**WHITE MULBERRY LEAF EXTR:**  
**order # 70659**

## Offer Your Customers a Healthy Way to:

- 1. Lower Blood Sugar** - *The leaves contain a compound called deoxynojirimycin (DNJ) which can help inhibit sugar absorption.*
- 2. Block Cholesterol Build Up** - *The antioxidant flavonoids in the leaves help reduce LDL or “bad cholesterol” which contributes to plaque buildup and hardening of the arteries.*
- 3. Prevent Diabetes** - *Studies suggest the leaves help control blood sugar levels by preventing spikes in glucose and insulin which can lower the risk of developing diabetes.*
- 4. Curb Cravings** - *Because white mulberry helps stabilize blood sugar levels, it's likely to make customers feel satisfied after eating and not craving for more.*
- 5. Get Nutrients Naturally** - *Unlike many supplements and medicines, white mulberry extract contains no caffeine or chemicals. It is a great source of protein, fiber and vitamin C for customers!*

# DrTung's Oral Care

**DrTung's** is widely known in the natural industry for delivering effective oral care products that contribute to improved health and well-being. A deep understanding of the mouth-body connection – now being recognized by modern medicine yet always known in the ancient health science of Ayurveda– is at the foundation of the products they develop.

Many of their products are patented for their intelligent function and design, and are clinically tested to be more effective. DrTung's Ionic toothbrush has been clinically proven to remove up to 48% more plaque than a manual brush and Smart Floss® is clinically proven to remove up to 55% more

Inherent in each product are high-quality benefits that consumers love. It may seem unusual for people to talk to friends about something as deceptively ordinary as dental floss or a tongue cleaner, but DrTung's consumers can be very outspoken...almost fanatical! "I am a DrTung's evangelist", proclaims marathon runner Don Meyer, while Dr. Stephanie Nielsen says that she won't use any floss other than DrTung's floss!

DrTung's focuses on designing oral care products that are both more effective and easy to use. All this is done with an eye on minimizing their environmental footprint. For example, their eco-friendly Snap-On Toothbrush Sanitizers use refills which save 46% less plastic, and the use of essential oils to sanitize your toothbrush overcomes the need for batteries or electricity. Both the Smart Floss® dispenser and Toothbrush Sanitizer are made with Eco-Pure®, which helps them biodegrade quicker in landfill conditions. Perio Sticks™ are made from eco-certified Nordic birch, a solution to the waste created by single-use plastic flossers.

plaque than regular floss types.

When developing their Oil Pulling Concentrate, DrTung's was guided by Ayurveda to produce an authentic and effective formula, which consists of organic sesame oil enhanced with over 20 plants and botanicals. The synergistic blend is beneficial for the oral microbiome and the enhanced oil gives benefits in a shorter 5-15 minutes compared to 20 minutes with plain oil.

The company is launching their exciting new packaging this summer; same great products with a fresh new feeling. "Our improved branding image will bring more focus and attention to these highly respected products that continue to gain more plaudits worldwide," says Kim Driggs, DrTung's National Sales Manager.

When it comes to teeth, breath and gums, it is clear why people love DrTung's.

# OIL PULLING CONCENTRATE

Ancient Ayurvedic texts recommend **OIL PULLING** as part of your daily routine, to strengthen teeth and gums, help with mouth dryness and other oral conditions.

## What is oil pulling?

"Lightly 'chewing on' and swishing oil in the mouth for 5-20 minutes helps soothe and moisturize the mouth and gums. It helps remove certain harmful bacteria, and research indicates that oil pulling can reduce plaque and improve gingival health. It also helps strengthen teeth and may help tooth decay." says Colin Davis, president of drTung's Innovative Oral Care.

"More than 600 bacterial species have been identified in the mouth, but many of these are good bacteria," Davis continues. "Oil pulling is different from rinsing the mouth with a chemical mouthwash, which indiscriminately kills bacteria. Rather than create an imbalance in the oral microbiome, oil pulling is balancing and energizing to the mouth. Although coconut oil is popular for oil pulling, traditional Ayurveda uses sesame oil, due to its subtle, penetrating, and antibacterial effects."

# COULD IT BE BV?

If you've never heard of bacterial vaginosis (BV) before, you're not alone; most women haven't! Here's what you need to know:

THE HIGH CONCENTRATION OF PETROCHEMICALS IN MOST OTC PERSONAL LUBRICANTS INCREASE RISK OF BV IN WOMEN **13X**

Petrochemicals and Parabens found in most lubricants are 30X heavier than human tissue, compromising the natural immune response and creating an inhospitable condition for healthy bacteria to thrive. BV occurs when the normal balance of good bacteria in the vagina is disrupted and replaced with an overgrowth of harmful bacteria.

2 in 5 women have BV, but 84% don't know they have it, and women who have BV are 60% more susceptible to HIV and STIs. They are also 3x more likely to infect their partners.

BV is often detected through an unpleasant fishy odor- which yeast infections (caused by yeast overgrowth) do not perpetuate- and unfortunately, many treat this odor with washes that perpetuate the BV infection. These treatments may also cause further itching and irritation.

Good Clean Love's Restore and Balance are scientifically developed to help pH balance, salt balance and Bio-Match the perfect healthy vaginal conditions needed for lactobacilli to grow and thrive so that women are less likely to experience recurrent bacterial vaginosis and unpleasant odor. Often prescribed antibiotics will kill these beneficial bacteria, in addition.

# Itching for a cure

## Why scalp care matters more than ever

According to the NIH, dandruff affects almost half the population, and its incidence is on the rise. In the US alone, nearly \$300 million is spent on various dandruff products per year. Causes of dandruff vary from person to person, ranging from sebum overproduction, fungal (*malassezia*) proliferation, nutrition deficiencies, seasonal changes, even stress. Perhaps that's why finding the right solution to soothe dandruff symptoms is often a matter of trial and error.

### Scalp care goes naturally effective

As consumer demand for natural products heightens across personal care, thought-leading brands such as derma e® are rising to the occasion with naturally effective scalp care innovations. New **Scalp Relief Hair Care** by derma e® is a standout, because the shampoo and conditioner regimen is doctor-developed, clinically-tested and consumer-tested to effectively alleviate symptoms associated with scalp dandruff, eczema or psoriasis.

### The best natural solution is from derma e®

Unlike other scalp treatment products that only address one or two dandruff causing factors, derma e® Scalp Relief formulas work in 4 ways to significantly improve the condition of the scalp and hair, from root to tip.

#### Each Scalp Relief formula works in 4 therapeutic ways...

- Shampoo:**
1. CLEANSE
  2. DE-FLAKE
  3. SOOTHE
  4. NOURISH

- Conditioner:**
1. DETANGLE
  2. DE-FLAKE
  3. SOOTHE
  4. NOURISH

Could this be the end of the trial and error dandruff treatment guessing game? This regimen is quite possibly the market's best natural contender.

# LET US INTRODUCE YOU TO LIFESAVING VITAMIN A

Vitamin A is one of 5 nutrients critical to a child's growth and development. By delivering vitamin A to children who are unable to get it from their daily diets, Vitamin Angels is helping to substantially reduce the risk of loss of vision, serious illness, and even death. ## THE INDIAN HEMP & HAITIAN VETIVER COLLECTION

### HUMBLE BEGINNINGS

We got our start as street vendors in Harlem. Fresh out of college and without jobs, we set out to bring the healing traditions of African Black Soap and Shea Butter to the community we loved. Today, Nubian Heritage offers hundreds of culturally authentic all-natural products inspired by global ancient healing philosophies.

### WHAT WE STAND FOR

For over two decades, we've gathered traditional healing practices from around the globe and reimagined them into 21st century wellness solutions. We are dedicated to alleviating poverty in the communities that make up our supply chain. We strive to make wellness accessible and available across our communities.

### HERITAGE

Cultivated in China as early as 4000 BC, Hemp has had a long history of use for food and skincare. Vetiver, known in Asia as the "Oil of Tranquility," is used in tropical communities to create calming, soothing remedies. Nutrient-rich Neem (at the foundation of Ayurveda, the Ancient Indian practice of healing). This line combines the protective and rejuvenating qualities of Hemp Seed Oil—rich in Omega-3 and Omega-6 fatty acids with Neem Oil and fragrant Vetiver.

Rather, our development team was meticulous in maximizing the impact of our formulas so every customer receives the very best of what nature has to offer."*

Developed by former police officer, Leisa St. Ledger, the scientifically formulated SystemLS™ weight-loss system includes a range of products that underwent extensive research and rigorous testing; each product provides natural and organic ingredients designed to support weight loss and a healthy lifestyle. Including a true and complete high-protein shake, high in fiber, antioxidants, omega 3s, whole food-based vitamins, probiotics plus high quality whey protein. The products also include a revolutionary phone app, which offers ongoing motivation for consumers, as well as ongoing training and support.

*"We believe SystemLS™ continues to receive both local and global acclaim because of its real results for real people. We are thrilled to attract the interest of Select Nutrition, as well as that of consumers from across the globe," St. Ledger added.*

## Can Your Customers Find You?

NPA matches customers shopping for natural products to our retail members. The **Natural Products Store Locator** is the most popular section of the NPA website. Customers use it to find stores that sell natural products.

NPA retail members get listed at [www.npainfo.org/retailstore](http://www.npainfo.org/retailstore).

## NPA NATURAL CERTIFICATION PROGRAM

The first and only natural certification in the US

### Are your customers asking for certified products?

Just because a product claims to use natural or naturally-derived ingredients does NOT mean the product is truly natural.

Many manufactures cut costs by using lesser quality ingredients in their products.

Now, when a product is certified natural, you can be sure that it is.

Scan to view a list of Certified Home Care Products

Scan to view a list of Certified Personal Care Products

Be sure the products on your shelf are NPA certified natural.

## The Purest Salt

Himalayan Crystal Salt    Table Salt    Sea Salt

**Himalayan Crystal Salt** is mineral rich, un-polluted, and bio-energetically alive. The pictures above (magnified 400x) show the intricacy of the energetic "branches" of a single grain of Himalayan Salt (A) dissolving in water, as compared to regular "table" salt (B) and sea salt (C). Notice how the minerals in B and C exist in isolation, and how those images are "smudged" by impurities and/or chemical pollutants.

- D-ALPHA TOCOPHEROL

Healthy Origins® Natural Astaxanthin is a carotenoid produced from *Haematococcus pluvialis* microalgae. Carotenoids are organic pigments that naturally occur in plants and other photosynthetic organisms. These organic pigments are responsible for giving many plants, fruits, and sea life their vibrant colors. There are over 600 known carotenoids which are broken down into 2 groups; Xanthophylls and Carotenes.\*

One of the most important carotenoids in the Xanthophyll group is the super antioxidant Astaxanthin.\*

## Frequently Asked Questions

### When is the best time to take Flaxseed Oil?

Flaxseed Oil can be taken at any time of the day. It can be added to foods and beverages, or used in salad dressings and spreads. Shake well before each use to disperse the flax particulate.

### What does it taste like?

Flaxseed Oil has a pleasant, nutty-buttery taste.

### Why is Flaxseed Oil packaged in opaque containers?

Light, especially bluish fluorescent light, is very damaging to Omega-3 oils such as flax and fish oils as it initiates photon oxidation. Light is reported to be more damaging than heat.

### How long does it keep?

Unopened Flaxseed oil has a 18 month shelflife. For optimum freshness; consume within 8 weeks after opening the bottle. Always refrigerate after opening.

### What are Lignans?

Lignans are a group of phytochemical compounds which are found in many foods including seeds, whole grains, legumes, fruits and vegetables. However, it is flax seeds that reign supreme as the highest natural source for lignan content. Compelling studies have shown that consumption of high lignan foods may provide support for women's health and cardiovascular health.\*

### What are the benefits of Ultra Omega?

For customers who are consuming flax oil solely for its Omega 3, 6 and 9 content, Healthy Origins® Ultra Omega Organic Flax Oil is the best choice to suit their needs. Our Ultra Omega Flax Oil is higher in Omega 3, 6 and 9 content when compared to our Ultra Lignan Flax Oil, and it is not as dense with flax particulates making it more suitable for food and beverage applications.
