FlippingBook Quick Guide.

The FlippingBook platform you are currently using enables you to perform a few features to enhance your experience. All of the following features can be found in the toolbar displayed under the document window.

Bookmark.

If you wish to bookmark a certain page for quick reference later, you can click the tag icon in the lower-left to bookmark the current page you're viewing. A sidebar will appear giving you the option to add notes before you add the bookmark to your existing pages.

PLANS RESIDENTIAL & COMMERCIAL

One location? Multiple locations? Exede has you covered!

Because it's delivered via satellite, Exede is perfect for businesses who need high-speed internet in difficult-to-reach locations where others don't go. And since we're a national provider, businesses with multiple locations can deal with one ISP instead of multiple regional providers.
