Safety Moment

GETTING CREATIVE WITH SAFETY

We asked our accounts for examples of how they promote safety and we received this unique approach that one campus employs.

It's SIMPLE!

The more you collect the better chance you have to win!

SPRING 2017 CHIP'N FOR SAFETY

How it works- For the short period in April and the month of May "Safety Chips" will be handed out to SSC staff when they witness another employee doing something "safe." This can include wearing all the proper PPE, safe lifting techniques, exhibiting awareness of the working environment and potential hazards, or identification and correction of a safety hazard. The chips are then redeemed to the Unit Director at the end of each month. The employee with the most chips is awarded a safety bonus on their next pay check of **\$100** for April and **\$200** for May.

Compass Group Career Week

Save the Date! Compass Group invites you to participate in 12 engaging virtual programs during Career Week 2017, August 22, 23, and 24!

Here's what to expect during Career Week:

- Learn insider tips on how to kick start your Compass Career journey and continue to grow your career
- Get a glimpse into online training classes that will boost your development
- Acquire valuable job search and personal branding strategies
- Network with people of similar interests

(Continued from page 1)

Grannie, organized the SSC team of 24 that collectively raised over \$18,000—over 60% of the total funds raised for this year's American Cancer Society's Relay for Life of Canyon.

The fundraising for next year is already underway with a unique campaign that gets the students of West Texas A&M University involved. Since the Relay, Larry met with Residential Living and SSC has implemented a clothes donation program in the laundry rooms of the dorms. Once a week the team captains go in and remove the clothes, then they are taken to a resale shop where, once sold, the profits go to the American Cancer Society. We are all collaborating as a team, as a campus, and as a community to give back and make a difference!

CAREER DAY FUN AT MUNCIE

Three of SSC's maintenance staff took time out of their day to present to over 60 4th and 5th grade students for Career Day at West View Elementary School in Muncie, IN. Jeremy New, an electrician, talked with the students on the topic of electrical safety and "what if" scenarios: What do you do if you are riding

your bike and see a downed power line? Carpenters, Dwayne Pryor and Jeff Andrews, demonstrated how to frame a door and engaged the classrooms in discussions of how to use power tools and safety precautions to follow when working with tools.

In the days following we received multiple letters from school staff thanking the presenters for their punctuality and preparation and emphasizing how much the kids loved the interactive presentations.

FIRST GRADUATES OF THE NEW FRONTLINE MANAGER-IN-TRAINING PROGRAM

In March of 2017, Hussein Al Khafagi, Juan Soto, and Chaka Watson (pictured below with RVP John Lane, Senior Human Resources Director, Shannon Thornton and Training Manager, Kerrie Lynn) were nominated into the new **SSC Frontline MIT** program.

The three MITs who formerly held positions of Custodian or Custodial Supervisor, worked hard through a robust 12 week program and graduated the program on June 16th. As of today they have all been placed in new roles as Unit Directors.

The next class will begin sessions in August 2017. Kerrie Lynn can be contacted for more information and nominations.

Grounds Tips for your Home:

Spider mites will attack many plants especially needle leaf evergreens, junipers, pines, spruces, firs. They will also attack Japanese hollies (these look like boxwoods and are in almost every landscape). Look for speckling on the foliage – you can also take a small piece of white paper and lightly tap foliage and look for tiny moving insects – if there is movement you have mites. Treatment is with selective miticides (must be labeled as a miticides) or using horticultural oil, which I find most effective. Read the label on any product you choose and if you choose oil (which I recommend) it is temperature sensitive and also may discolor some spruces.

—George Bernardon,
Regional VP of Grounds
Management

Recruiting Spotlight

External applicants:

www.compassgroupcareers.com

Internal applicants: www.altogethergreat.com

Did you know our critical open positions come with a referral bonus? Well now you do! If your referral leads to filling a high need position you could receive up to a **\$750** bonus.

Critical Open Positions under recruiter Julie Nelms:
