Free Boomer Bluetooth Speaker When You Order 1000 Power Banks or Speakers

Items that are in stock in Australia available for immediate decoration and delivery. Delivery is typically 5 working days from approval of artwork, (large quantities subject to acceptance). Free rush service available. **These items can be identified by the LL code.**

A unique range of items that are made and decorated in Asia and USA, (quantities that usually start at 500 units). Airfreight delivery is typically 4 weeks from approval of artwork. Exceptions are items that are sea freighted. **These items can be identified by the LN code.**

## Decoration Techniques

**Pad Printing** – An inked image is transferred from a photo-etched plate to a thick, soft, silicone pad, which is then pressed against the product. One Pantone colour is printed at a time, and suitable for most designs with tight registration.

**Screen Printing** – The direct imprinting of a design onto the surface of a product. Image is pressed through tensioned nylon mesh, leaving a paint-like appearance. Sharper imprint than pad printing. Available on a select range of products.

**Laser Engraving** – A permanent decoration technique. Light burns an image into a substrate. Works best when the item's surface is a different colour than the substrate.

**Debossing / Embossing** – Techniques in which a metal die is created from artwork. The die is then heat-pressed onto the material, leaving an image of the artwork in recess (Debossing) or a 3D effect (Embossing) as the impression is raised. Metal products are embossed by stamping the material with the die.

**Epoxy Dome** – A thick clear polyurethane coating applied directly to a decorated product.

**Embroidery** – A traditional method of decorating textiles with needle and coloured thread. Available for some plush items indent.

### 4 Colour Process (4CP)

**Digital Direct Print** – Photo quality images and graphics printed directly onto a broad range of products using specialist inkjet printers, producing spectacular results. Four colour process (CMYK) artwork required - white ink is laid down as a 5th colour if needed.

**Digital Standard Label** – A laser printer reproduces the image in CMYK onto pre-cut gloss White paper labels. Labels are hand applied. Die cutting is available on vinyl deluxe labels.

**Digital Transfer Print** – Suitable for detailed and multicolour imprints. A computer printer uses special inks to create CMYK transfers designed to be applied to products using heat.

**Digital Sublimation Print** – A technique using specialist inkjet printer that transfers a CMYK image directly onto materials using heat.

## Build your own design

**LN246 Custom Design Coin Banks**

The designs on this page showcase the type of shapes that work best for custom design coin banks. Minimum order is usually 5,000 units and sometimes 10,000 units depending on complexity, size, weight, print details, number of paint colours and packaging. Cartoon concepts with round edges usually work best. Send in your design brief with ideas.

We cannot guarantee PANTONE® colour matches. If in doubt, order a proof (at extra cost). Note: Progressively we will be introducing warning choking hazard stickers on some stress reliever items as they are not intended to be given to children under 3. This applies to items with protruding parts that may be twisted or broken off and swallowed. Please enquire about each item and we will forward samples with sticker as they become available. Stress Reliever items are not toys or suitable for any animals or pets.

Stress Reliever items are all made by hand. No two pieces are exactly the same. It is impossible to guarantee a consistent, uniform print. Broad print areas may break up and print may not be solid. We cannot guarantee PANTONE® colour matches. If in doubt, order a proof (at extra cost). Note: Progressively we will be introducing warning choking hazard stickers on some stress reliever items as they are not intended to be given to children under 3. This applies to items with protruding parts that may be twisted or broken off and swallowed. Please enquire about each item and we will forward samples with sticker as they become available. Stress Reliever items are not toys or suitable for any animals or pets.
