It was only a minor flourish from R. Sadler (27) and M. Jones (18) that made a declaration possible.

Against Marlborough a fine innings of 142 by Burrell enabled Marlborough to declare at a massive 245-3. This was well beyond our reach with only token resistance from A. Cane (52). Unusually all batsmen were caught! There must be a moral there.

At Rugby a sound innings by D. Soper (75) enabled a declaration at 176. However, this lowish total was due to some very slow batting after lunch. Rugby's innings started off at

roughly a run-a-minute and it looked very ominous at 133-4 but R. Sadler suddenly produced a hat-trick and we nearly won the match.

The final game of the term against Oundle saw a magnificent century by D. Soper. However, again lack of support meant we could only reach 175-6. Oundle threw the chance of victory away by some casual batting and were lucky not to lose in the end.

Scottish Tour

Played 3, Won 1, Drawn 1, Lost 1

In the middle of the hot spell we set forth for the Highlands under the dubious guidance of P.G.B. and A.R.D. (who was selected as driver and coach but rapidly became master i/c singing). Although the weather was very hot, on arrival at the Academy we encountered the local "haar." This is the sea fog that rolls inland off the Firth of Forth. This persisted for the first two days and did affect the cricket, i.e. a wet ball, wet outfield and poor light.

In the opening match, against Denstone on the Fettes square, after much deliberation we decided to put the opposition in — in retrospect not a great decision as they reached 203-8. After a sound start an exciting 50 from A. Cane gave us hope but he could not sustain the acceleration required and a dull draw ensued.

Pocklington were a sound batting side but we decided from the previous game to bat first if possible. According to plan we won the toss and made a respectable total of 182-6. Pocklington replied slowly but surely, and after tea some vigorous hitting by nos. 3 and 5, helped by some poor fielding, allowed them to reach the total with reasonable ease.

It was nice to win the last game against the hosts. On a scorching day we batted first making 194-7. As was often the case during the season slow batting after lunch put pressure on later batsmen. However, a hard-hitting 31 from Alec Lewis raised the tone. The Academy played the game in the right spirit and consequently kept going for the win even with 8 wickets down. For once some good fielding — Rupert Batho even held a catch — and a little luck gave us a 41 run victory.

1st XI

Played 14; Won 1; Lost 5; Drawn 8.

It is customary to begin a cricket report with some complaint about the weather, slow wickets and cold north-westerlies blowing in over Field House, but this year there have been few grumbles — more's the pity! A few strategic cloudbursts might have improved the record.

The record of the season is not pleasant reading. It has been a difficult year in all the major sports (bar rowing) with a dearth of talented ball players. With some encouraging results in the lower part of the School I think that the future is more promising. The U14 XI had a good season as did the Junior Colts. They are not world-beaters but they have a good deal of enthusiasm for the game and that matters enormously. I hope that they do not lose their keenness as they come through the School.

For all the disappointments of the season there were still, inevitably, some golden moments as only the game of cricket can produce. Undoubtedly the highlight was the captain's 170 against the Cryptics. This broke the School record which previously stood at 164. He was in total command and only a lapse in concentration caused his downfall. The other outstanding performance of the season was N. Goldson's prolific six hitting (29 in all). His innings of 79 against the M.C.C. won the game. He has an eye for the ball rarely seen in a schoolboy. Another interesting fact was that the opening bowlers in the last four matches (J. Kelly and C. Sharp) were both still in the IVth Form. As far as anyone can remember this has not happened since the war.

In the first match of the season (April even!) the weather suited mid-August. Abingdon elected to bat first and with some indifferent bowling and a very sound century from M. Boobyer (131) they declared at 242—4. When the score reached 59—6 things were looking ominous and an early departure seemed imminent. However, a remarkable recovery was staged by R. Hall (91) and R. Sadler (53) which saved the game.

The match against the M.C.C. was the only victory of the season. The M.C.C., which contained four O.S.E., reached a sound total of 242—6 (R. Sears 62, G. Hudson 65). With a good start based on M. Jones (68) and R. Hall (20), the platform was set for the assault by N. Goldson (79) ably supported by R. Sadler (21 not out). The M.C.C. were captained by E. Thom (O.S.E.) who kept the game going by bowling the spinners rather than the quicker bowlers. However, in retrospect, I am not sure whether it would have made any difference.

The match against Radley was one of the few games of the season interrupted by weather. Radley had made a dour 210—5, and we were going well at 35—1 when rain stopped play.

BOWLING AVERAGES:

	Overs	Maidens	Runs	Wickets	Average
C. Sharp	157	31	448	18	24.89
D. A. Cane	36	23	144	11	13.1
J. Kelly	161	33	497	13	38.23

Also bowled: R. Sadler, M. Jones, J. Ball, T. Burley, R. Spalding, N. Smith, N. Adam, S. Moir, R. Hall, P. Daniel.

Scorers: C. Offen, M. R. Dickinson, J. R. Bremridge, Dorien Plum.

Against Eton the bowlers did well to contain them to 188—8 (T. Burley 4—55, A. Cane 2—12). It was yet again the bat of N. Goldson (80) that sent the fielders to all points of the compass, and had the Junior Colts taking evasive action on the Chestnut! Unfortunately he could not sustain the momentum and we lost by 19 runs. However, the Eton coach, P. Thackeray, had grown a few grey hairs in those closing overs.

At Bradfield we came up against a very strong side and having elected to bat on a murky day we were shot out for 62 due to some inept batting against some quickish bowling (A. Straker 5—32, A. Goodsir 5—23). It drizzled for most of the day but never really rained hard, so that play could not be called off. As a result we bowled in the rain to give Bradfield an easy victory. However, I fear that if they had batted first a formidable total might well have ensued.

At Harrow the bowling and fielding were not tight enough and this allowed Harrow to reach 210—4 declared. We offered little resistance except for another six-hitting spree by N. Goldson (65, eight sixes) and capitulated 130 all out (R. Fox 6—24).

Yet again Gaudy was plagued by bad weather. Play continued until 4 p.m. by which time the School had scored 178—7 (Ball 36, Sadler 36). Unfortunately the rain became much harder and we adjourned for some light refreshment.

In an undistinguished game against Stowe the result of a draw was correct since neither side played well enough to win. Cane bowled tirelessly (24—3—70—6) and restricted Stowe to 185 in 3½ hours. Again the batting was not up to the required run rate, except for another entertaining 64 from N. Goldson, and a dull draw ensued (S.E.S. 160—6).

In the match against Cheltenham solid innings from P. Daniel (60) and A. Cane (60) allowed what seemed a fair declaration to be made at 192—6. Unfortunately this was not a fair declaration — it was far too soon, because a magnificent century by R. Thompson (107) enabled Cheltenham to cruise to a seven wicket victory.

Yet another draw resulted against Bedford, in which both sides lacked any penetrating bowling. Bedford made a very respectable 224—7 (Cane 4—50, Kelly 3—73) and we made 172—5 (A. Cane 84). Unfortunately N. Goldson did not have one of his days and the game petered out.

The highlight of the season occurred in the Cryptics game in which A. Cane scored an almost faultless 170. The Cryptics bowling was not that poor (Messrs Dewes, Badger, Drake-Brockman, Thackeray and Danziger!) but it did lack real pace. However, there was very little support for the captain and the School ended up six runs short. C. Sharp in his first game for the XI returned impressive bowling figures of 19—5—75—4.

On a hot day at Marlborough we suffered quite an ordeal with both Marlborough openers reaching the coveted three figures. They amassed a total of 303 in good time, but at one stage with Cane going well and Goldson yet to come the impossible might have

happened. It was not to be and again I am afraid the batting collapsed and we were all out for 196.

In a tight game against Rugby for once the bowlers did their job, with C. Sharp returning quite outstanding figures of 20—14—16—6. The result was that Rugby were bowled out for 163. Even with such a low total the batting could not summon up the determination, courage or concentration to apply themselves to the task. In the end J. Kelly and C. Sharp blocked out the final overs to gain a draw. It was a game we should have won.

The final game against Oundle was a good contest. We managed to reach 174 (having been 134—8), thanks to J. Kelly (39) and R. Spalding (33). Oundle, with a noted batsman in A. Townsend, were never in command of the bowling (Cane 4—57, Kelly 3—63) and in a tense finish were 10 runs short and two wickets remaining.

In conclusion my thanks must go to Brian Edrich for all his support in coaching all teams, particularly after his unfortunate accident in the nets early in the season. Special praise must also go to the ground staff, in particular Jim Jacques and Brian Edrich for providing such good wickets at all levels. In a difficult season the wickets have been excellent, which I fear is often not appreciated by the boys. I would also like to thank Mr. and Mrs. Jacques and Mrs. Clark for providing excellent lunches again in the pavilion. Finally, but not least I would like to thank all those members of staff who have given their time on the cricket field in some way or other. It is a long day on a Saturday when you return from an away match after 8 p.m.

P.G.B.

BATTING AVERAGES:

	Innings	Not out	Total runs	Highest score	Average
D. A. Cane (capt.)	14	2	490	170	40.83
N. Goldson (wkt.)	12	0	336	80	28.00
A. Burke	8	3	112	32	22.40
P. Daniel	7	0	152	60	21.70

Cricket

1st XI

Played 15, Won 1, Lost 7, Drawn 7, Abandoned 1.

In general terms the 1985 season was a disappointing one, as can be clearly seen from the results. However, silk purses cannot be made out of sows' ears—well, not often! The one single advantage this team has is its youth. Next year there will be nine with 1st XI experience, which hopefully will stand them in good stead.

There were no stars in the team but there may be some latent talent lurking behind the stumps in David Webster who brought off some stunning catches. He lacks experience at standing up to slow bowlers but this will come in due course.

The major problem throughout the season was our batting. Rarely did we bat to our potential. Enough runs are necessary, however good the bowlers, in order to win matches. One of the few times we batted well was against Bedford when the captain played a stirring innings (70) after a sound base had been established by A. Brown (38) and J. Ball (29). Unfortunately it was also one of the few times the bowlers were out of sorts—we lost by seven wickets.

In the early part of the season weather was hardly suited to playing cricket, let alone performing well. Draws against Abingdon and P.G.B.'s XI resulted. The M.C.C. brought a very strong side but only some "pro-bowling" from A. Lyon (Bucks) made the side succumb with only 10 runs needed.

Against Eton and Harrow yet again indifferent batting sealed our fate. The only victory of the season was against the Martyrs who generously kept the game open after a fine 92 by H.W.B. for the Martyrs.

Losing draws against Cheltenham and Stowe were followed by the most disappointing match of the season against Marlborough. Having bowled them out for the modest total of 133 (Kelly 4—21) we collapsed from 108—5 to 120 all out. Fine quick bowling by J. Makin (4—38) was critical.

It was a poor season mainly because the team never combined their useful bowling with their batting talent. It was a severe blow when Chris Sharp dislocated his elbow early in the season, because he might have proved invaluable as a strike bowler. With him next year and the experience gained this year, then I think the future holds some success for this group of boys who are keen on their cricket. They will all have to work hard at all departments of the game, including winning. As someone once said, "there is no substitute for success!"

I would like to thank Robert Sadler for all his hard work as captain. It is never easy to captain a side with few runs to defend. As always we are indebted to Brian Edrich for his professional advice and his enthusiasm for the game.

Adrian Brown, top scorer in the XI.

For the last time I would like to thank Jim Jacques who has finally retired. He has run an efficient team of groundstaff over the years and has always produced a high standard of wickets at all levels. I wish him and his wife a happy retirement. It is also nice to know that Brian Edrich is taking over and hence I am sure that standards will be kept up.

Cricket

It has been a fascinating experience standing in as master in charge of cricket for a year while Peter Badger was on exchange in New Zealand (and I hope he was as useful to King's College, Auckland, as his counterpart, Stuart Manners, was to us here). Some people imagine a master-in-charge of cricket to be a lissom young man who can out-field the 1st XI and who relaxes after a three hour net practice by throwing a ball against a single stump on an open field. I do not exactly fit that description and am now more perplexed than ever why this should have been a cause of some concern, because what the job consists of is hours of telephoning and corresponding about fixtures, organising umpires, allocating pitches or times in the indoor nets (and how grateful we were to have them in the first three weeks of the term), liaising with caterers, writing up reports to be reproduced under other names in various newspapers and magazines, rationalising transport, selecting equipment, and finally, as a postscript, spending four afternoons a week not so much coaching the first XI as jollyng someone out of depression caused by A-levels or loss of form or injuries or rejection in love or just warm winds.

However, from the vantage point offered by these activities, I see that cricket is still alive and well at St. Edward's. Nearly 200 boys applied to play cricket this summer, and I must offer many thanks for the fact that we are able to accommodate so many of them. First and foremost, to Brian Edrich, of whose incomparable grounds I have said something in each report I have written: to that I must now add the invaluable and invariably

CHRIS DANZIGER, MASTER I/C
CRICKET 1986

cheerful advice he gives on a host of unsuspected details of cricket administration, such as a reminder not to forget the school flag or that five teams are playing at home and only 96 teas have been ordered, or that an early start means that the boiled potatoes ought to be sent for half an hour earlier. For the framework of a sound cricket organisation I must thank Peter Badger and all his predecessors. I have benefited from the elder statesmanship of Myles Arkell on various thorny problems. The caterers cope with cricket's curious needs, particularly Mr. and Mrs. King who take great pride in what they do in the pavilion. Very much taken for granted are the small band of scorers who perform a thankless and usually unthanked task with varying degrees of willingness. And most important of all are those patient colleagues, too many of them far from their first youth, who give up time on three weekdays and a Saturday afternoon on a scale totally unguessed at even by most members of the Common Room.

Cricket is probably the most complicated of all the games staged by schools, and those who have been following the recent correspondence in *The Times* will have seen from how many different sources it faces danger or even possibly extinction. It still seems to me to be worth preserving.

JOHN WOODCOCK—The Sage of Longparish on duty in Adelaide.

Derek Henderson writes:—

I suppose there are many like myself, who, on the arrival of *The Times* newspaper in the morning, turn first to read what the Cricket Correspondent has to say. Indeed, I think I can go further. There are many who take *The Times* in order to read the Cricket Correspondent's article! The Cricket Correspondent is a very distinguished Old Boy: John Woodcock. Perhaps what is not so widely known is that for the past six years he has been editor of *Wisden*, a position from which he has, alas, just resigned. The Editor's notes these last six years have spared no-one. John is a traditionalist. He loves Cricket. Anything on or off the field that (in his view) brings the game into disrepute he abhors. Would that there were more of his standing amongst the players! He has been writing Cricket non-stop since 1950, when he went to Australia with F. R. Brown's team. His early pieces appeared in the *Daily Telegraph*, and then, quite suddenly, he became Cricket Correspondent to the *Manchester Guardian*. When their former correspondent returned from Australia (he had gone to settle there) he was promptly offered back his old job. At the time none of us realised how lucky this move was to prove to be. Had it not happened, good people up and down the country would have had to take the *Guardian*—something that would have stretched our loyalty even to John! After a brief sojourn with the *Telegraph*, he finally went to *The Times* in 1953.

It always surprised me that he accepted the Editorship of *Wisden* and kept on at *The Times*. The work-load must have been insufferable—indeed it is this that has now decided him to resign from *Wisden* and concentrate on *The Times*. If this means we can enjoy his daily writing for another five years, then I for one will not complain. But I doubt very much whether anyone can maintain the same standard of *Wisden* as John achieved. Not only did he write the Editor's notes and pick the five cricketers of the year, but he even became the chief proof reader for all articles submitted for publication. So high were his standards, he demanded that all writings reached his own level of excellence. This took hours and hours of patient toil. It was proving too much, and he took a sensible decision to resign.

I am sure that all who achieve success owe their greatness to the influence of others. John has been brought up in a super journalistic environment. E. W. Swanton was the first to open out the way. I. A. R. Peebles, R. C. Robertson-Glasgow, J. H. Fingleton and M. M. Walford were others whose company he enjoyed. It has all led to his now being the most widely read of all the Cricket Correspondents around the world. His authority is unique; his knowledge of the game second to none; his acceptance by others as "that wonderful man" cannot ever have been equalled in the history of cricket journalism. He has given us six wonderful years of *Wisden*: 32 years of writing for *The Times*. How proud we all are that he is an O.S.E.

Cricket

At the outset of the season there was a great deal of enthusiasm for the game shown by the numbers of boys opting to play cricket. By the end of the season things were not quite so rosy, which was inevitable particularly when the exam period started. However, in the lower part of the School, enthusiasm and interest continued to flourish with the U14's producing some good results.

It is with some sadness that, after 25 years at St. Edward's, we have to say goodbye to Brian Edrich. It is an impossible task to put into words how much he has contributed to cricket here. He has given in so many ways but in particular to coaching at all levels and in preparing numerous wickets to a very high standard. Whatever the calamity, his smiling face was always there, whether it was the weather, a batting collapse or that the "spuds" had not arrived for lunch. He has put an immense amount of effort, care, patience and above all enthusiasm into his job and the development of cricket at this School. He will without doubt be a very difficult man both to succeed and replace. I am sure that anyone connected with cricket here will miss him dearly—I know I will.

As Brian leaves, Public School cricket is entering another phase, brought about by the new examination system which is making it almost impossible to continue fixtures under present arrangements. The next few years will be so important to the future of cricket in schools like St. Edward's.

Cricket

With the coming of the new examination system, this summer term has not only been short but, more to the point, began in mid April and ended on June 30th! Consequently, cricket has been forced into quite a tight corner. In addition, at a meeting held during the closed season, it was agreed by many schools to reduce mid-week cricket to a minimum. This was done by St. Edward's. The end result is that cricket is competing hard against the pressure inevitably created from important public exams. In the future I would like to see a four-term year in which the old summer term became an "exam term" and the first term of the "new" year would be the cricket playing term (mid-August to late September). I fear it will never happen.

Nevertheless, cricket has flourished this term. The weather has not been that bad and only one block fixture (v. Cheltenham) was a wash-out. The XI has done reasonably well, the Colts have managed, the Junior Colts have been disappointing and the U14's have been put under considerable pressure. However, most teams had a modicum of success.

As to the future, there are many improvements that could be made, in particular some artificial net surfaces, covers for the squares etc. That will be the task of the next incumbent.

At this stage I would like to thank everybody who has been involved with cricket over the past few years. I cannot name them all, but special thanks go to the ground staff who have produced some excellent wickets this season, under the watchful eye of Mr. Bob Bowerman. Many thanks also go to the catering department and to Mr. and Mrs. King who have looked after us so well.

RESULTS:

v. Abingdon	Won by 8 wickets
v. Eton	Drawn
v. M.C.C.	Won by 7 wickets
v. Harrow	Lost by 101 runs
v. Stowe	Drawn
v. Martyrs	Lost by 1 run
v. Bedford	Drawn
v. PGB's XI	Won by 7 wickets
v. Bradfield	Drawn
v. Marlborough	Lost by 9 wickets
v. Radley	Drawn
v. Oundle	Lost by 1 run

Cricket

This summer would have fitted aptly under the Cardus title of "Days in the Sun" and it is probably necessary to go back to 1976 to find such a spell of sun-drenched cricket pitches and parched outfielders. After a damp Saturday early in the term, when some of the contests v. Eton had to be cancelled, the only other match missed, and that by the 1st XI alone, was the Harrow game, the opposition being laid low by salmonella poisoning.

Cricket has flourished throughout the School and, while some of the junior elevens have found their talent stretched rather thinly, it has been pleasing to see the success and enjoyment engendered in some of the senior sides. The 3rd XI particularly deserve mention after one of their most successful seasons ever. P.G.B. in his valedictory summary last year, mentioned the incursions made by the public exams, and again this year those examiners have had a severe effect on team selection for what is, for the 1st XI, almost the last half of the season. While this may provide opportunities for blooding some of the players of the future, it has a disruptive effect on a settled and successful side.

It did not prove possible to hold a full Senior House Match Competition but a six-a-side contest saw Sing's the winners, while the Junior Competition revived memories of bygone days with a win for Segar's.

No summary of the season would be complete without recording my gratitude and praise for all the hard work and pitch preparation carried out by Bob Bowerman and his ground staff. Neither should Mr. and Mrs. King be forgotten: their tireless and cheerful provision of pavilion meals added much to the enjoyment and satisfaction of all our visitors. I am grateful too to those members of the Common Room who so willingly gave up so much of their time coaching their charges and supervising their contests through long, hot Saturday afternoons. It is too easy to take their contribution for granted and the demands on their time far exceed the comparable demands made by rugby and hockey in the winter terms. Finally, all our thanks go to that loyal band of parents who have regularly supported both the teams and their offspring. The 1st XI support group has, I know, become a sociable club whose loyalty has never wavered and whose criticism has always been tempered with kindness.

CRICKET XI 1990

L-R BACK ROW L. SIRIWARDENE, A.M.B. GOODWIN

L-R MIDDLE ROW W.J.N. LLOYD, H.S. SALTER, T.W.T. STANLEY, G.P. BRAZIL, M.R. HOWARD, A.J. STEWART

L-R SEATED P.L. BURTT, H. VARNEY, D.E.C. WETHEY (CAPTAIN), C.M. PITCHER

CHRISTOPHER PITCHER WOULD LATER WIN THREE CAMBRIDGE UNIVERSITY CRICKET BLUES IN 1992-94

Again this year we had a sun-drenched May and hardly a minute's play was lost before Gaudy. In June it was sometimes in and out amongst the showers, but only one day's play was totally lost, towards the end of term, when all the Bradfield fixtures were washed out.

Most of the School teams have found victories more difficult to come by this year although it has been pleasing to see that the Colts managed to win half their matches, as did the Under 14 'C' XI.

The incursions of public examinations have again made a significant impact on team selection. The 1st XI was unable to field a full side for the last five fixtures and the Colts fixture list had to be reduced to just 6 matches. It is difficult to see how this can be improved while GCSE and 'A' levels are spread over such a long period of time.

However, general enthusiasm for the game has been undiminished and, although it was not possible to hold a Senior House Competition, a full Junior Competition resulted in an exciting final when Corfe were the victors over Field House by just 7 runs.

Our playing arenas have been the envy of many of our visitors and credit for this must go to Bob Bowerman and his ground staff who have worked tirelessly to produce playing surfaces and outfield which compare favourably with any of our fellow schools. Mr and Mrs King deserve our thanks too for their indefatigable energy in providing us with lunches and teas in the pavilion, while my thanks must also go to those members of the Common Room who have coached, encouraged and umpired their teams throughout some long, hot afternoons. It is easy to take their contribution for granted but without their enthusiasm and long-suffering patience we would be nowhere.

This year the coaching at 1st XI and other levels has been notably assisted by the presence of Gavin Fitness, a young Australian who came over from Queensland for the summer. His patience and expertise, coupled with his no-nonsense approach and pithy comment has, I hope, enabled many of our young players to improve. The fruits of his labours will hopefully be apparent in the years to come and we are looking forward to his re-appearance next year. My thanks too to Tony Cole, who masterminds the umpires for all our 1st XI home matches. His reliability and friendliness have made him an integral part of the cricket scene here.

Finally, I am again indebted to those parents who have loyally supported their sons and the various XIs. At 1st XI level they have travelled widely, behaved decorously, have been uncritical in adversity and sympathetic to the problems we have encountered. Their presence has been much appreciated.

Miles Peregrine

CRICKET - Master i/c's Report

Memory and meteorological historians suggest that this was one of the colder and damper summer terms on record and yet a good deal of cricket has been played. All Radley fixtures were washed out at about half-time, while home fixtures against Cheltenham were abandoned although away teams across the Cotswolds on the same day found Cheltenham a marginally drier place. The first XI fixture v. the Cryptics was washed out without a ball being bowled on a Saturday when, fortunately, no other fixtures had been planned.

Victories have been achieved with more consistency than a year ago and it is particularly pleasing to be able to report the success of the Junior XIs. Both Yearlings teams were unbeaten, with the 'B' XI winning 6 of their 7 matches, while both Junior Colts XIs won more games than XIs won more games than they lost, as did the 1st and 3rd XIs. The success of the last of these meant that Mike McCall has left us on a high note and I would like to record my thanks to him for harnessing the exuberance and fostering the club spirit at that level. While it has again not been possible to run a Senior House Match Competition, the quality at the junior level produced a more meaningful competition. The final, played on Upper 1 on the last day of term, was a re-run of the 1990 with the result reversed, Field House defeating Corfe by 6 wickets. The remarks I made last year about the incursions of public examinations have been equally applicable this year and both 1st and 2nd XIs and the Colts XIs have fielded makeshift teams in the latter part of the season. There seems no way out of the problem and the prophets of doom foresee the death knell of schools cricket as they knew it. Personally, I would guess that optimism and the competitive spirit will triumph over the examiners; we shall continue to make the best of a bad job.

In this greenest of summers the School fields have been a real picture and our playing surfaces have been the envy of many of our opponents. For this much credit must go to Bob Bowerman and all the groundstaff who have worked tirelessly to provide us with such excellent facilities. In the pavilion Mr and Mrs King have again provided for the inner man and I am deeply grateful to them for their unobtrusive labours and excellent service. Tony Cole has performed prodigies in providing his team of umpires for all home 1st XI matches and, when one discovers the difficulties some other schools have in this area, one is made to realise what a real treasure Tony is.

Although all those mentioned above are an integral part of the cricket scene here, none of it would happen without that faithful band of pedagogues who coach, criticise, encourage and select the school teams at all levels. They have given their time unsparingly and the current health of the school's cricket is a tribute to their efforts. We have had to make do without a professional this year as Gavin Fitness's proposed arrival from Australia fell through at the last minute. However, the band of loyal parents who have supported teams at all levels is to be thanked for their hardiness as much as for the time they have given - it has not been a summer for cricket-watchers. Even in the last week of term, when midweek games become the rule rather than the exception, one loyal pair of parents seemed to be able to arrange business affairs in Oxford on all the relevant days! All of them have remained as uncritical as ever (in my hearing) and their support has been valued. The departure of their sons from the school may have left some of them wondering how they are going to fill their summer Saturdays.

Cricket

In terms of its high moments and disappointments this season has been much like any other. On the whole we have benefited from good weather but, having said that, all the Harrow fixtures were washed out on Cup Final Saturday, as were all the Bedford fixtures on the Saturday after half-term.

Apart from the two victories by the 1st XI over Oundle and Radley in consecutive days at the end of the season, perhaps most encouraging has been the performance of the Junior Colts and Yearlings A and B XI's. All four teams won more games than they lost and one can be optimistic about future prospects.

A full Junior House Competition was held, with two leagues of four teams each. This means that weaker teams are bound to play three games, rather than get knocked out in Round 1. The final, held on Upper 1 on the last day of term, produced a convincing win for Corfe over Tilly's by 83 runs.

Our endeavours this term have been assisted by the presence of Gary Palmer, our newly appointed professional. His expertise and enthusiasm have been invaluable. Concentrating more of his time with the Junior age groups, he has raised standards and helped to develop confidence at these levels. His skill as an analyst of techniques for batsmen, bowlers and fielders will hopefully bear fruit in the

CRICKET 1992

years ahead. More importantly perhaps, his ability to raise levels of self-belief has enabled some of those of more limited ability to produce optimum performances.

The School fields and playing areas have once again been beautifully presented. It is too easy to take the conditions of play for granted and we are indebted to Bob Bowerman and all his staff for the work they do in ensuring that the pitches and fields we play on are second to none. We owe a debt of gratitude too to Mr and Mrs King whose untiring work in the pavilion has catered for the inner man. They have surmounted the new E.E.C. rules about feeding arrangements with unflinching zeal and have provided for all our visitors with quiet efficiency.

My personal thanks are also due to Tony Cole who has, once again, produced our teams of umpires for First XI matches. His evident pleasure at joining us, his reliability and professionalism, and his flexibility when faced with date alterations, have made my job much easier. Finally, but by no means minimally, my sincere gratitude goes to all those members of the Common Room who have coached and encouraged their teams, at whatever level. The School's cricket is now in a healthy state and much of the credit for that must go to their tireless enthusiasm and their willingness to occupy their Saturday afternoons watching their charges fulfil, or fail to fulfil, the fruits of their various training programmes. My thanks go also to that faithful band of parents whose loyalty to their sons has been unwavering whatever the inclemencies of the weather. They have behaved with decorum, been tolerant in adversity and shared our pleasure in the victories. Always hospitable, they have provided admirable support and have been an integral part of the season.

Cricket

This Summer's cricket season has suffered less interference from the weather than usual and the only wet Saturday of the term came in the week following half-term when all the matches v. Bedford had to be cancelled. Most of the School's teams have enjoyed some success, the Junior Colts age group being the most conspicuous: the 'A' XI was undefeated, while the 'B' XI won 6 of their 8 matches. With a strong Colts team and some youthful members of the 1st XI, prospects for the future look bright. Perhaps most heartening has been the competition for places at the senior level where the strength of both the 2nd and 3rd XIs can largely be attributed to the keenness of the Lower VIth. These two XIs should be even stronger next year.

We have again been fortunate in that we have played our home matches on beautifully prepared and presented playing areas and we owe an enormous debt to Bob Bowerman and all the ground staff for their endeavours. Many of our visitors have commented on this and it is all too easy to take their labours for granted. Thanks are due also to Mr and Mrs King for the provision of meals in the pavilion and my own special vote of thanks goes to Tony Cole who has masterminded the provision of umpires for all 1st XI home matches with impeccable

efficiency. It was good to meet him again at Cheltenham at the end of term. We have been fortunate too with the parental support at all levels. As supporters they have behaved with decorum, been uncritical in adversity and shared our delight in success - I am grateful to them all for their loyalty and friendliness. The coaching at all levels has benefited enormously from the youthful exuberance of Gary Palmer, our professional, who has been tireless in demanding high standards, correcting technique and in raising the level of self-belief. Lastly, and perhaps most important of all, I extend my warmest appreciation and gratitude to those members of the Common Room, often the unsung heroes, who have encouraged and cajoled their teams throughout the week and then undertaken the arduous duties of accompanying and umpiring them on some long, hot Saturday afternoons. The School is indeed fortunate to benefit from their dedication and expertise.

Given the incursions of external examinations it was not possible to hold a Senior House Match competition, but a full Junior Competition took place. The final, held on Upper 1 in the last week of term, ended in a narrow win for Segar's over Tilly's by 2 wickets.

1st XI Averages

L-R SEATED J.N St.J. BLYTHE, A.S. PEEBLES, O.M. SLIPPER (CAPTAIN), C.D.H. JOLLY, P.E.H. FRANKS

OLIVER SLIPPER WOULD LATER PLAY COUNTY CRICKET FOR SURREY

Cricket 1994

After a couple of weeks in the Winter nets, it was clear that 1994 could be an exciting and successful year. And so it proved, despite the dreadful weather in May. The 3rd XI was undefeated; in fact, the three senior sides lost only three games. The Colts, despite losing two players to the 1st XI, more than held their own; the Junior Colts, especially the 'B' XI, improved sharply; and some very promising bowling emerged among the Yearlings.

Gary Palmer has been with us for three years and his technical knowledge, tireless enthusiasm and high standards are making a real impact at all levels. Tony Cole and John Archer have again umpired our home matches: their knowledge of the game and helpful observations about players are much valued, as is their friendship and humour. Our squares are without equal on the circuit; Bob Bowerman and his staff do a tremendous job and on several occasions we managed to play when on neighbouring grounds games were abandoned. Sincere thanks to them all and, of course, to the coaches in the Common Room whose commitment and enthusiasm make the whole thing possible and fun.

The report which follows is by M.D.P. who unselfishly handed on the 1st XI knowing it was going to be a good one, and who watched every match apart from Oundle. Fran Prichard has helped me unearth a few statistics which may be of interest: Oliver Slipper's average is the highest since R H J Brooke's four innings at 138 in 1928, the year Douglas Bader captained the XI, scored 432 runs and took 30 wickets. This year's XI had the same record as that of 1943, the side in which J.C. Woodcock and D. Henderson played. In 1912 the School won 9 fixtures, but it is difficult to imagine the record of 1879 being surpassed: Played 19, Won 15, Drawn 3, Lost 1. One idly wonders how this year's XI would have fared against the Christ Church Forget-me-nots, Isonians C.C. or the Rev. J. Marsham's XI?

Cricket

A dry May and June allowed us to complete all our fixtures and generally the wickets were easier to bat on than to bowl on. The 1st XI did not quite match last year's successes but ended the season very much in credit, the 2nd XI with limited resources won six games, and some exciting cricket in the Yearlings 'A' XI brought off five wins. Throughout the School enthusiastic cricket is being played, nurtured by committed coaching from teachers who give up a great deal of time to the sport. Typical of this commitment have been Ralph Oliphant-Callum and Mark Bunting who leave us this year.

The season began with a meeting at Lords to discuss the future of schools cricket, and pleas were heard for a more positive approach. St Edward's sides are, I believe, willing to risk defeat in the pursuit of victory, but despite all rhetoric in the Long Room a side will only be as attacking as its resources allow. A key ingredient in obtaining results is a wicket with pace and even bounce, giving a fair balance between bat and ball. We are lucky to have Bob Bowerman and his staff whose patience and cheerfulness - often in difficult circumstances - are valued as much as the superb wickets they consistently produce for us.

Thanks also go to Tony Cole and John Archer who have umpired all our home games: their impartial friendship and reliability are greatly appreciated. Gary Palmer has continued to work tirelessly from January onwards, coaching throughout the School: his energy and expertise remain vital to the School's success.

Cricket

DAVID DRAKE-BROCKMAN, MASTER I/C
CRICKET 1996 AND 1999

The fixture list begins ferociously, with Eton, Radley and Harrow to be faced by early May. Success for the various teams came more frequently after half term, but it is clear that if St Edward's is to sustain this powerful list of opponents in future years, greater use of the winter nets and G.V. Palmer's coaching has to be made. There is plenty of good seam bowling in the School but a dearth of quality spin, and too many sides, including the 1st XI, were on occasions bowled out cheaply.

An encouraging feature of the season has been the positive and aggressive way sides have played, wherever possible, proving that 'declaration' cricket need not, indeed should not, give way to 'overs' cricket as the staple diet in schools.

As ever, thanks are due to many for the hours put in during the season and particularly to Bob Bowerman and his staff for providing such excellent facilities, to the Caterers and Gloria, to the umpires Tony Cole and John Archer, and finally to GVP and all the members of the Common Room who have coached with such enthusiasm, patience and good humour.

Tony Cole, who has umpired 1st XI matches on Upper One for many years, is presented with tokens of appreciation for his long service to the School by Simon Talbot-Williams, Martyrs' Cricket Secretary.

GILES PEDDY CAPTAINS THE SIDE IN HIS FOURTH YEAR IN THE TEAM

A WEAK BOWLING ATTACK IS THE MAIN PROBLEM FOR A SIDE WHICH ONLY MANAGES 2 WINS IN 15 GAMES

THE BATTING IS STRONG WITH THE CAPTAIN, RICHARD TOOTHILL AND SIMON PERKS SCORING 1350 RUNS BETWEEN THEM

TOOTHILL SCORES TWO CENTURIES, 107 NOT OUT AGAINST M.C.C. AND 111 NOT OUT VERSUS THE TOURING TOOWOOMBA GRAMMAR SCHOOL SIDE FROM AUSTRALIA

GILES PEDDY SCORES 88 AGAINST THE MARTYRS

CRICKET XI 1997

SQUAD:- M. CANNON (CAPTAIN), D.A. JOHNSTONE, J.A.B. NIXON, O.D. MARTIN, T.P.O. LEADBITTER, K.R.J. BINGHAM, J.A. PIGOTT, O.M. WILLS, N.J. ROBBINS, T.P. SUTTON, F. CROSS, C.E. GOODWIN, E.L. DAVEY, A.R. PARKE, M.J. WATT-SMITH, W.J. COOPER, H.J. SLIPPER

Cricket

1st XI

This was always going to be a difficult season for the XI since there did not seem to be any truly outstanding players. However, most of those who played certainly fulfilled their potential and we had at least two excellent results. Matthew Cannon captained the side and improved with each game - at times his field placing was erratic yet his determination to win matches was evident. Against Bedford we were put in to bat and scored a healthy 215-8, declaring just before half-time. We then bowled one more over than we received: unfortunately our fielding let us down and this led to defeat, but the boys had shown that they wanted to play the game in a positive manner.

At the beginning of the season we thought we would have a strong seam attack in Wills, Francis and Robbins and that we would bowl sides out, but Francis only played two matches through injury and Robbins never truly fulfilled his potential. The bulk of the bowling rested on Olly Wills and he impressed in a number of matches. Edward Davey, a left-arm orthodox spinner, enjoyed a useful first season in the XI and should record a lot of wickets next year.

It was the batting that allowed us to get into a strong position on a number of occasions. Six batsmen scored fifties and David Johnstone in his first match for the XI recorded 47* against Abingdon. Olly Martin was the most consistent of the batsmen, ending up the top run-scorer.

He worked hard over the winter and throughout the season and this obviously paid off. The bulk of the wicket-keeping was performed by Kenneth Bingham, and this allowed Tom Leadbitter to concentrate on his batting. Tom improved dramatically over the season and scored two fifties - against the MCC and Geelong College. His confidence improved with each match and I hope he continues to play cricket on leaving school. The middle order was held together by Matt Cannon and James Pigott, both of whom might have achieved more; they both hit the ball extremely hard and if perhaps they concentrate more on playing themselves in early in their innings, they will go on to record some very high scores. James Pigott played the best innings of the year against Bedford (72) where he struck the ball cleanly and very straight. He was unfortunately caught by a freak one-handed catch on the boundary just when he looked set for a century. The other batsmen - Tim Sutton, Olly Wills, James Nixon, Nick Robbins, David Johnstone and Kenny Bingham - all played at least one very good innings and each saved the side at important times during the game.

Olly Wills in action against Abingdon on Upper One

1st XI Batting Averages

Cricket

Despite the weather this was an exciting season in many respects. The 1st XI and Colts 'A' were unbeaten, but the outstanding record must be the U14 'C's, led by Charles Rome and selected from a pool of only twenty: they won all six of their fixtures. Their coach, Gary Shearn, leaves us, and his enthusiasm and commitment will be greatly missed.

We have enjoyed the brilliant coaching of Jason Mills whose exuberance and powers of motivation have made an impact on staff and pupils alike. A New Zealand 'A' cricketer himself, he has raised the level of enjoyment at all levels with his insight and innovative training programmes. We all very much hope he can return next year.

My thanks to Vaughan Abigail for his efficient arrangements for meals and travel, to all the catering team and Gloria, and to Bob and his staff for providing, as always, such excellent pitches. Finally, the members of the Common Room who give so much time to coaching have made 1998 a largely successful and certainly enjoyable season.

KENNETH BINGHAM WOULD LATER PLAY COUNTY CRICKET FOR KENT

Cricket

1st XI

With no win against another school this was a frustrating season, since this was an experienced and talented side which was set on playing positive cricket.

Ken Bingham led the side by example: an outstanding wicket-keeper, he scored six fifties, headed the averages and ran between the wickets too brilliantly for some in our middle order. He was well supported by David Johnstone, who remained phlegmatic and cheerful, despite having a miserable season with the bat; his average makes a mockery of his ability and there will be better times ahead. Mark Wingfield Digby opened the innings and usually gave us a solid start without moving his feet as he did in practice; undoubtedly he will improve, as he has the right approach to training. His opening partner, Freddie Cross, scored two hundreds and with his leg-spin bowling played a key role in the side. Justin Wilson got out too often after making a start, but has developed into a very useful all-rounder. David Leadbitter, Peter Swainson and Tim Conibear (run out five times) made up the middle order; these fine hockey players strike the ball effortlessly, but need to do some work on technique if they are to thrive higher up the order next year. Andrew Parke and Charlie Goodwin opened the bowling economically, yet found the wickets usually in favour of the batsmen; Ed Davey took 25 wickets with his cultured left-arm spin and batting at no. 11 for the third season calmed all our nerves as we watched the captain and his middle order running between the wickets.

The season began with a convincing win over the M.C.C.; Tom Newell, a Junior Colt, took 3 for 16, then Bingham and Wilson knocked off the runs with increasing confidence. Harrow made a slow 196, but Bingham and Conibear put on a rapid 80 before two run-outs left us short after a promising position. At Radley we simply did not do ourselves justice and were outplayed. Poor batting again on a tricky wicket at Stowe saw us limp to 100, thanks largely to a last wicket stand of 38 between Cross and Davey. Some tight bowling and fielding at least made Stowe fight all the way. We fell 2 runs short against Bradfield after some aggressive batting from Swainson (52) and Leadbitter (48). It was a hard struggle to reach 148 at Eton. But a miserly spell from Davey left them only one over to spare. At Gaudy the Martyrs were despatched unceremoniously, Cross and Wingfield Digby sharing an unbroken stand of 123.

In the second half of term we lost to Oundle in an overs game and in other matches there was a series of tense draws: Abingdon were nine wickets down after a century from Cross; against

Back row: D. Drake-Brockman Esq., Freddie Cross, Tim Conibear, Justin Wilson, David Leadbitter, Peter Swainson, Jason Mills Esq.

Front row: Mark Wingfield Digby, Edward Davey, Ken Bingham, David Johnstone, Charles Goodwin.

Absent: Andrew Parke.

Marlborough, M.C.S. and Cheltenham we chased to within twenty runs of the target with nine wickets down. Finally an enjoyable two-day game was ruined by rain in the final session. Despite some disappointing results, this side set out to enjoy their cricket and responded to the exceptional coaching of Jason Mills. While the cricketers are not yet matching events at Henley or on the rugby field, there are promising signs:

the 2nd XI was unbeaten, the 3rd XI was the keenest in memory and the Junior Colts, five of whom had games for the XI, show much talent.

My thanks to all involved, especially Bob and his groundstaff, the caterers, umpires and, of course, Jason Mills and the members of Common Room who make the whole thing possible.

D. Drake-Brockman

L TO R BACK ROW A.S. BALERDI, J.P. HONEY, M.F. BAGGS, W.G. CONIBEAR, C.M. SUTTON, T.H. NEWELL, J. C. PARKE

L TO R SEATED T. R.W. CONIBEAR, D.R. LEADBITTER, F.J. CROSS (CAPTAIN), P.O.B. SWAINSON, B.W. RODGERS

David Leadbitter and Andrew Balerdi return jubilantly to the Harrow pavilion after the 1st XI win

Cricket

1st XI

With the first three weeks of cricket cancelled due to rain, the 1st XI must have wondered if they would ever step onto Upper 1 for a game of cricket.

Our first game was against a Cryptics XI that consisted of club cricketers. It became a very close match in which St Edward's lost by 6 runs, mainly thanks to the Cryptics Australian professional who took 7 wickets. One positive was the four wicket haul by medium pacer James Honey and the three wickets by leg spinner Tim Head. Looking back, this was a great way to start the season as all the boys realised how much work was needed to ensure that it would be a successful one.

The following match was evenly fought although we were unable to create enough pressure in the field. A last over shot for six from Radley gave us our only school defeat of the season. In that game Charlie Sutton, still aged 16, recorded his first half century at first team level.

Bradfield brought out the best in the XI. In a rain-affected match, Bradfield were set 158 in 40 overs. A combination of top-class fielding, tight bowling (including 4-21 by paceman Tim Conibear who hurried up more

than a few batsmen this season) and astute captaincy from Freddie Cross meant Bradfield ended 117-8 at the close.

Once the sun arrived after half term, the tide began to turn with a 9-wicket win over Abingdon, mainly thanks to our leg spin duo Freddie Cross and Tim Head who collected 7 wickets between them. Then Cross and Peter Swainson knocked off the total of 78 in 10 overs.

Confidence began to climb, and the inclusion of Johnny Parke and Tom Newell from the Colts seemed to inject even more enthusiasm into the side. At times the boys really began to understand about setting targets and run-chasing, and they started to dominate games.

Although the scores in the Marlborough match seem to indicate a rather tedious encounter, Teddies equipped themselves well on a deteriorating wicket against a useful spinner. Peter Swainson showed his potential by scoring 42, but he would be the first to admit that he should have scored more consistently throughout the summer.

Our back-to-back matches against M.C.S. and Cheltenham helped realise the talents of two cricketers: Tom Newell and David Leadbitter. They amassed a 150 run partnership against M.C.S., only to find their efforts were in vain when Magdalen College decided to play for a draw an hour into their innings. The following day was to be more lucrative against Cheltenham. After a poor SES display in the

field which was put down to finishing exams the previous day, Leadbitter (89*) and Newell (40) once again combined to see St Edward's home with 2 overs to spare and by 5 wickets.

Three days later at Harrow and without Cross and Sutton because of exam commitments, parents and I alike witnessed a great moment in Teddies cricket history. Swainson took over the mantle as captain and an overs match was agreed upon. Barney Rodgers and Johnny Parke bowled well with the new ball and regular wickets meant Harrow never amassed a reasonable total. In reply the chase started terribly with the loss of 2 early wickets, and against an unbeaten and fired up Harrow side the boys realised it was not going to be easy to reach their target of 147. Once again Leadbitter stood up to be counted and joined with Newell and Tim Conibear in small but valuable partnerships. With the tea score at 100-7, Barney Rodgers met Leadbitter at the crease and proceeded to bat with confidence and a great amount of maturity to take us to 143. A lapse in concentration from Rodgers saw him run out, but Andrew Balerdi seized the chance to hit the winning runs.

The season ended in a run chase against Oundle where a target of 246 seemed to be unattainable, but a spirited chase by all the boys ended in us finishing 20 runs short with 8 wickets down. Matthew Baggs and Will Conibear both proved that they will be vital to our batting successes next season. A silent but significant contributor to this season was

Andrew Balerdi, who was always tidy behind the stumps.

The most pleasing aspect of this thoroughly enjoyable and successful season was the camaraderie shown within the team (with all boys known by their nicknames) and the respect the boys gained by acting in such a mature way towards the opposition and their peers.

A special 'thank you' must go to Bob Bowerman and his groundstaff for all their hard work this year.

SQUAD:- W.G. CONIBEAR (CAPTAIN), M.F. BAGGS, S.A.B. CHASE, H.J.F. CAPPER. J.P. HONEY, W.M. ALLEN. T.H. NEWELL, J.C. PARKE,
C.M. SUTTON, A.J. SIMMIE, J.W. GABRIEL, J.B. BARRETT

Cricket

1st XI

Played 9, Won 3, Drawn 2, Lost 4, Cancelled 2.

This season was a mixed bag in terms of results but a successful one in terms of development. With no pre-season training we encountered Eton and Harrow within 8 days, playing limited-overs matches. Although losing both games, the boys could spend time at the crease (which enabled Will Allen to post 66 against Harrow) and get some much-needed bowling practice, with James Honey taking 4-25 against Eton.

Following a loss to Bradfield and a draw against Cryptics we travelled to the Oratory. With the inclusion of two Colts, Alastair Simmie (3-40) and John Gabriel (4-14), we were able to bowl them out for 154. After losing a couple of quick wickets, John Barrett (41) and Tom Newell (61*) compiled a partnership of 71 before John Gabriel (19*) helped pass the total with 18 overs to spare.

This win seemed to give the boys belief in their ability and after bowling the Martyrs out for 213 (Mark Cripps 6-96 and a wonderful leg side stumping by Henry Capper), the chase started steadily as James Barrett amassed his third forty of the season. Henry Capper and Simon Chase came together at 104-6 and both posted their top scores (45 and 49 respectively) and helped St Edward's sneak past the total.

After half term we encountered Abingdon, who elected to bat, but with James Honey (6-28) and John Gabriel (3-70) creating pressure from both ends, wickets came regularly and Abingdon finished on 160. After the early wicket of Charlie Sutton, both James Barrett (77*) and Will Allen (47) played positively to help St Edward's win by 8 wickets.

At Cheltenham we had an exciting encounter. On what could only be called a batting paradise, St Edward's elected to bat. Some very good bowling and catching from Cheltenham restricted us to 89 all out, with Will Conibear (20) and Matthew Baggs (31) the only players to show the necessary concentration under such pressure. At this stage a lot of sides would have resigned themselves despondently to an early trip home. Once again however, the 'Teddies spirit' was in evidence: the boys bowled and fielded to a new level, reducing Cheltenham to 62-6 at tea. Every bowler did his job, with wickets going to Jonny Parke, Charlie Sutton and John Gabriel, and a wonderful diving catch at cover by Will Allen. After tea Cheltenham had regrouped and we were only able to capture one more wicket before the total was reached. For me, the highlight of the day was the maturity shown by Will Conibear who captained the side exceptionally and led from the front throughout.

The next day we faced Free Foresters, but a far better side never allowed us into the game, with a New Zealand quick bowler taking 5-28 to leave St Edward's all out for 154 - but not before Will Conibear showed his class in

Time for congratulations as the Martyrs lose a wicket on Upper 1 (David Wilkinson)

amassing 46. In reply Free Foresters never looked in trouble despite some tight bowling, and they ended the day with a 9 wicket win.

The departure of some of our Upper 6th allowed me to play some of next year's potential players against Oundle. On a flat Upper 1 wicket, Oundle set us 261-3 dec. in good time. New boy Dean Rodgers continued his form from the 2nd XI with a well-deserved 55. Charlie Sutton finally found the form that seemed to have deserted him this season and duly took advantage of it by hitting 107*. The middle order chipped in as the run rate grew but we fell short by 8 runs and 5 wickets remaining - proof that not all time matches end in tame draws.

Final game of the season was away to rivals Radley. Always known for the quality of their cricket, we knew this would be a hard-fought match, especially without the older boys. Batting first, Radley scored quickly before declaring at 220-7, with Charlie Sutton taking 3-42. In reply we lost a couple of early wickets to some tight bowling before Tom Newell (67) and Charlie Sutton (24) started to mount a

CRICKET

The 1st XI of 2002 was a strong team who played very good cricket. The trouble was that they did not do it as frequently as they should have done. The season started well and ended extremely well. The middle was ugly.

game. They are three very good cricketers with twelve years of 1st XI experience between them. Newell's captaincy was more imaginative by the end of the season; his bowling changes became shrewd and he did not let the game drift. With Simmie and Barrett he was one of the great fielders in the side and these three were lightning between the wickets.

However, as the averages show, Charlie Sutton had the outstanding season. Leading run scorer with 450 runs at an average of 50

and leading wicket taker with 28 at an average of 19.21, Charlie wanted to bat all day and bowl all day and through hard work and determination is maximizing his potential.

I wish the Upper Sixth leavers well in their future cricket careers. As well as Newell, Barrett and Sutton, we lose Allen who had a disappointing season, Abraham who lethargically surpassed all our expectations of him with the bat, the hysterical Rodgers and the unfortunate Parke and his back problems.

A promising squad remains for the future. Myers, Simmie, Arber and Gabriel are now experienced campaigners as are the Colts bowlers Cunningham and Hustler who both show promise. Other Colts such as Smith and Hazelton have come in and done well and all have the chance to consolidate their position during the Barbados tour whilst others threaten for places.

Special thanks need to go to Mr Drake-Brockman as Master-in-Charge of Cricket for his support to me and the cricket in the whole school during the season. We have also benefited hugely from the coaching of Roland Butcher both technically and in terms of Roland's ability to help the students understand the mental side of the game. What we also have at St Edward's is a groundsman who not only prepares excellent wickets but who wants us to use them, and we owe great thanks to Bob as well as to Gloria and all the other caterers. Also to the parents – thanks for smiling and keeping us sane during those endless laps of the boundary.

Final thanks go to the team's greatest asset and biggest legend: Nathan Lawrence's scoring is now colour-coded and includes balls faced, wagon wheels and analysis every ten overs. How we all strive for Nathan's consistency.

Cricket

Overall, St Edward's cricket has had a good year. At 'A' team level we held our own against the best, with the Colts 'A' and Junior Colts 'A' being particularly successful. The Yearlings 'A' had some great moments and can be confident that they will develop into a very good team. The spirit amongst our 'B' and 'C' teams has been excellent – they played to win but also to enjoy.

The amount of goodwill from staff in the cricket season is incredible and the coaches cannot be thanked enough. Next year we hope to increase the support that staff get from outside coaches and this is an exciting development. The School will lose Ben Bramley and Richard Quarmby next year who gave so much to the 3rd XI and Yearlings 'B' respectively.

This was my first year in charge of the cricket at St Edward's. It would have been difficult without the particular support of Charlie Baggs and David Drake-Brockman who kept me vaguely sane.

Cricket

It was a remarkable season. The Mathematics Dept tell me it was a concave parabola, the English Dept tell me that 'All's Well that Ends Well', whilst as a Geographer, I am simply lost. We drew the first two, then lost virtually everything, then won virtually everything!

John Barrett

The outstanding natural cricketer in the year was Murray Smith. If he really wanted to, Murray could be a cricketer we read about in the future and certainly one that most batsmen would happily not see running towards them. Murray has genuine pace and control and it is not surprising that Counties have been keeping a close eye on him. He captained the side well although perhaps this and exam pressure meant that we did not see the best of his stroke-play with the bat.

In the first half of the season, when the chips were down, it was Henry Redknapp who was our most impressive player, with bat and ball. He has a mature head on his shoulders and a great eye – it made for an impressive combination. At the start of the season, the team and individuals were desperate for some success to breed confidence. David Brewer epitomised this. Painfully out of touch early on, he finished the season in full flow and those wristy flicks to all parts of the ground returned – as did David's smile. The other leaver to

The 1st XI at the end of the Giggleswick tour

mention is James 'lucky 13' Bates. It is true that occasionally his bowling was all over the shop but more often his niggling medium pace posed many problems and he was another loyal servant to SES cricket.

And what of those that remain? John Barrett is the first St Edward's player to score more than 500 runs in a season and even this is underperformance by his standards. By his own admission he made too many 30s and 40s that should have become big scores but his determination to rectify this is admirable and will never detract from the fact that he will always be a positive and entertaining player. He also learnt very fast behind the stumps.

Nick Gleave and Harry Sutton have become a reliable opening pair. Both scored heavily this year and are very eager to do well. Nick's concentration has improved and he is increasingly playing to his strengths in front of the wicket. Harry is definitely the Most Improved Player and I feel this curve will continue. And with the ever improving Farfan and Bartlett, there is plenty of batting for next year. Vainker, Smart and Power are excellent bowling and batting prospects for next year - as long as the latter two can shake off injury concerns. Finally, our scorer, Nathan Lawrence was again by far our most consistent team member and wagon wheels now accompany the multi-coloured scorebook – it is art.

Once again, I think St Edward's cricket has got it right this year. We take it very seriously but prioritise enjoyment over intensity. We are very dependant on the attitude of the boys if this is to work and they deserve enormous credit at all levels. And as they know, they have extremely committed coaches who give so much and I thank them enormously. We also do not in any way take for granted the work of our groundstaff and the caterers and the wonderful support we get from parents.

This year, my thanks are particularly large as I hand over to Mr Howitt as Master in charge of Cricket. It has never had a safer pair of hands and such a good prospect.

J. Cope

Cricket

So often a promising young team does not fulfill its potential, but I am pleased to say that this year's 1st XI not only exceeded expectations but also played the game with great enterprise and a fantastic spirit. After a good 2004 season many could be forgiven for not expecting such success for the following year. That the number of victories for 2004 was surpassed would be enough to satisfy the sharpest of critics, but with batting records being broken along the way it is not difficult to illustrate what a highly successful and enjoyable campaign we have had in 2005.

THE NATHAN LAWRENCE BATTING & BOWLING AVERAGES, 2005

Batting Averages

SRI LANKA 2005

It was an eclectic mix of characters who gathered that fateful morning to depart Teddies for the distant spice island that was Sri Lanka. In the U6th we had the veterans, Barrett, Gleave and Sutton; as solid a core of cricketing ability and understanding as any team could hope for. The L6th were stalwarts too, Smart and Redknapp having already proved their pedigree on Upper I during the regular season. As this was a development tour however, there was a substantial contingent of younger tourists of whom less was known. Fremlin-Key and Seaward represented the 5th form, whilst in the 4th we had a true range of characters, Nicholl, Kerr-Dineen, Bates, Strong and Robinson each adding their own particular strengths to the group. There were three Shells who had made the cut, Precious, Webster and 'Bombhead' (apparently also called Holyland), and finally there was the management, Messrs Howitt, Cope and Boyd, with yours truly as tour secretary.

And so this motley crew departed for the Orient, and what a time we had: there was some great food, some great people ("OK, get out!"), and most of all, some great cricket.

In terms of the cricket we had mixed success. The hard work began on our second day in Colombo against Brendon School when it soon became clear that the brief net the

Team photo at the Tamil Union test ground, Colombo.

previous evening had not been enough to fully familiarise ourselves with the conditions. A sensible start by acting-captain Gleave (Barrett having turned up both late and bagless) and an impressive 48 by Smart were not enough to make up for the wanton abandon with which we cast away our wickets, many putting too much faith in a pitch that did far more than would be the norm in distant Blighty, and being duly punished. A slump to 125 all out was a disappointing start, and unlike the Australians we were not able to compensate for batting indiscretions with our bowling, the number of wides bowled being a particular point of worry for the coaches, conditions or no. Suffice it to say they got the runs.

In the two days' rest we spiced things up a little by visiting Colombo market and getting food poisoning from Pizzabot. Then it was time (in one case still vomiting) to take the field against

Kurunegala Youth. A valiant performance in difficult circumstances saw the opposition restricted to 285, and our batting that followed again had several highlights: a mature 78 from Smart, who was sick when he left the field, and a brutal if effective 15 from Redknapp worthy of particular note. Others also chipped in, but in the end their total proved beyond us. However, Fremlin-Key and Master Precious endured the onslaught until the close of play, so Howie declared honours even.

A quick transfer to Kandy and the beautiful Maharaveli Reach gave us our base for Game 3, where the Sri Lankans unleashed their next weapon of Mass Disruption: matting. Unused to bowling on this surface, we again gave away far too many extras, helping our opponents reach over 300 runs. Then, just as Seaward and Kerr-Dineen were really starting to pile on the runs, the rain came. Match abandoned and another draw.

Against Dharamapala College, however, our performance was pretty dismal. 56 for 1, then

cutting and Bates' masterly offspin that this second game produced, even though it was not really a proper match.

Our next match was a massive honour. We were playing at the test ground which had almost twenty years previously witnessed Sri Lanka's inaugural test. We finally rose to the challenge, bowled well (although still with too many wides) and restricted the Roy Dias avigation XI to a solid 205. In an excellent unchase, powered by Barrett's 60 and Redknapp's middle order 49, we eventually fell 1 runs short of victory with three balls to go. A nail-biter if ever there was one.

Our final two games continued this upward trend. We thrashed Panadura district, Barrett reaking various records with his 166 and Fremlin-Key getting an excellent 102*. Seaward meanwhile picked up 4 for 12 and we went on to bring St Peter's College to the verge of defeat before the rain saved them, Gleave's 73* (played over the whole 3 hour innings) being perhaps the outstanding ricketing achievement of the tour.

So 1 win, 3 winning draws and 4 losses. That's our story and we're sticking to it. There was more to this tour however than just the antastic cricket: visiting Galle brought home the sheer scale of the events of Boxing Day 2004 in this part of the world and hope in the signs of recovery which are already visible. We loved the food and the people, and learnt a lot about ourselves and each other. Who would have guessed that amongst us was a seafood machine, a shopaholic and a jelly addict, all touring in harmony for these two weeks. There is much more to recount but space is short and it merely remains to express on behalf of all the tourists our sincere gratitude: to Mr Boyd for providing such great warm ups, Mr Cope or sharing his ultimate tourist knowledge, Mr Howitt for organising the whole thing, and to Jimpali and the rest of Sri Lanka for giving us such a fantastic opportunity. As I'm sure Jurali would say were he here now: 'Thanks, anashakthi'.

* 20/20 GAME

Cricket

The 2006 SES 1st XI was one of youngest, if not the youngest, sides in recent memory and showed a surprising maturity and strength of character throughout the season. The extent of the youthfulness can be gauged from the overall tally of five 4th formers and seven fifth formers selected to play. The current crop of players will definitely become a force to be reckoned with in the next couple of years. Captain François Vainker led the side brilliantly. His astute cricketing brain was a key factor in securing a number of victories.

This year we say goodbye to three stalwarts of St Edward's cricket. Jack 'give-it-a-clout' Redknap scored three 50s for the 1st XI and his enthusiasm will be sorely missed. Tim 'I love 20/20' Smart scored 578 runs and captured 19 wickets and his substantial talent with bat and ball will be a hard act to follow. Finally, François 'wicket machine' Vainker had a fantastic season taking 50 wickets and smashing 673 runs which is the best performance by an all-rounder in recent memory.

We were blessed with two excellent scorers, Tom Pote and Seb Lackey-Grant. Bob Bowerman and his staff deserve thanks for preparing excellent wickets. I am grateful to the catering department for the food and to all the parents who give such wonderful support. Final thanks go to Bob Jones. He has provided outstanding advice, knowledge and support in his first year at SES. He has been a top man.

Cricket

This season promised much but under-delivered on the whole; however, it saw several positives on and off the field for both team and individuals, which will be looked back on more fondly than the statistics may suggest. Of the five victories, the most pleasing were those that occurred at the start of term in a magnificent seven days of cricket against Bradfield College, Hertfordshire U17's and the MCC. All nine losses were frustrating in their own ways and were largely down to lack of consistency with the bat after our bowlers had put us into strong positions. Lessons must be learnt on the batting front and the top priorities for all 1st XI batsmen next season will be to put a much greater value on their wicket and to develop stamina at the crease.

The St Edward's School 1st XI was again an extremely young side with three 4th formers and eight 5th formers taking part in fixtures throughout the season. The 2007 vintage, like the 2006 crop before them, showed potential all round with some individual glimpses of brilliance and with greater maturity I have no doubt that we will be reaping these benefits in the not too distant future.

This season was something of a marathon with twenty games played and one abandoned. Success and failure both played a part and looking ahead to next year, consistency will be the main aim both on and off the field. We say farewell this year to our very capable Captain, Edward Fremlin-Key, who has given three years of good service to the 1st XI, the highlight of his school cricketing career no doubt being his superb century in Sri Lanka during 2005. His personality and charm have been as valuable in the changing room as on the field and I want to thank him for his great support this year. We'll miss the banter...

This year also sees the departure of one of St. Edward's greatest cricketing stalwarts. David Drake-Brockman has been tirelessly supporting Teddies cricket for well over a quarter of a century, as Master in Charge of Cricket, superb coach, stowaway tourist, and latterly, as Master in Charge of the Pavilion! He is always welcome on Upper 1 and I hope to see him regularly next season. Thank you DD-B.

Thanks as always to Tom 'scoring's never boring' Pote who has been essential this season, to the ever-supportive parents on the boundary, to Bob Bowerman and his team for preparing and maintaining some fantastic wickets for us, to the catering department for wonderful lunches, teas and refreshments, and finally to Bob Jones, for his unfailing enthusiasm and guidance on all cricketing matters.

Cricket

The St Edward's 2008 1st XI will be remembered as an outstanding team; it is not that the side lacked talented individuals but it was the fantastic team spirit that made this side one of the most successful in the School's history. The team learned from their mistakes of last year and were an excellent all-round side, equally strong in both batting and bowling departments. The teamwork illustrated by the 1st XI this season is best summed up by Babe Ruth's famous quotation, "The way a team plays as a whole determines its success. You may have the greatest bunch of individual stars in the World, but if they don't play together, the club won't be worth a dime". I am pleased and proud to say that the much lauded 2008 vintage of players did not disappoint.

Captain Joe Robinson with the Harvey Cup.

It remains for me to thank those parents who have supported their sons so well throughout the season, particularly those who have become friends over the years and who will be much missed next season. Thanks also go to the catering department for their excellent food, to Bob Bowerman for the outstanding facilities on which we are privileged to play and to our diligent scorer Tom Pote whose statistical analysis is greatly appreciated. Final credit must go to 1st XI coach Bob Jones whose dedication and enthusiasm for the game has put St Edward's cricket in fantastic shape – bring on 2009, RWJH

1st XI Cricket Tour South Africa

After a tiring flight, we arrived in Cape Town to be greeted by a bright sun and clear skies. However, all thoughts of sunbathing and beaches were rapidly abandoned when straight after lunch it was announced that the rest of the afternoon would be spent training for the match the next day. After an exhausting net session, we ascended to the summit of Table Mountain in a revolving cable car just in time to catch some breath-taking views of the sunset.

Our first experience of South African cricket was against Wynberg High School. Still suffering from the effects of the long flight, we knew that this match was going to be a challenge. After deciding to bat first, our openers began well but, unfortunately, we failed to put many runs on the board and we were all out for 73 off 44 overs, despite 12's from A. Strong and P. Bates. It was therefore essential that our bowlers struck early, which they did with A. Strong and O. Hargreaves both taking wickets in their first overs. This left Wynberg on 0 for 2 after 2 overs. Suddenly the game looked like it was back on. However, we didn't manage to take any more wickets and Wynberg hit the winning runs in the 17th over, winning by 8 wickets. After the match Mr Howitt decided to run a three hour training session in the scorching sun to lift team morale!!

We spent Easter day relaxing on the Fish Hoek beach, the home of the South African Navy, after visiting a gem factory in the morning. After another sea food meal at lunch time, we went shopping in Canal Walk

– the largest mall in Cape Town.

The second cricket match was against Western Province U17's, another strong team. This time we decided to bowl first. A. Strong, J. Webster, and L. Brennan took the first four wickets for only 76 runs. However our bowling duo of P. Bates and D. Johnson then began to work their magic; Bates took four wickets for 43 runs and Johnson took 2 for 20. This limited Western Province to 159 all out off 53 overs. This was a fairly large target but do-able nevertheless. P. Bates made another quick 12 and J. Webster made 30 taking us to 80 for 5. A. Jennings made 27 not out on his debut for the 1st XI. At the close of play we were 119 for 8, not quite the win that we had hoped for but a well fought draw nonetheless.

The next day we set off to Cape Point, the spot where the Atlantic and Indian Oceans meet. On the way we stopped off at Groot Constantia vineyard for a tour of the wine-making process and a chance to taste a selection of their wines. We ate lunch in a restaurant overlooking the ocean and then set off up the hill to the cliff top, battling against a strong head wind. We also had the chance to see plants that only live in the Cape of Good Hope Nature Reserve.

The third match of the tour was against Belville Cricket Club on the outskirts of Cape Town. Once again we bowled first and it wasn't long before J. Webster took the first wicket. The Belville batsmen began to look comfortable until Jay struck again and again leaving Belville 57 for 3. Johnson,

Precious and Brennan took a wicket each before Jay came back on to start his second spell. He proceeded to take another 3 wickets finishing the Belville innings and with figure of 9 overs, 2 maidens, 6 for 29. Our target was 182 with several hours of batting time available. Our innings began slowly with Kerr-Dineen making 23 and Webster making 19. Holyland, Smith, Jennings and Fraser were all stamped by some impressive wicket keeping. Hargreaves made a good 17 not out but we had left the revival too late. We were all out for 130 off 42 overs meaning that we lost by 51 runs. That evening we watched an exciting Pro20 match at Newlands from the luxury of the PK sports suite before returning to the hotel.

The following day we set off again for Newlands this time to play a Western Province Invitation XI (WP). WP batted first and it wasn't long before their opening batsmen began to score heavily off our bowling. After 20 overs they were 86 without loss and looking very comfortable. Fortunately Jay took 2 quick wickets and Brennan took another putting WP under a bit of pressure. At the end of their 50 overs, they were 294 for 3. With an enormous mountain for our batsmen to climb, Smith and Robinson set out to bat. They started well scoring 41 off the first 10 overs against some tight bowling. Unfortunately Alex was bowled for 18 and Joe followed him back to the changing room a few minutes later after being run out on 39. Strong made a quick 23 but it wasn't enough to secure a victory and we were all out for 175.

The next day we set off early to travel by coach to Krysta along the Garden Route. On the way we visited the Cango Caves with their interesting rock formations including some giant stalactites and stalagmites. We then visited a wildlife park to see some crocodiles, cheetahs, lions, leopards and tigers along with a collection of venomous snakes. When we finally arrived at Krysta we got an early night to prepare for the next match.

The penultimate match of the tour was against Krysta Cricket Academy. The pitch had been laid on top of an old rubbish dump and a timber yard. We bowled first and soon began to strike against the Krysta batsmen. Jay took 3 for 10 and Oly took 3 for 23. Daryl and Ali took 2 wickets each limiting Krysta to 80 all out off just 26 overs. Lunch was a very welcome BBQ before we went out to bat. After such a positive start we were feeling confident. However, Giles was then trapped LBW in the 7th over and we realised that our innings wasn't going to be plain sailing. Fortunately WIR, Ali and Jay made 15, 11 and 12 respectively to tighten our hold on the match. Jay made 26 not out at the end to secure us our first victory of tour.

The next morning we set out for Port Elizabeth, stopping on the way to visit

another shopping complex for lunch. That afternoon we relaxed by the pool and had a long revision session to conserve energy for the last match.

The final match was played against Eastern Province U19's (EP). In a stark contrast to the rest of our matches we arrived at the ground to discover that there had been a lot of rain during the night and the conditions were very humid. The South Africans were slightly unnerved by this but our morale remained high as we were used to playing in such weather in England. The EP batsmen scored 75 off the first 20 overs. However Ali soon took a wicket followed by Luke taking 2. The session after lunch saw a guest appearance from the St Edward's scorer who went on to bowl keeping up St Edward's tradition. Unfortunately he didn't take any wickets but there were several memorable moments all of which were captured on camera. EP declared on 238 for 4, leaving us to chase another huge total in the rain. Our innings started with Joe making 17 and Jay

making 18. Oly made a very quick 27 off 19 balls before being caught. Alex Strong and Paddy made 12 and 13, but the best innings was from Alex Smith who carried his bat scoring 61 off 128 balls. Despite this we hadn't done enough to win but secured a draw to finish the tour.

We spent the next two days on game drives seeing South Africa's wildlife in its natural habitat. We came within metres of lions and elephants along with buffalo, zebra and a wide range of antelope along with some giraffes. On the last evening we had dinner in Port Elizabeth to celebrate the many successes of the tour including some outstanding bowling, some fantastic batting and the first win of the year. Surely a great season was to follow upon our return to the cloudy skies and the bitter winds of England. A huge thank you must go to Mr Howitt for organising the tour and to Mr Gaunt, Mr Arnold and Mr Kerr-Dineen for accompanying the team and their coaching advice.

Cricket

The 2008 season was always going to be very difficult to emulate, let alone beat. However, I am very pleased and proud to say that the 2009 St Edward's first eleven not only had another vintage season but came very close to surpassing the record breaking fourteen victories of the previous year. This year's first eleven will be fondly remembered as a team that broke the hearts of many a fielding side with their 'never say die' attitude towards their batting and which had one of the best all-round bowling units in the school's 146 year history. I can best sum up the 2009 first eleven as the side which, without doubt, had the best team spirit I have ever had the pleasure to coach.

The driving force behind many of the side's victories this season were the five upper sixth stalwarts of Oly Hargreaves, Matthew Holyland, Giles Blanchard, Daryl Johnson and the Captain Jay Webster. They have set a benchmark both on and off the field that future 1st XI players will find hard to match. I have the utmost respect for them all and, as I sit here watching the 2009 Ashes series, I cannot help thinking that England could do with a little bit of their determination as Flintoff, Swann and co, try to take the eight remaining wickets on day five of the Edgbaston test match.

The team owe a great debt of gratitude to Bob Bowerman and his ground staff for preparing some amazing pitches for us to play on and to Jenny Bough

Giles Blanchard 100* Verses Abingdon

and the catering team for our superb lunches and teas throughout the summer. Penultimately, I want to thank ex first class umpire Ray Julian for officiating in all of our home fixtures and to our pro Bob Jones whose energy, enthusiasm and experience knows no boundaries. Finally, a massive thank you to all the dedicated parents who come to watch their

boys come rain or shine - your support is fantastic and I cannot wait to see you all again in 2010. Looking back, 2009 has been another great season, and I am confident that with continued hard work and dedication, next year's players will be able to build upon St Edward's flourishing cricket reputation on one of the strongest circuits in the country.

Opening of the new Martyrs Pavilion

Saturday 12 September 2009:

On Saturday 12 September the new Martyrs Sports Pavilion was opened by Lord Sandberg of Passfield (E 1941-45), after whom the Long Room is named. This striking building was designed by the eminent architect John Pawson, whose son Ben left the School last year, and is the only public building designed by this architect in the UK.

It will provide the School and OSE with an outstanding modern pavilion with all the essential features of a traditional one, and provides a wonderful elevated view of the Square and Upper One.

After speeches from the Warden and Simon Offen (A 1976-1981), President of the Martyrs, 180 guests had the opportunity to look round the building and then sit down to a celebratory lunch in the marquee.

Lord Sandberg of Passfield cuts the ribbon

Sir David Lewis (B 1961-66), Lord Sandberg (E 1941-45), Mike Stanfield (G 1955-60) and David Christie

Ali Fry (E 1977-82) and Chris Nathan (G 1954-57)

Cricket

1st XI

Played 23, Won 8, Lost 8, Drawn 7

Captain: A. D. H. Smith

Vice-captain: J. L. Joyce

Squad: C. Asembo, H. Bhatti, F. Beg, G. Chaffer, S. Chambers, H. Coles, M. Davies, C. Everett, J. Fairhurst, J. Fenner, J. Fraser, M. Hammond, A. Hargreaves, E. Jamie, J. Joyce, F. Kerr-Dineen, O. Oakley, R. Shipperley, A. Smith, O. Smith, B. Taylor, J. Taylor, R. Willis, R. Wise.

The St Edward's XI of 2010 was a young side as is so obviously illustrated by the fact that two boys from the Shell year, Miles Hammond and Feroz Beg, made their 1st XI debuts in the first match of the season. Following the XIs of the previous two seasons, which both challenged school records in terms of the number of victories recorded, the 2010 XI was always going to struggle to maintain such lofty achievements. However, the final analysis of eight victories, eight defeats and seven draws constitutes a very balanced performance over the season as a whole. We can confidently say that this year's XI maximised its potential in all three of the game's primary disciplines and that much credit is due. The three Upper Sixth boys who played regularly were quite simply outstanding role models for their younger teammates. Alex Smith led the batting with great aplomb and his tally of 901 runs, which included three superb centuries, was the highest aggregate since John Barratt's back in 2005. He also captained the side most shrewdly: a veritable mixture of Vaughan and Clive Lloyd. Alex must surely go down as one of the finest captains at this level in the School's recent history. Frequently he employed tactics conceived by the coach only moments before. Jasper Joyce's wicket-keeping was immaculate in his fourth season in the XI. He took great pride in conceding so few byes and although perhaps a little short of the run tally expected before the season commenced he must be commended on some vital knocks. Jamie Fraser, another stalwart since the fourth form, led the bowling attack well and had the knack of taking vital match-changing wickets. It is a shame that his efforts were not necessarily rewarded with the big hauls his bowling deserved. He was also very

Max Davies taking 2 for 23, Jamie Fraser 2 for 18, Ben Taylor 2 for 28 and Richard Wise 3 for 18. Abingdon's XI was our next set of opponents. Having won the toss, St Edward's elected to bat and posted a competitive 228 including a maiden century from Alex Smith, who ended up with 126. Abingdon could only muster 137 in response. The turning point of the match came with Jamie Fraser's dismissal of Abingdon's two county players in a spell of 3 for 46 off ten overs, a performance which clinched the side's sixth win of the season.

It remains for us to thank all those parents who have supported the side so loyally this season and who have helped to bring a wonderfully convivial atmosphere to the new pavilion on Upper One during match days. Their encouragement is very much appreciated. We also express gratitude to our leavers for their exemplary service over several seasons and we look forward to seeing them in Martyrs' colours in forthcoming seasons. At the same time a promising new crop of players is working its way through the ranks and we anticipate successful seasons ahead. We aim to have indoor facilities upgraded and to purchase the state-of-the-art Merlin bowling machine before the start of the 2010-2011 academic year. We all are looking forward to pitting our wits against our very own mechanical Murali! Final thanks must go to Chris Sandbach for assuming a pivotal role with the XI after it became clear that Bob Jones' days as our coach were over. He has discharged his duties with great enthusiasm and no little degree of insight. Bring on 2011.

Cricket

1st XI

Squad: J. Barrett, F. Beg, H. Bhatti, W. Bull, G. Chaffer, H. Coles (captain), J. Connolly, C. Dickinson, C. Everett, J. Fairhurst, J. Fenner, J. Machin, A. Hargreaves, M. Hammond, H. Kennedy, F. Kerr-Dineen, O. Oakley, W. Oakley, R. Shipperley, F. Simon, O. Smith, A. Spratling, B. Taylor, K. Willis, R. Wise.

The 2011 season proved to be challenging as a young side, regularly consisting of fewer sixth formers than pupils of the lower years, took to the field. It is a testament to the boys' ability and determination that they stuck through the bad times to record victories over Dauntsey's, Abingdon, MCS, The Free Foresters, MCC and the Martyrs in addition to well-earned draws against The Cryptics and South Oxfordshire Amateurs. In this, captain Hugh Coles proved to be instrumental. As well as playing a full role on the field as captain, high-order batsman and wicket-keeper, he led superbly very much with his heart on the sleeve. We are appreciative of the mature manner in which he motivated the side and maintained spirits. In his 1st XI career of four seasons, Hugh amassed 1,323 runs and his solid keeping yielded 23 catches and seven stumpings. We are sure that the effect of his inspirational team talks will live long in the minds of the many young players in this side. On the other hand vice-captain Ben Taylor was a man of few words yet his unstinting support for his captain cannot be underestimated. His top score for the XI was an innings of 83 made last season and, whilst he did better this total this season his contribution of 252 runs this term (including a superb 40 against Radley) were always scored in quick time. Other leavers who participated this season were dynamic opening bowlers Rupert Shipperley and Richard Wise and much-improved batsmen James Fenner and Will Oakley.

In terms of batting, there were many fine individual performances, yet in any one match it was rare for more than a couple of batsmen to fire at once. Lessons will have to be drawn from this and next season batting in partnerships will be essential. The leading run scorer was Hugh Coles, whose 529 runs included three fifties and one century. Joe Barrett made 505 runs; the highlight here was a superb ton. By contrast the bowling was more consistent, with spin leading the way. Three of the four leading wicket-takers were spinners. Miles Hammond was the leader here with 34 victims at an average of 21.65. This included two six wicket hauls, a five wicket haul and a sub-four economy rate. Ruairi Willis bowled well all season with a highlight for 4 for 14. The leading seamer was all-rounder George Chaffer, whose confidence grew as the season progressed; his tally of sixteen wickets in addition to 362 runs bodes very well for next season.

St Edward's 2012 Cricket Tour party to South Africa

landed in Cape Town on 27th March. We began training at the immaculate Western Province Cricket Ground and, with Table Mountain in the background and a hot sun coupled with a cool breeze, it was the perfect welcome. Given the journey the boys were in surprisingly good nick ahead of their first fixture versus DF Malan High School at Durbanville Cricket Club the next day. We knocked up 200 off 50 overs with a classy 62 from Hammond, a fluent 45 from Kennedy, a solid 31 from Captain Smith and a breezy 26 from Kerr-Dineen. In reply they were 79 for 4 off 28 overs (sprawling 1 for 3 and Simon 2 for 23) before rain stopped play, so the locals made sure the old adage of the English bringing the rain was chiding in our ears. We checked Duckworth Lewis and worked out it was the first victory of the season.

Our second fixture was versus Bellville U17s at Northern Goodwood cricket ground and glorious conditions prevailed: very hot with a strong wind and a good pitch with a fat track for a 50 over fixture. Chaffler captained and won the toss. The opposition bowled well, particularly their seamers and they caused us a few problems early on. A superb knock of 97 from Willis and two supporting knocks from Bull and Oakley left us 210 all out. We then put on an excellent bowling and fielding display and bowled out our opposition comfortably. Hargreaves, Machin and Connolly shared the spoils, but Hammond's 4 for 6 was the stand out performance.

The next fixture against Bellville brought us another sound victory. The conditions and facilities were absolutely superb and we took some real positives from our performance. Joe Barrett knocked up an excellent century (115) and was ably supported

by Barrett who made 26. Haider Bharti bowled particularly well and claimed three wickets. And so to Edgemoor Cricket Club: we batted first on a flat track and were in the driving seat at 140 for 4 off 40 thanks to a half century from Miles Hammond but a batting collapse left us 161 all out. Edgemoor were on 102 for 1 after 25 overs and looked on course to beat us. However, the boys led a spirited fight back thanks to the bowling of Hammond (3-20) and Connolly (2-12) who was bowling genuinely fast from the top end. Chaffler (3-24) bowled at the death and took the last three wickets with Edgemoor finished on 147, 14 short of our total. This result had given us our fourth victory in a row.

The Vineyard ground at Western Province CC played host to us on day eight: an absolutely picture perfect ground a stone's throw from Newlands. We played a limited over fixture versus Western Province Under 19 team. Ollie Smith won the toss and we

hatted well getting to 126 for 1 off 36 or so overs. Joe Barrett was the backbone of the innings scoring 80. Wickets were then given away too easily and a middle order collapse left us in trouble. Dickenson and Simon shared the run before the bat under pressure and added a partnership of 31 in the last few overs. We finished on 185 for 7 off our 50 overs on a flat track against a driving side but we knew this was being just. Their openers were in good form and one had just been picked to represent the SA U19 squad at the next junior world cup. He knocked a classy 48 before accumulating 50 runs. Topley then stayed in the front through the bowling of Baly (2-36), Hammond (2-37) and Connolly (1 for 21). We had them right down but just didn't have enough runs in the bank to defend them being in the end by a narrow margin.

On day nine, we played a Western Province invitational fixture at Proteas Cricket Club which is probably going to be a fat track given the rain which is probably going to be a fat track given the rain. We got off to a good start making 100 for 2. Although some excellent bowling from J. Chaffler (1-12) and F Baly (2-22) reduced them to 100 for 7. However, we could not capitalise on this opportunity and a late order 128 from WPII saw them reach the respectable score of 183 all

out in the 48th over. Our innings did not start well thanks to some very disciplined and lively bowling from our opposition; we were reduced to 19-3 off 15 overs. A brief recovery was led by Chaffler and Hammond before a needless run out began a decline from which we never recovered. Hammond top scored with 47 and it was left to Fairhurst and Hargreaves to bring some responsibility to the score line with some fine attacking strokes in their last wicket stand. We were all out for 143.

So in the end we played six, won four and lost two: a very respectable tour. However it wasn't all cricket and on our rest days we took in the sights of Cape Town. Unfortunately due to bad weather conditions we weren't able to run up Table Mountain. We did travel to the Cape of Good Hope to admire the views and visited Robben Island where we were privileged to see the cell where Nelson Mandela was imprisoned. Our visit to the Inqilo Foundation (a charity set up by Tim Comber OBE) was an amazing experience. We played football with the children of a township, a game we lost 4-2. We donated boots and trainers to them which we badly needed. We returned to the UK where we hoped to see our experiences to kick start the 2012 season.

Mention must now be made of our three leavers. The captain Ollie Smith has managed this side with great maturity and has proved himself to be a shrewd operator on the field of play. He would often pre-empt the wishes of his coaches on the sidelines with his change of bowler or of the field. His 82 against Cheltenham was a fine innings and it was our pleasure to award him his colours that day. Freddie Kerr Dineen also captained the side on occasion and was a responsible figurehead for this young side. It was unfortunate that a big innings this year eluded him; there was no better team player than Freddie. George Chaffler will also be a great loss to the side, a leading all rounder of the highest calibre whose back injury sadly stopped him bowling for most of the season. Georges' 130 career stats amount to 1396 runs scored in total with a highest score of 110* versus the Martlets in 2010, and 43 wickets at 22.34. We will remember you all and hope to see you on the field against us as Martlets in the years to come.

Our thanks to Mr Howell, our ISI coach, and Rex Hooton, our overseas professional, who continue to lead these elite players with such energy and expertise. For them this season has been the culmination of several years hard work and it is testament to their tenacity and their belief in the boys that rewards are

Rupert Hills in the attack

being reaped. With the loss of only three boys, 2013 has great potential. Our final thanks must also go to Bob Bowsmann and his team for their tireless and heroic work on preparing the fields of play, to Mick Warren and his detailed scoring which was ably supported by Dom Russo, and to the catering department for their provision of match teas and lunches and for all their support towards our hosting. The future's bright for Teddies cricket.

Cricket: a glorious season

By Simon Roche, master i/c cricket

The 1st XI cricket season of 2013 managed to surpass that of 2012, with the present 1st XI notching up 17 wins and claiming the title of the most successful 1st XI in St Edward's 150 year history. They won the prestigious John Harvey

Cup and are the only side ever to have done so by beating all five opposition teams: Radley, Marlborough, Cheltenham, Bradfield, and Winchester. It was a hugely impressive season played in the right spirit by a team of dedicated cricketers and we are clearly in something of a golden era for cricket. One has to look back to Edward Wrynnard's 1st XI of 1879, with 15 wins to their name, to find an XI that challenges last season's success. A number of longstanding individual records were broken: EPH Dixon's record of the most runs in a 1st XI career has stood since 1935 but this was broken by Joe Barrett (Burford) who now has 2391 career runs to his name – and he is only in the lower sixth. Barrett also broke Peter Cranmer's 1933 record of the most centuries for

the 1st XI by scoring three hundreds last season, taking his tally to six. There were three further centuries last season, two from Calvin Dickinson (Ryde with Upper Ouse) and one from Miles Hammond (Oritz Church Cathedral), which means more hundreds were scored last year in the 1st XI than ever before. Hammond, another lower sixth former, received his full county cap for Gloucestershire after making his first class debut against Glamorgan at Bristol; in addition, he was capped for the England U19 team which he went on to represent in the U19 world cup. Feroz Baig (Windsor Boys), another lower sixth former, took 57 wickets in the season which is the best since RL Best's efforts in 1960. According to Wisden, this made Baig the leading school boy

wicket taker in the country. Dickinson, a 6th former, was scouted by Leicestershire CCC, and Barrett was selected for the England U19 'A' XI. Impressive as these individual records are, the season was always a team effort. Ably captained by Russi Willis (now OSE) they comfortably beat some opposition, but more impressively showed real depth and determination in winning some close fought encounters, most notably against Harrow winning by one wicket. These nail-biting victories were testament to their team ethic and work rate – they simply never gave up.

Having held regular net sessions over the last two terms, we are already enjoying the new season and have every hope that we might be able to challenge the record breaking season of 2013.

Cricket

By Simon Roche, Master i/c Cricket

2014 has been a truly remarkable season for the 1st XI. Their successes are numerous, and really do stake a claim for them to be the most successful XI in our school's history. Here are the facts:

- In 2014 the 1st XI won all of their full school fixtures.
- They won 20 games in total – a new school record.
- They won, and therefore retained, the John Harvey Cup (see page 3), a league between Marlborough, Cheltenham, Radley, Bradfield, Winchester and ourselves. They did so by beating all of the opposition.
- The 1st XI beat the Oxford University Blues.
- The 1st XI beat Harrow and Wellington.

There were a number of extraordinary individual records attained this year, and when we couple these with some career statistics it is clear that this upper sixth were a group of outstanding cricketers.

- Joe Barrett broke the school record for the most amount of runs in a season with 1142. Joe has scored 10 centuries during his career at school, and has the most career runs with a total of 3533. Miles Hammond is in second place with 2533, and Feroz Baig in third with 2163.
- At Marlborough, the highest opening partnership in the school's history was recorded by Joe Barrett and Feroz Baig when they reached 233 without loss, and both boys scored centuries.
- Against The Cryptics, the highest partnership for any wicket in the school's history was recorded by Miles Hammond (153) and Calvin Dickinson (121) when they reached 259.
- Feroz Baig took 54 wickets this season and 164 in his career.
- Miles Hammond has taken 145 wickets in his career.

Back row, left to right: Mick Warren, Scorer; Rex Hooton, Coach; Charlie Shipperley (Ashford); Will Bull (Abingdon Prep); Andy Wyles (Dulwich Prep London); Louis Pennington (Wood Green); Calvin Dickinson (Ryde with Upper Chine); AJ Woodland (Doveries); Richard Howitt, Coach; and Simon Roche, Master i/c Cricket. Front row, left to right: Jamie Machin (Westminster Cathedral Choir); Feroz Baig (Windsor Boys); Miles Hammond (Christ Church Cathedral); Joe Barrett (Burford); and Haider Bhatti (Windsor Boys).

So clearly we continue to be in a golden age for St Edward's cricket. Indeed one has to look back to Edward Wynyard's 1st XI of 1879 with 15 wins to their name to find an era that competes with this one. The boys have been well captained by Miles Hammond who returned to us after a spring spent with the England squad at the U19 world cup. As their statistics suggest, the Vice Captains, Joe Barrett and Feroz Baig, were vital to the team's successes. The sight of these two boys walking out to bat will live long in the memory, as will the sight of Hammond and Baig bowling on a dusty wicket with men around the bat. Baig, who is netting with the Somerset men's squad, bowls leg spin with masterful control of pitch, pace, and loop, whilst Hammond (Gloucestershire CCC) uses more variation and guile and has the doosra in his armoury. With Barrett's (Gloucestershire CCC) batting dominance, Bhatti and Machin's seam

bowling, Woodland's all round brilliance, Bull's determination and Dickinson's keeping, this XI were simply too good for all our opposition this year. We will of course miss our leavers, but with only six departing we will remain a force to be reckoned with in 2015.

Elsewhere in the club, against a challenging set of fixtures, all age groups have enjoyed an excellent blend of competitive cricket and fine wins. The 2nd XI had particular success and secured wins against, among others, Marlborough, Rugby, Oratory and Winchester. The JCs also had a strong season and won against Marlborough, Uppingham, Abingdon and – satisfyingly! – Radley. The Yearlings As had a precocious season beating Winchester, Cheltenham, Rugby (by 9 wickets) and Oratory (by 10 wickets). There is undoubtedly plenty of strength in depth within the cricketering ranks of Teddies, and we shall now set about preparing fully for 2015.

MILES HAMMOND SELECTED FOR ENGLAND UNDER 19s AT U19 WORLD CUP

SCHOOL XI DEFEAT THE OXFORD UNIVERSITY BLUES SIDE FOR THE FIRST TIME EVER

JOE BARRETT AND FEROZ BAIG PUT ON 233 FOR THE FIRST WICKET (A RECORD) AGAINST MARLBOROUGH COLLEGE, BOTH SCORING CENTURIES

JOE BARRETT SCORES 98 NOT OUT VERSUS THE ORATORY SCHOOL - RECORD SCORE FOR A 20/20 MATCH

SIDE DEFEAT WELLINGTON COLLEGE FOR THE FIRST TIME SINCE 1969 AND HARROW SCHOOL (AWAY) FOR THE FIRST TIME SINCE 1970 AND THE FIRST TIME EVER IN CONSECUTIVE YEARS

MILES HAMMOND AND CALVIN DICKINSON PUT ON 259 FOR THE THIRD WICKET (A RECORD) AGAINST THE CRYPTICS - BOTH SCORE CENTURIES

SIDE WIN THE JOHN HARVEY FOR THE THIRD TIME IN THE SCHOOL'S HISTORY

RADLEY DEFEATED FOR THE SECOND CONSECUTIVE YEAR, FOR THE FIRST TIME EVER (2013 AND 2014)

FEROZ BAIG TAKES 54 WICKETS FOR THE SEASON AND IN ALL 164 WICKETS IN HIS SCHOOL CAREER - IN BATTING HE MAKES 2163 RUNS IN ALL

MILES HAMMOND ENDS HIS SCHOOL CAREER WITH 145 WICKET AND 2533 RUNS IN TOTAL

JOE BARRETT BREAKS JOHN BARRETT'S 2005 RECORD FOR TOTAL NUMBER OF RUNS IN ONE SEASON - 1142

JOE BARRETT ALSO BREAKS SCHOOL RECORDS INCLUDING MOST CAREER RUNS WITH 3533 AND NUMBER OF OVERALL CENTURIES - 10

20 WINS IN ONE YEAR IS ANOTHER RECORD FOR ONE SEASON - MAKING THIS THE MOST SUCCESSFUL CRICKET SEASON FOR ST. EDWARD'S EVER RECORDED

CRICKET XI 2015

ALEXANDER WOODLAND SCORES 104 RUNS AGAINST RGS GUILDFORD AND 109 AGAINST THE ORATORY SCHOOL.

CALVIN DICKINSON SCORES THE HIGHEST EVER SCHOOL INNINGS AGAINST OUTSIDE COMPETITION; 181 AGAINST THE ORATORY SCHOOL. HE SCORES 136 AGAINST THE FREE FORESTERS, A CENTURY BEFORE LUNCH VERSUS THE MARTYRS AND ENDS THE SEASON WITH 1043 RUNS, ONLY THE FIFTH TEDDIES BATSMAN TO REACH 1000 RUNS IN A SEASON. IN HIS 1st XI CAREER HE ACCUMULATES 2425 RUNS, INCLUDING 6 CENTURIES (THE SECOND HIGHEST IN THE SCHOOL'S HISTORY). JUST FOR GOOD MEASURE HE TAKES 34 DISMISSALS BEHIND THE STUMPS!

ALEXANDER WOODLAND AND CALVIN DICKINSON PUT ON 276 RUNS FOR THE SECOND WICKET (SCHOOL RECORD) AGAINST THE ORATORY SCHOOL.

FOURTH FORMERS ROY HIPWELL AND JAMIE CURTIS MAKE THEIR DEBUTS IN THE 1st XI.

WILLIAM BULL SCORES 111 NOT OUT AGAINST THE FREE FORESTERS.

Cricket

By Simon Roche, Master i/c Cricket

It has been another hugely successful cricket season at St Edward's. The sun has shone readily, and the atmosphere about the Club has been extremely positive. I'm very proud that we have continued to play our brand of competitive but enjoyable cricket against some tough opposition. The number of wider school activities taking place in the Summer Term makes it increasingly difficult for the boys to commit fully to their sport, but the whole Club has managed to do so admirably; we remain one of the top cricketing schools in the country.

The 1st XI were always going to face a difficult task following last year's record breaking successes, but they have certainly risen to the challenge. In all, they won 16 matches (making them the joint third most successful team in the School's history) and retained the John Harvey Cup, which they have now won for the last three years. They did so by beating Marlborough, Winchester, Bradfield, Cheltenham and, of course, Radley. They also beat the Oxford University by eight wickets. Calvin Dickinson (*Ryde with Upper Chine*) broke a number of batting records this year: his 181 versus Oratory broke the previous 30-year-old highest individual innings; Calvin Dickinson and Will Bull (*Abingdon Prep*), the 1st XI joint captains, put on the School's highest ever opening stand of 239 against the Free Foresters; and Dickinson and AJ Woodland's (*Davenies*) partnership of 276 against Oratory was the highest in the School's history. The bowling attack was led by AJ Woodland, Andy Wyles (*Dulwich Prep*) and Sam Kennedy (*Northcote Lodge*), but it was Rory Hipwell (*Pinewood*), a Fourth Former, who had the stand out performances of 5 for 44 against Saint Kentigern and 5 for 28 against Cheltenham. At the end of a hard fought summer, the following boys received their colours: Sam Kennedy, Will Bull, Calvin Dickinson, Andy Wyles, Aditya Edekar (*Saint Kentigern Boys', Auckland, NZ*), and AJ Woodland. Calvin Dickinson finished the season with 1043 runs, becoming only the fifth Teddies batsman ever to achieve over 1000 runs in a season. He was recently selected to represent Worcestershire's 2nd XI against

Nottinghamshire where he scored a quick-fire 40 off the bowling of none other than England's Chris Woakes.

Elsewhere there have been some fine performances from the rest of the Club. Indeed it was a season that featured 10 centuries. The Yearlings A's won eight games, beating the likes of Radley (away), Rugby, Winchester, Clifton and – rather impressively – Harrow. The win over Harrow on Chestnut featured a memorable finish. St Edward's were chasing and required 19 runs off the last over. Ben Charlesworth (*Our Lady's Abingdon*) was on strike; one wide and three sixes later he was being carried aloft as the Yearlings celebrations ensued. Charlesworth certainly had a precocious season: he scored two centuries for the Yearlings and 587 runs in total. He was selected for the 1st XI against Marlborough when he carried his bat and top scored with 73. The Junior Colts A's punched above their weight given that four of their ranks have been playing in the 1st XI and managed wins at Winchester (who they beat by seven wickets) and Oratory. James Curtis' (*Cherwell*) 117 versus Oratory is worth noting, as is Tom Powell's (*St Andrew's, Pangbourne*) 106 versus Marlborough. The 2nd XI beat Harrow, Bradfield, MCS and Rugby (amongst others), and there were many other victories in the ranks besides this. We also fielded our first ever girls' XI who had a close game at

Ben Charlesworth (*Our Lady's Abingdon*) following his match-winning innings on debut for the 1st XI v Marlborough

Bloxham and for whom there will be plenty more matches and training next season. It is worth also noting that Ben Charlesworth, Rory Hipwell and Harrison Ward (*John Mason*) were all selected to play for South and West England U15's versus Wales and Worcestershire. The cricketing future at St Edward's is very bright indeed.

1st XI Captains Calvin Dickinson and Will Bull with The John Harvey Cup
