# INTRODUCING THE JAMESON HTW

The Jameson HT has been WINTERIZED. And we're not just talking waterproof. We're talking about a true winter shoe that has been completely overhauled & re-tread. This all-terrain shoe has been modified to combat the brutal elements of winter. The outsole is made from a pure gum compound with a particularly low freezing rate and a reverse Geo-Hex lug tread pattern protruding from the outsole for maximum traction on snow and ice. The entire upper is treated with STI REPEL, the liner is made with insulated, quick dry material, and a gusseted tongue keeps the snow, puddles and mud from sneaking in your shoe.

## WINTERIZED COLLECTION

JAMESON HTW | JAMESON MTW | JAMESON SLW

### WARM

INSULATED, QUICK  
DRY LINER

### OUTSOLE

FAUX-VULC CUPSOLE  
CONSTRUCTION

### DRY

GUSSETED TONGUE  
KEEPS WATER OUT

### DURABILITY

STI REPEL WEATHERPROOFING  
ON LEATHER UPPER PROTECTS  
AGAINST ELEMENTS

### TRACTION CONTROL

REVERSE GEO-HEX LUG TREAD  
PROTRUDES FROM OUTSOLE FOR  
TRACTION ON SNOW & ICE
