FMSCA/DOT – CSA2010. Given the carrier/driver safety rating changes required by MSCA/DOT, the Allen Lund Company will conduct monthly investigations within the FMSCA site to confirm carrier/driver ratings, and take necessary steps to remove carriers not rated at a level in keeping with ALC standards. Additionally, our Carrier Resources compliance processes include the following:

Current ALC Carriers

- Current & sufficient Cargo and Auto Liability
- Active Motor Carrier Authority
- Carriers whose scores are in the “At Risk” SMS status are placed on suspension, until the score is brought down

New Carriers

- Current & sufficient Cargo and Auto Liability
- Signed ALC carrier agreement
- Active Motor Carrier Authority
- Carriers must have SMS scores well below the “At Risk” category
- Carriers are also reviewed via Carrier 411 and TIA websites, for complaints

We track carriers, for reporting purposes specific to the following:

- SmartWay Partners
- Minority Status
- TWIC compliance (Transportation Worker Identification Credentials)

- Integrates with legacy systems and ERP systems
- Customized load confirmation tender gets generated in PDF and email
- User can generate savings, spend analysis and carrier performance reports via the system
- Ad hoc reporting allows transportation departments, carriers and management to generate customized reports in PDF, Word, Excel and CSV
- SaaS/Cloud Architecture backed by Disaster Recovery Systems
- Supported by 24/7 direct point of contact

SPOT PRICE PROCUREMENT APPLICATION

- System bids out to core carriers within seconds
- Custom website allows carriers to bid on the shipments instantaneously
- System allows transportation departments to pick the right bid and tender the load to the carrier based on price and performance

LOAD TENDERING APPLICATION

- Routing guide allows awarding the load to the carrier as per the contract rate
- System is EDI capable with EDI reporting and EDI dashboard
- Shipper can maintain both historic and current routing/pricing guide for all contract loads
- Shipper can maintain fuel surcharge tables
- Shipper can track and trace through the entire load cycle

The Allen Lund Company has been privileged to work with a vast array of clients since 1976.
