

# “PRIME MOVER – DELIVERING WORKWEAR TO THE WORLD”

Welcome to the latest Prime Mover Workwear catalogue, edition #18.

Since we last met, Prime Mover Workwear has announced some major new developments, we have added to our stock range with multiple new styles and continued our development in countries outside of our homeland Australia.

Invigorated by and always wanting to share our story and business with all walks of life, all different types of people and nationalities, we have diversified and opened centres in Hong Kong, Zambia and Sierra Leone. These new countries of course now sit alongside Australia and New Zealand. As well as these new centres we have increased our exposure and distribution levels to Papua New Guinea and the Middle East. Dealing with so many cultures has on one hand changed so much but at the same time nothing at all. Driven by the desire to be serviced, driven by the desire for a good quality and a value for money product, we find that the same features and benefits that Prime Mover Workwear has always prided itself on speaks all languages.

Our philosophy and underlying simple and single mindedness will never change. All that Prime Mover Workwear want is to produce the best workwear product that we can, service our customers no matter where they are with passion and care and provide the world's best value for money workwear items.

Since our inception now just over a decade ago we have improved on all of these key traits and continue to do so. No matter where you are in the world, from Australia to Africa, PNG to NZ Prime Mover is coming to service you. If you cannot wait, feel free to call any one of our branches and you will be met with a desire to give you and service you with the best there is bar none. Looking after the workers of the world when you need workwear – **PRIME MOVER** is the only name to ask for.

## 5 REASONS

### To Choose Prime Mover Workwear

#### QUALITY

# 1

- High quality AS/NZS standards approved Safety wear that provides you with the peace of mind that you have taken the appropriate action to minimize the risk of industrial accidents.
- We only use the best materials such as 3M reflective tape and approved cloth from specialised fabric mills around the globe.
- These factors will provide you with exceptional value for money and brilliant quality.

#### VALUE

# 2

- We offer unbeatable value for money because our Chinese based operation employs staff that deal directly with our own manufacturing plants.
- We never use "middle men" or agents and never out source any of our branded products.
- This ensures control as our own employee's oversee the entire production process from start to finish.

#### TEAM

# 3

- To Prime Mover Workwear, our clients' needs come first. Our Customer Service is unique and dedicated to our clients.
- We have global staff members who work solely and exclusively for our brand, continually finding ways to make our products better.
- We have experienced and established partners that ensure our supply chains are loyal and dedicated.

#### RELIABILITY

# 4

- Prime Mover Workwear is always working on new developments and styles, using the latest fabrics to ensure our clients only receive the best.
- With Prime Mover Workwear you always will experience efficient deliveries, fantastic quality and product innovation.

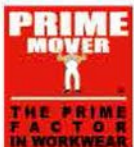

#### EXPERIENCE

# 5

- All of the above is made possible by a team that has years of knowledge and know how in producing supreme clothing products. For more than 10 years we have been distributing brilliant Workwear items to thousands of people across Australia and New Zealand. Experience counts – It's now the right time for you to turn into a Prime Mover.

## SAFETY STANDARDS EXPLAINED

**LET'S LOOK AT SOME CONFUSING STUFF. IF YOU GET STUCK, GIVE US A CALL BUT WE'LL TRY TO EXPLAIN A FEW THINGS AS EASILY AS POSSIBLE.**

### SAFETY STANDARDS & REFERENCES

Within this catalogue you will find Prime Mover Workwear products that may have reference to relevant standards. Whilst many other suppliers of Workwear claim to provide compliance and often quote excessive standards with no or very little relevance to the product, Prime Mover keeps this process simple, straight forward and user friendly. Below is an overview of these standards in basic terms that we hope will provide a level of clarity. For a more comprehensive explanation please contact us – 1300 088 966 or email your question to [sales@primemoverworkwear.com.au](mailto:sales@primemoverworkwear.com.au)

#### AS/NZS 4602.1: 2011

Designed for Australia and New Zealand, this standard is the overall High Visibility Safety Garment Standard encompassing "Garments for high risk applications". Included within this standard is garment design, materials used - both back ground fabrics and retroreflective - labelling and sun protection.

Classification of garments includes –

CLASS D – A garment designed for daytime use

CLASS N – A garment designed for night use using retroreflected light

CLASS D/N – A garment designed for day and night use

For products presented as compliant to AS/NZS 4602.1:2011 then the below listed standards may also be taken into consideration depending on the final usage of the product. This standard 4602 is the overall all-encompassing document. Think of this standard as the house and everything below a separate room within the house.

#### AS/NZS 1906.4

High visibility materials for safety garments. This standard describes the fabrics for the background material and the retroreflective materials ie. reflective tape that can be used within the garment.

#### AS/NZS 1957

Textiles – Care labelling. Labelling and warning tags etc. are an important part of a High Visibility safety garment. Labelling referred to within the main 4602 standard will be taken from this 1957 care labelling standard.

## SAFETY STANDARDS EXPLAINED

#### AS/NZS 4399

Sun protective clothing – Evaluation and classification. UPF (Ultraviolet Protection Factor) is classified in 4399 as –

15 – 24 Good Protection

25 – 39 Very good protection

40 – 50+ Excellent Protection

UPF rating for clothing should not be confused with sun protection factor (SPF) which is not relevant to textiles.

### OTHER REFERENCES

#### EN ISO 11612: 2008

The performance requirements set out in 11612 are applicable to garments which could be worn for a wide range of end uses, where there is a need for clothing with limited flame spread properties and where the user can be exposed to radiant, convective or contact heat or to molten metal splash-es.

#### EN 533: 1997 / EN ISO 14116: 2008

This standard refers to the materials or material assemblies from which garments with limited flame spread properties are made.

#### BS EN 1149-3: 2004 / BS EN 1149-1: 2006

This standard refers to protective clothing incorporating electrostatic properties and measures charge decay. This is particularly relevant to users in industries such as fuel, electricity workers etc.

#### ARC RATING, ATPV Value tested using method ASTM F1959

This indicates a measure in a garments' maximum capability for arc-flash protection and is represented in calories per square centimetre. The higher the ARC Thermal Performance Value (ATPV), the greater the level of protection. If more than one layer of arc-flash rated fabric is utilised in the production of the garment, then obviously an increased rating will be evident. An example of how this rating will be presented is if the garment has an arc-flash rating of 7, then it will be noted as 7cal/cm<sup>2</sup>.

#### Heat Attenuation Factor (HAF) tested using method ASTM F1959

Heat Attenuation Factor (HAF) is expressed as a percentage. This percentage is the amount of heat blocked by the fabric. Even though a fabric may be 100% flame resistant, that does not mean it will block all of the heat to which it is exposed. An HAF of 60% means that it will block 60% of the heat the fabric encounters. This applies to a short burst of heat – typically less than one second. In the event of prolonged heat exposure, the HAF would be much lower.

## ENVIRONMENTAL POLICY

Prime Mover Workwear is a leading provider of work clothing committed to delivering quality products and services. As a work clothing specialist Prime Mover is committed to the protection and health of the environment and is determined to minimise any adverse impacts as a result of its activities. Prime Mover Workwear is committed to addressing the following issues:

### Promote Awareness

We will inform and motivate all our staff and encourage them to play an active role in Prime Mover's commitment to its environmental policy.

### Continuous Improvement

We will continue to evolve and develop our policy, always looking for ways in which to improve our surrounding environment.

### Property Management

We are always improving our buildings. We will construct, refurbish and manage our buildings in a manner that will reduce the associated environmental impacts and be sympathetic with the external surroundings. By addressing the issue of energy efficiency in our buildings, we will contribute to the reduction of greenhouse gas emissions.

### Procurement

We will endeavour to source and utilise the services of suppliers and contractors who adopt the best environmental practices.

### Waste Management

We will continue to promote, develop and implement waste prevention, reduction, reuse and recycling on-site in a systematic and cost effective manner. We will use appropriately regulated waste management contractors to ensure safe management of hazardous and non-hazardous waste sent off-site in accordance with best environmental practice.

We will work closely with our suppliers and customers towards achieving our environmental policy aims.

PRIMETECH  
FLAME-RESISTANT

PRIMETECH  
CH FLAME-RETARDANT

# STOP THE FLAME FROM SPREADING

primemoverworkwear.com.au

A brilliant 100% cotton stock product available off the shelf including an FR fabric treatment and specialised 3M FR retro reflective tape

## Advantages of PRIMETECH CH FLAME RETARDANT

Available in 100% cotton fabrics, allowing a natural fibre against the skin  
Tested to last a minimum 60 washes using a normal washing cycle  
Incorporating 3M FR reflective tapes and trims eg. retroreflective style 8935  
Like for like styling compared with core Prime Mover stock products  
Available off the shelf in some styles or develop to your own requirements  
Cloth compliant to EN533:1997 and ENISO 14116:2008 and can include AS/NZS4602.1:2011

## PRIMETECH FR treatment, exclusive to Prime Mover Workwear.

Currently available from Prime Mover on a "special order" basis, PRIMETECH Nomex' by DuPont™ Flame Resistant is the most superior flame resistant clothing in the world. Now being worn by some of the world's largest mining, oil and fuel companies, Prime Mover are now a world leader in development and delivery of Nomex' and associated FR products.

## Advantages of Nomex-

Tough durable fabric due to the 93% Nomex, 5% Kevlar, 2% Anti static yarn  
Cloth compliant to EN ISO 11612:2008 and include AS/NZS4602.1:2011  
Incorporating 3M FR reflective tapes and trims eg. retroreflective style 8935  
Lasts 3 to 5 times longer than cotton treated FR fabrics  
Available in light weight down to 150 gsm without sacrificing compliance  
Breathable, transports moisture away from the skin helping the wearer feel cool and dry  
Washing up to 90 degC  
Lasts for the life of the garment, Nomex is a fibre that never washes out

Arc Thermal Performance Value, APTV =6.8 cal/cm2 for lightweight cloth. This reading increases as fabric weight increases  
Heat Attenuation Factor, HAF=74%

To order PRIMETECH Nomex' by DuPont™, contact your local Prime Mover representative or head office for more details. Why wait, join Prime NOW in the latest and greatest fabric and product technology the world has to offer.

3M Scotchlite™ Reflective Material

## Instead of a Hop, Skip and a Jump, it's ORDER, BRAND and SHIP! IN HOUSE EMBROIDERY

Sorry if this is a boring question but it must be asked –

Question - Why do so many people love running around in circles wasting precious time and money trying to embroider company logos and names onto Workwear?

Answer – Prime Mover haven't any idea why as we have a very simple and easy solution – LET PRIME MOVER HANDLE EVERYTHING IN HOUSE UNDER THE ONE ROOF!

That's right! Order a shirt or pant or any product within this catalogue and we will handle all of the branding process for you and deliver the product to your door the way it should be delivered – complete with embroidery, cleaned and folded into its original packaging.

We just love to make it easier for you, so take time out from the stress of worrying about branding. Prime Mover will digitise/design in house, sample and produce, all using the latest Barudan embroidery machines situated within our own warehouses.

Join the thousands who already have seen the light, email us – [sales@primemoverworkwear.com.au](mailto:sales@primemoverworkwear.com.au) or give us a tingle on 1300 088 966. We can't wait to make your life easier.

## Hello it's you again – still reading hey? Well whilst you are here we do this as well – Made to order products

Have you ever wanted a 4 legged pant or a jacket with 3 sleeves? No, neither have we but the fact is that Prime Mover Workwear could make these items for you if you really wanted!

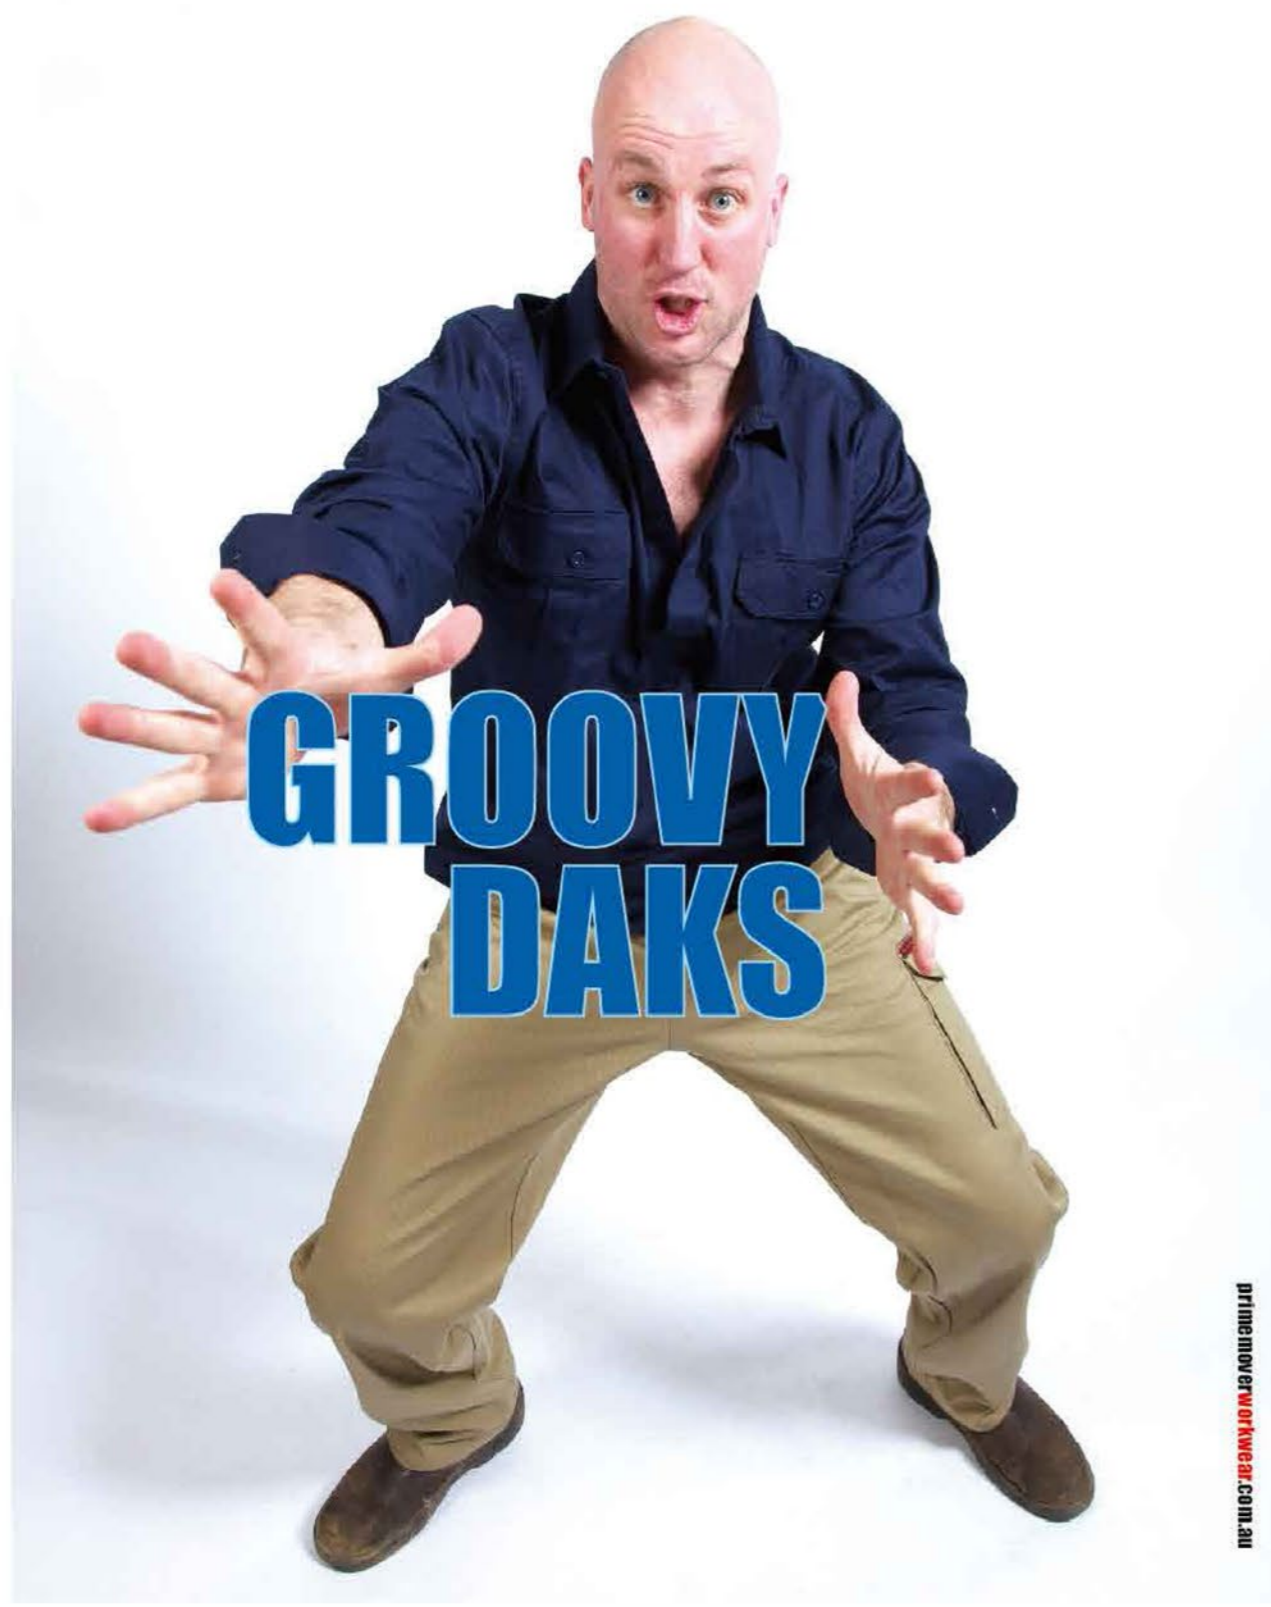

Our in house special made to order section is busy producing items for many of our customers who have a requirement that falls outside our stock range. Whether a special type of drill shirt for a site in WA, or a freezer jacket for a cooler storage plant in Adelaide, if we don't already have it, we will make it for you.

Due to our manufacturing capabilities and production staff overseeing the entire process from sampling to delivery, nothing is too hard and we can handle large volumes of product.

Certain details are required before we can proceed, so it's best to give us a call and discuss. But rest assured, this is a game we love to play in and made to order products make up a large part of our business.

### TCWP600 Apatchi Pant Colour Range: Navy or Khaki ■ ■

**Fabric Type:**

65% Polyester 35% Cotton

**Fabric Weight:**

280gsm

**Advantages:**

- Apatchi Poly Cotton work pant with strategically placed pockets for increased performance and functionality.
- Left leg cargo pocket with additional compartments, including secured phone pocket. Right leg has zipped up deep pocket as well as open utility pocket perfect for rulers. Both knees have a reinforced pad with secured touch fastener closure for knee pad provision. Deep hip pockets on the front and large back pockets with touch fastener closure.
- The Poly Cotton blend means that this pant is stronger than drill with less fading and shrinkage and oversized belt loops ensures maximum functionality and wearer comfort.
- Reinforced patches on knee to accommodate knee pads (entry from the bottom) with additional top ventilation point and reinforced patches on both hems and backseat pockets.
- Metal Zip and Metal Button Closure.

Our service is fantastic, but don't just take our word for it – these are extracts of unsolicited comments from some of our happy distributors within the last twelve months alone..... What are you waiting for????

"If all my suppliers were as good as you, I think my life would be pretty stress free."  
- WA Reseller

"Your customer service is proving to be second to none - Well Done & thank you very much!!!"  
- TAS Reseller

"Thank you so much, you are all awesome ! And my customer thinks so too!"  
- NSW Reseller

"Thank you, we love dealing with you because you are so efficient"  
- QLD Reseller

"It's so nice to deal with a company that nothing is a problem and the order goes through and sent out so quickly. These companies are far and few between lately. So thank you again."  
- VIC Reseller

"Always a pleasure doing business with you! And loving the gear coming from Perth!!!!!"  
- WA Reseller

"Wow you guys are on the ball! Greatly appreciate your quick response."  
- NSW Reseller

**primemoverworkwear**

"Thank you for all of your help, it is definitely appreciated and spoken about within our business."  
- WA Reseller

"These guys are incredible at customer service and I cannot recommend them more highly. Always a pleasure to deal with."  
- VIC Reseller

"Thank you very much for your efforts with this sale. You have helped us out immensely and our customer is more than happy".  
- TAS Reseller

"Your service is always amazing! Thanks for always doing 100% for us".  
- QLD Reseller

"Your customer service is worth bottling."  
- WA Reseller

"I definitely appreciate and value the amount of extra service-assistance I have received from Prime Mover"  
- WA End Customer

"Thank you for your speedy and accurate service. We remain very impressed with Prime Mover – you are killing all the other suppliers!"  
- NSW Reseller

## How to understand the Prime Mover product codes

Here are a few little helpful hints in how to understand our style codes.

**HV** – Hi Vis (Synthetic – such as polyester or a nylon material in Yellow, Orange or Red)

**WW** – Work Wear (either Cotton Drill or plain colours eg. Navy)

**J** – Jacket

**P** – Pant

**L** – Lightweight material

**NC** – Navy collar

**C** – Closed Front shirt (4 button closure instead of standard open front shirt)

**A** – 3M Reflective tape around the Arm

**X** – 3M Reflective tape is in a Cross Back Configuration

**888** – 4-in-1 jacket combination which includes a reversible vest and a rain jacket.

**999** – 3-in-1 jacket combination which includes a fleecy jacket and a rain jacket

### Example.

WWL8001A – Lightweight Cotton Drill Workshirt with tape around the arm.

# LARGER and SMALLER Sizing

As you've seen throughout this catalogue, Prime Mover has something to suit everyone's needs, including our extensive size range.

The majority of the Prime Mover Range has styles available in sizes from S-5XL. However, understanding the niche market for larger and smaller sizes, Prime Mover garments start as small as XXS and 67R in pants and can go up to such sizes as 7XL and 9XL in shirts and jackets, in selected styles.

For further information, call our friendly Customer Service Team on **1300 088 966.**
