QUICK START GUIDE

Make a flippingbook in four simple steps

1. Import your PDF

2. Select a suitable skin

3. Publish your publication

4. Share your publication

Introduction

FlippingBook Publisher is a Windows application, designed to create online publications with a realistic page-flipping effect from traditional documents like PDFs.

With the help of Publisher 2, you will be able to create online publications for websites, offline publications for CD, DVD and Flash-drives, as well as online publications for mobile devices (iPad, iPhone, and Android devices).

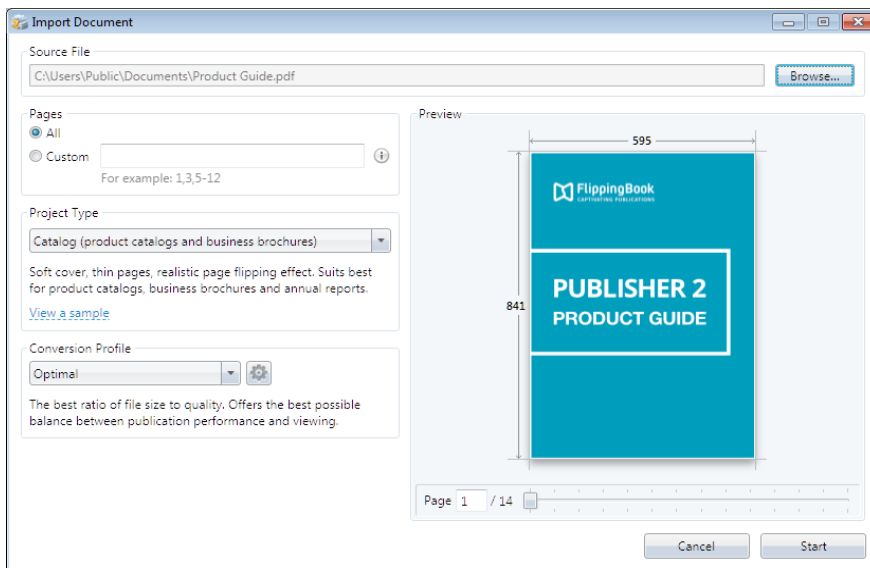

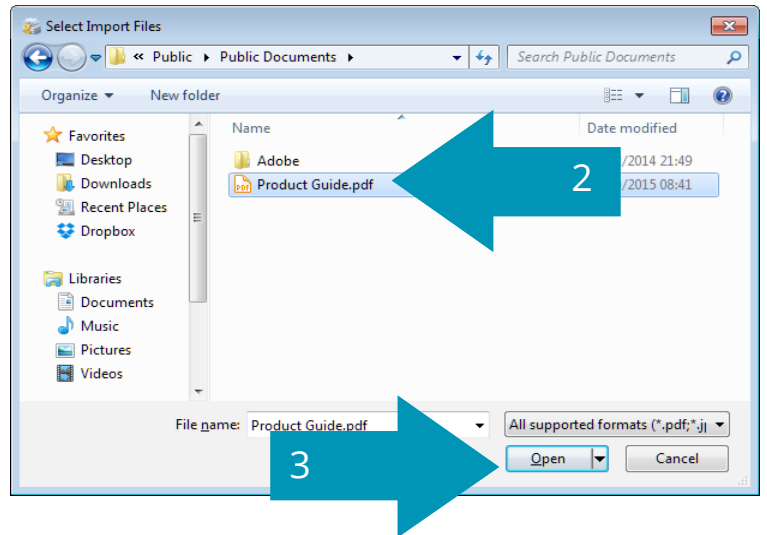

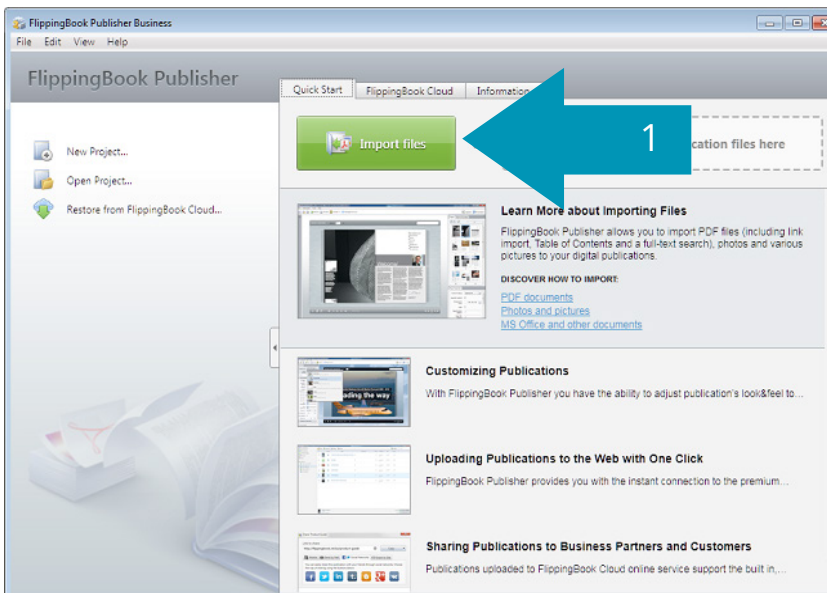

This Quick start guide describes the steps to create a publication in FlippingBook Publisher and publish it online. It contains all the necessary steps from start to finish, but no more than that. For more detailed information about all the functionality that FlippingBook Publisher offers, please refer to our detailed User Guide.

Step 1: Import your PDF

To create a publication, we will need to import a PDF file into FlippingBook Publisher. To import your file:

- 1 Click on the green button called **Import Files**. This opens the 'Select Import files' window.
- 2 Browse to the **PDF-file** that you want to convert and select it.
- 3 Click on **Open**. This opens the Import Document window.
- 4 Click on the **Start** button.

FlippingBook Publisher now imports your document. This may take a few seconds. When the process is completed, you will see a preview of your publication with page flipping effects in the software.

Step 2: Select a suitable skin

The appearance of your publication is determined by what we call the 'Skin'. A skin is a collection of all the graphical elements (like colors, fonts, and background images) that together make up the User Interface for your publications.

FlippingBook Publisher comes with 24 professionally designed skins by default. These skins give a coherent look to all the elements in your publication.

Steps to change the skin

- 1 Go to the **Properties** pane.
- 2 Click on the **Select Skin** button.
- 3 Choose a skin that goes well with your publication by clicking on the miniature preview.

The new skin will be automatically applied to your publication.

The screenshot displays the 'Product Guide (Catalog)' interface in FlippingBook Publisher Business. The main window shows a 'Product Guide' with pages 12-13 of 14. A 'Select Skin' dialog box is open, showing a grid of 24 skin options. Three blue arrows are overlaid on the image: arrow 1 points to the 'Properties' panel on the left; arrow 2 points to the 'Select Skin' dialog title bar; arrow 3 points to the 'Natural Harmony' skin preview. The 'Properties' panel includes sections for 'Main Settings', 'Publication Name', 'Background', 'Background Color', 'Panel Color', 'Title Color', 'Window Color', 'Text Color', 'Optional Color', 'Book Size', 'Hardcover', and 'Zoom Page Size' (set to 30%). The 'Select Skin' dialog shows skins such as Office Gray, White Style, Black Carbon, Beige Interior, Green Vintage, Sport Energy, Dark Wood, Light Wood, Office Light, Autumn School, Study Desk, Underground, Calm Water, Natural Harmony, Sunny Afternoon, Winter Day, Cloudy Valley, Beach Vacation, Purple Charm, Pink Mood, Yellow Vanilla, Shabby Chic, Red Passion, and Blue Healthcare. The background shows a 'System Requirements' table.
