BUSSE/SJI
CORPORATION

As a family owned and operated business, values like **honesty, transparency and fairness** are essential to the success of our program. Our RFID garment tracking technology has given us the ability to deliver **one of the most efficient and accurate garment rental programs** available.

 **AbsorbTech**®
Cleaner, safer solutions for industry

Your StraightUp!TM Garment Report

The Genuine Service Excellence Team

ITU AbsorbTech delivers complete transparency about the things that matter to you - like physically showing you when a garment may pose a safety risk, identifying wearers that are not fully utilizing the program, and indicating any applicable damage and repair charges in an easy-to-read report, to name a few.

Our exclusive StraightUp!TM Garment Report provides a detailed summary of your entire rental program, making it easy to control and monitor your costs.

In this comprehensive report, you can view:

- All program costs and charges
- Garments added, removed and upgraded
- Repairs made at no cost to you
- Garment utilization
- Service request turnaround by our Genuine Service Excellence team

The benefits of StraightUp!™

We manage all the details

Our StraightUp!™ program makes it easy to control and monitor your garment rental costs. We offer simple, easy to understand pricing and invoices with no hidden or surprise charges so you can budget with assurance.

- **No Set Up Charges** - No set-up, installation, or prep charges for new and existing accounts.
- **Free Garment Upgrades** - Pro-rated damage charges and free upgrades after 24 months.
- **No Garment Insurance** - No garment insurance programs that favor the provider, not the customer.

We embed RFID "chips" in our garments to better serve our garment rental customers. Helps us (1) improve delivery accuracy, (2) improve turnaround time and (3) provide advanced garment reporting to customers.

6 Low utilization lines means a garment is not being turned in for laundering on a regular basis.

Utilization = Inventory / # Garments Turned In

Typical garment inventory is 11 (5 in locker + 5 being washed + 1 being worn). For a typical inventory, 45% utilization is ideal because the employee has consistently turned in all 5 garments for laundering. 10% utilization means the employee has consistently turned in less than 1 garment.

7 Garments repaired at no charge. Number of repairs made at no additional charge. Also shows how many repairs were proactively identified by ITU AbsorbTech to ensure high quality garments in your program.

Complete transparency

Our promise to customers

Complete transparency is our promise to handle all transactions and interactions in plain sight. It means delivering honest, complete, and regular communication to ensure you get the best value for your program investment.

- ✓ We actively **review your employee roster** so you are not paying for employees that left the company.
- ✓ We physically show you **damaged garments** for your authorized approval.
- ✓ We provide a **list of employees** that are not turning in their garments regularly.
- ✓ We clearly show any applicable **loss and damage charges** on your invoice.
- ✓ We schedule **regular, ongoing visits** with you to review the value and effectiveness of your program.
- ✓ We review **personalized reports** that show all program costs, change requests, and usage.

Company-wide results in 2016:

How likely are you to recommend ITU AbsorbTech to friends and colleagues?

How likely are you to renew your service agreement with ITU AbsorbTech?

Compare our products, processing and service to alternatives. We are confident you'll find our programs the **best** in the industry.
