# SS108925-45 HI-TORQUE CLUTCH

- ✓ **RATED AT 2250 FT/LBS!**
- ✓ **FITS FLYWHEELS W/8-5/8" OR 10" I.D. BORES**
- ✓ **CAN BE USED FOR ALL 6 PADDLE HIGH TORQUE APPLICATIONS**
- ✓ **PRESSURE PLATE LOAD OF 4250#**

As engine horsepower and torque continue to increase in the marketplace, the demands placed upon clutches today is greater than ever. For the toughest applications out there that will leave the competitions' clutches in a hunk of twisted metal, Dayton Parts introduces a new Hi-Torque Clutch that can handle the load.

Our new SS108925-45 clutch is a 10 spring discs, 6 paddle disc design. This clutch can replace all of your 1860 or 2050 rated 6, 7 or 9 spring discs. The SS108391-93H & SS108925-25 are superseded to the SS108925-45. You can also replace the SS108925-82H & SS108935-91 with this new clutch.
