2016 LINCOLN NAVIGATOR

There's a certain, quiet power to which many of us aspire. It's a stalwart strength that radiates outward, silently encircling those around you. This type of power inspired the design of Navigator. From its signature Lincoln grille to its graceful wraparound taillamps, it embraces you and your passengers, surrounding each of you in exquisitely crafted, luxurious comfort. A spacious retreat where responsive technologies elevate your travels and understated confidence guides you through each day – the 2016 Lincoln Navigator.

EXPRESSIVE DESIGN

YOU KNOW HOW IT FEELS TO REFLECT ON LIFE'S RICHES AND REALIZE WHAT YOU HAVE ACHIEVED? ADD THIS TO YOUR LIST.

Navigator commends your efforts and rewards your accomplishments with a luxurious interior designed to enhance every drive. Relax into your **premium leather-trimmed, 10-way power, cooled driver's seat** and take in the beautiful strength of the leather-trimmed steering wheel and instrument panel.¹ Precise stitching and **genuine wood inlays**, including exotic Ziricote on Reserve, satisfy your penchant for attention to detail.

The position of the driver's seat, the sideview mirrors, the brake and accelerator pedals, and even the tilt/telescoping steering column can be adjusted using power controls, then saved to a **memory setting** for Navigator to recall at the touch of a button.

Providing personalized comfort for you and your front passenger, **dual-zone electronic automatic temperature control** allows each of you to set your own preferred temperature. This convenient feature is just one of the many ways Navigator helps you rise above compromise.

ADAPTIVE HID HEADLAMPS

To provide more visibility when driving around curves, adaptive HID headlamps feature beams that move in the same direction as the steering wheel. Their bright, white light also provides better visibility than conventional halogen lamps. Together with the LED signature lamps and LED daytime running lamps, they further enhance the beautiful face of every 2016 Navigator.

¹Available feature.

EXPRESSIVE DESIGN

**SOME ARE NATURALLY ADEPT AT CARING FOR THE PEOPLE IN THEIR LIVES.
LINCOLN NAVIGATOR RAISES IT TO AN ART FORM.**

Plenty of personal space for everyone. That's what you'll find inside this luxuriously appointed interior. In addition to its 3 rows of premium seating designed to pamper **up to 8 people**¹, you'll also find plenty of conveniences and an abundance of cargo room. After all, life is so much fuller when everybody comes along for the ride. The leather-trimmed **2nd-row bucket seats**¹ feature reclining seat backs. The roomy 2nd-row center floor console¹ and dual headrest DVD players^{1,2} help your passengers stay organized and entertained on long trips. Those in back will also enjoy **expansive 3rd-row leg room**, an added benefit of the independent rear suspension. Plus, the standard **PowerFold® 3rd-row 60/40 split bench seat** folds flat in a single smooth motion, at just the touch of a button. If an extra-spacious interior is your desire, the long-wheelbase Lincoln Navigator L fulfills it with **1,207 liters of cargo space** behind its 3rd row – as well as a Cargo Management System to help you keep everything in its place.

¹Available feature. ²Lincoln Licensed Accessory.

What could be easier than using your voice to command your car? **SYNC® with MyLincoln Touch™¹** connects you to the world around you. A simple spoken word activates the system and puts you at the helm of your audio, climate choices, music, information, calling and personal contacts, and more – without ever having to take your hands off the wheel. In addition to the steering wheel-mounted 5-way controls, the system features a configurable 8" color touch screen, as well as a media hub with 2 USB ports, offering you several convenient ways to stay connected.

SYNC WITH MYLINCOLN TOUCH

Dial phone numbers and answer calls without picking up the phone – or taking your focus off the road. SYNC with MyLincoln Touch even mutes other audio sources so you won't miss an incoming call. Just say the word for voice control of your contacts, as well as the playlists on your USB device or smartphone.

THX II CERTIFIED AUDIO SYSTEM

The 14-speaker THX® II Certified Audio System with patented THX Slot Speaker™ Technology and specialized digital sound processing fills the cabin with studio-quality sound, ensuring you experience music exactly as the artist intended.

¹Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. Functionality varies by market. THX, the THX logo and Slot Speaker Technology are trademarks of THX Ltd., registered in the U.S. and other jurisdictions. All rights reserved.

INNOVATIVE TECHNOLOGIES

It's important to have a sense of what's happening around you. A **Reverse Sensing System** and rear view camera are both standard equipment on every Navigator. The audible alerts and full-color visuals are helpful when you're backing into or out of tight spaces, and the visual guidelines will come in handy when you need to line up your trailer.

We could all benefit from a little forward thinking. Thankfully, when you're pulling into a space, the **Forward Sensing System** on Navigator sounds an audible tone if its sensors on the front bumper detect an object in front of your vehicle.

It can be easy to miss when a vehicle has entered your blind spot. Just as its name suggests, **BLIS® (Blind Spot Information System)** helps keep you aware of things that may be out of your line of sight. The system alerts you with a light in the corresponding sideview mirror if its radar sensors detect a vehicle. **Cross-traffic alert** notifies you with an audible beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you're slowly backing out of a space.

QUARTER WINDOWS

POWERFUL PRESENCE

A responsive ride – with an independent side. **Lincoln Drive Control¹** featuring **continuously controlled damping (CCD)** uses sensors to read the road – and your driving input – every 2 milliseconds, then quickly adjusts the firmness and damping at all 4 wheels to help your Navigator remain in harmony with the road. The system also lets you select between 3 drive modes – Comfort, Normal or Sport – to match your driving style. **Electric power-assisted steering (EPAS)** automatically adjusts the steering sensitivity for different driving situations. The **rear load-leveling suspension¹** helps Navigator maintain its ride height for consistent handling, while riding on a fully independent front and rear suspension helps it keep all your travels as smooth as possible.

¹Available feature.

POWERFUL PRESENCE

3.5L ECOBOOST

Turbocharge your travels. Navigator gets you where you want to go with a 3.5L EcoBoost® twin-turbocharged, direct-injection engine that provides smooth power on demand – 390 net PS!¹ It also gives you plenty of low-end torque for on-ramps and passing – 629 N•m of net torque.¹ And to help you get through rough terrain, Navigator also offers a Control Trac® 4-Wheel Drive (4WD) System.²

POWERFUL PULL

Proceed with poise. Navigator makes towing look easy with its **4,082 kg towing capacity**.³ Standard trailer sway control helps by monitoring the motions of the vehicle to detect trailer sway and selectively braking individual wheels as needed,⁴ so you can confidently maintain control of your Navigator and trailer while towing.

¹Data as per GCC Standardization Organization certification. ²Available feature. ³When properly equipped. ⁴Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

PREMIUM EXPERIENCES

Give them a sense of security – from every angle. Navigator surrounds you and your loved ones with its structural safety cage, **dual-stage front airbags** and **front-seat side airbags** for the driver and front passenger, plus **side-curtain airbags** for outboard passengers in all 3 rows. In addition, the **SOS Post-Crash Alert System™** can unlock doors and flash lights to let others know you may need help.¹

Slippery surfaces and emergency maneuvers often require a bit more from your vehicle. Fortunately, Navigator provides just the help you need. **AdvanceTrac® with RSC® (Roll Stability Control™)** can selectively apply individual brakes and modify engine power to help keep all 4 wheels firmly planted.²

¹SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner. ²Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

EVEN BEFORE YOU OPEN THE DOOR, NAVIGATOR EXTENDS A GRACIOUS WELCOME.

A luminous welcome mat featuring the Lincoln logo is cast upon the ground on each side of the vehicle as it unlocks.

Keyless entry with push-button start makes entering, starting, exiting and securing your vehicle a breeze.

As you take your seat inside the cabin, the warmth of ambient lighting welcomes you back to your home away from home.

You'll be riding in style thanks to the standard **power-deployable running boards** on every Navigator. Any time a door is opened, they lower themselves to facilitate each passenger's entry and exit from the vehicle. When the doors are closed, they stow themselves beneath the vehicle to maintain its streamlined appearance. A standard **power liftgate** provides one-touch access to your spacious rear cargo area. Activate it using a button on your key fob, on the liftgate handle, on the instrument panel, or inside the rear cargo area. Navigator is filled with thoughtful features designed to help make life easy for you.
