## PERFORMANCE DNA

Every Under Armour® product is doing something for you: it's making you better. Following are the core pieces of DNA that deliver on this promise. The building blocks of performance.

### STORM

Water-resistant performance fabric that keeps athletes warm and dry.

### STRATEGIC VENTILATION

Strategic venting built into garment at key points where the body dumps heat. Keeps the athlete cool in hot conditions.

### 4-WAY STRETCH

Lightweight fabrics with built-in 4-way stretch improve mobility and accelerate dry time.

### MOISTURE TRANSPORT

Wicks moisture from the body, keeping the athlete dry.

### ODOR CONTROL

Fabric treated with antimicrobial agents.

### UPF

Ultraviolet protection shields your skin from the sun's harmful rays and inhibits premature aging.

### MPZ

Modular Protection Zones®: durable, lightweight protection at key contact points without sacrificing compression support.

### 360° REFLECTIVITY

The high visibility solution for training safely during low light conditions.

### WIND RESISTANT

Blocks wind from penetrating to the body. Helps regulate core body temperature.

### ARMOURGRIP™

Locks gear in place using a tactified compound that prevents slippage.

### FLATLOCK SEAMING

Specialized seaming that feels smooth against the skin and prevents chafing.

## GEARLINES

**coldgear**  
KEEPS YOU WARM  
WHEN IT'S COLD.

**allseasongear**  
FOR BETWEEN  
THE EXTREMES.

**heatgear**  
KEEPS YOU COOL  
WHEN IT'S HOT.

## BENEFITS OF COMPRESSION

Whether it's training or gameday, your UA Compression base layer makes you better. UA Compression unleashes the power of your muscles and keeps you stronger for longer.

### INCREASED POWER & STAMINA STAY STRONGER FOR LONGER

Reduces muscle vibration to lessen fatigue and maintain power output. Keeps muscles aligned correctly to increase repetitive muscle power.

### ENHANCED PROPRIOCEPTION KNOW YOUR BODY'S PLACE IN SPACE

Enhances proprioception—the body's recognition of muscle patterns and spatial awareness—to increase muscle efficiency.

### FASTER RECOVERY GET YOUR MUSCLES BACK TO FULL STRENGTH FASTER

Creates a healing environment around muscles and circulatory system. Post-workout, reduces swelling, decreases soreness time and promotes muscle repair.

### SUPERIOR COMFORT STAY COOL, DRY, AND LIGHT

Wicks moisture to keep you 53% lighter than cotton after 60 minutes of athletic performance. Speeds evaporation to regulate your core temperature.
