2017 Play Well

# Welcome to Playscapes

The benefits of play—building imagination, cognitive skills, and self-expression are vital to all children. And for many, play can also be a healing experience.

Giving children the opportunity for positive play with a purpose is our mission. We provide messages of health and wellness, and offer activities that educate while children wait. Thank you for partnering with us to make positive play possible for all children.

Play well,

## Eco Seating Collection

### TJ11\*\*

Eco Seats with BIONIC® Polymer (RCP) look great and have all-weather performance. These products can be 100% recycled at the end of their long and useful life and modular design can be arranged many ways. Single piece design has no sharp edges or corners and slide together easily. Molded polymer is waterproof, impact-resistant, chemical-resistant and virtually indestructible.

Eco Seats are designed with a raised bottom that allows air flow underneath to eliminate moisture trapping, making them great for outdoor as well as indoor use. Seating is easy to clean and disinfect. Color will not scratch or wear off.

## Bionic Polymer

BIONIC® Polymer is plastic pollution that is being hand-collected directly from the beach (shorelines), waterways, and from the ground in coastal communities. This process directly removes plastic pollution from the places where it's in the direct path of harming marine life. Thus, by removing this material we believe we are saving marine life, removing unsightly pollution, and still making high performance products.
