Meet Adonis

Your referrals really help the kids and enables us to provide them with a chance for a better life.

Meet Adonis,

Adonis is a special needs child. His parents struggle to provide for the family. Adonis is growing up in a poor area a little bit far from La Escuela De Artes Y Humanidades Luis Terror Dias and despite his parents efforts it is very difficult to bring him to school because the cost of transportation is \$2 per day. Adonis loves to interact with other kids at La Escuela De Artes y Humanidades LUIS TERROR DIAS because this is a place where he feels accepted.

In the past, children with special needs in the Dominican Republic were often "hidden away." There is still a general sense that a child who looks "normal" is more acceptable than one who does not.
