HOT TOPICS

Suspensions and Expulsions over the Summer

House Bill 410, enacted by the 131st General Assembly, made changes to Ohio Revised Code Section 3313.66 so that division (A) now reads in part:

If at the time an out-of-school suspension is imposed there are fewer than ten school days remaining in the school year in which the incident that gives rise to the suspension takes place, the superintendent shall not apply any remaining part of the period of the suspension to the following school year. The superintendent may instead require the pupil to participate in a community service program or another alternative consequence for a number of hours equal to the remaining part of the period of the suspension. The pupil shall be required to begin the pupil's community service or alternative consequence during the first full week day of summer break. Each school district, in its discretion, may develop an appropriate list of alternative consequences.

Please note that this prohibition on tolling a punishment over the summer and into the next school year applies to out-of-school suspensions and not to expulsions.

Class of 2018 Graduation Requirements Transition

At its May meeting, the State Board of Education approved for the Class of 2018 two alternative graduation requirement recommendations, which are available on the BASA home page (www.basa-ohio.org) under Hot Topics. However, since graduation requirements are specified in the Ohio Revised Code, legislative action will be required. Obviously, it would be advantageous for all of next year's senior class to know what these alternatives are prior to the start of the 2017-2018 school year. BASA is aware that some legislators want to insert these recommendations into the current budget bill (Am. Sub. HB 49). If you support these alternatives being adopted, a message to your legislators to communicate your support would be helpful.

OIAAA/OHSAA Summer Institute

Registration is now open for the OIAAA/OHSAA Summer Institute to be held in Columbus on June 20, 21 and 22, 2017. Last summer's professional development sessions proved extremely popular as over 285 roster spots were filled for the different training sessions.

If you have recently hired an athletic director for your school, or if you want to provide best-practice professional development for your current athletic administrator, the OIAAA Summer Institute is a great opportunity to enhance skills for interscholastic athletic program oversight. There will be sessions to provide guidance for newly-hired A.Ds as well as sessions that will enhance the performance of those currently in charge of your middle and high school athletic programs. Our OIAAA nationally certified instructors, along with some members of the OHSAA staff, will deliver this valuable training.

New this summer will be a special "Outdoor Facilities Field Day" session which is open to not only A.Ds, but also your field operations staff as well as District Business personnel who oversee facilities and maintenance operations. This session will be a live "walk and talk" session with industry experts who will provide best-practices to insure field safety (field surface hardness/softness testing), current lighting technology, outdoor messaging and scoreboard options along with essential tips and considerations for schools whether you are upgrading, adding or renovating any outdoor athletic facility.

For a complete list of OIAAA Summer Institute courses, events and registration information , go to <https://www.oiaaa.org/news/2017/04/18/the-ohio-summer-leadership-institute/>

Important to know, too:

- * Any newly-hired A.D. (or those who have never taken LTC 501 or 502) can receive LTC 501 and LTC 502 FREE OF CHARGE by registering for their 2017-2018 OIAAA/NIAAA membership prior to June 9th.
- * Attendees will receive CEU credit toward their local professional development plans from taking individual classes at the Summer Institute
- * The NIAAA Certified Athletic Administrator (CAA) exam will be offered on Thursday, June 22nd at 6:00 p.m. You must be pre-registered through the NIAAA to sit for the test.

We hope you will encourage your middle school and/or high school athletic administrator to attend this important event. Feel free to contact me directly with any additional questions on the OIAAA Summer Institute.

University of Dayton/BASA Superintendent Licensure Program - Cohort

The *UD/BASA Superintendent Licensure Program-Cohort* is a unique collaborative program designed to maximize the professional expertise and resource base for superintendents from BASA and the approved licensure program and demanding curriculum of the University of Dayton. The program will provide a cohort of Ohio educators with a convenient, rigorous, practice-based program leading to an Ohio license as a superintendent. Up to 25 Ohio educators will be admitted into the program by the University of Dayton. The cohort group will complete the University of Dayton's approved program

Leading to Licensure as an Ohio Superintendent

Instruction of the coursework will be provided by University of Dayton faculty, R. Kirk Hamilton, Executive Director of BASA; David Axner, Deputy Executive Director of BASA and Jerry Klenke, CEO/President of the Ohio School Leadership Foundation.

Classes will be held at:
**Buckeye Association of
School Administrators
8050 N. High St.
Conference Room
Columbus, OH 43235**

To Register

- 1) Contact the University of Dayton for pre-qualification questions.
937-229-3738
- 2) Complete admission form for the EDA Superintendent Program through the University of Dayton at <https://apex.udayton.edu/admission/grad/>
- 3) Contact Janice Keivel with questions and to notify of intention to participate in the Cohort Program.

Each class will offer 3 semester hours of graduate credit.

University of Dayton Department of Educational Administration

Principles of academic practice form the structure of all EDA programs aligned with these professional standards. First, the pedagogical goals for you and all students in EDA include planned growth in your knowledge, performance, and dispositions, the constructs of our professional affiliation with ELCC.

Second, a “knowledge” base of effective school leadership exists and is the foundation of what you as a potential school leader need to master to be effective in producing improved student learning outcomes. “Performance” is defined by ELCC as those proficiencies in subject, professional and pedagogical knowledge, skills, and dispositions that benefit student learning. “Performance” is also described as related to the quality of institutional practice, in addition to individual practice. “Dispositions” are defined as those values, commitments, and professional ethics that influence your behaviors toward students, families, colleagues, and communities and affect student learning.

These principles include a heavy emphasis on pedagogy that is practice-related, problem-based, i.e., “field” related. In EDA courses you will be continually engaged in building your knowledge - knowledge that is based in research and applied to practice in real schools. Throughout each EDA program, you will apply sound leadership knowledge to problems of contemporary PK-12 public, Catholic and other non-public schools.

- Earn your license in one year
- Convenient and expedient weekend classes
- Instructors are professors with practice in the field
- Students will have access to major “players” in Ohio education
- Network within your cohort of educators from all over Ohio
